Form 10-Q
May 13, 2010

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended April 3, 2010

or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Commission File No. 1-9973

THE MIDDLEBY CORPORATION
(Exact Name of Registrant as Specified in its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

36-3352497
(I.R.S. Employer Identification No.)

1400 Toastmaster Drive, Elgin, Illinois
(Address of Principal Executive Offices)

60120
(Zip Code)

Registrant's Telephone No., including Area Code (847) 741-3300

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "accelerated filer, large accelerated filer and smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of May 7, 2010, there were 18,562,737 shares of the registrant's common stock outstanding.

THE MIDDLEBY CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

April 3, 2010
(Unaudited)

1) Summary of Significant Accounting Policies

A) Basis of Presentation

The condensed consolidated financial statements have been prepared by The Middleby Corporation (the "company"), pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements are unaudited and certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the company believes that the disclosures are adequate to make the information not misleading. These financial statements should be read in conjunction with the financial statements and related notes contained in the company's 2009 Form 10-K.

In the opinion of management, the financial statements contain all adjustments necessary to present fairly the financial position of the company as of April 3, 2010 and January 2, 2010, and the results of operations for the three months ended April 3, 2010 and April 4, 2009 and cash flows for the three months ended April 3, 2010 and April 4, 2009.

The company evaluated subsequent events through the filing date of these financial statements.

B) Non-Cash Share-Based Compensation

The company estimates the fair value of market-based stock awards and stock options at the time of grant and recognizes compensation cost over the vesting period of the awards and options. Non-cash share-based compensation expense was \$3.2 million and \$2.7 million for the first quarter of 2010 and 2009, respectively.

C) Income Tax Contingencies

On December 31, 2006, the company adopted the provisions of Accounting Standards Codification ("ASC") 740 "Income Taxes". This interpretation prescribes a comprehensive model for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. ASC 740 states that a tax benefit from an uncertain tax position may be recognized only if it is "more likely than not" that the position is sustainable, based on its technical merits. The tax benefit of a qualifying position is the largest amount of tax benefit that is greater than 50% likely of being realized upon settlement with a taxing authority having full knowledge of all relevant information.

As of January 2, 2010, the total amount of liability for unrecognized tax benefits related to federal, state and foreign taxes was approximately \$20.3 million (of which \$12.9 would impact the effective tax rate if recognized) plus approximately \$2.0 million of accrued interest and \$2.2 million of penalties. As of April 3, 2010, there were no significant changes in the total amount of liability for unrecognized tax benefits. It is reasonably possible that the amounts of unrecognized tax benefits associated with state, federal and foreign tax positions may decrease over the next twelve months due to expiration of a statute or completion of an audit. While a reasonable range of the amount cannot be determined, the company believes such decrease would not be material.

The company operates in multiple taxing jurisdictions; both within the United States and outside of the United States, and faces audits from various tax authorities. The company remains subject to examination until the statute of limitations expires for the respective tax jurisdiction. Within specific countries, the company and its operating subsidiaries may be subject to audit by various tax authorities and may be subject to different statute of limitations expiration dates. A summary of the tax years that remain subject to examination in the company's major tax jurisdictions are:

United States – federal	2007 - 2009
United States – states	2002 - 2009
China	2002 - 2009
Canada	2009
Denmark	2006 - 2009
Italy	2008 - 2009
Mexico	2005 - 2009
Philippines	2006 - 2009
South Korea	2005 - 2009
Spain	2007 - 2009
Taiwan	2007 - 2009
United Kingdom	2007 - 2009

D)

Fair Value Measures

On December 30, 2007 (first day of fiscal year 2008), the company adopted the provisions of ASC 820 "Fair Value Measurements and Disclosures". This statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosure about fair value measurements.

ASC 820 defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into the following levels:

Level 1 – Quoted prices in active markets for identical assets or liabilities

Level 2 – Inputs, other than quoted prices in active markets, that are observable either directly or indirectly.

Level 3 – Unobservable inputs based on our own assumptions.

The company's financial assets that are measured at fair value are categorized using the fair value hierarchy at April 3, 2010 are as follows (in thousands):

	Fair Value Level 1	Fair Value Level 2	Fair Value Level 3	Total
Financial Assets:				
None	—	—	—\$	—
Financial Liabilities:				
Interest rate swaps	—	2,844	—\$	2,844
Contingent consideration	—	—	4,134 \$	4,134

The contingent consideration relates to an earnout provision recorded in conjunction with the acquisition of CookTek LLC. See Note 2 for more information.

As of April 3, 2010, certain fixed assets were measured at fair value on a nonrecurring basis as the result of a plant consolidation initiative in 2009. The fixed assets were valued using measurements classified as Level 2.

2) Acquisitions and Purchase Accounting

The company operates in a highly fragmented industry and has completed numerous acquisitions over the past several years as a component of its growth strategy. The company has acquired industry leading brands and technologies to position itself as a leader in the commercial foodservice equipment and food processing equipment industries.

The company has accounted for all business combinations using the purchase method to record a new cost basis for the assets acquired and liabilities assumed. The difference between the purchase price and the fair value of the assets acquired and liabilities assumed has been recorded as goodwill in the financial statements. The results of operations are reflected in the consolidated financial statements of the company from the date of acquisition.

CookTek

On April 26, 2009, the company completed its acquisition of substantially all of the assets and operations of CookTek LLC (“CookTek”), the leading manufacturer of induction cooking and warming systems for a purchase price of \$8.0 million in cash. An additional deferred payment of \$1.0 million is also due to the seller on the first anniversary of the acquisition. Additional contingent payments are also payable over the course of four years upon the achievement of certain sales targets.

The following estimated fair values of assets acquired and liabilities assumed are provisional and are based on the information that was available as of the acquisition date to estimate the fair value of assets acquired and liabilities assumed. Measurement period adjustments reflect new information obtained about facts and circumstances that existed as of the acquisition date (in thousands):

	(as initially reported)		Measurement Period (as adjusted)	
	Apr 26, 2009	Adjustments	Apr 26, 2009	
Current assets	\$ 2,595	\$ (12)	\$ 2,583	
Property, plant and equipment	152	—	152	
Goodwill	11,544	(5,649)	5,895	
Other intangibles	3,622	3,000	6,622	
Current liabilities	(3,428)	165	(3,263)	
Other non-current liabilities	(6,485)	2,496	(3,989)	
Total cash paid	\$ 8,000	\$ —	\$ 8,000	
Deferred cash payment	1,000	—	1,000	
Contingent consideration	7,360	(2,660)	4,700	
Net assets acquired and liabilities assumed	\$ 16,360	\$ (2,660)	\$ 13,700	

The CookTek purchase agreement included an earnout provision providing for contingent payments due to the sellers to the extent certain financial targets are exceeded. The earnout amounts are payable in the four consecutive years subsequent to the acquisition date if CookTek is to exceed certain sales targets for each of those years. The earnout payment will amount to 10% of the sales in excess of the target for each of the respective years. There is no cap on the potential earnout payment, however, the company’s estimated probable range of the contingent consideration is between \$0 and \$10 million. The contractual obligation associated with the contingent earnout provision recognized on the acquisition date is \$4.7 million. This amount was determined based on an income approach.

