Our customers include many of the world's largest banks, broker-dealers, investment banks, trading firms, hedge funds, governments and investment firms.

We have offices in over 35 major markets, including New York and London, as well as in Atlanta, Beijing, Boston, Chicago, Copenhagen, Dubai, Hong Kong, Houston, Istanbul, Johannesburg, Los Angeles, Mexico City, Miami, Moscow, Nyon, Paris, Rio de Janeiro, São Paulo, Seoul, Singapore, Sydney, Tokyo, Toronto, Washington, D.C. and Zurich.

In 2011, we processed approximately 27.3 million transactions, totaling almost \$194.1 trillion notional on our hybrid and fully electronic platforms.

Our Organizational Structure

On April 1, 2008, BGC Partners OldCo and eSpeed merged to form BGC Partners. Immediately prior to the merger, pursuant to a separation agreement, Cantor transferred certain assets and liabilities to BGC Partners OldCo and/or its subsidiaries.

We are a holding company, and our businesses are operated through two operating partnerships: BGC U.S., which holds our U.S. businesses, and BGC Global, which holds our non-U.S. businesses. In connection with the separation, Maxcor Financial Group Inc. was contributed to BGC Partners OldCo in exchange for BGC Partners OldCo units that became shares of our common stock in the merger, and certain businesses were contributed to the OpCos in exchange for limited partnership interests of the OpCos. In connection with the merger, eSpeed contributed certain businesses to the OpCos in exchange for limited partnership interests of the OpCos.

The limited partnership interests of the OpCos are held by us and BGC Holdings, and the limited partnership interests of BGC Holdings are currently held by Cantor, the founding/working partners and holders of limited partnership units. We hold the BGC Holdings general partnership interest and the BGC Holdings special voting

limited partnership interest, which entitle us to remove and appoint the general partner of BGC Holdings, and serve as the general partner of BGC Holdings, which entitles us to control BGC Holdings. BGC Holdings, in turn, holds the BGC U.S. general partnership interest and the BGC U.S. special voting limited partnership interest, which entitle the holder thereof to remove and appoint the general partner of BGC U.S., and the BGC Global general partnership interest and the BGC Global special voting limited partnership interest, which entitle the holder thereof to remove and appoint the general partner of BGC Global, and serves as the general partner of BGC U.S. and BGC Global, all of which entitle BGC Holdings (and thereby us) to control each of BGC U.S. and BGC Global. BGC Holdings holds its BGC Global general partnership interest through a company incorporated in the Cayman Islands, BGC Global Holdings GP Limited.

The following diagram illustrates our ownership structure as of February 21, 2012. The following diagram does not reflect the various subsidiaries of us, BGC U.S., BGC Global, BGC Holdings or Cantor, or, to the extent applicable, outstanding RSUs.

* Shares of our Class B common stock are convertible into shares of our Class A common stock at any time in the discretion of the holder on a one-for-one basis. Accordingly, if Cantor converted all of its Class B common stock into Class A common stock, Cantor would hold 29.0% of the voting power, and the public stockholders would hold 71.0% of the voting power (and the indirect economic interests in BGC U.S. and BGC Global would remain unchanged). The diagram reflects (i) 750,000 shares of Class A common stock that we donated to The Cantor Fitzgerald Relief Fund on February 3, 2012, (ii) 1,292,678 shares of Class A common stock that Cantor distributed to its partners on February 14, 2012 in payment of previous quarterly partnership distributions, of which 1,248,665 shares are included in this prospectus supplement (but excluding 1,928,103 deferred distribution shares that remain to be distributed by Cantor to such partners) and (iii) an aggregate of 721,679 distribution rights shares that Cantor has distributed since September 2011, including 498,960 shares of Class A common stock that Cantor distributed on February 14, 2012, to certain current and former partners of Cantor pursuant to distribution rights that were granted by Cantor to such partners on April 1, 2008, which shares are included in this prospectus supplement (but excluding 15,545,606 distribution rights shares that remain to be distributed by Cantor to such partners). The diagram does not reflect Cantor's economic interest in the 8.75% convertible notes or the 22,508,095 shares of Class A common stock acquirable by Cantor upon conversion thereof. If Cantor converted all of the 8.75% convertible notes into shares of Class A common stock, Cantor would hold 79.5% of the voting power, and the public stockholders would hold 20.5% of the voting power (and Cantor's indirect economic interests in each of BGC U.S. and BGC Global would be 39.2%). Further, the diagram does not reflect (i) 10,000,000 shares of Class A common stock that may be sold under the February 2012 sales agreement, pursuant to our shelf Registration Statement on Form S-3 (333-176523), (ii) 2,052,690 shares of Class A common stock remaining to be sold under the September 2011 sales agreement, pursuant to our shelf Registration Statement on Form S-3 (333-176523), (iii) 9,972,201 shares of Class A common stock that remain available to be sold pursuant to the BGC Partners, Inc. Dividend Reinvestment and Stock Purchase Plan under our shelf Registration Statement on Form S-3 (Registration No. 333-173109), (iv) 19,661,274 shares of Class A common stock that may be sold under our acquisition shelf Registration Statement on Form S-4 (Registration No. 333-169232), or (v) 16,260,160 shares of Class A common stock that may be issued upon conversion of the 4.50% convertible notes. For purposes of the diagram and this paragraph, Cantor's percentage ownership also includes CFGM's percentage ownership.

DIVIDEND POLICY

Our board of directors has authorized a dividend policy which provides that we expect to pay not less than 75% of our post-tax distributable earnings per fully diluted share as cash dividends to our common stockholders, with the balance of such distributable earnings to be available to repurchase shares of our Class A common stock or purchase BGC Holdings limited partnership interests or other equity interests of our subsidiaries, including from Cantor, our executive officers, other employees, partners and others. Please see below for a detailed definition of post-tax distributable earnings per fully diluted share.

