Our record-setting operating profit in this year's second quarter came from our constant efforts toward overall reform of our business structure, said Young Soo Kwon, CEO of LG Display. We will develop sustainable competitive advantages and continue to foster close relationships with our customers, offering them superior technology and reliable quality.

On July 9, LG Display's Board of Directors approved investment in an additional Gen 6 facility in Gumi, Korea. The company hopes to maintain market leadership in the ever-increasing 16:9 notebook PC and monitor LCD market by investing KRW 1,361 billion in this new facility, which is expected to start mass production in the second quarter of 2009.

Overall, the company shipped a total of 3.3 million square meters of net display area in the second quarter of 2008, an increase of 3% quarter-on-quarter. For the second quarter of 2008, the cost of goods sold per square meter of net display area shipped in USD basis decreased by 5% from the first quarter of 2008.
