As of November 30, 2008, there was no established public trading market for any of the common stock of the registrant. As of November 30, 2008, there were 1,000 shares of common stock of the registrant outstanding, 100.0% of which were owned by LVB Acquisition, Inc.

EXPLANATORY NOTE

Biomet, Inc. (Biomet or the Company) is filing this Amendment No. 1 on Form 10-Q/A (Amendment No. 1 on Form 10-Q/A) to the Company's Form 10-Q for the quarterly period ended November 30, 2008, which was originally filed on January 14, 2009 (the Original Filing), to:

amend the disclosure in Part I, Item 4T. (Controls and Procedures) of the Original Filing to amend and restate such disclosure to include the conclusions of Biomet's principal executive and principal financial officer, regarding the effectiveness of Biomet's disclosure controls and procedures as of the period covered by the Original Filing, based on the evaluation of these controls and procedures under Rule 13a-15/15(d)-15.

In addition, this amendment includes the following exhibits:

Exhibit 31.1 Certification of President and Chief Executive Officer under Rule 13a-14(a)/15d-14(a)

Exhibit 31.2 Certification of Senior Vice President and Chief Financial Officer under Rule 13a-14(a)/15d-14(a)

Exhibits 31.1 and 31.2 hereto have been provided with respect to and in light of the disclosure being amended. This Amendment No. 1 on Form 10-Q/A does not reflect events occurring after the filing of the Original Filing or include, or otherwise modify or update, the disclosure contained therein in any way except as expressly indicated above.

Item 4T. Controls and Procedures.

Management's evaluation of disclosure controls and procedures

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Act")) that are designed to provide reasonable assurance that information required to be disclosed by the Company, including the Company's consolidated entities, in the reports that the Company files or submits under the Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the President and Chief Executive Officer (the "Principal Executive Officer") and the Chief Financial Officer (the "Principal Financial Officer"), as appropriate, to allow timely decisions regarding required disclosure. Prior to the filing of this report, the Company completed an evaluation under the supervision and with the participation of senior management, including the Company's Principal Executive Officer and its Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of November 30, 2008. Based on this evaluation, Biomet's Principal Executive Officer and its Principal Financial Officer concluded that, as a result of the material weakness in Biomet's internal control over financial reporting discussed below, Biomet's disclosure controls and procedures were not effective as of November 30, 2008.

In light of this conclusion, the Company has applied compensating procedures and processes as necessary to ensure the reliability of our financial reporting. Accordingly, management believes, based on its knowledge, that (i) this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which they were made, not misleading with respect to the period covered by this report and (ii) the financial statements, and other financial information included in this report, fairly present in all material respects our financial condition, results of operations and cash flows as at, and for, the periods presented in this report.

Management, along with Biomet's Board of Directors, has implemented remedial measures to address the material weakness discussed below. Biomet's management has concluded that the consolidated financial statements referred above present fairly, in all material respects, Biomet's financial position, results of operations and cash flows for the periods presented in conformity with GAAP.

Changes in internal control over financial reporting

During the six month period ended November 30, 2008, there were no changes in Biomet's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, Biomet's internal control over financial reporting, except for management's remediation plan as described within "Management's Report on Internal Control over Financial Reporting" in Biomet's Annual Report on Form 10-K for the fiscal year ended May 31, 2008, as amended, which will likely have an impact on Biomet's internal controls over financial reporting as we continue with the remediation plan; however, there was no material impact as of November 30, 2008.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, Biomet, Inc. has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized on March 20, 2009.

BIOMET, INC.
