NOTE 1: BASIS OF CONSOLIDATION CORPORATE CONTROL

a. Basis of consolidation

The Company has consolidated its balance sheets at December 31, 2005 and June 30, 2005 and the statements of income and cash flows for the six-month periods ended December 31, 2005 and 2004 line by line with the financial statements of its subsidiaries, following the procedure established in Technical Resolution No. 21 of the Argentine Federation of Professional Councils in Economic Sciences and approved by the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires and by the National Securities Commission.

Financial statements corresponding to the six-month economic periods ended December 31, 2005 and 2004 have not been audited yet. The management believes they include all necessary settlements to reasonably show the consolidated results of each period.

Results for the six-month economic periods ended December 31, 2005 and 2004 do not necessarily reflect the portion of the company's consolidated result for such complete years.

All significant intercompany balances and transactions have been eliminated in consolidation.

NOTE 1: (Continued)

b. Comparative Information

Balance sheet items at June 30, 2005 shown in these unaudited consolidated financial statements for comparative purposes arise from the audited annual consolidated financial statements corresponding to the year then ended.

The balances at December 31, 2005 of the Statements of Income, Changes in Shareholders' Equity and Cash Flows are disclosed in comparative format with the same period of the previous fiscal year.

Certain amounts in the financial statements at June, 2005 were reclassified for disclosure on a comparative basis with those for the period ended December 31, 2005

NOTE 2: CONSIDERATION OF THE EFFECTS OF INFLATION

The unaudited financial statements have been prepared in constant monetary units, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the government discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the financial statements was discontinued.

This criterion is not in line with current professional accounting standards, which establish that the financial statements should be restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the consolidated financial statements taken as a whole.

The rate used for restatement of items is the domestic wholesale price index published by the National Institute of Statistics and Census.

IRSA Inversiones y Representaciones Sociedad Anónima and subsidiaries

Notes to the Unaudited Consolidated Financial Statements (Continued)

NOTE 3: SIGNIFICANT ACCOUNTING POLICIES

The unaudited financial statements of the subsidiaries mentioned in Note 1, have been prepared on a consistent basis with those applied by IRSA Inversiones y Representaciones Sociedad Anónima. Note 1 to the unaudited basic financial statements details the most significant accounting policies applied and mentions the consolidation of the recently approved accounting standards that will be applicable at the beginning of the next fiscal year. Below are the most relevant accounting policies adopted by the subsidiaries, which are not included in that note.

a. Banco Hipotecario S.A. shares

Banco Hipotecario S.A. shares were valued by using the equity method of accounting by the end of the period. See Note 1.5.i. to the unaudited basic financial statements.

b. Revenue recognition

The Company's revenues mainly stem from office leases, shopping center operations, development and sale of real estate, hotel operations and, to a lesser extent, from e-commerce activities.

Leases and services from shopping center operations

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the Base Rent) and (ii) a specified percentage of the tenant's monthly gross retail sales (the Percentage Rent) (which generally ranges between 4% and 8% of tenant's gross sales).

Furthermore, pursuant to the rent escalation clause in most leases, the tenant's Base Rent generally increases between 4% and 7% each year during the term of the lease. Minimum rental income is recognized on a straight-line basis over the term of the lease. Certain lease agreements contain provisions, which provide for rents based on a percentage of sales or based on a percentage of sales volume above a specified threshold. The Company determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

IRSA Inversiones y Representaciones Sociedad Anónima and subsidiaries

Notes to the Unaudited Consolidated Financial Statements (Continued)

NOTE 3: (Continued)

b. (Continued)

Generally, the Company's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six months, upon not less than 60 days' written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease. The Company also charges its tenants a monthly administration fee, prorated among the tenants according to their leases, which varies from shopping center to shopping center, relating to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations.

Administration fees are recognized monthly when accrued. In addition to rent, tenants are generally charged admission rights, that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized using the straight-line method over the life of the respective lease agreements.

Credit card operations

Revenues derived from credit card transactions include commissions and financing income. Commissions are recognized at the time the merchants' transactions are processed, while financing income is recognized at the time it is accrued.

Hotel operations

The Company recognizes revenues from its rooms, catering, and restaurant facilities as accrued on the close of each business day.

Net operating results from each business unit are disclosed in Note 4.

c. Intangible assets

Intangible assets are carried at cost restated as mentioned in Note 2, less accumulated amortization and corresponding allowances for impairment in value. Included in the Intangible Assets caption are the following:

IRSA Inversiones y Representaciones Sociedad Anónima and subsidiaries

Notes to the Unaudited Consolidated Financial Statements (Continued)

NOTE 3: (Continued)

c. (Continued)

Trademarks

Trademarks include the expenses and fees related to their registration.

Pre-operating expenses

This item reflects expenses generated by the opening of new shopping malls. Those expenses are amortized by the straight-line method in 3 years, beginning as from the date of opening of the shopping center.

Property development expenses

Expenses incurred related to the selling of development properties, including advertising, commissions and other expenses, are charged to net income for the period in which the corresponding income is accrued, based on the percentage of completion method.

The value of these assets do not exceed its estimated recoverable value at the end of each period.

d. Goodwill

Negative goodwill represents the excess of the market value of net assets of the subsidiaries at the percentage participation acquired over the acquisition cost. Goodwill has been restated following the guidelines mentioned in Note 2 and amortization has been calculated by the straight-line method based on an estimated useful life of 20 years, considering the weighted-average of the remaining useful life of identifiable assets acquired subject to depreciation.

