SEMIANNUAL REPORT

Dear Shareholder:

The US stock and bond markets delivered positive, but modest, returns during the six month period ended May 31, 2006. After a weak fourth quarter, economic growth turned sharply higher in 2006 and job growth was steady, although somewhat slower at the end of the period. Confident consumers continued to pump dollars into US retail markets, despite higher energy prices, which boosted inflation. The housing market continued to cool as mortgage rates moved higher, but housing-market indicators—such as housing starts, sales of existing homes, and house prices—remained strong by historical measures.

In this environment, the US fixed income markets faced the challenge of rising interest rates, especially within the short-and intermediate-maturity ranges and was generally flat for the period. The Federal Reserve Board, in an effort to balance economic growth and the forces of inflation, raised short-term interest rates by one full percentage point during the reporting period. The yield on the 10-year US Treasury note, a bellwether for the bond market, moved up from 4.5% to 5.1%. Lower quality bonds did better than higher quality bonds. In fact, high-yield bonds did better than either stocks or investment-grade bonds. A strong economy favored corporate high-yield bonds, as default rates remained low and corporate profits surprised investors with better-than-expected results. However, that trend showed signs of shifting near the end of the six-month period. The municipal sector generated respectable gains as economic growth helped buoy revenues and stabilize budgets in many states and municipalities. Within the municipal market, high-yield also outperformed high-grade bonds for the period.

In the pages that follow, your fund's manager discusses key factors that influenced performance during this six-month reporting period. We urge you to read this report carefully and to discuss any questions you might have with your financial advisor.

As always, we thank you for choosing Colonial Funds. We look forward to continuing to help you build toward your financial goals.

Sincerely,

/s/ Christopher L. Wilson

Christopher L. Wilson President, Columbia Funds

Past performance is no guarantee of future results.

Investments in high-yield or "junk" bonds offer the potential for higher income than investments in investment-grade bonds, but also have a higher degree of risk. Changes in economic conditions or other circumstances may adversely effect a high-yield bond issuer's ability to make timely principal and interest payments.

The views expressed in the President's Letter and Portfolio Managers' Report reflect the current views of the respective parties. These views are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict so actual outcomes and results may differ significantly from the views expressed. These views are subject to change at any time based upon economic, market or other conditions and the respective parties disclaim any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a Colonial Fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any particular Colonial Fund. SUMMARY

- .. For the six-month period ended May 31, 2006, Colonial Intermediate High Income Fund returned 9.44%, based on its market price. During the period, the fund returned 3.67% based on investment at net asset value. The average return of the Lipper High Current Yield Funds (Leveraged) Category was 5.53%./1/ We believe that the fund may have had more emphasis than its peers on higher quality high-yield bonds, which detracted from relative performance.
- .. The fund's emphasis on lower quality bonds early in the period benefited performance, with investments in utilities, energy and wireless telecommunications producing some of the biggest gains. However, we reduced exposure to lower quality bonds as the yield spread between lower and higher quality securities narrowed. This repositioning allowed us to lock in profits, but the timing of the change turned out to be premature as lower quality bonds continued to lead the market.
- cash flows, including continued economic growth, an orderly softening of the housing market and the possibility that the Federal Reserve Board could be near the end of its rate-rising cycle. However, we also believe that many high-yield issues, particularly those of lower quality, have been afforded excessive valuations and that the yield advantage that lower quality bonds offer, may not provide sufficient compensation for risk. Against this backdrop, the fund's shift in focus to higher quality has the potential to be rewarded if our assessment of market conditions is correct. However, we plan to continue to monitor economic data, and if our outlook changes, we would alter our investment focus accordingly.

PORTFOLIO MANAGEMENT

Gregg R. Smalley, CFA, has managed Colonial Intermediate High Income Fund since June 2000.

Kevin L. Cronk, CFA, has co-managed the fund since February 2003.

Thomas A. LaPointe, CFA, has co-managed the fund since February 2003.

Shares of closed-end funds frequently trade at a discount to net asset value. The price of the fund's shares is determined by a number of factors, several of which are beyond the control of the fund. Therefore, the fund cannot predict whether its shares will trade at, below or above net asset value.

