HSBC HOLDINGS PLC Form 6-K March 27, 2014

FORM 6-K

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Report of Foreign Private Issuer

Pursuant to Rule 13a - 16 or 15d - 16 of

the Securities Exchange Act of 1934

For the month of March HSBC Holdings plc

42nd Floor, 8 Canada Square, London E14 5HQ, England

(Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F).

Form 20-F X Form 40-F

(Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934).

Yes...... No X

(If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-...........).

⁴ The interest rate payable after June 2015 is the sum of the three-month Euribor plus 0.93%.

⁵ This subordinated note is measured at amortised cost in HSBC Holdings, where the interest rate risk is hedged using a fair value hedge, while it is measured at fair value in the Group.

⁶ In June 2013, HSBC Holdings called its US\$1,250m 4.61% fixed/floating subordinated notes at par.

7 In January 2014, HSBC Holdings gave notice that it will call and redeem the €1,400m 5.3687% fixed/floating subordinated notes at par in March 2014.

33 Maturity analysis of assets, liabilities and off-balance sheet commitments

The table on page 533 provides an analysis of consolidated total assets, liabilities and off-balance sheet commitments by residual contractual maturity at the balance sheet date. Asset and liability balances are included in the maturity analysis as follows:

- except for reverse repos, repos and debt securities in issue, trading assets and liabilities (including trading derivatives) are included in the 'Due not more than 1 month' time bucket, and not by contractual maturity because trading balances are typically held for short periods of time;
- financial assets and liabilities with no contractual maturity (such as equity securities) are included in the 'Due over 5 years' time bucket. Undated or perpetual instruments are classified based on the contractual notice period which the counterparty of the instrument is entitled to give. Where there is no contractual notice period, undated or perpetual contracts are included in the 'Due over 5 years' time bucket;
- non-financial assets and liabilities with no contractual maturity (such as property, plant and equipment, goodwill and intangible assets, current and deferred tax assets and liabilities and retirement benefit liabilities) are included in the 'Due over 5 years' time bucket;
- financial instruments included within assets and liabilities of disposal groups held for sale are classified on the basis of the contractual maturity of the underlying instruments and not on the basis of the disposal transaction; and
- liabilities under insurance contracts are included in the 'Due over 5 years' time bucket. Liabilities under investment contracts are classified in accordance with their contractual maturity. Undated investment contracts are classified based on the contractual notice period investors are entitled to give. Where there is no contractual notice period, undated contracts are included in the 'Due over 5 years' time bucket.

Loan and other credit-related commitments are classified on the basis of the earliest date they can be drawn down.

amortised cost.		• * *	42,705	(42,375)	(70)	260	

² Including amounts that are both subject to and not subject to enforceable master netting agreements and similar agreements.

³ For the amount of reverse repos, stock borrowing and similar agreements recognised in the balance sheet, see the 'Funding sources and uses' table on page 221. In the analysis above, the US\$20,438m (2012: US\$134,752m) of trading assets presented in the balance sheet comprised US\$10,120m of reverse repos (2012: US\$118,681m) and US\$10,318m of stock borrowing (US\$16,071m).

⁴ At 31 December 2013, the total amount of loans and advances to customers excluding reverse repos at amortised cost was US\$992,089m (2012: US\$962,972m) of which US\$99,783m (2012: US\$82,692m) was subject to offsetting. For the amount of loans and advances to customers excluding reverse repos at amortised cost recognised in the balance sheet, see the 'Funding sources and uses' table on page 221.

	1,178,306	(551,156)	627,150	(529,057)	(39,688)	58,405

¹ Including non-cash collateral.

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously ('the offset criteria').

Derivatives and reverse repurchase/repurchase agreements included in the 'Amounts not offset in the balance sheet' column relate to transactions where:

- the counterparty has an offsetting exposure with HSBC and a master netting or similar arrangement is in place with a right of set off only in the event of default, insolvency or bankruptcy, or the offset criteria are otherwise not satisfied; and
- cash and non-cash collateral received/pledged in respect of the transactions described above.

