The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

Item 1. **Report to Stockholders.** Attached hereto.

The President's Letter

Dear Shareholder,

We are pleased to present the semi-annual report of the TCW Strategic Income Fund (TSI or the Fund). TSI is a multi-asset class closed-end fund managed by TCW Investment Management Company. The Fund's current distribution policy is to pay at least 7% annually based on the previous year-end net asset value (NAV). During the first half, quarterly dividend distributions of \$0.0835 per share were paid out. The overall discount to NAV remained relatively constant, with the overall return on NAV of 13.20% and the return on market price of 13.73%. The discount as of June 30, 2010 stood at 8.22%.

TSI's current underlying asset allocation includes a mix of fixed income and equity securities. The Fund exited its remaining positions in CDO/CLO assets at the beginning of the year. The Fund also assumed equity and corporate bond allocation during this period. The relative allocation to mortgages decreased during the period, but still represents the largest sector weight in the Fund at 73.27% with a year-to-date sector return of 13% through June 30, 2010.

The following table summarizes the principal market sectors of the Fund during the period:

Fund Sector	Market Value	Fund Allocation
Mortgage-Backed Securities	\$ 205,775,816	73.27%
Common Stocks	34,514,698	12.29
Corporate Bonds	21,328,648	7.59
Convertible Securities	12,388,578	4.41
Asset-Backed Securities	5,168,029	1.84
Taxable Municipal Bonds	1,607,320	0.57
Preferred Stocks	75,714	0.03
	\$ 280,858,803	100.00%

The above allocations resulted from the following:

Allocation to mortgage-backed securities (MBS) decreased from 92.0% to 73.27% during the year. The decrease in weighting was due to the allocation to common stocks and corporate bonds. This allocation is composed of MBS securities with high initial credit ratings, including those backed by mortgages securitized by Government Sponsored Enterprises (GSEs) as well as by private label issuers. Some securities have characteristics that differ from traditional pass-through MBS, including their liquidity and sensitivity to rate changes. These securities include inverse floaters and interest-only securities. The non-GSE-backed MBS have greater exposure to credit risk, although TCW purchased these with a view to capturing deep pricing discounts to ultimate recovery values, even assuming harsh losses to the underlying loan pools. In line with the overall non-GSE-backed MBS market, the Fund's holdings in these securities have experienced downgrades and are now predominately a collection of sub-investment grade holdings. However, the change in ratings does not alter our investment thesis in the sector.

The Fund initiated an allocation to the equity market in March. Additional allocations were made through dollar cost averaging between March and late June. The equity allocation was invested in large cap value oriented common stocks with an emphasis on dividend yield. Market capitalizations of the equity investments usually exceed \$1 billion.

The President's Letter (Continued)

Management increased its allocation to corporate bonds in the first half of 2010. This allocation was comprised primarily of investment grade bonds with 16% in high yield issues.

Leverage employed by the Fund reduced significantly from prior year end, decreasing by \$32.9 million to \$25.7 million at June 30, 2010. We greatly appreciate your investment in TSI and vote of confidence in the TCW franchise. In the event that you have any additional questions or comments, I invite you to visit our web site at www.tcw.com or call our shareholder services department at 1-866-227-8179.

Sincerely,

Charles W. Baldiswieler

President and Chief Executive Officer

TCW Strategic Income Fund, Inc.

	NET ASSETS (100.0%)	\$ 249,219,365

Notes to Schedule of Investments:

- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2010, the value of these securities amounted to \$12,862,379 or 5.2% of net assets. These securities are determined to be liquid by the Advisor, unless otherwise noted, under procedures established by and under the general supervision of the Fund's Board of Directors.
- (2) Floating or variable rate security. The interest shown reflects the rate in effect at June 30, 2010.
- (3) As of June 30, 2010, security is not accruing interest.
- (4) Restricted security (Note 7).
- (5) Illiquid security.
- (6) Non-income producing security.

ADR - American Depositary Receipt. Shares of a foreign based corporation held in U.S. banks entitling the shareholder to all dividends and capital gains.

EETC - Enhanced Equipment Trust Certificate.

I/F - Inverse Floating rate security whose interest rate moves in the opposite direction of prevailing interest rates.

I/O - Interest Only Security.

