### 2. Analysis of Consolidated Results

#### 2.1 Income from Lending and Trading activities

Income from Credit and Leasing Operations totaled R\$ 3,031 million, an increase of 20.0% as compared to 1Q02. This growth mainly reflects: (i) the increase in average interest rates for 1Q03; and (ii) the increase in the average volume of the credit portfolio for the period, as a result of acquisitions in 1H02, partially offset by negative exchange variation of 5.1% in 1Q03.

Results of Securities and Derivative Financial Instrument Operations amounted to R\$ 3,513 million, an increase of 122.6% compared to 1Q02. The variation was mainly due to: (i) additional resources from increased funding in 1Q03, especially technical reserves; and (ii) increase in average interest rates in 1Q03.

Results of Foreign Exchange Transactions totaled R\$ 99 million, 68.0% lower than in 1Q02. This account should be analyzed net of foreign funding expenses used to finance import/export operations as described in Note 14 to the Financial Statements. Net of these deductions, results would be R\$ 59 million in 1Q02 and R\$ 72 million in 1Q03.

#### 2.2 Expenses for Lending and Trading Activities

Market Funding Expenses totaled R\$ 3,424 million, an increase of 92.7% compared to 1Q02. This growth mainly reflects: (i) the increase in average interest rates for 1Q03; and (ii) the increase in the average volume of funds obtained for the period, partially offset by negative exchange variation of 5.1% in 1Q03, particularly impacting securities issued abroad.

Expenses for Borrowings and Onlendings totaled R\$ 141 million, a decrease of 57.3% compared to 1Q02. The variation was mainly due to : (i) negative exchange variation of 5.1% in 1Q03; (ii) increase in average interest rates for the period; and to a lesser extent: (iii) increase in the average volume of borrowings and onlendings.

## Edgar Filing: BANK BRADESCO - Form 6-K

Provision for Loan Losses totaled R\$ 808 million, 27.6% more than in 1Q02. Excluding the additional provisions of R\$ 11 million and R\$ 298 million recorded in 1Q02 and 1Q03, respectively, the decrease of R\$ 112 million in this expense reflects the Bank's selective credit granting strategy and economic scenario improvements.

2.3 Financial Margin totaled R\$ 3,436 million, 45.3% higher than in 1Q02. The increased margin mainly reflects: (i) average interest rate increases for the period, partially offset by: (ii) negative exchange variation in 1Q03, on permanent investments abroad. The annualized financial margin on total average assets increased from 8.8% in 1Q02 to 9.9% in 1Q03. Adjusting the additional provision for market risk fluctuation recorded/reversed for these periods, annualized financial margin would be 8.9% and 10.4%, respectively.

### 2.4 Other Operating Income and Expenses

Income on Commissions and Fees totaled R\$ 998 million in 1Q03, a 15.9% increase compared with 1Q02. The growth rate reflects increased revenue from: (i) cards - R\$ 55 million; (ii) checking accounts - R\$ 39 million, mainly maintenance charges; (iii) credit operations - R\$ 23 million, mainly from contracting and opening of credit; (iv) collection - R\$ 11 million; offset by (v) decreased revenue from managed funds - R\$ 14 million.

Income from Insurance Premiums, Private Pension Plans and Savings Bonds totaled R\$ 2,770 million in 1Q03, a 42.1% increase compared to 1Q02, mainly derived from (i) an increase in revenue from VGBL life insurance premiums introduced in March 2002; and (ii) an increase in premiums from the Auto and Health portfolios.

Variations in Technical Reserves for Insurance, Pension Plans and Savings Bonds totaled R\$ 1,043 million in 1Q03, an increase of 309.0% over 1Q02. This variation was due to growth in technical reserves as a result of increased revenue from VGBL premiums.

Insurance Claims were R\$ 1,019 million, an 18.2% growth rate compared to 1Q02, mainly as a result of: (i) increased insurance sales; and (ii) an increase in Life insurance premium redemptions.

Personnel Expenses for the quarter increased by 18.6% to R\$ 1,053 million, when compared to 1Q02, mainly due to (i) salary increases (7%) pursuant to trade-union agreements (September/02); (ii) increase in the number of employees subsequent to acquisitions in 1H02 - R\$ 54 million; and (iii) increase in expenses for benefits and to a less extent, strengthening of provisions for labor claims - R\$ 13 million.

Administrative Expenses for the quarter were R\$ 1,101 million, corresponding to a growth rate of 30.5% in relation to 1Q02. The increase mainly reflects expansion in the customer service network, in particular: (i) third-party services - R\$ 38 million; (ii) depreciation and amortization - R\$ 38 million; (iii) communications - R\$ 28 million; (iv) rents - R\$ 29 million, mainly relating to branches which were auctioned from June 2002; (v) leasing - R\$ 26 million; and (vi) the effects of acquisitions in 1H02.

