Boston Private Financial Holdings, Inc.

Overview

We were incorporated on September 2, 1987, under the laws of The Commonwealth of Massachusetts. On July 1, 1988, we registered with the Board of Governors of the Federal Reserve System, or the Federal Reserve Board, as a bank holding company under the Bank Holding Company Act of 1956, as amended, or the BHC Act. We are a wealth management company that offers a full range of wealth management services to high net worth individuals, families, businesses, and select institutions through our three functional segments: Private Banking, Investment Management and Wealth Advisory. We seek to capitalize on growth in the wealth management sector by targeting affluent regions and offering localized service. We believe the high net worth market continues to be characterized by attractive demographics because of the strong rate of growth expected over the next decade in the number of high net worth individuals, growth in assets controlled by high net worth individuals, and the significant transition of wealth between generations. Our clients have complex financial situations and we seek to be their trusted advisor by offering wealth management solutions through a high-touch, relationship-driven approach.

Our approach to the wealth management market is to create a financial umbrella that helps to preserve, grow, and transfer assets over the financial lifetime of a client through three financial disciplines: private banking, investment management and wealth advisory. We conduct substantially all of our business through our three functional segments. Each functional segment reflects the services provided by us to a distinct segment of the wealth management markets as described below.

Our consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries, which we also refer to as our consolidated affiliate partners. All of our bank affiliates are wholly-owned subsidiaries and, with the exception of KLS Professional Advisors Group, LLC, which became wholly-owned as of January 2010, and Coldstream Holdings, Inc., which is minority-owned, our other investment management and wealth advisory affiliates are majority-owned. These majority-owned subsidiaries are consolidated in accordance with accounting principles generally accepted in the United States, or GAAP. The minority interests are generally held by individuals who owned and ran the businesses prior to acquisition by us and who continue to be actively involved in those businesses.

Private Banking

The Private Banking segment has four consolidated affiliate partners Boston Private Bank & Trust Company, chartered by The Commonwealth of Massachusetts; Borel Private Bank & Trust Company and First Private Bank & Trust, both California state chartered banks; and Charter Private Bank, a Washington state chartered bank. The Banks are insured by the FDIC. The Banks pursue private banking and community-oriented business strategies in their operating regions. The Banks are principally engaged in providing banking and a variety of other fiduciary services including investment management, advisory, and administrative services to high net worth individuals, their families, small and medium-sized businesses and professionals. In addition, the Banks offer their clients a broad range of deposit and lending products. The specific mix of products, services and clientele can vary from affiliate to affiliate.

Investment Management

Investment Management segment has two consolidated affiliate partners Dalton, Greiner, Hartman, Maher & Co., LLC, a registered investment adviser, and Anchor Capital Holdings, LLC, which is the parent company of Anchor Capital Advisors LLC and Anchor/ Russell Capital Advisors LLC, both of which are registered investment advisers. The Investment Managers serve the needs of pension funds, endowments, trusts, foundations and select institutions, mutual funds and high net worth individuals and their families throughout the United States and abroad. The Investment Managers specialize in value-driven equity portfolios with products across the capitalization spectrum. The specific mix of products, services and clientele varies between affiliates. The Investment Managers are located in New England and New York, with one affiliate administrative office in South Florida.

Wealth Advisory

The Wealth Advisory segment has three consolidated affiliate partners KLS Professional Advisors Group, LLC, Bingham, Osborn & Scarborough, LLC, and Davidson Trust Company, or DTC, all of which

Table of Contents

are registered investment advisers, with the exception of DTC, and wealth management firms. We also hold a minority unconsolidated interest in Coldstream Holdings, Inc., the parent of Coldstream Capital Management, Inc, a registered investment adviser. The Wealth Advisors provide comprehensive, planning-based financial strategies to high net worth individuals and their families, and non-profit institutions. The firms offer fee-only financial planning, tax planning and preparation, estate and insurance planning, retirement planning, charitable planning and intergenerational giving planning. The Wealth Advisors manage investments covering a wide range of asset classes for both taxable and tax-exempt portfolios. The Wealth Advisors are located in New York, Northern California, and Pennsylvania.

Our core strategy is to offer financial services to the high net worth market, with a particular emphasis on the newly affluent, at each stage of the typical financial life cycle. In the early stages, these services typically involve forms of debt products, including residential jumbo mortgages or commercial loans to privately owned businesses. In the latter stages, we offer asset management services and, in between, we offer financial planning services such as tax planning, estate planning, and asset allocation consulting. We believe that our affluent clients respond to localized relationship management and take comfort in having their trusted financial advisor within close proximity. By keeping local management in place and giving them the autonomy to run their businesses with centralized support and oversight from our management team, we maintain the benefit of an affiliate's local reputation while leveraging our expertise. Through this strategy, we believe our affiliates are better able to build high-touch, service-oriented relationships with our clients.

Our address is Ten Post Office Square, Boston, Massachusetts 02109 and our telephone number at that location is (617) 912-1900. You can find additional information regarding Boston Private in Boston Private's filings with the SEC referenced in the section of this document titled "Where You Can Find More Information" beginning on page 25.

Risk Factors For a discussion of risks and uncertainties involved with an investment in our Securities, see Risk Factors beginning on page 4 of this prospectus.

Table of Contents**RISK FACTORS**

Investment in our Securities involves a high degree of risk. You should carefully consider the risks described in the section Risk Factors contained in our Annual Report on Form 10-K for the year ended December 31, 2009, which has been filed with the SEC and is incorporated herein by reference, in addition to the other information contained in this prospectus, in an applicable prospectus supplement, or incorporated by reference herein, before purchasing any of our Securities. Any of these risks could materially adversely affect our business, financial condition, results of operations, or ability to make distributions to our stockholders. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially and adversely affect us. In any such case, you could lose all or a portion of your original investment.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the Securities by any selling securityholder. All of the proceeds from the sale of the Securities offered in this prospectus will be retained by the selling securityholders. However, assuming all of the Warrants are exercised by the selling securityholders, and further assuming that the exercise price of the Warrants is paid in cash, we would receive gross proceeds of approximately \$36.2 million from those exercises. Any such proceeds will be used for general corporate purposes.

RATIOS OF EARNINGS TO FIXED CHARGES AND PREFERRED DIVIDENDS

The following table sets forth our consolidated ratios of earnings to fixed charges and preferred dividends for the periods shown.

	Six months ended June 30,		Year ended December 31,			
	2010	2009	2008	2007	2006	2005
Ratios of earnings to fixed charges						
Including interest on deposits	1.07	1.07	(0.53)	1.02	1.46	1.72
Excluding interest on deposits	1.12	1.11	(1.91)	1.07	2.33	2.82

For the purpose of computing the ratios of earnings to fixed charges, earnings represent income from continuing operations before income taxes and change in accounting principle, plus fixed charges. Fixed charges include all interest expense, the amortization of premiums, discounts and capitalized expenses related to indebtedness; the proportion deemed representative of the interest factor of rent expense; and preference security dividends. These ratios are presented both including and excluding interest on deposits. The aggregate deficiency during the year ended December 31, 2008, both including and excluding interest on deposits, was \$265.3 million.

REGULATORY CONSIDERATIONS

As a bank holding company under the BHC Act, the Federal Reserve Board regulates, supervises and examines us. For a discussion of the material elements of the regulatory framework applicable to bank holding companies and their subsidiaries and specific information relevant to us, please refer to the section Business III. Regulatory Considerations Supervision and Regulation in our Annual Report on Form 10-K for the year ended December 31, 2009, and to any subsequent reports we have filed with the SEC, which are incorporated by reference in this prospectus. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders. Depository institutions, like the Banks, are also affected by various federal and state laws, including those relating to consumer protection and similar matters. In addition, many of our affiliates are also subject to regulation under federal and state securities laws.

