Item 8.01. Other Events

In accordance with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, the Company notes that certain statements set forth in this Current Report on Form 8-K provide other than historical information and are forward looking. The actual achievement of any forecasted results, or the unfolding of future economic or business developments in a way anticipated or projected by the Company, involve numerous risks and uncertainties that may cause the Company's actual performance to be materially different from that stated or implied in the forward-looking statement. Among those risks and uncertainties, many of which are beyond the control of the Company, include, without limitation, fluctuations in worldwide energy demand and oil and gas prices; fleet additions by competitors and industry overcapacity; changes in capital spending by customers in the energy industry for offshore exploration, development and production; changing customer demands for vessel specifications, which may make some of our older vessels technologically obsolete for certain customer projects or in certain markets; instability of global financial markets and difficulty in accessing credit or capital; acts of terrorism and piracy; significant weather conditions; unsettled political conditions, war, civil unrest and governmental actions, such as expropriation, especially in higher risk countries of operations; foreign currency fluctuations; labor influences proposed by international conventions; and enforcement of laws related to the environment, labor and foreign corrupt practices. Readers should consider all of these risk factors as well as other information contained in this report.

On April 1, 2010, the company announced that Deborah Willingham has joined Tidewater as Vice President and Chief Human Resources Officer.

The press release is filed as Exhibit 99.1 to this Current Report and is incorporated herein by reference as if fully set forth.

the closing we're going to drill a lot of wells, generate a lot of cash flow and pay out a lot of money to both shareholders and employees. Our collective responsibility to shareholders and to ourselves is to keep generating value every day. I believe that we'll all find that if we maintain our focus on the job - just like we've done in the past - that the time will pass faster and more productively. I can promise you that as soon as we have more information, we'll communicate it to you. We do not have the capability for Q&A on this Webcast, so that is why I will be heading out with teams of execs today to meet with all of you in face-to-face settings. Immediately after this webcast, those employees here in Houston are invited to meet in the Cullen Theatre of the Wortham Center where we'll have a question-and-answer session. Later today, I'll be in Midland for a Q&A session there. Another team of execs will be in Fort Worth for a session this afternoon. Tomorrow I will host a conference call with our London office and host sessions in Farmington and Calgary. Please contact your local HR person to get additional details on these meetings. Thank you, and I'll be talking to you again in the days ahead.