Additionally, also included was the goodwill from the subsidiary APSA, originating from the purchase of shares of Tarshop S.A., Fibesa S.A. and Shopping Alto Palermo S.A., which is amortized through the straight-line method over a period that not exceeds 10 years.

Amortization has been classified under Amortization of goodwill in the Statements of Income.

NOTE 16: RESTRICTED ASSETS**Puerto Retiro S.A.**

On April 18, 2000, Puerto Retiro S.A. (indirect subsidiary of The Company) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the real estate property near Puerto Madero denominated *Planta 1* which had been acquired from Tandanor S.A. in June 1993.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Indarsa had acquired 90% of the capital stock of Tandanor, a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A..

The legal proceedings have practically reached the end of the time allowed to produce evidence. Puerto Retiro S.A. contested the complaint and appealed the provisional remedy, which was dismissed on December 14, 2000. The next steps will be the allegations and the handing down of the first instance sentence.

Management and the legal counsels of Puerto Retiro S.A. believe that the extension of the bankruptcy will be dismissed by the Court.

Hoteles Argentinos S.A. mortgage loan

The Extraordinary Shareholders Meeting of Hoteles Argentinos S.A. (subsidiary company) held on January 5, 2001 approved taking a long-term mortgage loan from Bank Boston N.A. for a total amount of US\$ 12,000 to be used to refinance existing debts. The term of the loan was agreed at 60 months payable in 19 equal and quarterly installments of US\$ 300 and one final payment of US\$ 6,300. The agreement was signed on January 26, 2001.

Interest payments must be paid quarterly in arrears at an annual interest rate equivalent to LIBO for 12 months loans plus the applicable mark-up as per the contract, which consists of a variable interest rate applicable in the debt's interest payment period that as of December 31, 2005, was 5.92125%.

The guarantee granted was a senior mortgage on a property owned by Hoteles Argentinos S.A., which houses the Hotel Sheraton Libertador Buenos Aires. As a result of the economic situation of the country, the lack of credit and the crisis of the Argentine financial system, principal installments falling due as from January 26, 2002 and the interest installments falling due as from July 29, 2002, amounting to US\$ 6,681, were not paid by Hoteles Argentinos S.A. As failure to pay the installments when due entitles the creditors to require acceleration of principal and interest maturities, the loan has been classified and shown under short term debt. On March 5, 2004, BankBoston N.A. formally notified Hoteles Argentinos S.A. that as from March 10, 2004 it assigned to Marathon Master Fund Ltd., domiciled at 461 Fifth Avenue, 10th floor, New York, NY 10017, USA, all the rights and obligations arising from the loan agreement entered into on January 26, 2001 between Hoteles Argentinos S.A. as borrower and BankBoston N.A., as lender, together with all the changes, guarantees and insurance policies related to that contract.

Consequently, all pending obligations of Hoteles Argentinos S.A. must be fulfilled in favor of the assignee, Marathon Master Fund Ltd.

On December 16, 2004 Ritelco S.A. purchased the loan of US\$ 12,951 that controlled subsidiary (80%) Hoteles Argentinos S.A. owed Marathon Master Fund, Ltd. for US\$ 7,925.

On March 23, 2005 Ritelco S.A. sold to CSFB the loan agreement for US\$ 8 million in cash and the Company entered into an agreement with CSFB pursuant to which, among other things, (a) the Company guarantees the payment of the debt owed by HASA, (b) HASA must present a restructuring plan of the loan prior to September 15, 2005, and (c) in the event of non-compliance the Company shall repurchase the loan agreement for US\$ 8,000. As guarantee for this transaction, the Company made a payment of US\$ 2,000 to CSFB which is disclosed as a collateral deposit within Other receivables and prepaid expenses, net in the accompanying consolidated balance sheet. The loan is collateralized by real estate properties with a net book value of Ps. 32,1 million at June 30, 2005.

NOTE 17: TARSHOP S.A. CREDIT CARD RECEIVABLE SECURITIZACION

The Company has ongoing revolving period securitization programs through which Tarshop S.A., a majority-owned subsidiary of APSA, transfers a portion of its customer credit card receivable balances to trusts that issues certificates to public and private investors.

Under the securitization programs, Trusts may issue two types of certificates representing undivided interests in Trusts - Títulos de Deuda Fiduciaria (TDF) and Certificados de Participación (CP), which represent debt, and equity certificates, respectively. Interest and principal services are paid periodically to the TDF holders throughout the life of the security. CPs are subordinated securities which entitle the CP holders to share pro rata in the cash flows of the securitized credit card receivables, after principal and interest on the TDFs and other fees and expenses have been paid. During the revolving period no payments are made to TDF and CP holders. Principal collections of the underlying financial assets are used by the trust to acquire additional credit card receivables throughout the revolving period. Once the revolving period ends, a period of liquidation occurs during which: (i) no further assets are purchased and (ii) all cash collections are used to fulfill the TDF service requirements and (iii) the remaining proceeds are used to fulfill the CPs service requirements.

NOTE 17: (Continued)

In consideration of the receivables transferred to the trusts, which have been eliminated from the Company's balance sheet, Tarshop received cash (arising from the placement of the debt securities by the trusts) and the certificates issued by the trusts. The latter are recorded at their equity values at the closing of the period on the basis of the financial statements issued by the trusts.