Table of Contents

For a discussion of the material elements of the extensive regulatory framework applicable to bank holding companies, as well as specific information about us, please refer to the section **Regulatory Considerations** in our annual report on Form 10-K for the fiscal year ended December 31, 2009, which is incorporated by reference in this prospectus, and **Financial Regulatory Reform Legislation** in our quarterly report on Form 10-Q for the quarter ended June 30, 2010. See **Where You Can Find More Information** below for information on how to obtain a copy of our annual report and any subsequent reports.

DIVIDEND POLICY

We presently plan to pay cash dividends on our Common Stock on a quarterly basis dependent upon the results of operations of the immediately preceding quarters. However, declaration of dividends by the Board of Directors will depend on a number of factors, including capital requirements, liquidity, regulatory limitations, our operating results and financial condition and general economic conditions. We paid dividends on our Common Stock of \$0.04 and \$0.22 in 2009 and 2008, respectively.

We are a legal entity separate and distinct from our banking and other subsidiaries. These subsidiaries are the principal assets, and as such, provide our main source of payment of dividends. As to the payment of dividends, as discussed below, each of the Banks is subject to the laws and regulations of its chartering jurisdiction and to the regulations of its primary federal regulator. If the federal banking regulator determines that a depository institution under its jurisdiction is engaged in or is about to engage in an unsafe or unsound practice, the regulator may require, after notice and hearing, that the institution cease and desist from such practice. Depending on the financial condition of the depository institution, an unsafe or unsound practice could include the payment of dividends. The federal banking agencies have indicated that paying dividends that deplete a depository institution's capital base to an inadequate level would be an unsafe and unsound banking practice. Under the Federal Deposit Insurance Corporation Improvement Act of 1991, a depository institution may not pay any dividend if payment would cause it to become undercapitalized or if it already is undercapitalized. The Federal Reserve Board and other federal banking agencies have also issued policy statements providing that bank holding companies and insured banks should generally only pay dividends out of current operating earnings.

Table of Contents

Under Massachusetts law, trust companies, such as Boston Private Bank, Trust Company, may pay dividends only out of net profits provided there is no impairment to the trust company's capital stock and surplus account. Although Massachusetts law does not define what constitutes net profits, it is generally assumed that the term includes a bank's retained earnings and does not include its additional paid-in capital account. Furthermore, trust companies may not pay dividends more often than on a quarterly basis. In addition, prior approval of the Massachusetts Commissioner of Banks is required if the total of all dividends paid by a trust company in any calendar year would exceed net profits for that year combined with retained net profits for the previous two years, less any required transfer to surplus or a fund for the retirement of any preferred stock. Under California law, the Department of Financial Institutions has the authority to prohibit Borel Private Bank & Trust Company and First Private Bank & Trust from paying dividends depending on Borel Private Bank & Trust Company's and First Private Bank & Trust's financial condition, respectively, if such payment is deemed to constitute an unsafe or unsound practice. Under Washington State law, the prior approval of the Director of the Department of Financial Institutions is required to declare or pay any dividend that exceeds Charter Private Bank's retained earnings. In addition, the Director has the authority to require any bank to suspend the payment of dividends until the bank complies with any requirements that the Director may have imposed on it. Currently, our Southern California banking subsidiary may not pay cash dividends without the prior written approval of the FDIC and the California Department of Financial Institutions, and our Pacific Northwest banking subsidiary may not pay cash dividends without the prior written approval of the FDIC and the Washington Department of Financial Institutions.

These restrictions on the Banks' ability to pay dividends to us may restrict our ability to pay dividends to the holders of our Common Stock. The payment of dividends by us and the Banks may also be affected or limited by other factors, such as the requirement to maintain adequate capital above regulatory guidelines. There are no such comparable statutory restrictions on our Investment Managers' or Wealth Advisors' ability to pay dividends.

The following summary of the terms and provisions of the Series B Preferred Stock does not purport to be complete and is qualified in its entirety by reference to the pertinent sections of the Company's Restated Articles of Organization.

Rank

The Series B Preferred Stock, with respect to dividend rights and rights on liquidation, winding-up and dissolution, ranks on a parity with the Series B-1 Preferred Stock and with each other class or series of preferred stock established after the date of issuance of the Series B Preferred Stock, the terms of which expressly provide that such class or series will rank on a parity with the Series B Preferred Stock as to dividend rights and rights on liquidation, winding-up and dissolution of the Company and senior to the Common Stock and each other class or series of capital stock of the Company the terms of which do not expressly provide that it ranks on a parity with or senior to the Series B Preferred Stock as to dividend rights and rights on liquidation, winding-up and dissolution of the Company.

Dividends

Holders of Series B Preferred Stock are entitled to receive, when, as and if declared by the Board of Directors, non-cumulative cash dividends in the amount determined as set forth below.

If the Board of Directors declares and pays a cash dividend in respect of any shares of our Common Stock, then the Board of Directors is required to declare and pay to the holders of the Series B Preferred Stock a cash dividend in an amount per share of Series B Preferred Stock equal to the product of (i) the per share dividend declared and paid in respect of each share of Common Stock and (ii) the number of shares of Common Stock into which such share of Series B Preferred Stock is then convertible. Dividends on the Series B Preferred Stock are non-cumulative.

Liquidation Preference

In the event the Company voluntarily or involuntarily liquidates, dissolves or winds up, the holders of the Series B Preferred Stock will be entitled to receive liquidating distributions in the amount of \$100,000 per share of Series B Preferred Stock, plus an amount equal to any declared but unpaid dividends on the Series B Preferred Stock to and including the date of such liquidation before any distribution of assets is made to the holders of the Common Stock or any other junior securities. After payment of the full amount of such liquidating distributions, holders of the Series B Preferred Stock will be entitled to participate in any further distribution of the remaining assets of the Company as if each share of Series B Preferred Stock had been converted, immediately prior to such liquidating distributions, into the number of shares of Common Stock equal to the liquidation preference divided by the then-applicable conversion price.

In the event the assets of the Company available for distribution to shareholders upon any liquidation, dissolution or winding-up of the affairs of the Company, whether voluntary or involuntary, are insufficient to pay in full the amounts payable with respect to all outstanding shares of the Series B Preferred Stock and the corresponding amounts payable on any parity securities, holders of Series B Preferred Stock and the holders of parity securities will share ratably in any distribution of assets of the Company in proportion to the full respective liquidating distributions to which they would otherwise be respectively entitled.

Conversion

Holders of shares of Series B Preferred Stock have the right to convert the Series B Preferred Stock at any time. The number of shares of Common Stock into which a share of Series B Preferred Stock will be convertible will be determined by dividing the liquidation preference by the conversion price, subject to customary anti-dilution adjustments. No fractional shares of Common Stock will be issued. Upon conversion, cash will be paid in lieu of fractional shares based on the closing price of the Common Stock determined as of the second trading day immediately preceding the date of conversion. The initial conversion price of the Series B Preferred Stock is \$5.52 per share.

The conversion right of holders of Series B Preferred Stock is limited to the extent that no conversion of Series B Preferred Stock is permitted if it would cause the holder and its affiliates, collectively, to be deemed to own, control or have the power to vote, for purposes of the BHC Act or the Change in Bank Control Act of 1978, as amended (the CIBC Act) and any rules or regulations promulgated thereunder, 10% or more of any class of voting securities (as defined in the BHC Act and any rules or regulations promulgated thereunder) of the Company outstanding at such time.

