

SHOE CARNIVAL INC  
Form 10-Q  
December 06, 2012

**UNITED STATES**  
**SECURITIES AND EXCHANGE COMMISSION**  
Washington, D.C. 20549

**Form 10-Q**

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
For the quarterly period ended **October 27, 2012**  
or  
 Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 0-21360

Shoe Carnival, Inc.  
(Exact name of registrant as specified in its charter)

Indiana	35-1736614
(State or other jurisdiction of incorporation or organization)	(IRS Employer Identification Number)
7500 East Columbia Street	47715
Evansville, IN	
(Address of principal executive offices)	(Zip code)

(812) 867-6471  
(Registrant's telephone number, including area code)  
NOT APPLICABLE  
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Edgar Filing: SHOE CARNIVAL INC - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

**APPLICABLE ONLY TO CORPORATE ISSUERS:**

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Number of Shares of Common Stock, \$.01 par value, outstanding at November 30, 2012 were 20,430,373.

**SHOE CARNIVAL, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**Unaudited**

**Note 1 - Basis of Presentation**

In our opinion, the accompanying unaudited condensed consolidated financial statements contain all normal recurring adjustments necessary to present fairly our financial position and the results of our operations and our cash flows for the periods presented. Certain information and disclosures normally included in the notes to consolidated financial statements have been condensed or omitted according to the rules and regulations of the Securities and Exchange Commission (the "SEC"), but we believe that the disclosures provided are adequate to make the information presented not misleading. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. The condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto contained in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012.

On March 23, 2012, our Board of Directors authorized a three-for-two stock split of the shares of our common stock, which was effected in the form of a stock dividend. The stock split entitled each shareholder of record at the close of business on April 13, 2012 to receive one additional share of common stock for every two shares of common stock owned as of that date, and was paid on April 27, 2012. Upon the completion of the stock split, our outstanding shares increased from approximately 13.6 million shares to approximately 20.4 million shares. In accordance with the provisions of our equity award plans, and as determined by our Board of Directors, the following were adjusted to equitably reflect the effect of the three-for-two stock split:

- The number of shares reserved and available for issuance;
  - The number of shares that may be granted to a plan participant in a calendar year;
  - The number of shares subject to outstanding equity awards;
  - The exercise prices of outstanding equity awards; and
- The annual earnings per diluted share targets associated with our outstanding performance-based restricted stock awards.

All share and per share amounts in this quarterly report on Form 10-Q give effect to the stock split and have been adjusted retroactively for all periods presented.

**Note 2 - Net Income Per Share**

The following tables set forth the computation of basic and diluted earnings per share as shown on the face of the accompanying Condensed Consolidated Statements of Income:

	Thirteen Weeks Ended					
	October 27, 2012			October 29, 2011		
	(In thousands, except per share data)					
<u>Basic Earnings per Share:</u>	Net Income	Shares	Per Share Amount	Net Income	Shares	Per Share Amount
Net income	\$12,248			\$10,473		
Amount allocated to participating securities	(249 )			(200 )		
Net income available for basic common shares and basic earnings per share	\$11,999	19,951	\$ 0.60	\$10,273	19,597	\$ 0.52
<u>Diluted Earnings per Share:</u>						
Net income	\$12,248			\$10,473		
Amount allocated to participating securities	(249 )			(200 )		
Adjustment for dilutive potential common shares	1	52		0	151	
Net income available for diluted common shares and diluted earnings per share	\$12,000	20,003	\$ 0.60	\$10,273	19,748	\$ 0.52
	Thirty-nine Weeks Ended					
	October 27, 2012			October 29, 2011		
	(In thousands, except per share data)					
<u>Basic Earnings per Share:</u>	Net Income	Shares	Per Share Amount	Net Income	Shares	Per Share Amount
Net income	\$26,127			\$23,107		
Amount allocated to participating securities	(491 )			(508 )		
Net income available for basic common shares and basic earnings per share	\$25,636	19,922	\$ 1.29	\$22,599	19,471	\$ 1.16
<u>Diluted Earnings per Share:</u>						
Net income	\$26,127			\$23,107		
Amount allocated to participating securities	(491 )			(508 )		
Adjustment for dilutive potential common shares	2	74		0	185	
Net income available for diluted common shares and diluted earnings per share	\$25,638	19,996	\$ 1.28	\$22,599	19,656	\$ 1.15

Our basic and diluted earnings per share are computed using the two-class method. The two-class method is an earnings allocation that determines net income per share for each class of common stock and participating securities according to their participation rights in dividends and undistributed earnings. Non-vested stock awards that include non-forfeitable rights to dividends are considered participating securities. Per share amounts are computed by dividing net income available to common shareholders by the weighted average shares outstanding during each period. No options to purchase shares of common stock were excluded in the computation of diluted shares for the periods presented.

### **Note 3 – Recently Issued Accounting Pronouncements**

In May 2011, the Financial Accounting Standards Board (“FASB”) issued guidance which amends certain accounting and disclosure requirements related to fair value measurements. For fair value measurements categorized as Level 3, a reporting entity should disclose quantitative information of the unobservable inputs and assumptions, a description of the valuation processes and a narrative description of the sensitivity of the fair value to changes in unobservable inputs. The guidance became effective for interim and annual reporting periods beginning on or after December 15, 2011, with early adoption prohibited. We adopted the guidance on January 29, 2012. This adoption did not have a material impact on our consolidated financial position, results of operations or cash flows.

