ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

Ascena Retail Group, Inc., a Delaware corporation (“Ascena” or the “Company”), is a leading national specialty retailer of apparel for women and tween girls. On June 14, 2012, the Company acquired Charming Shoppes, Inc. (“Charming Shoppes”) and its related family of retail brands. Accordingly, the Company now operates, through its wholly owned subsidiaries, the following principal retail brands: **Justice**, **Lane Bryant**, **maurices**, **dressbarn** and **Catherines**. The Company now operates (through its subsidiaries) approximately 3,800 stores throughout the United States, Puerto Rico and Canada, with annual revenues on a pro forma basis of over \$4.5 billion for the fiscal year ended July 28, 2012, giving effect to the acquisition of Charming Shoppes as of the beginning of such year. Ascena and its subsidiaries are collectively referred to herein as the “Company,” “we,” “us,” “our” and “ourselves,” unless the context indicates otherwise.

The Company classifies its businesses into five segments following a brand-oriented approach: **Justice**, **Lane Bryant**, **maurices**, **dressbarn**, and **Catherines**. The **Justice** segment includes approximately 961 specialty retail and outlet stores, e-commerce operations, and certain licensed franchises in international territories. The **Justice** segment offers fashionable apparel under the **Justice** brand to girls who are ages 7 to 14 in an environment designed to match the energetic lifestyle of tween girls, and fashionable apparel to boys who are ages 7 to 14 under the **Brothers** brand. The **Lane Bryant** segment includes approximately 788 specialty retail and outlet stores, and e-commerce operations. The **Lane Bryant** segment offers fashionable and sophisticated plus-size apparel under multiple private labels to female customers in the 25 to 45 age range, including intimate apparel under the **Cacique** label. The **maurices** segment includes approximately 862 specialty retail and outlet stores, and e-commerce operations. The **maurices** brand offers up-to-date fashion designed to appeal to the 17 to 34 year-old female, with stores concentrated in small markets (approximately 25,000 to 100,000 people). The **dressbarn** segment includes approximately 833 specialty retail and outlet stores, and e-commerce operations. The **dressbarn** brand primarily attracts female consumers in the mid-30’s to mid-50’s age range and offers moderate-to-better quality career, special occasion and casual fashion to the working woman. The **Catherines** segment includes approximately 402 specialty retail and outlet stores, and e-commerce operations. The **Catherines** brand offers classic apparel and accessories for wear-to-work and casual lifestyles in a full range of plus sizes, generally catering to the female customer 45 years and older.

2. Basis of Presentation

Interim Financial Statements

The interim consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). The interim consolidated financial statements are unaudited. In the opinion of management, however, such consolidated financial statements contain all normal and recurring adjustments necessary to present fairly the consolidated financial condition, results of operations, comprehensive income and changes in cash flows of the Company for the interim periods presented. In addition, certain information and footnote disclosures normally included in financial statements prepared in accordance with the accounting principles generally accepted in the U.S. ("US GAAP") have been condensed or omitted from this report as is permitted by the SEC's rules and regulations. However, the Company believes that the disclosures herein are adequate to make the information presented not misleading.

The consolidated balance sheet data as of July 28, 2012 is derived from the audited consolidated financial statements included in the Company's Annual Report on Form 10-K filed with the SEC for the fiscal year ended July 28, 2012 (the "Fiscal 2012 10-K"), which should be read in conjunction with these interim financial statements. Reference is made to the Fiscal 2012 10-K for a complete set of financial statements.

Basis of Consolidation

The consolidated financial statements are prepared in accordance with US GAAP, and present the financial position, results of operations, comprehensive income and cash flows of the Company and all entities in which the Company has a controlling voting interest. The consolidated financial statements also include the accounts of any variable interest entities in which the Company is considered to be the primary beneficiary and such entities are required to be consolidated in accordance with US GAAP. There were no variable interest entities as of April 27, 2013.

All significant intercompany balances and transactions have been eliminated in consolidation.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could differ materially from those estimates.

Significant estimates inherent in the preparation of the consolidated financial statements include: the realizability of inventory; reserves for litigation and other contingencies; useful lives and impairments of long-lived tangible and intangible assets; accounting for income taxes and related uncertain tax positions; the valuation of stock-based compensation and related expected forfeiture rates; insurance reserves; and accounting for business combinations.

Fiscal Year

The Company utilizes a 52-53 week fiscal year ending on the last Saturday in July. As such, fiscal year 2013 will end on July 27, 2013 and will be a 52-week period (“Fiscal 2013”). Fiscal 2012 ended on July 28, 2012 and reflected a 52-week period (“Fiscal 2012”). The third quarter of Fiscal 2013 ended on April 27, 2013 and was a 13-week period. The third quarter of Fiscal 2012 ended on April 28, 2012 and was also a 13-week period.

The financial position and operating results of the Company’s newly acquired sourcing operations of Charming Shoppes located in Hong Kong (“Charming Sourcing”) are reported on a one-month lag. Accordingly, the Company’s operating results for the three and nine months ended April 27, 2013 include the operating results of Charming Sourcing for the three-month period from January 1, 2013 through March 31, 2013 and nine-month period from July 1, 2012 through March 31, 2013. The net effect of this reporting lag is not material to the consolidated financial statements.

Discontinued Operations

In connection with the acquisition of Charming Shoppes in June 2012, certain acquired businesses have been classified as a component of discontinued operations within the consolidated financial statements.

In particular, the Company announced, contemporaneously with the closing of the acquisition of Charming Shoppes, its intent to cease operating the acquired **Fashion Bug** business. The **Fashion Bug** business, consisting of approximately 600 retail stores, ceased operations in February 2013. The orderly liquidation of the related net assets is expected to be concluded during the fourth quarter of Fiscal 2013 and result in an immaterial adjustment to goodwill.

In addition, the Company also announced, contemporaneously with the closing of the acquisition of Charming Shoppes, its intent to sell the acquired **Figi's** business. The sale of the **Figi's** business, which markets food and specialty gift products, is expected to occur during the fourth quarter of Fiscal 2013.

As the **Fashion Bug** liquidation is substantially complete and the **Figi's** business is available for disposal in its present condition and active disposition efforts have already been implemented at prices that are reasonable in relation to current fair value, such businesses have been classified as discontinued operations within the consolidated financial statements. As such, assets and liabilities relating to discontinued operations have been segregated and separately disclosed in the balance sheets as of April 27, 2013 and July 28, 2012. In turn, operating results for those businesses, including \$13.4 million and \$400.3 million of revenues for the three-month and nine-month periods ended April 27, 2013, respectively, have also been segregated and reported separately in the consolidated statements of operations.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The major components of assets and liabilities related to discontinued operations are summarized below:

	April 27, 2013	July 28, 2012
	(millions)	
Accounts receivable	\$10.7	\$6.8
Inventories	7.1	77.2
Property and equipment, net	14.2	31.9
Other intangible assets, net	8.0	5.0
Other assets	3.1	12.7
Total assets related to discontinued operations	\$43.1	\$133.6
Accounts payable and other current liabilities	\$15.4	\$93.6
Lease-related liabilities	1.5	18.0
Other liabilities	0.2	7.0
Total liabilities related to discontinued operations	\$17.1	\$118.6

On January 29, 2013, **Fashion Bug** sold its distribution center for net proceeds of approximately \$16 million. The net proceeds of the sale were used to partially prepay the outstanding principal balance of the Company's six-year, variable-rate term loan during the third quarter of Fiscal 2013 (See Note 9 for further discussion).

Seasonality of Business

The Company's business is typically affected by seasonal sales trends primarily resulting from the timing of holiday and back-to-school shopping periods. In particular, **Justice** sales and operating profits tend to be significantly higher during the fall season which occurs during the first and second quarters of the fiscal year, as this includes the back-to-school period and the holiday selling period which is focused on gift-giving merchandise. The **dressbarn** and **maurices** brands have historically experienced lower earnings in the second fiscal quarter ending in January than during the three other fiscal quarters, reflecting the intense promotional environment that generally has characterized the holiday shopping season in recent years. The newly acquired **Lane Bryant** and **Catherines** brands typically experience peak sales during the Easter, Memorial Day and December holiday seasons. In addition, the Company's operating results and cash flows may fluctuate materially in any quarterly period depending on, among other things, increases or decreases in comparable store sales, adverse weather conditions, shifts in the timing of certain holidays and changes in merchandise mix. Accordingly, the Company's operating results and cash flows for the three-month and nine-month periods ended April 27, 2013 are not necessarily indicative of the operating results and cash flows that

may be expected for the full year of Fiscal 2013.

Reclassifications

Buying, Distribution and Occupancy Costs

Historically, the Company included buying, distribution and occupancy costs within cost of goods sold on the face of its statement of operations. However, in the fourth quarter of Fiscal 2012, in connection with conforming the financial presentation of Charming Shoppes, the Company decided to present each of the aggregate of buying, distribution and occupancy costs and gross margin separately on the face of its statement of operations. In addition, certain costs, such as store utility costs, were reclassified from selling, general and administrative expenses to buying, distribution and occupancy costs. Financial information for all prior periods has been reclassified in order to conform to the current period's presentation. There have been no changes in historical operating income or historical net income for any period as a result of these changes.

Other Reclassifications

Certain other immaterial reclassifications have been made to the prior period's financial information in order to conform to the current period's presentation.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

3. Summary of Significant Accounting Policies

Revenue Recognition

Revenue is recognized across all segments of the business when there is persuasive evidence of an arrangement, delivery has occurred, price has been fixed or is determinable, and collectability is reasonably assured.

Retail store revenue is recognized net of estimated returns at the time of sale to consumers. E-commerce revenue from sales of products ordered through the Company's retail internet sites and revenue from direct-mail orders through **Justice's** catazine are recognized upon delivery and receipt of the shipment by our customers. Such revenue also is reduced by an estimate of returns.

Reserves for estimated product returns are recorded based on historical return trends and are adjusted for known events, as applicable.

Gift cards, gift certificates and merchandise credits (collectively, "gift cards") issued by the Company are recorded as a deferred income liability until they are redeemed, at which point revenue is recognized. Gift cards do not have expiration dates. The Company recognizes income for unredeemed gift cards when the likelihood of a gift card being redeemed by a customer is remote and the Company determines that it does not have a legal obligation to remit the value of the unredeemed gift card to the relevant jurisdiction as unclaimed or abandoned property. Gift card breakage is included in net sales in the consolidated statements of operations, and historically has not been material.

In addition to retail-store and e-commerce sales, the **Justice** segment recognizes revenue from licensing arrangements with franchised stores, advertising and other "tween-right" marketing arrangements with partner companies, as well as merchandise shipments to other third-party retailers. Revenue associated with merchandise shipments is recognized at the time title passes and risk of loss is transferred to customers, which generally occurs at the date of shipment. Royalty payments received under license agreements for the use of the **Justice** trade name and amounts received in connection with advertising and marketing arrangements with partner companies are recognized when earned in accordance with the terms of the underlying agreements.

The Company accounts for sales and other related taxes on a net basis, thereby excluding such taxes from revenue.

Cost of Goods Sold

Cost of goods sold (“COGS”) consists of all costs of merchandise (net of purchase discounts and vendor allowances), merchandise acquisition costs (primarily commissions and import fees), in-bound freight to our distribution centers, and changes in reserve levels for inventory realizability and shrinkage.

Our cost of goods sold may not be comparable to those of other entities. Some entities, like us, exclude costs related to their distribution network, buying function and store occupancy costs from cost of goods sold and include them in other costs and expenses, whereas other entities include costs related to their distribution network, buying function and all store occupancy costs in their cost of goods sold.

Buying, Distribution and Occupancy Costs

Buying, distribution and occupancy costs consist of store occupancy and utility costs (excluding depreciation), out-bound freight and all costs associated with the buying and distribution functions.

Selling, General and Administrative Expenses

Selling, general and administrative expenses (“SG&A expenses”) consist of compensation and benefit-related costs for sales and store operations personnel, administrative personnel and other employees not associated with the functions described above under buying, distribution and occupancy costs. SG&A expenses also include advertising and marketing costs, information technology and communication costs, supplies for our stores and administrative facilities, insurance costs, legal costs and costs related to other administrative services.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Income Taxes

Income taxes are provided using the asset and liability method. Under this method, income taxes (i.e., deferred tax assets and liabilities, current taxes payable/refunds receivable and tax expense) are recorded based on amounts refundable or payable in the current year, and include the results of any differences between US GAAP and tax reporting. Deferred income taxes reflect the tax effect of certain net operating loss, capital loss and general business credit carry forwards and the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial statement and income tax purposes, as determined under enacted tax laws and rates. The Company accounts for the financial effect of changes in tax laws or rates in the period of enactment.

In addition, valuation allowances are established when management determines that it is more-likely-than-not that some portion or all of a deferred tax asset will not be realized. Tax valuation allowances are analyzed periodically and adjusted as events occur, or circumstances change, that warrant adjustments to those balances.

In determining the income tax provision for financial reporting purposes, the Company establishes a reserve for uncertain tax positions. If the Company considers that a tax position is “more-likely-than-not” of being sustained upon audit, based solely on the technical merits of the position, it recognizes the tax benefit. The Company measures the tax benefit by determining the largest amount that is greater than 50% likely of being realized upon settlement, presuming that the tax position is examined by the appropriate taxing authority that has full knowledge of all relevant information. These assessments can be complex and the Company often obtains assistance from external advisors. To the extent that the Company’s estimates change or the final tax outcome of these matters is different than the amounts recorded, such differences will impact the income tax provision in the period in which such determinations are made. If the initial assessment fails to result in the recognition of a tax benefit, the Company regularly monitors its position and subsequently recognizes the tax benefit if (i) there are changes in tax law or analogous case law that sufficiently raise the likelihood of prevailing on the technical merits of the position to “more-likely-than-not,” (ii) the statute of limitation expires, or (iii) there is a completion of an audit resulting in a settlement of that tax year with the appropriate agency. Uncertain tax positions are classified as current only when the Company expects to pay cash within the next twelve months. Interest and penalties, if any, are recorded within the provision for income taxes in the Company’s consolidated statements of operations and are classified on the consolidated balance sheets with the related liability for uncertain tax positions.

The Company’s liability for uncertain tax positions (including accrued interest and penalties), which is included in other non-current liabilities in the accompanying consolidated balance sheets, was \$49.3 million as of April 27, 2013 and \$61.7 million as of July 28, 2012. The Company’s liability for uncertain tax positions decreased by \$12.4 million

in the nine months ended April 27, 2013 primarily as a result of the reversal of certain liabilities associated with uncertain tax positions due largely to the expiration of applicable federal and state income tax statutes of limitations for certain years in the first quarter of Fiscal 2013 and the filing of certain accounting method changes for federal income tax purposes. The amount of this liability is subject to change based on future events including, but not limited to, the settlements of ongoing audits and/or the expiration of applicable statutes of limitations. Although the outcomes and timing of such events are highly uncertain, the Company anticipates that the balance of the liability for uncertain tax positions will decrease by approximately \$10.8 million, excluding interest and penalties, during the next twelve months. However, changes in the occurrence, expected outcomes and timing of those events could cause the Company's current estimate to change materially in the future.