NOTE 18: SALE IN OWNERSHIP OF BANCO HIPOTECARIO S.A. AMONG SUBSIDIARIES

On August 9, 2005 Ritelco S.A. sold 335,893 shares of Banco Hipotecario S.A. to Buenos Aires Trade and Finance Center S.A. at that moment (100% subsidiary of the Company) in the total amount of US\$ 1,536 (equivalent to market value of US\$ 4,57 per share). See Note 18 to the unaudited basic financial statements in connection with the sale of the interest in Banco Hipotecario S.A. made by IRSA to Buenos Aires Trade & Finance Center S.A.

As such transactions were made among subsidiaries, in which IRSA holds 100% interest, they did not modify the shareholding and did not affect the unaudited consolidated financial statements.

As of December 31, 2005, total shareholding amounted to 17,641,015.

NOTA 19: INVESTMENT IN IRSA TELECOMUNICACIONES N.V. (ITNV)

At June 30, 2005, Ritelco held an investment in ITNV representing 49.36% of its common shares. Ritelco had discontinued in prior years the application of the equity method for valuing this investment because there were mandatorily redeemable preferred shares issued by ITNV, as Ritelco had not secured ITNV obligations, nor had it agreed to provide financial support to that company. For this reason, the investment in ITNV was valued at zero.

On August 19, 2005, a share purchase agreement was entered into by and between ITNV, Ritelco S.A. and Dolphin Fund Plc (another shareholder of ITNV) whereby ITNV acquired all the common shares held by those shareholders (4,106,000 and 1,675,000 shares, respectively) for US\$ 0.1470333852 per share. The amount of this transaction is US\$ 850, of which US\$ 604 correspond to Ritelco S.A.

Taking into account that the above-mentioned transaction occurred subsequent to year-end, but before the issuance of the annual financial statements, Ritelco took up as of June 30, 2005 the investment in ITNV at its equity value up to the limit of its recoverable value. Consequently, Ritelco recorded an income of US\$ 604 as of June 30, 2005.

NOTE 26: PROVISION FOR UNEXPIRED CLAIMS AGAINST LLAO LLAO HOLDING S.A.

The company Llao Llao Holding S.A. (in the process of dissolution due to merger with IRSA Inversiones y Representaciones Sociedad Anónima), predecessor of Llao Llao Resorts S.A. in the operation of the hotel complex Hotel Llao Llao, which was awarded by Resolution No. 1/91 issued by the National Parks Administration, was sued in 1997 by that Administration to obtain collection of the unpaid balance of the additional sale price, in Argentine external debt securities amounting to US\$ 2,870. A ruling of the court of original jurisdiction sustained the claim. That ruling was appealed, and the Court of Appeals confirmed the judgment of the court of original jurisdiction, demanding payment from the company of the mentioned amount in Argentine external debt securities available at the date of the ruling, plus interest accrued through payment, and compensatory and punitive interest and lawyers' fees.

The unpaid balance approved in the court records, carried out by the plaintiff as of March 31, 2001, includes face value bonds of US\$ 4,127, plus compensatory and punitive interest, payable in cash, in a total amount of US\$ 3,800.

On March 2, 2004, the Company made a deposit of Ps. 7,191 in Banco de la Ciudad de Buenos Aires in favor of the National Parks Administration and a transfer of Argentine external debt securities class FRB - FRB L+13/16 2005 for a total nominal value of US\$ 4,127, equivalent to Ps. 1,964. The total amount settled on that date was Ps. 9,155.

The intervening court served notice to the plaintiff of payment made, and on June 30, 2004 the plaintiff presented a writing rejecting that payment, considering it partial settlement of the debt arising from the firm judgement filed in the records of the case, and requested the setting up of a time deposit with the funds paid, automatically renewable every thirty days, until final payment of the total debt.

The Court resolved the matter by considering notice to have been served; as regards the amount due, the plaintiff must conform the claim to current regulations. Until final resolution of the matter, Banco de la Ciudad de Buenos Aires was instructed to appropriate the funds to a renewable time deposit.

A report of the legal advisors states that the balance remains unpaid and outlines that the Company has deposited with the court the debt titles determined in the unpaid balance, and an amount in cash of Ps. 7,191, whereas the unpaid balance approved in the court records was US\$ 3,780.

In line with the matters reported by the lawyers in respect of this suit, the Company management recorded a reserve for an amount Ps. 4,208 as of December 31, 2005, which was determined according to the difference between the amount claimed for compensatory and punitive interest of US\$ 3,800 and the amount deposited in the court of Ps. 7,191.

The plaintiff's lawyers (five complainants) filed a motion in relation to their fees in the case, as they understood that the amount agreed should have been paid in U.S. dollars and not in

NOTE 26: (Continued)

pesos, estimating the difference, in comparison with the amount already paid, in US\$ 384. In a provisional remedy, due to the unpaid balance carried out in the court records under the claims of two of the lawyers, an order was issued to attach the Company's current accounts, which occurred in March 2005 in the amount of Ps. 788. As of December 31, 2005, such attached funds amount to Ps. 861.

The Company legal advisors challenged the unpaid balance carried out in the court records based on several reasons (payments performed prior to the pesification, unlawful and exorbitant interest, etc.). The Company is currently awaiting the resolution of the challenges submitted by means of request. In accordance with the probable contingency reported by the lawyers as of December 31, 2005, the Company management has reserved the amount of Ps. 1,890.

