Mitsubishi Tokyo Financial Group, Inc.

Organization of MTFG's Integrated Business Groups and Introduction of an Executive Officer System

Tokyo, March 29, 2004 --- Mitsubishi Tokyo Financial Group, Inc. (MTFG; President: Shigemitsu Miki) today outlined the organization of its Integrated Business Group system comprising three core business groups: retail, corporate and trust assets (asset management and administration) businesses, that will be introduced from April 1, 2004.

At the same time, in response to the introduction of the integrated business groups system and to strengthen corporate governance, MTFG will modify and strengthen the organization of its Corporate Center and introduce an executive officer system.

1. Organization of the integrated business groups

Details of the divisions of the three business groups and their main planning and administrative functions are shown in the appendix. Led by a Group Head, each division will aim to unify business strategy for MTFG as a consolidated whole, and support enhancements to the speed and consistency of decision making on a Group-wide basis.

2. Changes to Corporate Center organization

Along with the creation of the integrated business groups, Corporate Center organization will be modified. Specifically, Credit & Investment Management Division will be established to create a credit risk control system that corresponds to the integrated business groups, and that improves and strengthens Group-wide risk control.

Employee numbers of MTFG, the holding company, are expected to rise as a result of the inclusion of the integrated business groups and changes to the Corporate Center, from around 90 at present to approximately 550.

The Integrated Retail Banking Business Group and the Integrated Trust Assets Business Group will be located in the Mitsubishi Trust & Banking Corporation headquarters building and the Integrated Corporate Banking Business Group in the Bank of Tokyo-Mitsubishi headquarters building.

3. Introduction of an Executive Officer System

In order to clearly separate the functions of the oversight of business and the execution of business and so enhance our corporate governance, an executive officer system will be introduced along with the integrated business group system. With responsibility for business planning and administration, the Group Heads and Deputy Heads of the integrated business groups, as well as the heads of the main business lines, will be executive officers dedicated to execution of their respective businesses. In contrast, directors will be responsible for management decision making and the oversight of business execution.
