**Chunghwa Telecom Reports its Operating Results for the First Quarter of 2008**

**Taipei, Taiwan, R.O.C. April 29, 2008** - Chunghwa Telecom Co., Ltd (TAIEX: 2412, NYSE: CHT) ( Chunghwa or the Company ), today reported its operating results for the first quarter of 2008. All figures are presented on consolidated basis and prepared in accordance with generally accepted accounting principles in the Republic of China ( ROC GAAP ).

Beginning in 2008, the Company reports its financial results in ROC GAAP only and provides reconciliations between ROC GAAP and generally accepted accounting principles in the United States ( US GAAP ) of net income and stockholders' equity to holders of American Depositary Shares (the ADSs ) listed on the New York Stock Exchange ( NYSE ). The consolidated financial statements under ROC GAAP will be prepared every quarter, and the Company plans to publish reconciliation information every quarter in the year of 2008. For more information on the Company's change of the reporting principles from US GAAP to ROC GAAP, please refer to the Form 6-K filed with the Securities and Exchange Commission of the United States (the SEC ) on April 25, 2008 (File No. 001-31731).

*(Comparisons, unless otherwise stated, are with respect to the prior year period)*

**Financial Highlights for 1Q08:**

- Total revenue increased by 12.1% to NT\$51.0 billion
- Internet and data revenue grew 2.9% to NT\$12.5 billion; ADSL & FTTB revenue increased by 2.3% to NT\$5.1 billion
- Mobile revenue grew 0.3% to NT\$18.1 billion; Mobile VAS revenue increased by 35.3%
- Net income totaled NT\$10.7 billion, representing a decrease of 11.4%
- Earnings per share ( EPS ) decreased by 1.8% to NT\$1.12

**Revenue**

Chunghwa's total revenue for the first quarter of 2008 increased by 12.1%, as compared with the first quarter of 2007, to NT\$51.0 billion, of which 28.3% was from fixed-line services, 35.6% was from mobile services, 24.6% was from Internet and data services, and the remainder was mainly from handset sales from our subsidiary SENA O on a consolidated basis.

Chunghwa's strong operating results in the first quarter of 2008 were primarily driven by the consolidation of revenue from the Company's acquisition of SENAOC, as well as continued growth in the Internet and data and mobile businesses. Chunghwa's Internet and data business achieved revenue of NT\$12.5 billion in the first quarter of 2008, representing a 2.9% increase, as compared with the first quarter of 2007. This was primarily driven by the continued total broadband subscriber growth and broadband speed upgrades. Mobile revenue increased by 0.3% in the first quarter of 2008 to NT\$18.1 billion, mainly due to growing mobile subscriber numbers and significant mobile VAS revenue growth. Fixed-line revenue remained flat year-over-year at NT\$14.4 billion for the first quarter of 2008. Among this, local revenue and domestic long distance revenue decreased 1.3% and 4.4%, respectively. The Company attributes these decreases to sustained mobile and VOIP substitution. The decrease of local and domestic long distance revenue was partially offset by the increase in international long distance revenue of 6.4%, which resulted from the growth of the Company's wholesale business and settlement income.

#### **Costs and expenses**

For the first quarter of 2008, total operating cost and expense increased year-over-year by 13.6% to NT\$34.5 billion, primarily due to NT\$3.7 billion in subsidiary operating costs and expenses. The increase of operating costs of the Company on a stand-alone basis was relatively smaller, mainly consisting of the increases of maintenance fee, telecom material expense, interconnection fee.

#### **Income tax**

The Company's income tax for the first quarter of 2008 was NT\$3.5 billion, representing a 5.9% increase compared to NT\$3.3 billion for the first quarter of 2007. This was due to a decrease in tax credit of NT\$0.3 billion.

#### **EBITDA and net income**

EBITDA for the first quarter of 2008 increased by 4.4% year-over-year to NT\$26.1 billion, resulting in an EBITDA margin of 51.3%, down from 55.1% for the first quarter of 2007. The EBITDA margin declined because of the lower EBITDA margin of our subsidiaries. EBITDA margin of the Company on a stand-alone basis has maintained at the same level year-over-year. Net income for the first quarter of 2008 was NT\$10.7 billion, representing a decrease of 11.4%. This decrease in net income was primarily attributable to the mark-to-market unrealized loss of foreign derivative contract.

#### **Capex**

Capital expenditures totaled NT\$5.5 billion for the first quarter of 2008, of which 71% was

for wire line (including fixed-line and internet and data), 5.8% was for mobile equipment, and the remainder 23.3% was for other investments, including purchases of state-owned land where one of our outlets locates.

#### **Cash Flows**

Net cash flow from operations increased by 19.5% in the first quarter of 2008 to NT\$18.6 billion, as compared to NT\$15.6 billion in the first quarter of 2007. This was primarily due to the increase in accounts payable. As of March 31, 2008, the Company's cash and cash equivalents totaled NT\$75.9 billion.

#### **Business Performance Highlights:**

##### **Internet and Data Services**

- n Total HiNet subscribers decreased 5.8% year-over-year due to the separation of 350,000 Prepaid Card subscribers from the total HiNet subscriber base in May 2007. This decline was partially offset by the strong HiNet FTTB subscription growth, with 385,000 net additions over past twelve months bringing the total HiNet FTTB subscriber number to 622,000 as of March 31, 2008.
  
- n Overall, the Company had 4.28 million broadband subscribers (including ADSL and FTTB) at the end of the first quarter of 2008, representing a 4.1% increase in total broadband subscribers compared to the end of the first quarter of 2007. By the end of the first quarter of 2008, the number of ADSL and FTTB subscriptions with a service speed greater than 8 Mbps reached 1.28 million, representing a 29.9% increase of the total broadband subscribers.
  
- n As of the end of the first quarter of 2008, Chunghwa had 435,000 MOD subscribers, a 52.7% year-over-year increase, with the addition of 41,000 new subscribers during the first quarter of 2008 alone.
  
- n Internet and data revenue was NT\$12.5 billion in the first quarter of 2008, representing a 2.9% increase compared to the first quarter of 2007. This was primarily attributable to continued revenue growth from internet revenue and ADSL and FTTB access revenue along with the growth of our broadband business.

