	Forward-Looking Statements

This report may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as outlook, believes, expects, potential, continues, may, will, should, seeks, approximately, predicts, intends, plans, estimates, anticipates or the negative version of these words or other comparative words. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include but are not limited to those described under the section entitled "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2008 and in this report, as such factors may be updated from time to time in our periodic filings with the SEC, which are accessible on the SEC's website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this

Table of Contents

report and in our other periodic filings. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

In this report, references to Blackstone, we, us or our refer to The Blackstone Group L.P. and its consolidated subsidiaries. Unless the context otherwise requires, references in this report to the ownership of our founder, Mr. Stephen A. Schwarzman, and other Blackstone personnel include the ownership of personal planning vehicles and family members of these individuals.

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

1. ORGANIZATION AND BASIS OF PRESENTATION

The Blackstone Group L.P. (the Partnership), together with its consolidated subsidiaries (collectively, Blackstone), is a leading global alternative asset manager and provider of financial advisory services. The alternative asset management businesses include the management of corporate private equity funds, real estate funds, funds of hedge funds, credit-oriented funds, collateralized loan obligation (CLO) vehicles and publicly traded closed-end mutual funds and related entities that invest in such funds, collectively referred to as the Blackstone Funds, and separate accounts programs. Carry Funds refers to the corporate private equity funds and certain of the real estate funds and credit-oriented funds that are managed by Blackstone. Blackstone also provides various financial advisory services, including corporate and mergers and acquisitions advisory, restructuring and reorganization advisory and fund placement services.

Basis of Presentation The accompanying unaudited condensed consolidated financial statements of the Partnership have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the instructions to Form 10-Q. The condensed consolidated financial statements, including these notes, are unaudited and exclude some of the disclosures required in annual financial statements. Management believes it has made all necessary adjustments (consisting of only normal recurring items) so that the condensed consolidated financial statements are presented fairly and that estimates made in preparing its condensed consolidated financial statements are reasonable and prudent. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Partnership's Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Certain of the Blackstone Funds are included in the condensed consolidated financial statements of the Partnership. Consequently, the condensed consolidated financial statements of the Partnership reflect the assets, liabilities, revenues, expenses and cash flows of these consolidated Blackstone Funds on a gross basis. The majority economic ownership interests in these funds are reflected as Non-Controlling Interests in Consolidated Entities and Redeemable Non-Controlling Interests in Consolidated Entities in the condensed consolidated financial statements. The consolidation of these Blackstone Funds has no net effect on the Partnership's Net Income (Loss) or Partners' Capital.

The Partnership's interest in Blackstone Holdings, defined below, is within the scope of the Emerging Issues Task Force (EITF) Issue No. 04-5, *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights* (EITF 04-5). Although the Partnership has a minority economic interest in Blackstone Holdings, it has a majority voting interest and controls the management of Blackstone Holdings. Additionally, although the Blackstone Holdings' limited partners hold a majority economic interest in Blackstone Holdings, they do not have the right to dissolve the partnership or have substantive kick-out rights or participating rights that would overcome the presumption of control by the Partnership. Accordingly, the Partnership consolidates Blackstone Holdings and records non-controlling interests for the economic interests of limited partners of the Blackstone Holdings partnerships.

On January 1, 2009, in order to simplify Blackstone's structure and ease the related administrative burden and costs, Blackstone effected an internal restructuring to reduce the number of holding partnerships from five to four by causing Blackstone Holdings III L.P. to transfer all of its assets and liabilities to Blackstone Holdings IV L.P. In connection therewith, Blackstone Holdings IV L.P. was renamed Blackstone Holdings III L.P. and Blackstone Holdings V L.P. was renamed Blackstone Holdings IV L.P. The economic interests of the Partnership

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

in Blackstone's business remain entirely unaffected. Blackstone Holdings refers to the five holding partnerships prior to the January 2009 reorganization and the four holdings partnerships subsequent to the January 2009 reorganization.

Certain prior period financial statement balances have been reclassified to conform to the current presentation.

Acquisition of GSO Capital Partners LP On March 3, 2008, the Partnership acquired GSO Capital Partners LP and certain of its affiliates (GSO). GSO is an alternative asset manager specializing in the credit markets. GSO manages various multi-strategy credit hedge funds, mezzanine funds, senior debt funds and various CLO vehicles. GSO's results have been included in the Credit and Marketable Alternatives segment, formerly known as Marketable Alternative Asset Management, from the date of acquisition.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments, At Fair Value The Blackstone Funds are, for GAAP purposes, investment companies under the AICPA Audit and Accounting Guide *Investment Companies* that reflect their investments, including majority-owned and controlled investments (the Portfolio Companies) as well as Securities Sold, Not Yet Purchased at fair value. The Partnership has retained the specialized accounting for the Blackstone Funds pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation* (EITF 85-12). Thus, such consolidated funds' investments are reflected on the Condensed Consolidated Statements of Financial Condition at fair value, with unrealized gains and losses resulting from changes in fair value reflected as a component of Net Gains (Losses) from Fund Investment Activities in the Condensed Consolidated Statements of Operations. Fair value is the amount that would be received to sell an asset or paid to transfer a liability, in an orderly transaction between market participants at the measurement date (i.e., the exit price).

The fair value of the Partnership's Investments and Securities Sold, Not Yet Purchased are based on observable market prices when available. Such prices are based on the last sales price on the measurement date, or, if no sales occurred on such date, at the close of business bid price and if sold short, at the ask price or at the mid price depending on the facts and circumstances. Futures and options contracts are valued based on closing market prices. Forward and swap contracts are valued based on market rates or prices obtained from recognized financial data service providers.

A significant number of the investments, including our carry fund investments, have been valued by the Partnership, in the absence of observable market prices, using the valuation methodologies described below. Additional information regarding these investments is provided in Note 4 to the condensed consolidated financial statements. For some investments, little market activity may exist; management's determination of fair value is then based on the best information available in the circumstances and may incorporate management's own assumptions, including appropriate risk adjustments for nonperformance and liquidity risks. The Partnership estimates the fair value of investments when market prices are not observable as follows:

Corporate private equity, real estate and debt investments For investments for which observable market prices do not exist, such investments are reported at fair value as determined by the Partnership. Fair value is determined by reference to projected net earnings, earnings before interest, taxes, depreciation and amortization (EBITDA) and balance sheets, public market or private transactions, valuations for comparable companies and other measures which, in many cases, are unaudited at the time received. With respect to real estate investments, in determining fair values management considers projected operating cash flows and balance sheets, sales of

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

comparable assets, if any, and replacement costs, among other measures. The methods used to estimate the fair value of private investments include the discounted cash flow method (using a likely next buyer's capital structure and not Blackstone's, or the applicable Blackstone Fund's existing capital structure) and/or capitalization rates (cap rates) analysis. Valuations may also be derived by reference to observable valuation measures for comparable companies or assets (e.g., multiplying a key performance metric of the investee company or asset, such as EBITDA, by a relevant valuation multiple observed in the range of comparable companies or transactions), adjusted by management for differences between the investment and the referenced comparables and, in some instances, by reference to option pricing models or other similar methods. Corporate private equity and real estate investments may also be valued at cost for a period of time after an acquisition as the best indicator of fair value. These valuation methodologies involve a significant degree of management judgment.

Funds of hedge funds Blackstone Funds' direct investments in hedge funds (Investee Funds) are stated at fair value, based on the information provided by the Investee Funds which reflects the Partnership's share of the fair value of the net assets of the investment fund. If the Partnership determines, based on its own due diligence and investment procedures, that the valuation for any Investee Fund based on information provided by the Investee Fund's management does not represent fair value, the Partnership will estimate the fair value of the Investee Fund in good faith and in a manner that it reasonably chooses, in accordance with its valuation policies.

In certain cases, debt and equity securities are valued on the basis of prices from an orderly transaction between market participants provided by reputable dealers or pricing services. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and various relationships between investments.

Certain Blackstone Funds sell securities that they do not own, and will therefore be obligated to purchase such securities at a future date. The value of an open short position is recorded as a liability, and the fund records unrealized appreciation or depreciation to the extent of the difference between the proceeds received and the value of the open short position. The applicable Blackstone Fund records a realized gain or loss when a short position is closed. By entering into short sales, the applicable Blackstone Fund bears the market risk of increases in value of the security sold short. The unrealized appreciation or depreciation as well as the realized gain or loss associated with short positions is included in the Condensed Consolidated Statements of Operations as Net Gains (Losses) from Fund Investment Activities.

Securities transactions are recorded on a trade date basis.

Recent Accounting Developments The Financial Accounting Standards Board (FASB) issued SFAS No. 141(R), *Business Combinations*, in December 2007 and FASB Staff Position FAS 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise From Contingencies*, in April 2009 (collectively SFAS No. 141(R)). SFAS No. 141(R) requires the acquiring entity in a business combination to recognize the full fair value of assets, liabilities, contractual contingencies and contingent consideration obtained in the transaction (whether for a full or partial acquisition); establishes the acquisition date fair value as the measurement objective for all assets acquired and liabilities assumed; requires expensing of most transaction and restructuring costs; and requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. SFAS No. 141(R) applies to all transactions or other events in which the Partnership obtains control of one or more businesses, including those sometimes referred to as true mergers or mergers of equals and

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

combinations achieved without the transfer of consideration, for example, by contract alone or through the lapse of minority veto rights. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after January 1, 2009. The Partnership had no such transactions for the six-month period ended June 30, 2009.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of Accounting Research Bulletin No. 51* (SFAS No. 160). SFAS No. 160 requires reporting entities to present non-controlling (minority) interests as equity (as opposed to a liability or mezzanine equity) and provides guidance on the accounting for transactions between an entity and non-controlling interests. SFAS No. 160 applies prospectively as of January 1, 2009, except for the presentation and disclosure requirements which are applied retrospectively for all periods presented. The Partnership adopted SFAS No. 160 effective January 1, 2009 and as a result, (a) with respect to the Condensed Consolidated Statements of Financial Condition, the Redeemable Non-Controlling Interests in Consolidated Entities was renamed as such and remained classified as mezzanine equity and the non-redeemable Non-Controlling Interests in Consolidated Entities and Non-Controlling Interests in Blackstone Holdings have been reclassified as components of Partners' Capital, (b) with respect to the Condensed Consolidated Statements of Operations, Net Income (Loss) is now presented before non-controlling interests, the Net Income (Loss) attributable to the three categories of non-controlling interests discussed in (a) above are now presented separately, and the Condensed Consolidated Statement of Operations now nets to Net Income (Loss) Attributable to The Blackstone Group L.P., and (c) with respect to the Condensed Consolidated Statement of Changes in Partners' Capital, roll forward columns have now been added for each component of non-controlling interests discussed in (a) above.

In March 2008, the EITF reached a consensus on Issue No. 07-4, *Application of the Two-Class Method under FASB Statement No. 128, Earnings Per Share, to Master Limited Partnerships* (EITF 07-4). EITF 07-4 applies to master limited partnerships that make incentive equity distributions. EITF 07-4 is to be applied retrospectively beginning with financial statements issued in the interim periods of fiscal years beginning after December 15, 2008. The Partnership adopted EITF 07-4 on January 1, 2009. The adoption of EITF 07-4 did not have a material impact on the Partnership's condensed consolidated financial statements.

In April 2008, the FASB issued Staff Position No. FAS 142-3, *Determination of the Useful Life of Intangible Assets* (FSP FAS No. 142-3). FSP FAS No. 142-3 amends the factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets under SFAS No. 142, *Goodwill and Other Intangible Assets*. FSP FAS No. 142-3 affects entities with recognized intangible assets and is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The new guidance applies prospectively to (1) intangible assets that are acquired individually or with a group of other assets and (2) both intangible assets acquired in business combinations and asset acquisitions. The adoption of FSP FAS No. 142-3 did not have a material impact on the Partnership's condensed consolidated financial statements.

In June 2008, the FASB issued Staff Position EITF No. 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP EITF No. 03-6-1). FSP EITF No. 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in calculating earnings per share under the two-class method described in SFAS No. 128, *Earnings per Share*. FSP EITF No. 03-6-1 requires entities to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. This FSP is effective for fiscal years beginning after December 15, 2008; earlier application is not permitted. The Partnership adopted FSP

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)**

EITF No. 03-6-1 effective January 1, 2009 and includes unvested participating Blackstone Common Units as a component of Common Units Entitled to Priority Distributions Basic in the calculation of earnings per common unit for all periods presented, due to their equivalent distribution rights as Blackstone Common Units. The impact of the adoption and retroactive application on 2008 was as follows:

	Three Months Ended June 30, 2008		Six Months Ended June 30, 2008		Year Ended December 31, 2008	
	Originally Reported	Upon Adoption	Originally Reported	Upon Adoption	Originally Reported	Upon Adoption
Net Loss Per Common Unit Basic and Diluted						
Common Units Entitled to Priority Distributions	\$ (0.60)	\$ (0.60)	\$ (1.57)	\$ (1.55)	\$ (4.36)	\$ (4.32)
Common Units Not Entitled to Priority Distributions					\$ (3.09)	\$ (3.06)

In April 2009, the FASB issued Staff Position No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP FAS No. 157-4). FSP FAS No. 157-4 provides additional guidance for estimating fair value in accordance with SFAS No. 157, *Fair Value Measures*. FSP FAS No. 157-4 is effective for financial statements issued for interim or annual periods ending after June 15, 2009. The adoption of FSP FAS No. 157-4 did not have a material impact on the Partnership's condensed consolidated financial statements.

In April 2009, the FASB issued Staff Position No. 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments* (FSP FAS No. 107-1). FSP FAS No. 107-1 amends SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about fair value of financial instruments in interim reporting periods. Such disclosures were previously required only in annual financial statements. FSP FAS No. 107-1 is effective for financial statements issued for interim or annual periods ending after June 15, 2009. The Partnership adopted FSP FAS No. 107-1 effective with the issuance of its June 30, 2009 financial statements. The adoption of FSP FAS No. 107-1 resulted in the inclusion of interim financial statement disclosures which had previously been annual, notably the inclusion in Note 4 of the summarized financial information for the Partnership's equity method investments.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (SFAS No. 165). SFAS No. 165 is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for selecting that date, that is, whether that date represents the date the financial statements were issued or were available to be issued. SFAS No. 165 is effective for interim or annual financial periods ending after June 15, 2009. The Partnership adopted SFAS No. 165 effective with the issuance of its June 30, 2009 financial statements. The adoption of SFAS No. 165 resulted in the additional required disclosure regarding subsequent events.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (SFAS No. 167), which amends the consolidation guidance applicable to variable interest entities (VIEs). The amendments will significantly affect the overall consolidation analysis under Interpretation 46(R). SFAS No. 167

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)**

is effective as of the beginning of the first fiscal year that begins after November 15, 2009 and early adoption is prohibited. The Partnership is currently evaluating the impact of SFAS No. 167 on its condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* a replacement of FASB Statement No. 162 (SFAS No. 168). SFAS No. 168 establishes the FASB Standards Accounting Codification (Codification) as the source of authoritative GAAP recognized by the FASB to be applied to nongovernmental entities, and rules and interpretive releases of the SEC as authoritative GAAP for SEC registrants. The Codification will supersede all the existing non-SEC accounting and reporting standards upon its effective date and subsequently, the FASB will not issue new standards in the form of Statements, FASB Staff Positions or Emerging Issues Task Force Abstracts. SFAS No. 168 also replaces SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, given that once in effect, the Codification will carry the same level of authority. SFAS No. 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The adoption of SFAS No. 168 will be limited to disclosure in the condensed consolidated financial statements and the manner in which the Partnership refers to GAAP authoritative literature.

3. GOODWILL AND INTANGIBLE ASSETS**Goodwill**

The following table outlines changes to the carrying amount of Goodwill as of June 30, 2009:

	Goodwill
Balance at December 31, 2008	\$ 1,703,602
Impairment	
Balance at June 30, 2009	\$ 1,703,602

Total Goodwill has been allocated to each of the Partnership's segments as follows: Corporate Private Equity \$694,512; Real Estate \$421,739; Credit and Marketable Alternatives \$518,477; and Financial Advisory \$68,874.

Intangible Assets

The following table outlines changes to the carrying amount of Intangible Assets, Net as of June 30, 2009:

	Intangible Assets
Contractual Rights	\$ 1,348,370
Accumulated Amortization	(349,870)
Intangible Assets, Net	\$ 998,500

Amortization expense associated with intangible assets was \$39.5 million and \$40.7 million for the three months ended June 30, 2009 and 2008, respectively, and \$79.0 million and \$74.2 million for the six months ended June 30, 2009 and 2008, respectively, and is included in General,

Edgar Filing: Blackstone Group L.P. - Form 10-Q

Administrative and Other in the accompanying Condensed Consolidated Statements of Operations. Amortization of intangible assets held at June 30, 2009 is expected to be approximately \$158.0 million for the year ended December 31, 2009.

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)****4. INVESTMENTS****Investments**

A summary of Investments consists of the following:

	June 30, 2009	December 31, 2008
Investments of Consolidated Blackstone Funds	\$ 1,188,910	\$ 1,556,261
Equity Method Investments	1,080,504	1,063,615
Performance Fees and Allocations	218,579	147,421
Other Investments	39,346	63,645
	\$ 2,527,339	\$ 2,830,942

Blackstone's share of Investments of Consolidated Blackstone Funds totaled \$362.7 million and \$409.2 million at June 30, 2009 and December 31, 2008, respectively. Equity Method Investments represents investments in non-consolidated funds as described below, of which Blackstone's share totaled \$1.0 billion and \$1.0 billion at June 30, 2009 and December 31, 2008, respectively.

At June 30, 2009 and December 31, 2008, there were no individual investments, including consideration of derivative contracts, with fair values exceeding 5.0% of Blackstone's net assets. At June 30, 2009 and December 31, 2008, consideration was given as to whether any individual consolidated fund of hedge funds, feeder fund or any other affiliate exceeded 5.0% of Blackstone's net assets. At December 31, 2008, Blackport Capital Fund Ltd. had a fair value of \$594.5 million and was the sole feeder fund investment to exceed the 5.0% threshold.

Securities Sold, Not Yet Purchased. The following table presents the Partnership's Securities Sold, Not Yet Purchased held by the consolidated Blackstone Funds, which were principally held by one of Blackstone's proprietary hedge funds. These investments are presented as a percentage of Securities Sold, Not Yet Purchased.

