INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Q: Why did you send me this Proxy Statement?

A: We sent you this Proxy Statement and the enclosed proxy card because the Board of Directors of the Company (the Board or the Board of Directors) is soliciting your proxy to vote at the 2007 Annual Meeting of Shareholders (the Annual Meeting). The Annual Meeting will be held at the Meydenbauer Center, 11100 NE 6th Street, Bellevue, Washington 98004 on June 13, 2007, at 9:00 a.m.

This Proxy Statement summarizes the information regarding the matters to be voted upon at the Annual Meeting. You do not need to attend the Annual Meeting, however, to vote your shares. You may simply complete, sign, and return the enclosed proxy card or vote your shares by telephone or over the Internet in accordance with the instructions contained on the proxy card.

On April 10, 2007 there were 43,390,000 shares of common stock of the Company outstanding. If you owned shares of our common stock at the close of business on the record date, you are entitled to one vote for each share of common stock you owned as of that date. We began mailing this Proxy Statement on or about April 30, 2007 to all shareholders entitled to vote their shares at the Annual Meeting.

Q: How many votes do I have?

A: You have one vote for each share of common stock that you owned on the record date. The proxy card will indicate the number of shares.

Q: How do I vote by proxy?

A: If you properly cast your vote by either executing and returning the enclosed proxy card or by voting your proxy by telephone or via the Internet, and your vote is not subsequently revoked by you, your vote will be voted in accordance with your instructions. If you sign the proxy card but do not make specific choices, your proxy will vote your shares as recommended by the Board as follows:

FOR the election of each of the nominees for director, and

FOR ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm. If any other matter is presented, your proxy will vote in accordance with his best judgment. At the time we printed this Proxy Statement, we knew of no matters that needed to be acted on at the Annual Meeting other than those discussed in this Proxy Statement.

Q: May my broker vote for me?

A: Under the rules of the National Association of Securities Dealers, if your broker holds your shares in its street name, the broker may vote your shares on routine matters even if it does not receive instructions from you. At the Annual Meeting your broker may, without instructions from you, vote on Proposal 1 and Proposal 2.

Q: What are abstentions and broker non-votes?

A: An abstention represents the action by a shareholder to refrain from voting for or against a proposal. Broker non-votes represent votes that could have been cast on a particular matter by a broker, as a shareholder of record, but that were not cast because the broker (i) lacked discretionary voting authority on the matter and did not receive voting instructions from the beneficial owner of the shares or (ii) had discretionary voting authority but nevertheless refrained from voting on the matter.

Table of Contents

Q: May I revoke my proxy?

A: Yes. You may change your mind after you send in your proxy card or vote your shares by telephone or via the Internet by following these procedures. To revoke your proxy:

Send in another signed proxy card with a later date;

Send a letter revoking your proxy to Microvision's Secretary at the Company's offices in Redmond, Washington;

Vote again by telephone or Internet; or

Attend the Annual Meeting and vote in person.

Q: How do I vote in person?

A: If you plan to attend the Annual Meeting and vote in person, we will give you a ballot when you arrive. If your shares are held in the name of your broker, bank, or other nominee, you must bring an account statement or letter from that broker, bank, or nominee. The account statement or letter must show that you were the direct or indirect beneficial owner of the shares on April 23, 2007, the record date for voting. Alternatively, you may contact the person in whose name your shares are registered and obtain a proxy from that person and bring it to the Annual Meeting.

Q: What is the quorum requirement for the meeting?

A: The quorum requirement for holding the meeting and transacting business is a majority of the outstanding shares entitled to be voted. The shares may be present in person or represented by proxy at the meeting. Both abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

Q: What vote is required to approve the election of directors?

A: The six nominees for director who receive the most votes will be elected. So, if you do not vote for a nominee, or you withhold authority to vote for a nominee, your vote will not count either for or against the nominee. Abstentions and broker non-votes will have no effect on the outcome of voting for directors.

Q: What vote is required to ratify the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm?