### **Note 4 - Fair Value Measurements**

The accounting standards related to fair value measurements define fair value and provide a consistent framework for measuring fair value under the authoritative literature. Valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect market assumptions. This guidance only applies when other standards require or permit the fair value measurement of assets and liabilities. The guidance does not expand the use of fair value measurements. A fair value hierarchy was established, which prioritizes the inputs used in measuring fair value into three broad levels.

Level 1 – Quoted prices in active markets for identical assets or liabilities;

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data;

Level 3 – Significant unobservable inputs that are not corroborated by market data. Generally, these fair value measures are model-based valuation techniques such as discounted cash flows, and are based on the best information available, including our own data. Fair values of our long-lived assets are estimated using an income-based approach and are classified within Level 3 of the valuation hierarchy.

The following table presents assets that are measured at fair value on a recurring basis at October 27, 2012, January 28, 2012 and October 29, 2011. We have no material liabilities measured at fair value on a recurring or non-recurring basis.

(In thousands)	Fair Value Measurements			
	Level 1	Level 2	Level 3	Total
As of October 27, 2012:				
Cash equivalents – money market fund	\$5,257	\$ 0	\$ 0	\$5,257
As of January 28, 2012:				
Cash equivalents– money market fund	\$25,231	\$ 0	\$ 0	\$25,231
As of October 29, 2011:				
Cash equivalents – money market fund	\$25,218	\$ 0	\$ 0	\$25,218

The fair values of cash, receivables, accounts payable, accrued expenses and other current liabilities approximate their carrying values because of their short-term nature. From time to time, we measure certain assets at fair value on a non-recurring basis, specifically long-lived assets evaluated for impairment. These are typically store specific assets, which are reviewed for impairment whenever events or changes in circumstances indicate that recoverability of their carrying value is questionable. If the expected future cash flows related to a store's assets are less than their carrying value, an impairment loss would be recognized for the difference between estimated fair value and carrying value and recorded in selling, general and administrative expenses. We estimate the fair value of store assets using an income-based approach considering the cash flows expected over the remaining lease term for each location. These projections are primarily based on management's estimates of store-level sales, gross margins, direct expenses, exercise of future lease renewal options and resulting cash flows and, by their nature, include judgments about how current initiatives will impact future performance. External factors, such as the local environment in which the store resides, including strip-mall traffic and competition, are evaluated in terms of their effect on sales trends. Changes in sales and operating income assumptions or unfavorable changes in external factors can significantly impact the estimated future cash flows. An increase or decrease in the projected cash flow can significantly decrease or increase the fair value of these assets, which would have an effect on the impairment recorded.

There were no impairments recorded during the thirteen weeks ended October 27, 2012. During the thirty-nine weeks ended October 27, 2012, long-lived assets held and used with a gross carrying amount of \$1.2 million were written down to their fair value of \$772,000, resulting in an impairment charge of \$350,000, which was included in earnings for the period. Subsequent to this impairment, these long-lived assets had a remaining unamortized basis of \$328,000. During the thirteen weeks ended October 29, 2011, long-lived assets held and used with a gross carrying amount of \$175,000 were written down to their fair value of \$136,000, resulting in an impairment charge of \$39,000, which was included in earnings for the period. Subsequent to this impairment, these long-lived assets had no remaining unamortized basis. During the thirty-nine weeks ended October 29, 2011, long-lived assets held and used with a gross carrying amount of \$712,000 were written down to their fair value of \$455,000, resulting in an impairment charge of \$257,000, which was included in earnings for the period. Subsequent to this impairment, these long-lived assets had a remaining unamortized basis of \$84,000. During the fifty-two weeks ended January 28, 2012, long-lived assets held and used with a gross carrying amount of \$966,000 were written down to their fair value of \$628,000, resulting in an impairment charge of \$338,000, which was included in earnings for the period. Subsequent to this impairment, these long-lived assets had a remaining unamortized basis of \$84,000.

#### **Note 5 - Stock-Based Compensation**

On April 27, 2012, we completed a three-for-two stock split of the shares of our common stock, which was effected in the form of a stock dividend. All share and per share amounts referenced below give effect to the stock split and have been adjusted retroactively for all periods presented.

Stock-based compensation includes stock options, stock appreciation rights, restricted stock grants and certain transactions under our stock-based compensation plans. Additionally, we recognize stock-based compensation expense for the discount on shares sold to employees through our employee stock purchase plan. Stock-based

Edgar Filing: SHOE CARNIVAL INC - Form 10-Q

compensation expense for stock options, stock appreciation rights, and the employee stock purchase plan was \$114,000 before the income tax benefit of \$45,000 and \$285,000 before the income tax benefit of \$113,000 for the thirteen and thirty-nine weeks ended October 27, 2012, respectively. For the thirteen and thirty-nine weeks ended October 29, 2011, stock-based compensation expense was \$58,000 before the income tax benefit of \$22,000 and \$225,000 before the income tax benefit of \$86,000, respectively.