² Including amounts that are both subject to and not subject to enforceable master netting agreements and similar agreements.

³ For the amount of repos, stock lending and similar agreements recognised in the balance sheet, see the 'Funding sources and uses' table on page 221. In the analysis above, the US\$29,639m (2012: US\$137,041m) of trading liabilities presented in the balance sheet comprised US\$17,421m of repos (2012: US\$130,223m) and US\$12,218m of stock lending (US\$6,818m).

⁴ At 31 December 2013, the total amount of customer accounts excluding repos at amortised cost was US\$1,361,297m (2012: US\$1,311,396m) of which US\$102,499m (2012: US\$90,656m) was subject to offsetting. For the amount of customer accounts excluding repos at amortised cost recognised in the balance sheet, see the 'Funding sources and uses' table on page 221.

The Group offsets certain loans and advances to customers and customer accounts when the offset criteria are met and the amounts presented above represent this subset of the total amounts recognised in the balance sheet. Of this subset, the loans and advances to customers and customer accounts included in 'Amounts not offset in the balance sheet' column primarily relate to transactions where the counterparty has an offsetting exposure with HSBC and an agreement is in place with the right of offset but the offset criteria are otherwise not satisfied.

35 Foreign exchange exposures

Structural foreign exchange exposures

HSBC's structural foreign exchange exposures are represented by the net asset value of its foreign exchange equity and subordinated debt investments in subsidiaries, branches, joint ventures and associates with non-US dollar functional currencies. Gains or losses on structural foreign exchange exposures are recognised in other comprehensive income. HSBC's management of its structural foreign exchange exposures is discussed on page 285.

In its separate financial statements, HSBC Holdings recognises its foreign exchange gains and losses on structural foreign exchange exposures in the income statement.

The table above shows assets where a charge has been granted to secure liabilities on a legal and contractual basis. The amount of such assets may be greater than the book value of assets utilised as collateral for funding purposes or to cover liabilities. This is the case for securitisations and covered bonds where the amount of liabilities issued, plus any mandatory over-collateralisation, is less than the book value of financial assets available for funding or collateral purposes in the relevant pool of assets. This is also the case where financial assets are placed with a custodian or settlement agent which has a floating charge over all the financial assets placed to secure any liabilities under settlement accounts.

These transactions are conducted under terms that are usual and customary to collateralised transactions including, where relevant, standard securities lending and repurchase agreements.

Collateral accepted as security for assets

The fair value of assets accepted as collateral in relation to reverse repo and stock borrowing that HSBC is permitted to sell or repledge in the absence of default is US\$259,617m (2012: US\$295,709m). The fair value of any such collateral that has been sold or repledged was US\$186,013m (2012: US\$202,662m). HSBC is obliged to return equivalent securities.

These transactions are conducted under terms that are usual and customary to standard securities borrowing and reverse repurchase agreements.

Non-controlling interests attributable to holders of ordinary shares in subsidiaries Preferred securities issued by subsidiaries	5,900 2,688	5,159 2,728
	8,588	7,887

Preferred securities issued by subsidiaries

Preferred securities are securities for which there is no obligation to pay a dividend and, if the dividend is not paid, it may not be cumulative. Such securities do not generally carry voting rights but rank higher than ordinary shares for dividend payments and in the event of a winding-up. These securities have no stated maturity date but may be called and redeemed by the issuer, subject to prior notification to the PRA and, where relevant, the consent of the local banking regulator. Dividends on floating rate preferred securities are generally related to interbank offer rates.

Included in the capital base of HSBC are non-cumulative preferred securities classified as tier 1 capital and cumulative preferred securities classified as tier 2 capital in accordance with the rules and guidance in GENPRU.

¹ All HSBC Holdings ordinary shares in issue confer identical rights, including in respect of capital, dividends and voting.