A: The selection of PricewaterhouseCoopers LLP will be ratified if the number of votes cast in favor of this proposal exceeds the number of votes cast against this proposal. Abstentions and broker non-votes will not be counted for or against the proposal and will have no effect on the outcome of the vote.

Q: Is voting confidential?

A: We keep all the proxies and ballots private as a matter of practice.

Q: What are the costs of soliciting these proxies?

A: The Company will pay all the costs of soliciting these proxies. In addition to the solicitation of proxies by mail, our officers and employees also may solicit proxies by telephone, fax or other electronic means of communication, or in person. We will reimburse banks, brokers, nominees, and other fiduciaries for the expenses they incur in forwarding the proxy materials to you.

Q: Who should I call if I have any questions?

A: If you have any questions about the Annual Meeting, voting or your ownership of Microvision common stock, please call us at (425) 882-6794 or send an e-mail to ir@microvision.com.

Table of Contents

Board Meetings and Committees

The Board of Directors met six times during 2006. All directors attended at least 75% of the aggregate meetings of the Board and meetings of the Board committees on which they served. Alexander Tokman joined the Board of Directors in January 2006, Marc Onetto joined the Board of Directors in March 2006, Jeanette Horan joined the Board of Directors in June 2006 and Brian Turner joined the Board of Directors in July 2006. The Board also approved certain actions by unanimous written consent. The Company has adopted a policy that each of the Company's Directors be requested to attend the Company's Annual Meeting each year. All directors attended the Company's Annual Meeting in 2006.

Independence Determination

No director will be deemed to be independent unless the Board affirmatively determines that the director has no material relationship with the Company, directly or as an officer, share owner, or partner of an organization that has a relationship with the Company. The Board observes all criteria for independence set forth in the Nasdaq listing standards and other governing laws and regulations.

In its annual review of director independence, the Board considers all commercial, banking, consulting, legal, accounting, charitable, or other business relationships any director may have with the Company. As a result of its annual review, the Board has determined that all of the directors, with the exception of Alexander Tokman, are independent (the Independent Directors). The Independent Directors are identified by an asterisk on the table above.

The Nasdaq listing standards have both objective tests and a subjective test for determining who is an independent director. The objective tests state, for example, that a director is not considered independent if he or she is an employee of the company or is a partner in or executive officer of an entity to which the Company made, or from which the Company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenue for that year. The subjective test states that an independent director must be a person who lacks a relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. None of the non-employee directors were disqualified from independent status under the objective tests. In assessing independence under the subjective test, the Board took into account the standards in the objective tests, and reviewed and discussed additional information provided by the directors and the Company with regard to each director's business and personal activities as they may relate to the Company and the Company's management. Based on all of the foregoing, as required by Nasdaq rules, the Board made a subjective determination as to each independent director that no relationships exists which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board has not established categorical standards or guidelines to make these subjective determinations, but considers all relevant facts and circumstances.

In addition to the Board-level standards for director independence, the directors who serve on the Audit Committee each satisfy standards established by the SEC providing that to qualify as independent for the purposes of membership on that Committee, members of audit committees may not accept directly or indirectly any consulting, advisory, or other compensatory fee from the Company other than their director compensation.

Committees

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The Board of Directors has adopted a written charter for each of these Committees. The full text of each charter is available on the Company's website located at www.microvision.com.

A nominating shareholder or group of nominating shareholders may submit only one candidate for consideration. The Nominating and Corporate Governance Committee will also take into account the ability of a director to devote the time and effort necessary to fulfill his or her responsibilities.

