Section 1 – Registrant’s Business and Operations

Item 1.01 Entry into a Definitive Agreement

On April 6, 2011, Radiant Logistics, Inc. (the “Company”, “we” or “us”) closed on a previously announced Agreement and Plan of Merger (the “Agreement”) pursuant to which we acquired DBA Distribution Services, Inc. (“DBA”), a privately-held New Jersey corporation in a transaction valued at \$12.0 million. DBA operates under the trade name “Distribution by Air” and provides a full range of domestic and international transportation and logistics services across North America. The shares of DBA were acquired by us via a merger transaction pursuant to which DBA was merged into a newly-formed subsidiary of ours. The merger occurred in an arm’s-length transaction as no material relationship otherwise existed between us or any of the DBA shareholders, officers or directors prior to the transaction.

The \$12.0 million transaction consisted of cash of \$5.4 million paid at closing, the delivery of \$4.8 million in seller notes payable over the next three years and \$1.8 million in connection with the achievement of certain integration milestones, to be paid within 180 days after the milestones have been achieved, however, no later than the 18th month anniversary of the closing. We may, at our sole option, on or before the three month anniversary of the closing, elect to satisfy up to \$2.4 million of the seller notes through the issuance of shares of our common stock to be valued based upon a 30-day volume weighted average price to be calculated preceding the delivery of the shares. The seller notes may be subject to acceleration upon occurrence of a “Corporate Transaction” (as defined in the Form of Note), which includes a future sale of DBA or Radiant, or certain changes in corporate control. The cash component of the transaction was financed through a combination of our existing funds and funds available under an existing revolving credit facility provided by Bank of America, N.A.

The Merger Agreement contains standard and customary representations, warranties and covenants, and provides that each of Radiant and the DBA Shareholders will indemnify each other for certain losses, subject to certain time and dollar limits.

Founded in 1981, Distribution By Air services a diversified account base including manufacturers, distributors and retailers through a combination of company owned logistics centers located in Somerset, New Jersey and Los Angeles, California and twenty four agency offices across North America. Based on historic financial statements provided by its management, Distribution By Air generated approximately \$91.6 Million in revenues for the twelve months ended August 31, 2010. Distribution By Air will operate as our wholly-owned subsidiary once the acquisition is completed.

The foregoing information is intended as a summary of the reported transaction and is qualified in its entirety by reference to the complete text of the Agreement and Plan of Merger which was filed as Exhibit 2.1 to our Report on Form 8-K filed with the Securities and Exchange Commission on March 31, 2011.

On April 7, 2011, we issued a press release announcing the acquisition of DBA. A copy of the press release is attached as an exhibit to this Report.

DBA DISTRIBUTION SERVICES, INC.

NOTES TO FINANCIAL STATEMENTS

Note 1 - Organization and business:

DBA Distribution Services, Inc. (the "Company") was incorporated in the State of New Jersey on September 5, 1985. The Company is a domestic freight forwarder that operates two terminals and over twenty exclusive sales agencies throughout the United States. The Company also offers international freight forwarding and fulfillment services.

Note 2 - Summary of significant accounting policies:

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Concentrations of credit risk:

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of cash and cash equivalents and accounts receivable. The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. The Company places its cash and cash equivalents with high credit quality financial institutions. At times, such amounts may exceed Federally insured limits. The Company had cash and cash equivalent balances in excess of Federally insured limits of approximately \$2,718,000 and \$400,000 at August 31, 2010 and 2009, respectively. Concentrations of credit risk with respect to accounts receivables are limited by the large number of customers comprising the Company's customer base and their geographical dispersion. The Company closely monitors the extension of credit to its customers while maintaining allowances for potential credit losses. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on a history of past write-offs and collections and current credit considerations.

Equipment and leasehold improvements:

Equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. Depreciation for equipment is computed primarily using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the lesser of their estimated useful life or the life of the related lease. Amortization of equipment held under capital lease is included in depreciation.

Deferred rent:

Rent expense is recognized on a straight-line basis over the term of each operating lease and considers the impact of rent holidays and future rent increases.

DBA DISTRIBUTION SERVICES, INC.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of significant accounting policies (continued):

Revenue recognition:

Revenue is recognized when freight is received from the shipper or when freight leaves the Company's terminal with accrual of the estimated direct costs to complete delivery.

Advertising:

The Company expenses the costs of advertising as incurred. Advertising costs charged to operations amounted to \$6,485 and \$19,553 in 2010 and 2009, respectively.

Foreign currency transactions:

Assets and liabilities representing accounts payable denominated in foreign currencies are presented in United States dollars at exchange rates in effect at the end of the accounting period.

The Company utilizes forward currency contracts to reduce exposure to exchange rate risk. The Company uses these contracts to satisfy liabilities payable in a foreign currency. The Company recognizes derivatives, when material, as either assets or liabilities in the balance sheet and measures those instruments at fair value. Forward currency contracts qualify as fair value hedging instruments that give rise to foreign currency transaction gains and losses, which the Company recognizes in current earnings along with the change in the carrying amount of the hedged commitment. At August 31, 2010 and 2009, the Company's investments in foreign currency contracts are immaterial.