The following section summarizes the share transactions for our restricted stock awards:

	Number of Shares	Weighted- Average Grant Date Fair Value
Non-vested at January 28, 2012	277,145	\$ 17.31
Granted	329,154	19.39
Vested	(2,250 )	17.66
Forfeited or expired	(113,015 )	17.17
Non-vested at October 27, 2012	491,034	\$ 18.73

The weighted-average grant date fair value of stock awards granted during the thirty-nine week periods ended October 27, 2012 and October 29, 2011 was \$19.39 and \$17.08, respectively. The total fair value at grant date of previously non-vested stock awards that vested during the first nine months of fiscal 2012 and the first nine months of fiscal 2011 was \$40,000 and \$5.8 million, respectively. Of the 113,015 restricted stock awards that were forfeited or that expired during the first nine months of fiscal 2012, 22,539 shares were restricted stock awards that expired unvested, as the performance measure was not achieved. These awards represented the third tier of the restricted stock granted on March 13, 2006 that expired in the first quarter of fiscal 2012. An additional 77,500 shares of non-vested restricted stock were forfeited upon the retirement of our former President and Chief Executive Officer on October 27, 2012.

The following section summarizes information regarding stock-based compensation expense recognized for restricted stock awards:

(In thousands)	Thirteen Weeks Ended October 27, 2012	Thirteen Weeks Ended October 29, 2011	Thirty-nine Weeks Ended October 27, 2012	Thirty-nine Weeks Ended October 29, 2011
Stock-based compensation expense before the recognized income tax benefit	\$ 555	\$ 533	\$ 3,273	\$ 2,188
Income tax benefit	\$ 220	\$ 203	\$ 1,298	\$ 834

During the fourth quarter of fiscal 2011, stock-based compensation expense was reduced by \$716,000 due to the reversal of cumulative prior period expense for performance-based awards that management deemed were not probable to vest prior to their expiration. However, based on our improved financial outlook, a cumulative catch-up of \$789,000 in expense was recorded during the second quarter of fiscal 2012 as management deemed that these awards are probable to vest prior to their expiration. During the third quarter of fiscal 2012, a cumulative reduction in stock-based compensation expense of \$835,000 was recorded as we increased our applied forfeiture rate on the non-vested performance-based awards due to the retirement of our former President and Chief Executive Officer.

As of October 27, 2012, approximately \$5.6 million of unrecognized compensation expense remained related to both our performance-based and service-based non-vested stock awards. This expense is expected to be recognized over a weighted average period of approximately 1.8 years. This incorporates our current assumptions with respect to the estimated requisite service period required to achieve the designated performance conditions for performance-based stock awards.

**Note 6 - Dividends**

Edgar Filing: SHOE CARNIVAL INC - Form 10-Q

On June 14, 2012, our Board of Directors approved the payment of our first-ever quarterly cash dividend to our shareholders. The initial dividend of \$0.05 per share was paid on July 16, 2012 to shareholders of record as of the close of business on July 2, 2012. During the third quarter of fiscal 2012, our Board of Directors approved the payment of a \$0.05 per share quarterly cash dividend, which was paid on October 22, 2012 to shareholders of record as of the close of business on October 8, 2012.

The declaration and payment of any future dividends are at the discretion of the Board of Directors and will depend on our results of operations, financial condition, business conditions and other factors deemed relevant by our Board of Directors.

## **ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS 2. OF OPERATIONS**

### **Factors That May Affect Future Results**

This quarterly report on Form 10-Q contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that involve a number of risks and uncertainties. A number of factors could cause our actual results, performance, achievements or industry results to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. These factors include, but are not limited to: general economic conditions in the areas of the continental United States and Puerto Rico in which our stores are located; the effects and duration of economic downturns and unemployment rates; changes in the overall retail environment and more specifically in the apparel and footwear retail sectors; our ability to generate increased sales at our stores; the potential impact of national and international security concerns on the retail environment; changes in our relationships with key suppliers; the impact of competition and pricing; changes in weather patterns, consumer buying trends and our ability to identify and respond to emerging fashion trends; the impact of disruptions in our distribution or information technology operations; the effectiveness of our inventory management; the impact of hurricanes or other natural disasters on our stores, as well as on consumer confidence and purchasing in general; risks associated with the seasonality of the retail industry; our ability to successfully execute our growth strategy, including the availability of desirable store locations at acceptable lease terms, our ability to open new stores in a timely and profitable manner, including our entry into major new markets, and the availability of sufficient funds to implement our growth plans; higher than anticipated costs associated with the closing of underperforming stores; our ability to successfully grow our e-commerce business; the inability of manufacturers to deliver products in a timely manner; changes in the political and economic environments in China, Brazil, Europe and East Asia, where the primary manufacturers of footwear are located; the impact of regulatory changes in the United States and the countries where our manufacturers are located; and the continued favorable trade relations between the United States and China and the other countries which are the major manufacturers of footwear. For a more detailed discussion of certain risk factors see the "Risk Factors" section of our Annual Report on Form 10-K for the fiscal year ended January 28, 2012.

### **General**

Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to provide information to assist the reader in better understanding and evaluating our financial condition and results of operations. We encourage you to read this in conjunction with our condensed consolidated financial statements and the notes to those statements included in PART I, ITEM 1. FINANCIAL STATEMENTS of this Quarterly Report on Form 10-Q, as well as our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 as filed with the SEC.