Redemption

The Series B Preferred Stock will not be subject to any mandatory redemption, sinking fund or similar provisions. Holders of the Series B Preferred Stock will have no right to require redemption.

Anti-Dilution Adjustments

The conversion price of the Series B Preferred Stock is also subject to customary anti-dilution adjustments, except that any adjustments to the conversion price shall be made to the extent (but only to the extent) that such adjustments would not cause or result in any holder and its affiliates, collectively, to be deemed to own, control or have the power to vote, for purposes of the BHC Act or the CIBC Act and any rules or regulations promulgated thereunder, 25% or more of any class of voting securities (as defined in the BHC Act and any rules or regulations promulgated thereunder) of the Company outstanding at such time. Any such adjustment (or portion thereof) shall be postponed and implemented on the first date on which such implementation would not contravene the condition described in the foregoing sentence.

Fundamental Change

In the event the Company enters into a transaction constituting a consolidation or merger of the Company or similar transaction, any sale or other transfer of all or substantially all of the assets of the Company, any reclassification of the Common Stock into securities including securities other than

Table of Contents

Common Stock or any statutory exchange of the outstanding shares of Common Stock for securities of another entity (each, a Reorganization Event), each share of Series B Preferred Stock outstanding immediately prior to such Reorganization Event shall remain outstanding but shall become convertible, at the option of the holders, into the kind of securities, cash and other property receivable in such Reorganization Event by a holder (other than a counterparty to the Reorganization Event or an affiliate of such other party) of the number of shares of Common Stock into which each share of Series B Preferred Stock would then be convertible.

Voting Rights

Except as set forth below, holders of the Series B Preferred Stock will not have any voting rights, including the right to elect any directors.

So long as any shares of Series B Preferred Stock are outstanding, the vote or consent of the holders of 66 2/3% of the outstanding shares of Series B Preferred Stock, voting as a single class with all other classes and series of parity securities having similar voting rights and with each series or class having a number of votes proportionate to the aggregate liquidation preference of the outstanding shares of such class or series, will be necessary for effecting or validating any of the following actions, whether or not such approval is required by Massachusetts law:

any amendment, alteration or repeal of any provision of the Company's Restated Articles of Organization or the Company's by-laws that would alter or change the voting powers, preferences or special rights of the Series B Preferred Stock so as to affect them adversely;

any amendment or alteration of the Company's Restated Articles of Organization to authorize or create, or increase the authorized amount of, any shares of, or any securities convertible into shares of, any class or series of the Company's capital stock ranking prior to the Series B Preferred Stock in the payment of dividends or in the distribution of assets on any liquidation, dissolution or winding up of the Company; or

the consummation of a binding share exchange or reclassification involving the Series B Preferred Stock or a merger or consolidation of the Company with another entity, except that holders will have no right to vote under this provision or under any provision of Massachusetts law if (x) the Series B Preferred Stock remains outstanding or, in the case of any such merger or consolidation with respect to which the Company is not the surviving or resulting entity, is converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, that is an entity organized and existing under the laws of the United States of America, any state thereof or the District of Columbia, and (y) such Series B Preferred Stock remaining outstanding or such preference securities, as the case may be, have such rights, preferences, privileges and voting powers, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers of the Series B Preferred Stock, taken as a whole.

Notwithstanding the foregoing, any increase in the amount of the authorized or issued preferred stock or any securities convertible into preferred stock or the creation and issuance, or an increase in the authorized or issued amount, of any other series of preferred stock (including the Series B Preferred Stock), or any securities convertible into preferred stock ranking equally with and/or junior to the Series B Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) and/or the distribution of assets upon the Company's liquidation, dissolution or winding up will not, in and of itself, be deemed to adversely affect the voting powers, preferences or special rights of the Series B Preferred Stock and, notwithstanding any provision of Massachusetts law, the holders will have no right to vote solely by reason of such an increase, creation or issuance.

If an amendment, alteration, repeal, share exchange, reclassification, merger or consolidation described above would adversely affect one or more but not all series of preferred stock with like voting rights (including the Series B Preferred Stock for this purpose), then only the series affected and entitled to vote will vote as a class in lieu of all such series of preferred stock.

If an amendment, alteration, repeal, share exchange, reclassification, merger or consolidation described above would adversely affect one or more but not all series of preferred stock with like voting rights (including the Series B-1 Preferred Stock for this purpose), then only the series affected and entitled to vote will vote as a class in lieu of all such series of preferred stock.

DESCRIPTION OF THE BP HOLDCO WARRANTS

Pursuant to an Investment Agreement (the "Investment Agreement") with BP Holdco, an affiliate of The Carlyle Group, dated as of July 22, 2008, we issued the BP Holdco Warrants to acquire Common Stock. The following summary of certain provisions of the Investment Agreement and the BP Holdco Warrants does not purport to be complete and is qualified in its entirety by reference to the Investment Agreement and the BP Holdco Warrants, including the definitions therein of certain terms.

General

The BP Holdco Warrants, when exercised, will entitle the holders to receive an aggregate of 5,443,065 shares of our Common Stock at an exercise price of \$6.62 per share, except that the BP Holdco Warrants held by Mr. Morton have an exercise price of \$8.90, which was the fair market value of our Common Stock on the date of the grant to Mr. Morton from BP Holdco. The exercise price and the number of shares of Common Stock issuable on exercise of the BP Holdco Warrants are both subject to adjustment upon the occurrence of certain events. See "Adjustments" below.

Exercise of BP Holdco Warrants

The BP Holdco Warrants may be exercised to purchase shares of our Common Stock at any time, in whole or in part, after issuance until the fifth anniversary of the issuance of such BP Holdco Warrants. The BP Holdco Warrants may be exercised by (i) tendering to the warrant agent payment of the exercise price in cash, by certified or cashier's check or by wire transfer payable to the order of the Company or (ii) having the warrant agent withhold shares of Common Stock issuable upon exercise of such BP Holdco Warrants equal in value to the exercise price, based on the market price of the Common Stock on the trading day immediately prior to the date on which such BP Holdco Warrants are exercised and the notice of exercise is delivered to the warrant agent.

Exercise of the BP Holdco Warrants is limited to the extent that no exercise is permitted if such exercise would cause the holder and its affiliates, collectively, to be deemed to own, control or have the power to vote, for purposes of the BHC Act or the CIBC Act and any rules or regulations promulgated thereunder, 10% or more of any class of voting securities (as defined in the BHC Act and any rules or regulations promulgated thereunder) of the Company outstanding at such time. Upon certain transfers of the BP Holdco Warrants complying with the transfer restrictions in the Investment Agreement, the transferee will be entitled to receive warrants identical to the BP Holdco Warrants but not subject to transfer or ownership restrictions.

