MITSUI TO UNDERWRITE NEW SHARE ISSUE OF SUBSIDIARY SANYU KOAMI

The Board of Directors of Mitsui & Co., Ltd. (Mitsui), at its meeting on October 29, 2003, decided to purchase the full amount of a third-party placement of new shares to be issued by its subsidiary Sanyu Koami Co., Ltd., as part of Sanyu Koami's capital policy.

DETAILS OF THE SHARE ISSUE

## Edgar Filing: MITSUI & CO LTD - Form 6-K

1. Schedule for the Issuance of the Shares:  
November 12, 2003: Decision regarding the "third-party placement of new shares" to be made at a Special Meeting of Shareholders of Sanyu Koami.  
November 27, 2003: Issuance of the shares
2. Amount of the Third-Party Placement:  
Y20,040 million
3. Percentage Ownership by Mitsui Following the Share Issue (The figure in parentheses is the percentage prior to the share issue.)  
99.87% (97.37%)
4. Reasons for Underwriting the Shares  
Mitsui purchased a third-party placement of shares issued by Sanyu Koami amounting to Y6.5 billion in December 2001 and another such issue in the amount of Y4.0 billion in September 2002 and has taken steps to strengthen its corporate resilience of Sanyu Koami. To date, Sanyu Koami has implemented major restructuring measures, and, as a result, its operating income under a Japanese GAAP (\*) on a non-consolidated basis turned in the black for the year ended March 2003, and it has now restored the balance between its revenues and expenses.  
(\* ) operating income under a Japanese GAAP is gross trading profit minus selling, general and administrative expense.

Based on this awareness of Sanyu Koami's current business position, Mitsui has considered the company's increase in capital in the light of the capital ratio and outstanding balance of borrowings appropriate for a leading nationwide wholesaler and has decided to make an increase in the company's capital as well as to continue to nurture and strengthen Sanyu Koami's position as a core company within the operations of Mitsui's Foods Unit.

Following the capital increase, Sanyu Koami is scheduled to use the proceeds to repay borrowings from financial institutions and is not scheduled to make any major purchases of assets for its business activities in the near future. However, to differentiate itself from competitors and provide more well-organized functions and services, the company is considering future investments in distribution/logistics facilities in the Tokyo metropolitan area and investments in facilities to enhance the sophistication of its IT systems.

5. Future Development of Sanyu Koami and Its Positioning vis-a-vis Mitsui.  
The improvement in Sanyu Koami's financial position will add momentum to the company's efforts to implement cross-merchandising in its areas of strength, which include processed food products, alcoholic beverages, and pet foods; expand its transactions with the Ito-Yokado Group; and increase its transactions in the industrial market segments, including delicatessen items and restaurant supplies, while also expanding business with leading supermarkets. Along with these activities, on April 1 this year, Sanyu Koami formed organizational units to establish a position in the temperature-controlled segment of the food products business. The company is now implementing aggressive policies in this business area, where market growth is expected in the years ahead. Through these various activities, Sanyu Koami is working to strengthen its marketing capabilities to increase its total trading transactions on a non-consolidated basis from Y473.4 billion for the year ended March 2003 to Y580 billion for the year ending March 2006. In addition, the company will be working to strengthen its management base with the goal of raising its profitability to a level comparable with its major competitors by March 2006.

## Edgar Filing: MITSUI & CO LTD - Form 6-K

Mitsui has positioned Sanyu Koami as a core subsidiary in the food products field, where customer orientation is becoming an increasingly important factor, and is working to further strengthen its distribution/logistics, IT, and marketing functions and capabilities. Moreover, many of the companies that Mitsui's Foods Unit supplies with raw materials are suppliers (product manufacturers) of the items that Sanyu Koami procures. Therefore, by strengthening its position in the intermediate distribution area, with Sanyu Koami as the core company, Mitsui's Foods Unit will aim to further enhance its upstream position.