The goodwill and \$3.5 million of other intangibles associated with the trade name are subject to the non-amortization provisions of ASC 350. Other intangibles also includes less than \$0.1 million allocated to backlog, \$0.7 million allocated to developed technology and \$2.4 million allocated to customer relationships which are to be amortized over periods of 3 months, 6 years and 5 years, respectively. Goodwill and other intangibles of CookTek are allocated to the Commercial Foodservice Equipment Group for segment reporting purposes. These assets are expected to be deductible for tax purposes.

The company believes that information gathered to date provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed but the company is waiting for additional information necessary to finalize those fair values. Thus, the provisional measurements of fair value set forth above are subject to change. Such changes are not expected to be significant. The company expects to complete the purchase price allocation as soon as practicable but no later than one year from the acquisition date.

Anets

On April 30, 2009, the company completed its acquisition of substantially all of the assets and operations of Anetsberger Brothers, Inc. (“Anets”), a leading manufacturer of griddles, fryers and dough rollers, for a purchase price of \$3.4 million. An additional deferred payment of \$0.5 million is due to the seller upon the achievement of certain transition objectives.

The following estimated fair values of assets acquired and liabilities assumed are provisional and are based on the information that was available as of the acquisition date to estimate the fair value of assets acquired and liabilities assumed (in thousands):

	Apr 30, 2009
Current assets	\$ 2,210
Goodwill	3,320
Other intangibles	1,085
Current liabilities	(3,107)
Other non-current liabilities	(150)
Total cash paid	\$ 3,358
Deferred cash payment	500
Net assets acquired and liabilities assumed	\$ 3,858

The goodwill and \$0.9 million of other intangibles associated with the trade name are subject to the non-amortization provisions of ASC 350. Other intangibles also includes less than \$0.1 million allocated to developed technology and \$0.2 million allocated to customer relationships which are to be amortized over periods of 3 years and 3 years, respectively. Goodwill and other intangibles of Anets are allocated to the Commercial Foodservice Equipment Group for segment reporting purposes. These assets are expected to be deductible for tax purposes.

The company believes that information gathered to date provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed but the company is waiting for additional information necessary to finalize those fair values. Thus, the provisional measurements of fair value set forth above are subject to change. Such changes are not expected to be significant. The company expects to complete the purchase price allocation as soon as practicable but no later than one year from the acquisition date.

Doyon

On December 14, 2009, the company completed its acquisition of Doyon Equipment, Inc., a leading Canadian manufacturer of baking ovens for the commercial foodservice industry, for a purchase price of approximately \$5.8 million. The purchase price is subject to adjustment based upon a working capital provision within the purchase agreement.

The following estimated fair values of assets acquired and liabilities assumed are provisional and are based on the information that was available as of the acquisition date to estimate the fair value of assets acquired and liabilities assumed (in thousands):

Dec 14, 2009

Current assets	\$	5,034
Property, Plant and Equipment		1,876
Goodwill		191
Intangibles		2,355
Current maturities of long-term debt		(285)
Current liabilities		(2,105)
Long-term debt		(1,081)
Other non-current liabilities		(166)
Total cash paid	\$	5,819

The goodwill and \$1.5 million of other intangibles associated with the trade name are subject to the non-amortization provisions of ASC 350. Other intangibles also includes \$0.6 million allocated to developed technology and \$0.3 million allocated to customer relationships which are to be amortized over periods of 6 years and 5 years, respectively. Goodwill and other intangibles of Doyon are allocated to the Commercial Foodservice Equipment Group for segment reporting purposes. These assets are not expected to be deductible for tax purposes.

The company believes that information gathered to date provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed but the company is waiting for additional information necessary to finalize those fair values. Thus, the provisional measurements of fair value set forth above are subject to change. Such changes are not expected to be significant. The company expects to finalize the valuation of intangible assets and to complete the purchase price allocation as soon as practicable but no later than one year from the acquisition date.

3) Litigation Matters

From time to time, the company is subject to proceedings, lawsuits and other claims related to products, suppliers, employees, customers and competitors. The company maintains insurance to partially cover product liability, workers compensation, property and casualty, and general liability matters. The company is required to assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of accrual required, if any, for these contingencies is made after assessment of each matter and the related insurance coverage. The reserve requirement may change in the future due to new developments or changes in approach such as a change in settlement strategy in dealing with these matters. The company does not believe that any pending litigation will have a material adverse effect on its financial condition, results of operations or cash flows of the company.

4) Recently Issued Accounting Standards

In January 2010, the Financial Accounting Standards Board ("FASB") issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820), "Improving Disclosures about Fair Value Measurements" ("ASU No. 2010-06"). ASU 2010-06 requires new disclosures about significant transfers in and out of Level 1 and Level 2 fair value measurements and the reasons for such transfers and in the reconciliation for Level 3 fair value measurements, to disclose separately information about purchases, sales, issuances and settlements. The company adopted the provisions of ASU No. 2010-06 on January 3, 2010, except for disclosures about purchases, sales, issuances and settlements in the reconciliation for Level 3 fair value measurements. These disclosures will be effective for financial statements issued for fiscal years beginning after December 15, 2010. The adoption of ASU No. 2010-06 "Improving Disclosures about Fair Value Measurements" did not have a material impact on the company's financial position, results of operations or cash flows.

5) Other Comprehensive Income

The company reports changes in equity during a period, except those resulting from investments by owners and distributions to owners, in accordance with ASC 220, "Comprehensive Income."

Components of other comprehensive income were as follows (in thousands):

	Three Months Ended	
	Apr 3, 2010	April 4, 2009
Net earnings	\$ 13,762	\$ 14,067
Currency translation adjustment	(709)	(744)
Unrealized gain on interest rate swaps, net of tax	63	223
Comprehensive income	\$ 13,116	\$ 13,546

Accumulated other comprehensive income is comprised of unrecognized pension benefit costs of \$2.3 million net of taxes of \$0.6 million as of April 3, 2010 and January 2, 2010, foreign currency translation adjustments of \$1.8 million as of April 3, 2010 and \$1.1 million as of January 2, 2010 and an unrealized loss on interest rate swaps of \$1.5 million, net of taxes of \$1.0 million as of April 3, 2010 and January 2, 2010 respectively.