Net Income Per Common Share

Basic net income per common share is computed by dividing the net income applicable to common shares after preferred dividend requirements, if any, by the weighted-average number of common shares outstanding during the period. Diluted net income per common share adjusts basic net income per common share for the effects of outstanding stock options, restricted stock, restricted stock units, convertible debt securities and any other potentially dilutive financial instruments, only in the periods in which such effect is dilutive under the treasury stock method.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The weighted-average number of common shares outstanding used to calculate basic net income per common share is reconciled to those shares used in calculating diluted net income per common share as follows:

	Three Months Ended		Nine Months Ended	
	April 27, 2013	April 28, 2012	April 27, 2013	April 28, 2012
	(millions)			
Basic	158.0	153.3	156.9	153.3
Dilutive effect of stock options, restricted stock and restricted stock units	5.3	6.6	5.9	5.8
Diluted shares	163.3	159.9	162.8	159.1

Options to purchase shares of common stock at an exercise price greater than the average market price of the common stock during the reporting period are anti-dilutive, and therefore not included in the computation of diluted net income per common share. In addition, the Company has outstanding restricted stock units that are issuable only upon the achievement of certain service and/or performance or market-based goals. Such performance or market-based restricted stock units are included in the computation of diluted shares only to the extent the underlying performance or market conditions (a) are satisfied prior to the end of the reporting period or (b) would be satisfied if the end of the reporting period were the end of the related contingency period and the result would be dilutive under the treasury stock method. As of April 27, 2013 and April 28, 2012, there was an aggregate of approximately 2.9 million and 3.2 million, respectively, of additional shares issuable upon the exercise of anti-dilutive options and/or the contingent vesting of performance-based and market-based restricted stock units that were excluded from the diluted share calculations.

4. Acquisitions and Dispositions

The Charming Shoppes Acquisition

In June 2012, the Company acquired Charming Shoppes, which owned and operated multiple retail brands through over 1,800 retail stores and e-commerce operations including: **Lane Bryant**; **Catherines**; **Fashion Bug**; and **Figi's**, in an all cash transaction at \$7.35 per share, for an aggregate purchase price of \$882.1 million (excluding the assumption of debt and transaction costs) (collectively, the “Charming Shoppes Acquisition”). The acquisition was funded with \$325 million from new borrowings including (a) a \$300 million six-year, variable-rate term loan and (b) \$25 million of borrowings under the Company’s then existing revolving credit facility, which was amended in connection with the

transaction (See Note 9 for further discussion). The remainder was funded through available cash and cash equivalents and the liquidation of substantially all of the Company's investment portfolio.

The Company accounted for the Charming Shoppes Acquisition under the purchase method of accounting for business combinations. Accordingly, the cost to acquire such assets was allocated to the underlying net assets in proportion to estimates of their respective fair values. Any excess of the purchase price over the estimated fair value of the net assets acquired was recorded as goodwill. Given the orderly liquidation of **Fashion Bug's** net assets will not be concluded until the fourth quarter of Fiscal 2013 and the ongoing sale process of **Figi's**, as discussed in Note 2, the allocation of the purchase price to the underlying net assets remains preliminary at this time. The Company does not expect to finalize its valuation of the net assets acquired until the fourth quarter of Fiscal 2013, particularly as it relates to those businesses. During the nine months ended April 27, 2013, the Company made certain adjustments to goodwill to more fairly reflect the fair value of the underlying net assets acquired. Such adjustments resulted in a \$17.0 million increase in miscellaneous net assets with a corresponding reduction to goodwill.

As adjusted during the nine months ended April 27, 2013, the acquisition cost of \$882.1 million was allocated to the acquired net assets on a preliminary basis based on their respective estimated fair values, as follows: cash and cash equivalents of \$203.5 million; inventories of \$192.0 million; net assets related to discontinued operations of \$80.2 million; other current and non-current assets of \$97.6 million; deferred tax assets (net of deferred tax liabilities) of \$13.4 million; property and equipment of \$170.6 million; non-tax deductible goodwill of \$341.8 million; intangible assets (consisting primarily of brands and trademarks) of \$270.7 million; current liabilities of \$198.5 million; long-term debt of \$146.2 million; and other net liabilities of \$143.0 million.

Acquisition-related, transaction costs of \$6.8 million were expensed as incurred during the third quarter of Fiscal 2012, and are reported separately in the consolidated statement of operations.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The results of operations of Charming Shoppes have been consolidated in the Company's results of operations commencing on June 14, 2012, the effective date of the Charming Shoppes Acquisition. Such post-acquisition results included in the Company's consolidated statement of operations for the three and nine months ended April 27, 2013 consist of the following:

	Three Months Ended April 27, 2013	Nine Months Ended April 27, 2013
	(millions)	
Net sales	\$ 351.2	\$ 987.3
Income (loss) from continuing operations	2.9	(22.2)
(Loss) income from discontinued operations, net of taxes	(1.7)	4.6
Net income (loss)	1.2	(17.6)

The above results include \$20.1 million of pre-tax charges for acquisition-related, integration and restructuring costs in the nine months ended April 27, 2013. Of this amount, \$6.9 million was recorded during the three months ended April 27, 2013.

The following unaudited pro forma financial information is presented to supplement the historical financial information presented herein relating to the Charming Shoppes Acquisition and the related redemption of substantially all of the Charming Shoppes convertible notes, as more fully described in Note 14 to the Company's consolidated financial statements included in the Fiscal 2012 10-K. This pro forma information has been prepared as if the Charming Shoppes Acquisition and related redemption of its convertible notes had occurred as of the beginning of Fiscal 2012. The pro forma financial information is not indicative of the operating results that would have been obtained had the transactions actually occurred as of that date, nor is it necessarily indicative of the Company's future operating results.

	Three Months Ended April 28, 2012	Nine Months Ended April 28, 2012
	(millions, except per share data)	
Pro forma net sales	\$ 1,130.3	\$ 3,393.5
Pro forma income from continuing operations	57.7	146.9
Pro forma net income from continuing operations per common share:		
Basic	0.38	0.96
Diluted	0.36	0.92

5. Inventories

Inventories substantially consist of finished goods merchandise. Inventory by brand is set forth below:

	April 27, 2013	July 28, 2012	April 28, 2012
	(millions)		
Justice	\$ 141.3	\$ 154.1	\$ 128.2
Lane Bryant ^(a)	152.4	139.3	—
maurices	84.9	94.1	87.1
dressbarn	119.6	111.1	133.6
Catherines ^(a)	39.9	34.8	—
Total inventories	\$ 538.1	\$ 533.4	\$ 348.9

^(a) The Charming Shoppes Acquisition was consummated on June 14, 2012 and, therefore, inventory amounts for **Lane Bryant** and **Catherines** are not included as of April 28, 2012.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

6. Investments

The Company classifies its investments in securities at the time of purchase as held-to-maturity, available-for-sale or trading, and re-evaluates such classifications on a quarterly basis. No material unrealized gains or losses on available-for-sale investments were recognized during any of the periods presented. As of the end of each period, the Company had no securities classified as held-to-maturity or trading.

During the second quarter of Fiscal 2013, the one remaining auction rate security with a book value of \$2.7 million and a par value of \$3.9 million at July 28, 2012 was redeemed at a par. As a result of the transaction, the accumulated unrealized loss was reversed and included in the net change in unrealized gains and losses on available-for-sale securities in the consolidated statements of comprehensive income during the nine months ended April 27, 2013. The redemption had no impact on net income. As of April 27, 2013, the Company's only investment was restricted cash, which is classified within short-term investments in the accompanying consolidated balance sheets.

7. Fair Value Measurements

Fair Value Measurements of Financial Instruments

Certain financial assets and liabilities are required to be carried at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Company utilizes market data or assumptions that it believes market participants would use in pricing the asset or liability, which would maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, including assumptions about risk and the risks inherent in the inputs to the valuation technique.

Cash, cash equivalents and restricted cash are recorded at carrying value, which approximates fair value. As the Company's primary debt obligations are variable rate, there are no significant differences between the fair value and carrying value of the Company's debt obligations.

The Company's non-financial instruments, which primarily consist of goodwill, intangible assets, and property and equipment, are not required to be measured at fair value on a recurring basis and are reported at carrying value. However, on a periodic basis whenever events or changes in circumstances indicate that their carrying value may not be recoverable (and at least annually for goodwill and other indefinite-lived intangible assets), non-financial instruments are assessed for impairment and, if applicable, written-down to (and recorded at) fair value.

8. Impairments

Long-Lived Assets Impairment

Property and equipment, along with other long-lived assets, are evaluated for impairment periodically whenever events or changes in circumstances indicate that their related carrying amounts may not be recoverable. In evaluating long-lived assets for recoverability, the Company uses its best estimate of future cash flows expected to result from the use of the asset and its eventual disposition. To the extent that estimated future undiscounted net cash flows attributable to the asset are less than the carrying amount, an impairment loss is recognized equal to the difference between the carrying value of such asset and its fair value.

Fiscal 2013 Impairment

During the nine months ended April 27, 2013, the Company recorded an aggregate of \$3.8 million in non-cash impairment charges, including \$2.0 million in its **Lane Bryant** segment, \$0.5 million in its **maurices** segment and \$1.3 million in its **dressbarn** segment. These charges reduced the net carrying value of certain long-lived assets to their estimated fair value, which was determined based on discounted expected cash flows. These impairment charges were primarily related to the lower-than-expected operating performance of certain retail stores. Of the above amount, \$2.1 million was recorded during the three months ended April 27, 2013. There were no impairment charges recorded at **Justice** or **Catherines** during the three or nine months ended April 27, 2013.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Fiscal 2012 Impairment

During the nine months ended April 28, 2012, the Company recorded an aggregate \$1.8 million in non-cash impairment charges, including \$0.2 million in its **Justice** segment, \$0.7 million in its **maurices** segment, and \$0.9 million in its **dressbarn** segment. These charges reduced the net carrying value of certain long-lived assets to their estimated fair value, which was determined based on discounted expected cash flows. These impairment charges were primarily related to the lower-than-expected operating performance of certain retail stores. Of the above amount, \$0.7 million was recorded during the three months ended April 28, 2012.

Such impairment charges are included as a component of SG&A expenses in the accompanying consolidated statements of operations for all periods.

9. Debt

Debt consists of the following:	April 27, 2013	July 28, 2012
	(millions)	
Revolving credit agreement	\$ 155.0	\$ 20.0
Charming Shoppes convertible notes	0.6	1.2
Term loan ^(a)	—	297.2
Mortgage notes	—	8.2
	155.6	326.6
Less: current portion	—	(4.2)
Total long-term debt	\$ 155.6	\$ 322.4

^(a) The Term Loan is presented net of a \$2.8 million original issue discount as of July 28, 2012.

In March 2013, the Company (i) exercised an option to increase the capacity of its existing revolving credit facility by \$50 million from \$250 million to \$300 million, (ii) borrowed approximately \$263 million under the facility, (iii) used

the proceeds to prepay the Term Loan (as defined and discussed further below), and (iv) amended its then existing revolving credit facility (the “Revolving Credit Agreement”) with the lenders thereunder and JPMorgan Chase Bank, N.A., as administrative agent. The principal changes in terms related to expansion of the borrowing availability from \$250 million to \$500 million and an extension of the maturity date of the borrowing arrangement one year from June 2017 to June 2018. For accounting purposes, due principally to the expanded borrowing availability, the amendment to the Revolving Credit Agreement was treated as a modification to the existing arrangement and not as an extinguishment of debt. As a result, incremental deferred financing costs related to the Revolving Credit Agreement were aggregated with existing deferred financing costs and are being amortized to interest expense over the new term.

Revolving Credit Agreement

The Revolving Credit Agreement now provides a senior secured revolving credit facility up to \$500 million, with an optional additional increase of up to \$100 million. The Revolving Credit Agreement expires in June 2018. There are no mandatory reductions in borrowing availability throughout the term of the Revolving Credit Agreement. However, availability under the Revolving Credit Agreement fluctuates from month-to-month based on the Company’s underlying collateral position at the end of the period. Our collateral position is determined, at any given period, by the aggregate of the Company’s (i) inventory position (less reserves), (ii) market value of eligible real properties up to certain limits, and (iii) eligible credit card receivables. The Revolving Credit Agreement may be used for the issuance of letters of credit, to fund working capital requirements and capital expenditures, and for general corporate purposes. The Revolving Credit Agreement includes a \$250 million letter of credit sublimit, of which \$60 million can be used for standby letters of credit, and a \$25 million swing loan sublimit.

Borrowings under the Revolving Credit Agreement bear interest at a variable rate determined using a base rate equal to the greatest of (i) prime rate, (ii) federal funds rate plus 50 basis points, or (iii) LIBOR plus 100 basis points; plus an applicable margin ranging from 50 basis points to 200 basis points based on a combination of the type of borrowing (prime or LIBOR), the Company’s leverage ratio (defined below) existing at the end of the previous quarter, and average borrowing availability during the previous fiscal quarter.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The leverage ratio is defined as a ratio of the sum of the aggregate principal amount of indebtedness to consolidated EBITDA. For such purposes, consolidated EBITDA is defined generally as net income plus (i) income tax expense, (ii) interest expense, (iii) depreciation and amortization expense, (iv) non-recurring, acquisition-related expenses, and (v) restructuring charges not exceeding predetermined limits.

In addition to paying interest on any outstanding borrowings under the Revolving Credit Agreement, the Company is required to pay a commitment fee to the lenders under the Revolving Credit Agreement in respect of the unutilized commitments in an amount ranging between 25 basis points and 37.5 basis points per annum based the Company's leverage ratio existing at the end of the previous quarter and average utilization during the previous fiscal quarter.

As of April 27, 2013, after taking into account the \$155.0 million of revolving debt outstanding and the \$20.7 million in outstanding letters of credit, the Company had \$306.9 million in its variable availability under the Revolving Credit Agreement.

Restrictions under the Revolving Credit Agreement

The Revolving Credit Agreement is subject to restrictions, as summarized below.

The Revolving Credit Agreement has financial covenants with respect to a fixed charge coverage ratio, which is defined as a ratio of consolidated EBITDAR, less capital expenditures to consolidated fixed charges. For such purposes, consolidated EBITDAR is defined generally as net income plus (i) income tax expense, (ii) interest expense, (iii) depreciation and amortization expense, (iv) rent expense, (v) non-recurring acquisition-related expenses, and (vi) restructuring charges not exceeding predetermined limits. Consolidated fixed charges are defined generally as the sum of (a) cash interest expense, (b) rent expense, (c) cash tax expense, (d) mandatory principal repayment, (e) capital lease payments, (f) mandatory cash contributions to any employee benefit plan and (g) any restricted payments paid in cash. The Company is required to maintain a minimum fixed charge coverage ratio for any period of four consecutive fiscal quarters of at least 1.00 to 1.00. As of April 27, 2013, the actual fixed charge coverage ratio was 1.54 to 1.00. The Company was in compliance with all financial covenants contained in the Revolving Credit Agreement as of April 27, 2013.

In addition to the above, the Revolving Credit Agreement contains customary negative covenants, subject to negotiated exceptions, on (i) liens and guarantees, (ii) investments, (iii) indebtedness, (iv) significant corporate changes including mergers and acquisitions, (v) dispositions, (vi) restricted payments, cash dividends and certain other restrictive agreements. The borrowing agreement also contains customary events of default, such as payment defaults, cross-defaults to other material indebtedness, bankruptcy and insolvency, the occurrence of a defined change in control, or the failure to observe the negative covenants and other covenants related to the operation of the Company's business.

The Company's obligations under the Revolving Credit Agreement are guaranteed by certain of its domestic subsidiaries (the "Subsidiary Guarantors"). As collateral security under the borrowing agreement and the guarantees thereof, the Company and the Subsidiary Guarantors have granted to the administrative agent for the benefit of the lenders, a first priority lien on substantially all of their tangible and intangible assets, including, without limitation, certain domestic inventory and certain material real estate.