On March 23, 2012, our Board of Directors authorized a three-for-two stock split of the shares of our common stock, which was effected in the form of a stock dividend. The stock split entitled each shareholder of record at the close of business on April 13, 2012 to receive one additional share of common stock for every two shares of common stock

Edgar Filing: SHOE CARNIVAL INC - Form 10-Q

owned as of that date, and was paid on April 27, 2012. Upon the completion of the stock split, our outstanding shares increased from approximately 13.6 million shares to approximately 20.4 million shares. In accordance with the provisions of our equity award plans, and as determined by our Board of Directors, the following were adjusted to equitably reflect the effect of the three-for-two stock split:

- The number of shares reserved and available for issuance;
- The number of shares that may be granted to a plan participant in a calendar year;
- The number of shares subject to outstanding equity awards;
- The exercise prices of outstanding equity awards; and
- The annual earnings per diluted share targets associated with our outstanding performance-based restricted stock awards.

All share and per share amounts in this quarterly report on Form 10-Q give effect to the stock split and have been adjusted retroactively for all periods presented.

## Overview of Our Business

Shoe Carnival, Inc. is one of the nation's largest family footwear retailers, providing the convenience of shopping at any of our 352 store locations or online at shoecarnival.com. During fiscal 2012, we expanded our operations outside of the continental United States by opening four new stores in Puerto Rico. Our stores combine competitive pricing with a highly promotional, in-store marketing effort that encourages customer participation and creates a fun and exciting shopping experience. We believe this highly promotional atmosphere results in various competitive advantages, including increased multiple unit sales; the building of a loyal, repeat customer base; the creation of word-of-mouth advertising; and enhanced sell-through of in-season goods. The same excitement and spontaneity is reflected in our e-commerce site through special promotions and limited time sales, along with relevant fashion stories featured on our home page.

Our objective is to be the destination retailer-of-choice for a wide range of consumers seeking value priced, current season name brand and private label footwear. Our product assortment includes dress and casual shoes, sandals, boots and a wide assortment of athletic shoes for the entire family. Our average store carries approximately 28,500 pairs of shoes in four general categories - men's, women's, children's and athletics. In addition to footwear, our stores carry selected accessory items complementary to the sale of footwear. Our e-commerce site offers customers an opportunity to choose from a large selection of products in all categories with a depth of sizes and colors that may not be available in some of our smaller stores. Our e-commerce site also serves to introduce our concept to consumers that are new to Shoe Carnival both in existing and new markets.

## Critical Accounting Policies

It is necessary for us to include certain judgments in our reported financial results. These judgments involve estimates based in part on our historical experience and incorporate the impact of the current general economic climate and company-specific circumstances. However, because future events and economic conditions are inherently uncertain, our actual results could differ materially from these estimates. The accounting policies that require the more significant judgments are included below.

*Merchandise Inventories* – Our merchandise inventories are stated at the lower of cost or market (LCM) as of the balance sheet date and consist primarily of dress, casual and athletic footwear for men, women and children. The cost of our merchandise is determined using the first-in, first-out valuation method (FIFO). For determining market value, we estimate the future demand and related sale price of merchandise in our inventory. The stated value of merchandise inventories contained on our consolidated balance sheets also includes freight, certain capitalized overhead costs and reserves.

We review our inventory at the end of each quarter to determine if it is properly stated at LCM. Factors considered include, among others, recent sale prices, the length of time merchandise has been held in inventory, quantities of the various styles held in inventory, seasonality of the merchandise, expected consideration to be received from our vendors and current and expected future sales trends. We reduce the value of our inventory to its estimated net realizable value where cost exceeds the estimated future selling price. Merchandise inventories as of October 27, 2012 and October 29, 2011 totaled \$277.4 million and \$245.1 million, respectively. These amounts represented approximately 65% of total assets for both periods. Given the significance of inventories to our consolidated financial statements, the determination of net realizable value is considered to be a critical accounting estimate. Material changes in the factors noted above could have a significant impact on the actual net realizable value of our inventory and our reported operating results.

*Valuation of Long-Lived Assets* – Long-lived assets, such as property and equipment subject to depreciation, are evaluated for impairment on a periodic basis if events or circumstances indicate the carrying value may not be recoverable. This evaluation includes performing an analysis of the estimated undiscounted future cash flows of the long-lived assets. Assets are grouped and the evaluation is performed at the lowest level for which there are identifiable cash flows, which is generally at a store level.

If the estimated future cash flows for a store are determined to be less than the carrying value of the store's assets, an impairment loss is recorded for the difference between estimated fair value and carrying value. We estimate the fair value of our long-lived assets using store specific cash flow assumptions discounted by a rate commensurate with the risk involved with such assets while incorporating marketplace assumptions. Our assumptions and estimates used in the evaluation of impairment, including current and future economic trends for stores, are subject to a high degree of judgment. Assets subject to impairment are adjusted to estimated fair value and, if applicable, an impairment loss is recorded in selling, general and administrative expenses. Our long-lived assets as of October 27, 2012 and October 29, 2011 totaled \$76.9 million and \$67.9 million, respectively, representing approximately 18% of total assets for both periods. From our evaluations performed during the first nine months of fiscal 2012 and fiscal 2011, we recorded impairments of long-lived assets of \$350,000 and \$257,000, respectively. If actual operating results or market conditions differ from those anticipated, the carrying value of certain assets may prove unrecoverable and we may incur additional impairment charges in the future.