6) Inventories

Inventories are composed of material, labor and overhead and are stated at the lower of cost or market. Costs for inventory at two of the company's manufacturing facilities have been determined using the last-in, first-out ("LIFO") method. These inventories under the LIFO method amounted to \$16.4 million at April 3, 2010 and \$15.6 million at January 2, 2010 and represented approximately 18% and 17% of the total inventory in each respective period. Costs for all other inventory have been determined using the first-in, first-out ("FIFO") method. The company estimates reserves for inventory obsolescence and shrinkage based on its judgment of future realization. Inventories at April 3, 2010 and January 2, 2010 are as follows:

	Apr 3, 2010	Jan 2, 2010
	(in thousands)	
Raw materials and parts	\$ 51,001	\$ 51,071
Work-in-process	14,085	13,629
Finished goods	25,033	26,731
	90,119	91,431
LIFO adjustment	(791)	(791)
	\$ 89,328	\$ 90,640

7) Goodwill

Changes in the carrying amount of goodwill for the three months ended April 3, 2010 are as follows (in thousands):

	Commercial Foodservice	Food Processing	International Distribution	Total
Balance as of January 2, 2010	\$ 326,980	\$ 31,526	\$ —	\$ 358,506
Goodwill acquired during the year	—	—	—	—
Adjustments to prior year acquisitions	—	—	—	—
Exchange effect	(471)	—	—	(471)
Balance as of April 3, 2010	\$ 326,509	\$ 31,526	\$ —	\$ 358,035

8) Accrued Expenses

Accrued expenses consist of the following:

	Apr 3, 2010	Jan 2, 2010
	(in thousands)	
Accrued payroll and related expenses	\$ 15,341	\$ 19,988
Accrued warranty	14,421	14,265
Advance customer deposits	10,137	14,066
Accrued product liability and workers comp	10,129	9,877
Accrued customer rebates	6,569	12,980
Accrued professional services	4,226	4,931
Other accrued expenses	22,048	24,152

\$ 82,871 \$ 100,259

9) Warranty Costs

In the normal course of business the company issues product warranties for specific product lines and provides for the estimated future warranty cost in the period in which the sale is recorded. The estimate of warranty cost is based on contract terms and historical warranty loss experience that is periodically adjusted for recent actual experience. Because warranty estimates are forecasts that are based on the best available information, claims costs may differ from amounts provided. Adjustments to initial obligations for warranties are made as changes in the obligations become reasonably estimable.

A rollforward of the warranty reserve is as follows:

	Three Months Ended April 3, 2010 (in thousands)	
Beginning balance	\$	14,265
Warranty expense		5,970
Warranty claims		(5,814)
Ending balance	\$	14,421

10) Financing Arrangements

	Apr 3, 2010		Jan 2, 2010	
	(in thousands)			
Senior secured revolving credit line	\$	261,100	\$	265,900
Foreign loan		9,876		9,741
Total debt	\$	270,976	\$	275,641
Less: Current maturities of long-term debt		7,015		7,517
Long-term debt	\$	263,961	\$	268,124

Terms of the company's senior credit agreement provide for \$497.8 million of availability under a revolving credit line. As of April 3, 2010, the company had \$261.1 million of borrowings outstanding under this facility. The company also has \$7.8 million in outstanding letters of credit, which reduces the borrowing availability under the revolving credit line. Remaining borrowing availability under this facility, which is also reduced by the company's foreign borrowings, was \$219.0 million at April 3, 2010.

At April 3, 2010, borrowings under the senior secured credit facility are assessed at an interest rate of 1.0% above LIBOR for long-term borrowings or at the higher of the Prime rate and the Federal Funds Rate. At April 3, 2010 the average interest rate on the senior debt amounted to 1.31%. The interest rates on borrowings under the senior bank facility may be adjusted quarterly based on the company's defined indebtedness ratio on a rolling four-quarter basis. Additionally, a commitment fee based upon the indebtedness ratio is charged on the unused portion of the revolving credit line. This variable commitment fee amounted to 0.20% as of April 3, 2010.

In August 2006, the company completed its acquisition of Houno A/S in Denmark. This acquisition was funded in part with locally established debt facilities with borrowings in Danish Krone. On April 3, 2010 these facilities amounted to \$3.9 million in U.S. dollars, including \$2.0 million outstanding under a revolving credit facility and \$1.9 million of a term loan. The interest rate on the revolving credit facility is assessed at 1.25% above Euro LIBOR, which amounted to 3.80% on April 3, 2010. The term loan matures in 2013 and the interest rate is assessed at 5.05%.

In April 2008, the company completed its acquisition of Giga Grandi Cucine S.r.l in Italy. This acquisition was funded in part with locally established debt facilities with borrowings denominated in Euro. On April 3, 2010 these facilities amounted to \$4.5 million in U.S. dollars. The interest rate on the credit facilities is tied to six-month Euro LIBOR. At April 3, 2010, the average interest rate on these facilities was approximately 4.0%. The facilities mature in April of 2015.

In December 2009, the company completed its acquisition of Doyon in Canada. This acquisition was funded in part with locally established debt facilities with borrowings denominated in Canadian dollars. On April 3, 2010, these facilities amounted to \$1.5 million U.S. dollars. The borrowings under these facilities are collateralized by the assets of the company. The interest rate on these credit facilities is assessed at 0.75% above the prime rate. At April 3, 2010, the average interest rate on these facilities amounted to 3.0% and 3.7%. These facilities mature in 2017.

The company's debt is reflected on the balance sheet at cost. Based on current market conditions, the company believes its interest rate margins on its existing debt are below the rate available in the market, which causes the fair value of debt to fall below the carrying value. The company believes the current interest rate margin is approximately 1.0% below current market rates. However, as the interest rate margin is based upon numerous factors, including but not limited to the credit rating of the borrower, the duration of the loan, the structure and restrictions under the debt agreement, current lending policies of the counterparty, and the company's relationships with its lenders, there is no readily available market data to ascertain the current market rate for an equivalent debt instrument. As a result, the current interest rate margin is based upon the company's best estimate based upon discussions with its lenders.

The company estimated the fair value of its loans by calculating the upfront cash payment a market participant would require to assume the company's obligations. The upfront cash payment is the amount that a market participant would be able to lend at April 3, 2010 to achieve sufficient cash inflows to cover the cash outflows under the company's senior revolving credit facility assuming the facility was outstanding in its entirety until maturity. Since the company maintains its borrowings under a revolving credit facility and there is no predetermined borrowing or repayment schedule, for purposes of this calculation the company calculated the fair value of its obligations assuming the current amount of debt at the end of the period was outstanding until the maturity of the company's senior revolving credit facility in December 2012. Although borrowings could be materially greater or less than the current amount of borrowings outstanding at the end of the period, it is not practical to estimate the amounts that may be outstanding during future periods. The fair value of the company's senior debt obligations as estimated by the company based upon its assumptions is approximately \$263.7 million at April 3, 2010, as compared to the carrying value of \$270.9 million.

