Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On February 12, 2009, the Compensation Committee of the Board of Directors of Ingersoll-Rand Company Limited (the Company) approved a change to the Company's equity grant approach by introducing a restricted share unit (RSU) program to augment its existing stock option program and Performance Share Program (PSP). The RSUs will vest ratably over 3 years and any accrued dividends will be paid in cash at the time of vesting. As a result of this change, eligible participants may receive (i) stock options, (ii) RSUs or (iii) a combination of both stock options and RSUs under the Company's Incentive Stock Plan of 2007. Those participants receiving combination grants will receive a split with 50% of the intended grant value in stock options and the balance translated into RSUs using a 1:5 conversion ratio (one RSU for every five stock options), resulting in approximately a 15% decrease in the total grant value of the combination grant. Chairman and Chief Executive Officer Herbert L. Henkel, who only receives equity grants that are performance based, did not receive RSUs. Mr. Henkel's stock option grant was awarded at 85% of target (i.e., a 15% reduction), consistent with the Company's other senior management.

The Compensation Committee believes that this revised approach conserves share usage under the Company's incentive stock plan and better balances risk and reward to equity plan participants. The Compensation Committee plans to review the Company's equity grant policies on a regular basis to ensure the best approach for the Company and its shareholders.

In addition, the Compensation Committee determined PSP awards by placing primary emphasis on financial objectives in light of the current economic environment.
