#### 1. Summary of Significant Accounting Policies

#### **Basis of Presentation**

In this quarterly report, unless the context otherwise requires or indicates, (i) the terms the Company, our Company, Quality Distribution, QDI, we, us and our refer to Quality Distribution, Inc. and its consolidated subsidiaries and their predecessors, (ii) the terms Quality Distribution, LLC and QD LLC refer to our wholly owned subsidiary, Quality Distribution, LLC, a Delaware limited liability company, and its consolidated subsidiaries and their predecessors, (iii) the term QD Capital refers to our wholly owned subsidiary, QD Capital Corporation, a Delaware corporation and (iv) the term Boasso refers to our wholly owned subsidiary, Boasso America Corporation, a Louisiana corporation.

We are primarily engaged in truckload transportation of bulk chemicals and are also engaged in ISO tank container transportation and depot services, tank wash facility services, logistics and other value-added services. We conduct a significant portion of our business through a network of company terminals, affiliates and independent owner-operators. Affiliates are independent companies, which enter into various term contracts with the Company. Affiliates are responsible for paying for their own power equipment (including debt service), fuel and other operating costs. Certain affiliates lease trailers from us. Owner-operators are independent contractors, who, through a contract with us, supply one or more tractors and drivers for our use. Contracts with owner-operators may be terminated by either party on short notice. We charge affiliates and third parties for the use of tractors and trailers as necessary. In exchange for the services rendered, affiliates and owner-operators are normally paid a percentage of the revenues generated for each load hauled.

Our accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and do not include all of the information and notes required by accounting principles generally accepted in the United States (U.S. GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments and accruals) considered necessary for a fair statement of consolidated financial position, results of operations and cash flows have been included. The year ended consolidated balance sheet data was derived from audited financial statements, but does not include all the disclosures required by U.S. GAAP. For further information, refer to our Annual Report on Form 10-K for the year ended December 31, 2007, including the consolidated financial statements and accompanying notes. Certain prior-period amounts have been reclassified to conform to the current year s presentation.

Operating results for the three and nine months ended September 30, 2008 are not necessarily indicative of the results that may be expected for the entire fiscal year.

#### **New Accounting Pronouncements**

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141R). This statement significantly changes the financial accounting and reporting of business combination transactions. The provisions of this statement are to be applied prospectively to business combination transactions in the first annual reporting period beginning on or after December 15, 2008. The impact of adopting SFAS 141R will depend on the nature, terms and size of business combinations completed after the effective date.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* an amendment of ARB No. 51 (SFAS 160). SFAS 160 establishes accounting and reporting standards for noncontrolling interests in subsidiaries. This statement requires the reporting of all noncontrolling interests as a separate component of stockholders equity, the reporting of consolidated net income (loss) as the amount attributable to both the parent and the noncontrolling interests and the separate disclosure of net income (loss) attributable to the parent and to the noncontrolling interests. In addition, this statement provides accounting and reporting guidance related to changes in noncontrolling ownership interests. Other than the reporting requirements described above which require retrospective application, the provisions of SFAS 160 are to be applied prospectively in the first annual reporting period beginning on or after December 15, 2008. We are currently evaluating the impact of this standard on our consolidated financial statements.

#### QUALITY DISTRIBUTION, INC. AND SUBSIDIARIES

In April 2008 the FASB issued FASB Staff Position No. FAS 142-3, Determination of the Useful Life of Intangible Assets (FSP FAS 142-3). FSP FAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, Goodwill and Other Intangible Assets. More specifically, FSP FAS 142-3 removes the requirement under paragraph 11 of SFAS 142 to consider whether an intangible asset can be renewed without substantial cost or material modifications to the existing terms and conditions and instead, requires an entity to consider its own historical experience in renewing similar arrangements. FSP FAS 142-3 also requires expanded disclosure related to the determination of intangible asset useful lives. We are currently evaluating the potential impact the adoption of FSP FAS 142-3 will have on our consolidated financial statements.