The carrying value and estimated aggregate fair value, based primarily on market prices, of debt is as follows (dollars in thousands):

	April 3, 2010		January 2, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Total debt	\$ 270,976	\$ 263,689	\$ 275,641	\$ 267,632

The company believes that its current capital resources, including cash and cash equivalents, cash generated from operations, funds available from its revolving credit facility and access to the credit and capital markets will be sufficient to finance its operations, debt service obligations, capital expenditures, product development and integration expenditures for the foreseeable future.

The company has historically entered into interest rate swap agreements to effectively fix the interest rate on its outstanding debt. The agreements swap one-month LIBOR for fixed rates. As of April 3, 2010 the company had the following interest rate swaps in effect:

Notional Amount	Fixed Interest Rate	Effective Date	Maturity Date
15,000,000	1.220%	11/23/09	11/23/11
20,000,000	1.800%	11/23/09	11/23/12
25,000,000	3.670%	09/23/08	09/23/11
10,000,000	3.460%	09/08/08	09/06/11
15,000,000	3.130%	09/08/08	09/06/10
10,000,000	3.032%	02/06/08	02/06/11
20,000,000	1.560%	03/11/10	12/11/12
10,000,000	1.120%	03/11/10	03/11/12
10,000,000	3.590%	06/10/08	06/10/11
20,000,000	3.350%	06/10/08	06/10/10

The terms of the senior secured credit facility limit the paying of dividends, capital expenditures and leases, and require, among other things, ratios of indebtedness of 3.5 debt to earnings before interest, taxes, depreciation and amortization ("EBITDA") and fixed charge coverage of 1.25 EBITDA to fixed charges. The credit agreement also provides that if a material adverse change in the company's business operations or conditions occurs, the lender could declare an event of default. Under terms of the agreement, a material adverse effect is defined as (a) a material adverse change in, or a material adverse effect upon, the operations, business properties, condition (financial and otherwise) or prospects of the company and its subsidiaries taken as a whole; (b) a material impairment of the ability of the company to perform under the loan agreements and to avoid any event of default; or (c) a material adverse effect upon the legality, validity, binding effect or enforceability against the company of any loan document. A material adverse effect is determined on a subjective basis by the company's creditors. The credit facility is secured by the capital stock of the company's domestic subsidiaries, 65% of the capital stock of the company's foreign subsidiaries and substantially all other assets of the company. At April 3, 2010, the company was in compliance with all covenants pursuant to its borrowing agreements.

11) Financial Instruments

ASC 815 "Derivatives and Hedging" requires an entity to recognize all derivatives as either assets or liabilities and measure those instruments at fair value. Derivatives that do not qualify as a hedge must be adjusted to fair value in earnings. If the derivative does qualify as a hedge under ASC 815, changes in the fair value will either be offset against the change in fair value of the hedged assets, liabilities or firm commitments or recognized in other accumulated comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a hedge's change in fair value will be immediately recognized in earnings.

Foreign Exchange: The company has entered into derivative instruments, principally forward contracts to reduce exposures pertaining to fluctuations in foreign exchange rates. As of April 3, 2010, the company had no forward contracts outstanding.

Interest Rate: The company has entered into interest rate swaps to fix the interest rate applicable to certain of its variable-rate debt. The agreements swap one-month LIBOR for fixed rates. The company has designated these swaps as cash flow hedges and all changes in fair value of the swaps are recognized in accumulated other comprehensive income. As of April 3, 2010, the fair value of these instruments was a loss of \$2.9 million. The change in fair value of these swap agreements in the first three months of 2010 was a gain of \$0.1 million, net of taxes.

A summary of the company's interest rate swaps is as follows:

	Location	Three months ended	
		Apr. 3, 2010	Apr. 4, 2009
Fair value	Other non-current liabilities	\$ (2,844)	\$ (5,406)
Gain/(loss) recognized in other comprehensive income	Other comprehensive income	\$ (876)	\$ (890)
Gain/(loss) reclassified from accumulated other comprehensive income (effective portion)	Interest expense	\$ (991)	\$ (1,163)
Gain recognized in income (ineffective portion)	Other expense	\$ 7	\$ 48

Interest rate swaps are subject to default risk to the extent the counterparty were unable to satisfy their settlement obligations under the interest rate swap agreements. The company reviews the credit profile of the financial institutions and assesses its creditworthiness prior to entering into the interest rate swap agreement. The interest rate swap agreements typically contain provisions that allow the counterparty to require early settlement in the event that the company becomes insolvent or is unable to maintain compliance with its covenants under its existing debt agreement.

12) Segment Information

The company operates in three reportable operating segments defined by management reporting structure and operating activities.

The Commercial Foodservice Equipment Group manufactures cooking equipment for the restaurant and institutional kitchen industry. This business segment has manufacturing facilities in California, Illinois, Michigan, New Hampshire, North Carolina, Tennessee, Texas, Vermont, Canada, China, Denmark, Italy and the Philippines. Principal product lines of this group include conveyor ovens, ranges, steamers, convection ovens, combi-ovens, broilers and steam cooking equipment, induction cooking systems, baking and proofing ovens, griddles, charbroilers, catering equipment, fryers, toasters, hot food servers, foodwarming equipment, griddles and coffee and beverage dispensing equipment. These products are sold and marketed under the brand names: Anets, Blodgett, Blodgett Combi, Blodgett Range, Bloomfield, CTX, Carter-Hoffmann, CookTek, Doyon, Frifri, Giga, Holman, Houno, Jade, Lang, MagiKitch'n, Middleby Marshall, Nu-Vu, Pitco, Southbend, Star, Toastmaster, TurboChef and Wells.

The Food Processing Equipment Group manufactures preparation, cooking, packaging and food safety equipment for the food processing industry. This business division has manufacturing operations in Wisconsin. Its principal products include batch ovens, belt ovens and conveyorized cooking systems sold under the Alkar brand name, packaging and food safety equipment sold under the RapidPak brand name and breadings, battering, mixing, slicing and forming equipment sold under the MP Equipment brand name.

The International Distribution Division provides product sales, distribution, export management, integrated design, and installation services through its operations in Australia, Belgium, China, France, Germany, India, Italy, Lebanon, Mexico, the Philippines, Russia, Saudi Arabia, Singapore, South Korea, Spain, Sweden, Taiwan, United Arab Emirates and the United Kingdom. The division sells the company's product lines and certain non-competing complementary product lines throughout the world. For a local country distributor or dealer, the company is able to provide a centralized source of foodservice equipment with complete export management and product support services.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The chief decision maker evaluates individual segment performance based on operating income. Management believes that intersegment sales are made at established arms-length transfer prices.

Net Sales Summary
(dollars in thousands)

	Three Months Ended			
	Apr 3, 2010		Apr 4, 2009	
	Sales	Percent	Sales	Percent
Business Divisions:				
Commercial				
Foodservice	\$ 136,235	84.8	\$ 163,529	90.1
Food Processing	20,146	12.5	12,865	7.1
International				
Distribution(1)	10,438	6.5	11,997	6.6
Intercompany sales				
(2)	(6,136)	(3.8)	(6,845)	(3.8)
Total	\$ 160,683	100.0%	\$ 181,546	100.0%

(1) Consists of sales of products manufactured by Middleby and products manufactured by third parties.

