1. Organization and Significant Accounting Policies

LMP Corporate Loan Fund Inc. (formerly known as Citigroup Investments Corporate Loan Fund Inc.) (the Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act).

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP).

(a) Investment Valuation. U.S. government agency obligations are valued at the mean between the quoted bid and asked prices. Securities traded on national securities markets are valued at the closing price on such markets. Securities traded in the over-the-counter market and listed securities for which no sales prices were reported are valued at the mean between the quoted bid and asked prices. Securities listed on the NASDAQ National Market System for which market quotations are available are valued at the official closing price or, if there is no official closing price on that day, at the last sale price. Collateralized senior loans are valued at readily ascertainable market values provided by an independent pricing service. Securities for which market quotations are not available are valued in good faith at fair value by or under the direction of the Board of Directors. In fair valuing a loan, Legg Mason Partners Fund Advisor, LLC (LMPFA), the Fund s investment manager, a wholly-owned subsidiary of Legg Mason, Inc. (Legg Mason), with the assistance of Citigroup Alternative Investments LLC (CAI), the Fund s sub-adviser, will consider among other factors: (1) the creditworthiness of the borrower and any party interpositioned between the Fund and the borrower; (2) the current interest rate, period until next interest rate reset and maturity date of the collateralized senior loan; (3) recent market prices for similar loans, if any; and (4) recent prices in the market for instruments with similar quality, rate, period until next interest rate reset, maturity, terms and conditions. LMPFA may also consider prices or quotations, if any, provided by banks, dealers or pricing services which may represent the prices at which secondary market transactions in the collateralized senior loans held by the Fund have or could have occurred. Short-term obligations maturing within 60 days are valued at amortized cost, which approximates market value.

(b) Security Transactions. Security transactions are accounted for on a trade date basis.

2. Investments

At December 31, 2006, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 1,543,837
Gross unrealized depreciation	(1,444,776)