Table of Contents

Pursuant to the Independent Director Stock Option Plan (the "Director Plan"), each Independent Director is granted a nonstatutory option to purchase 15,000 shares of common stock on the date on which he or she is first elected or appointed to the Board of Directors. These options are fully vested and immediately exercisable upon the date of grant. Each Independent Director also receives, upon his or her initial appointment or election and upon each subsequent reelection to the Board of Directors, an option to purchase 15,000 shares that will vest in full on the earlier of (i) the day prior to the date of the Company's annual meeting of shareholders next following the date of grant, or (ii) one year from the date of grant, provided the Independent Director continues to serve as a director on the vesting date. If an Independent Director ceases to be a director for any reason other than death or disability before his or her term expires, then any outstanding unvested options issued under the Director Plan to such Independent Director will be forfeited. Options vested as of the date of termination for any reason other than death or disability are exercisable through the date of expiration. The exercise price for each option is equal to the closing price of the Company's common stock as reported on the Nasdaq Global Market on the date of grant. The options generally expire on the tenth anniversary of the date of grant.

In addition, each Independent Director receives the following cash compensation for his or her service as a director:

Proposal Two Ratification of the Selection of Independent Registered Public Accounting Firm

The Audit Committee of the Board of Directors has selected PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the current fiscal year, subject to ratification by the Company's stockholders at the Annual Meeting. The Company has been advised by PricewaterhouseCoopers that it is a registered public accounting firm with the Public Company Accounting Oversight Board (the PCAOB) and complies with the auditing, quality control, and independence standards and rules of the PCAOB and the SEC. A representative of PricewaterhouseCoopers LLP is expected to be present at the Annual Meeting to respond to appropriate questions and to make a statement if he or she so desires.

Although stockholder ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm is not required, the Board of Directors is nevertheless submitting the selection of PricewaterhouseCoopers LLP to the stockholders for ratification. Unless contrary instructions are given, shares represented by proxies solicited by the Board of Directors will be voted for the ratification of the

selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Company for the year ending December 31, 2007. Should the selection of PricewaterhouseCoopers LLP not be ratified by the stockholders, the Audit Committee will reconsider the matter. Even in the event the selection of PricewaterhouseCoopers LLP is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change is in the best interests of the Company and its stockholders.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Compensation Objectives

The Company's executive compensation program is designed to attract, retain and motivate executive officers capable of leading the Company to achieve its business objectives. The Compensation Committee is responsible for and oversees the Company's compensation program. The Company's philosophy is to provide compensation programs that incentivize and reward both the short and long-term performance of the executive officers relative to the Company's performance against its business objectives. Thus, the Committee utilizes compensation components that measure execution against the Company's annual strategic operating plan, which contains the Company's business objectives. In addition, the Compensation Committee seeks to align the interests of the Company's executive officers with its shareholders.

Executive Compensation Components

Overview. The principal elements of the Company's compensation are base salary, incentive bonus awards, and stock options. Individual performance, performance of the Company and current market conditions are the key factors in determining how much of each of these elements to award to an executive officer. The Company's executive compensation policy recognizes that stock price is only one measure of performance, and given industry business conditions and the long-term strategic direction and goals of the Company, it may not necessarily be the best current measure of executive performance. Thus, the Compensation Committee also considers the achievement of the Company's business objectives when determining executive compensation. Individual performance is evaluated based on the executive's contribution to the Company's achievement of its strategic plan and evidence of the executive's adherence to the Company's core values and mission. To this end, the Company calculates a performance score for each executive officer to determine the allocation of the principal elements of compensation.

The Compensation Committee uses Equilar, Inc. as a primary source for market data on executive compensation. The Compensation Committee uses data from Equilar, which is based on a survey of proxy statements of public companies in the Pacific Northwest with market capitalizations between \$50 and \$250 million in order to establish a comparable group of companies. The Compensation Committee also examines data from the Radford Benchmark Survey for technology companies located throughout the nation, with the exception of California, and with revenues between \$50 and \$200 million. The Radford Benchmark Study allows the Committee to be informed of nationwide trends. The Compensation Committee considers these surveys as one of several factors in establishing the total cash compensation portion of the executive officers' compensation. The survey is also used as one factor in determining the levels of long-term incentive targets. Other factors considered by the Company are the Company's performance in the previous year as well as the Company's goals in the coming year.