Income taxes:

The Company accounts for income taxes pursuant to the asset and liability method which requires deferred income tax assets and liabilities to be computed for temporary differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the temporary differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The Company adopted the new accounting for uncertainty in income taxes guidance on September 1, 2009. The adoption of that guidance did not result in the recognition of any unrecognized tax benefits and the Company has no unrecognized tax benefits at August 31, 2010. The Company's Federal and state income tax returns prior to fiscal year 2006 are closed and management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

Note 5 - Stock sale and purchase agreements:

On June 30, 2008, the Company and its then existing shareholders (the "Original Shareholders") entered into a Sale and Purchase Agreement (the "SPA") with an investment partnership (the "Partnership") which resulted in a recapitalization of the Company. In accordance with the provision of the SPA, the original shareholders amended the certificate of incorporation to increase the number of authorized common shares to 2,500,000 through a 1,000-for-1 stock split. The original shareholders then sold 25% of their total 500,000 outstanding shares to the Partnership.

The SPA provides for a second closing in which the Company is obligated to purchase from, and the Original Shareholders are obligated to sell to the Company, 222,222 of their shares for an amount determined to be \$1,764,910, which is based on a computation derived from their earnings for the fiscal year ending August 31, 2008, as defined in the SPA. The second closing occurred in February 2009. In connection with the second closing, the Partnership contributed \$500,000 which was recorded as additional paid-in capital. The Company used the proceeds from the \$500,000 contribution and issued subordinated notes payable to the Original Shareholders for the remaining \$1,264,910 (see Note 9.)

The SPA provides for a third closing in which the Company is obligated to purchase from, and the Original Shareholders are obligated to sell to the Company, an additional 85,471 of their shares at an amount determined to be \$0, which is based on a computation derived from their earnings for the fiscal year ending August 31, 2009, as defined in the SPA. The third closing occurred in February 2010.

DBA DISTRIBUTION SERVICES, INC.

NOTES TO FINANCIAL STATEMENTS

Note 6 - Stock-based compensation:

During 2010 and 2009, the Original Shareholders contributed 1,675 and 4,674 (as adjusted for the stock split) shares of their stock (the "Contributed Stock") to the Company, respectively. The Company simultaneously issued the Contributed Stock to certain key employees, which resulted in an increase in additional paid-in capital of \$6,245 and \$24,119 in 2010 and 2009, respectively, which have been reflected in the accompanying statement of stockholders' equity. Compensation expense of \$6,245 and \$24,119 has been reflected in the statements of operations for the fiscal years ended August 31, 2010 and 2009, respectively. The shares were fully vested upon issuance.

Note 7 - Stock option plan:

Effective June 30, 2008, the Company adopted the 2008 Stock Option Plan (the "Plan") the purpose of which is to aid the Company in recruiting and retaining key employees, officers, directors or consultants of outstanding ability and to motivate such employees, officers, directors or consultants to exert their best efforts on behalf of the Company by providing incentives through the granting of options. The Plan allows, at the administrator's discretion, the granting of up to 21,368 shares of the Company's common stock at an option price to be no less than the fair market value of the Company's common stock on the date such options are granted. Options granted under the Plan shall be exercisable at such time and upon such terms and conditions as may be determined by the administrator, in its sole discretion, but in no event shall an option be exercisable more than ten years after the date on which it is granted. Furthermore, no options shall be granted after the ten-year anniversary of the effective date. There were no options granted under the Plan during 2010 and 2009.

Note 8 - Line of credit:

During May 2009, the Company entered into a \$1,000,000 line of credit agreement (the "Line") with a bank, which expires in May 2011. Borrowings are collateralized by substantially all of the Company's assets. The Line is subject to certain financial covenants, as defined. The Line bears interest at either a base rate option or LIBOR option, as defined. There were no outstanding borrowings under this Line at August 31, 2010.

NOTES TO FINANCIAL STATEMENTS

Note 13- Income taxes:

The provision (credit) for income taxes consists of the following:

	2010	2009
Current:		
Federal	\$ 329,000	\$ (200,000)
State	42,000	(43,000)
Totals	371,000	(243,000)
Deferred:		
Federal	(201,000)	6,000
State	(30,000)	(19,000)
Totals	(231,000)	(13,000)
Totals	\$ 140,000	\$ (256,000)

Deferred tax assets (liabilities), net consist of the following:

	2010	2009
Deferred tax assets	\$ 612,000	\$ 396,000
Deferred tax liabilities	(135,000)	(150,000)
Net deferred tax assets	477,000	246,000
Current portion	211,000	268,000
Net long-term deferred tax assets (liabilities)	\$ 266,000	\$ (22,000)

Deferred tax assets arise primarily from certain accrued expenses which are not deductible for income tax purposes until paid and a provision for uncollectible accounts which is not deductible for income tax purposes until all collection efforts have ceased.

Deferred tax liabilities arise primarily from the use of accelerated depreciation method for income tax purposes.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management has determined that the realization of recorded deferred tax assets is more likely than not; accordingly, no valuation allowance has been recorded.

In 2009, the amount of tax expense (benefit) differs from the amount of expense (benefit) that would result from applying the statutory rates to pre-tax net income or loss primarily due to certain nondeductible expenses and the effects of income tax audit assessments and refund adjustments.
