**PROXY STATEMENT**

**2008 ANNUAL MEETING OF STOCKHOLDERS**

**To Be Held December 19, 2008**

**INFORMATION ABOUT THE MEETING**

***The Meeting***

This Proxy Statement is being furnished in connection with the solicitation of proxies by the board of directors of MEMSIC, Inc., a Delaware corporation ( *MEMSIC* or the *Company* ), for use at the Company's Special Meeting in Lieu of Annual Meeting of Stockholders to be held on Friday, December 19, 2008 (the *Annual Meeting* ) at 10:00 a.m., local time, at the offices of Foley Hoag LLP, Bay Colony Corporate Center, 1000 Winter Street, Suite 4000, Waltham, Massachusetts 02451 or at any postponements or adjournments thereof. The purpose of the Annual Meeting is to consider and act upon the following proposals:

1. To elect two members to our board of directors to serve for three-year terms as Class I directors;
  2. To ratify the selection of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2008; and
  3. To transact such other business as may properly come before the Annual Meeting or any postponements or adjournments thereof.
- This Proxy Statement and the enclosed proxy card, as well as our 2007 Annual Report, containing financial statements and management's discussion and analysis of financial condition and results of operations for the twelve months ended December 31, 2007, will be mailed to stockholders on or about December 3, 2008.

***How to Vote***

Only stockholders of record at the close of business on November 7, 2008 (the *Record Date* ) will be entitled to notice of, and to vote at, the Annual Meeting or any adjournment thereof. As of the Record Date, an aggregate of 23,790,225 shares of common stock, \$0.00001 par value per share (the *Common Stock* ), of the Company were issued and outstanding and held by approximately 51 holders of record. The holders of Common Stock are entitled to one vote per share on any proposal presented at the Annual Meeting. Stockholders may vote in person or by proxy. Execution of a proxy will not affect a stockholder's right to attend the Annual Meeting and vote in person. Any proxy may be revoked by

## Edgar Filing: MEMSIC Inc - Form DEF 14A

the person giving it at any time before its exercise by (1) filing with the Secretary of the Company, before the taking of the vote at the Annual Meeting, a written notice of revocation bearing a later date than the proxy, (2) duly executing a later dated proxy relating to the same shares and delivering it to the Secretary of the Company before the taking of the vote at the Annual Meeting, or (3) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy should be delivered to MEMSIC, Inc., One Tech Drive, Suite 325, Andover, Massachusetts 01810, Attention: Corporate Secretary, at or before the taking of the vote at the Annual Meeting.

***Quorum and Tabulation of Votes***

Our bylaws provide that the presence in person or representation by proxy of the holders of at least a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting is necessary to establish a quorum for the transaction of business at the Annual Meeting. If, however, a quorum is not present, then either the chairman of the meeting or the stockholders entitled to vote at the meeting may adjourn the meeting until a later time. Abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum. A broker non-vote occurs when a broker holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because, in respect of such other proposal, the broker does not have discretionary voting power and has not received instructions from the beneficial owner. The election of directors and the ratification of the appointment of independent registered public accounting firms are considered routine matters and under the rules that currently govern brokers and banks, brokers will have discretion to vote shares held in street name for their clients on those matters.

The election of each nominee for election of director requires a plurality of the votes cast and, accordingly, the director nominees receiving the highest number of FOR votes at the meeting will be elected to serve as Class I directors. You may either vote FOR or WITHHOLD your vote for each director nominee. A properly executed proxy marked WITHHOLD with respect to the election of a director nominee will not be voted in favor of the election of that director nominee, although it will be counted for purposes of determining whether there is a quorum.

Stockholder ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008 is not required by law or by our governing instruments. However, our board of directors is submitting the selection of Ernst & Young LLP to our stockholders for ratification as a matter of good corporate governance and practice. Under our bylaws, the ratification of the appointment of Ernst & Young LLP requires a majority of the votes cast. You may vote either FOR or AGAINST ratification of the appointment, or you may abstain. A properly executed proxy marked ABSTAIN with respect to the ratification of the appointment will not be counted as a vote cast with respect to such ratification.

The only items of business that our board of directors intends to present at the meeting are set forth in this proxy statement. As of the date of this proxy statement, no stockholder has advised us of an intent to present any other matter, and we are not aware of any other matters to be presented at the meeting. If any other matter or matters are properly brought before the meeting, the person(s) named as your proxyholder(s) will have the discretion to vote your shares on those matters in accordance with their best judgment and as they deem advisable.

The vote on each matter submitted to stockholders is tabulated separately. Abstentions and broker non-votes are not counted as votes cast for the particular matter and, in the case of Proposal Two, have the effect of reducing the number of affirmative votes required to achieve a majority for that matter by reducing the total number of shares from which the majority is calculated.

