PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD
February 14, 2004

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Proxy Statement

We are sending you this Proxy Statement and the enclosed proxy card because the Company's Board of Directors is soliciting your proxy to vote at the 2004 Annual Meeting of Shareholders. This Proxy Statement summarizes the information you need to know to cast an informed vote at the Annual Meeting. However, you do not need to attend the Annual Meeting to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card or use any of the available alternative proxy voting methods specified in the instructions that accompany this Proxy Statement.

If you are the record owner of your shares, the available alternative proxy voting methods are telephone and Internet voting. If your shares are held by a broker, the alternative proxy voting methods may include telephone, Internet and any alternative method of voting permitted by your broker.

This Proxy Statement, the attached Notice of Annual Meeting and the enclosed proxy card will first be sent on or about December 29, 2003 to all shareholders entitled to vote. Shareholders who owned shares of the Company's common stock on December 18, 2003 are entitled to vote. On this record date, there were 12,298,127 shares outstanding. We know of no beneficial owner of more than five percent of those shares. Each share of the Company's common stock that you own entitles you to one vote. (A fractional share has a fractional vote.)

We have previously sent to shareholders the Company's 2003 Annual Report including financial statements. If you have not received such report or would like to receive an additional copy, please contact Gary I. Levine at 65 Madison Avenue, Morristown, NJ 07960 or call collect (973) 631-1177. The Company will furnish such report free of charge.

Time and Place of Meeting

We are holding the Annual Meeting on Saturday, February 14, 2004 at 10:00 a.m., Eastern Time, at the Trianon Hotel, 3401 Bay Commons Drive, Bonita Springs, Florida 34134.

Voting by Proxy

Whether you plan to attend the Annual Meeting or not, we urge you to complete, sign and date the enclosed proxy card and to return it promptly in the envelope provided. If you are the record owner of your shares on the books of the Company's transfer agent, then you may also submit your proxy vote by telephone or via the Internet, by following the instructions accompanying this Proxy Statement. If your

broker holds your shares in its name, you may submit your proxy vote by any other means specified in the instructions that accompany this Proxy Statement.

Edgar Filing: ELLSWORTH CONVERTIBLE GROWTH & INCOME FUND INC - Form DEF 14A

Returning the proxy card or using any of the available alternative proxy voting methods will not affect your right to attend the Annual Meeting and vote.

If you properly fill in your proxy card and send it to us in time to vote or use any of the available alternative proxy voting methods, your "proxy" (one of the individuals named on your proxy card) will vote your shares as you have directed. If you sign the proxy card or use any of the available alternative proxy voting methods but do not make specific choices, your proxy will vote your shares as recommended by the Board as follows:

- o FOR the election of all three nominees for director.
- o FOR ratification of the appointment of independent auditors for 2004.
- o AGAINST the amendment to the Company's Charter.

Your proxy will have authority to vote and act on your behalf at any adjournment of the meeting.

If you give a proxy, you may revoke it at any time before it is exercised. You can do this in one of four ways:

- o You may send in another proxy with a later date.
- o If you submitted a proxy by telephone, via the Internet or via an alternative method of voting permitted by your broker, you may submit another proxy by telephone, via the Internet, or via such alternative method of voting, or send in another proxy with a later date.
- o You may notify the Company's Secretary in writing before the Annual Meeting that you have revoked your proxy.
- o You may vote in person at the Annual Meeting.

Voting in Person

If you do attend the Annual Meeting and wish to vote in person, we will give you a ballot when you arrive. However, if your shares are held in the name of your broker, bank or other nominee, you must bring a letter from the nominee indicating that you are the beneficial owner of the shares on December 18, 2003, the record date for voting, and authorizing you to vote.

Quorum Requirement

A quorum of shareholders is necessary to hold a valid meeting. A quorum will exist if shareholders entitled to vote a majority of all shares outstanding on the record date are present in person or by proxy.

Under rules applicable to broker-dealers, if your broker holds your shares in its name, we expect that the broker will be entitled to vote your shares on Proposals 1 and 2 even if it has not received instructions from you. However, your broker will not be entitled to vote on Proposal 3 unless it has received instructions from you. If your broker does not vote your shares on Proposal 3 because it has not received instructions from you, these shares will be considered "broker non-votes."