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results.

Investing in fixed-income securities may involve certain risks, including the credit quality of individual issuers, possible prepayments, market or economic developments and yield and share price fluctuations due to changes in interest rates. When interest rates go up, bond prices typically drop, and vice versa.

Investing in high-yield or "junk" bonds offers the potential for higher income than investments in investment-grade bonds but also have a higher degree of risk. Changes in economic conditions or other circumstances may adversely affect a high-yield bond issuer's ability to make timely principal and interest payments.

NOTES TO FINANCIAL STATEMENTS

May 31, 2006 (Unaudited)

NOTE 1. ORGANIZATION

Colonial Intermediate High Income Fund (the "Fund") is a Massachusetts business trust registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

⁽b) The benefits derived from custody credits had an impact of less than 0.01%, except for the year ended October 31, 1997 which had a 0.01% impact.

INVESTMENT GOAL

The Fund seeks high current income and total return by investing primarily in high yield fixed income securities in lower-rated categories.

FUND SHARES

The Fund may issue an unlimited number of shares.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION

Debt securities generally are valued by pricing services approved by the Fund's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Equity securities are valued at the last sale price on the principal exchange on which they trade, except for securities traded on the NASDAQ, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the closing bid price on such exchanges or over-the-counter markets.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Forward currency exchange contracts are valued at the prevailing forward exchange rate of the underlying currencies.

Foreign securities are generally valued at the last sale price on the foreign exchange or market on which they trade. If any foreign share prices are not readily available as a result of limited share activity, the securities are valued at the last sale price of the local shares in the principal market in which such securities are normally traded.

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of the New York Stock Exchange ("NYSE"). The values of such securities used in computing the net asset value of the Fund's shares are determined as of such times. Foreign currency exchange rates are

generally determined at 4:00 p.m. Eastern (U.S.) time. Events affecting the values of such foreign securities and such exchange rates may occur between the times at which they are determined and the close of the customary trading session of the NYSE, which would not be reflected in the computation of the Fund's net asset value. If events materially affecting the values of such foreign securities occur and it is determined that market quotations are not reliable, then these foreign securities will be valued at their fair value using procedures approved by the Board of Trustees. If a security is valued at "fair value", such value is likely to be different from the last quoted market price for the security.

Investments for which market quotations are not readily available, or that have quotations which management believes are not appropriate, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS

Forward foreign currency exchange contracts are agreements to exchange one currency for another at a

19

[GRAPHIC]

NOTES TO FINANCIAL STATEMENTS (continued)

May 31, 2006 (Unaudited)

future date at a specified price. These contracts are used to minimize the exposure to foreign exchange rate fluctuations during the period between trade and settlement date of the contracts. The Fund may utilize forward foreign currency exchange contracts in connection with the settlement of purchases and sales of securities. The Fund may also enter into these contracts to hedge certain other foreign currency denominated assets. Contracts to buy generally are used to acquire exposure to foreign currencies, while contracts to sell are used to hedge the Fund's investments against currency fluctuations. Forward currency contracts are valued daily at the current exchange rate of the underlying currency, resulting in unrealized gains (losses) which become realized at the time the foreign currency contracts are closed or mature. Realized and unrealized gains (losses) arising from such transactions are included in net realized and unrealized gains (losses) on foreign currency transactions. The use of forward currency contracts does not eliminate fluctuations in the prices of the Fund's portfolio securities. While the maximum potential loss from such contracts is the aggregate face value in U.S. dollars at the time the contract was opened, exposure is typically limited to the change in value of the contract (in U.S. dollars) over the period it remains open. The Fund could also be exposed to risk if the counterparties of the contracts are unable to fulfill the terms of the contracts.

REPURCHASE AGREEMENTS

The Fund may engage in repurchase agreement transactions with institutions that the Fund's investment advisor has determined are creditworthy. The Fund, through its custodian, receives delivery of underlying securities collateralizing a repurchase agreement. Collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays or restrictions upon the Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

DELAYED DELIVERY SECURITIES

The Fund may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Fund to subsequently invest at less advantageous prices. The Fund identifies cash or liquid portfolio securities as segregated with the custodian in an amount equal to the delayed delivery commitment.

