On July 15, 2003, Accenture issued a press release announcing results for the third quarter of fiscal 2003. A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

In the attached press release Accenture discloses diluted earnings per share and income before minority interest for the fiscal quarters ended May 31, 2002 and 2003 excluding loss on investments and the related tax effect. Management believes this information is useful for investors because it provides a basis to compare Accenture's results of ongoing operations, net of the effects of the investment portfolio that Accenture has disposed of. In addition, the press release presents core earnings using Standard & Poor's Core Earnings methodology. Management believes this information is useful to investors because the core earnings calculations provide investors with greater visibility of the earnings related to primary business operations. The press release also discloses free cash flow, defined as operating cash flow net of property and equipment additions. Management believes this information is useful in that it provides more visibility into Accenture's ability to generate cash.