Broker non-votes, if any, and abstentions will count as present for establishing a quorum.

Vote Necessary to Approve a Proposal

Proposal 1. Directors are elected by a plurality vote of shares present at the meeting, meaning that the director nominee with the most affirmative votes for a particular slot is elected for that slot. In an uncontested election for directors, the plurality requirement is not a factor. Abstentions will not count as votes cast and will have no effect on the outcome of this proposal. We expect that brokers will be entitled to vote on this proposal, but any broker non-vote will have no effect on the outcome of this proposal.

Proposal 2. The affirmative vote of the majority of votes cast is needed to approve the ratification of the Audit Committee's appointment of the independent auditors. Abstentions will not count as votes cast and will have no effect on the outcome of this proposal. We expect that brokers will be entitled to vote on this proposal, but any broker non-vote will have no effect on the outcome of this proposal.

Proposal 3. The affirmative vote of two-thirds of all outstanding shares of the Company, whether or not present at the Annual Meeting, is needed to approve the amendment of the Company's Charter. Broker non-votes and abstentions will not count as votes cast and will have the effect of votes against this proposal.

PROPOSAL 1

ELECTION OF DIRECTORS

Structure of the Board of Directors

The Company's Board of Directors is divided into three classes for purposes of election. One class is elected at each annual meeting of shareholders. Directors in each class serve for a three-year term.

The Board of Directors currently consists of nine persons. Seven of the directors are "independent," meaning they are not "interested persons" of the Company within the meaning of the Investment Company Act of 1940, as amended (the Investment Company Act). Two of the Company's directors are "interested persons" because of their business and financial relationships with the Company and Davis-Dinsmore Management Company (Davis-Dinsmore), its investment adviser.

At the 2004 Annual Meeting, the terms of three directors are expiring. The directors nominated for election at this Annual Meeting would each hold office for a three-year term expiring in 2007. Other directors are not up for election this year and will continue in office for the rest of their terms. Each of the nominees is willing to serve as a director. However, if a nominee becomes unavailable for election, proxies will vote for another nominee proposed by the Board or, as an alternative, the Board may keep the position vacant or reduce the number of directors.

Nominees for Directors

The Board has approved the nomination of the following people to serve as directors until the annual meeting of shareholders to be held in 2007. Certain Relationships

Thomas H. Dinsmore and Jane D. O'Keeffe are brother and sister.

Committees of the Board

The Board has three committees: an Audit Committee, a Nominating and Administration Committee and a Pricing Committee.

Audit Committee

The Company has a separately designated Audit Committee as that term is defined in the Securities Exchange Act of 1934, as amended. The Audit Committee is comprised entirely of independent directors (Mr. Benton, Dr. Bogan, Mr. Halsted and Mr. Lieberman, with Dr. Bogan serving as Chairperson). In addition, all such members are independent as such term is defined by the American Stock Exchange's listing standards.

In accordance with its charter, attached as Appendix A to this Proxy Statement, the Committee oversees the Company's accounting and financial reporting policies and practices, as well as the quality and objectivity of the Company's financial statements and the independent audit of the financial statements. Among other duties, the Committee selects independent auditors for the Company, evaluates their independence and meets with them to review the scope and results of the audit. The Audit Committee also (i) serves as the Company's qualified legal compliance committee within the meaning of Part 204 of the Securities and Exchange Commission's Attorney Conduct Rules, and (ii) receives reports of violations and potential violations of the Company's Code of Ethics for Principal Officers. The Audit Committee has also established procedures for (i) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters; and (ii) the confidential, anonymous submission by employees of the Company or Davis-Dinsmore, of concerns regarding questionable accounting or auditing matters.

Audit Committee Report

The Audit Committee reviewed and discussed the Company's audited financial statements with its independent auditors, PricewaterhouseCoopers LLP (PwC). These discussions included the auditor's judgments about the quality, not just acceptability, of the Company's accounting principles as applied in its financial reporting. PwC, the Audit Committee and management also discussed matters such as the clarity, consistency and completeness of the accounting policies and disclosures, with a particular focus on critical accounting policies.