INCOME RECOGNITION

Interest income is recorded on the accrual basis. Premium and discount are amortized and accreted, respectively, on all debt securities. Corporate actions and dividend income are recorded on the ex-date, except for certain foreign securities which are recorded as soon after ex-date as the Fund becomes aware of such, net of non-reclaimable tax withholdings. The value of additional securities received as an income payment is recorded as income and as the cost basis of such securities.

FOREIGN CURRENCY TRANSACTIONS

The values of all assets and liabilities quoted in foreign currencies are translated into U.S. dollars at that day's exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments.

FEDERAL INCOME TAX STATUS

The Fund intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Fund intends to distribute in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, such that the Fund should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

DISTRIBUTIONS TO SHAREHOLDERS

Distributions to shareholders are recorded on ex-date. Net realized capital

gains, if any, are distributed at least annually.

STATEMENT OF CASH FLOWS

Information on financial transactions which have been settled through the receipt or disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows is the

See Accompanying Notes to Financial Statements.

	\$63,972,841

NOTE 4. FEES AND COMPENSATION PAID TO AFFILIATES

INVESTMENT ADVISORY FEE

Columbia Management Advisors, LLC ("Columbia"), an indirect, wholly-owned subsidiary of Bank of America Corporation ("BOA"), is the investment advisor to the Fund and provides administrative and other services. Columbia receives a monthly investment advisory fee at the annual rate of 0.65% of the Fund's average weekly net assets.

In addition, the Fund shall pay Columbia a monthly fee of 20% of the Fund's monthly "leverage income" (as that term is defined in the management contract). Columbia has voluntarily agreed to waive this fee. In the event that the Fund's monthly leverage income is less than zero, then Columbia shall pay the Fund 20% of the Fund's monthly leverage income.

PRICING AND BOOKKEEPING FEES

Columbia is responsible for providing pricing and bookkeeping services to the Fund under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street"). As a result, Columbia pays State Street the total fees collected under the pricing and bookkeeping agreement.

Under its pricing and bookkeeping agreement with the Fund, Columbia receives an annual fee of \$38,000 paid monthly plus an additional monthly fee based on the level of average daily net assets for the month; provided that during any 12-month period, the aggregate fee, exclusive of out-of-pocket expenses and charges, shall not exceed \$140,000.

The Fund also reimburses Columbia and State Street for out-of-pocket expenses and charges, including fees payable to third parties for pricing the Fund's portfolio securities and direct internal costs incurred by Columbia in connection with providing fund accounting oversight and monitoring and certain other services. For the six months ended May 31, 2006, the annualized effective pricing and bookkeeping fee rate for the Fund, inclusive of out-of-pocket expenses, was 0.127% of the Fund's average daily net assets.

CUSTODY CREDITS

The Fund has an agreement with its custodian bank under which custody fees may be reduced by balance credits. These credits are recorded as a reduction of total expenses on the Statement of Operations. The Fund could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

FEES PAID TO OFFICERS AND TRUSTEES

All officers of the Fund, with the exception of the Fund's Chief Compliance Officer, are employees of Columbia or its affiliates and receive no compensation from the Fund. The Board of Trustees has appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. The Fund, along with other affiliated funds, pays its pro-rata share of the expenses associated with the Chief Compliance Officer. The Fund's expenses for the Chief Compliance Officer will not exceed \$15,000 per year.

The Fund's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Fund's assets.

NOTES TO FINANCIAL STATEMENTS (continued)

May 31, 2006 (Unaudited)

OTHER

Columbia provides certain services to the Fund related to Sarbanes-Oxley compliance. For the six months ended May 31, 2006, the Fund paid \$1,205 to Columbia for such services. This amount is included in "Other expenses" on the Statement of Operations.

NOTE 5. PORTFOLIO INFORMATION

For the six months ended May 31, 2006, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$25,874,074 and \$26,792,351, respectively.

