i) Press release announcing Sony Ericsson Reports Fourth Quarter and Full Year 2011 Results and U.S. GAAP Equity Method Results for Sony's Investment in Sony Ericsson Are Expected to Include Valuation Allowance Against Certain Deferred Tax Assets

January 19, 2012 Sony Corporation

Sony Ericsson Reports Fourth Quarter and Full Year 2011 Results and U.S. GAAP Equity Method Results for Sony's Investment

in Sony Ericsson Are Expected to Include Valuation Allowance Against Certain Deferred Tax Assets

Today, Sony Ericsson Mobile Communications AB ("SEMC"), an affiliated company of Sony Corporation ("Sony") which Sony accounts for under the equity method, announced its financial results for the fourth quarter and the full year ended December 31, 2011 under accounting principles generally accepted in Sweden ("Swedish GAAP"), as attached.

At the same time, and as a result of Sony's obligation to account for SEMC's results under the equity method in accordance with generally accepted accounting principles in the United States ("US GAAP"), SEMC is recording a valuation allowance under US GAAP of approximately EUR 650 million (66 billion yen) against certain of its deferred tax assets. Under the equity method, in Sony's third quarter (October – December) of the fiscal year ending March 31, 2012, Sony expects to reflect 50%, or approximately EUR 325 million (33 billion yen), of this valuation allowance in equity in net loss of affiliated companies in its consolidated financial results on a US GAAP basis.

As previously stated, Sony is currently reevaluating its forecast of consolidated financial results for the fiscal year ending March 31, 2012, taking into account the transaction in connection with S-LCD Corporation announced on December 26, 2011, this valuation allowance and other factors, including the impact of the October 2011 floods in Thailand, that might affect its consolidated financial results forecast for the full year ending March 31, 2012.

In October 2011 Sony and Telefonaktiebolaget LM Ericsson ("Ericsson") announced that Sony will acquire Ericsson's stake in SEMC and that SEMC will become a wholly-owned subsidiary of Sony. The transaction is expected to close in late January to February, subject to customary closing conditions, including regulatory approvals.

(For reference) Sony's consolidated financial forecast for the fiscal year ending March 31, 2012, which was disclosed on November 2, 2011 and its consolidated financial results for the fiscal year ended March 31, 2011

PRESS RELEASE

January 19, 2012

Sony Ericsson reports fourth quarter and full year 2011 results

- · Q4 loss reflects intense competition, price erosion and restructuring charges
- 65% year-on-year increase in Android-based XperiaTM smartphone quarterly sales
- · 28 million Xperia smartphones shipped to date

The consolidated financial summary for Sony Ericsson Mobile Communications AB (Sony Ericsson) for the fourth quarter and full year ended December 31, 2011 is as follows*:

	Q4 201	0	Q3 201	1	Q4 201	1	FY 2010)	FY 201	1
Number of units shipped (million)	11.2		9.5		9.0		43.1		34.4

Income before taxes (IBT) (Euro m.)	35		31		-247		147		-243	
IBT excl. restructuring charges (Euro m.)	39		31		-154		189		-150	
Net income (Euro m.)	8		0		-207		90		-247	

^{*}All amounts are according to Swedish GAAP.

Bert Nordberg, President and CEO of Sony Ericsson commented: "Our fourth quarter results reflected intense competition, unfavorable macroeconomic conditions and the effects of a natural disaster in Thailand this quarter. We are aligning our business to drive profitability and to meet customer needs. In spite of these challenges, throughout 2011 we've shifted our business from feature phones to smartphones, and our Android-based smartphone sales in the quarter increased by 65% year-on-year. The Xperia portfolio, including the recently announced Xperia NXT series, will serve as a cornerstone of our smartphone lineup in 2012."

Units shipped during the quarter were 9 million, a 20% decrease year-on-year and a 5% decrease compared to last quarter. The year-on-year and sequential declines reflect a significantly lower number of feature phones shipped, partially offset by an increase in smartphone shipments. Sony Ericsson has shipped 28 million Xperia smartphones to date.

Average selling price (ASP) for the quarter was Euro 143, up 5% year-on-year but down 14% sequentially. The year-on-year increase is due to the shift to smartphones and geographic mix. The sequential decrease in ASP is attributed to geographic and product mix, including declining prices of products launched earlier in the year, and the

absence of new products introduced in the fourth quarter.	

Sales for the quarter were approximately Euro 1.3 billion, down 16% year-on-year and 19% quarter over quarter. The year-on-year decline reflects the decrease of feature phone sales which was only partially offset by an increase in smartphone sales. The sequential decline is due to geographic and product mix, resulting in lower sales of both smartphones and feature phones. Fourth quarter sales were negatively impacted by macroeconomic challenges in advanced economies contributing to weaker holiday sales, and certain component shortages from the flooding in Thailand in late October and early November 2011. Xperia smartphones accounted for approximately 80% of total sales in the fourth quarter.

The gross margin for the quarter was 24%, a decrease of 6 percentage points year-on-year and 3 percentage points from the previous quarter. The year-on-year and sequential decreases are attributed to product and geographic mix. Fourth quarter gross margin was also adversely affected by intense smartphone price competition which more than offset the benefit of royalty and other items.

Loss before taxes, excluding restructuring charges, was Euro 154 million for the quarter, compared to income of Euro 39 million for the same quarter last year and of Euro 31 million in the previous quarter. The year-on-year and sequential declines are due to lower gross margin and increased operational expenses, including higher development and selling expenses.

In December 2011, Sony Ericsson launched a restructuring program including global workforce reductions to reduce costs and drive competitiveness. Restructuring charges for the quarter are Euro 93 million and the program is estimated to be completed by the end of 2012.

The quarter ended in a net loss of Euro 207 million, compared to a net income of Euro 8 million in the same quarter of the previous year, and essentially a break even result in the previous quarter.

Cash flow from operating activities during the quarter was negative Euro 26 million. External borrowings were Euro 19 million during the quarter. Total borrowings were Euro 742 million at the end of the quarter. Total cash balances at December 31, 2011 were Euro 442 million.

Sony Ericsson estimates that its share of the global Android-based smartphone market was 10% in volume and 7% in value during the quarter and 10% in volume and 10% in value for the full year.

Sony Ericsson estimates that the global smartphone market for the full year 2011 increased by 60% in volume to 463 million units. Sony Ericsson estimates strong growth in the smartphone market in 2012.

In October 2011 Sony Corporation ("Sony") and Telefonaktiebolaget LM Ericsson ("Ericsson") announced that Sony will acquire Ericsson's stake in Sony Ericsson and that Sony Ericsson will become a wholly-owned subsidiary of Sony. The transaction is expected to close in late January to February, subject to customary closing conditions, including regulatory approvals.

About Sony Ericsson

Sony Ericsson is a 50:50 joint venture between Sony Corporation ("Sony") and Telefonaktiebolaget LM Ericsson ("Ericsson"). In October 2011 it was announced by Sony and Ericsson that Sony will acquire Ericsson's stake in the company and that Sony Ericsson will become a wholly-owned subsidiary of Sony. The transaction is expected to close in late January to February, subject to customary closing conditions, including regulatory approvals. Over the years Sony Ericsson has brought together the best communication technologies with superior entertainment user experiences to create its XperiaTM line of the 'most entertaining smartphones' in the mobile handset industry. With its global corporate functions in London, Sony Ericsson has sales and marketing operations in all major regions of the world, as well as manufacturing in China, and product development sites in China, Japan, Sweden and Silicon Valley, California.