NOTE 27: OPTION FOR THE ACQUISITION OF BENAVIDEZ

On December 3, 2003, Inversora Bolívar S.A. (indirect subsidiary companies) and Desarrolladora El Encuentro S.A. (DEESA) signed a revocable option agreement for the acquisition of real property, whereby Inversora Bolívar S.A. granted DEESA an option to acquire land in Benavídez.

In March 2004, DEESA notified Inversora Bolívar S.A. and the latter accepted the exercise of the mentioned option. On May 21, 2004 an exchange deed was signed whereby DEESA agreed to pay US\$ 3,980 to Inversora Bolívar S.A., of which US\$ 980 were paid during the previous quarter and the balance of US\$ 3,000 will be paid through the exchange of 110 residential plots already chosen and identified in the option contract mentioned in the first paragraph of this note. Furthermore, through the same act, DEESA set up a first mortgage in favor of Inversora Bolívar S.A. on real property amounting to US\$ 3,000 in guarantee of compliance with the operation and delivered US\$ 500 to Inversora Bolívar S.A. corresponding to a deposit in guarantee of performance on the obligations undertaken. This balance will not accrue interest in favor of DEESA, and will be returned as follows: 50% at the time of certification of 50 % of the progress of work and the remaining upon certification of 90% of work progress.

NOTE 28: (Continued)

Through this acquisition, APSA became holder of 68.8% of the capital stock of the above company, the main activity of which is the operation of the Mendoza Plaza Shopping center in the city of Guaymallen, Mendoza.

The operation was notified to the National Commission for the Defense of Competition in compliance with the regulations of the Ministry of Economy, having been approved by that Commission on November 17, 2004.

On December 2, 2004 a final purchase agreement was signed, the shares were transferred and an extraordinary shareholders' meeting was held, which decided the amendment of the by-laws to change the corporate name from Pérez Cuesta S.A.C.I. to Mendoza Plaza Shopping S.A..

At March 31, 2005 the deed implementing the changes in the Company's by-laws had been signed before Public Notary; this amendment was approved by the enforcement agencies as of June 30, 2005.

Additionally, during the fiscal year ended on June 30, 2005, APSA entered into the following contracts:

Put option with Banco de Chile, whereby the latter was entitled, although not obliged, to assign a mortgage loan agreement to APSA originally granted to Mendoza Plaza Shopping S.A. (Former to Pérez Cuesta S.A.C.I.) amounting to US\$ 15.5 million and a credit line fully disbursed to that company amounting to US\$ 2.5 million; Mendoza Plaza Shopping S.A. (Former Pérez Cuesta S.A.C.I.) had failed to comply with its payment obligations. The loans were secured by the assignment in guarantee of rental payments to be made by Falabella S.A. to Mendoza Plaza Shopping S.A. (Former Pérez Cuesta S.A.C.I.).

The documentation was notarized on March 30, 2005 by which Banco de Chile transferred all the mortgage rights to APSA and the latter acquired the credit for US\$ 8.5 million.

Call option with HSBC Bank Argentina S.A., whereby APSA was entitled, although not obliged, to acquire, and HSBC Bank Argentina S.A. assumed an irrevocable obligation to transfer, a loan agreement originally granted to Mendoza Plaza Shopping S.A. (Former Pérez Cuesta S.A.C.I.) amounting to US\$ 7.0 million which the latter failed to pay. The loan was secured through the assignment in guarantee of rental payments to be made by Angulo Hermanos S.A. and Garbarino S.A.

On March 29, 2005 APSA transferred the purchase option entered into with HSBC Bank Argentina S.A. to Mendoza Plaza Shopping S.A. (Former Pérez Cuesta S.A.C.I.) for the same value as originally agreed and on the same day Mendoza Plaza Shopping S.A. (Former Pérez Cuesta S.A.C.I.) exercised the option, paying Ps. 6.1 million for the settlement of the loan, (corresponding to the exercise price of Ps. 7.2 million, net of the premium paid of Ps. 0.7 million and rental fees collected by HSBC Bank Argentina S.A. amounting to Ps. 0.4 million).

NOTE 29: OPENING OF ALTO ROSARIO SHOPPING

On November 9, 2004 APSA inaugurated a new shopping center, Alto Rosario Shopping, in the city of Rosario, Province of Santa Fe.

NOTE 30: CONTRIBUTED LEASEHOLD IMPROVEMENT AND UNREALIZED GAINS

Operadora de Estaciones de Servicios S.A. (O.P.E.S.S.A.) made leasehold improvements on Mendoza Plaza Shopping S.A s. (Former Pérez Cuesta S.A.C.I.) property, which were capitalized as fixed assets in Mendoza Plaza Shopping S.A s. (Former Pérez Cuesta S.A.C.I.), recognizing the related gain over the term of the contract. At period end, the amount of Ps. 250 was pending of accrual.

In March 1996 Village Cinema S.A. opened ten theatres in the multiplex cinema system, with an approximate surface of 4,100 sq. m. This improvement of a building of Mendoza Plaza Shopping . (Former Pérez Cuesta S.A.C.I.) was capitalized as a fixed asset, with a balancing entry as unrealized gains, recognizing the depreciation charges and the profits over a 50-year period. At period end, the amount of Ps. 10,902 was pending of accrual.