The Audit Committee has received a letter from PwC required by Independence Standards Board Standard No. 1 disclosing all relationships between PwC and its related entities and the Company. The Audit Committee discussed with PwC their independence as the Company's independent auditors. In addition, the Audit Committee has considered whether the provision of non-audit services by PwC is compatible with maintaining PwC's independence. The Audit Committee also reviewed and discussed the Company's audited financial statements with management.

Based on the review and discussions described above, the Audit Committee

has recommended to the Company's Board of Directors that the audited financial statements be included in the Company's annual report to shareholders for the fiscal year ended September 30, 2003 for filing with the Securities and Exchange Commission.

Elizabeth C. Bogan, Ph.D., Chairperson
William A. Benton
Donald M. Halsted
George R. Lieberman

Nominating and Administration Committee

The Nominating and Administration Committee is also comprised entirely of independent directors (Mr. Ahalt, Mr. Halsted and Mr. Lieberman, with Mr. Halsted serving as Chairman). In accordance with its charter, the Committee, among other duties, recommends nominees as independent directors for the Company and nominees for Board committees, reviews Board governance issues and Board compensation and monitors the performance of legal counsel. In recommending nominees, the Committee considers the diversity of experience and backgrounds of nominees and directors. The Nominating and Administration Committee will consider a shareholder's suggestion for a nominee for director, but the final decision for all nominees will be made by the Committee.

A shareholder may nominate an individual for election to the Board of Directors at the 2005 Annual Meeting of shareholders if the shareholder: (1) is a shareholder of record at the time of giving notice to the Company; (2) is a shareholder of record at the time of the 2005 Annual Meeting; (3) is entitled to vote at the 2005 Annual Meeting; and (4) has complied with the notice procedures in the Company's Bylaws. The notice procedures require that a shareholder submit the nomination in writing to the Secretary of the Company no earlier than September 12, 2004 but no later than October 13, 2004. The notice must contain all information relating to the nominee required for proxy solicitations by Regulation 14A under the Securities Exchange Act of 1934, as amended (including the individual's written consent to being named in the proxy statement as a nominee and to serving as a director if elected). The notice must also contain the shareholder's name and address as they appear on the Company's books (and the name and address of any beneficial owner, on whose behalf the nomination is made) and the number of shares of stock owned beneficially and of record by such shareholder and shareholder nominee.

Pricing Committee

The Pricing Committee is comprised of three members, two of whom are independent directors (Mr. Ahalt and Mr. Platt, with Mr. Ahalt serving as Chairman) and one of whom is an interested person (Mr. Dinsmore). In accordance with its charter, the Committee assists the Company's investment adviser, Davis-Dinsmore, in its valuation of the Company's portfolio securities when pricing anomalies arise and the full Board is not available to assist Davis-Dinsmore in making a fair value determination.

It is anticipated that the Committee will meet only as pricing anomalies or issues arise that cannot be resolved by the entire Board due to time constraints.

Board and Committee Meeting Attendance

During the 2003 fiscal year, the Board met eight times, the Audit Committee met three times and the Nominating and Administration Committee met three times.

Edgar Filing: ELLSWORTH CONVERTIBLE GROWTH & INCOME FUND INC - Form DEF 14A

The Pricing Committee did not meet. All directors attended at least 75% of all Board and Committee meetings held during the 2003 fiscal year.

Directors' Compensation

Mr. Dinsmore and Ms. O'Keefe are the only officers of the Company or Davis-Dinsmore who serve on the Board of Directors. Each director who is not an officer of the Company or Davis-Dinsmore currently receives (1) an annual fee of \$5,000, (2) \$1,000 plus expenses for each Board meeting attended,

7

(3) \$1,000 for each shareholders' meeting attended, (4) \$1,000 plus expenses for each Committee meeting attended that is not held in conjunction with a Board meeting, and (5) \$500 for each Committee meeting attended that is held in conjunction with a Board meeting. The chairperson of each Committee receives an additional \$200 per Committee meeting.

