REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants in

Duke Energy Retirement Savings Plan

We have audited the accompanying statement of net assets available for benefits of the Duke Energy Retirement Savings Plan (the Plan) as of December 31, 2007 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007 and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplementary information is the responsibility of the Plan s management. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2007 basic financial statements taken as a whole.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants in

Duke Energy Retirement Savings Plan

We have audited the accompanying statement of net assets available for benefits of Duke Energy Retirement Savings Plan (the Plan) as of December 31, 2006. This financial statement is the responsibility of the Plan s management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statement presents fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

DUKE ENERGY

RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2007 and 2006

1. Description of the Plan:

The following description of the Duke Energy Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Participation and Purpose

The Plan is sponsored by Duke Energy Corporation (Duke Energy). Duke Energy and each of its affiliated companies that is at least 80% owned and that participate in the Plan are collectively referred to as Participating Companies.

The purpose of the Plan is to provide an opportunity for eligible employees to enhance their long-range financial security through employee contributions, matching contributions from Participating Companies, and investment among certain investment funds, one of which provides an investment interest in Duke Energy Corporation common stock (Common Stock). This defined contribution plan is an employee stock ownership plan and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Generally, employees of a Participating Company are eligible to enter and participate in the Plan if they 1) have attained the age of eighteen, and 2) are paid on the Participating Company's U. S. payroll system.

Contributions

Participants may authorize payroll deductions from eligible earnings in the form of before-tax deferrals and/or after-tax deferrals. Participants may elect to contribute (subject to certain limitations) up to 75% of eligible earnings per pay period without regard to years of service. Various provisions of the Internal Revenue Code may limit the deferrals of some highly compensated employees. All deferrals are exempt, up to the allowed maximum, from federal and state income tax withholding in the year they are deferred, but are subject to payroll taxes. Participant deferrals are intended to satisfy the requirements of Section 401(k) of the Internal Revenue Code. The Participating Company contributes (subject to certain limitations) an amount equal to 100% of before-tax contributions, excluding catch-up contributions, of up to 6% of eligible pay per pay period. Participant after-tax contributions and matching contributions are intended to satisfy the requirements of Section 401(m) of the Internal Revenue Code.

Rollover Contributions to the Plan

Rollover contributions represent amounts recorded when participants elect to contribute amounts to their Plan accounts from other eligible, tax-qualified retirement plans or qualified individual retirement accounts. Rollover contributions of approximately \$1,038,000 were made to the Plan in 2007.

Investments

Subject to limitations discussed below, participants may invest their Plan accounts in any or all of the investment funds offered in the Plan. Participant accounts invest in units of a fund based on its net asset value. The value of an account is updated each business day. Throughout the Plan year, eleven funds were offered for investment.

Table of Contents

Participants Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions, and Plan earnings and charged with benefit payments and allocations of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The selection from available investment funds is the sole responsibility of each participant, and the Plan is intended to satisfy the requirements of Section 404(c) of ERISA.

On January 2, 2007, Duke Energy completed the spin-off of its natural gas businesses, named Spectra Energy Corp. Effective as of the occurrence of the spin-off, participants affected by the spin-off cease to be participants in the Plan. Participant accounts affected by the spin-off were transferred to the Spectra Energy Retirement Savings Plan, established effective as of January 2, 2007. The Spectra Energy Retirement Savings Plan is deemed to be a continuation of the Plan with respect to the affected participants, and transfer of affected participant accounts was not deemed a termination or partial termination of the Plan with respect to the affected participants or otherwise.

Vesting and Distribution

A participant is 100% vested in his Plan account. For example, a participant may elect to receive certain distributions from his Plan account during continuation of employment. The Plan provides for several different types of in-service withdrawals, including hardship and age 59 1/2 withdrawals. A hardship distribution must comply with Section 401(k) of the Internal Revenue Code.

Payment of Benefits

On termination of employment for any reason a participant or, if the participant is deceased, his beneficiary, may request the distribution of the balance of the participant's Plan account. Distributions are made as soon as practicable after the occasion for the distribution, except that a participant may elect that a distribution be delayed until no later than April 1 of the calendar year following the calendar year in which he attains age 70 1/2. A beneficiary of a deceased participant may elect that a distribution be delayed for up to one year following the date of death.

Employee Loans Receivable

Participants may borrow, with some limitations, from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000 minus the highest outstanding loan balance during the 12-month period prior to the new loan, or (ii) 50% of their account balances. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loan is secured by the balance in the participant's Plan account and bears interest at a rate of 1% more than the prime interest rate in effect at the issuance of the loan, as determined by the Benefits Committee. Principal and interest is paid ratably through payroll deductions. Loan receipts will be reinvested based on the participant's investment election for employee contributions at the time of repayment.

Plan Termination

The Participating Companies expect and intend to continue the Plan indefinitely, but have the right under the Plan to amend, suspend or terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, the net assets of the Plan would be distributed to participants based on their Plan accounts.