Base Salary. Base salaries for executive officers are set at levels believed by the Compensation Committee to be sufficient to attract and retain qualified executive officers based on the market practices of other companies. A change in base salary of an executive officer is based on an evaluation of the performance of the executive, the executive's placement in the Company's ranking of talent and of the performance of the Company as a whole. In determining base salaries, the Compensation Committee not only considers the short term performance of the Company, but also the success of the executive officers in developing and executing the Company's strategic plans, developing management employees and exercising leadership in the development of the Company.

Incentive Bonus. The Compensation Committee believes that a portion of the total compensation, an incentive bonus, for executive officers should be based on the Company's success in meeting its short-term performance objectives that enable the Company to meet its long-term objectives. It has structured the executive compensation program to reflect this philosophy. The award of an incentive bonus creates an incentive for

Table of Contents

executive officers to achieve desired short-term corporate goals which are in furtherance of the Company's long term objectives. The Compensation Committee believes that the tie between a significant portion of each executive officer's annual compensation as an incentive bonus and the contingent nature of that compensation provides an incentive to the executive officer to execute on both the short and long-term goals of the Company.

Stock Options. The Compensation Committee believes that equity participation is a key component of the Company's executive compensation program. These awards are designed to attract and retain executive officers and to motivate them to enhance shareholder value by aligning the financial interests of executive officers with those of shareholders. Stock options are awarded by the Compensation Committee to executive officers primarily based on their responsibilities and expected contributions to the Company's growth and development.

Base Salary

Base salaries for the named executive officers are established based on the scope of their responsibilities, taking into account competitive market compensation paid by other companies in the Company's peer group for similar positions. As with total executive compensation, the Compensation Committee believes that executive base salaries should generally target the fiftieth to seventy-fifth percentile of the range of salaries for executives in similar positions and with similar responsibilities. Each named executive officer's base salary is also determined by reviewing the other components of the executive officer's compensation to ensure that the total compensation is in line with the Compensation Committee's overall compensation philosophy.

Based on the compensation objectives mentioned above and Alexander Tokman's Chief Operating Officer employment agreement, Mr. Tokman's base salary for 2006 was \$315,000. The Compensation Committee noted Mr. Tokman had not received a base salary increase in connection with his promotion from Chief Operating Officer to Chief Executive Officer in January 2006. The base salaries for Jeff Wilson, Todd McIntyre, Thomas Walker, Ian Brown and Stephen Willey were \$185,349, \$213,750, \$198,450, \$147,176 and \$250,335, respectively. Richard Rutkowski and Richard Raisig's employment with the Company terminated on January 13, 2006, so they received only \$37,468 and \$28,404, respectively.

Incentive Bonus

Each of the named executive officers is eligible for an annual incentive bonus. The amount of the bonus depends on the level of achievement of the stated Company performance goals, with a target set as a percentage of base salary. The Compensation Committee approves the target bonus percentages and the actual bonus awards for all executive officers, except the Chief Executive Officer. The Compensation Committee makes a recommendation to the full Board regarding the Chief Executive Officer. Executive officers have target bonuses at a higher percentage of base salary. Non-executive employees have target bonuses at a lower percentage of base salary, with their actual bonus awards dependent on both individual performance and the Company's performance. In 2006, the Compensation Committee approved the following target bonus awards (as a percentage of base salary): Alexander Tokman, 50%, and the other named executive officers, ranging up to 40%. The amount of the target bonus actually awarded to executives is determined by the Company's performance. In its discretion, the Compensation Committee may, however, award bonus payments to the named executive officers below the amounts determined using these calculations.