The persons named as attorneys-in-fact in the proxies were selected by the board of directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted.

**All shares represented by properly executed proxies will be voted in accordance with the stockholders' instructions, and if no choice is specified, the shares represented by proxies will be voted in favor of the election of both director nominees and in favor of the ratification of the selection of Ernst & Young LLP as our independent auditors.**

**Table of Contents****PROPOSAL ONE ELECTION OF CLASS I DIRECTORS**

Our board of directors has fixed the number of directors at seven pursuant to our bylaws. There currently are two vacancies on our board of directors. The term of office of David Yang, our only current Class I director, expires on the date of the 2008 Annual Meeting. Our board of directors has nominated Mr. Yang for re-election as a Class I director and has nominated Lawrence A. Kaufman for election as a Class I director to fill one of the vacancies on the board, in each case for a three-year term expiring at our annual meeting of stockholders in 2011. Our Class II and Class III directors will continue in office after the Annual Meeting.

***Classes of the Board of Directors***

Our board of directors is divided into three classes. Each of the directors serves a three-year term, with one class of directors being elected by our stockholders at each annual meeting. Currently, our directors are divided into Classes I, II and III as follows:

***Nominee for Election***

At the Annual Meeting, two Class I directors will be elected to serve until the 2011 annual meeting and until such directors' successors are duly elected and qualified, or until their earlier death, resignation, removal or disqualification. The board of directors has nominated Lawrence A. Kaufman for election and David Yang for re-election as Class I directors. Both nominees have agreed to serve if elected, and we have no reason to believe that either will be unable to serve. In the event that a nominee is unable or declines to serve as a director at the time of the Annual Meeting, proxies will be voted for such other nominee as is then designated by our board of directors.

### ***Chairman of the Board and Lead Director***

Yang Zhao, our president and chief executive officer, is also the chairman of our board of directors. In that capacity, he presides over all meetings of the board.

In March 2008, our board of directors established the additional position of lead director and appointed Roger Blethen to serve in that position. Our lead director is a non-employee director whose responsibilities are to:

Preside over board meetings in the absence of the chairman and lead executive sessions of the board (i.e., sessions without management present);

Consult with other directors concerning corporate governance matters and identification of issues for board meeting discussions and set the board meeting agenda in consultation with the chairman;

Advise the chief executive officer on organizational development, business strategy and corporate governance; and

Advise the chief executive officer and chief financial officer on appropriate communications policies and procedures.

### ***Director Independence***

A majority of our directors are independent within the meaning of the applicable rules of the Securities and Exchange Commission, or SEC, and The Nasdaq Stock Market, LLC. Specifically, our board of directors has determined that each of Messrs. Blethen, Tung, Yang and Zavracky is an independent director, and that Mr. Kaufman will upon his election be an independent director.

Each executive officer serves at the discretion of the board of directors and holds office until his or her successor is elected and qualified or until his or her earlier resignation or removal. There are no family relationships among any of our directors and executive officers.

### ***Committees of the Board of Directors***

Our board of directors has established an audit committee, a compensation committee and a nominating committee, which are the only standing committees of the board of directors.

*Audit committee.* Our audit committee consists of Messrs. Tung, Yang and Zavracky, with Mr. Tung serving as chair. Our audit committee oversees our corporate accounting and financial reporting process and internal controls over financial reporting. Our audit committee evaluates the qualifications, independence and performance of our independent registered public accounting firm, Ernst & Young LLP; engages and determines the compensation of the independent auditor; approves the retention of the independent auditor to perform any proposed permissible non-audit services; reviews our financial disclosures, including our critical accounting policies and internal controls over financial reporting; prepares an annual report to our stockholders for inclusion in our proxy statement; reviews and approves in advance any proposed related party transactions; and discusses with management and the independent auditor the results of the annual audit and our financial statements. We believe that our audit committee members meet the requirements for independence and financial literacy under the current requirements of the Sarbanes-Oxley Act of 2002, The Nasdaq Global Market and SEC rules and regulations. In addition, the board of directors has determined that Mr. Tung is qualified as an audit committee financial expert within the meaning of the SEC rules and regulations.

*Compensation committee.* Our compensation committee consists of Messrs. Blethen, Yang and Zavracky, with Mr. Blethen serving as chair. Our compensation committee administers our stock option plans and employee stock purchase plans; recommends to our board of directors the compensation of our executive officers; prepares a report of the committee required by the rules of the SEC to be included in our proxy

statement; recommends to our board of directors any performance-based awards to be granted to any of our executive officers or other employees; recommend to our board of directors the terms and conditions of any employment agreement and any arrangements regarding severance or change of control payments with any of our executive officers; recommend to our board of directors, and review periodically, the compensation of our directors, recommend to our board of directors, and review periodically, the composition of our plans and programs for employee compensation. We believe that each member of our compensation committee meets the requirements for independence under, and the functioning of our compensation committee complies with, any applicable requirements of The Nasdaq Global Market and SEC rules and regulations.