Geographic Region / Instrument Type / Industry Class	Fair Value		Percentage of Securities Sold Not Yet Purchased

Realized and Net Change in Unrealized Gains (Losses) from Blackstone Funds. Net Gains (Losses) from Fund Investment Activities on the Condensed Consolidated Statements of Operations include net realized gains (losses) from realizations and sales of investments and the net change in unrealized gains (losses) resulting from changes in fair value of the consolidated Blackstone Funds' investments. The following table presents the realized and net change in unrealized gains (losses) on investments held through the consolidated Blackstone Funds:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Realized Gains (Losses)	\$ (44,055)	\$ 42,405	\$ (104,408)	\$ 19,902
Net Change in Unrealized Gains (Losses)	92,624	106,226	96,877	(130,835)
	\$ 48,569	\$ 148,631	\$ (7,531)	\$ (110,933)

The following reconciles the Realized and Net Change in Unrealized Gains (Losses) from Blackstone Funds presented above to the Other Income (Loss) Net Gains (Losses) from Fund Investment Activities in the Condensed Consolidated Statements of Operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Realized and Net Change in Unrealized Gains (Losses) from Blackstone Funds	\$ 48,569	\$ 148,631	\$ (7,531)	\$ (110,933)
Reclassification to Investment Income (Loss) and Other Attributable to Blackstone Side-by-Side Investment Vehicles	(1,945)	1,096	14,872	7,459
Interest and Dividend Income and Other Attributable to Consolidated Blackstone Funds	11,680	39,951	16,200	77,516
Other Income Net Gains (Losses) from Fund Investment Activities	\$ 58,304	\$ 189,678	\$ 23,541	\$ (25,958)

Investments in Variable Interest Entities. Blackstone consolidates certain variable interest entities (VIEs) in addition to those entities consolidated under EITF 04-5, when it is determined that Blackstone is the primary beneficiary, either directly or indirectly, through a consolidated entity or affiliate. The assets of the consolidated VIEs are classified principally within Investments. The liabilities of the consolidated VIEs are non-recourse to Blackstone.

FASB Staff Position Financial Accounting Standard No. 140-4 and FASB Interpretation Number 46R-8, *Disclosures about Transfers of Financial Assets and Interests in Variable Interest Entities* (FSP FAS No. 140-4 and FIN 46R-8) provides disclosure requirements for, among other things, involvements with VIEs. Those involvements include when Blackstone (1) consolidates an entity because it is the primary beneficiary, (2) has a significant variable interest in the entity, or (3) is the sponsor of the entity.

These VIEs include investments in corporate private equity, real estate, credit-oriented and funds of hedge funds assets. The disclosures under FSP FAS No. 140-4 and FIN 46R-8 are presented on a fully aggregated basis. The investment strategies of Blackstone Funds differ by product; however, the fundamental risks of the Blackstone Funds have similar characteristics, including loss of invested capital and loss of incentive fees and

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

performance fees and allocations. Accordingly, disaggregation of Blackstone's involvement with VIEs would not provide more useful information. In Blackstone's role as general partner or investment advisor, it generally considers itself the sponsor of the applicable Blackstone Fund. For certain of these funds, Blackstone is determined to be the primary beneficiary and hence consolidates such funds within the condensed consolidated financial statements.

FIN 46(R) requires an analysis to (i) determine whether an entity in which Blackstone holds a variable interest is a variable interest entity, and (ii) whether Blackstone's involvement, through holding interests directly or indirectly in the entity or contractually through other variable interests (e.g., incentive and management fees), would be expected to absorb a majority of the variability of the entity. Performance of that analysis requires the exercise of judgment. Blackstone determines whether it is the primary beneficiary of a VIE at the time it becomes involved with a variable interest entity and reconsiders that conclusion based on certain events. In evaluating whether Blackstone is the primary beneficiary, Blackstone evaluates its economic interests in the fund held either directly by Blackstone or indirectly through employees. The consolidation analysis under FIN 46(R) can generally be performed qualitatively. However, if it is not readily apparent that Blackstone is not the primary beneficiary, a quantitative expected losses and expected residual returns calculation will be performed. Investments and redemptions (either by Blackstone, affiliates of Blackstone or third parties) or amendments to the governing documents of the respective Blackstone Fund could affect an entity's status as a VIE or the determination of the primary beneficiary.

For those VIEs in which Blackstone is the sponsor, Blackstone may have an obligation as general partner to provide commitments to such funds. During the three and six months ended June 30, 2009, Blackstone did not provide any support other than its obligated amount.

At June 30, 2009, Blackstone was the primary beneficiary of VIEs whose gross assets were \$601.5 million, which is the carrying amount of such financial assets in the condensed consolidated financial statements. Blackstone is also a significant variable interest holder or sponsor in VIEs which are not consolidated, as Blackstone is not the primary beneficiary. At June 30, 2009, assets recognized in the Partnership's Condensed Consolidated Statements of Financial Condition related to our variable interests in these unconsolidated entities were \$79.6 million with no liabilities. Assets consisted of \$56.4 million of receivables and \$23.1 million of investments. Blackstone's aggregate maximum exposure to loss was \$79.6 million as of June 30, 2009.

Performance Fees and Allocations

Blackstone manages corporate private equity funds, real estate funds, funds of hedge funds and credit-oriented funds that are not consolidated. The Partnership records as revenue (and/or adjusts previously recorded revenue) to reflect the amount that would be due pursuant to the fund agreements at each period end as if the fund agreements were terminated at that date. In certain performance fee arrangements related to certain funds of hedge funds and credit-oriented funds in the Credit and Marketable Alternatives segment, Blackstone is entitled to receive performance fees and allocations when the return on assets under management exceeds certain benchmark returns or other performance targets. In such arrangements, performance fees and allocations are accrued monthly or quarterly based on measuring account / fund performance to date versus the performance benchmark stated in the investment management agreement.

Equity Method Investments

Blackstone invests in corporate private equity funds, real estate funds, funds of hedge funds and credit-oriented funds that are not consolidated. The Partnership accounts for these investments under the equity method

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)**

of accounting. Blackstone's share of operating income generated by these investments is recorded as a component of Investment Income (Loss). That amount reflects the fair value gains and losses of the associated funds underlying investments since Blackstone retains the specialized investment company accounting of these funds pursuant to EITF 85-12.

A summary of equity method investments follows:

	Equity Held		Equity in Net Income (Loss)			
	June 30, 2009	December 31, 2008	Three Months Ended 2009	June 30, 2008	Six Months Ended 2009	June 30, 2008
Equity Method Investments	\$ 1,080,504	\$ 1,063,615	\$ (42,553)	\$ 25,185	\$ (102,078)	\$ (29,049)

The summarized financial information of the funds in which the Partnership has an equity method investment, presented before any cross-fund eliminations, is as follows:

	\$ 1,494	\$ (1,596)	\$ (31)	\$ (1,854)

Fair Value Measurements

SFAS No. 157, *Fair Value Measurements*, (SFAS No. 157), establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is affected by a number of factors, including the type of investment, the characteristics specific to the investment and the state of the marketplace including the existence and transparency of transactions between market participants. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices in an orderly market generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following categories.

Level I Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments in Level I include listed equities and listed derivatives. As required by SFAS No. 157, the Partnership does not adjust the quoted price for these investments, even in situations where Blackstone holds a large position and a sale could reasonably impact the quoted price.

Level II Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Investments which are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives.

Level III Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include general and limited partnership interests in corporate private equity and real estate funds, credit-oriented funds, funds of hedge funds, distressed debt and non-investment grade residual interests in securitizations and collateralized debt obligations.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. The Partnership's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)**

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

The following table summarizes the valuation of Blackstone's investments by the above SFAS No. 157 fair value hierarchy levels as of June 30, 2009 and December 31, 2008, respectively:

	June 30, 2009			Total
	Level I	Level II	Level III	
Investments of Consolidated Blackstone Funds	\$ 59,242	\$ 396	\$ 1,129,272	\$ 1,188,910
Other Investments	23,297		16,049	39,346
Securities Sold, Not Yet Purchased	310			310

	December 31, 2008			Total
	Level I	Level II	Level III	
Investments of Consolidated Blackstone Funds	\$ 58,406	\$ 994	\$ 1,496,861	\$ 1,556,261
Other Investments	22,499		41,146	63,645
Securities Sold, Not Yet Purchased	894			894

The following table summarizes the Level III investments by valuation methodology as of June 30, 2009:

Fair Value Based on	Corporate Private Equity	Real Estate	Credit and Marketable Alternatives	Total Investment Company Holdings
Third-Party Fund Managers			68%	68%
Specific Valuation Metrics	22%	7%	3%	32%
	22%	7%	71%	100%

The changes in investments measured at fair value for which the Partnership has used Level III inputs to determine fair value are as follows. The following table does not include gains or losses that were reported in Level III in prior years or for instruments that were transferred out of Level III prior to the end of the current reporting period.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Balance, Beginning of Period	\$ 1,190,644	\$ 2,274,684	\$ 1,538,007	\$ 2,362,542
Transfer In (Out) of Level III, Net	(2,334)	160,040	(2,386)	160,040
Purchases (Sales), Net	(63,465)	6,703	(372,272)	29,959
Realized Gains (Losses), Net	(93,138)	2,777	(98,360)	9,565
Changes in Unrealized Gains (Losses) Included in Earnings Related to Investments Still Held at the Reporting Date	113,614	19,011	80,332	(98,891)
Balance, End of Period	\$ 1,145,321	\$ 2,463,215	\$ 1,145,321	\$ 2,463,215

Total realized and unrealized gains and losses recorded for Level III investments are reported in Net Gains (Losses) from Fund Investment Activities in the Condensed Consolidated Statements of Operations.

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

5. LOANS PAYABLE

On May 11, 2009, Blackstone entered into a new committed revolving credit facility for \$850 million.

As of June 30, 2009, Blackstone had no outstanding borrowings under its revolving credit facility.

6. INCOME TAXES

The Blackstone Holdings Partnerships operate in the U.S. as partnerships for U.S. federal income tax purposes and generally as corporate entities in non-U.S. jurisdictions; accordingly, these entities in some cases are subject to the New York City unincorporated business tax or, in the case of non-U.S. entities, to non-U.S. corporate income taxes. In addition, certain wholly-owned entities of the Partnership are subject to federal, state and local corporate income taxes.

Blackstone adopted SFAS No. 160 effective January 1, 2009. As a result of the adoption, Blackstone is required to calculate its effective tax rate on Consolidated Income (Loss) Before Provision for Taxes as opposed to the Net Income (Loss) Attributable to The Blackstone Group L.P. Accordingly, under SFAS No. 160, Blackstone's effective tax rate was (1.85)% and 4.17% for the three months ended June 30, 2009 and 2008, respectively, and (1.91)% and 0.90% for the six months ended June 30, 2009 and 2008, respectively. Blackstone's income tax provision was an expense of \$10.9 million and a benefit of \$25.9 million for the three months ending June 30, 2009 and 2008, respectively, and an expense of \$28.6 million and a benefit of \$16.9 million for the six months ending June 30, 2009 and 2008, respectively.

Prior to the adoption of SFAS No. 160, after eliminating the effects of non-controlling interests, Blackstone's effective tax rate would have been (3.53)% for the three months ended June 30, 2009, which is comparable to the 15.62% effective tax rate that was reported for the three months ended June 30, 2008, and (5.14)% for the six months ended June 30, 2009, which is comparable to the 5.72% effective tax rate that was reported for the six months ended June 30, 2008. Blackstone's corresponding income tax provision would have been an expense of \$5.6 million for the three months ended June 30, 2009, which is comparable to the benefit of \$29.0 million reported for the three months ended June 30, 2008, and an expense of \$19.3 million for the six months ended June 30, 2009, which is comparable to the benefit of \$24.7 million reported for the six months ended June 30, 2008.

Blackstone's effective tax rates for the three and six months ended June 30, 2009 were due to the following: (1) certain wholly-owned subsidiaries were subject to federal, state and local corporate income taxes on income allocated to Blackstone, and certain non-U.S. corporate entities continue to be subject to non-U.S. corporate income tax, and (2) a portion of the compensation charges that contribute to Blackstone's net loss are not deductible for tax purposes.

7. NET LOSS PER COMMON UNIT

Beginning in the third quarter of 2008, certain unitholders exchanged Blackstone Holdings Partnership Units for Blackstone Common Units. Until the Blackstone Common Units issued in such exchanges are transferred to third parties, the exchanging unitholders will forego any priority distributions referred to below. As a result, net loss available to the common unitholders was allocated between common units entitled to priority distributions and common units not entitled to priority distributions. The Partnership has calculated net loss per unit in accordance with EITF Issue No. 03-06, *Participating Securities and the Two-Class Method Under FASB Statement 128* (EITF 03-06) and FSP EITF No. 03-6-1.

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)**

Basic and diluted net loss per common unit for the three and six months ended June 30, 2009 is calculated as follows:

	Three Months Ended June 30, 2009		Six Months Ended June 30, 2009	
	Basic	Diluted	Basic	Diluted
Total Undistributed Loss				
Net Loss Allocable to Common Unit Holders	\$ (164,284)	\$ (164,284)	\$ (395,858)	\$ (395,858)
Less: Distributions to Common Unitholders	(83,371)	(83,371)	(165,517)	(165,517)

Net Loss Per Common Unit Common Units Entitled to Priority Distributions	\$ (0.60)	\$ (0.60)	\$ (1.44)	\$ (1.44)
Net Loss Per Common Unit Common Units Not Entitled to Priority Distributions Undistributed Loss per Common Unit				
Priority Distributions	\$ (0.90)	\$ (0.90)	\$ (2.04)	\$ (2.04)
Net Loss Per Common Unit Common Units Not Entitled to Priority Distributions	\$ (0.90)	\$ (0.90)	\$ (2.04)	\$ (2.04)
Weighted-Average Common Units Outstanding				
Common Units Entitled to Priority Distributions	275,199,027	275,199,027	274,416,111	274,416,111
Common Units Not Entitled to Priority Distributions	385,796	385,796	1,003,238	1,003,238
Total Weighted-Average Common Units Outstanding	275,584,823	275,584,823	275,419,349	275,419,349

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)**

For the three months ended June 30, 2009, a weighted-average total of 24,175,810 unvested deferred restricted common units and 823,827,409 Blackstone Holdings Partnership Units were anti-dilutive and as such have been excluded from the calculation of diluted earnings per unit. For the six months ended June 30, 2009, a weighted-average total of 25,185,306 unvested deferred restricted common units and 827,280,867 Blackstone Holdings Partnership Units were anti-dilutive and as such have been excluded from the calculation of diluted earnings per unit.

Basic and diluted net loss per common unit for the three and six months ended June 30, 2008 was as follows:

	Three Months Ended June 30, 2008		Six Months Ended June 30, 2008	
	Basic	Diluted	Basic	Diluted
Net Loss Allocable to Common Unit Holders	\$ (156,531)	\$ (156,531)	\$ (407,524)	\$ (407,524)
Weighted-Average Common Units Outstanding	263,610,181	263,610,181	263,378,650	263,378,650
Net Loss per Common Unit	\$ (0.60)	\$ (0.60)	\$ (1.55)	\$ (1.55)

For the three months ended June 30, 2008, a weighted-average total of 31,078,615 unvested deferred restricted common units and 836,010,555 Blackstone Holdings Partnership Units were anti-dilutive and as such have been excluded from the calculation of diluted earnings per unit. For the six months ended June 30, 2008, a weighted-average total of 31,569,772 unvested deferred restricted common units and 833,995,410 Blackstone Holdings Partnership Units were anti-dilutive and as such have been excluded from the calculation of diluted earnings per unit.

Cash Distribution Policy

Blackstone's current intention is to distribute to its common unitholders substantially all of The Blackstone Group L.P.'s net after-tax share of our annual adjusted cash flows from operations in excess of amounts determined by its general partner to be necessary or appropriate to provide for the conduct of its business, to make appropriate investments in our business and our funds, to comply with applicable law, any of its debt instruments or other agreements, or to provide for future distributions to its common unitholders for any ensuing quarter. The declaration and payment of any distributions will be at the sole discretion of the general partner, which may change the distribution policy at any time.

The partnership agreements of the Blackstone Holdings partnerships provide that until December 31, 2009, the income (and accordingly distributions) of Blackstone Holdings are to be allocated each year:

first, to The Blackstone Group L.P.'s wholly-owned subsidiaries until sufficient income has been so allocated to permit The Blackstone Group L.P. to make aggregate distributions to its common unitholders of \$1.20 per common unit on an annualized basis for such year;

second, to the other partners of the Blackstone Holdings partnerships until an equivalent amount of income on a partnership interest basis has been allocated to such other partners for such year; and

thereafter, pro rata to all partners of the Blackstone Holdings partnerships in accordance with their respective partnership interests.

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

In addition, the partnership agreements of the Blackstone Holdings partnerships will provide for cash distributions, referred to as tax distributions, to the partners of such partnerships if the wholly-owned subsidiaries of The Blackstone Group L.P., which are the general partners of the Blackstone Holdings partnerships, determine that the taxable income of the relevant partnership will give rise to taxable income for its partners. Generally, these tax distributions will be computed based on Blackstone's estimate of the net taxable income of the relevant partnership allocable to a partner multiplied by an assumed tax rate equal to the highest effective marginal combined U.S. federal, state and local income tax rate prescribed for an individual or corporate resident in New York, New York (taking into account the nondeductibility of certain expenses and the character of our income). The Blackstone Holdings partnerships will make tax distributions only to the extent distributions from such partnerships for the relevant year were otherwise insufficient to cover such tax liabilities.

Until December 31, 2009, Blackstone personnel and others with respect to their Blackstone Holdings Partnership Units will not receive any distributions (other than tax distributions in the circumstances specified above) for a year unless and until our common unitholders receive aggregate distributions of \$1.20 per common unit for such year. Blackstone does not intend to maintain this priority allocation after December 31, 2009.

Unit Repurchase Program

In January 2008, Blackstone announced that the Board of Directors of its general partner, Blackstone Group Management L.L.C., had authorized the repurchase by Blackstone of up to \$500 million of Blackstone Common Units and Blackstone Holdings Partnership Units. Under this unit repurchase program, units may be repurchased from time to time in open market transactions, in privately negotiated transactions or otherwise. The timing and the actual number of Blackstone Common Units and Blackstone Holdings Partnership Units repurchased will depend on a variety of factors, including legal requirements, price and economic and market conditions. This unit repurchase program may be suspended or discontinued at any time and does not have a specified expiration date.

During the six months ended June 30, 2009, Blackstone repurchased a combination of 4,629,866 Blackstone Common Units and Blackstone Holdings Partnership Units as part of the unit repurchase program for a total cost of \$29.6 million. During the three months ended June 30, 2009, Blackstone repurchased 218,164 Blackstone Common Units and Blackstone Holdings Partnership Units as part of the unit repurchase program for a total cost of \$2.4 million. As of June 30, 2009, the amount remaining available for repurchases was \$340.3 million under this program. The repurchase resulted in a decrease in Blackstone's ownership interest in Blackstone Holdings equity of \$16.6 million.