Term Loan

In connection with the funding of the Charming Shoppes Acquisition during the fourth quarter of Fiscal 2012, the Company entered into a \$300 million variable-rate term loan ("Term Loan") with an original maturity of June 14, 2018. The Term Loan was recorded net of an original issue discount of \$3 million, which was being amortized to interest expense over the contractual life of the Term Loan.

During the second quarter of Fiscal 2013, the Company prepaid approximately \$20 million of the outstanding principal balance of the Term Loan. The transaction resulted in a \$0.6 million pretax loss on extinguishment of debt during the second quarter of Fiscal 2013, relating to a proportional reduction in the balances of the original issue discount and deferred financing costs, which has been disclosed as a component of the loss on extinguishment of debt on the face of the accompanying consolidated statements of operations.

During the third quarter of Fiscal 2013, the Company prepaid the entire remaining approximately \$279 million of outstanding principal balance under the Term Loan using approximately \$263 million of borrowings under the Revolving Credit Agreement (as discussed above) and approximately \$16 million of proceeds from the sale of **Fashion Bug's** distribution center (See Note 2 – *Discontinued Operations* for further discussion). These transactions resulted in an aggregate \$7.9 million pretax loss on extinguishment of debt during the third quarter of Fiscal 2013, relating to a write-off of the remaining balances of the original issue discount and deferred financing costs. This loss has been disclosed as a component of the loss on extinguishment of debt on the face of the accompanying consolidated statements of operations.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Greencastle Mortgage

In connection with the Charming Shoppes Acquisition, the Company assumed a \$7.8 million mortgage obligation (the “Greencastle Mortgage”) on Charming Shoppes’s owned distribution center in Greencastle, Indiana. The Greencastle Mortgage bore interest at a fixed rate of 6.07%. During the second quarter of Fiscal 2013, the Company prepaid the outstanding principal balance of the Greencastle Mortgage in full. The payment of \$8.4 million resulted in a \$0.8 million pretax loss on extinguishment of debt, relating to a make-whole premium to holders of the mortgage note, which has been disclosed as a component of the loss on extinguishment of debt on the face of the accompanying consolidated statements of operations.

Other Letters of Credit

As of April 27, 2013, the Company had also issued \$24.5 million of private label letters of credit relating to the importation of merchandise.

10. Equity***Summary of Changes in Equity:***

	Nine Months Ended	
	April 27, 2013	April 28, 2012
	(millions)	
Balance at beginning of period	\$1,340.9	\$1,158.0

Purchases of common stock	—	(37.2)
Shares issued and equity grants made pursuant to stock-based compensation plans	59.2	39.7
Reclassification of cash-settled long-term incentive plan awards to liabilities (See Note 11)	(6.8)	—
Other	—	2.7
Balance at end of period	\$1,515.4	\$1,325.3

Common Stock Repurchase Program

In Fiscal 2010, the Company's Board of Directors authorized a \$100 million share repurchase program (the "2010 Stock Repurchase Program"). The program was then expanded in Fiscal 2011 to cover an additional \$100 million of authorized purchases. Under the 2010 Stock Repurchase Program, purchases of shares of common stock may be made at the Company's discretion from time to time, subject to overall business and market conditions.

There were no purchases of common stock by Company during the nine months ended April 27, 2013. Repurchased shares normally are retired and treated as authorized but unissued shares.

The remaining availability under the 2010 Stock Repurchase Program was approximately \$89.9 million at April 27, 2013.

Dividends

The Company has never declared or paid cash dividends on its common stock. However, payment of dividends is within the discretion and are payable when declared by the Company's Board of Directors. Additionally, payments of dividends are limited by the Company's Revolving Credit Agreement as described in Note 9, "*Restrictions under the Revolving Credit Agreement.*"

11. Stock-based Compensation

Long-term Stock Incentive Plan

The Company issues stock-based compensation awards under its 2010 Stock Incentive Plan (as amended, the "2010 Stock Plan"), which was approved by the Company's stockholders on December 17, 2010. The 2010 Stock Plan provides for the granting of either incentive stock options or non-qualified options to purchase shares of common stock, as well as the award of shares of restricted stock and other stock-based awards (including restricted stock units), to eligible employees and directors of the Company. The 2010 Stock Plan was scheduled to expire on September 30, 2021.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

On September 20, 2012 the Board of Directors approved amendments to the 2010 Stock Plan (the “2010 Amended Stock Plan”), which was approved by the Company’s stockholders and became effective on December 10, 2012. The 2010 Amended Stock Plan generally incorporates the provisions of the 2010 Stock Plan and includes certain modifications to, among other things: increase the aggregate number of shares that may be issued under the plan by an additional 15 million to 51 million shares; shorten the term of any stock option award granted prospectively from ten years to seven years; and extend the term of the 2010 Amended Stock Plan to September 19, 2022.

As of April 27, 2013, there were approximately 14.5 million shares under the 2010 Amended Stock Plan available for future grants. All of the Company’s prior stock option plans have expired as to the ability to grant new options. The Company issues new shares of common stock when stock option awards are exercised.

Impact on Results

A summary of the total compensation expense and associated income tax benefit recognized related to stock-based compensation arrangements is as follows:

	Three Months Ended		Nine Months Ended	
	April 27,	April 28,	April 27,	April 28,
	2013	2012	2013	2012
	(millions)			
Compensation expense	\$6.9	\$ 6.1	\$ 23.2	\$ 21.2
Income tax benefit	\$(2.6)	\$(2.3)	\$(8.7)	\$(8.0)

Stock Options

Stock option awards outstanding under the Company’s current plans have been granted at exercise prices that are equal to or exceed the market value of its common stock on the date of grant. Such options generally vest over a period of four or five years and expire at either seven or ten years after the grant date. The Company recognizes compensation expense ratably over the vesting period, net of estimated forfeitures. The Company uses the Black-Scholes option-pricing model to estimate the fair value of stock options granted, which requires the input of both subjective and objective assumptions as follows:

Expected Term — The estimate of expected term is based on the historical exercise behavior of grantees, as well as the contractual life of the option grants.

Expected Volatility — The expected volatility factor is based on the historical volatility of the Company's common stock for a period equal to the expected term of the stock option.

Expected Dividend Yield — The expected dividend yield is based on the Company's historical practice of not paying dividends on its common stock.

Risk-free Interest Rate — The risk-free interest rate is determined using the implied yield for a traded zero-coupon U.S. Treasury bond with a term equal to the expected term of the stock option.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company's weighted-average assumptions used to estimate the fair value of stock options granted during the nine months ended April 27, 2013 and April 28, 2012 are presented as follows:

	Nine Months Ended			
	April 27, 2013	April 28, 2012		
Expected term (years)	3.9	3.9		
Expected volatility	41.6 %	41.7 %		
Risk-free interest rate	0.7 %	0.9 %		
Expected dividend yield	0 %	0 %		
Weighted-average grant date fair value	\$ 7.31	\$ 4.73		

A summary of the stock option activity under all plans during the nine months ended April 27, 2013 is as follows:

	Nine Months Ended April 27, 2013			
	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Terms	Aggregate Intrinsic Value ^(a)
	(thousands)		(years)	(millions)
Options outstanding – July 28, 2012	14,103.0	\$ 9.69	6.4	\$ 130.1
Granted	2,332.9	20.54		
Exercised	(3,251.0)	7.35		
Cancelled/Forfeited	(499.6)	12.46		
Options outstanding – April 27, 2013	12,685.3	\$ 12.18	6.7	\$ 84.4
Options vested and expected to vest at April 27, 2013 ^(b)	12,275.6	\$ 12.58	6.8	\$ 82.9
Options exercisable at April 27, 2013	5,963.3	\$ 9.19	5.2	\$ 55.2

^(a) The intrinsic value is the amount by which the market price at the end of the period of the underlying share of stock exceeds the exercise price of the stock option.

^(b) The number of options expected to vest takes into consideration estimated expected forfeitures.

As of April 27, 2013, there was \$27.8 million of total unrecognized compensation cost related to non-vested options, which is expected to be recognized over a remaining weighted-average vesting period of 2.6 years. The total intrinsic value of options exercised during the nine months ended April 27, 2013 was approximately \$40.4 million and during the nine months ended April 28, 2012 was approximately \$15.4 million. Of these amounts, \$3.7 million was recorded during the three months ended April 27, 2013 and \$6.9 million was recorded during the three months ended April 28, 2012. The total fair value of options that vested during the nine months ended April 27, 2013 was approximately \$11.4 million and during the nine months ended April 28, 2012 was approximately \$9.8 million. Of these amounts, \$0.2 million was recorded during the three months ended April 27, 2013 and \$0.7 million was recorded during the three months ended April 28, 2012.

Restricted Equity Awards

The 2010 Amended Stock Plan also allows for the issuance of shares of restricted stock and restricted stock units ("RSUs"). Any shares of restricted stock or RSUs are counted against the shares available for future grant limit as 2.3 shares for every one restricted share or RSU granted. In general, if options are cancelled for any reason or expire, the shares covered by such options again become available for grant. If a share of restricted stock or a RSU is forfeited for any reason, 2.3 shares become available for grant.

Shares of restricted stock and RSUs are issued with either service-based or performance-based conditions, and some even have market-based conditions (collectively, "Restricted Equity Awards"). Service-based Restricted Equity Awards entitle the holder to receive unrestricted shares of common stock of the Company at the end of a vesting period, subject to the grantee's continuing employment. Service-based Restricted Equity Awards generally vest over a 4 year period of time.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Performance-based or market-based Restricted Equity Awards also entitle the holder to receive shares of common stock of the Company at the end of a vesting period. However, such awards are subject to (a) the grantee's continuing employment, (b) the Company's achievement of certain performance goals over a pre-defined performance period and (c) in the case of market-based conditions, the Company's achievement of certain market-based goals over the pre-defined performance period. Both performance-based and market-based Restricted Equity Awards generally vest over a 3 year period of time.

The fair values of both service-based and performance-based Restricted Equity Awards are based on the fair value of the Company's unrestricted common stock at the date of grant. However, for market-based Restricted Equity Awards, the effect of the market conditions is reflected in the fair value of the awards on the date of grant using a Monte-Carlo simulation model. A Monte-Carlo simulation model estimates the fair value of the market-based award based on the expected term, risk-free interest rate, expected dividend yield and expected volatility measure for the Company and its peer group.

Compensation expense for both service-based and performance-based Restricted Equity Awards is recognized over the vesting period based on the grant-date fair values of the awards that are expected to vest based upon the service and performance-based conditions. However, compensation expense for market-based Restricted Equity Awards is recognized over the vesting period regardless of whether the market conditions are expected to be achieved.

A summary of Restricted Equity Awards activity during the nine months ended April 27, 2013 is as follows:

	Service-based Restricted Equity Awards		Performance-based Restricted Equity Awards		Market-based Restricted Equity Awards	
	Number of Shares	Weighted- Average Grant Date Fair Value Per Share	Number of Shares	Weighted- Average Grant Date Fair Value Per Share	Number of Shares	Weighted- Average Grant Date Fair Value Per Share

Cash-Settled Long-Term Incentive Plan Awards

In October 2012, the Compensation Committee of the Board of Directors approved certain modifications to a portion of the Company's outstanding, performance-based stock-settled awards. In particular, an aggregate of approximately 554 thousand performance-based, stock-settled awards held by 44 employees were canceled in exchange for grants of a corresponding amount of new awards that will be settled in cash (collectively, the "Cash-Settled LTIP Awards"). Other than the terms of settlement, the Cash-Settled LTIP Awards have identical restrictions and rights as the prior awards. The Cash-Settled LTIP Awards entitle the holder to a cash payment equal to the value of the number of shares of the Company's common stock earned at the end of an original three-year performance period. Consistent with the terms of the original awards, such awards are subject to (a) the grantee's continuing employment and (b) the Company's achievement of certain performance goals over a pre-defined three year performance period for, separately, the Fiscal 2011-2013 period and the Fiscal 2012-2014 period. As a result of those modifications, the Company recognized a \$1.7 million, one-time charge during the first quarter of Fiscal 2013.

In addition, since October 2012, the Company granted 325 thousand Cash-Settled LTIP Awards to certain employees. Similar to above, such awards entitle the holder to a cash payment equal to the value of the number of shares of the Company's common stock earned at the end of a three-year performance period. Such awards are subject to (a) the grantee's continuing employment and (b) the Company's achievement of certain performance goals over a pre-defined three year performance period for the Fiscal 2013-2015 period.

ASCENA RETAIL GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Compensation expense for the Cash-Settled LTIP Awards will be recognized over the original vesting period based on the performance of the plan and changes in the Company's stock price over time. The total amount of compensation expense recognized for the Cash-Settled LTIP Awards during the nine months ended April 27, 2013 was \$0.7 million. Of this amount, \$1.0 million was recorded during the three months ended April 27, 2013. Such amounts have been included as a component of selling, general and administrative expenses in the accompanying consolidated statements of operations.

12. Commitments and Contingencies

The Company is a defendant in lawsuits and other adversarial proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where it deems it appropriate to do so under applicable accounting rules. Moreover, the Company's assessment of the current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries, administrative agencies or other finders of fact that are not in accordance with the Company's evaluation of a particular claim. The results of these lawsuits, claims and proceedings cannot be predicted with certainty. However, the Company believes that the ultimate resolution of these matters will not have a material effect on the Company's consolidated financial statements. The Company's identified contingencies include the matters set out below.

Six lawsuits were filed in Fiscal 2012 challenging the proposed acquisition of Charming Shoppes by Ascena. Five of these lawsuits were consolidated in state court in Pennsylvania, and one case remained in federal court in Pennsylvania. In general, plaintiffs sued the Charming Shoppes board of directors for alleged breach of their fiduciary duties under Pennsylvania state law in connection with the sale process, negotiations and public disclosures about the transaction. Ascena was sued for allegedly aiding and abetting the Charming Shoppes directors' alleged breach of their fiduciary duties. The parties entered into a stipulation of settlement to settle the state and federal litigations. The stipulation of settlement received final court approval during the third quarter of Fiscal 2013. Pursuant to the settlement, both the state and federal cases were dismissed, and previously accrued, court-ordered attorneys' fees of \$0.5 million were paid during the third quarter of Fiscal 2013.

13. Segment Information

The Company's segment reporting structure reflects a brand-focused approach, designed to optimize the operational coordination and resource allocation of its businesses across multiple functional areas including specialty retail, e-commerce and licensing. The five reportable segments described below represent the Company's brand-based activities for which separate financial information is available and which is utilized on a regular basis by the Company's executive team to evaluate performance and allocate resources. In identifying reportable segments, the Company considers economic characteristics, as well as products, customers, sales growth potential and long-term profitability. As such, the Company reports its operations in five reportable segments as follows:

- **Justice segment** – consists of the specialty retail, outlet, e-commerce and licensing operations of the **Justice** brand as well as the specialty retail and e-commerce operations of the **Brothers** brand.

Lane Bryant segment – consists of the specialty retail, outlet and e-commerce operations of the **Lane Bryant** and **Cacique** brands.

maurices segment – consists of the specialty retail, outlet and e-commerce operations of the **maurices** brand.

dressbarn segment – consists of the specialty retail, outlet and e-commerce operations of the **dressbarn** brand.

Catherines segment - consists of the specialty retail, outlet and e-commerce operations of the **Catherines** brand.

The accounting policies of the Company's reporting segments are consistent with those described in Notes 2 and 3 to the Company's consolidated financial statements included in the Fiscal 2012 10-K. All intercompany revenues are eliminated in consolidation. Corporate overhead expenses are allocated to the segments based upon specific usage or other reasonable allocation methods.