*Nominating committee.* Our nominating committee currently consists of Messrs. Tung, Zavracky, and Zhao, with Dr. Zavracky serving as chair. Our nominating committee identifies individuals qualified to become members of the board and to recommend to our board of directors nominees for election as directors. We believe that Messrs. Blethen, Tung and Zavracky meet the independence requirements under The Nasdaq Global Market and SEC rules. Dr. Zhao, as our president and chief executive officer, is not independent under these rules. Under The Nasdaq Global Market and SEC rules, we are permitted to maintain a nominating committee comprised of less than all independent members for one year from the initial listing of our securities. Dr. Zhao has advised us that he intends to resign as a member of our nominating committee effective not later than December 13, 2008.

### ***Compensation Committee Interlocks and Insider Participation***

No member of our board of directors or our compensation committee serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of our board of directors or compensation committee. None of the members of our compensation committee has ever been an executive officer or employee of our company.

### ***2007 Director Compensation***

Historically, we did not provide cash compensation to directors for their services as directors or members of committees of our board of directors, nor have we compensated our directors who are affiliated with venture capital firms that are significant stockholders of our company for their services as directors. Messrs. Blethen and Zavracky have received compensation in the form of non-qualified stock options. We reimbursed directors for their reasonable expenses incurred in attending meetings of our board of directors and of committees of our board of directors.

In February 2008, our board of directors adopted a new policy for compensation of our non-employee directors, under which they receive cash retainers (payable quarterly in arrears), per meeting fees and annual stock option awards, as follows:

Each non-employee director receives a cash retainer in the amount of \$20,000 per year;

Our lead director and chairpersons of our standing committees receive additional annual cash retainers, as follows: lead director, \$20,000; audit committee chair, \$10,000; compensation committee chair, \$7,500; and nominating committee chair, \$5,000;

Each incumbent non-employee director receives annually a non-qualified stock option to purchase 12,000 shares of our common stock, and any newly elected non-employee director will receive upon such election a non-qualified stock option to purchase 20,000 shares of our common stock; and

Our non-employee directors also receive cash fees for each meeting of the board of directors or of any committee of which they are members that they attend, as follows: all non-employee directors, \$2,500 per board meeting; audit committee chair, up to \$1,500 per audit committee meeting; compensation committee chair, \$2,500 per compensation committee meeting; and other members of our standing committees, \$1,000 per committee meeting.

**Table of Contents**

The following table details the compensation paid to our directors, other than Dr. Zhao, during the year ended December 31, 2007.

	Fees earned or paid in cash	Option Awards <sup>(1)</sup>	Non-Equity Incentive Plan Compensation	All Other Compensation	Total
Roger W. Blethen <sup>(2)</sup>	\$	\$ 23,250	\$	\$ 60,000	\$ 83,250
Ron Dizey <sup>(3)</sup>					
James A. Saalfield <sup>(3)</sup>					
Michael Tung					
David Yang					
Paul M. Zavracky <sup>(4)</sup>		13,950			13,950

<sup>(1)</sup> Amounts shown do not reflect compensation actually received. The amounts shown represent expense recognized in our 2007 consolidated financial statements in accordance with SFAS 123(R), except that we have disregarded any estimate of future forfeitures related to service-based vesting conditions with respect to such option awards. The other assumptions used to calculate the expense amounts shown for stock options in 2007 are described in Note 10 to the consolidated financial statements in our annual report on Form 10-K for the year ended December 31, 2007, filed with the SEC on March 14, 2008.

<sup>(2)</sup> Mr. Blethen provides us management consulting services for which he is compensated at the rate of \$5,000 per month. He was also granted a stock option to purchase 75,000 shares of our common stock on April 28, 2005 at an exercise price of \$0.30 per share, vesting in four equal installments over four years. As of December 31, 2007, 37,500 options were vested and 37,500 options remained available for exercise (including vested and unvested options).

<sup>(3)</sup> Messrs. Dizey and Saalfield resigned as directors immediately following our initial public offering in December 2007.

In March 2008, each of Messrs. Blethen, Tung, Yang and Zavracky received a grant of a non-qualified stock option to purchase 12,000 shares of our common stock pursuant to our amended director compensation policy.

***Meetings of the Board of Directors***

Our board of directors met in person or by telephone 13 times during the year ended December 31, 2007. All of our directors attended at least 75% of the aggregate of the total number of meetings of the board of directors and meetings held by all committees of the board on which they served in 2007.