During the six months ended June 30, 2008, Blackstone repurchased a combination of 8,329,101 vested and unvested Blackstone Holdings Partnership Units as part of the repurchase program. The repurchase resulted in a decrease in Blackstone's ownership interest in Blackstone Holdings equity of \$89.2 million.

8. EQUITY-BASED COMPENSATION

The Partnership has granted equity-based compensation awards to Blackstone's senior managing directors, non-partner professionals, non-professionals and selected external advisors under the Partnership's 2007 Equity Incentive Plan (the Equity Plan), the majority of which to date were granted in connection with the IPO. The Equity Plan allows for the granting of options, unit appreciation rights or other unit-based awards (units, restricted units, restricted common units, deferred restricted common units, phantom restricted common units or other unit-based awards based in whole or in part on the fair value of the Blackstone Common Units or Blackstone Holdings Partnership Units). As of January 1, 2009, the Partnership had the ability to grant 163,574,323 units under the Equity Plan during the year ending December 31, 2009.

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)**

For the three and six months ended June 30, 2009, the Partnership recorded compensation expense of \$762.7 million and \$1.5 billion, respectively, in relation to its equity-based awards with corresponding tax benefits of \$4.1 million and \$6.5 million, respectively. The Partnership recorded compensation expense of \$805.6 million and \$1.7 billion in relation to its equity-based awards with corresponding tax benefits of \$3.9 million and \$9.4 million for the three and six months ended June 30, 2008, respectively. As of June 30, 2009, there was \$7.7 billion of estimated unrecognized compensation expense related to unvested awards. That cost is expected to be recognized over a weighted-average period of 4.5 years.

Total vested and unvested outstanding units, including Blackstone Common Units, Blackstone Holdings Partnership Units, deferred restricted common units and options were 1,120,027,419 as of June 30, 2009. Total outstanding unvested phantom units were 280,587 as of June 30, 2009.

A summary of the status of the Partnership's unvested equity-based awards as of June 30, 2009 and a summary of changes during the period January 1, 2009 through June 30, 2009, are presented below:

	Blackstone Holdings		The Blackstone Group L.P.

Forfeited	(7,563,387)	30.43	(3,371,601)	25.64	(32,581)	26.22
Balance, June 30, 2009	271,491,066	30.74	20,451,983	25.51	263,979	25.23

In March 2008, the Partnership modified certain senior managing directors' Blackstone Holdings Partnership Unit award agreements and subsequently repurchased, under the unit repurchase program, both vested and unvested units in conjunction with the modifications. At the date of such modifications, the Partnership recognized total compensation expense of \$167.2 million, which was included in the total equity-based compensation expense of \$914.7 million for the three months ended March 31, 2008, related to the modifications and cash settlement.

Units Expected to Vest

The following unvested units, as of June 30, 2009, are expected to vest:

	Units	Weighted-Average Service Period in Years
Blackstone Holdings Partnership Units	254,802,509	4.4
Deferred Restricted Blackstone Common Units and Options	16,697,220	4.6

Edgar Filing: Blackstone Group L.P. - Form 10-Q

Total Equity-Based Awards	271,499,729	4.4
Phantom Units	230,486	0.9

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)****9. RELATED PARTY TRANSACTIONS****Affiliate Receivables and Payables**

Blackstone Group considers its Founder, senior managing directors, employees, the Blackstone Funds and the Portfolio Companies to be affiliates. As of June 30, 2009 and December 31, 2008, Due from Affiliates and Due to Affiliates were comprised of the following:

	June 30, 2009	December 31, 2008
Due from Affiliates		
Primarily Interest Bearing Advances Made on Behalf of Certain Non-Controlling Interest Holders and Blackstone Employees for Investments in Blackstone Funds	\$ 147,293	\$ 175,268
Amounts Due from Portfolio Companies and Funds	92,257	72,376
Management and Performance Fees Due from Non-Consolidated Funds of Funds	55,424	50,774
Payments Made on Behalf of Non-Consolidated Entities	46,139	58,536
Advances Made to Certain Non-Controlling Interest Holders and Blackstone Employees	11,155	8,130
Investments Redeemed in Non-Consolidated Funds of Funds	8,893	496,350
	\$ 361,161	\$ 861,434
Due to Affiliates		
Due to Certain Non-Controlling Interest Holders in Connection with the Tax Receivable Agreement	\$ 720,488	\$ 722,449
Accrual for Potential Repayment of Previously Received Performance Fees and Allocations	506,519	260,018
Distributions Received on Behalf of Certain Non-Controlling Interest Holders and Blackstone Employees	48,669	262,737
Distributions Received on Behalf of Non-Consolidated Entities	23,808	22,938
Payments Made by Non-Consolidated Entities	6,053	17,435
	\$ 1,305,537	\$ 1,285,577

Interests of the Founder, Senior Managing Directors and Employees

In addition, the Founder, senior managing directors and employees invest on a discretionary basis in the Blackstone Funds both directly and through consolidated entities. Their investments may be subject to preferential management fee and performance fee and allocation arrangements. As of June 30, 2009 and December 31, 2008, the Founder s, other senior managing directors and employees investments aggregated \$515.5 million and \$507.2 million, respectively, and the Founder s, other senior managing directors and employees share of the Net Income (Loss) Attributable to Redeemable Non-Controlling and Non-Controlling Interests in Consolidated Entities aggregated \$12.4 million and \$52.6 million for the three months ended June 30, 2009 and 2008, respectively, and \$(21.6) million and \$(13.9) million for the six months ended June 30, 2009 and 2008, respectively.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

Loans to Affiliates

Loans to affiliates consist of interest-bearing advances to certain Blackstone individuals to finance their investments in certain Blackstone Funds. These loans earn interest at Blackstone's cost of borrowing and such interest totaled \$0.5 million and \$1.6 million for the three months ended June 30, 2009 and 2008, respectively, and \$0.9 million and \$3.1 million for the six months ended June 30, 2009 and 2008, respectively. No such loans that were outstanding as of June 30, 2009 were made to any director or executive officer of Blackstone since March 22, 2007, the date of Blackstone's initial filing with the Securities and Exchange Commission of a registration statement relating to its initial public offering.

Contingent Repayment Guarantee

Blackstone and its personnel who have received carried interest distributions have guaranteed payment on a several basis (subject to a cap), to the carry funds of any contingent repayment (clawback) obligation with respect to the excess carried interest allocated to the general partners of such funds and indirectly received thereby to the extent that either Blackstone or its personnel fails to fulfill its clawback obligation, if any.

Carried interest is subject to clawback to the extent that the carried interest actually distributed to date exceeds the amount due to Blackstone based on cumulative results. As such, the accrual for contingent repayments (clawback), which is a component of Due to Affiliates, represents all amounts previously distributed to Blackstone Holdings and non-controlling interest holders that would need to be repaid to the Blackstone Funds if the Blackstone carry funds were to be liquidated based on the current fair value of the underlying funds' investments as of June 30, 2009 and December 31, 2008. The actual clawback liability, however, does not become realized until the end of a fund's life or one year after a realized loss is incurred, depending on the fund. As of June 30, 2009, such obligations were \$506.5 million, of which \$220.0 million related to Blackstone Holdings and \$286.5 million related to non-controlling interest holders. As of December 31, 2008, such obligations were \$260.0 million, of which \$109.8 million related to Blackstone Holdings and \$150.2 million related to non-controlling interest holders.

Tax Receivable Agreement

Blackstone used a portion of the proceeds from the IPO and the sale of non-voting common units to Beijing Wonderful Investments to purchase interests in the predecessor businesses from certain non-controlling interest holders. In addition, holders of Blackstone Holdings Partnership Units may exchange their Blackstone Holdings Partnership Units for Blackstone Common Units on a one-for-one basis. The purchase and subsequent exchanges are expected to result in increases in the tax basis of the tangible and intangible assets of Blackstone Holdings and therefore reduce the amount of tax that Blackstone's wholly-owned subsidiaries would otherwise be required to pay in the future.

Certain subsidiaries of the Partnership which are corporate taxpayers have entered into tax receivable agreements with each of certain non-controlling interest holders and additional tax receivable agreements have been executed, and will continue to be executed, with newly-admitted senior managing directors and others who acquire Blackstone Holdings Partnership Units. The agreements provide for the payment by the corporate taxpayers to such owners of 85% of the amount of cash savings, if any, in U.S. federal, state and local income tax that the corporate taxpayers actually realize as result of the aforementioned increases in tax basis and of certain other tax benefits related to entering into these tax receivable agreements. For purposes of the tax receivable agreements, cash savings in income tax will be computed by comparing the actual income tax liability of the corporate taxpayers to the amount of such taxes that the corporate taxpayers would have been required to pay had

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

there been no increase to the tax basis of the tangible and intangible assets of Blackstone Holdings as a result of the exchanges and had the corporate taxpayers not entered into the tax receivable agreements.

Assuming no material changes in the relevant tax law and that the corporate taxpayers earn sufficient taxable income to realize the full tax benefit of the increased amortization of the assets, the expected future payments under the tax receivable agreements (which are taxable to the recipients) will aggregate \$720.5 million over the next 15 years. The present value of these estimated payments totals \$146.4 million assuming a 15% discount rate and using Blackstone's most recent projections relating to the estimated timing of the benefit to be received. Future payments under the tax receivable agreements in respect of subsequent exchanges would be in addition to these amounts. The payments under the tax receivable agreement are not conditioned upon continued ownership of Blackstone equity interests by the pre-IPO owners and the others mentioned above. In January 2009 payments totaling \$17.0 million were made to certain pre-IPO owners in accordance with the tax receivable agreement and related to tax benefits we received for the 2007 taxable year.

10. COMMITMENTS AND CONTINGENCIES

Guarantees Blackstone had approximately \$6.0 million of letters of credit outstanding to provide collateral support related to a credit facility at June 30, 2009.

Certain real estate funds guarantee payments to third parties in connection with the on-going business activities and/or acquisitions of their Portfolio Companies. At June 30, 2009, such guarantees amounted to \$14.3 million.

Debt Covenants Blackstone's debt obligations contain various customary loan covenants. In management's opinion, these covenants do not materially restrict Blackstone's investment or financing strategy. Blackstone was in compliance with all of its loan covenants as of June 30, 2009.

Investment Commitments The Blackstone Funds had signed investment commitments with respect to investments representing commitments of \$26.0 million as of June 30, 2009. Included in this is \$0.1 million of signed investment commitments for portfolio company acquisitions in the process of closing.

The general partners of the Blackstone Funds had unfunded commitments to each of their respective funds totaling \$1.4 billion as of June 30, 2009.

Certain of Blackstone's funds of hedge funds not consolidated in these financial statements have unfunded investment commitments to unaffiliated hedge funds of \$727.6 million as of June 30, 2009. The funds of hedge funds consolidated in these financial statements may, but are not required to, allocate assets to these funds.

Contingent Obligations (Clawback) Included within Net Gains (Losses) from Fund Investment Activities in the Condensed Consolidated Statements of Operations are gains from Blackstone Fund investments. The portion of net gains (losses) attributable to non-controlling interest holders is included within Non-Controlling Interests in Income of Consolidated Entities. Net gains (losses) attributable to non-controlling interest holders are net of carried interest earned by Blackstone. Carried interest is subject to clawback to the extent that the carried interest received to date exceeds the amount due to Blackstone based on cumulative results. If, at June 30, 2009, all of the investments held by the carry funds, which are at fair value, were deemed worthless, a possibility that management views as remote, the amount of carried interest subject to potential clawback would be \$1.4 billion, on an after tax basis where applicable, of which \$338.5 million related to

Table of Contents

THE BLACKSTONE GROUP L.P.

Notes to Condensed Consolidated Financial Statements (Continued)

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

Blackstone Holdings and \$1.1 billion related to current and former Blackstone personnel. These amounts are inclusive of the amounts described in Note 9 under Contingent Repayment Guarantee. A portion of the carried interest paid to current and former Blackstone personnel is held in segregated accounts in the event of a cash clawback obligation. These segregated accounts and most of the collateralized accounts are not included in the financial statements of the Partnership. At June 30, 2009, \$473.4 million was held in such segregated accounts.

Contingent Performance Fees and Allocations Through June 30, 2009, \$7.0 million of performance fees and allocations has been recorded attributable to hedge funds where the measurement period has not ended.

Litigation From time to time, Blackstone is named as a defendant in legal actions relating to transactions conducted in the ordinary course of business. After consultation with legal counsel, management believes the ultimate liability arising from such actions that existed as of June 30, 2009, if any, will not materially affect Blackstone's results of operations, financial position or cash flows.

11. SEGMENT REPORTING

Blackstone transacts its primary business in the United States and substantially all of its revenues are generated domestically.

Blackstone conducts its alternative asset management and financial advisory businesses through four segments:

Corporate Private Equity Blackstone's Corporate Private Equity segment comprises its management of corporate private equity funds.

Real Estate Blackstone's Real Estate segment comprises its management of general real estate funds and internationally focused real estate funds.

Credit and Marketable Alternatives Blackstone's Credit and Marketable Alternatives segment, whose consistent focus is current earnings, comprises its management of funds of hedge funds, credit-oriented funds, CLO vehicles, publicly-traded closed-end mutual funds and separate accounts programs. GSO's results have been included in this segment from the date of acquisition. This segment, formerly known as Marketable Alternative Asset Management, has been renamed to better reflect the product mix in this segment. This does not reflect a change to the underlying businesses or how they are reflected in Blackstone's results of operations.

Financial Advisory Blackstone's Financial Advisory segment comprises its corporate and mergers and acquisitions advisory services, restructuring and reorganization advisory services and Park Hill Group, which provides fund placement services for alternative investment funds.

These business segments are differentiated by their various sources of income, with the Corporate Private Equity, Real Estate and Credit and Marketable Alternatives segments primarily earning their income from management fees and investment returns on assets under management, while the Financial Advisory segment primarily earns its income from fees related to investment banking services and advice and fund placement services.

Economic Net Income (ENI) is a key performance measure used by management. ENI represents segment net income excluding the impact of income taxes and IPO and acquisition-related items, including charges associated with equity-based compensation, the amortization of

intangibles and corporate actions including

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)****(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)**

acquisitions. For segment reporting purposes, revenues and expenses are presented on a basis that deconsolidates the investment funds we manage. The aggregate of ENI for all segments equals Total Segment ENI. ENI is used by management primarily in making resource deployment and compensation decisions across Blackstone's four segments.

Management makes operating decisions and assesses the performance of each of Blackstone's business segments based on financial and operating metrics and data that is presented without the consolidation of any of the Blackstone Funds that are consolidated into the condensed consolidated financial statements. Consequently, all segment data excludes the assets, liabilities and operating results related to the Blackstone Funds.

The following table presents the financial data for Blackstone's four segments for the three months ended June 30, 2009 and as of and for the six months ended June 30, 2009:

	Three Months Ended June 30, 2009				Total Reportable Segments
	Corporate Private Equity	Real Estate	Credit and Marketable Alternatives	Financial Advisory	
Segment Revenues					
Management Fees					
Base Management Fees	\$ 67,740	\$ 81,517	\$ 96,293	\$ 82,503	\$ 245,550
Advisory Fees				82,503	82,503
Transaction and Other Fees	15,711	2,879	687		19,277
Management Fee Offsets	(566)	(486)	(4,365)		(5,417)
Total Management and Advisory Fees	82,885	83,910	92,615	82,503	341,913
Performance Fees and Allocations	97,185	(47,370)	22,419		72,234
Investment Income (Loss) and Other	18,516	(55,461)	25,375	996	(10,574)
Total Revenues	198,586	(18,921)	140,409	83,499	403,573
Expenses					
Compensation and Benefits	54,263	(6,824)*	57,406	54,239	159,084
Other Operating Expenses	20,553	12,978	16,461	21,734	71,726
Total Expenses	74,816	6,154	73,867	75,973	230,810
Economic Net Income (Loss)	\$ 123,770	\$ (25,075)	\$ 66,542	\$ 7,526	\$ 172,763

* The credit balance in Compensation and Benefits for the Real Estate segment is primarily the result of a reversal of \$47.4 million of prior period carried interest allocations made to certain partners that are participating in the Partnership's profit sharing arrangements.

Table of Contents**THE BLACKSTONE GROUP L.P.****Notes to Condensed Consolidated Financial Statements (Continued)**

(All Dollars Are in Thousands, Except Unit and Per Unit Data, Except Where Noted)

	June 30, 2009 and the Six Months then Ended				Total Reportable Segments

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with The Blackstone Group L.P.'s condensed consolidated financial statements and the related notes included in this Quarterly Report on Form 10-Q.

On March 3, 2008, we acquired GSO Capital Partners LP and certain of its affiliates ("GSO"). GSO is an alternative asset manager specializing in the leveraged finance marketplace. GSO manages various credit-oriented funds, separately managed accounts and collateralized loan obligation ("CLO") vehicles. GSO's results are included in our Credit and Marketable Alternatives segment from the date of acquisition.

Our Business

Blackstone is one of the largest independent alternative asset managers in the world. We also provide a range of financial advisory services, including corporate and mergers and acquisitions advisory, restructuring and reorganization advisory and fund placement services.

Our business is organized into four business segments:

Corporate Private Equity. We are a world leader in private equity investing, having managed five general private equity funds, as well as one specialized fund focusing on media and communications-related investments, since we established this business in 1987. In addition, we are in the process of raising our seventh private equity fund and are seeking to launch new investment funds to make infrastructure and clean technology investments. Through our corporate private equity funds we pursue transactions throughout the world, including leveraged buyout acquisitions of seasoned companies, transactions involving growth equity or start-up businesses in established industries, minority investments, corporate partnerships, distressed debt, structured securities and industry consolidations, in all cases in strictly friendly transactions.

Real Estate. We are a world leader in real estate investing with an assortment of real estate funds that are diversified geographically and across a variety of sectors. We launched our first real estate fund in 1994 and have managed six opportunistic real estate funds, two internationally focused real estate funds, a European focused real estate fund and a number of debt-focused real estate funds. Our real estate funds have made significant investments in lodging, major urban office buildings and a variety of real estate operating companies. In addition, our debt-focused funds target real estate debt related investment opportunities in the public and private markets, primarily in the United States and Europe.

Credit and Marketable Alternatives. Established in 1990, our credit and marketable alternatives segment is comprised of our management of funds of hedge funds, credit-oriented funds, CLO vehicles and publicly-traded closed-end mutual funds. These products are intended to provide investors with consistent distributions of current income. In addition, we provide investment advice to institutional investors in dedicated accounts (i.e., separately managed accounts). This segment, formerly known as Marketable Alternative Asset Management, has been renamed to better reflect the product mix in this segment. This does not reflect a change to the underlying businesses or how they are reflected in reporting our results of operations.

Financial Advisory. Our financial advisory segment serves a diverse and global group of clients with corporate and mergers and acquisitions advisory services, restructuring and reorganization advisory services and fund placement services for alternative investment funds.