Non-cash Transactions

Significant non-cash investing activities included the capitalization of fixed assets and recognition of related obligations in the net amount of \$22.0 million for the nine months ended April 27, 2013 and \$10.1 million for the nine months ended April 28, 2012.

There were no other significant non-cash investing or financing activities for the nine months ended April 27, 2013 or April 28, 2012.

Item 2 – MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Various statements in this Form 10-Q, in future filings by us with the Securities and Exchange Commission (the "SEC"), in our press releases and in oral statements made from time to time by us or on our behalf constitutes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations and are indicated by words or phrases such as "anticipate," "estimate," "expect," "project," "we believe," "is or remains optimistic," "currently envisions" and similar words or phrases and involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from the future results, performance or achievements expressed in or implied by such forward-looking statements.

These forward-looking statements are based largely on our expectations and judgments and are subject to a number of risks and uncertainties, many of which are unforeseeable and beyond our control. A detailed discussion of significant risk factors that have the potential to cause our actual results to differ materially from our expectations is included in our Annual Report on Form 10-K for the fiscal year ended July 28, 2012 (the "Fiscal 2012 10-K"). There are no material changes to such risk factors, nor are there any identifiable previously undisclosed risks as set forth in Part II, Item 1A — "Risk Factors" of this Form 10-Q. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

INTRODUCTION

Management discussion and analysis of financial condition and results of operations ("MD&A") is provided as a supplement to the accompanying unaudited interim consolidated financial statements and footnotes to help provide an understanding of our financial condition and liquidity, changes in financial condition and results of our operations. MD&A is organized as follows:

Overview. This section provides a general description of our business and a summary of financial performance for the three-month and nine-month periods ended April 27, 2013. In addition, this section includes a discussion of recent developments and transactions affecting comparability that we believe are important in understanding our results of operations and financial condition, and in anticipating future trends.

Results of operations. This section provides an analysis of our results of operations for the three-month and nine-month periods ended April 27, 2013 and April 28, 2012.

Financial condition and liquidity. This section provides an analysis of our cash flows for the nine-month periods ended April 27, 2013 and April 28, 2012, as well as a discussion of our financial condition and liquidity as of April 27, 2013. The discussion of our financial condition and liquidity includes (i) our available financial capacity under our credit facility, (ii) a summary of our key debt compliance measures, (iii) anticipated capital expenditures, and (iv) any material changes in financial condition and commitments since the end of Fiscal 2012.

Market risk management. This section discusses any significant changes in our risk exposures related to interest rates, foreign currency exchange rates and our investments, as well as the underlying market conditions since the end of Fiscal 2012.

Critical accounting policies. This section discusses any significant changes in our accounting policies since the end of Fiscal 2012. Significant changes include those considered to be important to our financial condition and results of operations, which require significant judgment and estimation on the part of management in their application. In addition, all of our significant accounting policies, including our critical accounting policies, are summarized in Notes 3 and 4 to our audited consolidated financial statements included in our Fiscal 2012 10-K.

Recently issued accounting pronouncements. This section notes that we have assessed the potential impact to our reported financial condition and results of operations of accounting standards that have been recently issued.

In this Form 10-Q, references to "Ascena," "ourselves," "we," "our," "us" and the "Company" refer to Ascena Retail Group, Inc. and its subsidiaries, unless the context indicates otherwise. We utilize a 52-53 week fiscal year ending on the last Saturday in July. As such, fiscal year 2013 will end on July 27, 2013 and will be a 52-week period ("Fiscal 2013"). Fiscal 2012 ended on July 28, 2012 and reflected a 52-week period ("Fiscal 2012"). The third quarter of Fiscal 2013 ended on April 27, 2013 and was a 13-week period. The third quarter of Fiscal 2012 ended on April 28, 2012 and was also a 13-week period.

OVERVIEW

Our Business

On June 14, 2012, the Company acquired Charming Shoppes, Inc. (“Charming Shoppes”) and its related family of retail brands. Accordingly, the Company now operates, through its wholly owned subsidiaries, the following principal retail brands: **Justice**; **Lane Bryant**; **maurices**; **dressbarn** and **Catherines**. The Company now operates (through its subsidiaries) approximately 3,800 stores throughout the United States, Puerto Rico and Canada, with annual revenues on a pro forma basis of over \$4.5 billion for the fiscal year ended July 28, 2012, giving effect to the acquisition of Charming Shoppes as of the beginning of such year.

We classify our businesses into five segments following a brand-oriented approach: **Justice**; **Lane Bryant**; **maurices**; **dressbarn** and **Catherines**. The **Justice** segment includes approximately 961 specialty retail and outlet stores, e-commerce operations, and certain licensed franchises in international territories. The **Justice** segment offers fashionable apparel under the **Justice** brand to girls who are ages 7 to 14 in an environment designed to match the energetic lifestyle of tween girls, and fashionable apparel to boys who are ages 7 to 14 under the **Brothers** brand. The **Lane Bryant** segment includes approximately 788 specialty retail and outlet stores, and e-commerce operations. The **Lane Bryant** segment offers fashionable and sophisticated plus-size apparel under multiple private labels to female customers in the 25 to 45 age range, including intimate apparel under the **Cacique** label. The **maurices** segment includes approximately 862 specialty retail and outlet stores, and e-commerce operations. The **maurices** brand offers up-to-date fashion designed to appeal to the 17 to 34 year-old female, with stores concentrated in small markets (approximately 25,000 to 100,000 people). The **dressbarn** segment includes approximately 833 specialty retail and outlet stores, and e-commerce operations. The **dressbarn** brand primarily attracts female consumers in the mid-30’s to mid-50’s age range and offers moderate-to-better quality career, special occasion and casual fashion to the working woman. The **Catherines** segment includes approximately 402 specialty retail and outlet stores, and e-commerce operations. The **Catherines** brand offers classic apparel and accessories for wear-to-work and casual lifestyles in a full range of plus sizes, generally catering to the female customer 45 years and older.

Seasonality of Business

Our business is typically affected by seasonal sales trends primarily resulting from the timing of holiday and back-to-school shopping periods. In particular, **Justice** sales and operating profits tend to be significantly higher during the fall season which occurs during the first and second quarters of our fiscal year, as this includes the back-to-school period and the holiday selling period which is focused on gift-giving merchandise. The **dressbarn** and **maurices** brands have historically experienced lower earnings in the second fiscal quarter ending in January than during the three other fiscal quarters, reflecting the intense promotional environment that generally has characterized the holiday shopping season in recent years. The newly acquired **Lane Bryant** and **Catherines** brands typically experience peak sales during the Easter, Memorial Day and December holiday seasons. In addition, our operating

results and cash flows may fluctuate materially in any quarterly period depending on, among other things, increases or decreases in comparable store sales, adverse weather conditions, shifts in the timing of certain holidays and changes in merchandise mix.

Basis of Presentation

Discontinued Operations

In June 2012, the Company announced, contemporaneously with the closing of the Charming Shoppes Acquisition, its intent to cease operating the acquired **Fashion Bug** business. The **Fashion Bug** business, consisting of approximately 600 retail stores, ceased operations in February 2013. The orderly liquidation of the related net assets is expected to be concluded during the fourth quarter of Fiscal 2013 and result in an immaterial adjustment to goodwill.

In addition, the Company also announced, contemporaneously with the closing of the Charming Shoppes Acquisition, its intent to sell the acquired **Figi's** business. The sale of the **Figi's** business, which markets food and specialty gift products, is expected to occur during the fourth quarter of Fiscal 2013.

The financial position and operating results of the **Fashion Bug** and **Figi's** businesses have each been classified as discontinued operations within the accompanying consolidated financial statements of the Company.

Reclassifications

Buying, Distribution and Occupancy Costs

Historically, the Company included buying, distribution and occupancy costs within cost of goods sold on the face of its statement of operations. However, in the fourth quarter of Fiscal 2012, in connection with conforming the financial presentation of Charming Shoppes, the Company decided to present each of the aggregate of buying, distribution and occupancy costs and gross margin separately on the face of its statement of operations. In addition, certain costs, such as store utility costs, were reclassified from selling, general and administrative expenses to buying, distribution and occupancy costs. Financial information for all prior periods has been reclassified in order to conform to the current period's presentation. There have been no changes in historical operating income or historical net income for any period as a result of these changes.

Other Reclassifications

Certain other immaterial reclassifications have been made to the prior period's financial information in order to conform to the current period's presentation.

Summary of Financial Performance

General Economic Conditions

Our performance is subject to macroeconomic conditions and their impact on levels of consumer spending. Some of the factors negatively impacting discretionary consumer spending include general economic conditions, wages and high unemployment, increased taxation, high consumer debt, reductions in net worth based on severe market declines (such as in residential real estate markets), higher fuel, energy and other prices, increasing interest rates, severe weather conditions and low consumer confidence. In addition, any significant volatility in our financial markets, as has been experienced in the past, could also negatively impact the levels of future discretionary consumer spending.

Generally, we continued to experience lower and inconsistent customer traffic and spending patterns during the third quarter of Fiscal 2013. We continue to believe that the lower level of consumer spending during this timeframe was largely related to some of the macroeconomic and other conditions mentioned above, particularly increased taxation,

continuing high unemployment and the adverse effects of unseasonably cold weather. Consequently, this contributed to a decline in comparable store sales and lower merchandise margins in our brick-and-mortar sales channel during this period, which were offset, in part, by continued growth in our e-commerce sales channel.

Such macroeconomic and other factors could continue to have a negative effect on the lower level of consumer spending in the U.S., which in turn, could have a material effect on our business, financial condition and results of operations.

Operating Results

Three Months Ended April 27, 2013 compared to Three Months Ended April 28, 2012

For the three months ended April 27, 2013, we reported net sales of \$1,142.2 million, income from continuing operations of \$32.9 million and net income from continuing operations per diluted share of \$0.20. This compares to net sales of \$783.3 million, income from continuing operations of \$49.4 million and net income from continuing operations per diluted share of \$0.31 for the three months ended April 28, 2012. Including a loss from discontinued operations of \$1.7 million, net income was \$31.2 million and net income per diluted share was \$0.19 for the three months ended April 27, 2013. The decrease in net income and net income per diluted share during the three months ended April 27, 2013 was primarily due to an overall decline in operating income, which reflected a decrease in gross margin rate, particularly at our **dressbarn** brand, a duplicative overhead structure and certain acquisition-related, integration and restructuring costs. Also contributing to the overall decrease in net income and net income per diluted share was an increase in interest expense to service the debt incurred to fund the Charming Shoppes Acquisition and a loss on extinguishment of debt, offset in part by a decrease in the provision for income taxes and the absence of \$6.8 million of acquisition-related, transaction costs which were incurred in the three months ended April 28, 2012.

As discussed above under the section entitled *General Economic Conditions*, the operating environment during the third quarter of Fiscal 2013 remained challenging. This, in turn, had a significant impact on our quarter-to-date operating results. Nevertheless, our operating performance for the three months ended April 27, 2013 was positively affected by a 45.8% increase in net sales, consisting of 1.0% organic growth from our legacy family of brands and 44.8% growth from the Charming Shoppes Acquisition. The increase in net sales from our legacy family of brands was driven by both our new store growth and strong growth in e-commerce sales, particularly at our **Justice** and **maurices** brands, mostly offset by a decrease in comparable store sales from all of our legacy brands. On a combined pro forma basis, comparable store sales and e-commerce sales decreased 1%. Our gross margin rate decreased by 110 basis points to 57.6%, primarily due to lower margins at **dressbarn** and **maurices**. This was primarily due to the continuing, soft-sales trend that drove our brands to be more promotional in order to keep inventory at appropriate levels during the three months ended April 27, 2013. Those decreases were partially offset by a margin improvement at **Justice**.

Operating income decreased \$19.5 million, consisting of a \$23.0 million decrease from our legacy family of brands, \$6.9 million of unallocated acquisition-related, integration and restructuring costs, offset in part by a \$10.4 million increase relating to the Charming Shoppes brands operations. The operating income from the Charming Shoppes brands was negatively impacted by their duplicative corporate overhead structure, which is expected to be significantly scaled back over the next couple of years. In turn, the decrease in operating income from our legacy family of brands primarily reflected a decrease in gross margin rate, particularly at our **dressbarn** brand, offset in part by the flow-through of margin on the higher sales volume at **Justice** and **maurices**.

The provision for income taxes from continuing operations decreased by \$7.5 million to \$22.2 million. The effective tax rate increased 280 basis points, to 40.3% for three months ended April 27, 2013 from 37.5% for the three months ended April 28, 2012. The increase in the effective tax rate was primarily the result of the absence of higher tax benefits relating to the accounting for discrete items in the third quarter of Fiscal 2012, and the effect of non-tax-deductible expenses on lower pretax income in the three months ended April 27, 2013.

Income from continuing operations decreased \$16.5 million to \$32.9 million principally as a result of the overall decline in operating income, higher interest expense relating to debt incurred to fund the Charming Shoppes Acquisition and a loss on extinguishment of debt, which more than offset the aggregate of the lower tax provision described above and the absence of \$6.8 million of acquisition-related, transaction costs incurred during the third quarter of Fiscal 2012. Net income from continuing operations per diluted share decreased by \$0.11, or 35.5%, to \$0.20 per share for the three months ended April 27, 2013 from \$0.31 per share for the three months ended April 28, 2012. The decrease in diluted earnings per share results was primarily due to the lower level of net income and an increase in the weighted average diluted common shares outstanding.

Nine Months Ended April 27, 2013 compared to Nine Months Ended April 28, 2012

For the nine months ended April 27, 2013, we reported net sales of \$3,517.2 million, income from continuing operations of \$116.9 million and net income from continuing operations per diluted share of \$0.72. This compares to net sales of \$2,413.6 million, income from continuing operations of \$160.6 million and net income from continuing operations per diluted share of \$1.01 for the nine months ended April 28, 2012. Including \$4.6 million, or \$0.03 per diluted share, of income from discontinued operations, net income was \$121.5 million and net income per diluted share was \$0.75 for the nine months ended April 27, 2013. The decrease in net income and net income per diluted share during the nine months ended April 27, 2013 was primarily due to an overall decline in operating income, which reflected a decrease in gross margin rate, particularly at our **dressbarn** brand, the incurrence of an aggregate of \$40.0 million of non-recurring purchase accounting costs and certain acquisition-related, integration and restructuring costs, as well as a duplicative overhead structure. Also contributing to the overall decrease in net income and net income per diluted share was an increase in interest expense to service the debt incurred to fund the Charming Shoppes Acquisition and a loss on extinguishment of debt. These decreases were offset in part by income from discontinued operations, a decrease in the provision of income taxes and the absence of acquisition-related, transaction costs incurred during the third quarter of Fiscal 2012.

As discussed earlier under the section entitled *General Economic Conditions*, the operating environment since November 2012 has remained challenging. This, in turn, had a significant impact on our year-to-date operating results. Nevertheless, our operating performance for the nine months ended April 27, 2013 was positively affected by a 45.7% increase in net sales, consisting of 4.8% organic growth from our legacy family of brands and 40.9% growth from the Charming Shoppes Acquisition. The increase in net sales from our legacy family of brands was driven by both our comparable store sales at **Justice** and new store growth, at both our **Justice** and **maurices** brands, as well as strong growth in e-commerce sales at all of our legacy brands. Partially offsetting those increases was a decrease in comparable store sales from our **dressbarn** brand. On a combined pro forma basis, comparable store sales and e-commerce sales increased 1%. Our gross margin rate decreased by 90 basis points to 56.2%, primarily due to lower margins at **dressbarn**. This resulted from increased promotional activity and higher requirements for inventory markdown reserves in response to the continuing, soft-sales trend during the nine months ended April 27, 2013. Those decreases were partially offset by margin improvement at **Justice** and **maurices**. In addition, the gross margin performance in the first nine months of Fiscal 2013 was negatively affected by the incurrence of \$19.9 million of one-time, non-cash inventory expense associated with the write-up of Charming Shoppes's inventory to fair market value as of the acquisition date.