*Insurance Reserves* – We self-insure a significant portion of our workers’ compensation, general liability and employee health care costs and also maintain insurance in each area of risk protecting us from individual and aggregate losses over specified dollar values. We review the liability reserved for our self-insured portions on a quarterly basis, taking into consideration a number of factors, including historical claims experience, severity factors, statistical trends and, in certain instances, valuation assistance provided by independent third parties. Our self-insurance reserves include estimates of both claims filed, carried at their expected ultimate settlement value, and claims incurred but not yet reported. Our self-insurance reserves totaled approximately \$2.7 million at the end of both October 27, 2012 and October 29, 2011. While we believe that the recorded amounts are adequate, there can be no assurance that changes to management’s estimates will not occur due to limitations inherent in the estimating process. If actual results are not consistent with our estimates or assumptions, we may be exposed to future losses or gains that could be material.

*Income Taxes* – As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes for each of the tax jurisdictions in which we operate. As a result of this process, deferred tax assets and liabilities are recognized based on the difference between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Our temporary timing differences relate primarily to inventory, depreciation, accrued expenses, deferred lease incentives and stock-based compensation. Deferred tax assets and liabilities are measured using the estimated tax rates in effect in the years when those temporary differences are expected to reverse.

We are also required to make many subjective assumptions and judgments regarding our income tax exposures and account for uncertain tax positions associated with our various filings. Interpretations of and guidance surrounding income tax laws and regulations are often complex, ambiguous and change over time. As such, changes in our subjective assumptions and judgments can materially affect amounts recognized in our consolidated financial statements. Although we believe that we have adequately provided for all uncertain tax positions, tax authorities could assess tax liabilities greater or less than our accrued positions for open tax periods.

## Results of Operations Summary Information

Quarter Ended	Number of Stores			End of Period	Store Square Footage		Comparable Store Sales	
	Beginning Of Period	Opened	Closed		Net Change	End of Period		
April 28, 2012	327	13	3	337	115,000	3,669,000	7.3	%

Edgar Filing: SHOE CARNIVAL INC - Form 10-Q

Comparable store sales for the periods indicated include stores that have been open for 13 full months prior to the beginning of the period, including those stores that have been relocated or remodeled. Therefore, stores opened or closed during the periods indicated are not included in comparable store sales nor are our e-commerce sales. Our e-commerce sales will be included in comparable sales starting with the fourth quarter of fiscal 2012.

The following table sets forth our results of operations expressed as a percentage of net sales for the periods indicated:

	Thirteen Weeks Ended October 27, 2012		Thirteen Weeks Ended October 29, 2011		Thirty-nine Weeks Ended October 27, 2012		Thirty-nine Weeks Ended October 29, 2011	
Net sales	100.0	%	100.0	%	100.0	%	100.0	%
Cost of sales (including buying, distribution and occupancy costs)	68.7		69.8		69.6		70.2	
Gross profit	31.3		30.2		30.4		29.8	
Selling, general and administrative expenses	22.9		22.4		23.7		23.4	
Operating income	8.4		7.8		6.7		6.4	
Interest (income) expense, net	0.0		0.0		0.0		0.0	
Income before income taxes	8.4		7.8		6.7		6.4	
Income tax expense	3.4		2.9		2.7		2.4	
Net income	5.0	%	4.9	%	4.0	%	4.0	%

**Executive Summary for Third Quarter Ended October 27, 2012**

Net sales increased \$29.0 million to \$244.4 million in the third quarter of fiscal 2012, a 13.4% increase over the third quarter of the prior year. Our comparable store sales increased 6.2%, driven by an increase in the average selling price of our footwear.

Our record quarterly earnings per diluted share of \$0.60 represented a 15.4% increase over earnings per diluted share of \$0.52 achieved in the third quarter of fiscal 2011.

We opened six stores during the third quarter this year as compared to seven stores during the third quarter of last year. Pre-opening expenses for the quarter were \$830,000, a \$475,000 increase over the third quarter of last year.

The effective income tax rate for the third quarter of fiscal 2012 was 40.2% as compared to 37.8% for the same period in fiscal 2011. The increase in the effective income tax rate between comparative periods was primarily due to the non-deductibility of compensation attributable to the retirement of our former President and Chief Executive Officer.

Edgar Filing: SHOE CARNIVAL INC - Form 10-Q

Inventories at the end of the third quarter increased \$32.3 million as compared to the end of the third quarter of last year. Approximately one-half of this increase was attributable to our store growth and the addition of our e-commerce business. The remainder of the increase was primarily attributable to the higher average cost of footwear held in our inventory.

Our Board of Directors approved the payment of a \$0.05 quarterly cash dividend, which was paid on October 22, 2012 to shareholders of record as of the close of business on October 8, 2012.

## Results of Operations for the Third Quarter Ended October 27, 2012

### *Net Sales*

Net sales increased \$29.0 million to \$244.4 million during the third quarter of fiscal 2012, a 13.4% increase over the prior year's third quarter net sales as our customer continued to respond favorably to our athletic and women's casual product assortment. Of this increase in net sales, \$18.9 million in sales were generated by the stores opened since the beginning of the third quarter of fiscal 2011 and our e-commerce operation. Comparable store sales increased 6.2%, or approximately \$13.0 million. Our comparable store sales gains were driven by an increase in the average unit selling price of our footwear, which was partially offset by a decline in the number of footwear units sold. These sales increases were partially offset by a \$2.9 million decline in sales from the seven stores closed since the beginning of the third quarter of fiscal 2011.