Fundamental Change

Upon the occurrence of a Preliminary Fundamental Change, which is defined as the execution of definitive documentation for a transaction or the recommendation that shareholders tender in response to a tender offer or exchange offer that could reasonably be expected to result in a Fundamental Change upon consummation, or a Fundamental Change, which is defined in the BP Holdco Warrants as certain events pertaining to a change of control or liquidation of the Company, the holder of BP Holdco Warrants may cause the Company to purchase the BP Holdco Warrants, in whole or in part, at the higher of (i) the fair market value of the BP Holdco Warrants and (ii) a valuation based on a computation of the option value of the BP Holdco Warrants using a Black-Scholes methodology. Payment by the Company to the holders of the BP Holdco Warrants of the purchase price will be due upon the occurrence of the Fundamental Change. At the election of the Company, all or any portion of the purchase price may be paid in cash or in Common Stock valued at the market price of a share of Common Stock as of (A) the last trading day prior to the date on which this payment occurs or (B) the first date of the announcement of a Preliminary Fundamental Change or a Fundamental Change (whichever is less), so long as the payment does not cause (i) the

Company to fail to comply with applicable NASDAQ requirements or other regulatory requirements or (ii) the holder of the BP Holdco Warrants to be deemed to own, control or have the power to vote, for purposes of the BHC Act or the CIBC Act and the rules and regulations promulgated thereunder, 25% or more of any class of voting securities of the Company outstanding at such time (assuming full conversion of all securities owned by such holder of the BP Holdco Warrants and its affiliates that are convertible into or exercisable for voting securities and excluding for purposes of this calculation any reduction in the percentage of voting securities of the Company such holder and its affiliates so owns, controls or has the power to vote resulting from transfers by the holder and its affiliates of the securities purchased by BP Holdco pursuant to the Investment Agreement) or otherwise be in violation of the ownership limitations under the BHC Act or any other federal banking laws or regulations promulgated thereunder. To the extent that a payment in Common Stock would cause the Company to fail to comply with the NASDAQ Marketplace Rules or the other regulatory requirements, once the maximum number of shares of Common Stock that would not result in the contravention of such requirements has been delivered, the remainder of such purchase price may be paid in the form of cash or other equity securities having a fair market value equal to the value of the shares of Common Stock that would have been issued to the holders of the BP Holdco Warrants absent the limitations described above.

Adjustments

The number of shares of Common Stock issuable upon the exercise of the BP Holdco Warrants and the exercise price are subject to adjustment upon the occurrence of certain events, provided that any adjustment to the exercise price of the BP Holdco Warrants shall be made to the extent (and only to the extent) that such adjustment would not cause or result in any warrant holder and its affiliates, collectively, being deemed to own, control or have the power to vote, for purposes of the BHC Act or the CIBC Act and any rules or regulations promulgated thereunder, voting securities (as defined under the BHC Act or any rules or regulations promulgated thereunder) which would represent 25% or more of any class of voting securities outstanding at such time. Any adjustment (or portion thereof) prohibited pursuant to the foregoing sentence shall be postponed and implemented on the first date on which such implementation would not result in the condition described in the foregoing sentence.

The number of shares of Common Stock issuable upon the exercise of the BP Holdco Warrants and the exercise price are subject to adjustment upon the occurrence of, among other things: (i) payment of dividends or other distributions on our Common Stock payable in shares of our Common Stock, (ii) subdivisions, combinations or reclassifications of our Common Stock, (iii) the distribution of shares of any stock other than our Common Stock, (iv) distribution of evidences of indebtedness of the Company or of any subsidiary, (v) the distribution of certain assets, (vi) the distribution of rights or warrants, (vii) certain repurchases of our Common Stock and (viii) a reclassification of Common Stock or a merger, consolidation, statutory share exchange or similar transaction that requires adoption by our stockholders.

No adjustment in the exercise price or the number of shares of Common Stock issuable upon the exercise of the BP Holdco Warrants will be made if the amount of such adjustment would be less than \$0.01 or one-tenth (1/10th) of a share of Common Stock, but any such amount shall be carried forward and an adjustment with respect thereto shall be made at the time of and together with any subsequent adjustment which, together with such amount and any other amount or amounts so carried forward, shall aggregate \$0.01 or 1/10th of a share of Common Stock, or more.

If the Company takes certain actions affecting the Common Stock, which in the opinion of the Board of Directors would materially and adversely affect the exercise rights of the warrant holder, the exercise price for the BP Holdco Warrants and/or the number of shares of Common Stock received upon exercise of the BP Holdco Warrants shall be adjusted for the warrant holder's benefit, to the extent permitted by law, in such manner, and at such time, as such Board of Directors after consultation with the warrant holder shall reasonably determine to be equitable in the circumstances.

Whenever the exercise price or the number of shares of Common Stock into which the BP Holdco Warrants are exercisable is adjusted, the Company shall file at the office of the warrant agent a statement showing in reasonable detail the facts requiring such adjustment and the exercise price that shall be in effect and the number of shares of Common Stock into which the BP Holdco Warrants shall be exercisable

Table of Contents

after such adjustment, and the Company shall also cause a copy of such statement to be sent by mail, first-class postage prepaid, to each warrant holder. In the event that the Company shall propose to take any action affecting an adjustment as described above, the Company shall give notice to the warrant holders, by first-class mail, which notice shall specify the record date, if any, with respect to any such action and the approximate date on which such action is to take place. Such notice shall also set forth the facts with respect thereto as shall be reasonably necessary to indicate the effect on the exercise price and the number, kind or class of shares or other securities or property which shall be deliverable upon exercise of the BP Holdco Warrants. In the case of any action which would require the fixing of a record date, such notice shall be given at least 10 days prior to the date so fixed, and in case of all other action, such notice shall be given at least 15 days prior to the taking of such proposed action. Failure to give such notice, or any defect therein, shall not affect the legality or validity of any such action.

DESCRIPTION OF THE TRANSFEREE WARRANTS

The following summary of certain provisions of the Investment Agreement and the Transferee Warrants does not purport to be complete and is qualified in its entirety by reference to the Investment Agreement and the Transferee Warrants, including the definitions therein of certain terms.

General

The Transferee Warrants, when exercised, will entitle the holders to receive an aggregate of 5,443,065 shares of our Common Stock at an exercise price of \$6.62 per share, except that the Transferee Warrants to be held by Mr. Morton will have an exercise price of \$8.90, which was the fair market value of our Common Stock on the date of the grant of the BP Holdco Warrants to Mr. Morton from BP Holdco. The exercise price and the number of shares of Common Stock issuable on exercise of the Transferee Warrants are both subject to adjustment upon the occurrence of certain events. See *Adjustments* below.

Exercise of Transferee Warrants

The Transferee Warrants may be exercised to purchase shares of our Common Stock at any time, in whole or in part, after issuance until the fifth anniversary of the issuance of such Transferee Warrants. The Transferee Warrants may be exercised by (i) tendering to the warrant agent payment of the exercise price in cash, by certified or cashier's check or by wire transfer payable to the order of the Company or (ii) having the warrant agent withhold shares of Common Stock issuable upon exercise of such Transferee Warrants equal in value to the exercise price, based on the market price of the Common Stock on the trading day immediately prior to the date on which such Transferee Warrants are exercised and the notice of exercise is delivered to the warrant agent.

Fundamental Change

Upon the occurrence of a Preliminary Fundamental Change, which is defined as the execution of definitive documentation for a transaction or the recommendation that shareholders tender in response to a tender offer or exchange offer that could reasonably be expected to result in a Fundamental Change upon consummation, or a Fundamental Change, which is defined in the Transferee Warrants as certain events pertaining to a change of control or liquidation of the Company, the holder of Transferee Warrants may cause the Company to purchase the Transferee Warrants, in whole or in part, at the higher of (i) the fair market value of the Transferee Warrants and (ii) a valuation based on a computation of the option value of the Transferee Warrants using a Black-Scholes methodology. Payment by the Company to the holders of the Transferee Warrants of the purchase price will be due upon the occurrence of the Fundamental Change. At the election of the Company, all or any portion of the purchase price may be paid in cash or in Common Stock valued at the market price of a share of Common Stock as of (A) the last trading day prior to the date on which this payment occurs or (B) the first date of the announcement of a Preliminary Fundamental Change or a Fundamental Change (whichever is less), so long as the payment does not cause the Company to fail to comply with applicable NASDAQ requirements or other regulatory requirements. To the extent that a payment in Common Stock would cause the Company to fail to comply with the NASDAQ Marketplace Rules or the other regulatory requirements, once the maximum number of shares of Common Stock that would not result in the contravention of such requirements has been delivered, the remainder of such purchase price may be paid in the form of cash or other equity securities having a fair market value equal to the value of the shares of Common Stock that would have been issued to the holders of the Transferee Warrants absent the limitations described above.