(2) Represents the elimination of sales from the Commercial Foodservice Equipment Group to the International Distribution Division

The following table summarizes the results of operations for the company's business segments(1)(in thousands):

	Commercial Foodservice	Food Processing	International Distribution	Corporate and Other (Eliminations)	(3)	Total
Three months ended April 3, 2010						
Net sales	\$ 136,235	\$ 20,146	\$ 10,438	\$ —	\$ (6,136)	\$ 160,683
Operating income	30,480	4,372	855	(9,272)	—	26,435
Depreciation and amortization expense	3,395	358	38	125	—	3,916
Net capital expenditures	1,322	62	17	—	—	1,401
Total assets	675,308	68,880	24,013	47,957	(5,498)	810,660
Long-lived assets	523,763	43,445	427	29,386	—	597,021
Three months ended April 4, 2009						
Net sales	\$ 163,529	\$ 12,865	\$ 11,997	\$ —	\$ (6,845)	\$ 181,546
Operating income	35,119	1,673	694	(9,650)	255	28,091
Depreciation and amortization expense	4,663	348	37	157	—	5,205
Net capital expenditures	1,549	24	59	238	—	1,870
Total assets	710,947	66,724	23,727	36,717	(6,135)	831,980
Long-lived assets	515,412	43,135	557	22,269	—	581,373

(1) Non-operating expenses are not allocated to the operating segments. Non-operating expenses consist of interest expense and deferred financing amortization, foreign exchange gains and losses and other income and expense items outside of income from operations.

(2) Includes corporate and other general company assets and operations.

(3) Includes elimination of intercompany sales, profit in inventory and intercompany receivables. Intercompany sale transactions are predominantly from the Commercial Foodservice Equipment Group to the International Distribution Division.

Long-lived assets by major geographic region are as follows (in thousands):

	Three Months Ended	
	Apr 3, 2010	Apr 4, 2009
United States and Canada	\$ 570,621	\$ 555,190
Asia	1,916	278
Europe and Middle East	24,279	25,692
Latin America	205	213
Total international	\$ 26,400	\$ 26,183
	\$ 597,021	\$ 581,373

Net sales by major geographic region, including those sales from the Commercial Foodservice Equipment Group direct to international customers, were as follows (in thousands):

	Three Months Ended	
	Apr 3, 2010	Apr 4, 2009
United States and Canada	\$ 128,929	\$ 158,532
Asia	8,913	5,307
Europe and Middle East	18,825	13,576
Latin America	4,016	4,131
Total international	\$ 31,754	\$ 23,014
	\$ 160,683	\$ 181,546

13) Employee Retirement Plans

(a) Pension Plans

The company maintains a non-contributory defined benefit plan for its employees at the Smithville, Tennessee facility, which was acquired as part of the Star acquisition. Benefits are determined based upon retirement age and years of service with the company. This defined benefit plan was frozen on April 1, 2008 and no further benefits accrue to the participants beyond this date. Plan participants will receive or continue to receive payments for benefits earned on or prior to April 1, 2008 upon reaching retirement age.

The company maintains a non-contributory defined benefit plan for its union employees at the Elgin, Illinois facility. Benefits are determined based upon retirement age and years of service with the company. This defined benefit plan was frozen on April 30, 2002 and no further benefits accrue to the participants beyond this date. Plan participants will receive or continue to receive payments for benefits earned on or prior to April 30, 2002 upon reaching retirement age. The employees participating in the defined benefit plan were enrolled in a newly established 401K savings plan on July 1, 2002, further described below.

The company also maintains a retirement benefit agreement with its Chairman. The retirement benefits are based upon a percentage of the Chairman's final base salary. Additionally, the company maintains a retirement plan for non-employee directors participating on the Board of Directors prior to 2004. This plan is not available to any new non-employee directors. The plan provides for an annual benefit upon a change in control of the company or retirement from the Board of Directors at age 70, equal to 100% of the director's last annual retainer, payable for a number of years equal to the director's years of service up to a maximum of 10 years.

In March 2010, the Patient Protection and Affordable Care Act and a reconciliation measure, the Health Care and Education Reconciliation Act of 2010, (collectively, the Act) were signed into law. The company is currently evaluating other provisions of the Act to determine its potential impact, if any, on health care benefit costs.

(b) 401K Savings Plans

The company maintains two separate defined contribution 401K savings plans covering all employees in the United States. These two plans separately cover the union employees at the Elgin, Illinois facility and all other remaining union and non-union employees in the United States. The company makes profit sharing contributions to the various plans in accordance with the requirements of the plan. Profit sharing contributions for the Elgin Union 401K savings plans are made in accordance with the agreement.

14) Subsequent Events

On May 5, 2010, the company announced that it had entered into an agreement to acquire the net assets and operations of Perfect Fry Company LTD, a leading manufacturer of ventless countertop frying units for the commercial foodservice industry. The transaction is expected to close in June 2010.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Informational Notes

This report contains forward-looking statements subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. The company cautions readers that these projections are based upon future results or events and are highly dependent upon a variety of important factors which could cause such results or events to differ materially from any forward-looking statements which may be deemed to have been made in this report, or which are otherwise made by or on behalf of the company. Such factors include, but are not limited to, volatility in earnings resulting from goodwill impairment losses which may occur irregularly and in varying amounts; variability in financing costs; quarterly variations in operating results; dependence on key customers; international exposure; foreign exchange and political risks affecting international sales; ability to protect trademarks, copyrights and other intellectual property; changing market conditions; the impact of competitive products and pricing; the timely development and market acceptance of the company's products; the availability and cost of raw materials; and other risks detailed herein and from time-to-time in the company's Securities and Exchange Commission filings, including the company's 2009 Annual Report on Form 10-K and Item 1A of this Form 10-Q.

The economic outlook for 2010 continues to be uncertain at this time, with turmoil in financial markets and unprecedented government intervention around the world. As a global business, the company's operating results are impacted by the health of the North American, European, Asian and Latin American economies. While the response by governments and central banks around the world may reduce volatility in the markets, the depth and duration of economic impact and the timing and strength of the recovery remain unpredictable.

Net Sales Summary
(dollars in thousands)

Results of Operations

The following table sets forth certain consolidated statements of earnings items as a percentage of net sales for the periods.

	Three Months Ended	
	Apr 3, 2010	Apr 4, 2009
Net sales	100.0%	100.0%
Cost of sales	60.5	62.1
Gross profit	39.5	37.9
Selling, general and administrative expenses	23.0	22.4
Income from operations	16.5	15.5
Net interest expense and deferred financing amortization	1.6	1.7
Other expense, net	0.2	0.2
Earnings before income taxes	14.7	13.6
Provision for income taxes	6.1	5.8
Net earnings	8.6%	7.8%

Three Months Ended April 3, 2010 Compared to Three Months Ended April 4, 2009

NET SALES. Net sales for the first quarter of fiscal 2010 were \$160.7 million as compared to \$181.5 million in the first quarter of 2009.