### *Gross Profit*

Gross profit increased \$11.3 million to \$76.4 million in the third quarter of fiscal 2012. The gross profit margin increased to 31.3% from 30.2% as compared to the third quarter of fiscal 2011. The merchandise margin increased 0.6%, due in part to less clearance activity. Buying, distribution and occupancy costs increased \$1.5 million during the third quarter of fiscal 2012 as compared to the same period last year primarily as a result of the operation of additional store locations. However, our sales gain enabled us to leverage these costs by 0.5%, as a percentage of sales. Included in buying, distribution and occupancy costs was a \$130,000 increase in pre-opening distribution and occupancy costs for new stores.

### *Selling, General and Administrative Expenses*

Selling, general and administrative expenses increased \$7.6 million in the third quarter of fiscal 2012 to \$55.9 million. Significant changes in expenses between the comparative periods included the following:

- We incurred an additional \$5.1 million of expense during the third quarter of fiscal 2012, as compared to the third quarter of last year, in the operation of new stores and our e-commerce initiative. This increase was net of expense reductions for stores that have closed since the beginning of the third quarter of fiscal 2011.

Incentive compensation, inclusive of stock-based compensation, increased \$1.8 million in the third quarter of fiscal 2012 as compared to the same period last year due to our improved financial performance.

In connection with his retirement, we paid a one-time retirement and severance payment of \$1.4 million to our former President and Chief Executive Officer, which was included as incentive compensation in selling, general and administrative expenses for the third quarter of fiscal 2012. Also included were incentive compensation expense reductions for amounts previously accrued for him under our performance-based executive compensation plan and to reflect the forfeiture of his non-vested stock awards.

Pre-opening costs included in selling, general and administrative expenses were \$523,000, or 0.2% as a percentage of sales, in the third quarter of fiscal 2012, as compared to \$178,000, or 0.1% as a percentage of sales, in the third quarter of last year. We opened six stores during the third quarter of fiscal 2012 and seven stores in the third quarter of last year. Pre-opening costs, such as advertising, payroll and supplies, incurred prior to the opening of a new store are charged to expense in the period in which they are incurred. The total amount of pre-opening expense incurred will vary by store depending on the specific market and the promotional activities involved.

*Income Taxes*

The effective income tax rate for the third quarter of fiscal 2012 was 40.2% as compared to 37.8% for the same period in fiscal 2011. Our provision for income tax expense is based on the current estimate of our annual effective tax rate and is adjusted as necessary for quarterly events. The increase in the effective income tax rate between comparative periods was primarily due to the non-deductibility of compensation attributable to the retirement of our former President and Chief Executive Officer.

**Results of Operations for Nine Month Period Ended October 27, 2012**

*Net Sales*

Net sales increased \$68.7 million to \$649.3 million during the first nine months of fiscal 2012, an 11.8% increase over net sales in the same period last year, as our customer has responded favorably to our athletic and casual product assortments. Sales generated by the 47 stores opened since the beginning of fiscal 2011 and our e-commerce operation have contributed \$43.0 million of the net sales increase. Comparable store sales increased 5.7%, or approximately \$32.2 million. Our comparable store sales gains were primarily driven by an increase in the average unit selling price of our footwear. These sales increases were partially offset by a decline in sales of \$6.6 million from the nine stores closed since the beginning of fiscal 2011.

*Gross Profit*

Gross profit increased \$24.0 million to \$197.3 million in the first nine months of fiscal 2012. The gross profit margin for the first nine months of fiscal 2012 increased to 30.4% from 29.8% in the comparable prior year period. The merchandise margin increased 0.2% compared to the first nine months of last year. Buying, distribution and occupancy costs increased \$4.5 million during the first nine months of fiscal 2012 as compared to the same period last year primarily as a result of the operation of additional store locations. However, our sales gain enabled us to leverage these costs by 0.4%, as a percentage of sales. Included in buying, distribution and occupancy costs were pre-opening costs of \$1.3 million as compared to \$415,000 in same period last year. Partially offsetting the \$843,000 increase in pre-opening distribution and occupancy costs for new stores was a \$380,000 decline in store closing costs.

*Selling, General and Administrative Expenses*

Selling, general and administrative expenses increased \$17.9 million in the first nine months of fiscal 2012 to \$154.1 million. Significant changes in expense between the comparative periods included the following:

We incurred an additional \$12.3 million of expense during the first nine months of fiscal 2012, as compared to the same period last year, in the operation of new stores and our e-commerce initiative. This increase was net of expense reductions for stores that have closed since the beginning of fiscal 2011.

Incentive compensation, inclusive of stock-based compensation, increased \$4.1 million in first nine months of fiscal 2012 as compared to the same period last year due to our improved financial performance.

We experienced a year-over-year increase in self-insured health care costs of \$1.5 million in the nine months of fiscal 2012 as compared to the same period last year. Costs related to our self-insured health care programs are subject to a significant degree of volatility, and, consequently, this produces a risk of material variances between reporting periods.