Also, gains to be accrued related to the construction of installations by a lessee in the Abasto Shopping Center area, are included. APSA has recorded such installations as fixed assets based on the construction costs with the liability. Improvements by third parties are depreciated in net income accounts during the term of the rental. Such net depreciation of the improvement by third parties was not significant during the six-month periods ended December 31, 2005 and 2004.

On February 2, 1999 Mendoza Plaza Shopping S.A s. (Former Pérez Cuesta S.A.C.I.) entered into a contract with Riocruz S.C.S. (C&A Shop), granting the latter a mutual right of way in perpetuity, for valuable consideration for the first ten years and subsequently free of charge. The price agreed for this easement is US\$ 2,926,200 which was accrued over the amortization period of the property, as from April 1999, date on which it was registered with the Real Estate Record Office. On September 16, 2005 Mendoza Plaza Shopping S.A.(Former Pérez Cuesta S.A.C.I) acquired the real estate that belonged to Riocruz S.C.S. (C & A Shop) and the easement right was left ineffective. Therefore, Mendoza Plaza Shopping S.A.(Former Pérez Cuesta S.A.C.I) reflected for this operation an income of \$2,428, which is shown in Other income and expenses, net of the statement of income.

NOTE 31: PROPOSAL TO TRANSFER THE MANAGEMENT OF ABRIL

This proposal replaces the one dated May 4, 2005 and is still to be approved by the above-mentioned Commission.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

For the proposal to be approved, the Residents Commission will require both the approval of two-thirds of the owners of the plots sold at the time the proposal was signed, and monetary and non-monetary contributions, among which the following can be outlined:

NOTE 32: NEUQUEN PROJECT

On July 6, 1999 APSA acquired a 94.6% share in Shopping Neuquén S.A. amounting to Ps. 4.2 million. APSA paid Ps. 0.9 million on September 1, 1999 and the remaining Ps. 3.3 million were to be paid on July 5, 2001 or at the time of the opening of the shopping center to be constructed in the building owned by Shopping Neuquén S.A., whichever happened first. As of December 31, 2005 the remaining amount had not been paid yet.

The only asset of Shopping Neuquén S.A. is a plot of land of 50,000 square meters approximately, in which a shopping center would be built. The project included the building of a shopping center, a hypermarket, hotel and housing building. During June 2001 Shopping Neuquén S.A. requested to the Municipality of Neuquén an extension of the original construction schedule, and an authorization to transfer to third parties certain plots in which the land is divided so that each participant of the commercial development to be constructed will be able to build on its own land.

The time extension should be approved by the Legislative Council of the Municipality of Neuquén.

On December 20, 2002 the Municipality of Neuquén issued Decree 1,437/02 by which the request of Shopping Neuquén S.A., in respect of extending the time term to build the development and the authorization to transfer a part of the plots to third parties, was denied. Also, the extinction of the rights arising from Ordinance 5,178 was stated, terminating the purchase-sale contracts of land with loss both of improvements

carried out and expenses incurred, in favor of the Municipality of Neuquén, having Shopping Neuquén S.A. no right to claim any indemnities.

Shopping Neuquén S.A. submitted a response to the above-mentioned Decree and requested on January 21, 2003 that the administrative action be revoked, and offered and attached a proof document including the reasons to request such annulment.

IRSA Inversiones y Representaciones Sociedad Anónima and subsidiaries

Notes to the Unaudited Consolidated Financial Statements (Contd.)

NOTE 32: (Continued)

It also requested to be allowed to submit a new schedule of time terms, which would be prepared in line with the current scenario and including reasonable short and medium term projections.

The Municipal Executive rejected the recourse referred to above through Decree 585/2003. Consequently, on June 25, 2003 Shopping Neuquén S.A. filed an Administrative Procedural Action with the High Court of Neuquén requesting among other issues, the annulment of Decrees 1,437/2002 and 585/2003 that the Municipal Executive issued.

On December 21, 2004 Shopping Neuquén was notified of a resolution of the High Court of Neuquén communicating the expiry of the administrative procedural action that the Company had filed against the Municipality of Neuquén. Such Court decision is not final.

As of December 31, 2005 Shopping Neuquén S.A. is negotiating with the Municipality of Neuquén an agreement to establish the terms and conditions to re-activate the development and construction of the commercial business. Such terms and conditions will be incorporated in a new Municipal Ordinance that will either modify or annul the original one.

If the extension is not approved, the Municipality of Neuquén would be entitled to request that the real estate sold on a timely basis be returned and if such is the case Shopping Neuquén would not recover its original investment.

In turn, on August 15, 2003 APSA was acknowledged that 85.75% of the old shareholders of Shopping Neuquén S.A. filed a claim requesting the collection of the price balance plus interest and legal costs.

The Company management considers that the current undergoing negotiations will be favorable to the Company interest.

NOTE 33: ACQUISITION OF REAL STATE

On December 29, 2005, the APSA subscribed a preliminary purchase contract for acquiring a building located in the City of Buenos Aires. The price agreed for this transaction amounts to US\$ 17.9 million. At present, the amount of US\$ 5.4 million has been paid as pre-payment and is shown in Fixed Assets. The remaining amount, that is US\$ 12.5 million will be cancelled at the time of signing the deed for final transference, which will happen within 180 days (such term can be postponed) counted as from the date in which the preliminary contract will be signed.