Net sales at the Commercial Foodservice Equipment Group amounted to \$136.2 million in the first quarter of 2010 as compared to \$163.5 million in the prior year quarter.

Net sales from the acquisitions of CookTek, Anets and Doyon which were acquired on April 26, 2009, April 30, 2009 and December 14, 2009, respectively accounted for an increase of \$7.1 million during the first quarter of 2010. Excluding the impact of acquisitions, net sales of commercial foodservice equipment decreased \$35.3 million, primarily as a result of a large order to a major restaurant chain that occurred in the prior year and was not repeated in 2010.

Net sales for the Food Processing Equipment Group amounted to \$20.1 million in the first quarter of 2010 as compared to \$12.9 million in the prior year quarter. Net sales of food processing equipment increased as economic conditions improved in comparison to the 2009 first quarter and capital spending budgets of food processors increased.

GROSS PROFIT. Gross profit decreased to \$63.5 million in the first quarter of 2010 from \$68.8 million in the prior year period, reflecting the impact of lower sales volumes. The gross margin rate was 39.5 % in the first quarter of 2010 as compared to 37.9% in the prior year quarter. The net increase in the gross margin rate reflects:

- Cost reduction initiatives that were instituted in 2009 due to economic conditions.
- Improved margins at certain of the newly acquired operating companies which have improved due to acquisition integration initiatives including cost savings from plant consolidations.
- Reduced material costs associated with supply chain initiatives.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Combined selling, general, and administrative expenses decreased from \$40.7 million in the first quarter of 2009 to \$37.0 million in the first quarter of 2010. As a percentage of net sales, operating expenses increased from 22.4% in the first quarter of 2009 to 23.0% in the first quarter of 2010. Selling expenses increased from \$16.3 million in the first quarter of 2009 to \$17.6 million in the first quarter of 2010. Selling expenses reflect increased costs of \$0.7 million associated the acquisitions of Cooktek, Anets and Doyon and increased costs of \$0.6 million related to compensation expenses offset by reduced costs of \$0.3 million associated with commission expense due to lower sales and lower commission rates. General and administrative expenses decreased from \$24.4 million in the first quarter of 2009 to \$19.4 million in the first quarter of 2010. General and administrative expenses reflect a decrease of \$2.3 million of costs related to manufacturing consolidation initiatives in the first quarter of 2009, a decrease of \$1.0 million associated with pension costs and a decrease of \$0.7 million associated with professional fees offset by \$0.7 million of increased costs in 2010 associated with the acquired operations of CookTek, Anets and Doyon and \$0.7 million associated with increased incentive based compensation.

NON-OPERATING EXPENSES. Interest and deferred financing amortization costs decreased to \$2.5 million in the first quarter of 2010 as compared to \$3.1 million in the first quarter of 2009, due to lower interest rates on lower average debt balances. Other expense of \$0.3 million in the first quarter of 2010 remained consistent with the first quarter of 2009. Other expense consists primarily of foreign exchange losses.

INCOME TAXES. A tax provision of \$9.9 million, at an effective rate of 42%, was recorded during the first quarter of 2010, as compared to a \$10.6 million provision at a 43% effective rate in the prior year quarter.

Financial Condition and Liquidity

During the three months ended April 3, 2010, cash and cash equivalents decreased by \$0.1 million to \$8.3 million at April 3, 2010 from \$8.4 million at January 2, 2010. Net borrowings decreased from \$275.6 million at January 2, 2010 to \$271.0 million at April 3, 2010.

OPERATING ACTIVITIES. Net cash provided by operating activities was \$6.8 million for the three month period ended April 3, 2010 compared to \$9.9 million for the three-month period ended April 4, 2009.

During the three months ended April 3, 2010, working capital levels changed due to normal business fluctuations, including the impact of increased seasonal working capital needs. These changes in working capital levels included a \$5.6 million increase in accounts receivable, a \$0.6 million decrease in inventory and a \$0.7 million increase in accounts payable. Prepaid and other assets decreased \$6.4 million primarily associated with the utilization of prepaid tax balances in the first quarter of 2010. Accrued expenses and other non-current liabilities also decreased by \$16.2 million primarily due to the payment of 2009 annual rebate and incentive compensation programs in the first quarter of 2010.

INVESTING ACTIVITIES. During the three months ended April 3, 2010, net cash used in investing activities amounted to \$3.0 million. This includes \$1.4 million of capital expenditures associated with additions and upgrades of production equipment and \$1.6 million associated with deferred payments to the sellers of Giga.

FINANCING ACTIVITIES. Net cash flows used by financing activities were \$4.0 million during the three months ended April 3, 2010. The net decrease in debt includes \$4.8 million in repayments under the company's \$497.8 million revolving credit facility utilized to fund the company's investing activities.

At April 3, 2010, the company was in compliance with all covenants pursuant to its borrowing agreements. Management believes that future cash flows from operating activities and borrowing availability under the revolving credit facility will provide the company with sufficient financial resources to meet its anticipated requirements for working capital, capital expenditures and debt amortization for the foreseeable future.

Recently Issued Accounting Standards

In January 2010, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820), “Improving Disclosures about Fair Value Measurements” (“ASU No. 2010-06”). ASU 2010-06 requires new disclosures about significant transfers in and out of Level 1 and Level 2 fair value measurements and the reasons for such transfers and in the reconciliation for Level 3 fair value measurements, to disclose separately information about purchases, sales, issuances and settlements. The company adopted the provisions of ASU No. 2010-06 on January 3, 2010, except for disclosures about purchases, sales, issuances and settlements in the reconciliation for Level 3 fair value measurements. These disclosures will be effective for financial statements issued for fiscal years beginning after December 15, 2010. The adoption of ASU No. 2010-06 “Improving Disclosures about Fair Value Measurements” did not have a material impact on the company’s financial position, results of operations or cash flows.

Critical Accounting Policies and Estimates

Management's discussion and analysis of financial condition and results of operations are based upon the company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses as well as related disclosures. On an ongoing basis, the company evaluates its estimates and judgments based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

Revenue Recognition: The company recognizes revenue on the sale of its products when risk of loss has passed to the customer, which occurs at the time of shipment, and collectibility is reasonably assured. The sale prices of the products sold are fixed and determinable at the time of shipment. Sales are reported net of sales returns, sales incentives and cash discounts based on prior experience and other quantitative and qualitative factors.