***Policy Regarding Board Attendance***

Our directors are expected to attend meetings of the board of directors and meetings of committees on which they serve. Our directors are expected to spend the time needed at each meeting and to meet as frequently as necessary to properly discharge their responsibilities. We encourage members of our board of directors to attend annual meetings of stockholders, but we do not have a formal policy requiring them to do so.

***Director Candidates and Selection Process***

Our nominating committee is responsible for identifying and reviewing candidates to fill open positions on the board of directors, including positions arising as a result of the expiration of the term, removal, resignation or retirement of any director, an increase in the size of the board or otherwise, and recommending to our full board

candidates for nomination for election to the board. In recommending new directors, the committee will consider any requirements of applicable law or listing standards, a candidate's strength of character, judgment, business experience and specific area of expertise, factors relating to the composition of the board (including its size and structure), principles of diversity, and such other factors as the committee deems to be appropriate.

The committee is responsible for reviewing from time to time the appropriate skills and characteristics required of board members in the context of the current make-up of the board, including such factors as business experience, diversity, and personal skills in technology, finance, marketing, sales, financial reporting and other areas that contribute to an effective board.

Stockholders may recommend individuals to the nominating committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of our common stock for at least a year as of the date such recommendation is made, to our nominating committee, c/o Corporate Secretary, MEMSIC, Inc., One Tech Drive, Suite 325, Andover, Massachusetts 01810. Assuming that appropriate biographical and background material has been provided on a timely basis, the nominating committee will evaluate stockholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others. If the board determines to nominate a stockholder-recommended candidate and recommends his or her election, then his or her name will be included in our proxy card for the next annual meeting. Any recommendation of a potential director nominee should also include a statement signed by the proposed nominee expressing a willingness to serve on our board if elected. As part of this responsibility, the committee will be responsible for conducting, subject to applicable law, any and all inquiries into the background and qualifications of any candidate for the board and such candidate's compliance with the independence and other qualification requirements established by the committee or imposed by applicable law or listing standards.

### ***Stockholder Communications with the Board***

Stockholders wishing to communicate with our board should send correspondence to the attention of the Chairman of the Board of Directors, c/o Corporate Secretary, MEMSIC, Inc., One Tech Drive, Suite 325, Andover, Massachusetts 01810, and should include with the correspondence evidence that the sender of the communication is one of our stockholders. Satisfactory evidence would include, for example, contemporaneous correspondence from a brokerage firm indicating the identity of the stockholder and the number of shares held. The Chairman will review all correspondence confirmed to be from stockholders and decide whether or not to forward the correspondence or a summary of the correspondence to the full board or a committee of the board, or if the Chairman determines in accordance with his best judgment that the matter can be addressed by management, then to the appropriate officer of the Company. The Chairman will review all stockholder correspondence, but the decision to relay that correspondence to the full board or a committee will rest entirely within his discretion. Our board believes that this process will suffice to handle the relatively low volume of communications we have historically received from our stockholders. If the volume of communications increases such that this process becomes burdensome to the Chairman, our board may elect to adopt more elaborate screening procedures.

### ***Code of Conduct and Code of Ethics***

Our board of directors has adopted a code of conduct, which establishes the standards of ethical conduct applicable to all of our directors, officers and employees. Our code of conduct addresses issues relating to, among other things, conflicts of interest, related party transactions, use of company funds and sensitive payments, corporate opportunities, internal controls over financial reporting, and confidential information. In addition, our board of directors has adopted a code of ethics applicable to our chief executive officer and chief financial officer. Our code of ethics sets guidelines for these individuals to implement policies and procedures to enhance disclosure and reporting system at our company. **PROPOSAL TWO RATIFICATION OF APPOINTMENT OF INDEPENDENT  
REGISTERED PUBLIC ACCOUNTING FIRM**

Ernst & Young LLP currently serves as our independent registered public accounting firm and audited our consolidated financial statements for the year ended December 31, 2007. Our audit committee has appointed Ernst & Young LLP to serve as our independent registered public accounting firm for 2008 and to audit our consolidated financial statements for the year ending December 31, 2008.

Our audit committee is responsible for selecting and appointing our independent registered public accounting firm, and this appointment is not required to be ratified by our shareholders. However, our audit committee has recommended that the board of directors submit this matter to the shareholders as a matter of good corporate practice. If the shareholders fail to ratify the appointment, the audit committee will reconsider whether to retain Ernst & Young LLP, and may retain that firm or another without re-submitting the matter to our shareholders. Even if the appointment is ratified, the audit committee may, in its discretion, direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of our company and shareholders.

In order to pass, this proposal must receive a majority of the votes cast with respect to this matter.