The adjustment for the inflation is currently considered as a permanent difference in the calculation of the deferred tax. The Company is currently analyzing if it will change said accounting criteria and will report to the controlling authorities the decision before March 31, 2006.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the unaudited financial statements (Contd.)

NOTE 1: (Continued)

1.2. Use of estimates

The preparation of unaudited financial statements requires management, at a specific date, to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the unaudited financial statements, and the reported amounts of revenues and expenses for the period. Company's Management makes estimates for example when accounting for allowance for doubtful accounts, depreciation, amortization, impairment of long-lived assets, income taxes and contingencies. Future actual results could differ from the estimates and assumptions made at the date of these unaudited financial statements.

1.3. Recognition of the effects of inflation

The unaudited financial statements have been prepared in constant currency, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the Company discontinued the restatement of the unaudited financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the unaudited financial statements was discontinued.

This criterion is not in line with current professional accounting standards, which establish that the unaudited financial statements should have been restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the unaudited financial statements taken as a whole.

The rate used for restatement of items in these unaudited financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

1.4. Comparative information

Balance sheet items at June 30, 2005 shown in these unaudited consolidated financial statements for comparative purposes arise from the audited annual consolidated financial statements corresponding to the year then ended.

The balances at December 31, 2005 of the Statements of Income, Changes in Shareholders' Equity and Cash Flows are disclosed in comparative format with the same period of the previous fiscal year.

1.5. Valuation criteria

a. Cash and banks

Cash on hand has been valued at face value.

b. Foreign currency assets and liabilities

Foreign currency assets and liabilities were valued at each period-end exchange rates.

Operations denominated in foreign currency are converted into pesos at the rates of exchange in effect at the date of settlement of the operation.

c. Current investments

Current investments in debt securities and mutual funds were valued at their net realization value.

d. Mortgages and lease receivables and trade accounts payable

Mortgages and lease receivables and trade accounts payable have been valued at the price applicable to spot operations at the time of the transaction plus interest and implicit financial components accrued at the internal rate of return determined at that moment.

e. Financial receivables and liabilities

Financial receivables and payables have been valued at the amount deposited and collected, respectively, net of operating costs, plus financial results accrued based on the internal rate of return estimated at that time.

f. Other receivables and payables

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Sundry current assets and liabilities have been valued at face value plus the financial results accrued at the closing of the corresponding period.

Sundry receivables and payables (asset tax, value added tax, deposits in guarantee, and accounts receivable in trust) disclosed under other current and other non-current receivables and payables, were valued based on the best estimate of the amount receivable and payable, respectively, discounted at the interest rate applicable to freely available savings accounts published by the Argentine Central Bank in effect at the time of incorporation to assets and liabilities, respectively.

As established by the regulations of the National Securities Commission, deferred tax assets and liabilities have not been discounted. This criterion is

not in accordance with current accounting standards in effect in the Autonomous City of Buenos Aires, which require those balances to be discounted. However, the effect resulting from this difference has not had a material impact on the unaudited financial statements.

Liabilities in kind:

The Company records a liability in kind corresponding to an obligation to deliver units to be built in relation to the San Martín de Tours property. This liability was valued at the higher of amounts received or the estimated cost of building of the units plus additional costs to transfer the assets to the creditor, and is shown as a current liability under Mortgages payable .

g. Balances corresponding to financial transactions and sundry receivables and payables with related parties

Receivables and payables with related parties generated by financial transactions and other sundry transactions were valued in accordance with the terms agreed by the parties.

h. Inventories

A property is classified as inventories upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Properties classified as inventories have been valued at acquisition or construction cost restated as mentioned in Note 1.3., or estimated net realizable value, whichever is lower. The Company maintains allowances for impairment of certain inventories for those ones which market value is lower than cost (See Exhibit E). Costs include land and land improvements, direct construction costs, construction overhead costs, interest on indebtedness and real estate taxes. During the period ended December 31, 2005 and the fiscal year June 30, 2005 interest costs of the property called San Martín de Tours were capitalized for Ps. 222 and Ps. 418, respectively.

Inventories on which advance payments that establish price and the operation's contract terms and conditions assure that the sale will be effectively accomplished and that the income is valued at the net realization value. Profits arising from such valuation are shown in the Gain

from valuation of inventories at fair market value caption of the Statement of Income.

NOTE 1: (Continued)

1.5. (Continued)

h. (Continued)

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

The amount recorded in inventories, net of allowances set up, does not exceed their estimated recoverable value at the end of the period.

Credits in kind:

The units relating to the buildings called Edificios Cruceros and Dique III have been valued according to the accounting measuring standards corresponding to inventories receivable and there have been disclosed under Inventories .

i. Non-current investments

Investments in debt securities:

Investments in debt securities were valued based on the best estimate of the discounted amount receivable applying the corresponding internal rate of return estimated at the time of incorporation to assets, as the Company will hold them to maturity. The value thus obtained does not exceed the respective estimated recoverable value at the end of the period.

Investments in subsidiaries and related companies:

Non-current investments in subsidiaries and related companies detailed in Exhibit C, have been valued by using the equity method of accounting based on the unaudited financial statements at December 31, 2005 issued by them with the exception of the investment in Banco Hipotecario S.A. as mentioned below. The accounting standards used by the subsidiaries to prepare their financial statements are the same as those used by the Company. The accounting standards used by the related companies to prepare their financial statements are those currently in effect.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

This item also includes the lower or higher value paid for the purchase of shares in subsidiaries and related companies assignable to the assets acquired, and goodwill related to the subsidiary Alto Palermo S.A. and the related company, Banco Hipotecario S.A.