At the Food Processing Equipment Group, the company enters into long-term sales contracts for certain products. Revenue under these long-term sales contracts is recognized using the percentage of completion method prescribed by ASC 605-25-25 “Percentage of Completion Method of Recognizing Revenue under Construction Contracts” due to the length of time to fully manufacture and assemble the equipment. The company measures revenue recognized based on the ratio of actual labor hours incurred in relation to the total estimated labor hours to be incurred related to the contract. Because estimated labor hours to complete a project are based upon forecasts using the best available information, the actual hours may differ from original estimates. The percentage of completion method of accounting for these contracts most accurately reflects the status of these uncompleted contracts in the company's financial statements and most accurately measures the matching of revenues with expenses. At the time a loss on a contract becomes known, the amount of the estimated loss is recognized in the consolidated financial statements.

Property and equipment: Property and equipment are depreciated or amortized on a straight-line basis over their useful lives based on management's estimates of the period over which the assets will be utilized to benefit the operations of the company. The useful lives are estimated based on historical experience with similar assets, taking into account anticipated technological or other changes. The company periodically reviews these lives relative to physical factors, economic factors and industry trends. If there are changes in the planned use of property and equipment or if technological changes were to occur more rapidly than anticipated, the useful lives assigned to these assets may need to be shortened, resulting in the recognition of increased depreciation and amortization expense in future periods.

Long-lived assets: Long-lived assets (including goodwill and other intangibles) are reviewed for impairment annually and whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In assessing the recoverability of the company's long-lived assets, the company considers changes in economic conditions and makes assumptions regarding estimated future cash flows and other factors. Estimates of future cash flows are judgments based on the company's experience and knowledge of operations. These estimates can be significantly impacted by many factors including changes in global and local business and economic conditions, operating costs, inflation, competition, and consumer and demographic trends. If the company's estimates or the underlying assumptions change in the future, the company may be required to record impairment charges.

Warranty: In the normal course of business the company issues product warranties for specific product lines and provides for the estimated future warranty cost in the period in which the sale is recorded. The estimate of warranty cost is based on contract terms and historical warranty loss experience that is periodically adjusted for recent actual experience. Because warranty estimates are forecasts that are based on the best available information, claims costs may differ from amounts provided. Adjustments to initial obligations for warranties are made as changes in the obligations become reasonably estimable.

Litigation: From time to time, the company is subject to proceedings, lawsuits and other claims related to products, suppliers, employees, customers and competitors. The company maintains insurance to partially cover product liability, workers compensation, property and casualty, and general liability matters. The company is required to assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of accrual required, if any, for these contingencies is made after assessment of each matter and the related insurance coverage. The reserve requirements may change in the future due to new developments or changes in approach such as a change in settlement strategy in dealing with these matters. The company does not believe that any pending litigation will have a material adverse effect on its financial condition or results of operations.

Income taxes: The company operates in numerous foreign and domestic taxing jurisdictions where it is subject to various types of tax, including sales tax and income tax. The company's tax filings are subject to audits and adjustments. Because of the nature of the company's operations, the nature of the audit items can be complex, and the objectives of the government auditors can result in a tax on the same transaction or income in more than one state or country. The company initially recognizes the financial statement effects of a tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. For tax positions that meet the more-likely-than-not recognition threshold, the company initially and subsequently measures its tax positions as the largest amount of tax benefit that is greater than 50 percent likely of being realized upon effective settlement with the taxing authority. As part of the company's calculation of the provision for taxes, the company has recorded liabilities on various tax positions that are currently under audit by the taxing authorities. The liabilities may change in the future upon effective settlement of the tax positions.

Contractual Obligations

The company's contractual cash payment obligations as of April 3, 2010 are set forth below (in thousands):

	Amounts				Total
	Due	Long-term	Operating	Idle	Contractual
	From	Debt	Leases	Facility	Cash
	Acquisitions			Leases	Obligations
Less than 1 year	\$ 2,983	\$ 7,015	\$ 3,611	\$ 742	\$ 14,351
1-3 years	5,032	261,970	5,900	1,248	274,150
3-5 years	252	464	2,437	734	3,887
After 5 years	—	1,527	67	183	1,777
	\$ 8,267	\$ 270,976	\$ 12,015	\$ 2,907	\$ 294,165

The company has obligations to make \$8.3 million of purchase price payments to the sellers of Giga and CookTek that were deferred in conjunction with the acquisitions.

The company has contractual obligations under its various debt agreements to make interest payments. These amounts are subject to the level of borrowings in future periods and the interest rate for the applicable periods, and therefore the amounts of these payments is not determinable.

The company has \$7.8 million in outstanding letters of credit, which expire on April 4, 2010 to secure potential obligations under insurance programs.

Idle facility leases consists of obligations for manufacturing locations that were exited in conjunction with the company's manufacturing consolidation efforts. These lease obligations continue through June 2015. The obligations presented above do not reflect any anticipated sublease income from the facilities.

The projected benefit obligation of the company's defined benefit plans exceeded the plans' assets by \$10.4 million at the end of 2009 as compared to \$9.5 million at the end of 2008. The unfunded benefit obligations were comprised of a \$3.3 million under funding of the company's Smithville plan, which was acquired as part of the Star acquisition, \$0.9 million under funding of the company's union plan and \$6.2 million of under funding of the company's director plans. The company does not expect to contribute to the director plans in 2010. The company expects to continue to make minimum contributions to the Smithville and Elgin plan as required by ERISA, which are expected to be \$0.3 million and \$0.1 million, respectively in 2010.

The company places purchase orders with its suppliers in the ordinary course of business. These purchase orders are generally to fulfill short-term manufacturing requirements of less than 90 days and most are cancelable with a restocking penalty. The company has no long-term purchase contracts or minimum purchase obligations with any supplier.

The company has no activities, obligations or exposures associated with off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

The company is exposed to market risk related to changes in interest rates. The following table summarizes the maturity of the company's debt obligations.

Twelve Month Period Ending	Fixed Rate Debt	Variable Rate Debt
	(in thousands)	
April 3, 2010	\$ —	\$ 7,015
April 3, 2011	—	435
April 3, 2012	—	261,535
April 3, 2013	—	347
April 3, 2014 and thereafter	—	1,644
	\$ —	\$ 270,976

Terms of the company's senior credit agreement provide for \$497.8 million of availability under a revolving credit line. As of April 3, 2010, the company had \$261.1 million of borrowings outstanding under this facility. The company also has \$7.8 million in outstanding letters of credit, which reduces the borrowing availability under the revolving credit line. Remaining borrowing availability under this facility, which is also reduced by the company's foreign borrowings, was \$219.9 million at April 3, 2010.

At April 3, 2010, borrowings under the senior secured credit facility are assessed at an interest rate 1.0% above LIBOR for long-term borrowings or at the higher of the Prime rate and the Federal Funds Rate. At April 3, 2010 the average interest rate on the senior debt amounted to 1.31%. The interest rates on borrowings under the senior bank facility may be adjusted quarterly based on the company's defined indebtedness ratio on a rolling four-quarter basis. Additionally, a commitment fee, based upon the indebtedness ratio is charged on the unused portion of the revolving credit line. This variable commitment fee amounted to 0.20% as of April 3, 2010.