PAC - Planned Amortization Class.

P/O - Principal Only Security.

SP ADR - Sponsored American Depositary Receipt. Shares of a foreign based corporation held in U.S. banks that are issued with the cooperation of the company whose stock underlies the ADR and entitles the shareholder to all dividends, capital gains and voting rights.

TAC - Target Amortization Class.

Notes to Financial Statements (Unaudited)

June 30, 2010

Note 1 Significant Accounting Policies:

TCW Strategic Income Fund, Inc. (the Fund) was incorporated in Maryland on January 13, 1987 as a diversified, closed-end investment management company and is registered under the Investment Company Act of 1940, as amended, and is traded on the New York Stock Exchange under the symbol TSI. The Fund commenced operations on March 5, 1987. The Fund's investment objective is to seek a total return comprised of current income and capital appreciation by investing in convertible securities, marketable equity securities, investment-grade debt securities, high-yield debt securities, options, securities issued or guaranteed by the United States Government, its agencies and instrumentalities (U.S. Government Securities), repurchase agreements, mortgage related securities, asset-backed securities, money market securities and other securities without limit believed by the Fund's investment advisor to be consistent with the Fund's investment objective. TCW Investment Management Company (the Advisor) is the investment advisor to the Fund and is registered under the Investment Advisers Act of 1940.

The preparation of the accompanying financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

Security Valuation: Securities traded on national exchanges are valued at the last reported sales price or the mean of the current bid and asked prices if there are no sales in the trading period. Other securities which are traded on the over-the-counter market are valued at the mean of the current bid and asked prices. Short-term debt securities with maturities of 60 days or less at the time of purchase are valued at amortized cost. Other short-term debt securities are valued on a mark-to-market basis until such time as they reach a remaining maturity of 60 days, where upon they will be valued at amortized value using their value of the 61st day prior to maturity.

Securities for which market quotations are not readily available, including circumstances under which it is determined by the Advisor that sale or mean prices are not reflective of a security's market value, are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Fund's Board of Directors. There were no fair valued securities at June 30, 2010.

Fair value is defined as the price that a fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is utilized to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

TCW Strategic Income Fund, Inc.

Notes to Financial Statements (Unaudited) (Continued)

Note 1 Significant Accounting Policies (Continued):

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Changes in valuation techniques may result in transfers in or out of an investment's assigned Level within the hierarchy. The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments and the determination of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to each security.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition, as well as changes related to liquidity of investments, could cause a security to be reclassified between Level 1, Level 2, or Level 3.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Equity securities. Securities are generally valued based on quoted prices from the applicable exchange. To the extent these securities are actively traded, valuation adjustments are not applied and they are categorized in Level 1 of the fair value hierarchy. Restricted securities issued by publicly held companies are valued at a discount to similar publicly traded securities and may be categorized as Level 2 of the fair value hierarchy to the extent that the discount is considered to be insignificant to the fair value measurement in its entirety, otherwise they may be categorized as Level 3. Restricted securities held in non-public entities are included in Level 3 of the fair value hierarchy because they trade infrequently, and, therefore, the inputs are unobservable. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments such as depositary receipts, futures, exchange-traded funds (ETFs), and the movement of certain indexes of securities based on a statistical analysis of the historical relationship and are categorized in Level 2 of the fair value hierarchy.

Corporate bonds. The fair value of corporate bonds is estimated using recently executed transactions, market price quotations (where observable), bond spreads, or credit default swap spreads adjusted for any basis difference between cash and derivative instruments. Corporate bonds are generally categorized in Level 2 of the fair value hierarchy; in instances where prices, spreads, or any of the other aforementioned key inputs are unobservable, they are categorized in Level 3 of the hierarchy.

TCW Strategic Income Fund, Inc.

June 30, 2010

Note 1 Significant Accounting Policies (Continued):

Asset-backed securities and mortgage-backed securities. The fair value of asset-backed securities and mortgage-backed securities is estimated based on models that consider the estimated cash flows of each debt tranche of the issuer, establish a benchmark yield, and develop an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche including, but not limited to, the prepayment speed assumptions and attributes of the collateral. To the extent the inputs are observable and timely, the values would be categorized in Level 2 of the fair value hierarchy, otherwise they would be categorized as Level 3.