### ***Compensation Discussion and Analysis for 2007***

#### ***General***

We seek to attract and retain talented and dedicated executive officers in the semiconductor industry. To that end, we aim to compensate our executive officers in a manner consistent with our strategy and competitive practice and to align executive officers' incentives with stockholder value creation. We evaluate individual executive officer performance with a goal of setting compensation at levels we believe are comparable with executive officers in other companies of similar size, industry, comparability of labor markets and product offering, market capitalization, research and development investment, financial performance, and stage of development. We generally seek to ensure that compensation is appropriate for an executive officer's level of responsibility and for the promotion of future performance.

#### ***Executive Compensation Process***

Prior to our initial public offering in December 2007, our process for setting executive compensation was informal. Our compensation committee determined the compensation package of Yang Zhao, our founder and chief executive officer, and Dr. Zhao determined the compensation of our other executive officers. Decisions regarding the grant of equity compensation were made by our board of directors, typically based upon recommendations from Dr. Zhao. The members of our board of directors have substantial managerial experience and wide contacts in the semiconductor industry and in the broader technology industry, upon which they rely in formulating their compensation decisions. Before 2008, we did not retain the services of a compensation consultant to review our policies and procedures or make recommendations with respect to executive compensation.

In determining our chief executive officer's compensation for 2007, including the appropriate mix of different forms of compensation, our compensation committee conducted a benchmark review based on information about the compensation practices of private companies in the semiconductor and other advanced technology- and information technology-related industries. The committee derived this information from an independent and publicly available compensation report, the 2006 Annual Compensation and Entrepreneurship Report in Information Technology sponsored by WilmerHale LLP, Ernst & Young LLP and J. Robert Scott, which we refer to as the Survey Report. The Survey Report is a survey of approximately 300 companies in the private sector and does not identify the companies sampled by name, but anonymously classifies companies by size, region and business segment.

In addition, in setting our chief executive officer's base salary and target bonus for 2007, the compensation committee evaluated his performance in 2006 measured against annual performance objectives and milestones that were established by the committee in 2006, which included revenue and profit growth, gross margin performance, expense control, introduction of new products to market, key accounts won and lost, and recruitment of key personnel, among others.

Base salaries for our other executive officers for 2007 were established by our chief executive officer, based on his assessment of the scope of their responsibilities and individual experience, and also taking into account competitive market compensation as reviewed in the Survey Report. Although this did not involve any formal benchmarking process, our chief executive officer subjectively attempted to keep the compensation of our executive officers within reasonable limits comparable with those companies in the Survey Report that have more than 76 employees, are located in the New England area and are in the software and hardware, semiconductor and electronics businesses.

## Table of Contents

Although we have not adopted any formal guidelines for allocating total compensation between equity compensation and cash compensation, we believe it is important for our executive officers to have some equity ownership in our company to provide them with long-term incentives. We intend to implement and maintain compensation plans that tie a substantial portion of our executive officers' overall compensation to our short-term and long-term performance. Accordingly, since 2000, we have granted our executive officers equity awards in the form of stock options. We have determined the amount of grants to each executive officer based on their prior experience if newly recruited, their ability to meet performance goals, whether they attained notable achievements, and their contribution to our overall performance.

For 2008, the compensation of each executive officer, other than that of our chief executive officer, will be proposed by our chief executive officer and will be subject to approval by our compensation committee. Compensation of our chief executive officer will continue to be determined by our compensation committee. In February 2008, our compensation committee engaged Pearl Meyer & Partners LLC to assist the compensation committee in making determinations with respect to base salaries, discretionary bonuses and equity-based compensation awards to our executive officers for 2008.

### *Elements of Compensation*

Our compensation package for our executive officers consists of three principal elements:

base salary;

short-term incentive compensation in the form of annual discretionary cash bonuses; and

long-term equity-based incentive compensation, in the form of stock options.

### ***Base salary.***

In determining our chief executive officer's salary for 2007, the compensation committee considered the stage of our development in setting his base salary at approximately the 75th percentile of the comparable private companies surveyed in the Survey Report, after taking into account aging of the data. The compensation committee considered the 75th percentile to be appropriate because it believed that we were comparable to the upper end of the companies in the survey in terms of size, number and success in financing and in terms of a high level of performance for a company of our age. Based upon these considerations, our chief executive officer's base salary for 2007 was fixed at \$250,000.