Operating income decreased \$54.8 million, consisting of an \$11.1 million, or 4.2% decrease from our legacy family of brands, \$20.1 million of unallocated acquisition-related, integration and restructuring costs and a \$23.6 million decrease relating to the acquired operations of **Lane Bryant** and **Catherines**. The operating loss of **Lane Bryant** and **Catherines** reflected the approximate \$19.9 million non-cash inventory expense and a duplicative corporate overhead structure. In turn, the decrease in operating income from our legacy family of brands primarily reflected a decrease in sales and gross margin rate at our **dressbarn** brand, offset in part by the flow-through of margin on the higher sales volume at **Justice** and **maurices**.

The provision for income taxes from continuing operations decreased by \$27.5 million to \$68.9 million. The effective tax rate decreased 40 basis points, to 37.1% for nine months ended April 27, 2013 from 37.5% for the nine months ended April 28, 2012. The decrease in the effective tax rate was primarily the result of higher tax benefits relating to the accounting for discrete items recognized in Fiscal 2013.

Income from continuing operations decreased \$43.7 million to \$116.9 million primarily as a result of the overall decline in operating income, higher interest expense relating to debt incurred to fund the Charming Shoppes Acquisition and a loss on extinguishment of debt more than offset the lower tax provision described above and the absence of \$6.8 million of acquisition-related, transaction costs incurred during the first nine months of Fiscal 2012. Net income from continuing operations per diluted share decreased by \$0.29, or 28.7%, to \$0.72 per share for nine months ended April 27, 2013 from \$1.01 per share for the nine months ended April 28, 2012. The decrease in diluted earnings per share results was primarily due to the lower level of net income and an increase in the weighted average diluted common shares outstanding.

Financial Condition and Liquidity

We ended the third quarter of Fiscal 2013 in a net cash and investments position (total cash and cash equivalents, plus short-term and non-current investments less total debt) of \$50.5 million, compared a net debt position of to \$157.7 million as of the end of Fiscal 2012.

The increase in our net financial position as of April 27, 2013 as compared to July 28, 2012 was primarily due to our operating cash flows, which were partially offset by our use of cash to support our capital expenditures (as discussed below under “*Capital Spending*”), the prepayment of debt under our Term Loan and the use of the available cash and cash equivalents to reduce our outstanding debt under our Revolving Credit Agreement (each as defined and discussed below under “*Debt*”). Our equity increased to \$1.515 billion as of April 27, 2013, compared to \$1.341 billion as of July 28, 2012, primarily due to our net income during the first nine months of Fiscal 2013.

We generated \$333.2 million of cash from operations during the nine months ended April 27, 2013, compared to \$300.6 million during the nine months ended April 28, 2012. During the first nine months of Fiscal 2013, we used \$174.7 million for the repayment of debt and \$171.3 million for capital expenditures primarily associated with our retail store expansion and investments in our facilities and technological infrastructure.

Transactions Affecting Comparability of Results of Operations and Financial Condition

The comparability of the Company's operating results for three-month and nine-month periods ended April 27, 2013 and April 28, 2012 presented herein has been affected by certain transactions, including:

The Charming Shoppes Acquisition that closed on June 14, 2012, as described in Note 4 to the accompanying unaudited consolidated financial statements;

Certain acquisition-related, integration, restructuring and transaction costs;

Certain losses on extinguishment of debt;

Certain non-recurring purchase accounting costs; and

Pretax charges related to certain one-time, executive contractual obligation costs incurred in the first quarter of Fiscal 2012.

A summary of the effect of certain of these items on pretax income for each applicable period presented is noted below:

	Three Months Ended		Nine Months Ended	
	April 27, 2013	April 28, 2012	April 27, 2013	April 28, 2012
Acquisition-related, integration, restructuring and transaction costs	\$(6.9)	\$(6.8)	\$(20.1)	\$(6.8)
Loss on extinguishment of debt (see Note 9)	(7.9)	—	(9.3)	—
One-time, non-cash inventory expense associated with the write-up of inventory to fair market value	—	—	(19.9)	—
Executive contractual obligation costs	—	—	—	(5.4)
Total	\$(14.8)	\$(6.8)	\$(49.3)	\$(12.2)

The following discussion of results of operations highlights, as necessary, the significant changes in operating results arising from these items and transactions. However, unusual items or transactions may occur in any period. Accordingly, investors and other financial statement users individually should consider the types of events and transactions that have affected operating trends.

RESULTS OF OPERATIONS

Our segment reporting structure reflects a brand-focused approach, designed to optimize the operational coordination and resource allocation of our businesses across multiple functional areas, including specialty retail, e-commerce and licensing. The five reportable segments described below represent our brand-based activities for which separate financial information is available, and which is utilized on a regular basis by our executive team to evaluate performance and allocate resources. In identifying our reportable segments, we consider economic characteristics, as well as products, customers, sales growth potential and long-term profitability. As such, we report our operations in five reportable segments as follows:

Justice segment – consists of the specialty retail, outlet, e-commerce and licensing operations of the **Justice** brand as well as the specialty retail and e-commerce operations of the **Brothers** brand.

Lane Bryant segment – consists of the specialty retail, outlet and e-commerce operations of the **Lane Bryant** and **Cacique** brands.

- **maurices segment** – consists of the specialty retail, outlet and e-commerce operations of the **maurices** brand.
- **dressbarn segment** – consists of the specialty retail, outlet and e-commerce operations of the **dressbarn** brand.
- **Catherines segment** - consists of the specialty retail, outlet and e-commerce operations of the **Catherines** brand.

Three Months Ended April 27, 2013 compared to Three Months Ended April 28, 2012

The following table summarizes our results of operations and expresses the percentage relationship to net sales of certain financial statement captions:

	Three Months Ended		\$ Change	% Change	
	April 27, 2013 (millions, except per share data)	April 28, 2012			
Net sales	\$ 1,142.2	\$ 783.3	\$ 358.9	45.8	%
Cost of goods sold	(484.4)	(323.4)	(161.0)	49.8	%

Net income per common share - basic:					
Continuing operations	\$ 0.21	\$ 0.32	\$ (0.11)	(34.4)	%
Discontinued operations	(0.01)	—	(0.01)	NM	
Total net income per basic common share	\$ 0.20	\$ 0.32	\$ (0.12)	(37.5)	%

Edgar Filing: Ascena Retail Group, Inc. - Form 10-Q

Net income per common share - diluted:					
Continuing operations	\$ 0.20		\$ 0.31	\$ (0.11)	(35.5)%
Discontinued operations	(0.01)		—	(0.01)	NM
Total net income per diluted common share	\$ 0.19		\$ 0.31	\$ (0.12)	(38.7)%

(a) Effective tax rate is calculated by dividing the provision for income taxes by income from continuing operations before provision for income taxes.

(b) Income from discontinued operations is presented net of a \$1.2 million tax benefit for the three months ended April 27, 2013.

(NM) Not Meaningful

Net Sales. Net sales increased by \$358.9 million, or 45.8%, to \$1,142.2 million for the three months ended April 27, 2013 from \$783.3 million for the three months ended April 28, 2012. The increase in net sales consisted of 1.0% organic growth from our legacy family of brands and 44.8% from the Charming Shoppes Acquisition. The increase in net sales from our legacy family of brands was driven by both our new store growth and strong growth in e-commerce sales, particularly at our **Justice** and **maurices** brands, mostly offset by a decrease in comparable store sales from all our legacy brands. After giving effect to the Charming Acquisition as of the beginning of 2012, comparable store sales decreased 4% during the three months ended April 27, 2013, and e-commerce sales increased 37% during the three months ended April 27, 2013. On a combined basis, these two categories decreased 1% during the three months ended April 27, 2013. As discussed under the section entitled *General Economic Conditions*, our comparable store sales trends during the three months ended April 27, 2013 reflected lower and inconsistent customer traffic and spending patterns.

Net sales and comparable store and e-commerce sales data for our five business segments is presented below.

	Three Months Ended				Comparable Store Sales ^(a)	
	April 27, 2013 (millions)	April 28, 2012	\$ Change (millions)	% Change		
Net sales:						
Justice	\$ 298.0	\$ 287.8	\$ 10.2	3.5 %	(4)%
Lane Bryant ^(b)	267.2	—	267.2	NM	(6)%
maurices	235.7	223.9	11.8	5.3 %	(3)%
dressbarn	257.3	271.6	(14.3)	(5.3)%	(7)%
Catherines ^(b)	84.0	—	84.0	NM	8	%
Total net sales	\$ 1,142.2	\$ 783.3	\$ 358.9	45.8 %	(4)%
E-commerce comparable sales					37	%
Combined store and e-commerce comparable sales					(1)%

^(a) Comparable store sales generally refers to the growth of sales in only stores open in both the current period and comparative period in the prior year (including stores relocated within the same shopping center and stores with minor square footage additions). The determination of which stores are included in the comparable store sales calculation normally changes at the beginning of each fiscal year, except for stores that close during the fiscal year, which are excluded from comparable store sales beginning with the fiscal month the store actually closes. However, for acquired stores, such as in the case of **Lane Bryant** and **Catherines**, comparable store sales metrics for the initial first year of acquisition reflects sales from the acquisition date through the end of the fiscal period for all stores that were open in both that period and the comparable period in the prior year.

(b) The Charming Shoppes Acquisition was consummated on June 14, 2012; therefore the net sales data related to the **Lane Bryant** and **Catherines** segments for the prior reporting period is not presented.

(NM) Not Meaningful

Justice net sales. The net increase primarily reflects:

- a decrease of \$10.4 million, or 4%, in comparable store sales during the three months ended April 27, 2013; a \$9.2 million increase in non-comparable stores sales, primarily driven by an increase related to 41 net new store openings during the last twelve months;
- an increase of \$4.5 million, or 27%, in revenues from its e-commerce operations;
- a \$6.2 million increase in wholesale, licensing operations, and other revenues; and
- a \$0.7 million increase in revenue from gift card breakage.

Lane Bryant net sales. Net sales reflect the operation of approximately 788 stores in the current quarter, as the acquisition was consummated on June 14, 2012, which resulted in \$267.2 million of net sales during the three months ended April 27, 2013. Such results reflected:

- a 6% decrease in comparable store sales; and
- a 39% increase in comparable e-commerce sales.

maurices net sales. The net increase primarily reflects:

- a decrease of \$4.9 million, or 3%, in comparable store sales during the three months ended April 27, 2013;

a \$12.0 million increase in non-comparable stores sales, primarily driven by an increase related to 49 net new store openings during the last twelve months; and
an increase of \$4.7 million, or 37%, in revenues from e-commerce operations.

dressbarn net sales. The net decrease primarily reflects:

a decrease of \$18.9 million, or 7%, in comparable store sales during the three months ended April 27, 2013;
a \$0.6 million increase in non-comparable stores sales, primarily driven by 34 new stores opened during the last twelve months. The positive effect of the new store openings was partially offset by 39 stores closing in the last twelve months; and
an increase of \$4.0 million, or 56%, in revenues from e-commerce operations.

Catherines net sales. Net sales reflect the operation of approximately 402 stores in the current quarter, as the acquisition was consummated on June 14, 2012, which resulted in \$84.0 million of net sales during the three months ended April 27, 2013. Such results reflected:

a 8% increase in comparable store sales; and
a 28% increase in comparable e-commerce sales.

Gross Margin. Gross margin, which represents the difference between net sales and cost of goods sold, expressed as a percentage of net sales, decreased by 110 basis points to 57.6% for the three months ended April 27, 2013 from 58.7% for the three months ended April 28, 2012. Our gross margin rate decreased, primarily due to lower margins at **dressbarn** and **maurices**. This was primarily due to the continuing, soft-sales trend that drove our brands to be more promotional and higher requirements for inventory markdown reserves at **dressbarn**. Those decreases were partially offset by margin improvement at **Justice**.

Gross margin as a percentage of net sales is dependent upon a variety of factors, including changes in the relative sales mix among brands, changes in the mix of products sold, the timing and level of promotional activities, and fluctuations in material costs. These factors, among others, may cause cost of goods sold as a percentage of net revenues to fluctuate from period to period.

Buying, Distribution and Occupancy Costs. Buying, distribution and occupancy costs consist of store occupancy and utility costs (excluding depreciation), out-bound freight (including costs to ship merchandise between our distribution centers and our retail stores), and all costs associated with the buying and distribution functions.

Buying, distribution and occupancy costs increased by \$78.4 million, or 60.4%, to \$208.1 million for the three months ended April 27, 2013 from \$129.7 million for the three months ended April 28, 2012. Buying, distribution and occupancy costs as a percentage of net sales increased by 160 basis points to 18.2% for the three months ended April 27, 2013 from 16.6% for the three months ended April 28, 2012. The increase in buying, distribution and occupancy costs, both in dollars and as a percentage of net sales, was primarily due to a change in store location mix, as **Lane Bryant's** higher mall-based mix of stores has higher store occupancy costs as a percentage of sales. From our legacy family of brands, increases in store occupancy and distribution expenses, which resulted largely from new store growth and the increased sales volume, also contributed to the increases in buying, distribution and occupancy costs.

Selling, General and Administrative ("SG&A") Expenses. SG&A expenses consist of compensation and benefit-related costs for sales and store operations personnel, administrative personnel and other employees not associated with the functions described above under buying, distribution and occupancy costs. SG&A expenses also include advertising and marketing costs, information technology and communication costs, supplies for our stores and administrative facilities, insurance costs, legal costs and costs related to other administrative services.

SG&A expenses increased by \$113.1 million, or 51.6%, to \$332.4 million for the three months ended April 27, 2013 from \$219.3 million for the three months ended April 28, 2012. SG&A expenses as a percentage of net sales increased by 110 basis points to 29.1% for three months ended April 27, 2013 from 28.0% for the three months ended April 28, 2012. SG&A expenses, expressed both in dollars and as a percentage of sales, increased largely due to the current, duplicative corporate overhead structure resulting from the Charming Shoppes Acquisition, which is expected to be significantly scaled back over the next couple of years. From our legacy family of brands, increases in SG&A expenses resulted primarily from increased store payroll-related costs and other store expenses, relating to the overall net sales increases, and increased third-party administrative expenses related to e-commerce growth.

Depreciation and Amortization Expense. Depreciation and amortization expense increased by \$19.0 million, or 74.2%, to \$44.6 million for the three months ended April 27, 2013 from \$25.6 million for the three months ended April 28, 2012. The increase was primarily due to the inclusion of Charming Shoppes, which contributed \$10.7 million of incremental depreciation and amortization expense during the third quarter of Fiscal 2013. Also contributing to the increase was higher capital expenditures, which resulted, in part, from the net opening of 85 stores from our legacy family of brands during the last twelve months.