U.S. Government and agency securities. U.S. government and agency securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, quoted market prices, and reference data. Accordingly, U.S. government and agency securities are normally categorized in Level 2 of the fair value hierarchy.

Restricted securities. Restricted securities that are deemed to be both Rule 144A securities and illiquid, as well as restricted securities held in non-public entities, are included in Level 3 of the fair value hierarchy because they trade infrequently, and, therefore, the inputs are unobservable. Any other restricted securities are valued at a discount to similar publicly traded securities and may be categorized as Level 2 of the fair value hierarchy to the extent that the discount is considered to be insignificant to the fair value measurement in its entirety, otherwise they may be categorized as Level 3.

The following is a summary of the inputs used as of June 30, 2010 in valuing the Fund's investments:

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

TCW Strategic Income Fund, Inc.

Notes to Financial Statements (Unaudited) (Continued)

Note 1 Significant Accounting Policies (Continued):

The Fund adopted FASB Accounting Standards Update No 2010-06 Fair Value Measurements and Disclosures (Topic 820) (the Update), effective June 30, 2010. The Update requires the Fund to disclose significant transfers in and out of Level 1 and Level 2 of the fair value hierarchy, the reasons for the transfers, as well as, the valuation techniques and inputs used to measure fair value for investments that fall in either Level 2 or Level 3 fair value hierarchy. The Fund did not have any transfers in and out of Level 1 and Level 2 of the fair value hierarchy during the six months ended June 30, 2010.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

Investments in Securities	Balance as of 12/31/09	Accrued Discounts (Premiums)	Realized Gain/Loss and Change in Unrealized Appreciation/ (Depreciation)	Net Purchases (Sales)	Net Transfers in and/or Out of Level 3	Balance as of 06/30/10	Net Change in Unrealized Appreciation/ (Depreciation) from Investments Still Held as of 06/30/10
Fixed Income Securities							
Asset Backed Securities	\$ 2,024	\$ 0	\$ (2,024)	\$ 0	\$ 0	\$ 0	\$ 0
Collateralized Debt Obligations	6,772,061	0	5,140,789	(11,912,850)	0	0	0
Total	\$ 6,774,085	\$ 0	\$ 5,138,765	\$ (11,912,850)	\$ 0	\$ 0	\$ 0

Security Transactions and Related Investment Income: Security transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date, while interest income is recorded on the accrual basis. Discounts, including original issue discounts, and premiums on securities purchased are amortized using a constant yield-to-maturity method. Realized gains and losses on investments are recorded on the basis of specific identified cost.

Distributions: Distributions to shareholders are recorded on ex-dividend date. The Fund declares and pays, or reinvests, dividends quarterly based on the managed distribution plan adopted by the Fund's Board of Directors. Under the Plan, the Fund will distribute a cash dividend equal to 7% of the Fund's net asset value on an annualized basis. The distribution will be based on the Fund's net asset value from the previous calendar year-end. The source for the dividend comes from net investment income and net realized capital gains measured on a fiscal year basis. Any portion of the distribution that exceeds income and capital gains will be treated as a return of capital. Under certain conditions, federal tax regulations cause some or all of the return of capital to be taxed as ordinary income. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences may be primarily due to differing treatments for market discount and premium, losses recognized for defaults or write-off on structured debt, losses deferred due to wash sales and spillover distributions. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid-in-capital and may affect net investment income per share.

Repurchase Agreements: The Fund may invest in repurchase agreements secured by U.S. Government Securities. A repurchase agreement arises when the Fund purchases a security and simultaneously agrees

TCW Strategic Income Fund, Inc.

June 30, 2010

Note 1 Significant Accounting Policies (Continued):

to resell it to the seller at an agreed upon future date. The Fund requires the seller to maintain the value of the securities, marked to market daily, at not less than the repurchase price. If the seller defaults on its repurchase obligation, the Fund could suffer delays, collection expenses and losses to the extent that the proceeds from the sale of the collateral are less than the repurchase price.

Note 2 Federal Income Taxes:

It is the policy of the Fund to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and distribute all of its net taxable income, including any net realized gains on investments, to its shareholders. Therefore, no federal income tax provision is required.