In determining compensation for our other executive officers for 2007, our chief executive officer sought to set overall compensation that is competitive and commensurate with each officer's experience. For existing executive officers, he sought to set overall compensation at approximately the 75th percentile of the private companies surveyed in the Report. For newly hired executive officers, each element of compensation as well as overall compensation was set at approximately the 50th percentile of the comparable companies surveyed in the Survey Report. However, this is not a strict formula, as individual compensation may vary based on individual industry experience and professional achievements as well as on individual negotiations with the executive officers who may have differing preferences for equity or cash compensation. Based upon these considerations, our chief executive officer fixed the 2007 base salary for our then vice president of finance, Patricia Niu, at \$120,000 and for our former vice president of operations, Feiming Huang, at approximately \$114,000. Mr. Huang's salary, bonus and severance payments were fixed and paid in RMB.

Three additional executive officers joined us in 2007: in July 2007, Shang Hsiao became our chief financial officer with an annual base salary of \$150,000; in February 2007, Patrick Chiumiento became our vice president of marketing and business development with an annual base salary of \$180,000; and in July 2007, Gary O'Brien became our vice president of engineering with an annual base salary of \$160,000.

---

**Table of Contents**

In August 2008, our compensation committee approved a compensation plan for 2008 which included annual base salaries for Mr. Chiumiento, Mr. O'Brien and Ms. Niu of \$190,000, \$180,000 and \$155,000 respectively.

**Discretionary annual bonus.** In addition to base salaries, our executive officers are awarded discretionary annual bonuses that are intended to reward officers for achievement of profit and business goals and for achieving individual annual performance objectives. These objectives may vary depending on the individual executive officer, but relate generally to financial and operational targets.

For 2007, the compensation committee established a bonus plan focused on revenue, major account wins and introduction of new products to market with the weight of each element varying depending on the executive officer's responsibilities. Bonus levels depended on each executive officer's performance measured against specific performance objectives. Annual bonuses are paid in cash in an amount reviewed and approved by our board of directors, which has worked to determine the performance and operational criteria necessary for the award of such bonuses. The compensation committee retained discretion over the bonus plan and had the right to terminate it at any time.

Under the 2007 bonus plan, the target bonus payment any executive officer, with the exception of Dr. Zhao, could receive is measured as a fixed percentage of such executive officer's salary based on whether the performance objectives were met. The actual bonus payment varies based on how well the executive officer achieved the pre-determined performance objectives, as determined by our compensation committee.

For 2007, the performance objectives for our chief executive officer included a target for increases in net sales over 2006 with increasing bonus amounts for every increment of one million dollars achieved above the target. For reaching the target of an approximately 46% increase in net sales over 2006, the bonus would be \$8,000; approximately 54% increase in net sales, the bonus would be \$17,000; approximately 62% increase in net sales, the bonus would be \$31,000; approximately 69% increase in net sales, the bonus would be \$49,000; approximately 77% increase in net sales, the bonus would be \$70,000; approximately 85% increase in net sales, the bonus would be \$90,000; approximately 92% increase in net sales, the bonus would be \$108,000; approximately 100% increase in net sales, the bonus would be \$129,000; approximately 108% increase in net sales, the bonus would be \$155,000; and approximately 115% increase in net sales, the bonus would be \$185,000. The additional incentives for our chief executive officer remained the same as in 2006, i.e., for each key account won, \$10,000; for each new product developed and delivered, \$20,000; and upon assembling the management team, \$25,000. A key account is any new customer that contributes over \$0.3 million in net sales.

For 2007, the compensation committee applied the same bonus plan as in 2006 for our vice president of operations and vice president of finance:

The performance objectives for our vice president of operations included surpassing a net income target by at least 5% for a bonus of a 2% of base salary and a 2% additional bonus for each incremental 5% increase, surpassing a net sales target at a pre-determined baseline of \$12.0 million for a bonus of 5% of base salary for each \$1 million increase above the baseline. In addition, maintaining 100% on-time order shipment as net sales increase, maintaining a customer return rate below 10 units per million units shipped and reducing costs by 10% were rewarded with a bonus of 5%, 5% and 10% of base salary, respectively. As a result of his resignation in December 2007, Mr. Huang did not qualify for a bonus under his 2007 incentive bonus plan. In January 2008, we entered into a Separation and Release Agreement with Mr. Huang which provided, among other things, that we would pay him a bonus of RMB 220,000 Yuan for his work in 2007.

The performance objectives for our vice president of finance included reaching a net income target for a bonus of 8% of base salary and an additional 8% bonus for each incremental 10% increase. Maintaining internal financial control within target was rewarded with a 10% bonus of base salary.

## Table of Contents

The net income target for both of these vice presidents was \$6.0 million before tax, charges associated with change in value of warrants in 2007 and extraordinary items. For both these vice presidents, the target bonus for 2007 was 30% of their base salary. The compensation committee, with the recommendation of our chief executive officer, also established performance objectives for the new executive officers who joined in 2007:

Our chief financial officer would be eligible for a discretionary bonus of \$50,000 upon the completion of preparations for our initial public offering.