In May 2008, the FASB issued SFAS No.162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162), which identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with U.S. GAAP. SFAS 162 is effective 60 days following the Securities and Exchange Commission s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. We do not expect the adoption of SFAS 162 to have a material effect on our financial statements or related disclosures.

In June 2008, the FASB Issued EITF No. 08-3, *Accounting by Lessees for Nonrefundable Maintenance Deposits* (EITF No. 08-3). EITF No. 08-3 requires that nonrefundable maintenance deposits paid by a lessee under an arrangement accounted for as a lease be accounted for as a deposit asset until the underlying maintenance is performed. When the underlying maintenance is performed, the deposit may be expensed or capitalized in accordance with the lessee s maintenance accounting policy. Upon adoption entities must recognize the effect of the change as a change in accounting principle. The adoption of EITF No. 08-3 will not impact the Company s financial condition, results of operations or cash flows.

In June 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position No. EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP EITF 03-6-1), which addresses whether unvested equity-based awards are participating securities and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method described in FASB Statement No. 128, *Earnings per Share*. FSP EITF 03-6-1 is effective for the Company beginning December 1, 2009 and cannot be adopted early. All prior period earnings per share data presented in financial statements that are issued after the effective date shall be adjusted retrospectively to conform to the new guidance. We are currently evaluating the potential impact of the adoption of FSP EITF 03-6-1 will have on our consolidated financial statements.

#### Adoption of Statement of Financial Accounting Standards No. 157 and No. 159

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Liabilities, (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. If the fair value option is elected, unrealized gains and losses will be recognized in earnings at each subsequent reporting date. On January 1, 2008, we did not elect to adopt the provisions of SFAS 159.

On January 1, 2008, we adopted the provisions of Statement of Financial Accounting Standards No. 157, Fair Value Measurements, (SFAS 157). SFAS 157 defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements. In February 2008, the FASB issued final Staff Position No. FAS 157-1, Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements that Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13, which amended SFAS 157 to exclude FASB Statement No. 13 and its related interpretive accounting pronouncements that address leasing transactions. In February 2008, the FASB also issued final Staff Position No. FAS 157-2, Effective Date of FASB Statement No. 157, to allow a one-year deferral of adoption of SFAS 157 for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. We have elected this one-year deferral and thus will not apply the provisions of SFAS 157 to nonfinancial assets and nonfinancial liabilities that are recognized at fair value in the financial statements on a nonrecurring basis until our fiscal year beginning January 1, 2009.

#### QUALITY DISTRIBUTION, INC. AND SUBSIDIARIES

SFAS 157 enables the reader of the financial statements to assess the inputs used to develop fair value measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. SFAS 157 requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

We have no financial assets or financial liabilities that require application of SFAS 157.

We generally apply fair value techniques on a nonrecurring basis associated with (1) valuing potential impairment loss related to goodwill and indefinite-lived intangible assets accounted for pursuant to SFAS No. 142 and (2) valuing potential impairment loss related to long-lived assets accounted for pursuant to SFAS No. 144.

#### **Acquisition of Business Assets**

Acquisition of Boasso America Corporation

On December 18, 2007, we acquired 100% of the stock of Boasso. The results of Boasso have been included in our results since the date of acquisition.

The purchase price of Boasso was initially allocated to the assets acquired and liabilities assumed according to their estimated fair values at the time of the acquisition. In April 2008, pursuant to the stock purchase agreement, and based on an evaluation of the net working capital as of the date of acquisition, approximately \$1.3 million was refunded to us. The allocation of the purchase price is as follows (in thousands):

Working capital, net of cash	\$ 8,312
Property and equipment	7,209
Other long-term assets	81
Non-compete agreements	400
Customer related intangibles	11,900
Tradename	9,800
Long-term debt and capital lease obligations	(4,512)
Deferred tax liabilities	(9,435)
Goodwill	29,983

\$ 53,738

The customer-related intangible assets relate to acquired customer relationships, and are being amortized over a twelve-year weighted-average useful life on a straight-line basis. The tradename has an indefinite useful life. The allocation of the purchase price to the assets acquired and liabilities assumed may be subject to further adjustment. The goodwill acquired in this acquisition is not tax deductible, and has been allocated to the Container Services segment.