##### **Mobile Services**

- n As of March 31, 2008, Chunghwa had 8.72 million mobile subscribers, up by 2.0% compared to 8.70 million as of the first quarter of 2007.
  
- n Chunghwa remained the leading mobile operator in Taiwan. According to statistics published by the ROC National Communications Commission, the Company's total subscriber market share (including 2G, 3G and PHS) was 35.7%, while the Company's mobile revenue share was 34.2% as of the end of February 2008.
  
- n As of March 31, 2008, Chunghwa had 2.59 million 3G subscribers, a 12.9% increase as compared to that of the end of 2007. At the end of the first quarter of 2008, 3G ARPU was 61% higher than that of 2G.

n Mobile VAS revenue for the first quarter of 2008 was NT\$1.7 billion, posting a 35.3% increase year-over-year, with SMS revenue up 32.8% and mobile internet revenue up 54.7% year-over-year, respectively.

**Fixed-line Services**

n As of the end of the first quarter of 2008, the Company maintained its leading fixed-line market position, with fixed-line subscribers totaling 12.91 million.

**Forecast for fiscal year 2008 (for the Company on a stand-alone basis only)**

- Total revenue to be NT\$185.0 billion
  
- Operating costs and expenses to be NT\$128.2 billion
  
- Income before income tax to be NT\$56.62 billion
  
- Net income to be NT\$ 43.60 billion

**Financial Statements**

Financial statements and additional operational data can be found on the Company's website at [www.cht.com.tw/ir/filedownload](http://www.cht.com.tw/ir/filedownload).

**Note Concerning Forward-looking Statements**

Except for statements in respect of historical matters, the statements made in this press release contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual performance, financial condition or results of operations of Chunghwa to be materially different from what may be implied by such forward-looking statements. Investors are cautioned that actual events and results could differ materially from those statements as a result of a number of factors including, among other things: extensive regulation of telecom industry; the intensely competitive telecom industry; our relationship with our labor union; general economic and political conditions, including those related to the telecom industry; possible disruptions in commercial activities caused by natural and human induced events and disasters, including terrorist activity, armed conflict and highly contagious diseases, such as SARS; and those risks identified in the section entitled Risk Factors in Chunghwa's annual reports on Form F-20 filed with the SEC.

The forward-looking statements in this press release reflect the current belief of Chunghwa as of the date of this press release and we undertake no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such date.

**SPECIAL NOTE REGARDING NON-GAAP FINANCIAL MEASURES**

A body of generally accepted accounting principles is commonly referred to as GAAP. A non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows but excludes or includes amounts that would not be so adjusted in the most comparable U.S. GAAP measure. We disclose in this report certain non-GAAP financial measures, including EBITDA. EBITDA for any period is defined as consolidated net income (loss) excluding (i) depreciation and amortization, (ii) total net comprehensive financing cost (which is comprised of net interest expense, exchange gain or loss, monetary position gain or loss and other financing costs and derivative transactions), (iii) other expenses, net, (iv) income tax, (v) cumulative effect of change in accounting principle, net of tax and (vi) (income) loss from discontinued operations.

In managing our business we rely on EBITDA as a means of assessing our operating performance. We believe that EBITDA can be useful to facilitate comparisons of operating

performance between periods and with other companies because it excludes the effect of (i) depreciation and amortization, which represents a non-cash charge to earnings, (ii) certain financing costs, which are significantly affected by external factors, including interest rates, foreign currency exchange rates and inflation rates, which have little or no bearing on our operating performance, (iii) income tax and tax on assets and statutory employee profit sharing, which is similar to a tax on income and (iv) other expenses or income not related to the operation of the business. EBITDA is also a useful basis of comparing our results with those of other companies because it presents operating results on a basis unaffected by capital structure and taxes.

EBITDA is not a measure of financial performance under U.S. GAAP or ROC GAAP. EBITDA should not be considered as an alternate measure of net income or operating income, as determined on a consolidated basis using amounts derived from statements of operations prepared in accordance with ROC GAAP, as an indicator of operating performance or as cash flows from operating activity or as a measure of liquidity. EBITDA has material limitations that impair its value as a measure of a company's overall profitability since it does not address certain ongoing costs of our business that could significantly affect profitability such as financial expenses and income taxes, depreciation, pension plan reserves or capital expenditures and associated charges. The EBITDA presented herein relates to ROC GAAP, which we use to prepare our consolidated financial statements.

**INDEPENDENT ACCOUNTANTS REVIEW REPORT**

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have reviewed the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of March 31, 2008 and 2007, and the related statements of income and cash flows for the three months then ended, all expressed in New Taiwan dollars. These financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our review.

Except for the matters described in the next paragraph, we conducted our reviews in accordance with Statement on of Auditing Standards No. 36, "Review of Financial Statements", issued by the Auditing Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an audit opinion.

As stated in Note 12 to the financial statements, we did not review the financial statements of equity-accounted investments, the investments in which are reflected in the accompanying financial statements using the equity method of accounting. The aggregate carrying values of the equity method investees were NT\$6,169,658 thousand and NT\$3,077,587 thousand as of March 31, 2008 and 2007 and the equity in their net losses were NT\$31,680 thousand and NT\$8,750 thousand for the three months then ended.

Based on our reviews, except for such adjustments, if any, as might have been determined to be necessary had the investment information mentioned in the preceding paragraph and related information been based on the investees' reviewed financial statements, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As stated in Note 3 to the financial statements, on January 1, 2008, the Company adopted Interpretation 2007-052 issued by the Accounting and Research Development Foundation of the Republic of China that requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings.

We have also reviewed the consolidated financial statements of the Company and its subsidiaries as of and for the three months ended March 31, 2008, and have issued a reserve review report.

April 19, 2008

Notice to Readers

*The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the accountants' review report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.*

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the telecom industry regulator.