We generate our revenue from fees earned pursuant to contractual arrangements with funds, fund investors and fund portfolio companies (including management, transaction and monitoring fees), and from corporate and

Table of Contents

mergers and acquisitions advisory services, restructuring and reorganization advisory services and fund placement services for alternative investment funds. We invest in the funds we manage and, in most cases, receive an allocation of income (i.e., a carried interest) or an incentive fee from an investment fund in the event that specified cumulative investment returns are achieved. The composition of our revenues will vary based on market conditions and the cyclical nature of the different businesses in which we operate. Net investment gains and resultant investment income generated by the Blackstone Funds over a fund's investment cycle, principally corporate private equity and real estate funds, are driven by value created by our operating and strategic initiatives as well as overall market conditions. Our funds initially record fund investments at cost and then such investments are subsequently recorded at fair value. Fair values are affected by changes in the stock market, fundamentals of the portfolio company, the portfolio company's industry, the overall economy, as well as other market conditions.

Business Environment

Global equity and debt markets recovered much of their previous losses in the second quarter of 2009, while the macro-economic backdrop remained challenged. In the United States and Europe, equities markets rose for the first time since the second quarter of 2007, after U.S. markets reached a 12-year low and European markets reached a 6-year low in March 2009. Emerging markets across Asia and Latin America rose even more quickly and ended the second quarter of 2009 35-75% higher than year-end 2008 levels.

High yield credit spreads tightened sharply to 978 basis points over Treasury securities at the end of June 2009, compared with credit spreads of 1,700 basis points over Treasury securities at year-end 2008. Despite this dramatic tightening, spreads remain well above historic averages and credit trends continue to be weak across both consumer and commercial asset classes. Investors returned to investing in high yield debt and issuance increased. Notwithstanding the meaningful rally in credit, bank lenders have not increased their appetite to make long-term capital commitments. Therefore, the volume of new leveraged transactions remains low given the overall global economic weakness and lack of financing.

Commercial real estate trends in the U.S. and Europe worsened in the second quarter of 2009, with lower occupancy and pricing trends. Global hospitality trends also declined, including revenue per available room (RevPAR), an important industry metric.

Commodities prices continued their upward climb. Crude oil ended the second quarter of 2009 at \$70 per barrel, 41% higher than at the end of March 2009 and 57% higher than at year-end 2008. The dollar generally weakened against most currencies in the quarter, reversing the gains of the first quarter. In the second quarter of 2009, the dollar declined approximately 6% against the Euro, 13% against the Pound Sterling and 3% against the Japanese Yen.

Global economies appear to be benefiting from substantial government stimulus. Though economic trends in developed nations were negative in the second quarter of 2009, the rate of decline has slowed. Emerging nations, such as China and India, continue to have favorable growth trends. The consumer price index (CPI) increased 0.8% in the second quarter of 2009 on a seasonally adjusted basis and declined 1.4% over the preceding twelve month period.

The duration of current economic and market conditions is unknown. Blackstone's businesses are materially affected by conditions in the financial markets and economic conditions in the United States, Western Europe, Asia and to a lesser extent elsewhere in the world.

Table of Contents

Key Financial Measures and Indicators

Our key financial measures and indicators are discussed below.

Revenues

Revenues primarily consist of management and advisory fees, performance fees and allocations and investment income.

Management and Advisory Fees. Management and advisory fees consist of (1) fund management fees and (2) advisory fees.

(1) *Fund Management Fees.* Fund management fees are comprised of:

(a) *Base Management Fees.* Base management fees are fees charged directly to the fund or fund investors. Base management fees are calculated as follows:

(i) For carry funds, generally as a percentage of the investment fund's capital commitment during the investment period and a percentage of invested capital after the investment period;

(ii) For credit-oriented and real estate funds structured like a hedge fund, generally as a percentage of the fund's net asset value;

(iii) For hedge funds, generally as a percentage of assets under management;

(iv) For CLOs at cost and closed-end mutual funds, generally as a percentage of each fund's total assets; and

(v) For separately managed accounts, generally as a percentage of net asset value.

Refer to Item 1. Business, Incentive Arrangements / Fee Structure in our 2008 Annual Report on Form 10-K which provides additional information regarding the manner in which Base Management Fees are generated.

(b) *Transaction and Other Fees.* Transaction and other fees (including monitoring fees) are comprised of fees charged directly to funds and fund portfolio companies. Our investment advisory agreements generally require that the investment advisor share a portion of certain fees with the limited partners of the fund. Transaction and other fees are net of amounts, if any, shared with limited partners.

(c) *Management Fee Offsets.* Our investment advisory agreements generally require that the investment advisor share a portion of certain expenses with the limited partners of the fund. These shared items (management fee reductions) reduce the management fees received from the limited partners. Management fee offsets are comprised principally of broken deal and placement fee expenses.

(2) *Advisory Fees.* Advisory fees consist of advisory retainer and transaction-based fee arrangements related to mergers, acquisitions, restructurings, divestitures and fund placement services for alternative investment funds.

Edgar Filing: Blackstone Group L.P. - Form 10-Q

Performance Fees and Allocations. Performance fees and allocations represent the allocations of profits (carried interest) which are a component of our general partner interests in the carry funds. We are entitled to carried interest from an investment carry fund in the event investors in the fund achieve cumulative investment returns in excess of a specified rate. In certain performance fee arrangements related to funds of hedge funds and some credit-oriented funds in our Credit and Marketable Alternatives segment, we are entitled to receive performance fees and allocations subject to certain net loss carry-forward provisions (known as a highwater mark) and, in some cases, when the return on assets under management exceeds certain benchmark returns or other performance targets. In all cases, each fund is considered separately in that regard and for a given fund,

Table of Contents

performance fees and allocations can never be negative over the life of the fund. For our carry funds, Performance Fees and Allocations are realized when the underlying investment in a fund is profitably realized and the fund's cumulative investment returns are in excess of a specified rate. For our hedge funds, Performance Fees and Allocations are realized at the end of each fund's measurement period, as applicable to the performance fee or allocation.

Investment Income. Blackstone invests in corporate private equity funds, real estate funds, funds of hedge funds and credit-oriented funds that are not consolidated. The Partnership accounts for these investments under the equity method of accounting. Blackstone's share of operating income (loss) generated by these investments is recorded as a component of Investment Income (Loss). Investment Income (Loss) is realized when we redeem all or a portion of our investment or when we receive cash income, such as from a dividend or distribution, from an investment in one of our funds which is not consolidated. Unrealized Investment Income (Loss) results from changes in the fair value of the underlying investment as well as the reversal of unrealized gain (loss) at the time an investment is realized.

Interest Income and Other. Interest Income and Other principally includes interest earned from the investing of Blackstone's available Cash and Cash Equivalents and any foreign exchange transaction amounts.

Expenses

Compensation and Benefits Expense. The bulk of our compensation is performance-related, generally paid as a percentage of revenues or profits. Compensation and benefits expense reflects (1) employee compensation and benefits expense paid and payable to our employees, including our senior managing directors, (2) equity-based compensation associated with grants of equity-based awards to senior managing directors, other employees and selected other individuals engaged in our businesses and (3) performance payment arrangements for Blackstone personnel and profit sharing interests in carried interest.

Other Operating Expenses. The balance of our expenses represent general and administrative expenses including interest expense, occupancy and equipment expenses and other expenses, which consist principally of professional fees, public company costs, travel and related expenses, communications and information services and depreciation and amortization.

Fund Expenses. The expenses of our consolidated Blackstone Funds consist primarily of interest expense, professional fees and other third-party expenses.

Other Income

Other Income (Losses) Net Income from Fund Investment Activities represents amounts attributable to funds that Blackstone includes in its condensed consolidated financial statements with such results allocated to non-controlling interest holders.

Non-Controlling Interests

A majority of our investment funds are unconsolidated or we record significant non-controlling interests in income of consolidated entities relating to the ownership interests of the limited partners of the Blackstone Holdings Partnerships and the limited partner interests in our consolidated investment funds. The Blackstone Group L.P. is, through wholly-owned subsidiaries, the sole general partner of each of the Blackstone Holdings partnerships. The Blackstone Group L.P. consolidates the financial results of Blackstone Holdings and its consolidated subsidiaries, and the ownership interest of the limited partners of Blackstone Holdings is reflected as Non-Controlling Interests in Blackstone Holdings. The limited partner interests of the consolidated Blackstone Funds is presented as Redeemable Non-Controlling Interests in Consolidated Entities in situations where the limited partner has, or will have, the option of redeeming their interests from consolidated Blackstone Fund,

Table of Contents

which is principally from our funds of hedge funds and certain credit-oriented funds. Limited partners interests in the consolidated Blackstone Funds where the redemption option does not exist, which is principally our carry funds, is recorded as Non-Controlling Interests in Consolidated Entities.

Income Taxes

The Blackstone Holdings partnerships and certain of their subsidiaries operate in the United States as partnerships for U.S. federal income tax purposes and generally as corporate entities in non-U.S. jurisdictions. As a result, our income is not subject to U.S. federal and state income taxes. Generally, the tax liability related to income earned by these entities represents obligations of the individual partners and members. A portion of our income may be subject to the New York City unincorporated business tax and other non-U.S. income taxes applicable to income earned in non-U.S. jurisdictions. In addition, certain of the wholly-owned subsidiaries of The Blackstone Group L.P. and the Blackstone Holdings partnerships are subject to corporate federal, state and local income taxes that are reflected in our consolidated financial statements.

There remains some uncertainty regarding Blackstone's future taxation levels. In June 2007, a bill was introduced in the U.S. Senate that would preclude Blackstone from qualifying for treatment as a partnership for U.S. federal income tax purposes under the publicly traded partnership rules. In addition, the U.S. Congress has recently considered other bills relating to the taxation of investment partnerships. Legislation has been introduced into the U.S. Congress this year that is substantially similar to a bill passed by the U.S. House of Representatives in 2008 that would generally (1) treat carried interest as non-qualifying income under the tax rules applicable to publicly traded partnerships, which would require Blackstone to hold interests in entities earning such income through taxable subsidiary corporations, and (2) tax carried interest as ordinary income for U.S. federal income tax purposes, rather than in accordance with the character of income derived by the underlying fund, which is in many cases capital gain. In addition, the Obama administration proposed in its published revenue proposals for 2010 that the current law regarding the treatment of carried interest be changed to treat such income as income received in connection with the performance of services and subject to ordinary income tax. If any such legislation or similar legislation were to be enacted and it applied to us, it would materially increase the amount of taxes payable by Blackstone and/or its unitholders.

Economic Net Income

Economic Net Income (ENI) represents segment net income excluding the impact of income taxes and IPO and acquisition-related items, including charges associated with equity-based compensation, the amortization of intangibles and corporate actions including acquisitions. For segment reporting purposes, revenues and expenses are presented on a basis that deconsolidates the investment funds we manage. ENI is used by management primarily in making resource deployment and compensation decisions across Blackstone's four segments. (See Note 11. Segment Reporting in the Notes to the Condensed Consolidated Financial Statements in Part I. Item 1. Financial Statements.)

Net Fee Related Earnings from Operations

Net Fee Related Earnings from Operations, which is a component of Adjusted Cash Flows from Operations, is a supplemental non-GAAP financial measure that reflects our earnings from operations excluding the income related to the performance fees and allocations and related carry plan costs and income earned from Blackstone's investments in the Blackstone Funds. Management uses Net Fee Related Earnings from Operations as a measure to assess whether recurring revenue from our businesses more than adequately covers all of our operating expenses and generates profitability. Net Fee Related Earnings from Operations equals (i) contractual revenues and interest income, (ii) less compensation expenses, which include amortization of non-IPO and acquisition-related equity-based awards, but exclude amortization of IPO and acquisition-based equity awards, carried interest and incentive fee compensation, (iii) less other operating expenses and (iv) less cash taxes calculated in a manner similar to our ENI provision for income taxes. See Liquidity and Capital Resources Liquidity and

Table of Contents

Capital Resources below for a detailed discussion of Net Fee Related Earnings from Operations. This measure should be considered in addition to, and not as a substitute for, or superior to, financial measures presented in accordance with GAAP.

Blackstone uses Earnings Before Interest, Taxes and Depreciation and Amortization from Net Fee Related Earnings from Operations (EBITDA-NFRE) as a measure of segment performance and a useful indicator of our ability to cover our recurring operating expenses. EBITDA-NFRE equals Net Fee Related Earnings from Operations before segment level interest expense, segment level depreciation and amortization and the cash taxes included in Net Fee Related Earnings from Operations.

Adjusted Cash Flows from Operations

Adjusted Cash Flows from Operations, which is derived from our segment reported results, is a supplemental non-GAAP financial measure we use to assess liquidity and amounts available for distribution to owners. Adjusted Cash Flows from Operations is intended to reflect the cash flows attributable to Blackstone without the effects of the consolidation of the Blackstone Funds. The equivalent GAAP measure is Net Cash Provided by (Used in) Operating Activities. See Liquidity and Capital Resources below for our detailed discussion of Adjusted Cash Flows from Operations. This measure should be considered in addition to, and not as a substitute for, or superior to, financial measures presented in accordance with GAAP.

Operating Metrics

The alternative asset management business is a complex business that is primarily based on managing third party capital and does not require substantial capital investment to support rapid growth. However, there also can be volatility associated with its earnings and cash flows. Since our inception, we have developed and used various key operating metrics to assess and monitor the operating performance of our various alternative asset management businesses in order to monitor the effectiveness of our value creating strategies.

Assets Under Management. Assets Under Management refers to the assets we manage. Our Assets Under Management equal the sum of:

- (1) the fair value of the investments held by our carry funds plus the capital that we are entitled to call from investors in those funds pursuant to the terms of their capital commitments to those funds (plus the fair value of co-investments arranged by us that were made by limited partners of our funds in portfolio companies of such funds and as to which we receive fees or a carried interest allocation);
- (2) the net asset value of our funds of hedge funds, hedge funds and our closed-end mutual funds;
- (3) the fair value of assets we manage pursuant to separately managed accounts; and
- (4) the amount of capital raised for our CLOs.

Our carry funds are commitment-based drawdown structured funds that do not permit investors to redeem their interests at their election. Interests related to our funds of hedge funds and certain of our credit-oriented funds are generally subject to annual, semi-annual or quarterly withdrawal or redemption by investors upon advance written notice, with the majority of our funds requiring from 60 days up to 95 days depending on the fund and the liquidity profile of the underlying assets. Investment advisory agreements related to separately managed accounts may generally be terminated by an investor on 30 to 90 days notice.

Fee-Earning Assets Under Management. Fee-Earning Assets Under Management refers to the assets we manage on which we derive management and incentive fees. Our Fee-Earning Assets Under Management generally equal the sum of:

- (1) for our carry funds where the investment period has not expired, the amount of capital commitments;

Edgar Filing: Blackstone Group L.P. - Form 10-Q

- (2) for our carry funds where the investment period has expired, the remaining amount of invested capital;

Table of Contents

- (3) the invested capital of co-investments arranged by us that were made by limited partners of our funds in portfolio companies of such funds and as to which we receive fees;
- (4) the net asset value of our funds of hedge funds, hedge funds and our closed-end mutual funds;
- (5) the fair value of assets we manage pursuant to separately managed accounts; and
- (6) the gross amount of assets of our CLOs at cost.

Our calculations of assets under management and fee-earning assets under management may differ from the calculations of other asset managers, and as a result this measure may not be comparable to similar measures presented by other asset managers. In addition, our calculation of assets under management includes commitments to and the fair value of invested capital in our funds from Blackstone and our personnel regardless of whether such commitments or invested capital are subject to fees. Our definitions of assets under management or fee-earning assets under management are not based on any definition of assets under management or fee-earning assets under management that is set forth in the agreements governing the investment funds that we manage.

For our carry funds, total assets under management includes the fair value of the investments held whereas fee-earning assets under management includes the amount of capital commitments or the remaining amount of invested capital at cost depending on whether the investment period has or has not expired. As such, fee-earning assets under management may be greater than total assets under management when the aggregate fair value of the remaining investments is less than the cost of those investments.

Limited Partner Capital Invested. Limited Partner Capital Invested represents the amount of Limited Partner capital commitments which were invested by our carry funds during each period presented, plus the capital invested through co-investments arranged by us that were made by limited partners in investments of our carry funds as to which we receive fees or a carried interest allocation.

We manage our business using both financial measures and our key operating metrics since we believe that these metrics measure the productivity of our investment activities.

Table of Contents**Condensed Consolidated Results of Operations**

Following is a discussion of our condensed consolidated results of operations for the three and six months ended June 30, 2009 and 2008. For a more detailed discussion of the factors that affected the results of our four business segments (which are presented on a basis that deconsolidates the investment funds we manage) in these periods, see [Segment Analysis](#) below.

The following table sets forth information regarding our consolidated results of operations for the three and six months ended June 30, 2009 and 2008.

	Three Months Ended June 30,		2009 vs. 2008		Six Months Ended June 30,		2009 vs. 2008

- (a) Inflows represent contributions by limited partners and Blackstone and its employees in our funds of hedge funds, credit-oriented funds and closed-end mutual funds, increases in available capital for our carry funds (capital raises, callable capital and increased side-by-side commitments) and CLOs and increases in the capital we manage pursuant to separately managed account programs. For 2008, this also includes the assets under management of GSO at the closing date of the acquisition.
- (b) Outflows represent redemptions by limited partners and Blackstone and its employees in our funds of hedge funds, credit-oriented funds and closed-end mutual funds, client withdrawals from our separately managed account programs, decreases in available capital for our carry funds (expired capital, expense drawdowns and decreased side-by-side commitments) and realizations from the disposition of assets by our carry funds. Also included is the distribution of funds associated with the liquidation of our proprietary single manager hedge funds.
- (c) Market appreciation (depreciation) includes realized and unrealized gains (losses) on portfolio investments and the impact of foreign exchange rate fluctuations.

Revenues

Management and Advisory Fees were \$340.8 million for the three months ended June 30, 2009, an increase of \$2.7 million, or 1%, compared to \$338.2 million for the three months ended June 30, 2008. The change was principally driven by increased advisory fees generated by both our restructuring and reorganization advisory services and corporate and mergers and acquisitions advisory services businesses, as well as an increase in management fees in our Real Estate segment. These increases were partially offset by a decline in management fees earned in our Credit and Marketable Alternatives segment, driven primarily by lower Fee Earning Assets Under Management.

Performance Fees and Allocations were \$71.2 million for the three months ended June 30, 2009, an increase of \$84.9 million compared to \$(13.7) million for the three months ended June 30, 2008. The increase was driven principally by positive performance in one of our private equity investment funds and a decrease in the reversal of prior period carried interest allocations to certain personnel in our real estate investment funds. These positive drivers were partially offset by a reduction in performance fees generated by certain of our credit-oriented funds. Additionally, the second quarter of 2008 included performance fees associated with one of our then-existing proprietary single manager hedge funds which was liquidated in the first quarter of 2009.