#### Other Acquisitions

During 2008, we purchased two transportation companies and an affiliate for \$2.1 million, in the aggregate, of which \$1.4 million was paid in cash at closing and the remaining \$0.7 million is payable over future periods. Of the total \$2.1 million, we allocated \$1.0 million to property and equipment, \$0.9 million to goodwill, and \$0.2 million to other intangible assets such as non-compete agreements.

## Goodwill and Intangible Assets

Goodwill

Under SFAS 142, Goodwill and Other Intangible Assets, goodwill is subject to an annual impairment test as well as impairment assessments of certain triggering events. SFAS 142 requires us to compare the fair value of the reporting

7

#### QUALITY DISTRIBUTION, INC. AND SUBSIDIARIES

unit to its carrying amount to determine if there is a potential impairment. If the fair value of the reporting unit is less than its carrying amount, an impairment loss is recorded to the extent the carrying amount of the goodwill within the reporting unit is greater than the implied fair value of goodwill.

We perform our impairment test annually during the second quarter with a measurement date of June 30th. No impairment was determined to have occurred as of June 30, 2008, since the calculated fair value exceeded the carrying amount.

Our goodwill assets as of September 30, 2008 and December 31, 2007, were \$173.1 million and \$173.6 million, respectively. In 2008, goodwill increased \$0.9 million due to the acquisition of three businesses offset by a decrease of \$1.3 million related to a purchase price adjustment based upon net working capital as of the date of the acquisition of Boasso.

Intangible Assets

Intangible assets at September 30, 2008 were as follows (in thousands):

	Gross value	Accumulated amortization	Net book value	Average lives (in years)
Tradename	\$ 9,800	\$	\$ 9,800	Indefinite

	\$ 24,851	\$ (1,727)	\$ 23,124	

Amortization expense for the nine months ended September 30, 2008 and 2007 was \$1.3 million and \$0.2 million, respectively. Remaining intangible assets will be amortized to expense as follows (in thousands):

2008 remaining	\$ 433
2009	1,665

#### 4. Stock-Based Compensation

We maintain performance incentive plans under which stock options, restricted shares, and stock units may be granted to employees, non-employee directors, consultants and advisors. As of September 30, 2008, we have three stock-based compensation plans.

We recognize expense for stock-based compensation based upon estimated grant date fair value. We apply the Black-Scholes valuation model in determining the fair value of share-based payments to employees. The resulting compensation expense is recognized over the requisite service period, which is generally the awards—vesting term. Compensation expense is recognized only for those awards expected to vest, with forfeitures estimated based on our historical experience and future expectations. All stock-based compensation expense is classified within—Compensation on the Consolidated Statement of Operations. None of the stock-based compensation was capitalized during 2008.

The fair value of options granted during the first nine months of 2008 and 2007 was based upon the Black-Scholes option-pricing model. The expected term of the options represents the estimated period of time until exercise giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. For 2008, expected stock price volatility is based on the historical volatility of our common stock, which began trading on November 13, 2003. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant with an equivalent remaining term. The Company has not paid dividends in the past and does not currently plan to pay any dividends in the foreseeable future. The Black-Scholes model was used with the following weighted average assumptions:

	2008	2007
Risk free rate	3.21%	4.65%
Expected life	5 years	5 years
Volatility	67.3%	68.5%
Expected dividend	nil	nil

The following options and restricted shares were issued during the nine months ended September 30, 2008:

	Options Issued	Restricted Shares Issued
Quarter ended March 31, 2008	227,000	73,326
Quarter ended June 30, 2008	105,000	17,910
Quarter ended September 30, 2008	50,000	

On July 28, 2008, we issued options for 50,000 shares to our Chief Financial Officer. The exercise price of options granted was based on the fair market value of our stock at the date of the grant.