As a telecommunications service provider of fixed-line and cellular telephone services, Chunghwa was announced as a market dominator by the MOTC; therefore Chunghwa is subject to the applicable telecommunications regulations for market dominators of the ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of Chunghwa 's common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa 's common shares had also been sold in an international offering of securities in the form of American Depository Shares ( ADS ) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC sold 289,431 thousand common shares of Chunghwa by auction in the ROC on August 9, 2005 and 1,350,682 thousand common shares of Chunghwa on August 10, 2005 in an international offering. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

The number of employees as of March 31, 2008 and 2007 are 24,423 and 25,838, respectively.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law, Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC ( ROC GAAP ). The preparation of financial statements requires management to make reasonable estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, directors and superiors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

### **Classification of Current and Noncurrent Assets and Liabilities**

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

### **Cash Equivalents**

Cash equivalents are commercial paper purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

### **Financial Assets and Liabilities at Fair Value Through Profit or Loss**

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ( FVTPL ) include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. The Company recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company loses control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchases or sales of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks - at closing prices at the balance sheet date; open-end mutual funds - at net asset values at the balance sheet date; bonds - quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market - at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent to the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains and losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### **Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables**

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Sales prices are determined using fair value taking into account related sales discounts and quantity discounts agreed to by the Company and its customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

#### **Inventories**

Inventories are stated at the lower of cost (weighted-average cost) or market value (replacement cost or net realizable value).

#### **Investments Accounted for using Equity Method**

Investments in companies where in the Company exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein the Company does not have substantial control over these equity investees are deferred in proportion to the Company's ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from the Company to equity method investees are eliminated if the Company has substantial control over these equity investees. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized and instead shall be tested for impairment annually. When an indication of impairment is identified, the goodwill shall be tested for impairment as well.

If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be allocated as pro rata reduction of noncurrent assets except (a) financial assets other than investments accounted for by the equity method, (b) assets to be disposed of by sale (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investees shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital the extent available, with the balance charged to retained earnings.

#### **Financial Assets Carried at Cost**

Investments in equity instruments that do not have a quoted price in an active market and whose fair values that cannot be reliably measured are measured at their original cost, such as non-publicly traded stocks. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

#### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance recognized as a loss.

If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment.

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements - 10 to 30 years; buildings - 10 to 60 years; computer equipment - 6 to 10 years; telecommunications equipment - 6 to 15 years; transportation equipment - 5 to 10 years; and miscellaneous equipment - 3 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

#### **Intangible Assets**

3G Concession is amortized upon the MOTC granted the license of using the straight-line method over the shorter of the legal useful life or estimated useful life. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 3-20 years.

Effective January 1, 2007, the Company adopted the newly released Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development Costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

#### **Idle Assets**

Idle assets are carried at the lower of recoverable amount or carrying amount.

#### **Pension Costs**

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees individual pension accounts during their service periods.

#### **Expense Recognition**

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

#### **Treasury Stock**

Cost of treasury stock is shown as a deduction to stockholders equity. Treasury stock is recorded at cost and shown as a reduction to stockholders equity. Upon cancellation of treasury stock, the accounts of common stock and treasury stock are reversed out based on the number of shares registered to be cancelled. The account of additional paid-in capital is adjusted for the difference of the repurchase price and the par value of common stock. If capital surplus is not enough for debiting purposes, the difference is debited to unappropriated retained earnings.

### **Income Tax**

Chunghwa applies intra-period and inter-period allocations for its income tax, whereby (1) a portion of current income tax expense is allocated to the cumulative effect of changes in accounting principles; and (2) deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders approval which is the year subsequent to the year the earnings are generated.

### **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at year-end; stockholders' equity - historical rates, income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of stockholders' equity.

### **Hedge Accounting**

Hedged items are recognized as follows:

- a. The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss.
- b. The gain or loss on the hedged item attributable to the hedged risk shall adjust the carrying amount of the hedged item and be currently recognized in earnings.

### **Reclassifications**

Certain accounts in the financial statements as of and for the three months ended March 31, 2007 have been reclassified to conform to the presentation of the financial statements as of and for the three months ended March 31, 2008.

**3. REASON AND EFFECT OF THE CHANGES OF ACCOUNTING PRINCIPLE**

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning January 1, 2008. These bonuses were previously recorded as appropriations from earnings. The adoption of this interpretation resulted in a decrease of NT\$282,233 thousand (including NT\$274,027 thousand recorded by Chunghwa and NT\$8,206 thousand recorded by its equity-accounted investees) in net income which was attributed to shareholders of the parent and a decrease in basic earnings per share (after income tax) of NT\$0.03 for the three months ended March 31, 2008.

Chunghwa entered into investment management agreements with a well-known financial institution (fund managers) to manage its investment portfolios in 2006. As of March 31, 2008, Chunghwa's investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. The investment portfolios included derivative instruments, listed stocks and mutual funds.

Chunghwa entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, these financial assets and liabilities are not qualified for hedge accounting and categorized as trading financial assets and liabilities.

Outstanding forward exchange contracts as of March 31, 2008 and 2007 were as follows:

As of March 31, 2008 and 2007, the amount paid for future deposit were \$86,474 thousand and \$86,498 thousand, respectively.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. ( Goldman ) and valuations are made biweekly starting from September 20, 2007 which are 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate is less than NT\$31.50 per US\$ at any two consecutive bi-weekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa is required to make a cash payment to Goldman. The settlement amount is determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate is above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate is at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract will be terminated at that time.

In accordance with the terms of the contract, Chunghwa deposited US\$3 million with Goldman (included in other current assets ) with annual yield rate of 8%. As of March 31, 2008, there are 247 outstanding valuation periods.

Net losses arising from financial assets and liabilities at fair value through profit or loss for the three months ended March 31, 2008 and 2007 were \$1,879,511 thousand (including realized settlement gains of \$271,175 thousand and valuation losses of \$2,150,686 thousand) and \$11,472 thousand (including realized settlement gains of \$1,736 thousand and valuation losses of \$13,208 thousand), respectively.

**18. STOCKHOLDERS EQUITY**

Under Chunghwa's Articles of Incorporation, Chunghwa's authorized capital is \$120,000,000,020, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,557,776,912 shares, and 2 preferred shares (at \$10 par value per share), which was approved by the board of directors to be issued on March 28, 2006, and the MOTC purchased 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. As of December 31, 2006, the MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of March 31, 2008, the outstanding ADSs were 211,622 thousand units, which equaled approximately 2,116,218 thousand common shares (including distributed earnings and issuance of common stock from capital surplus) and represented 22.14% of Chunghwa's total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common shareholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights,
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.

- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa's business or property.