Table of Contents

2. Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair market value. Investments in common trust funds and separately managed funds (funds) are stated at estimated fair values, which have been determined based on the unit values of the funds. Unit values are determined by the organization sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at each valuation date. Duke Energy Corporation common stock is valued at the quoted market price at year-end. Money market funds are valued at cost plus accrued interest, which approximates fair value. Participant loans are valued at cost plus accrued interest, which approximates fair value.

Certain Plan investments hold futures contracts, which meet the definition of a derivative. The Plan's primary objective in holding these derivatives is investment appreciation, and, accordingly, does not designate such derivatives as hedges of risks. Such derivatives are recorded in the accompanying statements of net assets at their fair value, and changes in fair value are recorded in net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the common trust funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefits are recorded when paid.

Investment Management Expenses

Investment management expenses are paid by the Plan to third party vendors.

Table of Contents

3. Investments:

The following presents investments that represent 5% or more of the Plan's net assets available for benefits (in thousands):

	December 31,	
	2007	2006
Duke Energy Corporation common stock, 43,402 and 52,614 shares, respectively	\$ 875,421*	\$ 1,747,315*

Barclays Global Investors Equity Index Fund, 7,191 and 8,751 shares, respectively	157,331	181,318
Capital Guardian Int'l. Equity Fund, 5,709 shares	140,499	**
Barclays Global Investors Russell 1000 Value Fund, 9,624 shares	**	155,137
State Street Bank Short Term Investment Fund, 217,839 and 237,297 shares, respectively	217,839*	237,297*

* Nonparticipant directed

** Represents less than 5% of net assets available for benefits as of this date

During 2007, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows (in thousands):

Common stock	\$ (161,480)
Common trust funds:	
Equity funds	39,347
Balanced funds	33,043
Fixed funds	6,623
Separately managed funds - equity	35,412
Other short-term investments	83,224
	\$ 36,169

Table of Contents**Nonparticipant-Directed Investments:**

Information about the net assets and significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows (in thousands):

	December 31,	
	2007	2006
Net assets:		
Common stock	\$ 1,295,577	\$ 1,747,315
Other short-term investments	217,839	237,297
	\$ 1,513,416	\$ 1,984,612

	Year ended	
	December 31, 2007	
Changes in net assets:		
Net depreciation in fair value of investments	\$	(161,480)
Contributions		65,630
Dividends		58,748
Transfers from participant-directed investments		34,434
Transfers to Spectra Energy Retirement Savings Plan		(309,885)
Distributions to participants		(158,643)
	\$	(471,196)

4. Exempt Party-in-Interest Transactions:

Certain Plan investments are shares of common trust funds, separately managed funds, and a money market fund managed by State Street Bank and Trust Company (State Street). State Street is the trustee as defined by the Plan and, therefore, transactions with State Street and the funds they manage qualify as party-in-interest transactions. Fees paid by the Plan were approximately \$2,234,000 for the year ended December 31, 2007.

Also included in the Plan's investments are shares of common stock of Duke Energy. Transactions in shares of Duke Energy common stock qualify as party-in-interest transactions. At December 31, 2007 and 2006, the Plan held 43,402,134 shares and 52,614,122 shares, respectively, of the Duke Energy stock with a cost basis of \$550,193,578 and \$1,102,132,000, respectively. During the year ended December 31, 2007, the Plan recorded related dividend income of approximately \$58,748,000.

5. Federal Income Tax Status:

The Internal Revenue Service has determined and informed Duke Energy by a letter dated February 16, 2006, that the Plan is qualified and the related trust is exempt from federal income tax under the provisions of Section 501(a) of the Internal Revenue Code. The Plan is intended to be tax-qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's legal counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and the related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Adoption of New Accounting Guidance:

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value by clarifying the exchange price notion presented in earlier definitions and providing a framework for measuring fair value. SFAS 157 also expands disclosures about fair value measurements. SF AS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those years. The Company does not believe the adoption of SFAS 157 will impact the amounts reported in the Plan s financial statements; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain measurements reported in the Plan s financial statements

Table of Contents

7. Subsequent Events:

Effective January 1, 2008, the Plan changed its trustee from State Street to Fidelity Management Trust Company.

Effective January 1, 2008, the Cinergy Corp. Non-Union Employees 401(k) Plan (Cinergy Non-Union Plan) was merged into the Plan. The Cinergy Non-Union Plan was sponsored by Cinergy Corp., a wholly-owned subsidiary of the Plan's sponsor, Duke Energy. Cinergy Non-Union Plan assets totaling approximately \$595,000,000 were transferred to the Plan on January 1, 2008. Employees currently participating in the Cinergy Non-Union Plan automatically became participants in the Plan and are entitled to receive accrued benefits immediately after the merger that are equal to their accrued benefits under the Plan immediately prior to the effective date of the merger.