The performance goals under the Company's Incentive Bonus Plan arise from the business objectives set forth in the Company's operating plan. In 2006, the business objectives, which were previously publicly announced included: (1) focusing on vital OEM product development growth opportunities, particularly in automotive head-up display (HUD) and two consumer display applications; (2) realigning and restructuring the Company to improve organizational effectiveness and culture; (3) improving quality and customer satisfaction; (4) substantially decreasing the burn rate and reducing the net operating loss by thirty percent; and (5) growing product revenue and margins. The target bonus payout requires very high levels of Company performance, which the Compensation Committee believes are possible but difficult to meet. In general, the Committee believes that

Table of Contents

in 2006 the executive officers strongly performed against the stated turnaround goals of the Company and in building an operational foundation for future growth, but did not fully achieve the financial objectives. Specifically, the Committee determined that the executive officers substantially achieved the objectives relating to the first three goals listed above. It also determined that internal objectives relating to cutting base costs, which was a component of the fourth goal, were achieved. However, the Committee determined that the fifth goal relating to revenue objectives was not met and this affected efforts to meet fully the fourth goal of reducing the Company's burn rate.

Based upon level of success in meeting the stated performance objectives, the Compensation Committee recommended to the Board, and the Board approved, an incentive bonus for Alexander Tokman of \$78,750. The Compensation Committee awarded Jeff Wilson, Thomas Walker and Ian Brown bonuses of \$38,070, \$40,040 and \$34,000, respectively. None of Richard Rutkowski, Richard Raisig, Todd McIntyre or Stephen Willey received a bonus.

While the above amounts were approved by the Compensation Committee, the Board recommended that the Committee grant one-half of the incentive bonus in cash, with the remaining half to be paid in additional stock option awards in an amount equal to one-half of the incentive bonus divided by the value of the stock option, calculated using the Black-Scholes option pricing model, and determined to be \$2.50 per share based upon the average price of the Company's stock for the week of January 29, 2007. The exercise price of the options was the closing market price of the Company's common stock on the Nasdaq Global Market on the grant date. The options vest 25% upon the first anniversary of the grant date and 25% upon each subsequent anniversary. Consequently, Alexander Tokman, Jeff Wilson, Thomas Walker and Ian Brown were awarded 15,750, 7,614, 8,008 and 6,800 stock options, respectively, for the one-half non-cash component of the incentive bonus. The cash amount of the incentive bonus paid to Alexander Tokman, Jeff Wilson, Thomas Walker and Ian Brown was \$39,375, \$19,035, \$20,020 and \$17,000, respectively.

Stock Options

The Compensation Committee's practice is to make annual equity awards as part of its overall philosophy of performance based compensation. The Compensation Committee believes that incentive stock options provide the named executive officers with a strong incentive for long-term corporate performance and creating stockholder value. Because vesting of the stock awards is based on continued employment, the award of stock options also facilitates the retention of employees through the term of the awards. The Compensation Committee believes that stock options are a tool for meeting the Company's objective of increasing long-term shareholder value by tying the value of stock options to the Company's future performance, as employees are only able to profit from stock options if the Company's stock price increases in value over the stock option's exercise price. The Compensation Committee considers its peer group in setting the level of equity awards. When the amount of base salary is determined, a review of all components of the compensation is conducted to ensure that a named executive officer's total compensation complies with the Compensation Committee's overall philosophy and objectives and is competitive with the Company's peer group.

The stock options awarded to the named executive officers in 2006 were granted under, and subject to, the 2006 Incentive Plan (prior to September 21, 2006, stock options were granted under the 1996 Stock Option Plan), and typically vest 25% upon the first anniversary of the date of grant and 25% upon each subsequent anniversary. The exercise price is the closing sale price of the Company's common stock on the Nasdaq Global Market on the date of the grant. The option awards expire 10 years from the date of grant, and optionees who terminate their service after vesting have a limited time to exercise their options (typically three to twelve months). The options also contain a provision for acceleration of exercisability of all unvested options in the event of a change in control of the Company.