Table of Contents

Adjustments

The number of shares of Common Stock issuable upon the exercise of the Transferee Warrants and the exercise price are subject to adjustment upon the occurrence of, among other things: (i) payment of dividends or other distributions on our Common Stock payable in shares of our Common Stock, (ii) subdivisions, combinations or reclassifications of our Common Stock, (iii) the distribution of shares of any stock other than our Common Stock, (iv) distribution of evidences of indebtedness of the Company or of any subsidiary, (v) the distribution of certain assets, (vi) the distribution of rights or warrants, (vii) certain repurchases of our Common Stock and (viii) a reclassification of Common Stock or a merger, consolidation, statutory share exchange or similar transaction that requires adoption by our stockholders.

No adjustment in the exercise price or the number of shares of Common Stock issuable upon the exercise of the Transferee Warrants will be made if the amount of such adjustment would be less than \$0.01 or one-tenth (1/10th) of a share of Common Stock, but any such amount shall be carried forward and an adjustment with respect thereto shall be made at the time of and together with any subsequent adjustment which, together with such amount and any other amount or amounts so carried forward, shall aggregate \$0.01 or one-tenth (1/10th) of a share of Common Stock, or more.

If the Company takes certain actions affecting the Common Stock, which in the opinion of the Board of Directors would materially and adversely affect the exercise rights of the warrant holder, the exercise price for the Transferee Warrants and/or the number of shares of Common Stock received upon exercise of the Transferee Warrants shall be adjusted for the warrant holder's benefit, to the extent permitted by law, in such manner, and at such time, as such Board of Directors after consultation with the warrant holder shall reasonably determine to be equitable in the circumstances.

Whenever the exercise price or the number of shares of Common Stock into which the Transferee Warrants are exercisable is adjusted, the Company shall file at the office of the warrant agent a statement showing in reasonable detail the facts requiring such adjustment and the exercise price that shall be in effect and the number of shares of Common Stock into which the Transferee Warrants shall be exercisable after such adjustment, and the Company shall also cause a copy of such statement to be sent by mail, first-class postage prepaid, to each warrant holder. In the event that the Company shall propose to take any action affecting an adjustment as described above, the Company shall give notice to the warrant holders, by first-class mail, which notice shall specify the record date, if any, with respect to any such action and the approximate date on which such action is to take place. Such notice shall also set forth the facts with respect thereto as shall be reasonably necessary to indicate the effect on the exercise price and the number, kind or class of shares or other securities or property that shall be deliverable upon exercise of the Transferee Warrants. In the case of any action that would require the fixing of a record date, such notice shall be given at least 10 days prior to the date so fixed, and in case of all other action, such notice shall be given at least 15 days prior to the taking of such proposed action. Failure to give such notice, or any defect therein, shall not affect the legality or validity of any such action.

DESCRIPTION OF COMMON STOCK

The following is a description of the material terms and provisions of our Common Stock. It may not contain all the information that is important to you. Therefore, you should read our Restated Articles of Organization and by-laws that have been filed with the SEC.

Common Stock

General

Under our Restated Articles of Organization, the Company has authority, without further shareholder action, to provide for the issuance of up to 170,000,000 shares of Common Stock. The Company may amend its Restated Articles of Organization from time to time to increase the number of authorized shares of Common Stock. Any such amendment would require the approval of the holders of a majority of the

Table of Contents

Company's stock entitled to vote. The Company's Common Stock is listed on the NASDAQ under the symbol BPFH.

Dividends

Subject to the preferential rights of any other class or series of stock, holders of shares of the Company's Common Stock will be entitled to receive dividends, if and when they are authorized and declared by the Company's Board of Directors, out of assets that the Company may legally use to pay dividends.

Voting Rights

Except as otherwise required by law and except as provided by the terms of any other class or series of stock, holders of Common Stock have the exclusive power to vote on all matters presented to the Company's shareholders, including the election of directors. Holders of Common Stock are entitled to one vote per share. There is no cumulative voting in the election of the Company's directors, which means that, subject to any rights to elect directors that are granted to the holders of any class or series of preferred stock, a plurality of the votes cast at a meeting of shareholders at which a quorum is present is sufficient to elect a director.

Preemptive Rights

Holders of the Company's Common Stock do not have preemptive rights under the Massachusetts Business Corporation Act, or the Company's Restated Articles of Organization or by-laws.

Liquidation/Dissolution Rights

In the event the Company is liquidated, dissolved or the Company's affairs are wound up, and subject to the preferential rights of any other class or series of stock, holders of shares of the Company's Common Stock are entitled to receive, in cash or in kind, in proportion to their holdings, the assets that the Company may legally use to pay distributions after the Company pays or makes adequate provision for all of the Company's debts and liabilities.

Transfer Agent

The transfer agent and registrar for the Common Stock is Computershare, Inc., in Canton, Massachusetts.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of certain U.S. federal income tax and, for non-U.S. holders (as defined below), estate tax consequences of the purchase, ownership, exercise, conversion and/or disposition of the Common Stock, the Series B Preferred Stock, the Series B-1 Preferred Stock, the BP Holdco Warrants and the Transferee Warrants received in respect thereof as of the date hereof. This summary is based upon the provisions of the Internal Revenue Code of 1986, as amended (the Code), and regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in U.S. federal income and estate tax consequences different from those summarized below.

This summary does not contain a detailed description of all the U.S. federal income and estate tax consequences to you in light of your particular circumstances and does not address the effects of any state, local or non-U.S. tax laws. **If you are considering the purchase, ownership or disposition of the Common Stock, the Series B Preferred Stock, the Series B-1 Preferred Stock, the BP Holdco Warrants or the Transferee Warrants, you should consult your own tax advisors concerning the U.S. federal income and estate tax consequences to you in light of your particular situation as well as any consequences arising under the laws of any other taxing jurisdiction.**

U.S. Holders

Dividends

Distributions on the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock will be dividends for U.S. federal income tax purposes to the extent paid out of our current or accumulated earnings and profits, as determined for U.S. federal income tax purposes, and will be taxable as ordinary income although possibly at reduced rates, as discussed below. Although we expect that our current and accumulated earnings and profits will be such that all distributions paid with respect to the Common Stock, the Series B Preferred Stock and the Series B-1 Preferred Stock will qualify as dividends for U.S. federal income tax purposes, we cannot guarantee that result. Our accumulated earnings and profits and our current earnings and profits in future years will depend in significant part on our future profits or losses, which we cannot accurately predict. To the extent that the amount of any distribution paid on the Common Stock, the

Table of Contents

Series B Preferred Stock or the Series B-1 Preferred Stock exceeds our current and accumulated earnings and profits attributable to that share of Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock, the distribution will be treated first as a tax-free return of capital and will be applied against and will reduce the U.S. holder's adjusted tax basis (but not below zero) in that share of the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock. This reduction in basis will increase any gain, or reduce any loss, realized by the U.S. holder on the subsequent sale, redemption or other disposition of the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock. The amount of any such distribution in excess of the U.S. holder's adjusted tax basis will be taxed as capital gain. For purposes of the remainder of the discussion under this heading, it is assumed that distributions paid on the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock will constitute dividends for U.S. federal income tax purposes.