At June 30, 2010, net unrealized appreciation (depreciation) for federal income tax purposes is comprised of the following components:

Appreciated securities	\$ 38,826,047
Depreciated securities	(22,757,027)
Net unrealized appreciation	\$ 16,069,020
Cost of securities for federal income tax purposes	\$ 264,926,519

The Fund did not have any unrecognized tax benefits at June 30, 2010, nor were there any increases or decreases in unrecognized tax benefits for the period then ended; and therefore no interest or penalties were accrued. The Fund is subject to examination by U.S. federal and state tax authorities for returns filed for the prior three and four fiscal years, respectively.

Note 3 Investment Advisory and Service Fees:

As compensation for the services rendered, facilities provided, and expenses borne, the Advisor is paid a monthly fee by the Fund computed at the annual rate of 0.75% of the first \$100 million of the Fund's average managed assets and 0.50% of the Fund's average managed assets in excess of \$100 million.

In addition to the management fees, the Fund reimburses, with approval by the Fund's Board of Directors, a portion of the Advisor's costs associated in support of the Fund's Rule 38a-1 compliance obligations, which is included in the Statement of Operations.

Note 4 Purchases and Sales of Securities:

For the six months ended June 30, 2010, purchases and sales or maturities of investment securities (excluding short-term investments) aggregated \$80,554,940 and \$60,423,994, respectively, for non-U.S. Government Securities and aggregated \$2,261,442 and \$26,426,207, respectively, for U.S. Government Securities.

Note 5 Security Lending:

Edgar Filing: TCW STRATEGIC INCOME FUND INC - Form N-CSRS

The Fund can lend securities to brokers. The brokers must provide collateral, which must be maintained at not less than 100% of the value of the loaned securities, to secure the obligation. The Fund receives income, net of broker fees, by investing the collateral. The Fund did not lend securities any time during the six months ended June 30, 2010.

Note 6 Directors Fees:

Directors who are not affiliated with the Advisor received, as a group, fees and expenses of \$36,315 from the Fund for the six months ended June 30, 2010. Certain Officers and/or Directors of the Fund are also Officers and/or Directors of the Advisor.

TCW Strategic Income Fund, Inc.

Notes to Financial Statements (Unaudited) (Continued)

Note 7 Restricted Securities:

The Fund is permitted to invest in securities that are subject to legal or contractual restrictions on resale. These securities may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. There were no restricted securities (excluding Rule 144A issues) at June 30, 2010. However, certain 144A securities were deemed illiquid as of June 30, 2010 and therefore were considered restricted. Aggregate cost and fair value of such securities held at June 30, 2010 were as follows:

	Aggregate Cost	Aggregate Value	Value as a Percentage of Fund's Net Assets
Total of Restricted Securities	\$ 1,516,404	\$ 1,583,369	0.6%

Note 8 Loan Outstanding:

The Fund is permitted to have borrowings for investment purposes. The Fund has entered into a line of credit agreement with The Bank of New York Mellon which permits the Fund to borrow up to \$70 million at a rate, per annum, equal to the Federal Funds Rate plus 1.25%. The average daily loan balance during the period for which loans were outstanding amounted to \$32,587,922, and the weighted average interest rate was 1.25%. Interest expense on the line of credit was \$201,633 for the six months ended June 30, 2010. The maximum outstanding loan balance during the six months ended June 30, 2010 was \$58,600,000.

Note 9 Indemnifications:

Under the Fund's organizational documents, its Officers and Directors may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund, and shareholders are indemnified against personal liability for the obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote. The Fund has not accrued any liability in connection with such indemnification.

Supplemental Information (Unaudited)

Proxy Voting Guidelines

The policies and procedures that the Fund uses to determine how to vote proxies are available without charge. The Board of Directors of the Fund has delegated the Fund's proxy voting authority to the Advisor.

Disclosure of Proxy Voting Guidelines

The proxy voting guidelines of the Advisor are available:

1. By calling 1-(877) 829-4768 to obtain a hard copy; or
2. By going to the SEC website at <http://www.sec.gov>.

When the Fund receives a request for a description of the Advisor's proxy voting guidelines, it will be sent out via first class mail (or other means designed to ensure equally prompt delivery) within three business days of receiving the request.