Davis-Dinsmore is the Company's investment adviser and is also the investment adviser to Bancroft. Because of this connection, Bancroft and the Company make up a "fund complex" (Fund Complex). Although not required to do so, the Board of Directors seeks your ratification of the Audit Committee's appointment of PricewaterhouseCoopers LLP (PwC) as the Company's independent auditors for the 2004 fiscal year. If the appointment is not ratified, the Audit Committee will meet to select new independent auditors. Such selection of new auditors will be submitted to shareholders for their ratification at either the Annual Meeting or at a future meeting of shareholders. We do not expect that a representative from PwC will be present at the Annual Meeting. However, should a PwC representative choose to attend, he or she will have an opportunity to make a statement and to respond to appropriate questions.

PROPOSAL 3

AMENDMENT TO COMPANY'S CHARTER

Background

The Company's common stock trades on the American Stock Exchange. For the 12 weeks that ended on November 14, 2003, the average market price for each share was approximately 7.54% less than its weekly net asset value. In this circumstance, Article IX of the Company's Charter requires the Board to adopt a proposal, to the extent consistent with the Investment Company Act, to submit a Charter amendment to shareholders that would permit shareholders to sell their shares back to the Company at their net asset value on March 31, June 30, and September 30, 2004.

At the Annual Meeting, you will be asked to approve or disapprove the following resolution:

RESOLVED, that the Company's Charter be and it is hereby amended by adding a new Article XII to read in full as follows:

ARTICLE XII

Each holder of shares of common stock of the Corporation shall have the right to tender all of such shares to the Corporation for purchase on March 31, 2004, June 30, 2004 and September 30, 2004 (each, a "Purchase Date") at net asset value as of the close of business on each such Purchase Date; provided, however, that no such right shall exist unless the Corporation receives a "no-action" letter or interpretive or exemptive relief from the Securities and Exchange Commission permitting such right; and provided further, however, that the Corporation may suspend such right (a) for any period (i) during which the New York Stock Exchange is closed other than customary week-end and holiday closings or (ii) during which trading on the New York Stock Exchange is restricted; (b) for any period during which an

emergency exists as a result of which (i) disposal by the Corporation of securities owned by it is not reasonably practicable or (ii) it is not reasonably practicable for the Corporation fairly to determine the value of its net assets; or (c) for such other periods as the Securities and Exchange

9

Commission may by order permit for the protection of security holders of the Corporation.

The Board of Directors, including all the directors who are not affiliated with Davis-Dinsmore Management Company, recommends that you vote AGAINST Proposal 3.

Factors Considered by the Board of Directors

In opposing the adoption of the proposed amendment to the Company's Charter, the Board of Directors considered the following factors:

Past Performance of the Company

The Company was established as a vehicle for long-term investment through participation in a professionally managed portfolio of convertible securities. The Company's investment objectives are to provide for income and potential for capital appreciation (which objectives the Company considers to be relatively equal, over the long term, due to the nature the securities in which it invests). The Board believes that the Company has succeeded in meeting its objectives. The following table illustrates the growth in the net asset value and market price of the Company's common stock:

Period	Percentage Increase in Net Asset Value with Dividends and Capital Gains Reinvested at Net Asset Value	Total Investment Return Based on Market Price
Year Ended September 30, 2003	14.02%	10.81%
Five years ended September 30, 2003	33.88%	50.20%
Ten Years ended September 30, 2003	133.72%	175.13%
June 1986 (beginning of operations) through September 30, 2003	349.41%	395.68%

* Assumes reinvestment of dividends and capital gains at prices obtained by the Company's dividend reinvestment plan.

The Board also looked at the following measurements of the Company's performance:

- o During the 2003 fiscal year, the Company paid distributions of \$0.301 per share from investment income. This represented approximately 3.7% of the shares' average weekly net asset value and approximately 3.8% of their average weekly closing market price.

- o In addition, on October 20, 2003, the Company declared a distribution payable on November 26, 2003 of \$0.105 per share from investment income. On the date it was declared, this distribution represented approximately 1.3% of the closing market price of the Company's shares.

How the Company has performed in the past is not a guarantee of how it will perform in the future. However, the Board believes that the Company will continue to serve as an appropriate investment vehicle for its shareholders by providing for income and the potential for capital appreciation.