The performance objectives for our vice president of engineering included reaching a net income target for a bonus of 2% of base salary and an additional 2% bonus for each incremental 10% increase in net income above the target, successful introduction and development of new product with a 10% bonus per product, and development and on-time introduction of technology platform with which to implement each new product with a 10% bonus per product.

The performance objectives for our vice president of marketing and business development included reaching a net income target for a bonus of 2% bonus of base salary and an additional 2% bonus for each incremental 5% increase in net income above the target, key partnership development with a 10% bonus per new relationship, and on-time introduction of new product with respect to product solution, strategic positioning and introduction to market with a 10% bonus for each new product. A key partnership is a relationship developed with a company that has leading-edge technology and solutions that would enhance our ability to penetrate new market segments or create new solutions for our customers.

The net income target for the vice president of engineering and the vice president of marketing and business development is \$6.0 million before tax and extraordinary items in 2007. For both these vice presidents, the target bonus for 2007 was 30% of their base salary.

In addition to the foregoing, in his February 2007 offer letter, we agreed to pay Mr. Chiumiento, our vice president of marketing and business development, a guaranteed bonus of \$10,000 after his first six months of employment, and in his July 2007 offer letter, we agreed to pay to Gary O Brien, our vice president of engineering, a guaranteed bonus of \$8,000 after his first six months of employment.

In March 2008, our compensation committee awarded to our executive officers cash bonuses for 2007, as follows:

our chief executive officer was awarded a bonus in the amount of \$185,000, of which \$90,000 was in recognition of our net sales growth in 2007, \$20,000 was in recognition for new product introductions, \$25,000 was in recognition for the hiring of our management team and \$50,000 was in recognition of his efforts in preparing for our initial public offering in December 2007;

our chief financial officer was awarded a bonus in the amount of \$50,000, in recognition of his efforts in preparing for our initial public offering;

our vice president of finance was awarded a bonus in the amount of \$65,000, of which \$50,000 was in recognition of her efforts in preparing for our initial public offering and \$15,000 was in recognition her effort in maintaining internal control and reaching our net income target;

our vice president of engineering was awarded a bonus in the amount of \$20,000, of which \$8,000 was the guaranteed bonus provided for in his offer letter and \$12,000 was a discretionary bonus in recognition of his contribution to our engineering and

product development efforts in 2007; and

our vice president of marketing and business development was awarded a bonus in the amount of \$30,000, of which \$10,000 was the guaranteed bonus provided for in his offer letter and \$20,000 was a discretionary bonus in recognition of his contribution to our marketing and business development efforts in 2007.

**Long-term incentives.** We believe that our current compensation structure is sufficient to align the interests of our executive officers with those of our stockholders and that long-term performance is achieved through an ownership culture that encourages performance by our named executive officers through the use of stock-based awards. We utilize stock options and restricted common stock to ensure that our named executive officers have a continuing stake in our long-term success. The board of directors has considered outstanding job performance, contributions to our company and achievement of certain performance objectives in granting past awards as well as the level of equity awards to employees of comparable companies included in the Survey Report.

In August 2007, we granted options to purchase an aggregate of 447,500 shares of common stock to approximately 100 employees. Of these, Mr. Huang received options for 100,000 shares which expired unexercised when he resigned in January 2008, and Ms. Niu received options for 50,000 shares, which vest 25% at each anniversary of grant at an exercise price of \$7.64 per share. These awards were determined by our board of directors, based on recommendations from Dr. Zhao.

In October 2007, we also granted Dr. Zhao an option award of 250,000 shares, which vests in equal installments over four years and an additional performance-based option award of 250,000 shares, each at an exercise price of \$11.70 per share. The performance-based options vest based on the following terms and conditions: (i) vesting as to any shares would be contingent upon the completion of our initial public offering, and (ii) 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$10.5 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisitions; (iii) an additional 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$13.1 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisitions; (iv) an additional 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$15.8 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisition; and (v) an additional 62,500 shares would vest on the day after any period of 12 rolling months in which we recognize at least \$18.4 million in earnings before taxes, excluding amortization of intangible assets associated with future acquisitions. Irrespective of the above terms and conditions, the options shall vest fully on the eighth anniversary of the grant date.

Dr. Zhao's grant was determined by our board of directors with input from the compensation committee regarding chief executive officer share ownership as compared with the private companies surveyed in the Survey Report. Assuming that the total 500,000 options granted fully vests, Dr. Zhao's equity ownership based on our shares outstanding at September 30, 2007 would have been within the median range of the CEO founders of companies in the Survey Report and Dr. Zhao would have held about 13% of the Company's equity, whereas the median range of equity holdings for CEO founders was 10% to 18.6%.