The Advisor, on behalf of the Fund, must prepare and file Form N-PX with the SEC not later than August 31 of each year, which must include the Fund's proxy voting record for the most recent twelve-month period ended June 30 of that year. The Fund's proxy voting record for the most recent twelve-month period ended June 30 is available:

1. By calling 1-(877) 829-4768 to obtain a hard copy; or
2. By going to the SEC website at <http://www.sec.gov>.

When the Fund receives a request for the Fund's proxy voting record, it will send the information disclosed in the Fund's most recently filed report on Form N-PX via first class mail (or other means designed to ensure equally prompt delivery) within three business days of receiving the request. The Fund also discloses its proxy voting record on its website as soon as is reasonably practicable after its report on Form N-PX is filed with the SEC.

Availability of Quarterly Portfolio Schedule

The Fund files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of its fiscal year on Form N-Q. The Form N-Q is available by calling 1-(877) 829-4768 to obtain a hard copy. You may also obtain the Fund's Form N-Q:

1. By going to the SEC website at <http://www.sec.gov>; or
2. By visiting the SEC's Public Reference Room in Washington, D.C. and photocopying it (Phone 1-800-SEC-0330 for information on the operation of the SEC's Public Reference Room).

Corporate Governance Listing Standards

Edgar Filing: TCW STRATEGIC INCOME FUND INC - Form N-CSRS

In accordance with Section 303A.12 (a) of the New York Stock Exchange Listed Company Manual, the Fund's Annual CEO Certification certifying compliance with NYSE's Corporate Governance Listing Standards was submitted to the Exchange on October 20, 2009.

TCW Strategic Income Fund, Inc.

Dividend Reinvestment Plan

Shareholders who wish to add to their investment may do so by making an election to participate in the Dividend Reinvestment Plan (the Plan). Under the Plan, your dividend is used to purchase shares on the open market whenever shares, including the related sales commission, are selling below the Fund's net assets value per share. You will be charged a pro-rata portion of brokerage commissions on open-market purchases under the Plan. If the market price, including commission, is above the net asset value, you will receive shares at a price equal to the higher of the net asset value per share on the payment date or 95% of the closing market price on the payment date. Generally, for tax purposes, shareholders participating in the Plan will be treated as having received a distribution from the Fund in cash equal to the value of the shares purchased from them under the Plan.

To enroll in the plan, if your shares are registered in your name, write to the BNY Mellon Shareowner Services (BNY), P.O. Box #358035, Pittsburgh, PA 15252-8035, or call toll free at (866) 227-8179. If your shares are held by a brokerage firm, please call your broker. If you participate in the Plan through a broker, you may not be able to transfer your shares to another broker and continue to participate in the Plan if your new broker does not permit such participation. If you no longer want to participate in the Plan, please contact the BNY or your broker. You may elect to continue to hold shares previously purchased on your behalf or to sell your shares and receive the proceeds, net of any brokerage commissions. If you need additional information or assistance, please call our investor relations department at (877) 829-4768 or visit our website at www.tcw.com. As always, we would be pleased to accommodate your investment needs.

TCW Strategic Income Fund, Inc.

Approval of Advisory and Management Agreement

TCW Strategic Income Fund, Inc. (the **Fund**) and TCW Investment Management Company (the **Advisor**) are parties to an Investment Advisory and Management Agreement (**Advisory Agreement**), pursuant to which the Advisor is responsible for managing the investments of the Fund. At a meeting held on June 23, 2010, the Board of Directors of the Fund (the **Board**) re-approved the Advisory Agreement. The Advisor provided materials to the Board for its evaluation in response to information requested by the Independent Directors who were advised by independent legal counsel with respect to these and other relevant matters. Discussed below are the factors considered by the Board in re-approving the Advisory Agreement. This discussion is not intended to be all-inclusive. The Board reviewed a variety of factors and considered a significant amount of information, including information received on an ongoing basis at Board and committee meetings. The approval determination was made on the basis of each Director's business judgment after consideration of all the information taken as a whole. Individual Directors may have given different weight to certain factors and assigned various degrees of materiality to information received in connection with the contract review process.