In 2006, Mr. Tokman was awarded 680,000 stock options under the 2006 Incentive Plan. This number of stock options was awarded to Mr. Tokman following his promotion to Chief Executive Officer and increased his equity holdings to a level more comparable with equity holding levels generally for chief executive officers of

Table of Contents

public companies. The award was also made consistent with the Committee's belief that stock options provide an executive with a strong incentive for long-term corporate performance and creating stockholder value. The exercise price for 300,000 of the stock options was set 30% higher than the other 380,000 options to create an additional incentive for long-term company performance and both exercise prices were higher than the closing market price of the Company's common stock on the Nasdaq Global Market on the date of grant. In addition, Jeff Wilson, Thomas Walker, Ian Brown, Todd McIntyre and Stephen Willey were awarded 10,000, 40,000, 50,000, 30,000 and 30,000 stock options, respectively. Neither Richard Rutkowski nor Richard Raisig received a stock option award.

Tax Deductibility of Compensation

Limitations on the deductibility of compensation may occur under Section 162(m) of the Internal Revenue Code of 1986, which generally limits a public company's tax deduction for compensation paid to its named executive officers to \$1 million in any year. In addition, Section 162(m) specifically exempts certain performance-based compensation from the deduction limit. It is the intent of the Compensation Committee to have the Company's compensation program be deductible without limitation. However, the Compensation Committee will take into consideration various other factors, together with Section 162(m) considerations, in making executive compensation decisions and could, in certain circumstances, approve and authorize compensation that is not fully tax deductible.

Processes and Procedures

Role of the Compensation Committee and the Chief Executive Officer in the Compensation Process. The Chief Executive Officer, with the assistance and support of the human resources department, provides recommendations regarding the compensation of the executive officers, including himself. The Compensation Committee considers these recommendations and consults with the Chief Executive Officer. However, the Compensation Committee also considers its philosophy and objectives and survey market data in approving these recommendations. The Compensation Committee makes a recommendation on the Chief Executive Officer's compensation to the full Board of Directors, who then has the authority to approve it.

Role of Compensation Consultants in the Compensation Process. The Compensation Committee does not currently employ a compensation consulting firm, although its charter provides the Committee with the authority to retain such a consulting firm in its discretion.

Compensation Committee Report

The Compensation Committee has reviewed and discussed this Compensation Discussion and Analysis with management. Based on the review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement for filing with the Securities and Exchange Commission.

- (1) Unless otherwise noted, all option awards were granted with an exercise price equal to the closing price of the Company's common stock on the Nasdaq Global Market on the date of grant, vest 25% in annual installments beginning on the first anniversary of the date of grant and expire ten years after the date of grant.
- (2) Reflects the fair value of option awards on the date of grant in accordance with FAS 123(R).
- (3) The closing price of the Company's common stock on the Nasdaq Global Market on the date of grant was \$3.18. Mr. Tokman was granted 380,000 options with an exercise price of \$3.43, equal to the exercise price of the grant made to the other executive officers on April 5, 2006, and 300,000 options as a step-up grant with an exercise price of \$4.46.
- (4) The indicated options were repriced via an exchange for outstanding options. The new options vest 25% on the grant date and 25% on each subsequent anniversary. The new options have the same expiration date as the options exchanged. The amount indicated reflects the incremental fair value of the new options, computed as of the grant date of May 17, 2006, in accordance with FAS 123(R). In connection with the option exchange, 300,000 options granted to Mr. Tokman on July 13, 2005 that were not subject to the option exchange were adjusted to an exercise price of \$2.77. The vesting terms and expiration date of this option award remained unchanged. The stock option exchange is discussed in further detail in footnote 13 to the Company's audited financial statements filed with its Annual Report on Form 10-K for fiscal 2006.
- (5) Non-equity incentive plan awards earned in 2006 were paid out one-half in cash and one-half in additional stock option awards, as further discussed under the heading "Incentive Bonus" in the Compensation Discussion and Analysis above. Non-equity incentive plan awards are made under the Company's Incentive Bonus Plan. The performance goals under the Company's Incentive Bonus Plan arise from the business objectives set forth in the Company's operating plan. The business objectives included restructuring the business, implementing new communication and financing strategies, improving the Company's operating strategies, growing revenues and margins, and improving customer service and satisfaction. The Compensation Committee sets the target performance criteria at a level which it believes is challenging, yet achievable by the Company. The target bonus payout requires very high levels of Company performance, which the Compensation Committee believes are possible but difficult to meet. The awards are discussed in more detail under the heading "Incentive Bonus" in the Compensation Discussion and Analysis above.