### 2.5 Operating Income

Operating Income was R\$ 1,140 million, an increase of 84.8% over 1Q02. The increase mainly reflects: (i) positive variation in financial margin; (ii) increase in income from commissions and fees; (iii) increase in other operating income, net of other operating expenses, offset by: (iv) increase in expense for provision for loan losses, and (v) increases in personnel and administrative

## 2. Analysis of Consolidated Results

### 2.1 Income from Lending and Trading activities

Income from Credit and Leasing Operations totaled R\$ 3,031 million, an increase of 90.0% as compared to 4Q02. This growth mainly reflects: (i) the increase in average interest rates for 1Q03; partially offset by: (ii) negative exchange variation of 5.1% in 1Q03. This account should be analyzed in conjunction with expenses for borrowings and onlendings and market funding expenses .

Results of Securities and Derivative Financial Instrument Operations amounted to R\$ 3,513 million, an increase of 340.8% compared to 4Q02. The variation was mainly due to: (i) additional resources from increased funding in 1Q03, especially technical reserves; and (ii) increase in average interest rates in 1Q03. This account should be analyzed in conjunction with expenses for borrowings and onlendings and market funding expenses .

Results of Foreign Exchange Transactions totaled R\$ 99 million, 41.8% higher than in 4Q02. This account should be analyzed net of foreign funding expenses used to finance import/export operations. Net of these deductions, results would be R\$ 74 million in 4Q02 and R\$ 72 million in 1Q03.

### 2.2 Expenses for Lending and Trading Activities

Market Funding Expenses totaled R\$ 3,424 million, an increase of 340.1% compared to 4Q02. This growth mainly reflects: (i) the increase in average interest rates for 1Q03; and (ii) the increase in the average volume of funds obtained for the period, affected mainly by new issuances of securities abroad in 1Q03, partially offset by: (iii) negative exchange variation of 5.1% in 1Q03. This account should be analyzed in conjunction with income on credit and leasing operations and results of securities and derivative financial instrument operations .

Expenses for Borrowings and Onlendings totaled R\$ 141 million, a decrease of 116.9% compared to expenses of R\$ (834) million for 4Q02. The variation mainly reflects: (i) average interest rate increases in 1Q03; partially offset by: (ii) less decrease in negative exchange variation compared to 4Q02. This account

## Edgar Filing: BANK BRADESCO - Form 6-K

should be analyzed in conjunction with income on credit and leasing operations and results of securities and derivative financial instrument operations .

Provision for Loan Losses totaled R\$ 808 million, 39.6% more than in 4Q02. Excluding the additional provisions of R\$ 81 million and R\$ 298 million recorded in 4Q02 and 1Q03, respectively, the slight decrease of R\$ 12 million in this expense reflects typical first-quarter seasonal effects.

### 2.3 Financial Margin

Financial margin totaled R\$ 3,436 million, 16.8% higher than in 4Q02. The oscillation in margin was mainly due to: (i) less decrease in exchange variation as compared to 4Q02, on permanent investments abroad; and (ii) average interest rate increases for 1Q03. The annualized financial margin on total average assets increased from 8.6% in 4Q02 to 9.9% in 1Q03. Adjusting the additional provision for market risk fluctuation recorded/reversed for these periods, annualized financial margin would be 9.9% and 10.4%, respectively.

### 2.4 Other Operating Income and Expenses

Income on Commissions and Fees totaled R\$ 998 million in 1Q03, a 0.7% increase compared with 4Q02. Income on commissions and fees remained practically stable, with a slight increase in the credit card component.

Income from Insurance Premiums, Private Pension Plans and Savings Bonds totaled R\$ 2,770 million in 1Q03, a 14.6% decrease compared to 4Q02, mainly due to greater sales of supplementary pension plan products in 4Q02, following the introduction of rules which permit the deduction by participants of plan contributions for income tax calculation purposes.

Variations in Technical Reserves for Insurance, Pension Plans and Savings Bonds totaled R\$ 1,043 million in 1Q03, a decrease of 29.7% compared with 4Q02. This variation was generated by a decrease in technical reserves following a lower sales volume of supplementary pension plan products in 1Q03 compared with 4Q02.

Insurance Claims were R\$ 1,019 million, an 8.8% growth rate compared to 4Q02. This variation was due to: (i) the increase in claims payments; (ii) insurance premium redemptions in the Life line; and (iii) Auto line claims.

Personnel Expenses for the quarter increased by 0.6% to R\$ 1,053 million, when compared to 4Q02. Personnel expenses, despite the concentration of vacation pay, remained almost stable for the quarter, as a result of the increase in expense for benefits and the strengthening of provisions for labor claims.

Administrative Expenses for the quarter were R\$ 1,101 million, corresponding to a 0.9% decrease when compared to expenses for 4Q02. Administrative expenses remained practically stable for the quarter with a slight reduction decrease following a decrease in expenses for advertising and publicity in 1Q03.

### 2.5 Operating Income

Operating income was R\$ 1,140 million, an increase of 73.0% over 4Q02. The increase mainly reflects: (i) positive variation in financial margin; and (ii) increase in other operating income, net of other operating expenses, offset by : (iv) increase in expense for provision for loan losses

### 2.6 Taxes and Contributions

## Edgar Filing: BANK BRADESCO - Form 6-K

Taxes and contributions paid and accrued, including social security dues, totaled R\$ 884 million, corresponding to 1.74 times net income for 1Q03. In 4Q02, taxes and contributions corresponded to 0.87 times net income.