#### QUALITY DISTRIBUTION, INC. AND SUBSIDIARIES

The following table summarizes stock-based compensation expense (in thousands):

	Three months ended September 30,				Nine months ended September 30,			
	2	2008	2	2007	2	2008	2	2007
Stock options	\$	319	\$	306	\$	868	\$	974

The following table summarizes unrecognized stock-based compensation and the weighted average period over which such stock-based compensation is expected to be recognized as of September 30, 2008 (in thousands):

		Remaining
	In \$	years
Stock options	\$ 2,299	4
Restricted stock	650	4
	\$ 2,949	

These amounts do not include the cost of any additional awards that may be granted in future periods nor any changes in our forfeiture rate. No options were exercised during the nine months ended September 30, 2008.

#### 5. Employee Benefit Plans

We maintain two noncontributory defined benefit plans resulting from a prior acquisition that cover certain full-time salaried employees and certain other employees under a collective bargaining agreement. Retirement benefits for employees covered by the salaried plan are based on years of service and compensation levels. The monthly benefit for employees under the collective bargaining agreement plan is based on years of service multiplied by a monthly benefit factor. Pension costs are funded in accordance with the provisions of the applicable law.

We use a December 31st measurement date for both of our plans.

The components of estimated net periodic pension cost are as follows (in thousands):

		onths ended mber 30,	Nine months ended September 30,		
	2008	2007	2008	2007	
Service cost	\$ 54	\$ 64	\$ 160	\$ 192	
Interest cost	682	670	2,047	2,010	
Amortization of prior service cost	23	23	70	70	
Amortization of loss	88	104	265	312	
Expected return on plan assets	(800)	(821)	(2,401)	(2,463)	
Net periodic pension cost	\$ 47	\$ 40	\$ 141	\$ 121	

We have contributed \$0.9 million to our pension plans during the nine months ended September 30, 2008. The amount we expect to contribute during the remainder of 2008 is minimal.

#### QUALITY DISTRIBUTION, INC. AND SUBSIDIARIES

#### 6. Restructuring

During the quarter ended June 30, 2008, we committed to a plan of restructure resulting in the termination of approximately 75 employees and certain contracts. As a result, we recorded a restructuring charge in the second quarter of \$2.4 million of which the majority related to our trucking segment. During the third quarter, we recorded a restructuring charge of \$1.7 million of which the majority related to our trucking segment for additional contract termination costs and related exit costs as we continued with our plan of restructure. As of September 30, 2008, approximately \$1.1 million was accrued related to the restructuring charges, which is expected to be paid through the remainder of 2008 and 2009.

We account for restructuring costs associated with one-time termination benefits, costs associated with lease and contract terminations and other related exit activities in accordance with SFAS No. 146 Accounting for Costs Associated with Exit or Disposal Activities .

In the nine months ended September 30, 2008, we had the following activity in our restructuring accruals:

	Balance at				Balance at
	December 31,				September 30,
	2007	Additions	Payments	Reductions	2008
Restructuring costs	\$	\$ 4,075	\$ (2,233)	\$ (756)	\$ 1,086

#### 7. Segment Reporting

Reportable Segments

Prior to 2008, we reported our financial information as a single segment. Beginning January 1, 2008, we have two reportable business segments for financial reporting purposes that are distinguished primarily on the basis of services offered:

Trucking, which consists of truckload transportation of bulk chemicals; and

Container Services, specifically International Organization for Standardization, or ISO tank container transportation and depot services.

Due to the acquisition of Boasso in December 2007, we further enhanced our scope of services in the ISO tank container transportation and depot services market so that management now evaluates isolated revenues associated with these services and with trucking.

Segment revenues and operating income include the allocation of fuel surcharge. The operating income reported in our segments excludes amounts reported in Other operating income, such as corporate and other unallocated amounts. Corporate and unallocated amounts include depreciation and amortization, other gains and losses and restructuring costs. Although these amounts are excluded from the business segment results, they are included in reported consolidated earnings. Included in Other revenue are revenues from our tank wash services and other value-added services. We have not provided specific asset information by segment, as it is not regularly provided to our chief operating decision maker for review.