10

Market Discounts May Provide Investment Opportunities

Over the past several years, numerous closed-end funds whose shares are traded on exchanges have seen their shares trade at a discount to net asset value. In many instances these discounts have increased in recent years. A number of factors can influence the size of the discount, including demand for a fund's shares, the extent to which analysts report on a fund, and a fund's performance.

When an investor buys shares of a closed-end fund at a price that is lower than the fund's net asset value, the investor gets an ownership interest in an investment portfolio valued at more per share than the investor paid for the shares. For example, if a fund has a net asset value per share of \$10.00, but a market value per share of \$9.00, an investor will earn a return on securities with a value (\$10.00) that is higher than his or her investment (\$9.00). This will result in a higher return on the investor's money than would have been the case if the investor paid net asset value. For this reason, the Board believes that market discounts may present investment opportunities for investors. To the extent investors act upon this investment opportunity, they may increase the demand for and liquidity of a closed-end fund's shares.

In making its recommendation, that shareholders vote against the Charter amendment, the Board recognized that so long as the market discount remains stable (or is reduced), investors who sell their shares are not in a worse position than when they purchased their shares as a result of the discount. For example, if on a given date the Company has a net asset value per share of \$10.00 and a market value per share of \$8.50, investors who purchased shares on that date bought them at a 15% discount from net asset value. Assume the net asset value per share later increased to \$11.00. If the market value per share concurrently increased to \$9.35, the discount would have remained at 15%. In examining the return to investors, based upon net asset value, the shares increased in value from \$10.00 to \$11.00, or 10%. Based upon market value, the shares increased in value from \$8.50 to \$9.35, or 10%. In this example, investors who sold their shares on the later date were not in a worse position because of the discount.

The Board also recognized that if the market price did not increase to the same extent that the net asset value increased (thereby resulting in an increase in the market discount), investors who sell their shares would receive a return on their investment, based upon market value, that is lower than the return on investment, based upon net asset value. In addition, if the market price declines to a price that is lower than the market price when the investor purchased their shares, investors who sell their shares would recognize a loss on their investment. For example, assume the net asset value per share of the Company's stock increased from \$10.00 to \$11.00, while the market value per share increased from \$8.50 to \$9.00. This would result in a market value that is at an 18.2% discount from the \$11.00 per share net asset value. This increase in

market value from \$8.50 to \$9.00, or 5.9%, would be lower than the 10% increase in net asset value. Investors who sold their shares would still recognize a gain on their investment, but not to the extent that the net asset value increased. If the discount increased to more than 22.7%, so that the market price was less than \$8.50, investors who purchased their shares at \$8.50 and sold at a lower price would recognize a loss upon the sale.

The Board of Directors has concluded that the future of the Company should not be tied to whether its shares have traded at a market discount. Instead, the Company's future should be based on its success in meeting its investment objective. In making its recommendation, the Board recognized that it had reached the same conclusion in prior years.

Tenders Would Adversely Affect the Company's Operations and Performance

The Board believes that to require the Company to repurchase its shares would not be in the best interests of the Company and its shareholders as a whole because of the effect that repurchases would have on-

11

- o The Company's expense ratio. Fewer shareholders would have to bear the Company's fixed expenses.
- o The Company's investment performance and its ability to achieve its investment objective. The Company might have to sell some of its more liquid and more desirable portfolio securities to raise the cash it would need to repurchase its shares. This could leave the Company with less desirable holdings.
- o The Company's status as a regulated investment company under the Internal Revenue Code of 1986, as amended. In order to maintain its status as a regulated investment company under the Code, the Company must satisfy certain quarterly diversification and annual distribution requirements. The sale of securities to pay the purchase price for the tendered shares might cause the Company's portfolio to lack sufficient diversification for purposes of the Code requirement. In addition, payment of the purchase price for the tendered shares might eliminate cash and other liquid investments that would otherwise be available to pay dividends in satisfaction of the distribution requirement of the Code.
- o The Company's continued existence. The Board might have to recommend the liquidation, merger or other reorganization of the Company if the Company were to become too small to be operated efficiently.