Investment Income (Loss) was \$(10.9) million for the three months ended June 30, 2009, a decrease of \$33.7 million compared to \$22.8 million for the three months ended June 30, 2008. The change was principally

Table of Contents

due to a net depreciation in the fair value of the underlying portfolio investments in our real estate investment funds and the reduction in total capital we had invested in our funds of hedge funds compared with the second quarter of 2008. Additionally, the second quarter of 2008 included investment income associated with one of our then-existing proprietary single manager hedge funds. These decreases were partially offset by net appreciation in the fair value of the underlying portfolio investments in our private equity investment funds.

Interest Income and Other was \$5.4 million for the three months ended June 30, 2009, a decrease of \$1.4 million, or 20%, compared to \$6.7 million for the three months ended June 30, 2008. The change primarily reflected decreased interest earned on bank deposits and Treasury securities, partially offset by an increase in foreign exchange gains.

Management and Advisory Fees were \$682.0 million for the six months ended June 30, 2009, an increase of \$34.4 million, or 5%, compared to \$647.6 million for the six months ended June 30, 2008. The change was principally driven by an increase in advisory fees generated by both our restructuring and reorganization advisory services and corporate and mergers and acquisitions advisory services businesses, as well as an increase in management fees in our Corporate Private Equity and Real Estate segments. The increases were partially offset by a decline in management fees earned in our Credit and Marketable Alternatives segment reflecting reduced Fee Earning Assets Under Management.

Performance Fees and Allocations were \$(143.1) million for the six months ended June 30, 2009, an increase of \$59.3 million, or 29%, compared to \$(202.4) million for the six months ended June 30, 2008. The increase was driven principally by positive performance in one of our private equity investment funds. This increase was partially offset by a net depreciation in the fair value of the underlying portfolio investments in our real estate investment funds, as well as a reduction in performance fees generated by certain of our credit-oriented funds. Additionally, the second quarter of 2008 included performance fees associated with one of our then-existing proprietary single manager hedge funds which was liquidated in the first quarter of 2009.

Investment Income (Loss) was \$(93.4) million for the six months ended June 30, 2009, a decrease of \$54.8 million compared to \$(38.6) million for the six months ended June 30, 2008. The change was due principally to net depreciation in the fair value of the underlying portfolio investments in our real estate investment funds. This decrease was partially offset by net appreciation in the fair value of the underlying portfolio investments in our private equity investment funds and improved returns on our investment in our funds of hedge funds and certain of our proprietary single manager hedge funds and credit-oriented funds for the six months ended June 30, 2009 compared to the six months ended June 30, 2008.

Interest Income and Other was \$5.8 million for the six months ended June 30, 2009, a decrease of \$9.6 million, or 62%, compared to \$15.4 million for the six months ended June 30, 2008. The change primarily reflected decreased interest earned on bank deposits and Treasury securities.

Expenses

Expenses were \$1.1 billion for the three months ended June 30, 2009, a decrease of \$112.4 million, or 10%, compared to \$1.2 billion for the three months ended June 30, 2008. The change reflected decreased Compensation and Benefits of \$91.1 million, principally resulting from a decline in amortization of equity-based compensation expense of \$42.9 million. Additionally, reversal of prior period carried interest allocations of \$28.1 million to certain personnel, principally resulting from a net depreciation in the fair value of certain portfolio investments in our real estate funds, contributed to the overall decrease in Compensation and Benefits. Fund Expenses decreased \$20.2 million from the second quarter of 2008 due principally to a decrease in interest expenses associated with our then-existing proprietary hedge funds. General, Administrative and Other were \$112.3 million, a slight increase from \$107.8 million for the three months ended June 30, 2008.

Table of Contents

Expenses were \$2.0 billion for the six months ended June 30, 2009, a decrease of \$287.6 million, or 13%, compared to \$2.3 billion for the six months ended June 30, 2008. The primary driver of the decrease was a reduction in Compensation and Benefits of \$255.9 million, principally resulting from a decline in amortization of equity-based compensation expense of \$219.5 million, as well as a \$132.2 million reversal of prior period carried interest allocations to certain personnel. Partially offsetting these decreases to Compensation and Benefits was an increase in personnel compensation, which is tied to increased Net Fee Related Earnings from Operations. Fund Expenses decreased \$40.1 million from the six months ended June 30, 2008, due principally to a decrease in interest expenses associated with our then-existing proprietary hedge funds. General, Administrative and Other increased \$15.3 million, primarily due to an increase in occupancy costs, bad debt expenses and incremental amortization expense associated with intangible assets related to our acquisition of GSO in March 2008.

Other Income (Loss)

Other Income was \$58.3 million for the three months ended June 30, 2009, a decrease of \$131.4 million, or 69%, as compared to \$189.7 million for the three months ended June 30, 2008. The change was primarily related to a decrease in unrealized gains associated with our then-existing proprietary hedge fund.

Other Income (Loss) was \$23.5 million for the six months ended June 30, 2009, an increase of \$49.5 million as compared to a loss of \$(26.0) million for the six months ended June 30, 2008. The change was principally driven by an increase in income generated by our Credit and Marketable Alternatives segment, partially offset by an increase in unrealized losses in our real estate funds. The primary drivers of the increase in income from the six months ended June 30, 2008 in our Credit and Marketable Alternatives segment were decreased losses associated with the liquidation of one of our proprietary single manager hedge funds and unrealized gains in certain of our funds of hedge and proprietary hedge funds. These positive drivers were partially offset by a decrease in unrealized gains and interest income associated with one of our then-existing proprietary single manager hedge funds.

Fee-Earning Assets Under Management

Fee-Earning Assets Under Management were \$93.5 billion at June 30, 2009, a decrease of \$6.2 billion, or 6%, compared to \$99.7 billion at June 30, 2008. The decrease was primarily due to a reduction in the fair value of the underlying portfolio investments in our funds of hedge funds and credit-oriented funds, as well as the liquidation of our proprietary single manager hedge funds in the first quarter of 2009. These decreases were partially offset by additional capital raised for our funds of hedge funds, credit-oriented funds and European focused real estate fund since June 30, 2008.

Assets Under Management

Assets Under Management were \$93.5 billion at June 30, 2009, a decrease of \$25.9 billion, or 22%, compared to \$119.4 billion at June 30, 2008, as a result of the factors discussed above.

Capital Deployed

Limited Partner Capital Invested was \$703.1 million for the three months ended June 30, 2009, a decrease of \$1.1 billion, or 61%, compared to \$1.8 billion for the three months ended June 30, 2008. Limited Partner Capital Invested was \$1.3 billion for the six months ended June 30, 2009, a decrease of \$1.2 billion, or 48%, compared to \$2.5 billion for the six months ended June 30, 2008. The change for both periods reflected a decrease in the size and volume of consummated transactions, particularly in our corporate private equity funds and certain of our credit-oriented funds, reflecting fewer attractive investment opportunities during the second quarter and first six months of 2009.

Table of Contents**Segment Analysis**

Discussed below is our ENI for each of our segments. This information is reflected in the manner utilized by our senior management to make operating decisions, assess performance and allocate resources. References to our sectors or investments may also refer to portfolio companies and investments of the underlying funds that we manage.

For segment reporting purposes, revenues and expenses are presented on a basis that deconsolidates the investment funds we manage. As a result, segment revenues are greater than those presented on a consolidated GAAP basis because fund management fees recognized in certain segments are received from the Blackstone Funds and eliminated in consolidation when presented on a consolidated GAAP basis. Furthermore, segment expenses are lower than related amounts presented on a consolidated GAAP basis due to the exclusion of fund expenses that are paid by Limited Partners and the elimination of non-controlling interests.

Corporate Private Equity

The following table presents our results of operations for our Corporate Private Equity segment:

	Three Months Ended June 30,		2009 vs. 2008		Six Months Ended June 30,		2009 vs. 2008

Revenues

Revenues were \$198.6 million for the three months ended June 30, 2009, an increase of \$106.2 million compared to \$92.4 million for the three months ended June 30, 2008. The increase in Performance Fees and Allocations was driven by the positive performance in one of our investment funds. The increase in Investment Income (Loss) and Other was principally driven by net appreciation in the fair value of the segment's underlying portfolio investments of approximately 3% in the second quarter of 2009. The fair value of the underlying portfolio investments was virtually unchanged in the second quarter of 2008. The net appreciation was driven by increases in the value of certain energy, healthcare, industrial and entertainment and recreation portfolio investments, as well as overall gains on foreign exchange translation, partially offset by decreases in certain media and communications, hospitality and financial services portfolio investments. The decrease in Management Fee Offsets was due primarily to a reduction of spending on due diligence for potential transactions. Transaction and Other Fees decreased \$3.5 million, driven by fewer closed fee-earning transactions during the second quarter of 2009.

Revenues were \$266.7 million for the six months ended June 30, 2009, an increase of \$291.1 million as compared to \$(24.4) million for the six months ended June 30, 2008. The increases in both Performance Fees and Allocations and Investment Income (Loss) and Other were principally driven by positive performance in one of our investment funds. Additionally, the fair value of the segment's underlying portfolio investments was virtually unchanged in the six months ended June 30, 2009 compared to a net depreciation of approximately 5% in the six months ended June 30, 2008. For the six months ended June 30, 2009, increases in the value of certain food and beverage, entertainment and recreation, healthcare and industrial portfolio investments were virtually offset by declines in the value of certain media and communications, hospitality and financial services portfolio investments. Management Fee Offsets decreased as a result of reduced spending on due diligence for potential transactions and decreased amortization of fees related to the organization and marketing of our funds.

Table of Contents

Expenses

Expenses were \$74.8 million for the three months ended June 30, 2009, an increase of \$13.7 million, or 22%, compared to \$61.1 million for the three months ended June 30, 2008. Compensation and Benefits increased \$14.0 million, primarily due to an increase in personnel compensation related to an increase in Net Fee Related Earnings from Operations for the segment.

Expenses were \$89.8 million for the six months ended June 30, 2009, an increase of \$87.3 million compared to \$2.5 million for the six months ended June 30, 2008. The six months ended June 30, 2008 included a \$101.6 million reversal of prior period carried interest allocations to certain personnel, which resulted from the net depreciation in fair value of certain portfolio investments, compared with a reversal of \$27.8 million in the six months ended June 30, 2009, which also reflected a change to our carry compensation plan. As a result, Compensation and Benefits increased, principally related to this reduction in compensation reversals. An increase in personnel compensation, due principally to an increase in Net Fee Related Earnings from Operations for the segment, also contributed to the increase in Compensation and Benefits. Other Operating Expenses decreased \$2.3 million, driven principally by a decrease in professional fees.

Fee-Earning Assets Under Management

Fee-Earning Assets Under Management were \$25.2 billion at June 30, 2009, relatively flat compared to June 30, 2008. Contributions of \$356.4 million in funds which charge a fee based upon invested capital were virtually offset by net depreciation in the fair value of the segment's underlying portfolio investments of \$332.0 million.

Assets Under Management

Assets Under Management were \$23.9 billion at June 30, 2009, a decrease of \$6.4 billion, or 21%, compared with \$30.3 billion at June 30, 2008. The decrease was primarily driven by net depreciation in the fair value of the segment's underlying portfolio investments of \$6.2 billion.

Capital Deployed

Limited Partner Capital Invested was \$338.3 million for the three months ended June 30, 2009, a decrease of \$437.7 million, or 56%, compared to \$775.9 million for the three months ended June 30, 2008. Limited Partner Capital Invested was \$534.4 million for the six months ended June 30, 2009, a decrease of \$581.7 million, or 52%, compared to \$1.1 billion for the six months ended June 30, 2008. These decreases reflect fewer and smaller transactions in the three and six months ended June 30, 2009 compared to the three and six months ended June 30, 2008, respectively.

Table of Contents**Real Estate**

The following table presents our results of operations for our Real Estate segment:

	\$ 252,687	\$ 209,779	\$ 42,908	20%	\$ 467,810	\$ 578,981	\$ (111,171)	-19%

Revenues

Revenues were \$(18.9) million for the three months ended June 30, 2009, a decrease of \$5.5 million, or 41%, compared to \$(13.5) million for the three months ended June 30, 2008. The decrease in Investment Income (Loss) and Other was due principally to net depreciation in the fair value of the segment's underlying portfolio investments of approximately 19% as a result of a reduction in the fair value of certain portfolio investments, reflecting revisions to the operating projections for certain portfolio companies, particularly in the office and

Table of Contents

lodging sectors. Office fundamentals continued to deteriorate during the second quarter of 2009. Leasing activity accelerated in the second quarter of 2009 compared to the first quarter of 2009, primarily due to a decline in asking rents. However, the leasing activity was still below historical norms and vacancies continued to increase. Additionally, the current economic environment continued to exert pressure on the operating results of both domestic and foreign hospitality assets as evidenced by continued year-over-year declines in revenue per available room (RevPAR), an important hospitality industry metric. The negative \$47.4 million of Performance Fees and Allocations was principally comprised of the reversal of prior period carried interest allocations to certain personnel, with an offsetting reduction to Compensation and Benefits. Performance Fees and Allocations in the second quarter of 2008 were principally comprised of the reversal of Blackstone's prior period carried interest allocations of \$74.1 million. Base Management Fees increased \$13.5 million, driven by a \$2.4 billion increase in Fee Earning Assets Under Management from the second quarter of 2008.

Revenues were \$(231.5) million for the six months ended June 30, 2009, a decrease of \$265.5 million compared to \$34.0 million for the six months ended June 30, 2008. The decreases in both Performance Fees and Allocations and Investment Income (Loss) and Other were due primarily to net depreciation in the fair value of the segment's underlying portfolio investments as a result of a reduction in the fair value of certain portfolio investments due to revised operating projections for our portfolio companies, particularly in the office and lodging sectors. Base Management Fees increased \$27.0 million, driven by an increase in Fee Earning Assets Under Management from the six months ended June 30, 2008. Transaction and Other Fees decreased \$12.6 million, primarily due to fewer closed fee-earning transactions during the six months ended June 30, 2009.

Expenses

Expenses were \$6.2 million for the three months ended June 30, 2009, a decrease of \$39.5 million, or 87%, compared to \$45.6 million for the three months ended June 30, 2008. Compensation and Benefits decreased \$38.9 million, principally from the reversal of prior period carried interest allocations to certain personnel of \$47.4 million in the three months ended June 30, 2009, compared with a reversal of \$4.6 million in the three months ended June 30, 2008.

Expenses were \$(18.6) million for the six months ended June 30, 2009, a decrease of \$115.6 million compared to \$97.1 million for the six months ended June 30, 2008. Compensation and Benefits decreased \$111.9 million, principally from the reversal of prior period carried interest allocations to certain personnel of \$117.5 million. Other Operating Expenses decreased \$3.7 million, primarily due to a reduction in professional fees.

Fee-Earning Assets Under Management

Fee-Earning Assets Under Management were \$23.5 billion at June 30, 2009, an increase of \$2.4 billion, or 12%, compared with \$21.1 billion at June 30, 2008. The increase was primarily driven by additional capital raised for our European and debt focused real estate funds since June 30, 2008.

Assets Under Management

Assets Under Management were \$20.2 billion at June 30, 2009, a decrease of \$9.0 billion, or 31%, compared with \$29.2 billion at June 30, 2008. The change was primarily due to net depreciation in the fair value of the segment's underlying portfolio investments of \$10.9 billion, partially offset by \$2.5 billion of inflows. The inflows were principally due to additional capital raised for our European and debt focused real estate funds since June 30, 2008.

Capital Deployed

Limited Partner Capital Invested was \$252.7 million for the three months ended June 30, 2009, an increase of \$42.9 million, or 20%, from \$209.8 million for the three months ended June 30, 2008. The increase was primarily due to an increase in capital deployed in our debt focused real estate fund in the second quarter of 2009 compared to the second quarter of 2008.

Table of Contents

Limited Partner Capital Invested was \$467.8 million for the six months ended June 30, 2009, a decrease of \$111.2 million, or 19%, from \$579.0 million for the six months ended June 30, 2008. The decrease was due to a decline in the volume of closed transactions in our real estate funds, offset by an increase in capital deployed in our debt focused real estate fund.

Credit and Marketable Alternatives

This segment, formerly known as Marketable Alternative Asset Management, has been renamed to better reflect the product mix in this segment. This does not reflect a change to the underlying businesses or how they are reflected in reporting our results of operations. The following table presents our results of operations for our Credit and Marketable Alternatives segment:

	Three Months Ended June 30,		2009 vs. 2008		Six Months Ended June 30,		2009 vs. 2008

Table of Contents*Revenues*

Revenues were \$140.4 million for the three months ended June 30, 2009, a decrease of \$84.7 million, or 38%, compared to \$225.1 million for the three months ended June 30, 2008. The decrease in Investment Income and Other was primarily related to the reduction in total capital we had invested in our funds of hedge funds compared with the second quarter of 2008. Additionally, the second quarter of 2008 included investment income associated with one of our then-existing proprietary single manager hedge funds. These decreases were offset by the improved returns on certain of our proprietary hedge funds and credit-oriented funds. Performance Fees and Allocations decreased \$22.6 million principally due to a decline in performance fees generated by certain of our credit-oriented funds. Additionally, the second quarter of 2008 included performance fees associated with one of our then-existing proprietary single manager hedge funds which was liquidated in the first quarter of 2009. Base Management Fees decreased \$31.2 million due to an \$8.7 billion decrease in Fee-Earning Assets Under Management from the second quarter of 2008. The increase in Management Fee Offsets was due to the amortization of fees related to the organization and marketing of certain of our credit-oriented funds.

Revenues were \$239.6 million for the six months ended June 30, 2009, a decrease of \$15.5 million, or 6%, compared to \$255.1 million for the six months ended June 30, 2008. Base Management Fees decreased \$37.9 million as the six months ended June 30, 2008 included Base Management Fees associated with one of our then-existing proprietary hedge funds. Additionally, an \$8.7 billion decrease in Fee-Earning Assets Under Management from the six months ended June 30, 2008 contributed to the decrease in Base Management Fees. The increase in Management Fee Offsets was due to the amortization of fees related to the organization and marketing of certain of our credit-oriented funds. Performance Fees and Allocations decreased \$17.7 million due to a decline in performance fees generated by certain of our credit-oriented funds. Additionally, the six months ended June 30, 2008 included performance fees associated with one of our then-existing proprietary hedge funds. The decreases in Total Management Fees and Performance Fees and Allocations were partially offset by an increase in Investment Income (Loss) and Other. The increase in Investment Income (Loss) and Other was primarily related to the improved returns on our investment in our funds of hedge funds and certain of our proprietary hedge funds and credit-oriented funds for the six months ended June 30, 2009 compared to the six months ended June 30, 2008.