In the first nine months of fiscal 2012, pre-opening costs included in selling, general and administrative expenses were \$2.4 million, or 0.4% as a percentage of sales, as compared to \$907,000, or 0.2% as a percentage of sales, in the same period last year. We opened 30 stores during the first nine months of fiscal 2012 as compared to 16 stores in the comparable period last year. Pre-opening costs, such as advertising, payroll and supplies, incurred prior to the opening of a new store are charged to expense in the period in which they are incurred. The total amount of pre-opening expense incurred will vary by store depending on the specific market and the promotional activities involved.

### *Income Taxes*

The effective income tax rate for the first nine months of fiscal 2012 was 39.3% as compared to 37.5% for the same period in fiscal 2011. Our provision for income tax expense is based on the current estimate of our annual effective tax rate and is adjusted as necessary for quarterly events. The increase in the effective income tax rate between comparative periods was primarily attributable to the non-deductibility of compensation attributable to the retirement of our former President and Chief Executive Officer.

### **Liquidity and Capital Resources**

We anticipate that our existing cash and cash flows from operations will be sufficient to fund our planned store expansion along with other capital expenditures, working capital needs, potential dividend payments, potential share repurchases, and various other commitments and obligations, as they arise, for at least the next 12 months.

### *Cash Flow - Operating Activities*

Our net cash provided by operating activities was \$18.2 million in the first nine months of fiscal 2012 as compared to \$10.1 million in the first nine months of fiscal 2011. These amounts reflect our income from operations adjusted for non-cash items and working capital changes.

Working capital increased to \$264.5 million at October 27, 2012 from \$236.8 million at October 29, 2011. This \$27.7 million increase resulted primarily from an increase in inventory to support new stores and planned sales increases. The current ratio was 3.9 at October 27, 2012 and 4.3 at October 29, 2011.

### *Cash Flow - Investing Activities*

Our cash outflows for investing activities were primarily for capital expenditures. During the first nine months of fiscal 2012, we expended \$20.8 million for the purchase of property and equipment, of which \$17.7 million was for construction of new stores, remodeling and relocations. During the first nine months of fiscal 2011, we expended \$17.8 million for the purchase of property and equipment, of which \$13.6 million was for construction of new stores, remodeling and relocations. Approximately \$1.7 million was used in developing our e-commerce platform. The remaining capital expenditures in both periods were for continued investments in technology and normal asset replacement activities.

*Cash Flow - Financing Activities*

Our cash inflows from financing activities were primarily proceeds from the issuance of shares as a result of stock option exercises. Cash outflows for financing activities were primarily cash dividend payments and share repurchases. Shares of our common stock can be either acquired as part of a publicly announced repurchase program or withheld by us in connection with employee payroll tax withholding upon the vesting of restricted stock awards.

During the first nine months of fiscal 2012, net cash used in financing activities was \$1.0 million as compared to net cash provided by financing activities of \$388,000 during the first nine months of fiscal 2011. The increase in cash used in financing activities was primarily attributable to the payment of dividends during the second and third quarters of fiscal 2012, partially offset by a reduction in share repurchases as compared to the prior year.

*Capital Expenditures*

Capital expenditures for fiscal 2012, including actual expenditures during the first nine months, are expected to be between \$25.0 million and \$26.0 million. Approximately \$13.6 million of our total capital expenditures are expected to be used for new store construction and \$7.6 million will be used for store relocations and remodels. The remaining capital expenditures are expected to be incurred for various other store improvements, continued investments in technology and normal asset replacement activities. The actual amount of cash required for capital expenditures for store operations depends in part on the number of new stores opened, the amount of lease incentives, if any, received from landlords and the number of stores remodeled. Lease incentives to be received from landlords during fiscal 2012, including actual amounts received during the first nine months, are expected to be approximately \$6.0 million.

*Store Openings and Closings*

In fiscal 2012, we will open a total of 31 new stores, including stores in the Dallas/Fort Worth Metroplex and Puerto Rico, which are new major markets for us. Pre-opening expenses, including rent, freight, advertising, salaries and supplies, are expected to total approximately \$4.2 million for fiscal 2012, or an average of \$135,000 per store. During fiscal 2011, we opened 17 new stores and expended \$1.8 million on pre-opening expenses, or an average of \$108,000 per store. The increase in the average expenditures per new store is primarily the result of increases in pre-opening rent, freight and advertising. The opening of new stores is dependent upon, among other things, the availability of desirable locations, the negotiation of acceptable lease terms and general economic and business conditions affecting consumer spending in areas we target for expansion.

We closed five stores during the first nine months of fiscal 2012 and will close two additional stores in the fourth quarter this year. Depending upon the results of lease negotiations with certain landlords of underperforming stores, we may increase or decrease the number of store closures in future periods. The timing and actual amount of expense recorded in closing a store can vary significantly depending, in part, on the period in which management commits to a closing plan, the remaining basis in the fixed assets to be disposed of at closing and the cost incurred in terminating the lease. Store closing costs totaled \$140,000 during the first nine months of fiscal 2012. We expect to incur an additional \$60,000 in the fourth quarter of fiscal 2012.