Option Exercises and Stock Vested During Fiscal 2006

The Company's named executive officers did not exercise any stock options during fiscal 2006.

Potential Payments upon Termination or Change in Control

All of the Company's named executive officers, except for Alexander Tokman, are employed at will and do not have employment agreements. Mr. Tokman's employment agreement is summarized below. Under the 2006 Microvision, Inc. Incentive Plan, 100% of each of the named executive officers' options which have not been exercised will become fully vested and immediately exercisable upon a change of control of the Company. The following table sets forth aggregate estimated payment obligations to each of the Company's named executive officers assuming a termination without cause, or a change in control, occurred on December 31, 2006.

Name	Payments Due in Connection with a Termination of Employment without Cause or for Good Reason	Payments Due in Connection with a Change in Control and Termination of Employment without Cause or for Good Reason (1)	Payments Due in Connection with Change in Control (1)
Alexander Tokman	\$ 789,594	\$ 949,205	\$ 126,000
Jeff T. Wilson			63,268
Thomas M. Walker			50,400
Todd R. McIntyre			100,560
Ian D. Brown			
Stephen R. Willey			245,705
Richard Rutkowski (2)	0		
Richard Raisig (2)	145,768		

(1) The Company used the following assumptions to calculate these payments:

The Company included the estimated intrinsic value of accelerating any award of stock options that is accelerated upon a change in control. In the case of a change in control, the Company assumed that all such awards would be cashed out at closing using the closing price of the Company's common stock on the Nasdaq Global Market on December 31, 2006, which was \$3.19 per share. See the table titled "Outstanding Equity Awards at Fiscal Year-End 2006" for information regarding unvested equity awards.

(2) Since a triggering event actually occurred in 2006 with respect to Mr. Rutkowski and Mr. Raisig, the payments due on a termination of employment without cause or for good reason are the actual amounts paid in connection with their termination.

Employment Agreement

Payment upon Termination. Under Mr. Tokman's employment agreement with the Company dated July 18, 2005, if he dies, becomes disabled, retires, terminates his employment other than for good reason or is terminated by the Company for cause, he will be provided his earned but unpaid base salary, earned but unused vacation time, any bonus compensation for the prior year which is unpaid on the date of termination, and any business expenses which have not yet been reimbursed by the Company. If the Company terminates him other than for cause, or if he terminates his employment for good reason, he will receive, in addition to the amounts listed in the foregoing sentence, his base salary for 18 months following the date of his termination, plus an amount equal to his target bonus, and the Company will continue to pay certain group medical and dental

Table of Contents

expenses in that 18-month period. The Company does not accelerate the vesting of equity incentives for its executive officers in the event of a termination of employment. In the event of a change in control of the Company, all unvested stock options vest upon the change in control, and the Compensation Committee has the discretion to remove the vesting restrictions on all unvested restricted shares.

In determining whether a termination occurred with or without cause, cause is deemed to exist under Mr. Tokman's employment agreement when there is a repeated willful failure to perform or gross negligence in the performance of his duties; fraud, embezzlement or other dishonesty with respect to the Company; a material breach of his obligations of confidentiality, non-competition, or non-solicitation against the Company; or commission of a felony or other crime involving moral turpitude.

In determining whether Mr. Tokman has good reason to terminate his employment, good reason is deemed to exist when: the Company has failed to continue him in a certain position; there is a substantial diminution in the nature and scope of his responsibilities; there is a material failure of the Company to provide him with base salary and benefits, excluding an inadvertent failure which is cured within a certain time period; or his office is relocated more than thirty-five miles from the then-current location of the Company's principal offices without his consent.