NOTE 1: (Continued)

1.5. (Continued)

i. (Continued)

The Company has an important investment in Banco Hipotecario S.A.. This investment is valued according to the equity method due to the significant influence of the economic group on the decisions of Banco Hipotecario S.A., and to the intention of keeping said investment on a permanent basis. As of December 31, 2005, the equity value was applied on interim figures as at the time that these financial statements were issued Banco Hipotecario S.A. had not concluded the issuance process and approval of its financial statements.

In accordance with the regulations of the BCRA and the contracts signed as a result of Banco Hipotecario S.A.'s financial debt restructuring process, there are certain restrictions on the distribution of profits by Banco Hipotecario S.A. to the Company.

Certificates of participation in IRSA financial trust:

The certificates of participation in IRSA I financial trust have been valued at the amount resulting from apportioning the participation certificate holding to the trust assets.

Undeveloped parcels of lands:

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company's strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

Land held for development and sale and improvements are stated at cost restated as mentioned in Note 1.3. or market value, whichever is lower. The Company maintains allowances for impairment of certain parcels of undeveloped land for which their market value is lower than cost. (See Exhibit E).

Land and land improvements are transferred to inventories when construction commences or their trade is decided.

The values thus obtained, net of the allowances recorded, do not exceed their respective estimated recoverable values at the end of period.

j. Fixed assets

Fixed assets comprise primarily of rental properties and other property and equipment held for use by the Company.

Fixed assets value, net of allowances set up, does not exceed estimated recoverable value at the end of the period.

Rental properties

Rental properties are carried at acquisition and/or construction cost, restated as mentioned in Note 1.3., less accumulated depreciation and allowance for impairment at the end of the period. The Company capitalizes accrued interest costs on indebtedness associated with long-term construction projects. However, as of December 31, 2005 and the fiscal year ended June 30, 2005 no interest costs were capitalized, as the Company considered that there are no work in progress.

Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, which generally are estimated to be 50 years for buildings. Expenditures for ordinary maintenance and repairs are charged to results in the period incurred.

The Company has allowances for impairment of certain rental properties as disclosed in Exhibit A. Increases and decreases of such allowances are disclosed in Exhibit E.

Significant renovations and improvements, which improve or extend the useful life of the asset are capitalized and depreciated over its estimated remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation of the assets are eliminated from the accounts and the resulting gain or loss is disclosed in the statement of income.

Software obtained or developed for internal use

The Company capitalizes certain costs associated with the development of computer software for internal use. Costs capitalized during the periods ended December 31, 2005 and fiscal year ended June 30, 2005, were not material. These costs are being amortized on a straight-line basis over a period of 3 years.

NOTE 1: (Continued)

1.5. (Continued)

j. (Continued)

Other properties and equipment

Other properties and equipment properties are carried at cost, restated as mentioned in Note 1.3., less accumulated depreciation at the end of the period. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, as specified below:

<u>Asset</u>	<u>Estimated useful life (years)</u>
Leasehold improvements	On contract basis
Furniture and fixtures	5
Machinery, equipment and computer equipment	3
Vehicles	5

The cost of maintenance and repairs is charged to expense as incurred. The cost of significant renewals and improvements are added to the carrying amount of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts.

k. Deferred financing cost

Expenses incurred in connection with the issuance of negotiable obligations and proceeds of loans are amortized over the life of the related issuances. In the case of redemption of these notes, the related expenses are amortized using the accelerated depreciation method.

Amortization has been recorded under Financial results, net in the statements of income as a greater financing expense.

l. Customer advances

Customer advances represent payments received in advance in connection with the sale and rent of properties.

m. Income tax

The Company has recognized the charge for income tax by the deferred tax liability method, recognizing timing differences between measurements of accounting and tax assets and liabilities (see Note 14).

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the unaudited financial statements (Contd.)

NOTE 1: (Continued)

1.5. (Continued)

m. (Continued)

To determine deferred assets and liabilities, the tax rate expected to be in effect at the time of reversal or use has been applied to timing differences identified and tax loss carry forwards, considering the legal regulations approved at the date of issuance of these unaudited financial statements.

Since it is unlikely that future taxable income will fully absorb tax loss carry forwards, the Company has recorded an impairment on a portion of that credit.

n. Asset tax

The Company calculates asset tax by applying the current 1% rate on computable assets at the end of the period. This tax complements income tax. The Company's tax obligation in each period will coincide with the higher of the two taxes. However, if asset tax exceeds income tax in a given period, that amount in excess will be computable as payment on account of income tax arising in any of the following ten years.

At December 31, 2005, the Company has estimated the asset tax, recognizing under Other receivables (non-current) the amount estimated to be offset as payment on account of income tax in future years in accordance with current regulations, and expensing the remaining balance.

o. Allowances and Provisions

Allowance for doubtful accounts: the Company provides for losses relating to mortgages, lease and other accounts receivable. The allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a one-by-one basis considering the present value of expected future cash flows. While management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the unaudited financial statements reflect that consideration.

For impairment of assets: the Company regularly assess its non-current assets for recoverability whenever there is an indication that the carrying amount of an asset may exceed its recoverable value.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the unaudited financial statements (Contd.)