In evaluating the Advisory Agreement, the Board of Directors, including the Independent Directors, considered the following factors, among others:

Nature, Extent and Quality of Services. The Board considered the general nature, extent, and quality of services provided and expected to be provided by the Advisor. They evaluated the Advisor's experience in serving as manager of the Fund and considered the benefits to shareholders of investing in a fund that is served by a large organization which also serves a variety of other investment advisory clients, including separate accounts, other pooled investment vehicles, registered investment companies, commingled funds and collective trusts. The Board also considered the MetWest Acquisition and that it had resulted in the Advisor being able to provide better asset management services by enjoying benefits of a larger organization including, among other things, assets under management and number of employees and increased access to state of the art technology and risk management analytic tools, including investment tools. The Board also considered the ability of the Advisor to provide appropriate levels of support and resources to the Fund. The Board noted the background and experience of the senior management and portfolio management personnel of the Advisor, and that the expertise and amounts of attention provided and expected to be given to the Fund by the Advisor is substantial. The Board considered the ability of the Advisor to attract and retain qualified business professionals and its compensation program. They also considered the breadth of the compliance programs of the Advisor, as well as the compliance operations with respect to the Fund. The Board concluded that it was satisfied with the nature, extent and quality of the services provided and anticipated to be provided to the Fund by the Advisor under the Advisory Agreement.

Investment Performance. The Board was provided with a report prepared by Morningstar Associates LLC, an independent third party consultant (the **Report**), which provided a comparative analysis of the short- and long-term performance of the Fund to similar funds. The Board reviewed information in the Report regarding the performance of the Fund as compared to other funds in its peer group and its fund category for periods ended March 31, 2010 and considered the rankings given the Fund in the Report. They noted that the Fund was ranked in the first quartile for both its peer group and category for the one-, three-, and five year periods (21, 20 and 19 funds, respectively), although it was ranked in the bottom quartile for both its peer group and fund category (12 funds) for the ten-year

TCW Strategic Income Fund, Inc.

Approval of Advisory and Management Agreement (Continued)

period. They concluded that the Advisor should continue to provide acceptable investment management services to the Fund consistent with its objectives and strategy.

Advisory Fees, Expenses and Profitability. The Board considered information in the Report and in materials prepared by the Advisor regarding the advisory fees charged to the Fund and advisory fees paid by other funds in the Fund's Morningstar category. The Board noted that the advisory fee charged by the Advisor is below the median of advisory fees charged by other investment advisors to similar funds. In addition, the Board noted that the Advisor does not manage any separate accounts with a strategy substantially similar to the current strategy of the Fund.

The Board also considered information in the Report regarding the Fund's total expenses in 2009, and noted that the total expenses of the Fund (excluding interest expense) were at the median for its peer group and category. They also considered the cost of services to be provided and profits to be realized by the Advisor and its affiliates from their relationship with the Fund, recognizing the difficulty in evaluating a manager's profitability with respect to the funds it manages in the context of a manager with multiple lines of business and noting that other profitability methodologies may also be reasonable. The Board concluded that the contractual management fee of the Fund under the Advisory Agreement is fair and bears a reasonable relationship to the services rendered.

Economies of Scale. The Board considered the potential of the Advisor to experience economies of scale as the Fund grows in size. They noted that, as a closed-end fund, there is limited potential for the Fund to experience significant asset growth other than through capital appreciation and income production. The Board noted the Advisory Agreement has a fee breakpoint and that the overall fee charged to the Fund is reasonable and concluded that the current fee structure reflected in the Advisory Agreement is appropriate.

Ancillary Benefits. The Board considered ancillary benefits to be received by the Advisor and its affiliates as a result of the relationship of the Advisor with the Fund, including compensation for certain compliance support services. They noted that, in addition to the fees the Advisor receives under the Advisory Agreement, the Advisor could receive additional benefits in connection with management of the Fund in the form of reports, research and other services obtainable from brokers and their affiliates in return for brokerage commissions paid to such brokers. The Board concluded that any potential benefits to be derived by the Advisor from its relationship with the Fund are consistent with the services provided by the Advisor to the Fund.

After consideration of the factors described above and other matters, the Board approved the renewal of the Advisory Agreement for an additional one year period.

- Item 2. Code of Ethics.** Not applicable.
- Item 3. Audit Committee Financial Expert.** Not applicable.
- Item 4. Principal Accountant Fees and Services.** Not applicable.