We also granted stock options to each of the three executive officers who joined us in 2007. On February 5, 2007, we granted Mr. Chiumiento stock options to purchase 110,000 shares of our common stock at an exercise price of \$1.54 per share. On July 12, 2007, we granted Mr. Hsiao stock options to purchase 275,000 shares of our common stock at an exercise price of \$4.88 per share. These options expired unexercised when Mr. Hsiao resigned in June 2008. On July 26, 2007, we granted Mr. O'Brien stock options to purchase 55,000 shares of our common stock at an exercise price of \$4.88 per share. For new hires such as Messrs. O'Brien, Hsiao and Chiumiento, equity awards were commensurate with individual experience, but were also subject to individual negotiation. The amount of each grant took into account current executive officers and the specific number of shares and their value at the time of grant required to recruit each individual. Prior to the offering, Dr. Zhao recommended to the compensation committee the amount of equity grants to the named executive officers, with the exception of himself. The compensation committee considers his recommendation and the above considerations in awarding each equity grant. At the time of these grants, the exercise prices were determined by our board of directors based on an estimate of the fair value of our common stock. Subsequent to the grants, and in connection with the preparation of our consolidated financial statements for 2007, we obtained from an independent third party specialist retrospective valuation reports as to the fair value of our common stock. Based upon these reports, we determined the fair value of our common stock to be \$6.84 at the time of the option grants in July 2007 and \$3.22 at the time of the option grants in February 2007. As a result of this determination, we

**Table of Contents**

modified the exercise prices of these options, with the consent of the option holders, to increase their respective exercise prices to the reported fair values of our common stock at the time of grant.

**Other compensation and benefits.** We maintain employment benefits that are provided to certain full-time employees, including health insurance, housing, gasoline mileage reimbursements, retirement savings and 401(k) plan, short and/or long-term disability insurance, group and supplemental life insurance. We also provide vacation and other paid holidays to all employees, including our executive officers, which are comparable to those provided at our peer group of companies, companies of similar size, industry, comparability of labor markets and product offering, market capitalization, research and development investment, financial performance, and stage of development.

<sup>(1)</sup> Amounts shown do not reflect compensation actually received by the named executive officer. The amounts shown represent expense recognized in our 2007 and 2006 consolidated financial statements in accordance with SFAS 123(R), except that we have disregarded any estimate of future forfeitures related to service-based vesting conditions with respect to such option awards. Except for the forfeiture of stock options to purchase 100,000 shares of our common stock held by our former vice president operations, Feiming Huang, there were no actual forfeitures of stock options by any named executive officer in 2007. The other assumptions used to calculate the expense amounts shown for stock options granted in 2006 and 2007 are described in Note 10 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on March 14, 2008.

In March 2001, we extended a loan of \$200,000 to Dr. Zhao for the purchase of 200,000 of our restricted stock. We forgave the principal amount of this loan in four annual installments of \$50,000. Accrued interest of \$41,972 was forgiven in June 2007.

<sup>(3)</sup> Mr. Hsiao resigned as our chief financial officer in June 2008.

<sup>(4)</sup> Mr. Huang resigned as our vice president operations in December 2007. Mr. Huang's salary, bonus and severance payments were paid in RMB. For purposes of this table, amounts paid in RMB are translated to United States dollars at the weighted average exchange rate for the period in which the payment occurred, consistent with the manner in which we report our compensation in our consolidated financial statements.

<sup>(5)</sup> Represents severance payments made to Mr. Huang upon his resignation in December 2007.

<sup>(6)</sup> Mr. Chiumiento became our vice president marketing and business development in February 2007.

***Stock Owned by Directors, Executive Officers and Greater-Than-5% Stockholders***

The following table sets forth certain information with respect to beneficial ownership of our common stock, as of November 15, 2008, by:

each beneficial owner of 5% or more of the outstanding shares of our common stock;

each of our named executive officers and our current executive officers;

each of our directors and nominees for election as director; and

all of our executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to options or warrants held by that person that are currently exercisable or exercisable within 60 days of November 15, 2008 are deemed outstanding, but are not deemed outstanding for computing the percentage ownership of any other person. To our knowledge, except as set forth in the footnotes to this table and subject to applicable community property laws, each person named in the table has sole voting and investment power with respect to the shares set forth opposite such person's name. Except as otherwise indicated, the address of each of the persons in this table is c/o MEMSIC, Inc., One Tech Drive, Andover, Massachusetts 01810.

Each stockholder's percentage ownership before the offering is determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended, and is based on 23,790,225 shares of our common stock outstanding as of November 15, 2008. The table below assumes no exercise of stock options outstanding at November 15, 2008 to purchase an aggregate of approximately 2,577,680 shares of our common stock.