NOTE 1: (Continued)

1.5. (Continued)

o. (Continued)

In such cases, for rental properties, the Company first makes a comparison between the asset carrying amount and its undiscounted value in use. If, as a result of that comparison, the carrying amount of an asset exceeds its value in use, in order to measure the loss impairment, a second comparison is made with the higher of discounted value in use and market value (recoverable value). Value in use is determined based on estimated future cash flows. For the rest of the assets (inventories and undeveloped parcels of land) the Company makes a comparison with market values based on values of comparable properties. If the recoverable value of assets, which had been impaired in prior years, increases, the Company will record the corresponding reversals of impairment loss as required by accounting standards.

Increases and decreases of allowances for impairment of assets during the six-month period ended December 31, 2005 fiscal year ended June 30, 2005 are detailed in Exhibit E.

For lawsuits: the Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor and other matters. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters.

As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have a significant effect on the Company's future results of operations and financial condition or liquidity.

At the date of issuance of these unaudited financial statements, Management understands that there are no elements to foresee other potential contingencies having a negative impact on these unaudited financial statements.

p. Shareholders' equity accounts

Amounts of shareholders' equity accounts have been restated following the guidelines detailed in Note 1.3. until February 28, 2003. Subsequent movements are stated in the currency of the month to which they correspond.

q. Results for the period

The results for the period are shown as follows:

Amounts included in Income Statement are shown in currency of the month to which they correspond.

Charges for assets consumed (fixed asset depreciation, intangible asset amortization and cost of sales) were determined based on the values recorded for such assets.

Results from investments in subsidiary and affiliated companies was calculated under the equity method, by applying the percentage of the Company's equity interest to the results of such companies, with the adjustments for application of Technical Resolution 21.

r. Advertising expenses

The Company generally charges the advertising and publicity expenses to results when they are incurred. Advertising and promotion expenses were approximately Ps. 210 and Ps. 151 for the six months periods ended December 31, 2005 and 2004, respectively.

s. Pension information

The Company does not maintain any pension plans. Argentine laws provide for pension benefits to be paid to retired employees from government pension plans and/or privately managed funds plan to which employees may elect to contribute.

t. Derivative financial instruments

The Company has entered into an interest rate swap agreement in order to hedge the risks of fluctuation in interest rates related to its financial debt which accrues interest at variable rate. See Note 16 for details.

u. Revenue recognition

u.1. Sales of properties

The Company records revenue from the sale of properties when all of the following criteria are met:

- the sale has been consummated;
- there is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property;
- the Company's receivable is not subject to future subordination; and
- the Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. The Company does not commence revenue and cost recognition until such time as the decision to proceed with the project is made and construction activities have begun. The percentage-of-completion method of accounting requires the Company's management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

u.2. Leases

Revenues from leases are recognized on a straight line basis over the life of the related lease contracts.

v. Cash and cash equivalents

The Company considers, for cash flow purposes, all highly liquid investments with original maturities of three months or less, consisting primarily of mutual funds, as cash equivalents.

w. Monetary assets and liabilities

Monetary assets and liabilities are stated at their face value plus or minus the related financial gain or loss.

x. Vacation expenses

Vacation expenses are fully accrued in the period in which the employee renders services in order to be able to take such vacation.

NOTE 15: CREDIT DEFAULT SWAP CONTRACT WITH CREDIT SUISSE FIRST BOSTON

On June 2, 2005 a contract called Credit Default Swap was entered into with Credit Suisse First Boston by which the Company is committed to acquire in specific circumstances for US\$ 10.0 million, a loan with a mortgage guarantee on an office building in the City of Buenos Aires. This loan has a nominal value of US\$ 12,812, such entity being the creditor. To guarantee the fulfillment of said contract, the Company granted the amount of US\$ 4.0 million. If the debtor of such loan does not pay interest to Credit Suisse First Boston, the Company should pay quarterly interest at a LIBO rate added 450 basic points on a principal amount of US\$ 6.0 million. Under such contract, on September 30, 2005 and December 31, 2005 the Company made a payment of US\$ 126 and US\$ 129 respectively.

NOTE 16: SWAP OF INTEREST RATES WITH DEUTSCHE BANK AG

The Company had agreed with the Deutsche Bank AG on June 16, 2005 two LIBO rate swap arrangements aiming at covering the risk of increased interest rates that the Company has to pay on the unsecured loan and the non-convertible secured negotiable obligations (both to be due in November 2009, which at June 30, 2005 had a capital balance of US\$ 21,850 and US\$ 35,511 respectively, and which accrue a variable interest rate equivalent to the three month LIBO rate added 200 basic points).

By means of both contracts, the Company had committed to pay every three months to the Deutsche Bank AG fund flows calculated on the basis of a fixed rate of 4.27% on the balances of each debt. In turn, the Company will receive quarterly payments calculated on the basis of the three-month LIBO rate on balances established at the beginning of each quarter.

Notes to the unaudited financial statements (Contd.)

NOTE 16: (Continued)

The purpose of such swap arrangements was to fully cover the risk of interest rates of the above-mentioned debts. The amortization scheme, the dates for payment of interest and capital, the dates for determining interest rates, the referential index for calculating interests and the calculation basis for the interest agreed in both swap contracts totally coincided with the issuance conditions of each one of the mentioned liabilities.