Operating Income. Operating income decreased \$19.5 million, or 22.9%, to \$65.8 million for the three months ended April 27, 2013 from \$85.3 million for the three months ended April 28, 2012. The change consisted of a \$23.0 million decrease from our legacy family of brands and \$6.9 million of unallocated acquisition-related, integration and restructuring costs, offset in part by a \$10.4 million increase relating to the acquired operations of **Lane Bryant** and **Catherines**. The operating income of **Lane Bryant** and **Catherines** was negatively impacted by their duplicative corporate overhead structure, which is expected to be significantly scaled back over the next couple of years. In turn, the decrease in operating income from our legacy family of brands primarily reflected a decrease in gross margin rate, particularly at our **dressbarn** brand, offset in part by the flow-through of margin on the higher sales volume at **Justice** and **maurices**.

Operating income data for our five business segments is presented below.

	Three Months Ended		\$ Change (millions)	% Change
	April 27, 2013 (millions)	April 28, 2012		
Operating income (loss):				
Justice	\$ 20.8	\$ 23.4	\$ (2.6)	(11.1)%
Lane Bryant ^(a)	4.8	—	4.8	NM
maurices	35.0	37.9	(2.9)	(7.7)%
dressbarn	6.5	24.0	(17.5)	(72.9)%
Catherines ^(a)	5.6	—	5.6	NM
Subtotal	72.7	85.3	(12.6)	(14.8)%
Less unallocated acquisition-related, integration and restructuring costs	(6.9)	—	(6.9)	NM
Total operating income	\$ 65.8	\$ 85.3	\$ (19.5)	(22.9)%

^(a) The Charming Shoppes Acquisition was consummated on June 14, 2012; therefore the data related to the Lane Bryant and Catherines segments for the prior reporting period is not presented.

^(NM) Not Meaningful

Justice operating income decreased by approximately \$2.6 million primarily as a result of an increase in sales and gross margin rates, which were offset by increases in buying, distribution and occupancy costs and SG&A expenses. The higher gross margin rate benefited from selected price increases and merchandise mix, offset in part by higher, promotional markdowns. Buying, distribution and occupancy costs increased largely due to store growth and sales volume, and also experienced deleveraging during the period as a percentage of sales. SG&A expenses reflected increases in store-payroll related costs related to the overall store unit growth, third-party administrative expenses related to e-commerce growth and higher marketing costs.

Lane Bryant operating income of \$4.8 million primarily reflects the operation of 788 stores in the third quarter of Fiscal 2013, as the acquisition was consummated on June 14, 2012, and includes the impact of a duplicative corporate overhead structure, which is expected to be significantly scaled back over the next couple of years.

maurices operating income decreased by approximately \$2.9 million as a flow-through of margin on the higher sales volume was offset by lower gross margin rates, increases in buying, distribution and occupancy costs, higher SG&A expenses and higher depreciation and amortization expense. The lower gross margin rate benefited from selected merchandise price increases, but was more than offset by higher, promotional markdowns which resulted from the current, soft-sales trend. The increase in buying, distribution and occupancy costs was mainly a result of an increase in distribution expenses, which resulted largely from new store growth and the increased sales volume, but experienced leveraging during the period due to higher sales volume. The increase in SG&A expenses during the three months ended April 27, 2013 was primarily due to store payroll-related costs and other store expenses, relating to the overall net sales increases, and increased third-party administrative expenses related to e-commerce growth. Partially offsetting those increases in SG&A expenses was a favorable product-related vendor settlement during the three months ended April 27, 2013.

dressbarn operating income decreased by approximately \$17.5 million primarily as a result of a decrease in sales and gross margin rates, increases in buying, distribution and occupancy costs and higher depreciation and amortization expense, offset in part by lower SG&A expenses. The lower gross margin rate was mainly attributable to higher promotional markdowns and higher requirements for inventory markdown reserves. Buying, distribution and occupancy costs increased during the third quarter of Fiscal 2013 compared to the third quarter of Fiscal 2012 mainly due to an increase in store occupancy costs, which resulted from rent increases tied to inflation and taxes, and an increase in costs associated with the buying function. The decrease in SG&A expenses was primarily due to a decrease in store payroll-related costs, relating to current sales trends, a decrease in store marketing costs, and a decrease in incentive compensation costs related to less than planned operating results, offset in part by an increase in third-party administrative expenses related to e-commerce growth.

Catherines operating income of \$5.6 million primarily reflects the operation of 402 stores in the third quarter of Fiscal 2013, as the acquisition was consummated on June 14, 2012, and includes the impact of a duplicative corporate overhead structure, which is expected to be significantly scaled back over the next couple of years.

Unallocated acquisition-related, integration and restructuring costs. The unallocated expenses of \$6.9 million represent acquisition-related, integration and restructuring costs incurred during the period resulting from the Charming Shoppes Acquisition.

Interest Expense. Interest expense increased by \$2.7 million to \$2.9 million for the three months ended April 27, 2013 from \$0.2 million for the three months ended April 28, 2012. The increase was primarily the result of new borrowings used to partially fund the Charming Shoppes Acquisition in the fourth quarter of Fiscal 2012.

Interest and Other Income, Net. Interest and other income, net decreased by \$0.7 million, to \$0.1 million for the three months ended April 27, 2013 from \$0.8 million for the three months ended April 28, 2012. The decrease was mainly due to lower interest income during the Fiscal 2013 period, as average balances of cash and investments decreased during the fourth quarter of Fiscal 2012 as a result of the Charming Shoppes Acquisition.

Acquisition-related, Transaction Costs. Acquisition-related, transaction costs were \$6.8 million for the three months ended April 28, 2012. These costs were incurred in connection with the Charming Shoppes Acquisition, and include legal, consulting and investment banking-related costs that were direct, incremental costs of the acquisition. No such costs were recognized during the three months ended April 27, 2013.

Loss on Extinguishment of Debt. During the three months ended April 27, 2013, the Company prepaid the remaining outstanding principal balance of its Term Loan in full, resulting in a \$7.9 million pretax loss on extinguishment of debt. No such loss was recognized during the three months ended April 28, 2012.

Provision for Income Taxes. The provision for income taxes represents federal, foreign, state and local income taxes. The provision for income taxes from continuing operations decreased by \$7.5 million, or 25.3%, to \$22.2 million for the three months ended April 27, 2013 from \$29.7 million for the three months ended April 28, 2012. The decrease in provision for income taxes was primarily a result of lower pretax income in the third quarter of Fiscal 2013, which was partially offset by a higher effective income tax rate. The effective tax rate increased 280 basis points, to 40.3% for three months ended April 27, 2013 from 37.5% for the three months ended April 28, 2012. The increase in the effective tax rate was primarily the result of the absence of higher tax benefits relating to the accounting for discrete items in the third quarter of Fiscal 2012, and the effect of non-tax-deductible expenses on lower pretax income in the three months ended April 27, 2013.

Net Income. Net income includes income from both continuing operations and discontinued operations. Net income decreased by \$18.2 million, or 36.8%, to \$31.2 million for the three months ended April 27, 2013 from \$49.4 million for the three months ended April 28, 2012. The decrease was primarily due to an overall decline in operating income, an increase in interest expense to service the debt incurred to fund the Charming Shoppes Acquisition, a loss on extinguishment of debt and a loss from discontinued operations of \$1.7 million. These net decreases were offset in part by a decrease in the provision of income taxes of \$7.5 million and the absence of \$6.8 million of acquisition-related, transaction costs incurred during the three months ended April 28, 2012.

Net Income from Continuing Operations Per Diluted Common Share. Net income from continuing operations per diluted share decreased by \$0.11, or 35.5%, to \$0.20 per share for the three months ended April 27, 2013 from \$0.31 per share for the three months ended April 28, 2012. The decrease in diluted per share results was due to the lower level of income from continuing operations, as previously discussed. Weighted-average diluted common shares outstanding increased to 163.3 million shares in the third quarter of Fiscal 2013 from 159.9 million shares in the third quarter of Fiscal 2012, which also reduced net income from continuing operations per diluted common share.

Net Income Per Diluted Common Share. Net income per diluted common share decreased by \$0.12, or 38.7%, to \$0.19 per share for the three months ended April 27, 2013 from \$0.31 per share for the three months ended April 28, 2012. The decrease in diluted per share results was mainly due to lower level of net income from continuing operations and the inclusion of a \$0.01 per diluted share loss from discontinued operations.

Nine Months Ended April 27, 2013 compared to Nine Months Ended April 28, 2012

The following table summarizes our results of operations and expresses the percentage relationship to net sales of certain financial statement captions:

	Nine Months Ended		\$ Change (millions)	% Change

Discontinued operations	0.03	—	0.03	NM	
Total net income per diluted common share	\$ 0.75	\$ 1.01	\$(0.26)	(25.7)%	

(a) Effective tax rate is calculated by dividing the provision for income taxes by income from continuing operations before provision for income taxes.

(b) Income from discontinued operations is presented net of a \$1.8 million tax expense for the nine months ended April 27, 2013.

(NM) Not Meaningful

Net Sales. Net sales increased by \$1,103.6 million, or 45.7%, to \$3,517.2 million for the nine months ended April 27, 2013 from \$2,413.6 million for the nine months ended April 28, 2012. The increase in net sales consisted of 4.8% organic growth from our legacy family of brands and 40.9% from the Charming Shoppes Acquisition. The increase in net sales from our legacy family of brands was driven by our new store growth, particularly at our **Justice** and **maurices** brands, and comparable store sales at our **Justice** brand, as well as strong growth in e-commerce sales at all of our legacy brands. Partially offsetting those increases was a decrease in comparable store sales from our **dressbarn** brand. After giving effect to the Charming Shoppes Acquisition as of the beginning of 2012, comparable store sales decreased 1% during the nine months ended April 27, 2013. E-commerce sales increased by \$75.6 million, or 34% to \$297.3 million during the nine months ended April 27, 2013 from \$221.7 million during the nine months ended April 28, 2012. On a combined basis, these two categories increased 1% during the nine months ended April 27, 2013. As discussed under the section entitled *General Economic Conditions*, our comparable store sales trends during the nine months ended April 27, 2013 reflected lower and inconsistent customer traffic and spending patterns, which generally began in November 2012.

Net sales and comparable store and e-commerce sales data for our five business segments is presented below.

	Nine Months Ended				Comparable Store Sales ^(a)			
	April 27, 2013	April 28, 2012	\$ Change	% Change				
	(millions)		(millions)					
Net sales:								
Justice	\$1,098.2	\$1,015.0	\$83.2	8.2	%	2	%	
Lane Bryant ^(b)	756.4	—	756.4	NM		(5)%	
maurices	701.0	651.4	49.6	7.6	%	flat		
dressbarn	730.7	747.2	(16.5)	(2.2)%	(4)%
Catherines ^(b)	230.9	—	230.9	NM		6	%	
Total net sales	\$3,517.2	\$2,413.6	\$1,103.6	45.7	%	(1)%	
E-commerce comparable sales						34	%	
Combined store and e-commerce comparable sales						1	%	

^(a) Comparable store sales generally refers to the growth of sales in only stores open in both the current period and comparative period in the prior year (including stores relocated within the same shopping center and stores with minor square footage additions). The determination of which stores are included in the comparable store sales calculation normally changes at the beginning of each fiscal year, except for stores that close during the fiscal year, which are excluded from comparable store sales beginning with the fiscal month the store actually closes. However, for acquired stores, such as in the case of **Lane Bryant** and **Catherines**, comparable store sales metrics for the initial first year of acquisition reflects sales from the acquisition date through the end of the fiscal period for all stores that were open in both that period and the comparable period in the prior year.

(b) The Charming Shoppes Acquisition was consummated on June 14, 2012; therefore net sales data related to the **Lane Bryant** and **Catherines** segments for the prior reporting period is not presented.

(NM) Not Meaningful

Justice net sales. The net increase primarily reflects:

- an increase of \$15.1 million, or 2%, in comparable store sales during the nine months ended April 27, 2013; a \$39.2 million increase in non-comparable stores sales, primarily driven by an increase related to 41 net new store openings during the last twelve months;
- an increase of \$18.8 million, or 27%, in revenues from its e-commerce operations;
- a \$14.5 million increase in wholesale, licensing operations, and other revenues; and
- a \$4.4 million decrease in revenue from gift card breakage.

Lane Bryant net sales. Net sales reflect the operation of approximately 788 stores in the current year, as the acquisition was consummated on June 14, 2012, which resulted in \$756.4 million of net sales during the nine months ended April 27, 2013. Such results reflected:

- a 5% decrease in comparable store sales; and
- a 31% increase in comparable e-commerce sales.

maurices net sales. The net increase primarily reflects:

- a decrease of \$1.3 million, or essentially flat comparable store sales during the nine months ended April 27, 2013;
- a \$34.8 million increase in non-comparable stores sales, primarily driven by an increase related to 49 net new store openings during the last twelve months; and
- an increase of \$16.1 million, or 48%, in revenues from e-commerce operations.

dressbarn net sales. The net decrease primarily reflects:

- a decrease of \$29.2 million, or 4%, in comparable store sales during the nine months ended April 27, 2013;
- a \$2.0 million increase in non-comparable stores sales, primarily driven by 34 new stores opened during the last twelve months. The positive effect of the new store openings was partially offset by 39 stores closing in the last twelve months; and
- an increase of \$10.7 million, or 65%, in revenues from e-commerce operations.

Catherines net sales. Net sales reflect the operation of approximately 402 stores in the current year, as the acquisition was consummated on June 14, 2012, which resulted in \$230.9 million of net sales during the nine months ended April 27, 2013. Such results reflected:

- a 6% increase in comparable store sales; and
- a 24% increase in comparable e-commerce sales.

Gross Margin. Gross margin, which represents the difference between net sales and cost of goods sold, expressed as a percentage of net sales, decreased by 90 basis points to 56.2% for the nine months ended April 27, 2013 from 57.1% for the nine months ended April 28, 2012. Our gross margin rate decreased, primarily due to lower margins at **dressbarn**. This primarily resulted from increased promotional activity and higher requirements for inventory markdown reserves in response to the continuing, soft-sales trend during the nine months ended April 27, 2013. Those decreases were partially offset by margin improvements at **Justice** and **maurices**.

Gross margin as a percentage of net sales is dependent upon a variety of factors, including changes in the relative sales mix among brands, changes in the mix of products sold, the timing and level of promotional activities, and fluctuations in material costs. These factors, among others, may cause cost of goods sold as a percentage of net revenues to fluctuate from period to period.

Buying, Distribution and Occupancy Costs. Buying, distribution and occupancy costs increased by \$227.6 million, or 59.1%, to \$613.0 million for the nine months ended April 27, 2013 from \$385.4 million for the nine months ended April 28, 2012. Buying, distribution and occupancy costs as a percentage of net sales increased by 140 basis points to

17.4% for the nine months ended April 27, 2013 from 16.0% for the nine months ended April 28, 2012. The increase in buying, distribution and occupancy costs, both in dollars and as a percentage of net sales, was primarily due to a change in store location mix, as **Lane Bryant's** higher mall-based mix of stores has higher store occupancy costs as a percentage of sales. From our legacy family of brands, increases in store occupancy and distribution expenses, which resulted largely from new store growth and the increased sales volume, also contributed to the increases in buying, distribution and occupancy costs.

Selling, General and Administrative ("SG&A") Expenses. SG&A expenses increased by \$359.3 million, or 54.9%, to \$1,013.9 million for the nine months ended April 27, 2013 from \$654.6 million for the nine months ended April 28, 2012. SG&A expenses as a percentage of net sales increased by 170 basis points to 28.8% for the nine months ended April 27, 2013 from 27.1% for the nine months ended April 28, 2012. SG&A expenses, expressed both in dollars and as a percentage of sales, increased largely due to the current, duplicative corporate overhead structure resulting from the Charming Shoppes Acquisition, which is expected to be significantly scaled back over the next couple of years. From our legacy family of brands, SG&A expenses remained flat as a percentage of sales.