If a U.S. holder is a corporation, dividends that are received by it will generally be eligible for a 70% dividends received deduction under the Code. However, the Code disallows this dividends received deduction in its entirety if the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock with respect to which the dividend is paid is held by such U.S. holder for less than 46 days during the 91-day period beginning on the date which is 45 days before the date on which the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock becomes ex-dividend with respect to such dividend. (A 91-day minimum holding period applies to any dividends on the Series B Preferred Stock or the Series B-1 Preferred Stock that are attributable to periods in excess of 366 days.) Under current law, if a U.S. holder is an individual or other non-corporate holder, dividends received by such U.S. holder generally will be subject to a reduced maximum tax rate of 15% for taxable years beginning before January 1, 2011, after which the rate applicable to dividends is scheduled to return to the tax rate generally applicable to ordinary income. The rate reduction does not apply to dividends received to the extent that U.S. holders elect to treat the dividends as investment income, for purposes of the rules relating to the limitation on the deductibility of investment-related interest, which may be offset by investment expense. Furthermore, the rate reduction will also not apply to dividends that are paid to such holders with respect to the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock that is held by the holder for less than 61 days during the 121-day period beginning on the date which is 60 days before the date on which the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock become ex-dividend with respect to such dividend. (A 91-day minimum holding period applies to any dividends on the Series B Preferred Stock or the Series B-1 Preferred Stock that are attributable to periods in excess of 366 days.)

In general, for purposes of meeting the holding period requirements for both the dividends received deduction and the reduced maximum tax rate on dividends described above, U.S. holders may not count towards their holding period any period in which they (a) have the option to sell, are under a contractual obligation to sell, or have made (and not closed) a short sale of the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock, as the case may be, or substantially identical stock or securities, (b) are the grantor of an option to buy the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock, as the case may be, or substantially identical stock or securities or (c) otherwise have diminished their risk of loss on the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock, as the case may be, by holding one or more other positions with respect to substantially similar or related property. Treasury regulations provide that a taxpayer has diminished its risk of loss on stock by holding a position in substantially similar or related property if the taxpayer is the beneficiary of a guarantee, surety agreement, or similar arrangement that provides for payments that will substantially offset decreases in the fair market value of the stock. In addition, the Code disallows the dividends received deduction as well as the reduced maximum tax rate on dividends if the recipient of a dividend is obligated to make related payments with respect to positions in substantially similar or related property. This disallowance applies even if the minimum holding period has been met. U.S. holders are advised to consult their own tax advisors regarding the implications of these rules in light of their particular circumstances.

U.S. holders that are corporations should consider the effect of Section 246A of the Code, which reduces the dividends received deduction allowed with respect to debt-financed portfolio stock. The Code also imposes a 20% alternative minimum tax on corporations. In some circumstances, the portion of dividends subject to the dividends received deduction will serve to increase a corporation's minimum tax

Table of Contents

base for purposes of the determination of the alternative minimum tax. In addition, a corporate shareholder may be required to reduce its basis in stock with respect to certain extraordinary dividends, as provided under Section 1059 of the Code. U.S. holders should consult their own tax advisors in determining the application of these rules in light of their particular circumstances.

Sale or Other Disposition

A sale, exchange, or other disposition of the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock will generally result in gain or loss equal to the difference between the amount realized upon the disposition (not including any amount attributable to declared and unpaid dividends, which will be taxable as described above to U.S. holders of record who have not previously included such dividends in income) and a U.S. holder's adjusted tax basis in the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock, as the case may be. Such gain or loss will generally be capital gain or loss and will be long-term capital gain or loss if the U.S. holder's holding period for the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock, as applicable, exceeds one year. However, if a U.S. holder receives any extraordinary dividends, as defined in Section 1059 of the Code, with respect to the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock, such holder will be required to treat any loss on the sale, exchange or other disposition of such Common Stock, Series B Preferred Stock or Series B-1 Preferred Stock as long-term capital loss to the extent of the extraordinary dividends received by such holder that qualified for the reduced maximum tax rate of 15%. Under current law, if a U.S. holder is an individual or other non-corporate holder, net long-term capital gain realized by such U.S. holder is subject to a reduced maximum tax rate of 15%. For taxable years beginning on or after January 1, 2011, the maximum rate is scheduled to return to the previously effective 20% rate. The deduction of capital losses is subject to limitations.

Conversion of the Series B Preferred Stock or Series B-1 Preferred Stock into Common Stock

As a general rule, a U.S. holder will not recognize any gain or loss in respect of the receipt of Common Stock upon the conversion of the Series B Preferred Stock or Series B-1 Preferred Stock. The adjusted tax basis of Common Stock received on conversion will equal the adjusted tax basis of the Series B Preferred Stock or Series B-1 Preferred Stock converted (reduced by the portion of adjusted tax basis allocated to any fractional Common Stock exchanged for cash, as described below), and the holding period of such Common Stock received on conversion will generally include the period during which the converted Series B Preferred Stock or Series B-1 Preferred Stock was held prior to conversion. Cash received in lieu of a fractional share of Common Stock will generally be treated as a payment in a taxable exchange for such fractional share, and capital gain or loss will be recognized on the receipt of cash in an amount equal to the difference between the amount of cash received and the amount of adjusted tax basis allocable to the fractional share. Any cash received attributable to any declared and unpaid dividends on the Series B Preferred Stock or Series B-1 Preferred Stock will be treated as described above under U.S. Holders' Dividends.

Adjustment of Conversion Rate

The conversion rate of the Series B Preferred Stock or Series B-1 Preferred Stock is subject to adjustment under certain circumstances. United States Treasury regulations promulgated under Section 305 of the Code would treat a U.S. holder of the Series B Preferred Stock or Series B-1 Preferred Stock as having received a constructive distribution includable in such U.S. holder's income in the manner as described above under U.S. Holders' Dividends, if and to the extent that certain adjustments in the conversion rate increase the proportionate interest of the U.S. holder in our earnings and profits. For example, an increase in the conversion rate to reflect a taxable dividend to holders of Common Stock will generally give rise to a deemed taxable dividend to the holders of the Series B Preferred Stock or Series B-1 Preferred Stock to the extent of our current and accumulated earnings and profits. In addition, an adjustment to the conversion rate of the Series B Preferred Stock or Series B-1 Preferred Stock or a failure to make such an adjustment could potentially give rise to constructive distributions to U.S. holders of our Common Stock. Thus, under certain circumstances, U.S. holders may recognize income in the event of a constructive distribution even though they may not receive any cash or property. Adjustments to the conversion rate made pursuant to a bona fide reasonable adjustment formula which has the effect of preventing dilution in the interest of the holders of the Series B Preferred Stock or Series B-1 Preferred Stock, however, will generally not be considered to result in a constructive dividend distribution.