- 22 -

- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares within three years from the date of their issuance.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus in the following years after privatization; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration. The remaining distributable earnings can be distributed to the stockholders based on the resolution of stockholders' meeting; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

The appropriation for legal capital reserve shall be made until the reserve equals Chunghwa's paid-in capital. The reserve may be used to offset a deficit. The Company Law also prescribes that, when the reserve has reached 50% of Chunghwa's paid-in capital, up to 50% of the reserve may be transferred to capital.

The appropriations and distributions of the 2006 and 2005 earnings of Chunghwa have been approved and resolved by the stockholders on June 15, 2007 and May 30, 2006 as follows:

	Appropriation and Distribution		Dividend Per Share	
	2006	2005	2006	2005

Employee bonus - stock		230,057		
Remuneration to board of directors and supervisors	35,904	15,337		

The stockholders' meeting held on June 15, 2007 also resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above proposals for the fiscal year of 2006 have had an effective registration with the Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan (SFC). The board of directors resolved the ex-dividend date of aforementioned proposals as August 1, 2007.

The stockholders, at the stockholders meeting held on June 15, 2007, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of NT\$9,667,845 thousand to common capital stock. Chunghwa obtained the approval letter from Financial Supervisory Commission, Executive Yuan which stated the effective registration date of capital reduction is October 17, 2007. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by NT\$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of NT\$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of NT\$110,068 thousand held by Chunghwa and concurrently cancelled.

The appropriation of Chunghwa's 2007 earnings have not been resolved by the board of directors as of April 19, 2008, the independent auditors review report date. Information on the appropriation of 2007 earnings proposed by the board of directors and resolved by the stockholders is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on July 1, 1998, R.O.C. resident stockholders are allowed a tax credit for their proportionate share of the income tax paid by Chunghwa on earnings generated since January 1, 1998.

The diluted earnings per share for the three months ended March 31, 2008 was due to issuing employee stock options by SENA0.

The impact of transferring to common capital stock out of capital surplus was considered in calculating basic earnings per share for 2007. The basic EPS before income tax and the basic EPS after income tax in 2007 are restated from \$1.59 to \$1.45 and from \$1.25 to \$1.14, respectively.

## 23. PENSION PLAN

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would, on behalf of the MOTC to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The Labor Pension Act of ROC is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. The employees who were subject to the Labor Standards Law prior to the July 1, 2005 may choose to be subject to the pension mechanism under this Act or continue to remain to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law prior to July 1, 2005 and still work for the same company after July 1, 2005 and choose to be subject to the pension mechanism under this Act, their seniority as of July 1, 2005 shall be maintained. The monthly contribution shall not be less than 6% of each employee's monthly salary. Chunghwa made monthly contributions equal to 6% of each employee's monthly salary to employee's pension accounts beginning July 1, 2005.

Chunghwa's pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee's length of service and average six-month salary prior to retirement at retirement. Chunghwa contributes an amount at 15% or less of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan (originally) the Central Trust of China, which was merged into the Bank of Taiwan on July 1, 2007.

The balance of Chunghwa's plan assets subject to defined benefit plan were \$2,879,206 thousand and \$2,983,955 thousand as of March 31, 2008 and 2007, respectively.

Pension costs of the Company were \$700,303 thousand (\$687,018 thousand subject to defined benefit plan and \$13,285 thousand subject to defined contribution plan) and \$758,302 thousand (\$748,104 thousand subject to defined benefit plan and \$10,198 thousand subject to defined contribution plan) for the three months ended March 31, 2008 and 2007, respectively.

#### 24. TRANSACTIONS WITH RELATED PARTIES

The ROC Government, one of Chunghwa's customers, held significant equity interest in Chunghwa. Chunghwa provides fixed-line services, wireless services, Internet and data and other services to the various departments and institutions of the ROC Government and other state-owned enterprises in the normal course of business and at arm's-length prices. **25. COMMITMENTS AND CONTINGENT LIABILITIES**

As of March 31, 2008, Chunghwa's remaining commitments under non-cancellable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$1,192,652 thousand.
- b. Acquisitions of telecommunications equipment of \$14,679,758 thousand.
- c. Unused letters of credit of approximately \$1,146,583 thousand.
- d. Contracts to print billing, envelopes and selling gifts of \$196,874 thousand.
- e. Chunghwa also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operation system software under contracts that expire in various years. Future leases payments were as follows:

Year	Amount
2008 (from April 1, 2008 to December 31, 2008)	\$ 1,013,072
2009	995,349
2010	690,262
2011	427,285
2012 and thereafter	366,113

- f. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment - other monetary assets). When the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand after getting the notification from the Taipei City Government.
- g. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Taiwan Post Co., Ltd. (the former Chunghwa Post Co., Ltd. Directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. However, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa has filed an appeal at the Taiwan Taipei District Court. As of review report date, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.

b. Methods and assumptions used in the determination of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2 and 3 below.
- 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the available-for-sale financial assets are not readily available, valuation techniques is used incorporating estimates and assumptions that are consistent with prevailing market conditions.
- 3) Long-term investments are based on the net asset values of the investments in unconsolidated companies, if quoted market prices are not available.

c. Fair value of financial instruments were as follow:

	Amount Based on Quoted		Amount Determined Using	
	Market Price		Valuation Techniques	
	March 31		March 31	
	2008	2007	2008	2007
<b>Assets</b>

Financial liabilities at fair value through profit or loss	22,073	34,415	3,075,125	
Hedging derivative financial liabilities (classified as other current liabilities)	13,000			

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in Chunghwa's foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, Chunghwa would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by Chunghwa if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the foregoing financial instruments are reputable financial institutions and business organizations. Management believes that Chunghwa's exposure to default by those parties is low.

3) Liquidation risk

Chunghwa has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the cash flow risk is low.

The financial instruments categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

4) Cash flow interest rate risk

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

Chunghwa engages in investments in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates.

- 33 -

Chunghwa engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the three months ended March 31, 2008. Chunghwa did not into any hedging forward exchange contracts in 2007.

Outstanding forward exchange contracts for hedge as of March 31, 2008:

	Currency	Maturity Period	Contract Amount (in Thousands)
Sell	USD/NTD	2008.06	USD 65,000
	EUR/NTD	2008.05	EUR 25,000

As of March 31, 2008, the forward exchange contract was measured at fair value of \$21,679 thousand (classified as other current monetary assets) and \$13,000 thousand (classified as other current liabilities).

