**LG.PHILIPS LCD REPORTS THIRD QUARTER 2005 RESULTS**

SEOUL, Korea October 11, 2005 LG.Philips LCD [NYSE: LPL, KRX: 034220], one of the world's leading TFT-LCD manufacturers, today reported unaudited earnings results based on consolidated Korean GAAP for the three-month period ended September 30, 2005. Amounts in Korean Won are translated into US dollars at the noon buying rate in effect on September 30, 2005, which was KRW 1,042.4 per US dollar.

Sales in the third quarter of 2005 increased by 19% to KRW 2,741 billion (USD 2,630 million) from sales of KRW 2,308 billion (USD 2,214 million) in the second quarter of 2005 and increased 46% compared to KRW 1,875 billion (USD 1,799 million) in the third quarter of 2004. Third quarter 2005 sales were led by the growing demand for large and wide LCD TV panels and a stronger pricing environment for notebook panels.

Operating profit in the third quarter of 2005 increased to KRW 240 billion (USD 230 million) from KRW 29 billion (USD 28 million) in the second quarter of 2005, and compared to an operating profit of KRW 256 billion (USD 246 million) in the third quarter of 2004.

EBITDA in the third quarter of 2005 increased by 54% to KRW 681 billion (USD 653 million) from KRW 442 billion (USD 424 million) in the second quarter of 2005. EBITDA increased by 20% from KRW 568 billion (USD 545 million) in the third quarter of 2004.

Net income in the third quarter of 2005 increased to a net profit of KRW 227 billion (USD 218 million) from KRW 41 billion (USD 39 million) in the second quarter of 2005, and compared to a net profit of KRW 291 billion (USD 279 million) in the third quarter of 2004.

During the third quarter, we further enhanced our product portfolio, consistently reduced our square meter costs and continued on our path of market leadership, said Bon Joon Koo, Vice Chairman and CEO of LG.Philips LCD. As we predicted, large and wide LCD TVs are becoming mainstream, and we are driving this growth through our cutting-edge products, manufacturing excellence and innovative partnerships. Notably, our strategic investment in a new module plant in Poland, announced during the third quarter, will enable us to better serve the fast-growing European LCD TV market while strengthening relationships with our customers there.

### **Third Quarter Financial Review**

#### *Revenue and Cost*

Revenue in the three-month period ended September 30, 2005 increased by 46% to KRW 2,741 billion (USD 2,630 million) from KRW 1,875 billion (USD 1,799 million) in the corresponding period in 2004, as increases in shipments were robust due to growing TV demand and a stabilizing pricing environment. TFT-LCD panels for desktop monitors, TVs, notebook computers and other applications accounted for 45%, 29%, 22% and 4%, respectively, on a revenue basis in the third quarter of 2005, compared to 53%, 24%, 18% and 5%, respectively, on a revenue basis in the second quarter of 2005.

Overall, the Company shipped a total of 1,248,000 square meters of net display area in the third quarter of 2005, a 13.9% sequential quarterly increase, with an average selling price per square meter of net display area of USD 2,121. This represents an increase in the average selling price per square meter of net display area of approximately 2.9% compared to the average of the second quarter of 2005, and an increase of 2.3% at the end of the third quarter as compared to the end of the second quarter of 2005.

The total cost of goods sold increased to KRW 2,367 billion (USD 2,271 million), or 52% year-on-year and 9% compared to the second quarter of 2005, primarily as a result of increased shipments. The cost of goods sold per square meter of net display area shipped was KRW 1,896 thousand (USD 1,819) for the third quarter of 2005, down 4.2% from the second quarter of 2005.

In the third quarter, we experienced increased demand, especially in the LCD TV and notebook panel segments, and, as a result, we shipped a record amount of display area, despite a strong competitive environment, said Ron Wirahadiraksa, President and CFO of LG.Philips LCD. We were able to meet this demand growth due in large part to the successful ramp up of our P6 facility, which achieved its initial design capacity of 90,000 sheets per month this quarter. While we continued to increase capacity, we were also intensely focused on cost reduction, which continued to show improvement.

#### *Liquidity*

As of September 30, 2005, LG.Philips LCD had KRW 2,129 billion (USD 2,042 million) of cash and cash equivalents. Total debt was KRW 3,618 billion (USD 3,471 million), and the net-debt-to-equity ratio was 20% as of September 30, 2005, compared to 40% last quarter, in large part due to the USD 1.4 billion follow-on equity offering in July 2005.

#### *Capital Spending*

Capital expenditures in the third quarter of 2005 decreased to KRW 1,380 billion (USD 1,324 million) from KRW 1,434 billion (USD 1,376 million) in the third quarter of 2004. Our capital expenditures for the third quarter of 2005 were mainly used for continued investment in P6 and P7.

*Utilization and Capacity*

Total input capacity on an area basis increased approximately 17% in the third quarter compared to the second quarter, due mainly to P6 achieving its initial design capacity of 90,000 input sheets per month. The Company intends to expand this capacity further over time.

**Outlook**

The following expectations are based on current information as of October 11, 2005. The Company does not expect to update its expectations until next quarter's earnings release. However, the Company may update its full business outlook, or any portion thereof, at any time for any reason.

For the fourth quarter of 2005, we anticipate our area shipments will increase by a low teens percentage quarter-on-quarter due to continued growth, especially in the rapidly expanding TV segment, commented Mr. Wirahadiraksa. We expect our average selling price per square meter of net display area shipped at the end of the fourth quarter of 2005 to be flat to slightly down, as compared to the end of the third quarter of 2005, largely due to potentially weaker pricing for some monitors. Our EBITDA margin for the fourth quarter is expected to be in the mid-to-high twenties. Our CAPEX guidance for 2005 remains unchanged from the previous quarter's guidance, and at this stage, we maintain our preliminary CAPEX for 2006 to be in the range of KRW 3.5 trillion to KRW 4.5 trillion.

**Earnings Conference and Conference Call**