NOTE 6. LOAN AGREEMENT

At May 31, 2006, the Fund had term loans and a revolving loan outstanding with State Street, totaling \$28,500,000. The term loans are comprised of a \$15,000,000 loan which bears interest at 5.08% per annum, due August 25, 2006 and a \$7,000,000 loan which bears interest at 5.20% per annum, due August 24, 2007. The revolving loan is a \$6,500,000 floating rate loan, maturing on August 25, 2006. Interest is charged at a rate per annum equal to the London Interbank Offered Rate plus 0.80%. The interest rate at May 31, 2006 was 5.42%. For the six months ended May 31, 2006, the average daily loan balance was \$28,500,000 at a weighted average interest rate of 5.26%. The Fund is subject to certain covenants including, but not limited to, requirements with respect asset coverage, portfolio diversification and liquidity.

NOTE 7. DISCLOSURE OF SIGNIFICANT RISKS AND CONTINGENCIES

FOREIGN SECURITIES

There are certain additional risks involved when investing in foreign securities that are not inherent with investments in domestic securities. These

risks may involve foreign currency exchange rate fluctuations, adverse political and economic developments and the possible prevention of currency exchange or other foreign governmental laws or restrictions. In addition, the liquidity of foreign securities may be more limited than that of domestic securities.

HIGH-YIELD SECURITIES

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk" bonds. Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent that there is no established secondary market.

INDUSTRY FOCUS

The Fund may focus its investments in certain industries, subjecting it to greater risk than a fund that is more diversified.

LEGAL PROCEEDINGS

On February 9, 2005, Columbia Management Advisors, Inc. (which has since merged into Banc of America Capital Management, LLC (now named Columbia Management Advisors, LLC)) ("Columbia") and Columbia Funds Distributor, Inc. (which has been renamed Columbia Management Distributors, Inc.) (the "Distributor") (collectively, the "Columbia Group") entered into an Assurance of Discontinuance with the New York Attorney General ("NYAG") (the "NYAG Settlement") and consented to the entry of a cease-and-desist order by the Securities and Exchange Commission ("SEC") (the "SEC Order"). The SEC Order and the NYAG Settlement are referred to collectively as the "Settlements". The Settlements contain substantially the same terms and conditions as outlined in the agreements in principle which Columbia Group entered into with the SEC and NYAG in March 2004.

Under the terms of the SEC Order, the Columbia Group agreed, among other things, to pay \$70 million in disgorgement and \$70 million in civil money penalties; cease and desist from violations of the antifraud provisions and certain other provisions of the federal securities laws; maintain certain compliance and ethics oversight structures; retain an independent consultant to review the Columbia Group's applicable supervisory, compliance, control and other policies and procedures; and retain an independent distribution consultant (see below). The Columbia Funds have also voluntarily undertaken to implement certain governance measures designed to maintain the independence of their boards of trustees. The NYAG Settlement also, among other things, requires Columbia and its affiliates to reduce management fees for certain Columbia Funds (including the former Nations Funds) and other mutual funds collectively by \$32 million per year for five years, for a projected total of \$160 million in management fee reductions.

Pursuant to the procedures set forth in the SEC order, the \$140 million in settlement amounts described above will be distributed in accordance with a distribution plan developed by an independent distribution consultant and

approved by the SEC. The independent distribution consultant has been in consultation with the staff of the SEC and has submitted a proposed plan of distribution. The SEC has not yet approved a final plan of distribution.

As a result of these matters or any adverse publicity or other developments resulting from them, the market price of the shares could decline.

A copy of the SEC Order is available on the SEC website at http://www.sec.gov. A copy of the NYAG Settlement is available as part of the Bank of America Corporation Form 8-K filing on February 10, 2005.

In connection with the events described in detail above, various parties have filed suit against certain funds, the Trustees of the Columbia Funds, FleetBoston Financial Corporation and its affiliated entities and/or Bank of America and its affiliated entities.

On February 20, 2004, the Judicial Panel on Multidistrict Litigation transferred these cases and cases against several other mutual fund companies based on similar allegations to the United States District Court in Maryland for consolidated or coordinated pretrial proceedings (the "MDL"). Subsequently, additional related cases were transferred to the MDL. On September 29, 2004, the plaintiffs in the MDL filed amended and consolidated complaints. One of these amended complaints is a putative class action that includes claims under the federal securities laws and state common law, and that names Columbia, the Distributor, the Trustees of the Columbia Funds, Bank of America Corporation and others as defendants. Another of the amended complaints is a derivative action purportedly on behalf of the Columbia Funds that asserts claims under federal securities laws and state common law.