According to the regulations of Securities and Futures Bureau, Chunghwa should disclose the derivative transactions of Chunghwa's investees, SENA0, which was as follows:

1) Holding period and contract amounts

SENA0 entered into a forward exchange contract for the three months ended March 31, 2008 to reduce the exposure to foreign currency risk.

Outstanding forward exchange contracts as of March 31, 2008:

	Currency	Maturity Period	Contract Amount (in Thousands)
Buy	NTD/USD	2008.04	NTD279,695

2) Market risk

SENA0 uses forward contracts to hedge the fluctuations of adverse exchange rate on foreign currency assets and liabilities. The gain and loss from the fluctuation of exchange rate under forward contracts was offset by that of the hedged assets or liabilities. Therefore, the market risk was not significant.

3) Credit risk

Financial assets represents the potential loss that would be incurred by SENA0 if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The maximum credit risk amount of all kinds of financial instruments is equal to its book value.

4) Liquidation risk

SENAO's investments in domestic open-end mutual fund and convertible bonds are publicly-traded, easily converted to cash. Therefore, no material cash flow risks are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk would be anticipated. SENAO uses forward contracts to hedge the fluctuations of adverse exchange rate on foreign currency assets and liabilities. There will be corresponding cash inflows or outflows upon maturity dates, and SENAO has sufficient cash flow and operating capital to meet the cash demand, thus; there shall be no risk on raising capital. In addition, the exchange rates in the forward contracts are fixed; therefore, there is no significant risk of cash flow.

**INDEPENDENT ACCOUNTANTS REVIEW REPORT**

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have reviewed the accompanying consolidated balance sheets of Chunghwa Telecom Co., Ltd. and subsidiaries ( the Company ) as of March 31, 2008 and 2007, and the related consolidated statements of income and cash flows for the three months then ended, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these consolidated financial statements based on our review.

Except for the matters described in the next paragraph, we conducted our reviews in accordance with Statement on of Auditing Standards No. 36, "Review of Financial Statements", issued by the Auditing Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an audit opinion.

As stated in Note 2 to the consolidated financial statements, the financial statements as of and for the three months ended March 31, 2008 and 2007 of certain subsidiaries have not been reviewed. The total assets of these subsidiaries were 1.11% (NT\$5,204,421 thousand) and 0.11% (NT\$526,631 thousand), and the total liabilities of these subsidiaries were 1.50% (NT\$931,143 thousand) and 0.79% (NT\$436,223 thousand), of the related consolidated amounts as of March 31, 2008 and 2007, respectively. The total revenues of these subsidiaries were 0.74% (NT\$379,570 thousand) and 0.28% (NT\$125,492 thousand) of the related consolidated revenues for the three months ended March 31, 2008 and 2007, respectively and their net loss was NT\$153,036 thousand and NT\$7,250 thousand for the three months ended March 31, 2008 and 2007, respectively. As stated in Note 12 to the consolidated financial statements, the financial statements as of and for the three months ended March 31, 2008 and 2007 of certain equity method investees have not been reviewed. The aggregate carrying values of these equity method investees were NT\$1,729,510 thousand and NT\$2,678,592 thousand as of March 31, 2008 and 2007, respectively, and the equity in earning (loss) were NT\$(57,579) thousand and NT\$15,670 thousand for the three months then ended.

Based on our reviews, except for the matters described in the preceding paragraph based on the investees' unreviewed financial statements, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As stated in Note 3 to the consolidated financial statements, on January 1, 2008, the Company adopted Interpretation 2007-052 issued by the Accounting and Research Development Foundation of the Republic of China that requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings.

April 19, 2008

Notice to Readers

*The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the accountants' review report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.*

**NOTES TO CONSOLIDATED FINANCIAL STATEMENT**

**FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007**

**(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

**(Reviewed, Not Audited)**

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As a telecommunications service provider of fixed-line and cellular telephone services, Chunghwa was announced as a market dominator by the MOTC; therefore Chunghwa is subject to the applicable telecommunications regulations for market dominators of the ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of Chunghwa's common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa's common shares had also been sold in an international offering of securities in the form of American Depository Shares ( ADS ) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC sold 289,431 thousand common shares of Chunghwa by auction in the ROC on August 9, 2005 and 1,350,682 thousand common shares of Chunghwa on August 10, 2005 in an international offering. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

Senao International Co., Ltd. ( SENAO ) was incorporated in 1979. SENAO engages mainly in Telecommunication facilities sales. Chunghwa acquired 31.33% shares of SENAO on January 15, 2007 and has substantial control in SENAO by obtaining four out of seven seats of the board of directors of SENAO on April 12, 2007.

Chunghwa established Chunghwa International Yellow Pages Co., Ltd. ( CIYP ) in January 2007. CIYP engages mainly in yellow pages sales and advertisement services.

CHIEF Telecom Inc. ( CHIEF ) was incorporated in 1991. CHIEF engages mainly in internet communication and internet data center ( IDC ) service. Chunghwa acquired 70% shares of CHIEF on September 2006.

Unigate Telecom Inc. ( Unigate ) was established by CHIEF in 1999. Unigate engages mainly in telecommunication and information software service.

The following diagram presents information regarding the relationship and ownership percentages between the Company and its subsidiaries as of March 31, 2008:

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying consolidated financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of Business Accounting Law, Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC ( ROC GAAP ). The preparation of consolidated financial statements requires management to make reasonable estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, directors and supervisors pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

### **Principle of Consolidation**

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of Chunghwa, and the accounts of investees in which Chunghwa's ownership percentage is less than 50% but over which Chunghwa has a controlling interest. All significant intercompany transactions and balances are eliminated upon consolidation.

The consolidated financial statements for the three months ended March 31, 2008 include the accounts of Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHIEF (HK), CHSI, Concord, GNSS (Shanghai), CHTG, DHT, SHE, SHE (B.V.I.), SHE (Japan), AKP, LED, New Prospect and Prime Asia. The consolidated financial statements for the three months ended March 31, 2007 include the accounts of Chunghwa, CIYP, CHIEF, Unigate, CHIEF (HK), New Prospect and Prime Asia.