In August 2006, the company completed its acquisition of Houno A/S in Denmark. This acquisition was funded in part with locally established debt facilities with borrowings in Danish Krone. On April 3, 2010 these facilities amounted to \$3.9 million in U.S. dollars, including \$2.0 million outstanding under a revolving credit facility and \$1.9 million of a term loan. The interest rate on the revolving credit facility is assessed at 1.25% above Euro LIBOR, which amounted to 3.80% on April 3, 2010. The term loan matures in 2013 and the interest rate is assessed at 5.05%.

In April 2008, the company completed its acquisition of Giga Grandi Cucine S.r.l in Italy. This acquisition was funded in part with locally established debt facilities with borrowings denominated in Euro. On April 3, 2010 these facilities amounted to \$4.5 million in U.S. dollars. The interest rate on the credit facilities is tied to six-month Euro LIBOR. At April 3, 2010, the average interest rate on these facilities was approximately 4.0%. The facilities mature in April of 2015.

In December 2009, the company completed its acquisition of Doyon in Canada. This acquisition was funded in part with locally established debt facilities with borrowings denominated in Canadian dollars. On April 3, 2010, these facilities amounted to \$1.5 million U.S. dollars. The borrowings under these facilities are collateralized by the assets of the company. The interest rate on these credit facilities is assessed at 0.75% above the prime rate. At April 3, 2010, the average interest rate on these facilities amounted to 3.0% and 3.7%. These facilities mature in 2017.

The company believes that its current capital resources, including cash and cash equivalents, cash generated from operations, funds available from its revolving credit facility and access to the credit and capital markets will be sufficient to finance its operations, debt service obligations, capital expenditures, product development and integration expenditures for the foreseeable future.

The company has historically entered into interest rate swap agreements to effectively fix the interest rate on its outstanding debt. The agreements swap one-month LIBOR for fixed rates. As of April 3, 2010 the company had the following interest rate swaps in effect:

Notional Amount	Fixed Interest Rate	Effective Date	Maturity Date
15,000,000	1.220%	11/23/09	11/23/11
20,000,000	1.800%	11/23/09	11/23/12
25,000,000	3.670%	09/23/08	09/23/11
10,000,000	3.460%	09/08/08	09/06/11
15,000,000	3.130%	09/08/08	09/06/10
10,000,000	3.032%	02/06/08	02/06/11
20,000,000	1.560%	03/11/10	12/11/12
10,000,000	1.120%	03/11/10	03/11/12
10,000,000	3.590%	06/10/08	06/10/11
20,000,000	3.350%	06/10/08	06/10/10

The terms of the senior secured credit facility limit the paying of dividends, capital expenditures and leases, and require, among other things, a maximum ratio of indebtedness of 3.5 debt to earnings before interest, taxes, depreciation and amortization (“EBITDA”) and a minimum fixed charge coverage of 1.25 EBITDA to fixed charges. The credit agreement also provides that if a material adverse change in the company’s business operations or conditions occurs, the lender could declare an event of default. Under terms of the agreement a material adverse effect is defined as (a) a material adverse change in, or a material adverse effect upon, the operations, business properties, condition (financial and otherwise) or prospects of the company and its subsidiaries taken as a whole; (b) a material impairment of the ability of the company to perform under the loan agreements and to avoid any event of default; or (c) a material adverse effect upon the legality, validity, binding effect or enforceability against the company of any loan document. A material adverse effect is determined on a subjective basis by the company's creditors. The credit facility is secured by the capital stock of the company’s domestic subsidiaries, 65% of the capital stock of the company’s foreign subsidiaries and substantially all other assets of the company. At April 3, 2010, the company was in compliance with all covenants pursuant to its borrowing agreements.

Financing Derivative Instruments

The company has entered into interest rate swaps to fix the interest rate applicable to certain of its variable-rate debt. The agreements swap one-month LIBOR for fixed rates. The company has designated these swaps as cash flow hedges and all changes in fair value of the swaps are recognized in accumulated other comprehensive income. As of April 3, 2010, the fair value of these instruments was a loss of \$2.9 million. The change in fair value of these swap agreements in the first three months of 2010 was a gain of \$0.1 million, net of taxes.

Foreign Exchange Derivative Financial Instruments

The company uses foreign currency forward purchase and sale contracts with terms of less than one year to hedge its exposure to changes in foreign currency exchange rates. The company's primary hedging activities are to mitigate its exposure to changes in exchange rates on intercompany and third party trade receivables and payables. The company does not currently enter into derivative financial instruments for speculative purposes. In managing its foreign currency exposures, the company identifies and aggregates naturally occurring offsetting positions and then hedges residual balance sheet exposures. There were no forward contracts outstanding at the end of the quarter.

Item 4. Controls and Procedures

The company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of April 3, 2010, the company carried out an evaluation, under the supervision and with the participation of the company's management, including the company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the company's disclosure controls and procedures. Based on the foregoing, the company's Chief Executive Officer and Chief Financial Officer concluded that the company's disclosure controls and procedures were effective as of the end of this period.

During the quarter ended April 3, 2010, there has been no change in the company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

PART II. OTHER INFORMATION

The company was not required to report the information pursuant to Items 1 through 6 of Part II of Form 10-Q for the three months ended April 3, 2010, except as follows:

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Program	Maximum Number of Shares that May Yet be Purchased Under the Plan or Program
January 3 to January 30, 2010	—	—	—	627,332
January 31, 2010 to February 27, 2010	—	—	—	627,332
February 28, 2010 to April 3, 2010	—	—	—	627,332
Quarter ended April 3, 2010	—	—	—	627,332

In July 1998, the company's Board of Directors adopted a stock repurchase program that authorized the purchase of common shares in open market purchases. As of April 3, 2010, 1,172,668 shares had been purchased under the 1998 stock repurchase program.

Item 6. Exhibits

Exhibits – The following exhibits are filed herewith:

Exhibit 10.1 – Amended and Restated Employment Agreement, dated March 1, 2010, by and among The Middleby Corporation, Middleby Marshall Inc. and the Timothy J. FitzGerald (incorporated by reference to the company’s Current Report on Form 8-K filed on March 4, 2010).

Exhibit 31.1 – Rule 13a-14(a)/15d -14(a) Certification of the Chief Executive Officer as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 31.2 – Rule 13a-14(a)/15d -14(a) Certification of the Chief Financial Officer as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 32.1 – Certification by the Principal Executive Officer of The Middleby Corporation Pursuant to Rule 13A-14(b) under the Exchange Act and Section 906 of the Sarbanes-Oxley Act of 2002(18 U.S.C. 1350).

Exhibit 32.2 – Certification by the Principal Financial Officer of The Middleby Corporation Pursuant to Rule 13A-14(b) under the Exchange Act and Section 906 of the Sarbanes-Oxley Act of 2002(18 U.S.C. 1350).

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