Expenses

Expenses were \$73.9 million for the three months ended June 30, 2009, a decrease of \$35.3 million, or 32%, compared to \$109.2 million for the three months ended June 30, 2008. The decrease in Compensation and Benefits was principally driven by the absence of compensation and benefits associated with the liquidation of our proprietary single manager hedge funds. The decrease in Other Operating Expenses was principally due to a reduction in professional fees and interest expense.

Expenses were \$158.6 million for the six months ended June 30, 2009, a decrease of \$25.1 million, or 14%, compared to \$183.7 million for the six months ended June 30, 2008. The decrease in Compensation and Benefits was principally related to the liquidation of our proprietary single manager hedge funds. The decrease in Other Operating Expenses was principally due to a reduction in professional fees and interest expense, partially offset by an increase in occupancy costs.

Fee-Earning Assets Under Management

Fee-Earning Assets Under Management were \$44.7 billion at June 30, 2009, a decrease of \$8.7 billion, or 16%, compared to \$53.4 billion at June 30, 2008. The decrease was primarily due to a reduction in the fair value of the segment's underlying portfolio investments of \$8.4 billion, most notably in our funds of hedge funds and credit-oriented funds, as well as the liquidation in the first quarter of 2009 of our proprietary single manager hedge funds. Outflows of \$9.2 billion were virtually offset by \$8.8 billion of inflows for the twelve month period beginning July 1, 2008 and ending June 30, 2009.

Table of Contents*Assets Under Management*

Assets Under Management were \$49.4 billion at June 30, 2009, a decrease of \$10.5 billion, or 18%, compared to \$59.9 billion at June 30, 2008. The change from the second quarter of 2008 was driven primarily by a reduction in the fair value of portfolio investments of \$9.2 billion, principally in our funds of hedge funds and certain credit-oriented funds and redemptions of \$11.9 billion, primarily from our funds of hedge funds and credit-oriented funds. The liquidation in the first quarter of 2009 of our proprietary single manager hedge funds also contributed to the decrease in Assets Under Management. The \$11.9 billion of redemptions were mostly offset by \$10.6 billion of capital raised, primarily in our funds of hedge funds and credit-oriented funds.

Capital Deployed

Limited Partner Capital Invested in certain credit-oriented carry funds totaled \$112.1 million for the three months ended June 30, 2009, a decrease of \$696.8 million compared to \$808.9 million for the three months ended June 30, 2008. Limited Partner Capital Invested was \$320.5 million for the six months ended June 30, 2009, a decrease of \$507.8 million compared to \$828.3 million for the six months ended June 30, 2008. The decreases reflected a reduction in investments made by certain of our credit-oriented carry funds due to fewer attractive investment opportunities.

Financial Advisory

The following table presents our results of operations for our Financial Advisory segment:

	Three Months Ended		2009 vs. 2008		Six Months Ended		2009 vs. 2008	
	June 30, 2009	2008	\$	%	June 30, 2009	2008	\$	%
	(Dollars in Thousands)							
Segment Revenues								
Advisory Fees	\$ 82,503	\$ 71,080	\$ 11,423	16%	\$ 173,443	\$ 139,643	\$ 33,800	24%
Investment Income (Loss) and Other	996	1,382	(386)	-28%	1,097	3,935	(2,838)	-72%
Total Revenues	83,499	72,462	11,037	15%	174,540	143,578	30,962	22%

Total Expenses	75,973	60,667	15,306	25%	139,901	118,651	21,250	18%
Economic Net Income	\$ 7,526	\$ 11,795	\$ (4,269)	-36%	\$ 34,639	\$ 24,927	\$ 9,712	39%

Revenues

Revenues were \$83.5 million for the three months ended June 30, 2009, an increase of \$11.0 million, or 15%, compared to \$72.5 million for the three months ended June 30, 2008. The change was driven by an increase of \$21.3 million in fees generated by our restructuring and reorganization advisory services business as continued credit market turmoil and low levels of available liquidity led to increased bankruptcies, debt defaults and debt restructurings. Additionally, fees earned by our corporate and mergers and acquisitions advisory services business increased \$13.0 million as clients increasingly looked to us for independent advice in complicated transactions. These increases were partially offset by a decrease of \$22.9 million in fees generated by our fund placement business as efforts to raise capital continued to prove challenging in the current economic environment.

Revenues were \$174.5 million for the six months ended June 30, 2009, an increase of \$31.0 million, or 22%, compared to \$143.6 million for the six months ended June 30, 2008. The change was driven by increases in

Table of Contents

fees generated by our restructuring and reorganization advisory services business of \$55.8 million and our corporate and mergers and acquisitions advisory services business of \$21.1 million. These increases were partially offset by a decrease of \$43.2 million in fees generated by our fund placement business. Year-over-year changes for each of these service businesses were driven by the same contributing economic factors as for the quarterly activity noted above.

The revenues generated by each of the businesses in our financial advisory segment are transactional in nature and therefore results can fluctuate significantly from period to period.

Expenses

Expenses were \$76.0 million for the three months ended June 30, 2009, an increase of \$15.3 million, or 25%, compared to \$60.7 million for the three months ended June 30, 2008. Expenses were \$139.9 million for the six months ended June 30, 2009, an increase of \$21.3 million, or 18%, compared to \$118.7 million for the six months ended June 30, 2008. Compensation and Benefits increased \$5.7 million and \$9.7 million compared to the three and six months ended June 30, 2008, respectively, due to the increase in Advisory Fees, as a portion of compensation is directly related to the profitability of each of the services businesses. Other Operating Expenses increased \$9.6 million and \$11.6 million over the three and six months ended June 30, 2008, respectively, principally due to increased bad debt expense.

Liquidity and Capital Resources

Liquidity and Capital Resources

Blackstone's business model derives revenue primarily from third party assets under management and from advisory businesses. Blackstone is not a capital or balance sheet intensive business and targets operating expense levels such that total management and advisory fees exceed total operating expense each period. As a result, we require limited capital resources to support the working capital or operating needs of our businesses. We draw primarily on the long term committed capital of our limited partner investors to fund the investment requirements of the Blackstone Funds and use our own realizations and cash flows to invest in growth initiatives, make commitments to our own funds, which are typically less than 5% of the assets under management of a fund, or pay distributions to unitholders.

Fluctuations in our balance sheet result primarily from activities of the Blackstone Funds which are consolidated. The majority economic ownership interests of these Blackstone Funds are reflected as Non-controlling Interests in Consolidated Entities in the condensed consolidated financial statements. The consolidation of these Blackstone Funds has no net effect on the Partnership's Net Income or Partners' Capital. Additionally, fluctuations in our balance sheet also include appreciation or depreciation in Blackstone investments in the Blackstone Funds, additional investments and redemptions of such interests in the Blackstone Funds and the collection of receivables related to management and advisory fees. For the three months ended June 30, 2009, we had total management and advisory fees and interest income of \$347.4 million and total expenses of \$260.6 million, generating Net Fee Related Earnings from Operations of \$86.8 million for the quarter. For the six months ended June 30, 2009, we had total management and advisory fees and interest income of \$692.3 million and total expenses of \$516.0 million, generating Net Fee Related Earnings from Operations of \$176.3 million through June 30, 2009.

We have multiple sources of liquidity to meet our capital needs, including annual cash flows, accumulated earnings in the businesses, investments in our own liquid funds and access to our debt capacity, including our \$850 million committed credit facility. On May 11, 2009, we entered into a new \$850 million line of credit (New Credit Facility). The New Credit Facility provides for revolving credit borrowings, with a final maturity date of May 10, 2010. Interest on the borrowings is based on an adjusted LIBOR rate or alternate base rate, in each case plus a margin, and undrawn commitments bear a commitment fee. The New Credit Facility is unsecured and unguaranteed. At June 30, 2009, we had \$784.6 million in cash and \$432.6 million invested in liquid Blackstone funds. At June 30, 2009, there were no outstanding borrowings against our New Credit Facility.

Table of Contents

We use Adjusted Cash Flows from Operations as a supplemental non-GAAP measure to assess our cash flows and amounts available for distribution to unitholders. In accordance with GAAP, certain of the Blackstone Funds are consolidated into the consolidated financial statements of Blackstone, notwithstanding the fact that Blackstone has only a minor economic interest in these funds. Consequently, Blackstone's consolidated financial statements reflect the cash flows of the consolidated Blackstone Funds on a gross basis rather than the cash flows attributable to Blackstone. Adjusted Cash Flows from Operations is therefore intended to reflect the cash flows attributable to Blackstone and is equal to operating activities presented in accordance with GAAP, adjusted for cash flows relating to changes in our operating assets and liabilities, Blackstone Funds' related investment activity, differences in the timing of realized gains between Blackstone and Blackstone Funds, non-controlling interests related to departed employees and non-controlling interests in income of consolidated entities and other non-cash adjustments. Management assesses Adjusted Cash Flows from Operations, which is derived from our segment reported results, by monitoring its key components, defined by management to be (1) Net Fee Related Earnings from Operations, (2) Performance Fees and Allocations net of related profit sharing interests that are included in compensation and (3) Blackstone investment income related to its investments in liquid funds and its net realized investment income on its illiquid investments.

The following table is a reconciliation of Net Cash Provided by Operating Activities presented on a GAAP basis to Adjusted Cash Flows from Operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
	(Dollars in Thousands)			
Net Cash Provided by Operating Activities	\$ 136,704	\$ 155,825	\$ 692,586	\$ 270,979
Changes in Operating Assets and Liabilities	(21,332)	(112,039)	(204,050)	(428,402)
Blackstone Funds Related Investment Activities	(39,718)	2,697	(312,843)	251,131
Net Realized Gains (Losses) on Investments	(38,369)	118,555	(91,559)	118,299
Non-controlling Interests in Income of Consolidated Entities	531,748	559,388	1,216,877	1,352,572
Realized Gains (Losses) - Blackstone Funds	3,029	44,089	(3,459)	20,235
Cash Flows from Operations - Adjustments				
Interests Held by Blackstone Holdings Limited Partners (a)	(475,184)	(576,406)	(1,135,113)	(1,380,460)
Incremental Cash Tax Effect (b)	5,418	(30,584)	14,641	(47,231)
Adjusted Cash Flows from Operations	\$ 102,296	\$ 161,525	\$ 177,080	\$ 157,123

The following table provides the details of the components of Adjusted Cash Flows from Operations. Adjusted Cash Flows from Operations is the principal factor in determining the amount of distributions to unitholders.

Earnings Before Interest, Taxes and Depreciation and Amortization from Net Fee Related Earnings from Operations (g)	\$ 97,463	\$ 103,638	\$ 202,309	\$ 203,561

Table of Contents

- (a) Represents an adjustment to add back net income (loss) allocable to interest holders of Blackstone Holdings Limited Partners after the Reorganization recorded as Non-Controlling Interests.
- (b) Represents the provisions for and/or adjustments to income taxes that were calculated using the same methodology applied in calculating such amounts for the period after the reorganization.
- (c) Comprised of total segment Management and Advisory Fees plus Interest Income.
- (d) Comprised of total segment compensation expense (excluding compensation expense related to Performance Fees and Allocations pursuant to Blackstone's profit sharing plans related to carried interest and incentive fees which are included in (e) below), other operating expenses and Blackstone's estimate of cash taxes currently due.
- (e) Represents realized Performance Fees and Allocations net of corresponding actual amounts due under Blackstone's profit sharing plans related thereto.
- (f) Comprised of Blackstone's investment income (realized and unrealized) from its liquid investments in its Credit and Marketable Alternatives segment as well as its net realized investment income from its illiquid investments, principally in its Corporate Private Equity and Real Estate Segments and permanent impairment charges on certain illiquid investments.
- (g) Earnings Before Interest, Taxes and Depreciation and Amortization from Net Fee Related Earnings from Operations represents Net Fee Related Earnings from Operations adding back the implied cash taxes payable component from the Adjusted Cash Flows from Operations reconciliation presented above, which is included in (b), and segment interest and segment depreciation and amortization. The cash taxes payable component of (b) was \$5.5 million and \$4.7 million for the three months ended June 30, 2009 and 2008, respectively, and \$14.0 million and \$30.4 million for the six months ended June 30, 2009 and 2008, respectively. Interest and depreciation and amortization was \$5.2 million and \$8.5 million for the three months ended June 30, 2009 and 2008, respectively, and \$12.0 million and \$15.2 million for the six months ended June 30, 2009 and 2008, respectively.

Table of Contents**Our Sources of Cash and Liquidity Needs**

We expect that our primary liquidity needs will be cash to (1) provide capital to facilitate the growth of our existing businesses, which principally includes funding our general partner and co-investment commitments to our funds, (2) provide capital to facilitate our expansion into new businesses that are complementary, (3) pay operating expenses, including cash compensation to our employees and other obligations as they arise, (4) fund modest capital expenditures, (5) repay borrowings and related interest costs, (6) pay income taxes and (7) make distributions to our unitholders and the holders of Blackstone Holdings Partnership Units. Our own capital commitments to our funds and funds we invest in as of June 30, 2009, consisted of the following:

Fund	Original Commitment	Remaining Commitment
	(Dollars in Thousands)	
Corporate Private Equity and Related Funds		
BCP VI	\$ 500,000	\$ 500,000
BCP V	629,356	191,484
BCP IV	150,000	16,412
BCOM	50,000	5,444
Real Estate Funds		
BREP VI	750,000	439,880
BREP V	52,545	8,057
BREP International II	28,094	4,179
BREP IV	50,000	
BREP International	20,000	3,293
BREP Europe III	100,000	100,000
Real Estate Special Situations	50,000	9,781
CMBS Fund	2,837	
Credit and Marketable Alternatives		
BMEZZ II	17,692	2,725
BMEZZ	41,000	2,609
Strategic Alliance	50,000	20,928
Blackstone Credit Liquidity Partners	32,244	9,043
Value Recovery	25,000	5,136
GSO Capital Opportunities	1,000	566
GSO Liquidity Partners	601	
GSO Liquidity Sidecar	250	
GSO Energizer Sidecar II	2	
Co-Investment Partners LLC	10,954	54
GSO Capital Solutions*	39,200	39,200
Total	\$ 2,600,775	\$ 1,358,791

*As of July 10, 2009.

For some of the general partner commitments shown in the table above, we require our senior managing directors and certain other professionals to fund a portion of the commitment even though the ultimate obligation to fund the aggregate commitment is ours pursuant to the governing agreements of the respective funds. For BCP VI, BREP VI and BREP Europe III it is intended that our senior managing directors and certain other professionals will fund \$250 million, \$150 million and \$35 million of the aggregate applicable general partner commitment shown above, respectively. We expect our commitments to be drawn down over time and to be funded by available cash and cash generated from operations and realizations. Taking into account prevailing market conditions and both the liquidity and cash or liquid investment balances, we believe that the sources of liquidity described below will be sufficient to fund our working capital requirements.

Table of Contents

In addition to the cash we received in connection with our IPO, we expect to receive (1) cash generated from operating activities, (2) carried interest and incentive income realizations, and (3) realizations on the carry fund investments that we make. Blackstone's investment income from our liquid investments (whether or not realized) in our Credit and Marketable Alternatives segment is also included in our Adjusted Cash Flows from Operations. The amounts received from the latter three sources in particular may vary substantially from year to year and quarter to quarter depending on the frequency and size of realization events or net returns experienced by our investment funds. Our available capital could be adversely affected if there are prolonged periods of few substantial realizations from our investment funds accompanied by substantial capital calls for new investments from those investment funds. Therefore, Blackstone's commitments to our funds are taken into consideration when managing our overall liquidity and cash position.

We expect to use our Adjusted Cash Flows from Operations to make cash distributions to our common unitholders in accordance with our distribution policy. As we have previously reported, our current intention is to distribute to our common unitholders substantially all of our net after-tax share of our annual Adjusted Cash Flows from Operations in excess of amounts determined by our general partner to be necessary or appropriate to provide for the conduct of our business, to make appropriate investments in our business and our funds, to comply with applicable law, any of our debt instruments or other agreements, or to provide for future distributions to common unitholders for any ensuing quarter. The declaration and payment of any distributions will be at the sole discretion of our general partner, which may change our distribution policy at any time. As we have previously reported, until December 31, 2009, Blackstone personnel and others who hold Blackstone Holdings partnership units (and who own approximately 75% of all outstanding units, with common unitholders holding the remaining 25%) will not receive any distributions with respect to their Blackstone Holdings partnership units (other than tax distributions in the circumstances specified in Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities) for a year unless and until our common unitholders receive aggregate distributions of \$1.20 per common unit for such year. We do not intend to maintain this priority allocation after December 31, 2009.

As we have previously indicated, our ability to make cash distributions to our unitholders will depend on a number of factors, including among others, general economic and business conditions, our strategic plans and prospects, our business and investment opportunities, our financial condition and operating results, working capital requirements and anticipated cash needs, contractual restrictions and obligations, including fulfilling our current and future capital commitments, legal, tax and regulatory restrictions, restrictions and other implications on the payment of distributions by us to our common unitholders or by our subsidiaries to us and such other factors as our general partner may deem relevant.

Public common unitholders will continue to receive a priority distribution ahead of Blackstone personnel and others through 2009, but the amount of those distributions in respect of 2009 will be based on the amount of Adjusted Cash Flows from Operations in 2009 available for distributions. As noted above, our ability to generate sufficient Adjusted Cash Flows from Operations to fund a distribution is dependent upon a number of factors and could fall below levels which would enable us to make a full \$1.20 per unit distribution to common unitholders in respect of the 2009 calendar year.

The Blackstone Group L.P. has declared a quarterly distribution of \$0.30 per common unit to record holders of common units at the close of business on August 31, 2009. This distribution will be paid on September 11, 2009. This distribution will total approximately \$83 million, compared to Blackstone's Adjusted Cash Flow from Operations of approximately \$102 million for the three-month period ended June 30, 2009. The amount of the distributions to common unitholders payable for the remainder of 2009 will depend on the amount of Blackstone's Adjusted Cash Flow from Operations for the full year 2009 and other factors.

In January 2008, the Board of Directors of our general partner, Blackstone Group Management L.L.C., authorized the repurchase of up to \$500 million of our common units and Blackstone Holdings Partnership Units. Under this unit repurchase program, units may be repurchased from time to time in open market transactions, in

Table of Contents

privately negotiated transactions or otherwise. The timing and the actual number of Blackstone common units and Blackstone Holdings Partnership Units repurchased will depend on a variety of factors, including legal requirements, price and economic and market conditions. This unit repurchase program may be suspended or discontinued at any time and does not have a specified expiration date. During the six months ended June 30, 2009, we repurchased a combination of 4,629,866 Blackstone Common Units and Blackstone Holdings Partnership Units as part of the unit repurchase program for a total cost of \$29.6 million. During the three months ended June 30, 2009, Blackstone repurchased 218,164 Blackstone Common Units and Blackstone Holdings Partnership Units as part of the unit repurchase program for a total cost of \$2.4 million. As of June 30, 2009, the amount remaining available for repurchases was \$340.3 million under this program.