For foreign subsidiaries using their local currency as their functional currency, assets and liabilities are translated into New Taiwan dollars at the exchange rates in effect on the balance sheet date; stockholders' equity accounts are translated into New Taiwan dollars at using historical exchange rates and income statement accounts are translated into New Taiwan dollars at using average exchange rates during the year.

The financial statements as of and for the three months ended March 31, 2008 and 2007 of the following subsidiaries were based on unreviewed financial statements: CIYP, CHIEF, Unigate, CHIEF (HK), CHSI, Concord, GNSS (Shanghai), GHTG, DHT, SHE, SHE (B.V.I.), SHE (Japan), APK, LED, New Prospect and Prime Asia, as of and for the three months ended March 31, 2008; CIYP, CHIEF, Unigate, CHIEF (HK), New Prospect and Prime Asia, as of and for the three months ended March 31, 2007. The total assets of the above subsidiaries were 1.11% (NT\$5,204,421 thousand) and 0.11% (NT\$526,631 thousand), and the total liabilities of the above subsidiaries were 1.50% (NT\$931,143 thousand) and 0.79% (NT\$436,223 thousand), of the related consolidated amounts as of March 31, 2008 and 2007, respectively. The subsidiaries' total revenues were 0.74% (NT\$379,570 thousand) and 0.28% (NT\$125,492 thousand), respectively, of the related consolidated amounts for the three months ended March 31, 2008 and 2007 and their net loss was NT\$153,036 thousand and NT\$7,250 thousand for the three months ended March 31, 2008 and 2007, respectively.

#### **Classification of Current and Noncurrent Assets and Liabilities**

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

For LED engages mainly in development of property for sale, which has an operating cycle of over one year, the length of the operating cycle is the basis for classifying construction assets and liabilities as current or noncurrent.

#### **Cash Equivalents**

Cash equivalents are commercial paper purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

#### **Financial Assets and Liabilities at Fair Value Through Profit or Loss**

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ( FVTPL ) include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. The Company recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company loses control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchases or sales of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

#### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks - at closing prices at the balance sheet date; open-end mutual funds - at net asset values at the balance sheet date; bonds - quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market - at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains and losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### **Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables**

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Sales prices are determined using fair value taking into account related sales discounts and quantity discounts agreed to by the Company and its customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

#### **Inventories**

Inventories are stated at the lower of cost (weighted-average cost) or market value (replacement cost or net realizable value).

#### **Investments Accounted for using Equity Method**

Investments in companies where in the Company exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein the Company does not have substantial control over these equity investees are deferred in proportion to the Company's ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from the Company to equity method investees are eliminated if the Company has substantial control over these equity investees. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortize and instead shall be tested for impairment annually. When an indication of impairment is identified, the goodwill shall be tested for impairment as well.

If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be allocated as pro rata reduction of noncurrent assets except (a) financial assets other than investments accounted for by the equity method, (b) assets to be disposed of by sale (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investees shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital the extent available, with the balance charged to retained earnings.

#### **Financial Assets Carried at Cost**

Investments in equity instruments that do not have a quoted price in an active market and whose fair values that cannot be reliably measured are measured at their original cost, such as non-publicly traded stocks. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance recognized as a loss.

If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment .

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements - 10 to 30 years; buildings - 10 to 60 years; computer equipment - 6 to 10 years; telecommunication equipment - 6 to 15 years; transportation equipment - 5 to 10 years; and miscellaneous equipment - 3 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

### **Intangible Assets**

3G Concession is amortized upon the MOTC granted the license of using the straight-line method over the shorter of the legal useful life or estimated useful life. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 3-20 years.

Effective January 1, 2007, the Company adopted the newly released Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development Costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

Reversal of a previously recognized impairment loss on goodwill is prohibited.

### **Idle Assets**

Idle assets are carried at the lower of recoverable amount or carrying amount.

### **Pension Costs**

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods.

### **Expense Recognition**

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

### **Treasury Stock**

Treasury stock is recorded at cost and shown as a reduction to stockholders' equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stocks as well as the capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient for debiting purposes, the difference is charged to retained earnings.

### **Share-based Compensation**

Employee stock options granted on or after January 1, 2008 are in accordance with under SFAS No. 39, Accounting for Share-based Payment.

Employee stock options granted between January 1, 2004 and December 31, 2007 were accounted for under the interpretations issued by the Accounting Research and Development Foundation. The Company adopted the intrinsic value method, under which compensation cost was recognized on a straight-line basis over the vesting period. According to the Interpretation 96-330 issued by ARDF in December 2007, the compensation cost remains the same if the revised plan meets both criteria in the aforementioned interpretation. If the revised plan does not meet both criteria stated in the interpretation, the revised plan would replace the original plan and the Company would calculate the incremental compensation cost using intrinsic value method and amortize over the vesting period.

### **Income Tax**

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders' approval which is the year subsequent to the year the earnings are generated.

**Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at year-end; stockholders' equity - historical rates, income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of stockholders' equity.

**Hedge Accounting**

Hedged items are recognized as follows:

- a. The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss.
- b. The gain or loss on the hedged item attributable to the hedged risk shall adjust the carrying amount of the hedged item and be currently recognized in earnings.

**Reclassifications**

Certain accounts in the financial statements as of and for the three months ended March 31, 2007 have been reclassified to conform to the presentation of the financial statements as of and for the three months ended March 31, 2008.

**3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLES**

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning from January 1, 2008. These bonuses were previously recorded as appropriations from earnings. The adoption of this interpretation resulted in a decrease of NT\$282,233 thousand in consolidated net income which was attributed to shareholders of the parent and a decrease in basic earnings per share (after income tax) of NT\$0.03 for the three months ended March 31, 2008.

Chunghwa entered into investment management agreements with a well-known financial institution (fund managers) to manage its investment portfolios in 2006. As of March 31, 2008, Chunghwa's investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. The investment portfolios included derivative instruments, listed stocks and mutual funds.

The Company entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading.

Outstanding forward exchange contracts on March 31, 2008 and 2007 were as follows:

As of March 31, 2008 and 2007, the deposits paid for index future contracts were \$86,474 thousand and \$86,498 thousand, respectively.

In September 2007, the Company entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. ( Goldman ) and valuations are made biweekly starting from September 20, 2007 which are 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate is less than NT\$31.50 per US\$ at any two consecutive bi-weekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, the Company is required to make a cash payment to Goldman. The settlement amount is determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate is above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to the Company determined using a base amount of US\$2,000 thousand. Further, if the exchange rate is at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract will be terminated at that time.