On February 25, 2005, Columbia and other defendants filed motions to dismiss the claims in the pending cases. On March 1, 2006, for reasons stated in the court's memoranda dated November 3, 2005, the U.S. District Court for the District of Maryland granted in part and denied in part the defendants' motions to dismiss. The court dismissed all of the class action claims pending against the Columbia Funds Trust and the Columbia Acorn Trust. As to Columbia and the Distributor, the claims under the Securities Act of 1933, the claims under Sections 34(b) and 36(a) of the Investment Company Act of 1940 ("ICA") and the state law claims were dismissed. The claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and claims under Section 36(b) of the ICA along with related claims under Section 36(a) of the ICA were not dismissed.

On March 21, 2006, a purported class action was filed in Massachusetts state court alleging that the conduct, including market timing, entitles Class B shareholders in certain Columbia funds to an exemption from contingent deferred sales charges upon early redemption ("the CDSC Lawsuit"). The CDSC Lawsuit has been removed to federal court in Massachusetts and the federal Judicial Panel has transferred the CDSC Lawsuit to the MDL.

The MDL is ongoing. Accordingly, an estimate of the financial impact of this litigation on any fund, if any, cannot currently be made.

In 2004, certain Columbia funds, the Trustees of the Columbia Funds, advisers

and affiliated entities were named as defendants in certain purported shareholder class and derivative actions making claims, including claims under the Investment Company and the Investment Advisers Acts of 1940 and state law. The suits allege, inter alia, that the fees and expenses paid by the funds are excessive and that the advisers and their affiliates inappropriately used fund assets to distribute the funds and for other improper purpose. On March 2, 2005, the actions were consolidated in the Massachusetts federal court as In re Columbia Entities Litigation. The plaintiffs filed a consolidated amended complaint on June 9, 2005. On November 30, 2005, the judge dismissed all claims by plaintiffs and ordered that the case be closed. The plaintiffs filed a notice of appeal on December 30, 2005 and this appeal is pending.

DIVIDEND REINVESTMENT PLAN

COLONIAL INTERMEDIATE HIGH INCOME FUND

The Fund generally distributes net investment income monthly and capital gains annually. Under the Fund's Dividend Reinvestment Plan (the "Plan") all distributions will be reinvested automatically in additional shares of the Fund, unless the shareholder elects to receive cash or the shares are held in broker or nominee name and a reinvestment service is not provided by the broker or nominee. All cash distributions will be mailed by check directly to the record holder by the dividend paying agent.

If the market price of the shares on the distribution payment date is equal to or greater than the net asset value, Plan participants will be issued shares at the higher of net asset value or 95% of the market price. The aggregate market value of the shares may constitute income to shareholders for federal income tax purposes. However, if the market price of the shares is less than the net asset value, shares will be bought as soon as practicable (but no more than 30 days after the distribution, except as may be required to comply with federal securities laws) in the open market for the accounts of Plan participants. If, during this purchase period, the market price surpasses the net asset value, the average per share price paid may exceed the asset value of the shares, resulting in the acquisition of fewer shares than if the distribution had been in newly-issued shares.

All Plan accounts receive written confirmations of all transactions. Shares purchased under the Plan are held in uncertificated form. Each shareholder's proxy includes shares purchased pursuant to the Plan. The automatic reinvestment of distributions does not relieve participants of any income tax payable on the distributions.

Fees and expenses of the Plan other than brokerage charges will be paid by the

Fund. No brokerage charges are incurred on shares issued directly by the Fund. Participants will bear a pro-rata share of brokerage charges incurred on open market purchases.

A Plan participant may terminate his or her participation by written notice to the Plan agent. The Plan may be amended or terminated on 90 days written notice to the Plan participants. Contact the Plan Agent for additional information regarding the Plan. All correspondence concerning the Plan should be directed to Computershare, the Plan agent, by mail at P.O. Box 43010, Providence, RI 02940-3010 or by phone at 1-800-730-6001.