Depreciation and Amortization Expense. Depreciation and amortization expense increased by \$47.3 million, or 62.9%, to \$122.5 million for the nine months ended April 27, 2013 from \$75.2 million for the nine months ended April 28, 2012. The increase was primarily due to the inclusion of Charming Shoppes, which contributed \$33.9 million of incremental depreciation and amortization expense during the nine months ended April 27, 2013. Also contributing to the increase were higher capital expenditures, which resulted, in part, from the net opening of 85 stores from our legacy family of brands during the last twelve months.

Operating Income. Operating income decreased \$54.8 million, or 20.9%, to \$207.0 million for the nine months ended April 27, 2013 from \$261.8 million for the nine months ended April 28, 2012. The change consisted of an \$11.1 million, or 4.2% decrease, from our legacy family of brands, \$20.1 million of unallocated acquisition-related, integration and restructuring costs and a \$23.6 million decrease relating to the acquired operations of **Lane Bryant** and **Catherines**. The operating loss of **Lane Bryant** and **Catherines** reflected the approximate \$19.9 million non-cash inventory expense and a duplicative corporate overhead structure. In turn, the decrease in operating income from our legacy family of brands primarily reflected a decrease in sales and gross margin rate at our **dressbarn** brand, offset in part by the flow-through of margin on the higher sales volume at **Justice** and **maurices**.

Operating income data for our five business segments is presented below.

	Nine Months Ended		\$ Change	% Change
	April 27, 2013	April 28, 2012		
Operating income (loss):				
Justice	\$ 168.1	\$ 148.2	\$ 19.9	13.4 %
Lane Bryant ^(a)	(27.7)	—	(27.7)	NM
maurices	92.3	88.0	4.3	4.9 %
dressbarn	(9.7)	25.6	(35.3)	(137.9)%
Catherines ^(a)	4.1	—	4.1	NM
Subtotal	227.1	261.8	(34.7)	(13.3)%
Less unallocated acquisition-related, integration and restructuring costs	(20.1)	—	(20.1)	NM
Total operating income	\$ 207.0	\$ 261.8	\$ (54.8)	(20.9)%

^(a) The Charming Shoppes Acquisition was consummated on June 14, 2012; therefore the data related to the Lane Bryant and Catherines segments for the prior reporting period is not presented.

(NM) Not Meaningful

Justice operating income increased by approximately \$19.9 million primarily as a result of a flow-through of margin on the higher sales volume, offset in part by increases in buying, distribution and occupancy costs and SG&A expenses. The increase in buying, distribution and occupancy costs was mainly a result of increases in store occupancy costs associated with the buying function and higher distribution expenses, which resulted largely from new store growth and the increased sales volume. The increase in SG&A expenses reflected increases in store-related payroll associated with the new store growth, higher third-party administrative expenses related to e-commerce growth and higher marketing costs, offset in part by the absence of \$5.4 million of executive contractual obligation costs which were incurred in the nine months ended April 28, 2012.

Lane Bryant operating loss of \$27.7 million primarily reflects the impact of the approximate \$15.3 million of one-time, non-cash inventory expense associated with the write-up of inventory to fair market value and also includes the impact of a duplicative corporate overhead structure, which is expected to be significantly scaled back over the next couple of years. The operating results reflect the operation of 788 stores during the nine-month period ended April 27, 2013.

maurices operating income increased by approximately \$4.3 million primarily as a result of a flow-through of margin on the higher sales volume, offset in part by increases in buying, distribution and occupancy costs and SG&A expenses. The increase in buying, distribution and occupancy costs was mainly a result of increases in store occupancy and distribution expenses, which resulted largely from new store growth and the increased sales volume. The increase in SG&A expenses during the nine months ended April 27, 2013 was primarily due to store payroll-related costs and other store expenses, relating to the overall net sales increases and new store growth, and increased third-party administrative expenses related to e-commerce growth. Partially offsetting those increases in SG&A expenses was a favorable product-related vendor settlement during the nine months ended April 27, 2013.

dressbarn operating income (loss) decreased by approximately \$35.3 million to an operating loss of \$9.7 million for the nine months ended April 27, 2013 from operating income of \$25.6 million for the nine months ended April 28, 2012. The decrease was primarily as a result of a decrease in sales and gross margin rates, increases in buying, distribution and occupancy costs and higher depreciation and amortization expense, offset in part by lower SG&A expenses. The lower gross margin rate was mainly attributable to increased promotional activity and higher requirements for inventory markdown reserves in response to continuing, soft-sales trends. Buying, distribution and occupancy costs increased during the nine months ended April 27, 2013 primarily due to rent increases tied to inflation and taxes, and an increase in costs associated with the buying function. The decrease in SG&A expenses was primarily due to a decrease in store marketing costs and a decrease in incentive compensation costs related to less than planned operating results, offset in part by an increase in third-party administrative expenses related to e-commerce growth and an increase in store payroll-related costs.

Catherines operating income of \$4.1 million primarily reflects the impact of the approximate \$4.6 million of one-time, non-cash inventory expense associated with the write-up of inventory to fair market value and also includes the impact of a duplicative corporate overhead structure, which is expected to be significantly scaled back over the next couple of years. The operating results reflect the operation of 402 stores during the nine months ended April 27, 2013.

Unallocated acquisition-related, integration and restructuring costs. The unallocated expenses of \$20.1 million represent acquisition-related, integration and restructuring costs incurred during the period resulting from the Charming Shoppes Acquisition.

Interest Expense. Interest expense increased by \$11.8 million to \$12.5 million for the nine months ended April 27, 2013 from \$0.7 million for the nine months ended April 28, 2012. The increase was primarily the result of new borrowings used to partially fund the Charming Shoppes Acquisition in the fourth quarter of Fiscal 2012.

Interest and Other Income, Net. Interest and other income, net decreased by \$2.1 million to \$0.6 million for the nine months ended April 27, 2013 from \$2.7 million for the nine months ended April 28, 2012. The decrease was mainly due to lower interest income during the Fiscal 2013 period, as average balances of cash and investments decreased during the fourth quarter of Fiscal 2012 as a result of the Charming Shoppes Acquisition.

Acquisition-related, Transaction Costs. Acquisition-related costs were \$6.8 million for the nine months ended April 28, 2012. These costs were incurred in connection with the Charming Shoppes Acquisition, and include legal, consulting and investment banking-related costs that were direct, incremental costs of the acquisition. No such costs were recognized during the nine months ended April 27, 2013.

Loss on Extinguishment of Debt. During the nine months ended April 27, 2013, the Company prepaid the Term Loan in full and prepaid the mortgage on its distribution center in Greencastle, Indiana, resulting in a \$9.3 million pretax loss on extinguishment of debt. No such loss was recognized during the nine months ended April 28, 2012.

Provision for Income Taxes. The provision for income taxes represents federal, foreign, state and local income taxes. The provision for income taxes from continuing operations decreased by \$27.5 million, or 28.5%, to \$68.9 million for the nine months ended April 27, 2013 from \$96.4 million for the nine months ended April 28, 2012. The decrease in provision for income taxes was primarily a result of lower pretax income in the nine months ended April 27, 2013 and a lower effective income tax rate. The effective tax rate decreased 40 basis points, to 37.1% for the nine months ended April 27, 2013 from 37.5% for the nine months ended April 28, 2012. The decrease in the effective tax rate was primarily the result of higher tax benefits relating to the accounting for discrete items recognized in Fiscal 2013.

Net Income. Net income includes income from continuing and discontinued operations. Net income decreased by \$39.1 million, or 24.3%, to \$121.5 million for the nine months ended April 27, 2013 from \$160.6 million for the nine months ended April 28, 2012. The decrease was primarily due to an overall decline in operating income, an increase in interest expense to service the debt incurred to fund the Charming Shoppes Acquisition and a loss on extinguishment of debt. These net decreases were offset in part by income from discontinued operations of \$4.6 million, a decrease in the provision of income taxes of \$27.5 million and the absence of \$6.8 million of acquisition-related, transaction costs incurred during the nine months ended April 28, 2012. The income from discontinued operations primarily reflected the positive seasonal holiday gift-giving business of Figi's during the second quarter of Fiscal 2013.

Net Income from Continuing Operations Per Diluted Common Share. Net income from continuing operations per diluted share decreased by \$0.29, or 28.7%, to \$0.72 per share for the nine months ended April 27, 2013 from \$1.01 per share for the nine months ended April 28, 2012. The decrease in diluted per share results was due to the lower level of income from continuing operations, as previously discussed. Weighted-average diluted common shares outstanding increased to 162.8 million shares during the nine months ended April 28, 2012 from 159.1 million shares during the nine months ended April 28, 2012, which also reduced net income from continuing operations per diluted common share.

Net Income per Diluted Common Share. Net income per diluted common share decreased by \$0.26, or 25.7%, to \$0.75 per share for the nine months ended April 27, 2013 from \$1.01 per share for the nine months ended April 28, 2012. The decrease in diluted per share results was mainly due to lower level of net income from continuing operations, partially offset by the inclusion of a \$0.03 per diluted share income from discontinued operations.

FINANCIAL CONDITION AND LIQUIDITY***Financial Condition***

	April 27,	July 28, 2012	\$ Change
	2013		
	(millions)		
Cash and cash equivalents	\$202.9	\$164.3	\$ 38.6
Short-term investments	3.2	1.4	1.8
Non-current investments	—	3.2	(3.2)
Total debt	(155.6)	(326.6)	171.0
Net cash and investments (debt) ^(a)	\$50.5	\$(157.7)	\$ 208.2
Equity	\$1,515.4	\$1,340.9	\$ 174.5

^(a) “Net cash and investments (debt)” is defined as total cash and cash equivalents, plus short-term and non-current investments, less total debt.

As of April 27, 2013, we were in a net cash position of \$50.5 million compared to net debt position of \$157.7 million as of the end of Fiscal 2012. The increase in our net cash position as of April 27, 2013 as compared to July 28, 2012 was primarily due our operating cash flows, which were partially offset by our use of cash to support our capital expenditures (as discussed below under “*Capital Spending*”), the prepayment of debt under our Term Loan and the use of the available cash and cash equivalents to reduce our outstanding debt under the Revolving Credit Agreement (each as defined and discussed below under “*Debt*”).

The increase in equity was mainly due to the Company’s net income in Fiscal 2013.

Cash Flows

The table below summarizes our cash flows for the nine months ended presented as follows:

Edgar Filing: Ascena Retail Group, Inc. - Form 10-Q

	Nine Months Ended	
	April 27, 2013	April 28, 2012
	(millions)	
Net cash provided by operating activities	\$ 333.2	\$ 300.6
Net cash used in investing activities	(152.8)	(164.7)
Net cash used in financing activities	(141.8)	(16.2)
Net increase in cash and cash equivalents ^(a)	\$ 38.6	\$ 119.7

^(a) Excludes changes in short-term and non-current investments, which decreased in the aggregate by \$1.4 million during the nine months ended April 27, 2013.

Net Cash Provided by Operating Activities. Net cash provided by operations was \$333.2 million for the nine months ended April 27, 2013, compared with \$300.6 million for the nine months ended April 28, 2012. The increase was primarily driven by lower working capital requirements and other balance sheet changes.

Net Cash Used in Investing Activities. Net cash used in investing activities for the nine months ended April 27, 2013 was \$152.8 million, consisting almost entirely of cash used for capital expenditures. Net cash used in investing activities for the nine months ended April 28, 2012 was \$164.7 million, consisting primarily of \$102.7 of net cash used for capital expenditures and \$61.9 million of net cash used in the purchase of investment securities.

Net Cash Used in Financing Activities. Net cash used in financing activities was \$141.8 million for the nine months ended April 27, 2013, consisting primarily of \$174.7 million in net repayments of debt (net of borrowings), offset in part by proceeds relating to our stock-based compensation plans. Net cash used in financing activities for the nine months ended April 28, 2012 was \$16.2 million, consisting primarily of cash used for the repurchase of common stock, offset in part by proceeds relating to our stock-based compensation plans.

Capital Spending

We routinely make capital investments primarily in connection with ongoing expansion of our retail store network, construction and renovation of our existing portfolio of retail stores, investments in our technological and supply chain infrastructure, and investments in administrative office space to support our growing operations. At the end of Fiscal 2012, the Company announced significant capital spending plans relating to the rationalization of its distribution network. For a detailed discussion of those plans, see Part II, Item 7 as specified in the capital spending section of the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of the Fiscal 2012 10-K.

In addition, in connection with the integration of the technological infrastructure of Charming Shoppes, the Company recently finalized plans to migrate to common information technology platforms for its Company-wide, point-of-sales systems, merchandise systems, warehouse management systems and financial systems. The execution of those transformational information technology plans is expected to take place over the next two years. Accordingly, when taken together with the previously announced capital plans to transform its distribution network and to expand certain of its administrative facilities, the Company expects incremental capital requirements to approximate \$300 - \$325 million over the next two years. Such requirements are expected to continue to be funded primarily with operating cash flows and, to the extent necessary, borrowings under the Company’s Revolving Credit Agreement.

For the nine months ended April 27, 2013, we had \$171.3 million of capital expenditures, compared to \$102.7 million of capital expenditures for the nine months ended April 28, 2012.

Liquidity

Our primary sources of liquidity are the cash flows generated from our operations, recently expanded availability under our Revolving Credit Agreement (as defined below), available cash and cash equivalents, investments and other available financing options. These sources of liquidity are used to fund our ongoing cash requirements, including working capital requirements, retail store expansion, construction and renovation of stores, any future dividend requirements, investment in technological and supply chain infrastructure, acquisitions, debt servicing requirements, corporate offices, stock repurchases, contingent liabilities (including uncertain tax positions) and other corporate activities. Management believes that our existing sources of cash will be sufficient to support our operating needs, capital requirements and any debt service requirements for the foreseeable future.

As of April 27, 2013, approximately 74% of our available cash and cash equivalents were held overseas by our foreign subsidiaries. As such, for the Company to have access to those cash and cash equivalents in the U.S, we would incur a current U.S. tax liability of between 15% to 20% of the cash repatriated; this current U.S. tax liability has been previously provided for in the provision for income taxes and is currently classified within deferred income taxes on

the accompanying unaudited consolidated balance sheets. We currently do not have any plans to repatriate these funds from our overseas subsidiaries to the U.S.

As discussed in the “*Debt*” section below, as of April 27, 2013, we had \$155.0 million of borrowings under our Revolving Credit Agreement. The Company believes the Revolving Credit Agreement will provide sufficient liquidity to continue to support the Company’s operating needs and capital requirements for the foreseeable future. We believe that our Revolving Credit Agreement is adequately diversified with no undue concentrations in any one financial institution. In particular, as of April 27, 2013, there were six financial institutions participating in the credit facility, with no one participant maintaining a maximum commitment percentage in excess of approximately 25%. Management has no reason at this time to believe that the participating institutions will be unable to fulfill their obligations to provide financing in accordance with the terms of the Revolving Credit Agreement in the event of our election to draw funds in the foreseeable future.

Debt

In March 2013, the Company (i) exercised an option to increase the capacity of its existing revolving credit facility by \$50 million from \$250 million to \$300 million, (ii) borrowed approximately \$263 million under the facility, (iii) used the proceeds to prepay the Term Loan (as defined and discussed further below), and (iv) amended its then existing revolving credit facility (the “Revolving Credit Agreement”) with the lenders thereunder and JPMorgan Chase Bank, N.A., as administrative agent. The principal changes in terms related to expansion of the borrowing availability from \$250 million to \$500 million and an extension of the maturity date of the borrowing arrangement by one year from June 2017 to June 2018.