*Dividends*

On June 14, 2012, our Board of Directors approved the payment of our first-ever quarterly cash dividend to our shareholders. The initial dividend of \$0.05 per share was paid on July 16, 2012 to shareholders of record as of the close of business on July 2, 2012. During the third quarter of fiscal 2012, our Board of Directors approved the payment of a \$0.05 per share quarterly cash dividend to our shareholders, which was paid on October 22, 2012 to shareholders of record as of the close of business on October 8, 2012.

The declaration and payment of any future dividends are at the discretion of the Board of Directors and will depend on our results of operations, financial condition, business conditions and other factors deemed relevant by our Board of Directors.

*Credit Facility*

Our unsecured credit agreement provides for up to \$50.0 million in cash advances and commercial and standby letters of credit with borrowing limits based on eligible inventory. It contains covenants which stipulate: (1) Total Shareholders' Equity, adjusted for the effect of any share repurchases, will not fall below that of the prior fiscal year-end; (2) the ratio of funded debt plus rent to EBITDA plus rent will not exceed 2.5 to 1.0; and (3) cash dividends for a fiscal year will not exceed 30% of consolidated net income for the immediately preceding fiscal year. We were in compliance with these covenants as of October 27, 2012. Should a default condition be reported, the lenders may preclude additional borrowings and call all loans and accrued interest at their discretion. As of October 27, 2012, there was \$2.6 million in letters of credit outstanding and \$47.4 million available to us under the credit facility. We had no outstanding interest bearing debt as of the end of, or during, either the first nine months of fiscal 2012 or fiscal 2011.

### *Share Repurchase Program*

On August 23, 2010, our Board of Directors authorized a \$25 million share repurchase program, which was to terminate upon the earlier of the repurchase of the maximum amount or December 31, 2011. On December 16, 2011, the Board of Directors extended the date of termination by one year to December 31, 2012. The purchases may be made in the open market or through privately negotiated transactions from time-to-time and in accordance with applicable laws, rules and regulations. The program may be amended, suspended or discontinued at any time and does not commit us to repurchase shares of our common stock. We have funded, and will continue to fund, the share repurchase program from cash on hand, and any shares acquired will be available for stock-based compensation awards and other corporate purposes. The total number and value of the shares to be purchased will depend on the performance of our stock price and other market conditions. As required by our credit agreement, consent was obtained from the Agent and the Majority Banks, each as defined in the credit agreement. As of October 27, 2012, 81,300 shares had been repurchased at an aggregate cost of \$1.9 million. The amount that remained available under the repurchase authorization at October 27, 2012 was \$23.1 million.

### **Seasonality and Quarterly Results**

Our quarterly results of operations have fluctuated, and are expected to continue to fluctuate in the future, primarily as a result of seasonal variances and the timing of sales and costs associated with opening new stores. Non-capital expenditures, such as advertising and payroll, incurred prior to the opening of a new store are charged to expense in the period in which they are incurred. Therefore, our results of operations may be adversely affected in any quarter in which we incur pre-opening expenses related to the opening of new stores.

We have three distinct peak selling periods: Easter, back-to-school and Christmas.

### **New Accounting Pronouncements**

Recent accounting pronouncements applicable to our operations are contained in Note 3 – "Recently Issued Accounting Pronouncements" contained in the Notes to Condensed Consolidated Financial Statements included in PART I, ITEM 1. FINANCIAL STATEMENTS of this Quarterly Report on Form 10-Q.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risk in that the interest payable under our credit facility is based on variable interest rates and therefore is affected by changes in market rates. We do not use interest rate derivative instruments to manage exposure to changes in market interest rates. We had no borrowings under our credit facility during the first nine months of fiscal 2012 or fiscal 2011.

#### **ITEM 4. CONTROLS AND PROCEDURES**

Our Chief Executive Officer and Chief Financial Officer have concluded, based on their evaluation as of October 27, 2012, that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by us in such reports is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There has been no significant change in our internal control over financial reporting that occurred during the quarter ended October 27, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**SHOE CARNIVAL, INC.**  
**PART II - OTHER INFORMATION**

**ITEM 1A. RISK FACTORS**

You should carefully consider the risks and uncertainties we describe both in this Quarterly Report on Form 10-Q and in the "Risk Factors" section of our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 before deciding to invest in, or retain, shares of our common stock. These are not the only risks and uncertainties that we face. Additional risks and uncertainties that we do not currently know about, we currently believe are immaterial or we have not predicted may also harm our business operations or adversely affect us. If any of these risks or uncertainties actually occur, our business, financial condition, results of operations or cash flows could be materially adversely affected. There have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number Of Shares Purchased as Part of Publicly Announced Programs <sup>(1)</sup>	Approximate Dollar Value of Shares that May Yet Be Purchased Under Programs
July 29, 2012 to August 25, 2012	0	\$ 0.00	0	\$25,000,000
August 26, 2012 to September 29, 2012	81,300	\$ 22.87	81,300	\$23,141,000
September 30, 2012 to October 27, 2012	0	\$ 0.00	0	\$23,141,000
	81,300		81,300	

<sup>(1)</sup> On August 23, 2010, our Board of Directors authorized a \$25 million share repurchase program, which was to terminate upon the earlier of the repurchase of the maximum amount or December 31, 2011. On December 16, 2011, the Board of Directors extended the date of termination by one year to December 31, 2012.