Dividends on the HSBC Holdings non-cumulative dollar preference shares in issue ('dollar preference shares') are paid quarterly at the sole and absolute discretion of the Board of Directors. The Board of Directors will not declare a dividend on the dollar preference shares if payment of the dividend would cause HSBC Holdings not to meet the applicable capital adequacy requirements of the PRA or the profit of HSBC Holdings available for distribution as dividends is not sufficient to enable HSBC Holdings to pay in full both dividends on the dollar preference shares and dividends on any other shares that are scheduled to be paid on the same date and that have an equal right to dividends. HSBC Holdings may not declare or pay dividends on any class of its shares ranking lower in the right to dividends than the dollar preference shares nor redeem nor purchase in any manner any of its other shares ranking equal with or lower than the dollar preference shares unless it has paid in full, or set aside an amount to provide for payment in full, the dividends on the dollar preference shares for the then current dividend period. The dollar preference shares carry no rights to conversion into ordinary shares of HSBC Holdings. Holders of the dollar preference shares will only be entitled to attend and vote at general meetings of shareholders of HSBC Holdings if the dividend payable on the dollar preference shares has not been paid in full for four consecutive dividend payment dates. In such circumstances, holders of the dollar preference shares will be entitled to vote on all matters put to general meetings until such time as HSBC Holdings has paid a full dividend on the dollar preference shares. HSBC Holdings may redeem the dollar preference shares in whole at any time on or after 16 December 2010, subject to prior notification to the PRA.

² Included in the capital base of HSBC as tier 1 capital in accordance with the rules and guidance in GENPRU.

HSBC Holdings non-cumulative preference share of £0.01

The one non-cumulative sterling preference share of £0.01 in issue ('sterling preference share') has been in issue since 29 December 2010 and is held by a subsidiary of HSBC Holdings. Dividends on the sterling preference share are paid quarterly at the sole and absolute discretion of the Board. The sterling preference share carries no rights of conversion into ordinary shares of HSBC Holdings and no rights to attend and vote at general meetings of shareholders of HSBC Holdings. HSBC Holdings may redeem it in whole at any time at the option of the Company.

Other equity instruments

Other equity instruments which have been included in the capital base of HSBC were issued in accordance with the rules and guidance in the PRA's GENPRU. These securities may be called and redeemed by HSBC subject to prior notification to the PRA. If not redeemed at the first call date interest coupons remain unchanged.

Tier 1 capital securities

Tier 1 capital securities are perpetual subordinated securities on which coupon payments may be deferred at the discretion of HSBC Holdings. While any coupon payments are unpaid or deferred, HSBC Holdings will not declare, pay dividends or make distributions or similar periodic payments in respect of, or repurchase, redeem or otherwise acquire any securities of lower or equal rank. Such securities do not generally carry voting rights but rank higher than ordinary shares for coupon payments and in the event of a winding-up.

At HSBC Holdings' discretion, and subject to certain conditions being satisfied, the capital securities may be exchanged on any coupon payment date for non-cumulative preference shares to be issued by HSBC Holdings and ranking pari passu with the dollar and sterling preference shares in issue. The preference shares would be issued at a nominal value of US\$0.01 per share and a premium of US\$24.99 per share, with both such amounts being subscribed and fully paid.

HSBC Bank Bermuda plans

Upon the acquisition of HSBC Bank Bermuda Limited ('HSBC Bank Bermuda') in 2004, all outstanding options over HSBC Bank Bermuda shares were converted into options to acquire HSBC Holdings ordinary shares using an exchange ratio calculated by dividing US\$40 (being the consideration paid for each HSBC Bank Bermuda Share) by the average price of HSBC Holdings ordinary shares over the five-day period to the completion of the acquisition. The exercise price payable for each option was adjusted using the same exchange ratio.

During 2012 and 2013 there were no options exercised over HSBC Holdings ordinary shares and no shares were delivered from the HSBC (Bank of Bermuda) Employee Benefit Trust 2004. During 2013, options over 149,924 (2012: 880,983) HSBC Holdings ordinary shares lapsed.

At 31 December 2013, the HSBC (Bank of Bermuda) Employee Benefit Trust 2004 held nil (2012: 2,108,830) HSBC Holdings ordinary shares.
