[For Reference]

1. Japanese Secondary Offering by way of Over-Allotment and other matters

The Japanese Secondary Offering by way of Over-Allotment as mentioned in 2. Secondary Offering of Shares (Japanese Secondary Offering by way of Over-Allotment) above, is a secondary offering in Japan to be made in relation to the Japanese Public Offering mentioned in (4) (i) of 1. Issuance of New Shares by way of Offering (Public Offering) for shares of common stock of MHFG, in a number not to exceed 195,600,000 shares, that will be borrowed by one of the Joint Lead Managers of the Japanese Public Offering from certain shareholder(s) of MHFG, taking into account market demand for the offerings mentioned above and other conditions. The number of shares to be offered in the Japanese Secondary Offering by way of Over-Allotment is scheduled to be 195,600,000 shares; however, this is the maximum number of shares to be sold, and such number may decrease, or the Japanese Secondary Offering by way of Over-Allotment may be cancelled entirely, depending on market demand and other conditions.

In connection with the Japanese Secondary Offering by way of Over-Allotment, the board of directors of MHFG has resolved, at the meeting held on Wednesday, July 1, 2009, that MHFG will issue 195,600,000 shares of its common stock to the Joint Lead Manager referred to in the previous paragraph (the Allottee) by way of third-party allotment (the Capital Increase by way of Third-Party Allotment), with the payment date set to be Wednesday, August 5, 2009, as set forth in 3. Issuance of New Shares by way of Third-Party Allotment, in order for the Allottee to obtain the number of shares necessary to return the shares of common stock of MHFG that were borrowed by the Allottee from certain shareholder(s) of MHFG, as mentioned above (the Borrowed Shares).

The Allottee may also purchase shares of common stock of MHFG (the Syndicate Cover Transactions) on the Tokyo Stock Exchange up to the number of shares to be offered in the Japanese Secondary Offering by way of Over-Allotment, for the purpose of returning the Borrowed Shares. Such Syndicate Cover Transactions would be made during the period from (a) the day immediately following the last day of the subscription period for the Japanese Public Offering and the Japanese Secondary Offering by way of Over-Allotment to (b) Wednesday, July 29, 2009 (the Syndicate Cover Transaction Period). All of the shares of common stock of MHFG purchased by the Allottee through the Syndicate Cover Transactions will be used to return the Borrowed Shares. During the Syndicate Cover Transaction Period, the Allottee may decide not to conduct any Syndicate Cover Transaction or may decide to terminate the Syndicate Cover Transactions before the number of shares purchased reaches the number of shares offered in the Japanese Secondary Offering by way of Over-Allotment.

The Allottee may conduct stabilizing transactions along with the Japanese Public Offering and the Japanese Secondary Offering by way of Over-Allotment. The shares of common stock of MHFG purchased through such stabilizing transactions may be used, in part or in whole, to return the Borrowed Shares.

In addition to the above, the shares of such common stock purchased through such stabilizing transactions may be transferred, in part or in whole, to the International Initial Purchaser for the purpose of settlement of shares in respect of the International Offering.

With respect to the number of shares obtained by deducting (a) the number of shares purchased through stabilization transactions and Syndicate Cover Transactions that are to be used to return the Borrowed Shares from (b) the number of shares to be offered in the Japanese Secondary Offering by way of Over-Allotment, the Allottee will accept the allotment under the Capital Increase by way of Third-Party Allotment and will purchase an equivalent number of shares of common stock of MHFG. As a result, a part or all of the shares to be issued under the Capital Increase by way of Third-Party Allotment may not be subscribed for, which may result in a decrease in the definitive number of shares to be issued under the Capital Increase by way of Third-Party Allotment, or in the entire cancellation of the issuance.

Note: This press release does not constitute an offer of any securities for sale. This press release has been prepared for the sole purpose of publicly announcing that MHFG has resolved matters relating to the issuance of new shares and the secondary offering of our shares, and the withdrawal of the registration in Japan for future equity issuances, and not for the purpose of soliciting investment or engaging in any other similar activities within or outside Japan. Investors should carefully review a prospectus prepared by MHFG prior to making any investment decisions.

This press release is not an offer of securities for sale in the United States. The securities referred to above have not been, and will not be registered under the U.S. Securities Act of 1933. The securities may not be offered or sold in the United States absent registration or an exemption from registration under the U.S. Securities Act of 1933. The securities referred to above will not be publicly offered or sold in the

United States.

- 7 -

Whether or not the Japanese Secondary Offering by way of Over-Allotment is to be conducted, as well as the number of shares to be sold in the event the Japanese Secondary Offering by way of Over-Allotment is to be conducted, will be determined on the Determination Date. If the Japanese Secondary Offering by way of Over-Allotment is cancelled entirely, the Allottee will not conduct the borrowing from certain shareholder(s) of MHFG of shares of common stock of MHFG mentioned above. Accordingly, no new shares will be issued under the Capital Increase by way of Third-Party Allotment, since the Allottee will not accept the allotment and will not subscribe shares under the Capital Increase by way of Third-Party Allotment. Further, no Syndicate Cover Transactions on the Tokyo Stock Exchange will be made.

The Syndicate Cover Transactions will be made by the Allottee after consultation with one of the Joint Global Coordinators and, when appropriate, with two other Joint Global Coordinators. In addition, the stabilizing transactions will be made by the Allottee after consultation with two of the Joint Global Coordinators and, when appropriate, with another Joint Global Coordinator.

(5) Others

MHFG is pursuing strengthening of stable capital base and steady returns to shareholders as its disciplined capital management. In July 2008, MHFG repurchased its own shares (common stock) of JPY149.9 billion and cancelled almost all of them in September 2008 for the purpose of offsetting the potential dilutive effect on its common stock from the conversion of the Eleventh Series Class XI Preferred Stock. However, in light of factors including the current financial market turmoil and global economic downturn, MHFG has been putting more priority on strengthening of stable capital base since the second half of fiscal year 2008 in order to prepare for a further adverse business environment. MHFG will continue to focus on enhancement of capital as the key issue of future management since it has become increasingly important for financial institutions to maintain a sufficient capital base amid a prolonged stagnation of both domestic and overseas economies.

More specifically, MHFG's medium-term target is to increase our Tier 1 capital ratio to 8% level. Further, MHFG aims to maintain its prime capital, which is an item constituting the capital having particularly strong ability to absorb losses among types of Tier 1 capital, at a level of more than half of our Tier 1 capital. Prime capital is calculated as Tier 1 capital less preferred securities less preferred stock (excluding mandatory convertible preferred stock to which common stock is delivered in consideration of mandatory conversion of such preferred stock). MHFG will continue to pursue disciplined capital management through management that is optimally balanced between strengthening of stable capital base and steady returns to shareholders in accordance with changes in business environment.
