Item 2.02 Results of Operations.

On October 28, 2010, The Blackstone Group L.P. issued a press release announcing financial results for its third quarter ended September 30, 2010.

A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

Non-GAAP Financial Information

Blackstone discloses the following financial measures that are calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles in the United States of America (non-GAAP) in the attached press release:

Blackstone uses Economic Net Income, or ENI , as a key measure of value creation and as a benchmark of its performance. ENI represents segment net income excluding the impact of income taxes and initial public offering (IPO) and acquisition-related items, including charges associated with equity-based compensation, the amortization of intangibles and corporate actions including acquisitions. For segment reporting purposes, revenues and expenses are presented on a basis that deconsolidates the investment funds we manage.

Total Segment ENI equals the aggregate of ENI for all segments. ENI is used by management primarily in making resource deployment and compensation decisions across Blackstone 's four segments.

Economic Net Income After Taxes represents ENI adjusted to reflect the implied provision (benefit) for income taxes calculated using a similar methodology as applied in calculating the tax provision (benefit) for The Blackstone Group L.P. but consistent with the ENI concepts as noted above.

Blackstone uses Net Fee Related Earnings from Operations as a key measure to highlight earnings from operations excluding: (a) the income related to performance fees and allocations and related carry plan costs, (b) income earned from Blackstone 's investments in the Blackstone Funds, and (c) realized and unrealized gains (losses) from other investments except for such gains (losses) from Blackstone 's Treasury cash management strategies. Management uses Net Fee Related Earnings from Operations as a measure to assess whether recurring revenue from our businesses is sufficient to adequately cover all of our operating expenses and generate profits. Net Fee Related Earnings from Operations equals contractual fee revenues, investment income from Blackstone 's Treasury cash management strategies and interest income, less (a) compensation expenses (which includes amortization of non-IPO and non-acquisition-related equity-based awards, but excludes amortization of IPO and acquisition-related equity-based awards, carried interest and incentive fee compensation), (b) other operating expenses and (c) cash taxes due on earnings from operations as calculated using a similar methodology as applied in calculating the current tax provision (benefit) for The Blackstone Group L.P.

Blackstone uses Earnings Before Interest, Taxes and Depreciation and Amortization from Net Fee Related Earnings from Operations (EBITDA-NFRE) as a measure of segment performance and an indicator of our ability to cover our recurring operating expenses. EBITDA-NFRE equals Net Fee Related Earnings from Operations before segment interest expense, segment depreciation and amortization and the cash taxes included in Net Fee Related Earnings from Operations.

Distributable Earnings, which is derived from our segment reported results, is a supplemental measure to assess performance and amounts available for distributions to Blackstone unitholders, including Blackstone personnel and others who are limited partners of the Blackstone Holdings partnerships. Distributable Earnings, which is a non-GAAP measure, is intended to show the amount of net realized earnings without the effects of the consolidation of the Blackstone Funds.

Distributable Earnings, which is a component of Economic Net Income, is the sum across all segments of: (a) Total Management and Advisory Fees, (b) Interest and Dividend Revenue, (c) Other Revenue,

(d) Realized Performance Fees and Allocations, and (e) Realized Investment Income (Loss); less (a) Base Compensation, (b) Realized Performance Fee Related Compensation, (c) Other Operating Expenses and (d) Cash Taxes and Payables Under the Tax Receivable Agreement. Distributable Earnings is reconciled to Blackstone's Consolidated Statement of Operations. It is Blackstone's current intention that on an annual basis it will distribute to unitholders all of its Distributable Earnings in excess of amounts determined by its general partner to be necessary or appropriate to provide for the conduct of its business, to make appropriate investments in its business and funds, to comply with applicable law, any of its debt instruments or other agreements, or to provide for future distributions to its unitholders for any ensuing quarter.

Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are included in the attached press release. These non-GAAP financial measures should be considered in addition to and not as a substitute for, or superior to, financial measures presented in accordance with GAAP.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

Exhibit No.	Description
Exhibit 99.1	Press release of The Blackstone Group L.P. dated October 28, 2010.

SIGNATURE