We may under certain circumstances use leverage opportunistically and over time to create the most efficient capital structure for Blackstone and our public common unitholders, including through the issuance of debt securities. At June 30, 2009, we had partners' equity of \$5.2 billion, including \$784.6 million in cash and \$432.6 million in investments in liquid funds, against limited purpose borrowings of \$78.0 million.

Our corporate private equity funds, real estate funds and funds of hedge funds have not historically utilized substantial leverage at the fund level other than for short-term borrowings between the date of an investment and the receipt of capital from the investing fund's investors. Our carry funds make direct or indirect investments in companies that utilize leverage in their capital structure. The degree of leverage employed varies among portfolio companies.

Certain of our Credit and Marketable Alternatives funds use leverage in order to obtain additional market exposure, enhance returns on invested capital and/or to bridge short-term cash needs. The forms of leverage primarily employed by these funds include purchasing securities on margin, utilizing collateralized financing and using derivative instruments.

Critical Accounting Policies

We prepare our condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States. In applying many of these accounting principles, we need to make assumptions, estimates and/or judgments that affect the reported amounts of assets, liabilities, revenues and expenses in our consolidated financial statements. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable under the circumstances. These assumptions, estimates and/or judgments, however, are often subjective. Actual results may be affected negatively based on changing circumstances. If actual amounts are ultimately different from our estimates, the revisions are included in our results of operations for the period in which the actual amounts become known. We believe the following critical accounting policies could potentially produce materially different results if we were to change underlying assumptions, estimates and/or judgments. (See Note 2. *Summary of Significant Accounting Policies* in the *Notes to the Condensed Consolidated Financial Statements* in Part I. Item 1. *Financial Statements* of this filing.)

Principles of Consolidation

Our policy is to combine, or consolidate, as appropriate, those entities in which, through Blackstone personnel, we have control over significant operating, financial or investing decisions of the entity.

For entities that are determined to be variable interest entities (VIEs), we consolidate those entities where we absorb a majority of the expected losses or a majority of the expected residual returns, or both, of such entity pursuant to the requirements of Financial Accounting Standards Board (FASB) Interpretation No. 46 (Revised December 2003), *Consolidation of Variable Interest Entities-an interpretation of ARB No. 51* (FIN 46(R)). The evaluation of whether a fund is subject to the requirements of FIN 46(R) as a VIE and the determination of whether we should consolidate such a VIE requires management's judgment. In addition, we consolidate those

Table of Contents

entities we control through a majority voting interest or otherwise, including those Blackstone Funds in which the general partners are presumed to have control over them pursuant to Emerging Issues Task Force (EITF) Issue No. 04-5, *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights* (EITF 04-5). The provisions under both FIN 46(R) and EITF 04-5 have been applied retrospectively to prior periods. All intercompany transactions and balances have been eliminated.

For operating entities over which we may exercise significant influence but which do not meet the requirements for consolidation, we use the equity method of accounting whereby we record our share of the underlying income or losses of these entities.

Revenue Recognition

Management and Advisory Fees. Management fees consist of (1) Fund Management Fees and (2) Advisory Fees. Our revenue recognition policies are as follows:

(1) *Fund Management Fees.* Fund management fees are comprised of:

- (a) *Base Management Fees.* Base management fees are fees charged directly to the fund or fund investors. Such fees are based upon the contractual terms of investment advisory and related agreements and are recognized as earned over the specified contract period.
- (b) *Transaction and Other Fees.* Transaction and other fees (including monitoring fees) are comprised of fees charged directly to funds and fund portfolio companies. Our investment advisory agreements generally require that the investment advisor share a portion of certain fees with the limited partners of the fund. Transaction and Other Fees are net of amounts, if any, shared with limited partners.
- (c) *Management Fee Offsets.* Our investment advisory agreements generally require that the investment advisor share a portion of certain expenses with the limited partners of the fund. These shared items (management fee reductions) reduce the management fees received from the limited partners. Management fee offsets are comprised primarily of broken deal and placement fee expenses.

(2) *Advisory Fees.* Advisory Fees consist of advisory retainer and transaction-based fee arrangements related to mergers, acquisitions, restructurings, divestitures and fund placement services for alternative investment funds. Advisory retainer fees are recognized when services are rendered. Transaction fees are recognized when (i) there is evidence of an arrangement with a client, (ii) agreed upon services have been provided, (iii) fees are fixed or determinable and (iv) collection is reasonably assured. Fund placement services revenue is recognized as earned upon the acceptance by a fund of capital or capital commitments.

Performance Fees and Allocations. Performance fees and allocations represent the allocation of investment gains (carried interest) which are a component of our general partner interests in the corporate private equity, real estate and certain of our credit-oriented funds. Blackstone receives carried interest from a fund in the event investors in the fund achieve cumulative investment returns in excess of a specified rate. We accrue as revenue (and/or adjust previously recorded revenue to reflect) the amount that would be due to us pursuant to the fund agreements at each reporting period end as if the fair value of the investments were realized as of such date, whether or not such amounts have actually been realized. In certain performance fee arrangements related to funds of hedge funds and certain of our credit-oriented funds in our Credit and Marketable Alternatives segment, we are entitled to receive performance fees and allocations subject to certain net loss carry-forward provisions (known as a highwater mark) and, in some cases, when the return on assets under management exceeds certain benchmark returns or other performance targets. In such arrangements, performance fees and allocations are accrued monthly or quarterly based on measuring account/fund performance to date (whether or not such amounts have actually been realized) versus the performance benchmark stated in the investment management

Table of Contents

agreement. Each fund is considered separately for purposes of these arrangements. Accordingly, to the extent the amount that would be due to us in respect of a fund at a reporting period end is lower than the amount of performance fees or allocations that we have previously recognized in respect of such fund, we may reflect negative performance fees and allocations as this amount is reversed. However, we would cease to record negative performance fees and allocations with respect to a fund once previously recorded performance fees and allocations for such fund have been fully reversed (as we are not required to pay negative performance fees to any fund). We are not obligated to pay guaranteed returns or hurdles and, therefore, cannot have negative performance fees over the life of a fund. For our carry funds, Performance Fees and Allocations are recorded as realized when the underlying investment in a fund is profitably realized and the fund's cumulative investment returns are in excess of a specified rate. For our hedge funds, Performance Fees and Allocations are realized at end of each fund's measurement period, typically annually, as applicable to the performance fee or allocation.

Investment Income. Blackstone invests in corporate private equity funds, real estate funds, funds of hedge funds and credit-oriented funds that are not consolidated. The Partnership accounts for these investments under the equity method of accounting. Blackstone's share of operating income generated by these investments is recorded as a component of Investment Income. That amount reflects the fair value gains and losses of the associated funds' underlying investments as we retain the specialized investment company accounting of these funds pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation* (EITF 85-12). These funds generate realized and unrealized gains from underlying corporate private equity and real estate investments and investments in credit and marketable alternatives funds which reflect a combination of internal and external factors as described below. In addition, third-party hedge fund managers provide information regarding the valuation of hedge fund investments. Investment income is realized when we redeem all or a portion of our investment or when we receive cash income, such as from a dividend or distribution, from an investment in one of our funds which is not consolidated. Unrealized investment income (loss) results from changes in the fair value of the underlying investment as well as normal accruals related to such investments.

Interest Income and Other. Interest Income and Other principally includes interest earned from the investing of Blackstone's available Cash and Cash Equivalents and any foreign exchange transaction amounts.

Expenses

Our expenses include compensation and benefits expense and general and administrative expenses. Our accounting policies related thereto are as follows:

Compensation and Benefits Expense. Compensation and benefits expense reflects (1) employee compensation and benefits expense paid and payable to our employees, including our senior managing directors, (2) equity-based compensation associated with grants of equity-based awards to senior managing directors, other employees and selected other individuals engaged in our businesses and (3) performance payment arrangements for Blackstone personnel and profit sharing interests in carried interest.

- (1) *Employee Compensation and Benefits.* Reflects employee compensation and benefits expense paid and payable to our employees, including our senior managing directors.
- (2) *Equity-based Compensation.* Represents non-cash equity-based compensation expense associated with the issuance of equity-based awards to our senior managing directors, other employees and selected other individuals engaged in some of our businesses. The expense is recognized over the corresponding service period of the underlying grant.
- (3) *Performance Payment Arrangements.* We have implemented what we generally refer to as performance payment arrangements for our personnel working in our businesses across our different operations that are designed to appropriately align performance and compensation. These performance payment arrangements generally provide annual cash payments to Blackstone personnel (including our senior managing directors) that are determined at the discretion of our senior management and are tied

Table of Contents

to the performance of our firm's businesses and may, in certain cases, be based on participation interests in the earnings derived from the performance of the applicable business. In addition, Blackstone personnel working in our businesses, other professionals and selected other individuals who work on our carry funds have a profit sharing interest which we include within compensation as the related performance fees are recognized in relation to these funds in order to better align their interests with our own and with those of the investors in these funds. To the extent previously recorded revenues are adjusted to reflect decreases in the performance fees based on underlying funds' valuations at period end, related profit sharing interests previously accrued are also adjusted and reflected as a credit to current period compensation. Departed employees are also entitled to their vested share of carried interest distributions received and (as other employees) may be subject to a recontribution of previously received carried interest from our carry funds and are also liable for their applicable share of losses on carry funds, subject to a cap related to the carried interest distributions they received from a carry fund. Therefore, as our net revenues increase, our compensation costs also rise; as our net revenues decrease, our compensation costs generally decrease.

General, Administrative and Other. The balance of our expenses include interest expense, occupancy and equipment expenses and general, administrative and other expenses, which consist of professional fees, public company costs, travel and related expenses, communications and information services, depreciation and amortization and other operating expenses.

Investments, at Fair Value

The Blackstone Funds are, for GAAP purposes, investment companies under the AICPA Audit and Accounting Guide *Investment Companies* that reflect their investments, including majority-owned and controlled investments (the "Portfolio Companies"), as well as Securities Sold, Not Yet Purchased at fair value. We have retained the specialized accounting for the Blackstone Funds pursuant to EITF 85-12. Thus, such consolidated funds investments are reflected on the Condensed Consolidated Statements of Financial Condition at fair value, with unrealized gains and losses resulting from changes in fair value reflected as a component of Net Gains (Losses) from Fund Investment Activities in the Condensed Consolidated Statements of Operations. Fair value is the amount that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date (i.e., the exit price).

We have valued our investments, including our carry fund investments, in the absence of observable market prices, using the valuation methodologies described below applied on a consistent basis. For some investments little market activity may exist; management's determination of fair value is then based on the best information available in the circumstances, and may incorporate management's own assumptions and involves a significant degree of management judgment, taking into consideration a combination of internal and external factors, including the appropriate risk adjustments for non-performance and liquidity risks. Internal factors that are considered are described below. The additional external factors associated with our valuations vary by asset class but are broadly driven by the market considerations discussed in "Business Environment" above.

Investments for which market prices are not observable include private investments in the equity of operating companies or real estate properties. Fair values of private investments are determined by reference to projected net earnings, earnings before interest, taxes, depreciation and amortization (EBITDA) and balance sheets, public market or private transactions, valuations for comparable companies and other measures which, in many cases, are unaudited at the time received. With respect to real estate investments, in determining fair values we considered projected operating cash flows and balance sheets, sales of comparable assets, if any, and replacement costs among other measures. The methods used by us to estimate the fair value of private investments include the discounted cash flow method (using a likely next buyer's capital structure and not Blackstone's, or the applicable Blackstone Fund's, existing capital structure) and/or capitalization rates (cap rates) analysis. Valuations may also be derived by reference to observable valuation measures for comparable companies or assets (e.g., multiplying a key performance metric of the investee company or asset, such as

Table of Contents

EBITDA, by a relevant valuation multiple observed in the range of comparable companies or transactions), adjusted by management for differences between the investment and the referenced comparables and in some instances by reference to option pricing models or other similar methods. Private investments may also be valued at cost for a period of time after an acquisition as the best indicator of fair value. These valuation methodologies involve a significant degree of management judgment.

Blackstone Funds' direct investments in hedge funds (Investee Funds) are stated at fair value, based on the information provided by the Investee Funds which reflects the Partnership's share of the fair value of the net assets of the investment fund. If the Partnership determines, based on its own due diligence and investment procedures, that the valuation for any Investee Fund based on information provided by the Investee Fund's management does not represent fair value, the Partnership will estimate the fair value of the Investee Fund in good faith and in a manner that it reasonably chooses, in accordance with its valuation policies.

In certain cases debt and equity securities are valued on the basis of prices from an orderly transaction between market participants provided by reputable dealers or pricing services. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and various relationships between investments.

After our adoption of Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157), investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments in Level I include listed equities and listed derivatives. As required by SFAS No. 157, we do not adjust the quoted price for these investments, even in situations where we hold a large position and a sale could reasonably affect the quoted price.

Level II Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Investments which are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives.

Level III Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include general and limited partnership interests in corporate private equity and real estate funds, credit-oriented funds, funds of hedge funds, distressed debt and non-investment grade residual interests in securitizations and collateralized debt obligations.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

Goodwill and Identifiable Intangible Assets

Goodwill is the cost of acquired business interests in excess of the fair value of the net assets, including identifiable intangible assets, at the acquisition date. Our intangible assets consist of the contractual right to future fee income from management, advisory and incentive fee contracts and the contractual right to earn future carried interest from certain Blackstone Funds.

Table of Contents

Goodwill. We test goodwill for impairment at the operating segment level (the same as our reportable segments). Management has organized the firm into four operating segments. All of the components in each segment have similar economic characteristics and management makes key operating decisions based on the performance of each segment. Therefore, we believe that operating segment is the appropriate reporting level for testing the impairment of goodwill. In determining fair value for each of our segments, we utilize a discounted cash flow methodology based on the adjusted cash flows from operations for each segment. We believe this method provides the best approximation of fair value. In calculating the discounted cash flows, we begin with the adjusted cash flows from operations of each segment. We then determine the most likely growth rate by operating segment for each of the next five years and keep the growth rates for years six through twenty flat to the growth rate used in year five. We assume no terminal value for any segment, nor do we apply a control premium. The discounted cash flow analysis assumes no borrowings, but includes an allocation of interest expense for the assumed unused commitment fee on Blackstone's revolving credit facility, which is allocated to each segment. We use a discount rate that reflects the weighted average cost of capital adjusted for the risks inherent in the future cash flows.

For the 2007 annual impairment test, we utilized the fair value that was prepared in conjunction with the IPO. Given the short passage of time between the IPO date of June 2007 and the annual impairment testing date of October 1, 2007, the fair value did not change significantly and far exceeded the carrying value at such date. In 2008, Blackstone utilized the discounted cash flow model, described above, to approximate the fair value of each of its segments.

Identifiable Intangible Assets. We amortize our identifiable intangible assets over their estimated lives in accordance with SFAS No. 142. Identifiable intangible assets are tested for impairment whenever events or changes in circumstances suggest that an asset's or asset group's carrying value may not be fully recoverable in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. An impairment loss, calculated as the difference between the estimated fair value and the carrying value of an asset or asset group, is recognized if the sum of the estimated undiscounted cash flows relating to the asset or asset group is less than the corresponding carrying value.

No impairments were identified as of December 31, 2008. However, a prolonged period of weakness in the Blackstone Funds' performance or in our ability to earn fee income from management, advisory and incentive fee contracts could adversely impact our businesses and impair the value of our goodwill and/or identifiable intangible assets.

Off-Balance Sheet Arrangements

In the normal course of business, we engage in off-balance sheet arrangements, including establishing certain special purpose entities (SPEs), owning securities or interests in SPEs and providing investment and collateral management services to SPEs. There are two main types of SPEs qualifying special purposes entities (QSPEs), which are entities whose permitted activities are limited to passively holding financial interests in distributing cash flows generated by the assets, and VIEs. Certain combined entities of the Blackstone Funds transact regularly with VIEs which do not meet the QSPE criteria due to their permitted activities not being sufficiently limited or because the assets are not deemed qualifying financial instruments. Under FIN 46(R), we consolidate those VIEs where we absorb either a majority of the expected losses or residual returns (as defined) and are therefore considered the primary beneficiary. Our primary involvement with VIEs consists of investments in corporate private equity, real estate, funds of hedge funds and credit-oriented funds. For additional information about our involvement with VIEs, see Note 4, Investments - Investment in Variable Interest Entities in the Notes to the Condensed Consolidated Financial Statements.

In addition to VIEs, in the ordinary course of business certain combined entities of the Blackstone Funds issue various guarantees to counterparties in connection with investments, debt, leasing and other transactions. See Note 10, Commitments and Contingencies in Notes to the Condensed Consolidated Financial Statements for a discussion of guarantees.

Table of Contents

Contractual Obligations, Commitments and Contingencies

The following table sets forth information relating to our contractual obligations as of June 30, 2009 on a consolidated basis and on a basis deconsolidating the Blackstone funds:

Contractual Obligations	July 1, 2009 to	2010	2011	2012	2013	Thereafter	Total
	December 31, 2009						
(Dollars in Thousands)							
Operating Lease Obligations (a)	\$ 26,025	\$ 102,009	\$ 93,943	\$ 342,929	\$ 564,906		
Purchase Obligations	8,201	11,557			19,758		
Blackstone Operating Entities Loan and Credit Facilities Payable (b)	594	56,253	13,691	5,040	75,578		
Interest on Blackstone Operating Entities Loan and Credit Facilities Payable (c)	421	1,072	206	29	1,728		
Blackstone Funds Debt Obligations Payable (d)	1,063		1,407		2,470		
Interest on Blackstone Funds Debt Obligations Payable (e)	16	66	24		106		
Blackstone Fund Capital Commitments to Investee Funds (f)	26,049				26,049		
Due to Certain Non-Controlling Interest Holders in Connection with Tax Receivable Agreement (g)				783,711		783,711	
Blackstone Operating Entities Capital Commitments to Blackstone Funds (h)	1,358,791						1,358,791
Consolidated Contractual Obligations	1,421,160	170,957	109,271	1,131,709	2,833,097		
Blackstone Funds Debt Obligations Payable (d)	(1,063)		(1,407)		(2,470)		
Interest on Blackstone Funds Debt Obligations Payable (e)	(16)	(66)	(24)		(106)		
Blackstone Fund Capital Commitments to Investee Funds (f)	(26,049)				(26,049)		
Blackstone Operating Entities Contractual Obligations	\$ 1,394,032	\$ 170,891	\$ 107,840	\$ 1,131,709	\$ 2,804,472		

- (a) We lease our primary office space and certain office equipment under agreements that expire through 2024. In connection with certain lease agreements, we are responsible for escalation payments. The contractual obligation table above includes only guaranteed minimum lease payments for such leases and does not project potential escalation or other lease-related payments. These leases are classified as operating leases for financial statement purposes and as such are not recorded as liabilities on the Condensed Consolidated Statement of Financial Condition as of June 30, 2009.
- (b) Represents borrowings for employee term facilities program, a corporate debt investment program and a capital asset facility.
- (c) Represents interest to be paid over the maturity of the related debt obligation which has been calculated assuming no prepayments are made and debt is held until its final maturity date. The future interest payments are calculated using variable rates in effect as of June 30, 2009, at spreads to market rates pursuant to the financing agreements, and range from 0.00% to 1.50%.
- (d) These obligations are those of the Blackstone Funds.
- (e) Represents interest to be paid over the maturity of the related Blackstone Funds debt obligations which has been calculated assuming no prepayments will be made and debt will be held until its final maturity date. The future interest payments are calculated using variable rates in effect as of June 30, 2009, at spreads to market rates pursuant to the financing agreements, and range from 2.32% to 4.64%. The majority of the borrowings are due on demand and for purposes of this schedule are assumed to mature within one year. Interest on the majority of these borrowings rolls over into the principal balance at each reset date.