In accordance with the terms of the contract, the Company deposited US\$3,000 thousand with Goldman (included in other current assets ) with annual yield rate of 8%. As of March 31, 2008, there are 247 outstanding valuation periods.

Net loss arising from financial assets and liabilities at fair value through profit or loss for the three months ended March 31, 2008 and 2007 were \$1,893,141 thousand (including realized settlement gain of \$258,494 thousand and valuation loss of \$2,151,635 thousand; valuation loss included a total of \$2,494,966 from foreign currency derivative contract with Goldman) and \$11,472 thousand (including realized settlement gain of \$1,736 thousand and valuation loss of \$13,208 thousand), respectively.

Pursuant to the related regulation, Chunghwa revalued its land owned as of April 30, 2000 based on the publicly announced value on July 1, 1999. These revaluations which have been approved by the MOA resulted in increases in the carrying values of property, plant and equipment of \$5,986,074 thousand, liabilities for land value incremental tax of \$211,182 thousand, and stockholders' equity - other adjustments of \$5,774,892 thousand.

The amendment to the Land Tax Act, relating to the article to permanently lower land value incremental tax, went effective from February 1, 2005. In accordance with the lowered tax rates, Chunghwa recomputed its land value incremental tax, and reclassified the reserve for land value incremental tax of \$116,196 thousand to stockholders' equity - other adjustments. As of March 31, 2008, the unrealized revaluation increment was decreased to \$5,823,200 thousand by disposal revaluation assets.

Depreciation on property, plant and equipment for the three months ended March 31, 2008 and 2007 amounted to \$9,440,330 thousand and \$9,770,907 thousand, respectively. CHIEF obtained an unsecured loan from Chinatrust Commercial Bank. Interest and principal were payable monthly and the secured loan was repaid in November 2007.

**20. STOCKHOLDERS EQUITY**

Under Chunghwa's Articles of Incorporation, Chunghwa's authorized capital is \$120,000,000,020, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,557,776,912 shares, and 2 preferred shares (at \$10 par value per share), which was approved by the board of directors to be issue on March 28, 2006, and the MOTC purchased 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on October 4, 2006. As of March 31, 2006, the MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of March 31, 2008, the outstanding ADSs were 211,622 thousand units, which equaled approximately 2,116,218 thousand common shares and represented 22.14% of Chunghwa's total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights,
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa's business or property.
- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares with par value within three years from the date of their issuance.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the three months ended March 31, 2008, the accrual amounts for bonus to employees and remuneration to directors and supervisors, representing 3.37% and 0.2% of net income was after deducting 10% legal reserve, were accrued based on past experiences.

If the initial accrual amounts of the aforementioned bonus are significantly different from the amounts proposed by the board of directors, the difference is charged to the earnings of the year making the initial estimate. Otherwise, the difference between initial accrual amount and the amount resolved in the shareholders' meeting is charged to the earnings of the following year as a result of change of accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2006 and 2005 earnings of Chunghwa have been approved and resolved by the stockholders on June 15, 2007 and May 30, 2006 as follows:

	Appropriation and Distribution		Dividend Per Share	
	2006	2005	2006	2005
Legal reserve	\$ 3,998,445	\$ 4,765,288	\$	\$

Employee bonus - stock		230,057		
Remuneration to board of directors and supervisors	35,904	15,337		

The stockholders' meeting held on June 15, 2007 also resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above proposals have had an effective registration with the Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan (SFC). The board of directors resolved the ex-dividend date of aforementioned proposals as August 1, 2007.

The stockholders, at the stockholders' meeting held on June 15, 2007, also resolved to reduce the amount of capital in the Company by a cash distribution to its stockholders in order to improve the financial condition of the Company and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of NT\$9,667,845 thousand to common capital stock. Chunghwa obtained the approval letter from Financial Supervisory Commission, Executive Yuan which stated the effective registration date of capital reduction is October 17, 2007. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date of capital reduction and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by NT\$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of NT\$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of NT\$110,068 thousand held by the Company and concurrently cancelled.

The appropriation of Chunghwa's 2007 earnings has not been resolved by the board of directors as of April 19, 2008, the independent auditors report date. Information on the appropriation of 2007 earnings proposed by the board of directors and resolved by the stockholders is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on July 1, 1998, R.O.C. resident stockholders are allowed a tax credit for their proportionate share of the income tax paid by Chunghwa on earnings generated since January 1, 1998.

**21. SENA O SHARE-BASED COMPENSATION PLANS**

SENAO has several share-based compensation plans ( SENA O Plans ) described as follows:

Stock Options Units

**26. PENSION PLAN**

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund ) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would on behalf of the MOTC to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The Labor Pension Act of ROC is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. The employees who were subject to the Labor Standards Law prior to the July 1, 2005 may choose to be subject to the pension mechanism under this Act or continue to remain to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law prior to July 1, 2005 and still work for the same company after July 1, 2005 and choose to be subject to the pension mechanism under this Act, their seniority as of July 1, 2005 shall be maintained. The monthly contribution shall not be less than 6% of each employee's monthly salary. The Company made monthly contributions equal to 6% of each employee's monthly salary to employee's pension accounts beginning July 1, 2005.

The Company's pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee's length of service and average six-month salary prior to retirement at retirement. Chunghwa, SENAO and CHIEF contribute an amount equal to 2% to 15% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan (originally the Central Trust of China, which was merged into the Bank of Taiwan on July 1, 2007).

Pension costs of the Company were \$717,366 thousand (\$690,060 thousand subject to defined benefit plan and \$27,306 thousand subject to defined contribution plan) and \$759,336 thousand (\$748,170 thousand subject to defined benefit plan and \$11,166 thousand subject to defined contributed plan) for the years ended March 31, 2008 and 2007, respectively.

**27. TRANSACTIONS WITH RELATED PARTIES**

## 29. COMMITMENTS AND CONTINGENT LIABILITIES

As of March 31, 2008, the Company's remaining commitments under non-cancelable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$1,192,652 thousand.
- b. Acquisitions of telecommunications equipment of \$14,679,758 thousand.
- c. Unused letters of credit of \$2,046,583 thousand.

