Description of Investments

The following information is to be added to the section of our Prospectus captioned "Description of Investments" on pages 3-4 of the Prospectus.

We employ a focused investment strategy: acquire single-tenant, freestanding properties, net-leased on a long term basis to investment grade and other credit-worthy tenants. From a geographical standpoint, our target properties: (i) enjoy a strong location on "Main Street, USA," e.g. pharmacies, banks, restaurants, gas/convenience stores; or (ii) are situated along high traffic transit corridors at locations carefully selected by the corporate tenant to support operationally essential corporate distribution/warehouse and logistical facilities.

We believe that American corporations, seeking to reduce the costs of distributing their goods and services, are re-evaluating supply chain management and distribution/warehouse capabilities. We believe that this has led to an increased need for well-located real estate from which corporations may cost efficiently aggregate from suppliers and deploy to their regional retail stores. We consider these two operationally essential categories as complementary to our overall portfolio.

Real Property Investments