Value of the Company's Portfolio

The Company would have to sell securities from its portfolio to pay for shares that it would be required to repurchase. In doing so, the Company would have to pay transaction costs. In addition, the Company would have less bargaining power if it had to sell its portfolio securities and might have to sell them at lower prices than it otherwise would. These transaction costs and lower prices might reduce the net asset value of the Company's shares and, therefore, the amounts payable to shareholders who sell their shares back to the Company at their net asset value.

Compliance with the Investment Company Act May Delay or Prevent Implementation

The Company's Charter requires that, if the conditions of Article IX of the

Charter are met, the Board will adopt a proposal, to the extent consistent with the Investment Company Act, to amend the Charter to give the shareholders the right to tender their shares to the Company. The proposed Charter amendment provides that shareholders will not have the right to tender their shares unless the Company receives a no-action letter or interpretive or exemptive relief from the Securities and Exchange Commission (Commission) permitting such right to tender.

In previous years, the staff of the Division of Investment Management at the Commission has advised the Company that, if the Charter amendment is approved, the Company would need to comply with the provisions of Rule 23c-3 under the Investment Company Act to avoid the possible characterization of the Company's shares as redeemable securities. Rule 23c-3 permits a closed-end fund such as the Company to conduct periodic repurchases of its shares, subject to compliance with the conditions of the Rule, without being deemed to be an issuer of redeemable securities. One of the conditions of the Rule is that the share repurchases be conducted pursuant to a fundamental policy, changeable only by an Investment Company Act Majority vote of the shareholders. Compliance with this condition would require shareholder approval of the fundamental policy. If a closed-end company engages in share repurchases under the Rule but does so other than pursuant to a fundamental policy, share repurchases may not be made any earlier than two years after a prior share repurchase.

12

The Company cannot predict at this time whether, if the shareholders approve the Charter amendment, it will be able or willing to comply with the provisions of Rule 23c-3. As a result, even if the shareholders approve the Charter amendment, shareholders will not have the right to tender their shares to the Company until the Company takes further action to comply with the Investment Company Act by obtaining a no-action letter or exemptive or interpretive relief from the Commission so that it can conduct share repurchases in accordance with the provisions of its Charter. There can be no assurance that the Company would be able to obtain any such no-action letter or interpretive or exemptive relief from the Commission.

Continued Listing on the American Stock Exchange

The Company's shares are listed on the American Stock Exchange. Although unlikely, the shares could be delisted if the total market value of publicly held shares and the Company's net assets are each less than \$5 million for more than 60 consecutive days, or less than 200,000 shares are publicly traded, or there are less than 300 round-lot holders of the shares, or the Company ceases to qualify as a closed-end fund under the Investment Company Act. Share repurchases will not reduce the Company's authorized capital.

Potential Advantages to Shareholders

In making its recommendation, the Board recognized that the Company's market discount has been greater than 5% in three of the past five years. For example, the market price per share was 16.5% less than the Company's net asset value per share at September 30, 1999, the market price per share was 16.5% less than the Company's net asset value per share at September 30, 2000, was 3.7% less than the net asset value per share at September 30, 2001, was 3.3% less than net asset value per share at September 30, 2002 and was 6.2% less than net asset value per share at September 30, 2003. The Board also recognized that the average trading volume for the Company's shares is less than the average trading volume for companies generally on the American Stock Exchange. The Board considered two potential advantages for shareholders in adopting the proposed Charter amendment:

- o If shareholders wanted to sell shares, they would be able to do so at their net asset value instead of at their market price, which averaged 4.0% less than their net asset value for the last fiscal year, and has averaged 10.5% less than net asset value over the past five fiscal years. By doing this, shareholders would maximize the return on their investment in the near term.
- o The market price for the shares may increase, thereby reducing the market discount.

However, the effect of the Company's transaction costs and reduced bargaining power if it had to sell its portfolio securities might decrease the net asset value of the Company's shares and, therefore, the amounts paid to shareholders who sell their shares back to the Company.