Warrants

As a general rule, a U.S. holder will not recognize gain or loss upon the exercise of the BP Holdco Warrants or Transferee Warrants for cash. The adjusted tax basis of the Common Stock received on exercise will equal the adjusted tax basis in such holder's BP Holdco Warrants or Transferee Warrants, plus the exercise price of the BP Holdco Warrants or Transferee Warrants, and reduced by the portion of adjusted tax basis and exercise price allocated to any fractional share of Common Stock exchanged for cash, as described below. The holding period for the Common Stock purchased pursuant to the exercise of the BP Holdco Warrants or Transferee Warrants for cash will begin on the day following the date of exercise and will not include the period that the holder held the BP Holdco Warrants or Transferee Warrants. Cash received in lieu of a fractional share of Common Stock will generally be treated as a payment in a taxable exchange for such fractional share, and capital gain or loss will be recognized on the receipt of cash in an amount equal to the difference between the amount of cash received and the amount of

Common Stock adjusted tax basis allocated to the fractional share.

Upon the net-exercise of the BP Holdco Warrants or Transferee Warrants, a holder generally will not recognize gain or loss, except for cash received in lieu of a fractional share of Common Stock. The adjusted tax basis of the Common Stock received will equal the adjusted tax basis in such holder's BP Holdco Warrants or Transferee Warrants (reduced by the portion of adjusted tax basis allocated to any fractional share of Common Stock exchanged for cash, as described below), and the holding period of such Common Stock received on such net-exercise generally will include the period during which such BP Holdco Warrants or Transferee Warrants were held prior to the net-exercise. Cash received in lieu of a fractional share of Common Stock will be treated as described above in the case of an exercise for cash.

Upon a sale or other disposition (other than exercise) of the BP Holdco Warrants or Transferee Warrants, a holder will recognize capital gain or loss in an amount equal to the difference between the amount realized and the holder's tax basis in the BP Holdco Warrants or Transferee Warrants. Such a gain or loss will be long-term if the holding period is more than one year. In the event that the BP Holdco Warrants or Transferee Warrants lapse unexercised, a holder will recognize a capital loss in an amount equal to its tax basis in the BP Holdco Warrants or Transferee Warrants. Such loss will be long-term if the BP Holdco Warrants or Transferee Warrant have been held for more than one year.

Under Section 305 of the Code, a U.S. holder may be deemed to have received a constructive distribution from us (which may result in the inclusion of ordinary dividend income) in the event of certain adjustments, or the failure to make certain adjustments, to the number of shares of Common Stock to be issued upon exercise of a BP Holdco Warrant or Transferee Warrant or to the exercise price of the BP Holdco Warrant or Transferee Warrant. See U.S. Holders' Adjustment of Conversion Rate above.

Information Reporting and Backup Withholding

In general, information reporting will apply to dividends in respect of the Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock and the proceeds from the sale, exchange or other disposition of the Common Stock, the Series B Preferred Stock, the Series B-1 Preferred Stock, the BP Holdco Warrants or the Transferee Warrants that are paid to a U.S. holder within the United States (and in certain cases, outside the United States), unless a U.S. holder is an exempt recipient. A backup withholding tax may apply to such payments if a U.S. holder fails to provide a taxpayer identification number or certification of other exempt status or fails to report in full dividend and interest income.

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a U.S. holder's U.S. federal income tax liability provided the required information is furnished to the Internal Revenue Service.

Table of Contents

Non-U.S. Holders

Dividends

Dividends (including distributions in the form of our Common Stock, the Series B Preferred Stock or the Series B-1 Preferred Stock taxable as dividends and any constructive distributions taxable as dividends) paid to a non-U.S. holder generally will be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business by the non-U.S. holder within the United States (and, if required by an applicable income tax treaty, are attributable to a U.S. permanent establishment) are not subject to the withholding tax, provided certain certification and disclosure requirements are satisfied. Instead, such dividends are subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a U.S. person as defined under the Code. Any such effectively connected dividends received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

A non-U.S. holder who wishes to claim the benefit of an applicable treaty rate and avoid backup withholding, as discussed below, for dividends will be required (a) to complete Internal Revenue Service Form W-8BEN (or other applicable form) and certify under penalty of perjury that such holder is not a U.S. person as defined under the Code and is eligible for treaty benefits or (b) if the Common Stock, the Series B Preferred Stock, the Series B-1 Preferred Stock, the BP Holdco Warrants or the Transferee Warrants are held through certain foreign intermediaries, to satisfy the relevant certification requirements of applicable U.S. Treasury regulations. Special certification and other requirements apply to certain non-U.S. holders that are pass-through entities rather than corporations or individuals.

A non-U.S. holder that is eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the Internal Revenue Service.

Sale or Other Disposition

Any gain realized on the disposition of the Common Stock, the Series B Preferred Stock, the Series B-1 Preferred Stock, the BP Holdco Warrants or Transferee Warrants generally will not be subject to U.S. federal income tax unless:

the gain is effectively connected with a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment of the non-U.S. holder);

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

we are or have been a United States real property holding corporation for U.S. federal income tax purposes.

An individual non-U.S. holder described in the first bullet point immediately above will be subject to tax on the net gain derived from the sale under regular graduated U.S. federal income tax rates. An individual non-U.S. holder described in the second bullet point immediately above will be subject to a flat 30% tax on the gain derived from the sale, which may be offset by U.S. source capital losses, even though the individual is not considered a resident of the United States. If a non-U.S. holder that is a foreign corporation falls under the first bullet point immediately above, it will be subject to tax on its net gain in the same manner as if it were a U.S. person as defined under the Code and, in addition, may be subject to the branch profits tax equal to 30% of its effectively connected earnings and profits or at such lower rate as may be specified by an applicable income tax treaty.

We believe we are not and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

Conversion of the Series B Preferred Stock or Series B-1 Preferred Stock into Common Stock

Non-U.S. holders will generally not recognize any gain or loss in respect of the receipt of Common Stock upon the conversion of the Series B Preferred Stock or Series B-1 Preferred Stock, except with respect to any cash received in lieu of a fractional share of Common Stock that is taxable as described above under Non-U.S. Holders Sale or Other Disposition.

Table of Contents

Federal Estate Tax

The Common Stock, the Series B Preferred Stock, the Series B-1 Preferred Stock, and potentially the BP Holdco Warrants and the Transferee Warrants owned or treated as owned by an individual who is not a citizen or resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of death will be included in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax or other treaty provides otherwise and, therefore, may be subject to U.S. federal estate tax.

Information Reporting and Backup Withholding

We must report annually to the Internal Revenue Service and to each non-U.S. holder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty.

A non-U.S. holder will be subject to backup withholding for dividends paid to such holder unless such holder certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that such holder is a U.S. person as defined under the Code), or such holder otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale of the Common Stock, the Series B Preferred Stock, the Series B-1 Preferred Stock, the BP Holdco Warrants or Transferee Warrants within the United States or conducted through certain U.S.-related financial intermediaries, unless the beneficial owner certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a U.S. person as defined under the Code), or such owner otherwise establishes an exemption.

Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's U.S. federal income tax liability provided the required information is furnished to the Internal Revenue Service.

In addition, newly enacted legislation imposes withholding taxes on certain types of payments made after December 31, 2012 to foreign financial institutions and certain other non-U.S. entities. The withholding tax of 30% would apply to dividends and the gross proceeds of a disposition of our Common Stock, Series B Preferred Stock or Series B-1 Preferred Stock paid to certain foreign entities unless various information reporting requirements are satisfied. For these purposes, a foreign financial institution generally is defined as any non-U.S. entity that (i) accepts deposits in the ordinary course of a banking or similar business, (ii) is engaged in the business of holding financial assets for the account of others, or (iii) is engaged or holds itself out as being engaged primarily in the business of investing, reinvesting, or trading in securities, partnership interests, commodities, or any interest in such assets. Non-U.S. holders are encouraged to consult their tax advisors regarding the implications of this legislation on their investment in our Common Stock, the Series B Preferred Stock or Series B-1 Preferred Stock, as well as the status of any other legislative proposals that may pertain to ownership and disposition of an investment in the Company.