Table of Contents

- (f) These obligations represent commitments of the consolidated Blackstone Funds to make capital contributions to investee funds and portfolio companies. These amounts are generally due on demand and are therefore presented in the less than one year category.
- (g) Represents obligations by the Partnership's corporate subsidiaries to make payments under the Tax Receivable Agreement to certain non-controlling interest holders for the tax savings realized from the taxable purchases of their interests in connection with the reorganization at the time of Blackstone's initial public offering in 2007 and subsequent purchases. The obligation represents the amount of the payments currently expected to be made which are dependent on the tax savings actually realized as determined annually without discounting for the timing of the payments. As required by Generally Accepted Accounting Principles, the amount of the obligation included in the Condensed and Consolidated Financial Statements and shown in Note 9 differs to reflect the net present value of the payments due to certain non-controlling interest holders.
- (h) These obligations represent commitments by us to provide general partner capital funding to the Blackstone Funds and limited partner capital funding to other funds. These amounts are generally due on demand and are therefore presented in the less than one year category; however, the capital commitments are expected to be called substantially over the next three years. We expect to continue to make these general partner capital commitments as we raise additional amounts for our investment funds over time.

Guarantees

We had approximately \$6.0 million of letters of credit outstanding to provide collateral support related to a credit facility at June 30, 2009.

Certain real estate funds guarantee payments to third parties in connection with the on-going business activities and/or acquisitions of their Portfolio Companies. At June 30, 2009, such guarantees amounted to \$14.3 million.

Indemnifications

In many of its service contracts, Blackstone agrees to indemnify the third party service provider under certain circumstances. The terms of the indemnities vary from contract to contract and the amount of indemnification liability, if any, cannot be determined and has not been included in the table above or recorded in our Condensed Consolidated Financial Statements as of June 30, 2009.

Clawback Obligations

If, as a result of diminished performance of investments in a carry fund's life, the carry fund has not achieved investment returns that exceed the preferred return threshold or the general partner receives in excess of 20% (15% in the case of certain of our debt-focused real estate funds and credit-oriented carry funds) of the fund's net profits over the life of the fund, we will be obligated to repay an amount equal to the carried interest that was previously distributed to us that exceeds the amounts to which we are ultimately entitled. This obligation is known as a clawback obligation and is an obligation of the general partner of the fund and indirectly any person who received such carried interest from the general partner, including us and our employees who participate in our carried interest plans. The clawback obligation operates with respect to a given carry fund's own net investment performance only. Performance fees of other funds are not netted for determining this contingent obligation. Moreover, although a clawback obligation is several, the governing agreements of most of our funds provide that to the extent another recipient of carried interest (such as a current or former employee) does not fund his or her respective share, then we and our employees who participate in such carried interest plans may have to fund additional amounts beyond our share of the clawback obligation (generally up to an additional 50%) which could be in excess of what we actually received in carried interest. We will retain the right to pursue any remedies that we have under such governing agreements against those carried interest recipients who fail to fund their obligations. The payment of a potential clawback obligation for the benefit of the fund's limited partners is generally not due until the end of

Table of Contents

the life of the respective fund following the wind-up period, except in the case of our real estate funds, which have a provision for interim clawback when losses have been realized and have not been recouped within one year of such realization.

At June 30, 2009, none of the general partners of our corporate private equity, real estate or credit-oriented funds had any current cash clawback obligation to any limited partners of the funds. For financial reporting purposes at period end, the general partner has reflected a reserve for potential clawback obligations to the limited partners of some of our carry funds due to changes in the unrealized value of a fund's remaining investments and where the fund's general partner has previously received carried interest distributions with respect to such fund's realized investments. However, under the terms of those funds' governing agreements described above, no clawback payment is currently due. Moreover, for those carry funds with a potential clawback obligation which would only be due at the end of the life of the respective fund, those terms, including available contemplated extensions, are currently anticipated to expire at various points beginning toward the end of 2012 and extending through 2018. Further extensions of such terms may be implemented under given circumstances (subject in many cases to investor approval).

Since the inception of the funds, the general partners have not been required to make any cash clawback payment. For further information on cash clawback payments, see the Contingent Repayment Guarantee section of Note 9, Related Party Transactions and the Contingent Obligations (Clawback) section of Note 10, Commitments and Contingencies to the Notes to the Condensed Consolidated Financial Statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our predominant exposure to market risk is related to our role as general partner or investment advisor to the Blackstone Funds and the sensitivities to movements in the fair value of their investments, including the effect on management fees, performance fees and allocations and investment income.

Although the Blackstone Funds share many common themes, each of our alternative asset management operations runs its own investment and risk management processes, subject to our overall risk tolerance and philosophy:

The investment process of our carry funds involves a detailed analysis of potential investments, and asset management teams are assigned to oversee the operations, strategic development, financing and capital deployment decisions of each portfolio investment. Key investment decisions are subject to approval by the applicable investment committee, which is comprised of Blackstone senior managing directors and senior management.

In our capacity as advisor to certain of our credit and marketable alternatives funds, we continuously monitor a variety of markets for attractive trading opportunities, applying a number of traditional and customized risk management metrics to analyze risk related to specific assets or portfolios. In addition, we perform extensive credit and cash-flows analyses of borrowers, credit-based assets and underlying hedge fund managers, and have extensive asset management teams that monitor covenant compliance by, and relevant financial data of, borrowers and other obligors, asset pool performance statistics, tracking of cash payments relating to investments and ongoing analysis of the credit status of investments.

Effect on Fund Management Fees

Our management fees are based on (1) third parties' capital commitments to a Blackstone Fund, (2) third parties' capital invested in a Blackstone Fund, or (3) the net asset value, or NAV, of a Blackstone Fund or separately managed account as described in our Condensed Consolidated Financial Statements. Management fees will only be directly affected by short-term changes in market conditions to the extent they are based on NAV or represent permanent impairments of value. These management fees will be increased (or reduced) in direct proportion to the effect of changes in the market value of our investments in the related funds or separately managed accounts. The proportion of our management fees that are based on NAV is dependent on the number and types of Blackstone Funds and separately managed accounts in existence and the current stage of each fund's life cycle. As of June 30, 2009, approximately 28% of our fund management fees were based on the NAV of the applicable funds or separately managed accounts. For the three months ended June 30, 2008, approximately 37% of our fund management fees were based on the NAV of the applicable funds or separately managed accounts.

Market Risk

The Blackstone Funds hold investments and securities sold not yet purchased, both of which are reported at fair value. Based on the fair value as of June 30, 2009, we estimate that a 10% decline in fair value of the investments and securities would have the following effects:

(1) management fees would decrease by \$32.6 million on an annual basis, (2) performance fees and allocations, net of the related compensation expense, would decrease by \$112.6 million, and (3) investment income, net of the related compensation expense, would decrease by \$115.5 million. Based on the fair value as of June 30, 2008, we estimated that a 10% decline in fair value of the investments and securities would have the following effects: (1) management fees would decrease by \$47.9 million on an annual basis, (2) performance fees and allocations, net of related compensation expense, would decrease by \$432.8 million, and (3) investment income, net of related compensation expense would decrease by \$218.5 million.

Table of Contents

Total assets under management, excluding undrawn capital commitments and the amount of capital raised for our CLOs, by segment, and the percentage amount classified as Level III investments as defined within SFAS No. 157, are: Corporate Private Equity \$17.7 billion (93% Level III), Real Estate \$7.9 billion (92% Level III), and Credit and Marketable Alternatives \$33.5 billion (84% Level III), respectively. The fair value of our investments and securities can vary significantly based on a number of factors that take into consideration the diversity of the Blackstone Funds investment portfolio and on a number of factors and inputs such as similar transactions, financial metrics, and industry comparatives, among others. (See Part II, Item 1A. Risk Factors below. Also see Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies Investments, at Fair Value.) We believe these estimated fair value amounts should be utilized with caution as our intent and strategy is to hold investments and securities until prevailing market conditions are beneficial for investment sales.

Investors in all of our carry funds (and certain of our credit-oriented funds) make capital commitments to those funds that we are entitled to call from those investors at any time during prescribed periods. We depend on investors fulfilling their commitments when we call capital from them in order for those funds to consummate investments and otherwise pay all their related obligations when due, including management fees. We have not had investors fail to honor capital calls to any meaningful extent and any investor that did not fund a capital call would be subject to having a significant amount of its existing investment forfeited in that fund. But if investors were to fail to satisfy a significant amount of capital calls for any particular fund or funds, those funds could be materially and adversely affected.

Because our carry funds have preferred return thresholds to investors that need to be met prior to Blackstone receiving any carried interest, substantial declines in the carrying value of the investment portfolios of a carry fund can significantly delay or eliminate any carried interest distributions paid to us in respect of that fund since the value of the assets in the fund would need to recover to their aggregate cost basis plus the preferred return over time before we would be entitled to receive any carried interest from that fund. For this reason, due to declines in the carrying values of their underlying portfolio assets, our most recent corporate private equity fund and real estate fund are not expected to generate any carried interest in the near future.

Exchange Rate Risk

The Blackstone Funds hold investments that are denominated in non-U.S. dollar currencies that may be affected by movements in the rate of exchange between the U.S. dollar and non-U.S. dollar currencies. Additionally, a portion of our management fees are denominated in non-U.S. dollar currencies. We estimate that as of June 30, 2009, a 10% decline in the rate of exchange of all foreign currencies against the U.S. dollar would have the following effects: (1) management fees would decrease by \$8.5 million on an annual basis, (2) performance fees and allocations would decrease by \$32.6 million, and (3) investment income would decrease by \$17.9 million.

As of June 30, 2008, we estimated that a 10% decline in the rate of exchange against the U.S. dollar would have the following effects: (1) management fees would decrease by \$7.9 million on an annual basis, (2) performance fees and allocations, net of the related compensation expense, would decrease by \$90.5 million, and (3) investment income, net of the related compensation expense, would decrease by \$22.8 million.

Interest Rate Risk

Blackstone has debt obligations payable that accrue interest at variable rates. Interest rate changes may therefore affect the amount of interest payments, future earnings and cash flows. Based on our debt obligations payable as of June 30, 2009, we estimate that interest expense relating to variable rate debt obligations payable would increase by \$0.8 million on an annual basis, in the event interest rates were to increase by one percentage point.

Table of Contents

Based on our debt obligations payable as of June 30, 2008, we estimated that interest expense relating to variable rate debt obligations payable would increase by \$3.8 million on an annual basis, in the event interest rates were to increase by one percentage point.

Credit Risk

Certain Blackstone Funds and the Investee Funds are subject to certain inherent risks through their investments.

Our entities generally invest substantially all of their excess cash in an open-end money market fund and a money market demand account, which are included in cash and cash equivalents. The money market fund invests primarily in government and government agency securities and other short-term, highly liquid instruments with a low risk of loss. We continually monitor the fund's performance in order to manage any risk associated with these investments.

Certain of our entities hold derivative instruments that contain an element of risk in the event that the counterparties may be unable to meet the terms of such agreements. We minimize our risk exposure by limiting the counterparties with which we enter into contracts to banks and investment banks who meet established credit and capital guidelines. We do not expect any counterparty to default on its obligations and therefore do not expect to incur any loss due to counterparty default.

ITEM 4T. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act), that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

No changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act) occurred during our most recent quarter, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We may from time to time be involved in litigation and claims incidental to the conduct of our business. Our businesses are also subject to extensive regulation, which may result in regulatory proceedings against us. See Item 1A. Risk Factors in our annual report on Form 10-K. We are not currently subject to any pending judicial, administrative or arbitration proceedings that we expect to have a material impact on our condensed consolidated financial statements.

In December 2007, a purported class of shareholders in public companies acquired by one or more private equity firms filed a lawsuit against sixteen private equity firms and investment banks, including The Blackstone Group L.P., in the United States District Court in Massachusetts. The suit alleges that from mid-2003 defendants have violated antitrust laws by allegedly conspiring to rig bids, restrict the supply of private equity financing, fix the prices for target companies at artificially low levels, and divide up an alleged market for private equity services for leveraged buyouts. The complaint seeks injunctive relief on behalf of all persons who sold securities to any of the defendants in leveraged buyout transactions. The amended complaint also includes five purported sub-classes of plaintiffs seeking damages and/or restitution and comprised of shareholders of five companies.

In April and May 2008, five substantially identical complaints were brought in the United States District Court for the Southern District of New York and a sixth complaint was brought in the Northern District of Texas against Blackstone and some of its executive officers. These suits, which purport to be class actions on behalf of purchasers of common units in Blackstone's June 21, 2007 initial public offering, were subsequently consolidated into one suit in the Southern District of New York. In October 2008, a consolidated and amended complaint was filed naming as defendants Blackstone, Stephen A. Schwarzman (Blackstone's Chairman and Chief Executive Officer), Peter G. Peterson (Blackstone's former Senior Chairman), Hamilton E. James (Blackstone's President and Chief Operating Officer) and Michael A. Puglisi (Blackstone's Chief Financial Officer at the time of the IPO). The amended complaint alleges that (1) the IPO prospectus was false and misleading for failing to disclose that (a) certain investments made by Blackstone's private equity funds were performing poorly at the time of the IPO and were materially impaired and (b) prior to the IPO the U.S. real estate market had started to deteriorate, adversely affecting the value of Blackstone's real estate investments; and (2) the financial statements in the IPO prospectus were materially inaccurate principally because they overstated the value of the investments referred to in clause (1).

Blackstone believes that the foregoing suits are totally without merit and intends to defend them vigorously.

ITEM 1A. RISK FACTORS

For a discussion of our potential risks and uncertainties, see the information under the heading Risk Factors in our annual report on Form 10-K for the year ended December 31, 2008, which is accessible on the Securities and Exchange Commission's website at www.sec.gov.

See Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Business Environment in this report for a discussion of the conditions in the financial markets and economic conditions affecting our businesses. This discussion updates, and should be read together with, the risk factor entitled Difficult market conditions can adversely affect our business in many ways, including by reducing the value or performance of the investments made by our investment funds, reducing the ability of our investment funds to raise or deploy capital and reducing the volume of the transactions involving our financial advisory business, each of which could materially reduce our revenue and cash flows and adversely affect our financial condition in our annual report on Form 10-K for the year ended December 31, 2008.

The risks described in our Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Table of Contents

The New York State Attorney General recently launched an investigation into possible illegal conduct by some placement agents that assisted certain alternative investment funds who were retained to manage investments for New York State's pension funds. In respect of this investigation, the State of New York recently banned the use of all placement agents, lobbyists and other paid intermediaries in making investments by the state's pension funds. The Illinois and New Mexico legislatures adopted similar measures and other government officials are considering similar actions. The Securities and Exchange Commission recently released a proposed rule regarding asset managers' dealings with public pension funds. The proposed rule would ban the use of placement agents to obtain funds from public pension funds.

Our fund placement business, Park Hill Group, provides extensive and needed services to its client alternative investment funds in connection with their marketing of investments in their funds to pension funds and other investors, in contrast to the placement agents that are being investigated by the New York Attorney General for illegal conduct. But if other states were to impose similar bans on their pension funds dealing with all placement agents as New York State, Illinois and New Mexico have done, or more significantly, if the SEC were to adopt its proposed rule banning the use of placement agents to obtain funds from public pension funds, Park Hill's business would be materially and adversely affected.

Reference is made to the item under the heading "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2008 which is captioned "Extensive regulation of our businesses affects our activities and creates the potential for significant liabilities and penalties. The possibility of increased regulatory focus could result in additional burdens on our business. Changes in tax law and other legislative or regulatory changes could adversely affect us." In addition to the various legislative and regulatory developments discussed in that item, in recent months there have been various other legislative and regulatory proposals in the U.S., in the European Union legislature and elsewhere that would if adopted result in additional burdens on our business and would otherwise adversely affect us. Recent legislative or regulatory proposals in the U.S. include designating the Federal Reserve Board as the financial system's systemic risk regulator with authority to review the activities of all financial institutions, including alternative asset managers; authorizing Federal regulatory agencies to ban compensation arrangements at financial institutions that give employees incentives to engage in conduct that could pose risks to the nation's financial system; and proposed new ground rules for private equity investments in failed banks that would make the acquisition of a failed bank less attractive for a private equity fund. A directive recently introduced in the European Union legislature that would impose a new regulatory scheme on private equity funds and hedge funds operating in the 27 member countries of the European Union would, if enacted in its proposed form, have a particularly adverse effect on our investment businesses by among other things (a) imposing costly and unnecessary requirements concerning the hiring of an independent valuation firm based in the European Union to value all of our investment funds' assets and the hiring of an independent depository based in the European Union to hold all of our investments, (b) imposing capital requirements on all of our investment funds, (c) imposing extensive disclosure obligations on companies in which our investment funds hold investments, (d) prohibiting our investment funds from marketing to any investors based in a European Union country for three years after enactment of the directive and significantly restricting those marketing activities thereafter, and (e) potentially in effect restricting our investment funds' investments in companies based in European Union countries.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In January 2008, the Board of Directors authorized the repurchase of up to \$500 million of Blackstone common units and Blackstone Holdings Partnership Units. Under this unit repurchase program, units may be repurchased in open market transactions, in privately negotiated transactions or otherwise. The unit repurchase program may be suspended or discontinued at any time and does not have a final specified date. No purchases of our common units were made by us or on our behalf during the three months ended June 30, 2009. See Item 1. Financial Statements - Notes to Condensed Consolidated Financial Statements - Note 7. Net Loss Per Common Unit and Item 2. Management's Discussion and Analysis of Financial Condition and Results of