Payment upon a Change in Control. In the event of a change of control and the Company terminates Mr. Tokman's employment other than for cause within two years following a change of control or Mr. Tokman terminates his employment for good reason within six months following a change of control, the Company must pay Mr. Tokman an amount equal to two times the sum of one year of base salary plus a payment equal to his target bonus. The foregoing amount will be paid in a single lump sum. The Company must also pay the full cost of Mr. Tokman's continued participation in the Company's group health and dental plans for two years or, if less, for so long as he remains entitled to continue such participation under applicable law. In addition, 100% of his options which have not been exercised and have not expired or been surrendered or cancelled, will become exercisable in accordance with the applicable option agreement.

The obligation of the Company to pay the severance amounts mentioned in this *Payments upon a Termination or Change in Control* section are subject to Mr. Tokman signing an employee release. Also, Mr. Tokman must comply with certain confidential information and assignment of intellectual property obligations. Further, Mr. Tokman is subject to a non-compete and non-solicit obligation for 12 months following his termination.

AUDIT COMMITTEE REPORT

Role of the Audit Committee

The Audit Committee operates under a written charter adopted by the Board of Directors. The Audit Committee's primary role is to assist the Board of Directors in its general oversight of the Company's financial reporting, internal controls, and audit functions. The Audit Committee provides advice, counsel and direction to management and the auditors on the basis of the information it receives and discussions with management and the auditors. The Audit Committee is also responsible for overseeing the engagement and independence of the Company's independent auditors.

Among other matters, the Audit Committee monitors the activities and performance of the Company's external auditors, including the audit scope, external audit fees, auditor independence matters and the extent to which the independent auditor may be retained to perform non-audit services. The Audit Committee and the Board of Directors have ultimate authority and responsibility to select, evaluate and, when appropriate, replace the Company's independent auditor. The Audit Committee also reviews the results of the external audit work with regard to the adequacy and appropriateness of the Company's financial, accounting and internal controls. Management and independent auditor presentations to and discussions with the Audit Committee also cover various topics and events that may have significant financial impact or are the subject of discussions between management and the independent auditor. In addition, the Audit Committee generally oversees the Company's internal financial controls and financial disclosure procedures.

Membership

The Audit Committee is composed of three non-employee directors (Messrs. Cowell and Turner and Ms. Horan), each of whom is an Independent Director under the rules of the Nasdaq listing standards governing the qualifications of audit committees.

Review of the Company's Audited Financial Statements

The Audit Committee has reviewed and discussed the audited consolidated financial statements of the Company for the fiscal year ended December 31, 2006 with the Company's management, and management represented to the Audit Committee that the Company's consolidated financial statements were prepared in conformity with generally accepted accounting principles. The Audit Committee has discussed with PricewaterhouseCoopers LLP, the Company's independent auditors for the fiscal year ended December 31, 2006, the matters required to be discussed by Statement of Auditing Standards No. 61, as amended (Communication with Audit Committees). The Audit Committee also reviewed with the independent auditors their judgments as to the quality and the acceptability of the Company's accounting principles and such other matters as are required to be discussed with audit committees under generally accepted accounting standards.

The Audit Committee received from PricewaterhouseCoopers LLP the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees) and discussed with the firm its independence. Based on the review and discussions noted above, and subject to the limitations on the role and responsibilities of the Audit Committee referred to below and in the Charter of the Audit Committee, the Audit Committee recommended to the Board of Directors that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006 for filing with the SEC.

Limitations on Role and Responsibilities of Audit Committee and Use and Application of Audit Committee Report

Management is responsible for the Company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted

Table of Contents

accounting principles. The Company's independent auditors, PricewaterhouseCoopers LLP, are responsible for auditing those financial statements. The Audit Committee is responsible for monitoring and reviewing these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures. Audit Committee members are not employees of the Company and are not, and do not represent themselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditors included in their report on the Company's financial statements. The Audit Committee's oversight does not provide the Audit Committee with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that PricewaterhouseCoopers LLP is in fact independent.

This report of the Audit Committee shall not be deemed to be incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference.