Potential Conflicts Disclosed

Two of the directors who considered this proposal (Mr. Dinsmore and Ms. O'Keefe) are interested directors because they are directors, officers and shareholders of Davis-Dinsmore Management Company, the Company's investment adviser. If the Company repurchased its shares, the Company would become smaller and this would result in a reduction of the fees that the Company pays to Davis-Dinsmore. The interested directors acknowledged the effect that the Charter amendment would have on Davis-Dinsmore, but indicated that, in considering their recommendation, they focused on the

13

long-term interests of the Company and its shareholders as a whole and believed that the Charter amendment was not in the best interests of the Company and its shareholders as a whole.

Federal Income Tax Treatment

Generally, shareholders who tender all their shares would recognize a capital gain (or loss) for federal income tax purposes to the extent the amount they receive is greater (or less) than the amount they paid for their shares. This capital gain (or loss) will be taxed as long-term capital gain (or loss) if shares tendered have been owned for more than one year. A shareholder that is not a corporation is subject to federal income tax on long-term capital gain at a maximum rate of 15%. However, amounts received by tendering shareholders could be taxed as dividends in circumstances where, after application of the constructive ownership rules of the Code, the purchase of their shares by the Company did not constitute a complete termination of their interest, a substantially disproportionate redemption or a distribution that was not essentially equivalent to a dividend. Because the Company is unaware of the number of shares constructively owned by each of its shareholders, the Company will be unable to designate amounts paid to repurchase its shares as "qualified dividend income." Accordingly, any such amounts that are treated as dividends will be taxed at regular ordinary income tax rates.

Noncorporate shareholders who tender their shares may be subject to backup withholding at a 28% rate on the cash received in exchange. Backup withholding generally will not apply, however, to a shareholder who furnishes a correct taxpayer identification number and certifies under penalties of perjury that such number is correct.

How Shares Would Be Tendered

If the proposed Charter amendment is adopted and the shareholders have the right to tender their shares, the Company will make a tender offer to shareholders in accordance with the requirements of the Securities Exchange Act of 1934 and the Investment Company Act by publication or mailing, or both. We will establish procedures to make the current net asset value of the Company's shares publicly available throughout the period of the tender offer. If you wish to accept the tender offer, you may be required to tender all your shares (or all shares attributed to you for federal income tax purposes under Section 318 of the Code). The Company will purchase shares tendered in accordance with the offer unless it suspends the tender offer as described above.

If you tender your shares, you will be required to pay a fee directly to the Company's transfer agent to help to defray processing costs. We anticipate that the fee will be \$25 but it could be higher or lower.

The Company will charge against capital, costs incurred by it in connection with the tender offer. Shares that have been tendered and purchased by the Company will become authorized but unissued shares.

Limitation on Tenders

If the proposed Charter amendment is adopted and the shareholders have the right to tender their shares, the Company will be able to suspend your rights to tender your shares during periods -

- o In which the New York Stock Exchange is closed (other than customary weekend and holiday closings) or trading on it is restricted.

14

- o In which, because of an emergency, it is not reasonably practicable for the Company to sell its portfolio securities or to fairly determine the net asset value of its shares.
- o In which the Securities and Exchange Commission permits the Company to suspend rights to tender for the protection of its shareholders.

In addition, if the proposed Charter amendment is adopted and the shareholders have the right to tender their shares, the Company intends to follow a policy (which it may change) of suspending your rights to tender your shares if, in the Board's judgment, at the time the tender offer commences, or during the tender offer period-

- o Legal action is begun or threatened that challenges the tender of the Company's shares or otherwise materially adversely affects the ability of the Company to conduct the tender offer.
- o Federal, state or foreign authorities declare a banking moratorium on banks in the United States, New York or in foreign countries in which the Company invests, and such moratorium materially adversely affects the ability of the Company to obtain liquid assets necessary to honor tenders.
- o Federal, state or foreign authorities limit the extension of credit by lending institutions or the exchange of foreign currency and those limitations materially adversely affect the ability of the Company to obtain liquid assets necessary to honor tenders.
- o War, armed hostilities, terrorist attacks or other calamity occurs that directly or indirectly involves the United States or other

countries in which the Company invests and such calamity materially adversely affects the ability of the Company to obtain liquid assets necessary to honor tenders.

The Company will reinstate your rights to tender your shares once any of the above events no longer materially adversely affects the Company's ability either to conduct the tender offer, or obtain liquid assets necessary to honor tenders, as applicable.
