BUNZL ANNUAL GENERAL MEETING

Edgar Filing: BUNZL PLC - Form 6-K

In a statement at today's AGM, Anthony Habgood, Chairman of Bunzl plc, said that, in what continues to be a tough economic environment internationally, current trading remains resilient. He indicated that robust volume growth was continuing in Bunzl's major businesses and that, while the general state of the global economy made the future trends of pricing uncertain, prices of many petrochemical based products, particularly in the US, had risen in March and April from very low levels at the start of the year. He went on to say that the volatility and weakness of the dollar compared to the first half of 2002 was influencing the sterling translation of trading results.

He reiterated the statement made at the time of the announcement of the 2002 results that the combination of good volume growth, Bunzl's strong position in the markets in which it operates and the continuing pipeline of potential acquisitions within its area of focus gives the Board confidence that the underlying prospects of the Group are good and that, at constant exchange rates, the business will continue to develop satisfactorily.