- d. Contract to print billing, envelopes and selling gifts of \$196,874 thousand.
- e. The Company also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operation system software under contracts that expire in various years. Future lease payments were as follows:

Year	Amount
2008 (from April 1, 2008 to December 31, 2008)	\$ 1,249,967
2009	1,262,357

- f. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment - other monetary assets). When the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand after getting the notification from the Taipei City Government. For Piping Fund, the Company understands that if the project is considered no longer be necessary by the ROC government, the Company will receive back its proportionate share of the net equity of the fund upon dissolution of the fund.
- g. A portion of the land used by Chunghwa during the period July 1, 1996 to March 31, 2004 was co-owned by Chunghwa and Taiwan Post Co., Ltd. (the former Chunghwa Post Co., Ltd. directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Taiwan Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. However, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa has filed an appeal at the Taiwan Taipei District Court. As of review report date, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.

(Concluded)

b. Methods and assumptions used in the estimation of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2, 3, and 4 below.
- 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the available-for-sale financial assets are not readily available, valuation techniques is used incorporating estimates and assumptions that are consistent with prevailing market conditions.
- 3) Long-term investments are based on the net asset values of the investments in unconsolidated companies if quoted market prices are not available.
- 4) The fair value of long-term loans (including current portion) is discounted based on projected cash flow. The projected cash flows were discounted using the interest rate of similar long-term loans.

c. Fair value of financial instruments were as follow:

	Amount Based on Quoted Market Price		Amount Determined Using Valuation Techniques	
	2008	2007	2008	2007
<b>Assets</b>				
Financial assets at fair value through profit or loss	\$ 418,169	\$ 87,123	\$	\$
Available-for-sale financial assets	20,361,594	8,234,636		
Hedging derivative financial assets (classified as other current monetary assets)	21,679			
<b>Liabilities</b>				
Financial liabilities at fair value through profit or loss	22,073	34,415	3,076,847	
Hedging derivative financial liabilities (classified as other current liabilities)	13,000			

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in the Company's foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, the Company would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties of the aforementioned financial instruments are reputable financial institutions. Management believes that the Company's exposure to default by those parties is low.

3) Liquidation risk

The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the cash flow risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

4) Cash flow interest rate risk

The Company engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, the Company engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the three months ended March 31, 2008. Chunghwa did not into any hedging forward exchange contracts for the three months ended March 31, 2007.

Outstanding forward exchange contracts for hedge as of March 31, 2008:

	Currency	Maturity Period	Contract Amount (in Thousands)
Sell	USD/NTD	2008.06	USD 65,000
	EUR/NTD	2008.05	EUR 25,000

As of March 31, 2008, the forward exchange contract was measured at fair value of \$21,679 thousand (classified as other current monetary assets) and \$13,000 thousand (classified as other current liabilities).

Note 1 : In March 2007, the Accounting Research and Development Foundation ( ARDF ) in the R.O.C. issued Interpretation 96-052 for the fiscal year beginning after January 1, 2008. From that date, the accounting treatment under ROC GAAP is as follows:

- (1) Nature- employees bonuses and remuneration of directors and supervisors are treated as an expense rather than an appropriation of earnings
- (2) Measurement and recognition- such bonuses to employees and remuneration to directors and supervisors are initially accrued based on management s estimate pursuant to the Articles of Incorporation of CHT. If the amounts initially accrued are significantly different from the amounts proposed subsequently by the board of directors in the following year, the difference needs to be retroactively adjusted. Otherwise, any difference between the amount initially accrued and actual amount of the bonuses approved by the stockholders is adjusted subsequently. If such bonuses and remuneration are in the form of shares, compensation expenses remains the same but the units of shares are determined by divided by the fair value of the day prior to the shareholders meeting in the following year.

Note 2 : In August 2007, the ARDF issued ROC SFAS No.39, Accounting for Share-based Payment , which require companies to record share-based payment transactions granted on or after January 1, 2008 using fair value method There is no impact of the adoption this statement since the Company did not grant options on or after January 1, 2008.

Note 3 : There are significant differences in the classification of items on the statements of income under ROC GAAP and US GAAP. These include:

- (1) Gains (losses) on disposal of property, plant and equipment:  
Under ROC GAAP: such amount is recorded as non-operating income (expense).  
Under US GAAP: such amount is recorded as cost of revenues
- (2) Valuation loss on inventory:  
Under ROC GAAP: such amount is recorded as non-operating expense.  
Under US GAAP: such amount is recorded as cost of revenues
- (3) Under US GAAP the minority interest in the income of subsidiaries is deducted in arriving at net income whereas under ROC GAAP the minority interest forms part of stockholders' funds.

## 2. RECENT ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combination, which replaces SFAS No. 141, Business Combinations. SFAS No. 141(R) retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (which SFAS No. 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. SFAS No. 141(R) defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as the date that the acquirer achieves control. SFAS No. 141 did not define the acquirer, although it included guidance on identifying the acquirer. SFAS No. 141(R)'s scope is broader than that of SFAS No. 141, which applied only to business combinations in which control was obtained by transferring consideration. The result of applying SFAS No. 141's guidance on recognizing and measuring assets and liabilities in a step acquisition was to measure them at a blend of historical costs and fair values. In addition, SFAS No. 141(R) requires to measure the noncontrolling interest in the acquiree at fair value which results in recognizing the goodwill attributable to the noncontrolling interest in addition to that attributable to the acquirer. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, the beginning of the Company's 2009 fiscal year. Earlier adoption is prohibited. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008, the beginning of the Company's 2009 fiscal year.

In December 2007, the FASB issued SFAS No. 160 Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51, which clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. The effective date of SFAS No. 160 is the same as that of the related SFAS No. 141(R). Earlier adoption is prohibited. SFAS No. 160 shall be applied prospectively as of the beginning of the fiscal year in which this statement is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements shall be applied retrospectively for all periods presented. The Company is currently evaluating the impact of such new pronouncement in its consolidated financial statements but believes that it will not generate a material impact on the Company's consolidated results of operations or financial position.

In March 2008, the FASB issued SFAS No. 161 Disclosures about Derivative Instruments and Hedging Activities - An amendment of FASB Statement No. 133, which requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is assessing the impact of the adoption of this standard.