As of April 27, 2013, the Company had \$155.6 million of debt outstanding consisting primarily of (i) \$155.0 million which was incurred to fund a portion of the purchase price of the Charming Shoppes Acquisition, and (ii) \$0.6 million of convertible notes assumed in the Charming Shoppes Acquisition, which remain outstanding after substantially all were redeemed in July 2012. For a complete description of the Company’s convertible-notes borrowing arrangement see Note 14 to our audited consolidated financial statements included in our Fiscal 2012 10-K.

Revolving Credit Agreement

The Revolving Credit Agreement now provides a senior secured revolving credit facility up to \$500 million, with an optional additional increase of up to \$100 million. The Revolving Credit Agreement expires in June 2018. There are no mandatory reductions in borrowing availability throughout the term of the Revolving Credit Agreement. However, availability under the Revolving Credit Agreement fluctuates from month-to-month based on the Company's underlying collateral position at the end of the period. Our collateral position is determined, at any given period, by the aggregate of the Company's (i) inventory position (less reserves), (ii) market value of eligible real properties up to certain limits, and (iii) eligible credit card receivables. The Revolving Credit Agreement may be used for the issuance of letters of credit, to fund working capital requirements and capital expenditures, and for general corporate purposes. The Revolving Credit Agreement includes a \$250 million letter of credit sublimit, of which \$60 million can be used for standby letters of credit, and a \$25 million swing loan sublimit.

Borrowings under the Revolving Credit Agreement bear interest at a variable rate determined using a base rate equal to the greatest of (i) prime rate, (ii) federal funds rate plus 50 basis points, or (iii) LIBOR plus 100 basis points; plus an applicable margin ranging from 50 basis points to 200 basis points based on a combination of the type of borrowing (prime or LIBOR), the Company's leverage ratio (defined below) existing at the end of the previous quarter, and average borrowing availability during the previous fiscal quarter. The Company believes the aforementioned refinancing will reduce its future borrowing costs.

The leverage ratio is defined as a ratio of the sum of the aggregate principal amount of indebtedness to consolidated EBITDA. For such purposes, consolidated EBITDA is defined generally as net income plus (i) income tax expense, (ii) interest expense, (iii) depreciation and amortization expense, (iv) non-recurring, acquisition-related expenses, and (v) restructuring charges not exceeding predetermined limits.

In addition to paying interest on any outstanding borrowings under the Revolving Credit Agreement, the Company is required to pay a commitment fee to the lenders under the Revolving Credit Agreement in respect of the unutilized commitments in an amount ranging between 25 basis points and 37.5 basis points per annum based the Company's leverage ratio existing at the end of the previous quarter and average utilization during the previous fiscal quarter.

As of April 27, 2013, after taking into account the \$155.0 million of revolving debt outstanding and the \$20.7 million in outstanding letters of credit, the Company had \$306.9 million in its variable availability under the Revolving Credit Agreement.

Restrictions under the Revolving Credit Agreement

The Revolving Credit Agreement is subject to restrictions, as summarized below.

The Revolving Credit Agreement has financial covenants with respect to a fixed charge coverage ratio, which is defined as a ratio of consolidated EBITDAR, less capital expenditures to consolidated fixed charges. For such purposes, consolidated EBITDAR is defined generally as net income plus (i) income tax expense, (ii) interest expense, (iii) depreciation and amortization expense, (iv) rent expense, (v) non-recurring acquisition-related expenses, and (vi) restructuring charges not exceeding predetermined limits. Consolidated fixed charges are defined generally as the sum of (a) cash interest expense, (b) rent expense, (c) cash tax expense, (d) mandatory principal repayment, (e) capital lease payments, (f) mandatory cash contributions to any employee benefit plan and (g) any restricted payments paid in cash. The Company is required to maintain a minimum fixed charge coverage ratio for any period of four consecutive fiscal quarters of at least 1.00 to 1.00. As of April 27, 2013, the actual fixed charge coverage ratio was 1.54 to 1.00. The Company was in compliance with all financial covenants contained in the Revolving Credit Agreement as of April 27, 2013.

In addition to the above, the Revolving Credit Agreement contains customary negative covenants, subject to negotiated exceptions, on (i) liens and guarantees, (ii) investments, (iii) indebtedness, (iv) significant corporate changes including mergers and acquisitions, (v) dispositions, (vi) restricted payments, cash dividends and certain other restrictive agreements. The borrowing agreement also contains customary events of default, such as payment defaults, cross-defaults to other material indebtedness, bankruptcy and insolvency, the occurrence of a defined change in control, or the failure to observe the negative covenants and other covenants related to the operation of the Company's business.

The Company's obligations under the Revolving Credit Agreement are guaranteed by certain of its domestic subsidiaries (the "Subsidiary Guarantors"). As collateral security under the borrowing agreement and the guarantees thereof, the Company and the Subsidiary Guarantors have granted to the administrative agent for the benefit of the lenders, a first priority lien on substantially all of their tangible and intangible assets, including, without limitation, certain domestic inventory and certain material real estate.

Term Loan

In connection with the funding of the Charming Shoppes Acquisition during the fourth quarter of Fiscal 2012, the Company entered into a \$300 million variable-rate term loan (“Term Loan”) with an original maturity of June 14, 2018. The Term Loan was recorded net of an original issue discount of \$3 million, which was being amortized to interest expense over the contractual life of the Term Loan.

During the second quarter of Fiscal 2013, the Company prepaid approximately \$20 million of the outstanding principal balance of the Term Loan. The transaction resulted in a \$0.6 million pretax loss on extinguishment of debt during the second quarter of Fiscal 2013, relating to a proportional reduction in the balances of the original issue discount and deferred financing costs, which has been disclosed as a component of the loss on extinguishment of debt on the face of the accompanying consolidated statements of operations.

During the third quarter of Fiscal 2013, the Company prepaid the entire remaining approximately \$279 million of outstanding principal balance under the Term Loan using approximately \$263 million of borrowings under the Revolving Credit Agreement (as discussed above) and approximately \$16 million of proceeds from the sale of **Fashion Bug’s** distribution center (See Note 2 – *Discontinued Operations* for further discussion). These transactions resulted in an aggregate \$7.9 million pretax loss on extinguishment of debt during the third quarter of Fiscal 2013, relating to a write-off of the remaining balances of the original issue discount and deferred financing costs. This loss has been disclosed as a component of the loss on extinguishment of debt on the face of the accompanying consolidated statements of operations.

Greencastle Mortgage

In connection with the Charming Shoppes Acquisition, the Company assumed a \$7.8 million mortgage obligation (the “Greencastle Mortgage”) on Charming Shoppes’s owned distribution center in Greencastle, Indiana. The Greencastle Mortgage bore interest at a fixed rate of 6.07%. During the second quarter of Fiscal 2013, the Company prepaid the outstanding principal balance of the Greencastle Mortgage in full. The payment of \$8.4 million resulted in a \$0.8 million pretax loss on extinguishment of debt, relating to a make-whole premium to holders of the mortgage note, which has been disclosed as a component of the loss on extinguishment of debt on the face of the accompanying unaudited consolidated statements of operations.

Payment of Dividends

Our Revolving Credit Agreement does not permit cash dividends, but allows us to pay stock dividends, provided that at the time of and immediately after giving effect to the stock dividend, (i) there is no default or event of default, (ii) the fixed charge coverage ratio (as defined in the Revolving Credit Agreement) is not less than 1.15 to 1.00, and (iii) borrowings under the Revolving Credit Agreement do not exceed 82.5% of the total available borrowings (such that availability (as defined in the Revolving Credit Agreement) is not less than 17.5% of the aggregate revolving commitments (as defined in the Revolving Credit Agreement)). Dividends are payable when declared by our Board of Directors. Currently, the Board of Directors does not plan to pay any dividends.

Common Stock Repurchase Program

In Fiscal 2010, the Company's Board of Directors authorized a \$100 million share repurchase program (the "2010 Stock Repurchase Program"). This program was then expanded in Fiscal 2011 to cover an additional \$100 million of authorized purchases. Under the 2010 Stock Repurchase Program, purchases of shares of common stock may be made at the Company's discretion from time to time, subject to overall business and market conditions.

No shares of common stock were repurchased by the Company under its repurchase program during the nine months ended April 27, 2013. Repurchased shares normally are retired and treated as authorized but unissued shares.

The remaining availability under the 2010 Stock Repurchase Program was approximately \$89.9 million at April 27, 2013.

Contractual and Other Obligations

Firm Commitments

There have been no material changes during the period covered by this report to the firm commitments specified in the contractual and other obligations section of the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in the Fiscal 2012 10-K.

Off-Balance Sheet Arrangements

There have been no material changes during the period covered by this report to the off-balance sheet arrangements specified in the contractual and other obligations section of the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in the Fiscal 2012 10-K.

MARKET RISK MANAGEMENT

The Company is exposed to a variety of market-based risks, representing our potential exposure to losses arising from adverse changes in market rates and prices. These market risks include, but are not limited to, changes in foreign currency exchange rates relating to our expanding Canadian and other international operations, changes in interest rates, and changes in both the value and liquidity of our cash, cash equivalents and investment portfolio. Consequently, in the normal course of business, we employ a number of established policies and procedures to manage such risks, including considering, at times, the use of derivative financial instruments to hedge such risks. However, as a matter of policy, we do not enter into derivative financial instruments for speculative or trading purposes. As of April 27, 2013, the Company did not have any outstanding derivative financial instruments.

Foreign Currency Risk Management

We currently do not have any significant risks to the fluctuation of foreign currency exchange rates. Purchases of inventory for resale in our retail stores normally are transacted in U.S. dollars. In addition, our wholly owned international retail operations represented approximately 1% of our consolidated revenues during the first nine months of Fiscal 2013. In the future, as our international operations continue to expand, we would consider the use of forward foreign currency exchange contracts to manage any significant risks to changes in foreign currency exchange rates.

Interest Rate Risk Management

Our Company currently has \$155.0 million in variable-rate debt outstanding under our Revolving Credit Agreement. Accordingly, we remain subject to changes in interest rates. For each 0.125% increase or decrease in interest rates, the Company's annual interest expense would increase or decrease by approximately \$0.2 million, and net income would decrease or increase, respectively, by approximately \$0.1 million. See Note 9 to our unaudited consolidated financial statements for a summary of the terms and conditions of our Revolving Credit Agreement.

Investment Risk Management

As of April 27, 2013, our Company had cash and cash equivalents on-hand of \$202.9 million, primarily invested in money market funds and commercial paper with original maturities of 90 days or less. The Company's other short-term investments of \$3.2 million consisted primarily of restricted cash.

We maintain cash deposits and cash equivalents with well-known and stable financial institutions; however, there were significant amounts of cash and cash equivalents at these financial institutions in excess of federally insured limits at April 27, 2013. This represents a concentration of credit risk. With the current financial environment and the instability of some financial institutions, we cannot be assured we will not experience losses on our deposits in the future. However, there have been no losses recorded on deposits of cash and cash equivalents to date.

CRITICAL ACCOUNTING POLICIES

The Company's significant accounting policies are described in Notes 3 and 4 to the audited consolidated financial statements included in the Company's Fiscal 2012 10-K. The SEC's Financial Reporting Release No. 60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies" ("FRR 60"), suggests companies provide additional disclosure and commentary on those accounting policies considered most critical. FRR 60 considers an accounting policy to be critical if it is important to the Company's financial condition and results of operations and requires significant judgment and estimates on the part of management in its application. The Company's estimates are often based on complex judgments, probabilities and assumptions that management believes to be reasonable, but that are inherently uncertain and unpredictable. It is also possible that other professionals, applying reasonable judgment to the same facts and circumstances, could develop and support a range of alternative estimated amounts. For a detailed discussion of the Company's critical accounting policies, see the "Critical Accounting Policies" section of the MD&A in the Company's Fiscal 2012 10-K. There have been no material changes in the application of the Company's critical accounting policies since July 28, 2012.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

During the nine months ended April 27, 2013, there have been no recently issued or proposed accounting standards which may have a material impact our financial statements in future periods.

Item 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of our exposure to, and management of our market risks, see “Market Risk Management” in Item 2 included elsewhere in this report on Form 10-Q.

Item 4 - CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in the reports that the Company files or submits under the Securities and Exchange Act of 1934, as amended (the “Exchange Act”) is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to the Company’s management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

The Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures pursuant to Rules 13(a)-15(e) and 15(d)-15(e) of the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures are effective at the reasonable assurance level as April 27, 2013. There has been no change in the Company’s internal control over financial reporting during the fiscal quarter ended April 27, 2013 that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

Part II - OTHER INFORMATION

Item 1 – LEGAL PROCEEDINGS

The Company is a defendant in lawsuits and other adversarial proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where it deems it appropriate to do so under applicable accounting rules. Moreover, the Company's assessment of the current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries, administrative agencies or other finders of fact that are not in accordance with the Company's evaluation of a particular claim. The results of these lawsuits, claims and proceedings cannot be predicted with certainty. However, the Company believes that the ultimate resolution of these matters will not have a material effect on the Company's consolidated financial statements. The Company's identified contingencies include the matters set out below.

Six lawsuits were filed in Fiscal 2012 challenging the proposed acquisition of Charming Shoppes by Ascena. Five of these lawsuits were consolidated in state court in Pennsylvania, and one case remained in federal court in Pennsylvania. In general, plaintiffs sued the Charming Shoppes board of directors for alleged breach of their fiduciary duties under Pennsylvania state law in connection with the sale process, negotiations and public disclosures about the transaction. Ascena was sued for allegedly aiding and abetting the Charming Shoppes directors' alleged breach of their fiduciary duties. The parties entered into a stipulation of settlement to settle the state and federal litigations. The stipulation of settlement received final court approval during the third quarter of Fiscal 2013. Pursuant to the settlement, both the state and federal cases were dismissed, and previously accrued, court-ordered attorneys' fees of \$0.5 million were paid during the third quarter of Fiscal 2013.

Item 1A – Risk Factors

There are many risks and uncertainties that can affect our future business, financial performance or share price. In addition to the other information set forth in this report, you should review and consider the information regarding certain factors which could materially affect our business, financial condition or future results set forth under Part I, Item 1A “Risk Factors” in our Fiscal 2012 10-K. There have been no material changes during the quarter ended April 27, 2013 to the Risk Factors set forth in Part I, Item 1A of the Fiscal 2012 10-K.

Item 2 –UNREGISTERED SALES OF EQUITY Securities and Use of Proceeds**Issuer Purchases of Equity Securities⁽¹⁾**

The following table provides information about the Company’s repurchases of common stock during the fiscal quarter ended April 27, 2013.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
Month # 1 (January 27, 2013 – February 23, 2013)	—	\$—	—	\$90 million
Month # 2 (February 24, 2013 – March 30, 2013)	—	—	—	90 million
Month # 3 (March 31, 2013 – April 27, 2013)	—	—	—	90 million

⁽¹⁾ In Fiscal 2010, the Company’s Board of Directors authorized a \$100 million share repurchase program (the “2010 Stock Repurchase Program”). The program was then expanded in Fiscal 2011 to cover an additional \$100 million of authorized purchases. Under the 2010 Stock Repurchase Program, purchases of shares of common stock may be made at the Company’s discretion from time to time, subject to overall business and market conditions. Purchases will be made at prevailing market prices, through open market purchases or in privately negotiated transactions and will be

subject to applicable SEC rules.