SELLING SECURITYHOLDERS

The Securities were initially sold in two separate private placements that were exempt from registration pursuant to Section 4(2) of the Securities Act.

BP Holdco, an affiliate of The Carlyle Group, purchased shares of Series A Non-Cumulative Mandatorily Convertible Preferred Stock (the Series A Preferred Stock) and shares of Series B Preferred Stock for approximately \$75 million pursuant to an investment agreement dated July 22, 2008. The Series A Preferred Stock automatically converted on October 1, 2008 into 6,346,572 shares of Common Stock. The Series B Preferred Stock is convertible into 7,261,091 shares of Common Stock at a conversion price of \$5.52 per share, subject to customary anti-dilution adjustments. BP Holdco is entitled to exchange shares of Series B Preferred Stock for shares of Series B-1 Preferred Stock, which eliminate certain conversion and antidilution adjustment limitations, in order to facilitate resales of the Series B Preferred Stock by BP Holdco. In connection with the investment, BP Holdco received the BP Holdco Warrants, which are

Table of Contents

exercisable for 5,443,065 shares of Common Stock at an exercise price of \$6.62 per share (subject to adjustment). BP Holdco cannot convert the Series B Preferred Stock or exercise BP Holdco Warrants if as a result it would own, in the aggregate, greater than 9.99% of the Company's outstanding shares of Common Stock. Pursuant to BP Holdco's investment, we appointed John Morton, III, to the Company's Board of Directors as BP Holdco's representative. BP Holdco will be entitled to maintain a representative on the Company's Board of Directors for so long as it beneficially owns not less than 5% of the Company's outstanding shares of Common Stock. Of the BP Holdco Warrants granted to BP Holdco, BP Holdco, in consideration for Mr. Morton agreeing to act as BP Holdco's representative on the Company's Board of Directors, granted and assigned to Mr. Morton warrants to purchase 59,174 shares of Common Stock at an exercise price of \$8.90, which was the fair market value of our Common Stock on the date of the grant. The selling stockholders are entitled to exchange the BP Holdco Warrants for the Transferee Warrants, which eliminate certain exercise and antidilution adjustment limitations, in order to facilitate resale of the BP Holdco Warrants by the selling stockholders.

BP Holdco purchased 1,084,450 shares of Common Stock pursuant to an investment agreement dated June 18, 2010.

The selling securityholders may from time to time offer and sell pursuant to this prospectus any or all of the Securities listed below. When we refer to the selling securityholders in this prospectus, we mean those persons listed in the table below, as well as the pledgees, donees, assignees, transferees, successors and others who later hold any of the selling securityholders' interests.

The table below sets forth the name of each selling securityholder, the amount of Securities that each selling securityholder may offer pursuant to this prospectus. However, the number of shares of Common Stock into which the Series B Preferred Stock, the Series B-1 Preferred Stock and the Warrants are initially convertible or exercisable, as the case may be, is subject to adjustment, including adjustment resulting from certain corporate transactions. See Description of the BP Holdco Warrants Adjustments and Description of the Transferee Warrants Adjustments.

Because the selling securityholders are not obligated to sell the Securities, we cannot estimate the amount of the Securities that the selling securityholders will hold upon consummation of any such sales. For purposes of the following table, we have assumed the sale of all the Securities.

PLAN OF DISTRIBUTION

The selling securityholders (including their transferees, donees or pledgees) or their successors may offer and sell the Securities from time to time directly or through underwriters, broker-dealers or agents. If the Securities are sold through underwriters or broker-dealers, the selling securityholder will be responsible for any underwriting discounts or commissions or agent's commissions and their professional fees. The Securities may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of sale, at varying prices determined at the time of sale, or at negotiated prices. Such sales may be effected in transactions (which may involve block transactions):

on any national securities exchange or U.S. interdealer system of a registered national securities association on which the Securities may be listed or quoted at the time of sale;

in the over-the-counter market;

in transactions otherwise than on a national securities exchange or U.S. interdealer system of a registered national securities association or in the over-the-counter market;

through the settlement of short sales;

through the writing of options, whether the options are listed on an options exchange or otherwise;

in any combination of the foregoing; or

any other method permitted pursuant to applicable law.

In connection with the sales of the Securities, the selling securityholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the offered Securities, short and deliver the Securities to close out such short positions, or loan or pledge the Securities to broker-dealers that in turn may sell such Securities. The selling securityholders also may transfer, donate and pledge offered Securities, in which case the transferees, donees, pledgees or other successors in interest will be deemed selling securityholders for purposes of this transaction.

If a material arrangement with any underwriter, broker, dealer or other agent is entered into for the sale of any of the Securities through a secondary distribution or a purchase by a broker or dealer, or if other material changes are made in the plan of distribution of the Securities, a prospectus supplement will be filed, if necessary, under the Securities Act disclosing the material terms and conditions of such arrangement. The underwriter or underwriters with respect to an underwritten offering of Securities and the other material terms and conditions of the underwriting

will be set forth in a prospectus supplement relating to such offering and, if an underwriting syndicate is used, the managing underwriter or underwriters will be set forth on the cover of the prospectus supplement. In connection with the sale of the Securities, underwriters will receive compensation in the form of underwriting discounts or commissions and may also receive commissions from purchasers of Securities for whom they may act as agent. Underwriters may sell to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agent.

To our knowledge, there are currently no plans, arrangements or understandings between any selling securityholders and any underwriter, broker-dealer or agent regarding the sale by the selling securityholders of the Securities. Selling securityholders may decide to sell all or a portion of the Securities offered by them pursuant to this prospectus or may decide not to sell any of the Securities under this prospectus. In addition, any selling securityholder may transfer, devise or give the Securities by other means not described in this prospectus. Any Securities covered by this prospectus that qualify for sale pursuant to Rule 144 or Rule 144A of the Securities Act may be sold under Rule 144 or Rule 144A rather than pursuant to this prospectus.

The selling securityholders and any underwriters, broker-dealers or agents participating in the distribution of the Securities may be deemed to be underwriters, within the meaning of the Securities Act, and any profit on the sale of the Securities by the selling securityholders and any commissions received by any such underwriters, broker-dealers or agents may be deemed to be underwriting commissions under the Securities Act. If the selling securityholders are deemed to be underwriters, the selling securityholders may be subject to statutory liabilities including, but not limited to, those of Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

The selling securityholders and any other person participating in the distribution will be subject to the applicable provisions of the Exchange Act and the rules and regulations under the Exchange Act, including, without limitation, Regulation M, which may limit the timing of purchases and sales by the selling securityholders and any other relevant person of any of the Securities. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of Securities to engage in market-making activities with respect to the particular Securities being distributed. All of the above may affect the marketability of the Securities and the ability of any person or entity to engage in market-making activities with respect to the Securities.

Under the securities laws of certain states, the Securities may be sold in those states only through registered or licensed brokers or dealers. In addition, in certain states, the Securities may not be sold unless the Securities have been registered or qualified for sale in the state or an exemption from registration or qualification is available and complied with.

Item 17. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that subparagraphs (1)(i), (1)(ii) and (1)(iii) do not apply if information required to be included in a post-effective amendment by those paragraphs is contained in reports filed by the registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which the prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

Table of Contents

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) the portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the undersigned registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