Our board of directors and our audit committee have authorized repurchases of shares of our Class A common stock and purchases of BGC Holdings limited partnership interests or other equity interests of our subsidiaries as part of this policy, including those held by Cantor, our executive officers, other employees, partners and others. On October 26, 2011, the authorization was increased to \$100.0 million. As of February 21, 2012, we had approximately \$72.1 million remaining under this authorization and may continue to actively make repurchases or purchases, or cease to make such repurchases or purchases, from time to time.

We expect to pay such dividends, if and when declared by our board of directors, on a quarterly basis. The dividend to our common stockholders is expected to be calculated based on post-tax distributable earnings allocated to BGC Partners, Inc. and generated over the fiscal quarter ending prior to the record date for the dividend. No assurance can be made, however, that a dividend will be paid each quarter.

The declaration, payment, timing and amount of any future dividends payable by us will be at the sole discretion of our board of directors. We are a holding company, with no direct operations, and therefore we are able to pay dividends only from our available cash on hand and funds received from distributions from BGC U.S. and BGC Global. Our ability to pay dividends may also be limited by regulatory considerations as well as by covenants contained in financing or other agreements. In addition, under Delaware law, dividends may be payable only out of surplus, which is our net assets minus our liabilities and our capital, or, if we have no surplus, out of our net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. Accordingly, any unanticipated accounting, tax, regulatory or other charges against net income may adversely affect our ability to declare dividends. While we intend to declare and pay dividends quarterly, there can be no assurance that our board of directors will declare dividends at all or on a regular basis or that the amount of our dividends will not change.

Certain Definitions

Revenues for distributable earnings, pre-tax distributable earnings and post-tax distributable earnings are supplemental measures of operating performance that are used by our management to evaluate the financial performance of us and our subsidiaries. We believe that distributable earnings best reflects the operating earnings generated by us on a consolidated basis and are the earnings which management considers available for distribution to BGC Partners and its common stockholders, as well as to holders of BGC Holdings limited partnership interests, during any period.

As compared with income (loss) from operations before income taxes, net income (loss) for fully diluted shares, and fully diluted earnings (loss) per share, all prepared in accordance with GAAP, distributable earnings calculations primarily exclude certain non-cash compensation and other expenses which generally do not involve the receipt or outlay of cash by us, which do not dilute existing stockholders, and which do not have economic consequences, as described below. In addition, distributable earnings calculations exclude certain gains and charges that management believes do not best reflect our ordinary operating results.

Revenues for distributable earnings are defined as GAAP revenues excluding the impact of our non-cash earnings or losses related to our equity investments, such as in Aqua Securities, L.P. and ELX Futures, L.P., and its holding company general partner, ELX Futures Holdings LLC. Revenues for distributable earnings will also include the collection of receivables which would have been recognized for GAAP other than for the effect of acquisition accounting.

Table of Contents

Pre-tax distributable earnings are defined as GAAP income (loss) from operations before income taxes excluding items that are primarily non-cash, non-dilutive, and non-economic, such as:

Non-cash stock-based equity compensation charges for REUs granted or issued prior to the merger of BGC Partners OldCo with and into eSpeed, as well as post-merger non-cash, non-dilutive equity-based compensation related to partnership unit exchange or conversion;

Allocations of net income to founding/working partner and other limited partnership units, including REUs, RPUs, PSUs and PSIs; and

Non-cash asset impairment charges, if any.

Distributable earnings calculations also exclude charges related to purchases, cancellations or redemptions of limited partnership interests and certain one-time or non-recurring items, if any.

Compensation and employee benefits expense for distributable earnings will also include broker commission payouts relating to the aforementioned collection of receivables.

Beginning with the first quarter of 2011, our definition of distributable earnings has been revised to also exclude certain gains and charges with respect to acquisitions, dispositions and resolutions of litigation. This change in the definition of distributable earnings is not reflected in, nor does it affect, our presentation of prior periods. Our management believes that excluding these gains and charges best reflects our operating performance.

Since distributable earnings are calculated on a pre-tax basis, management intends to also report post-tax distributable earnings and post-tax distributable earnings per fully diluted share :

Post-tax distributable earnings are defined as pre-tax distributable earnings adjusted to assume that all pre-tax distributable earnings were taxed at the same effective rate.

Post-tax distributable earnings per fully diluted share are defined as post-tax distributable earnings divided by the weighted-average number of fully diluted shares for the period.

Our distributable earnings per fully diluted share calculations assume either that:

The fully diluted share count includes the shares related to the dilutive instruments, such as the convertible notes, but excludes the associated interest expense, net of tax, when the impact would be dilutive, or

The fully diluted share count excludes the shares related to the dilutive instruments, but includes the associated interest expense, net of tax.

Each quarter, the dividend to common stockholders is expected to be determined by our board of directors with reference to post-tax distributable earnings per fully diluted share. In addition to the quarterly dividend to our common stockholders, we expect to pay a pro rata distribution of net income to BGC Holdings founding/working partner and other limited partnership units, including REUs, RPUs, PSUs and PSIs, and to Cantor for its noncontrolling interest. The amount of all of these payments is expected to be determined using the above definition of pre-tax distributable earnings per share.

Edgar Filing: BGC Partners, Inc. - Form 424B7

Certain employees who are holders of RSUs are granted pro rata payments equivalent to the amount of dividends paid to common stockholders. Under GAAP, a portion of the dividend equivalents on RSUs is required to be taken as a compensation charge in the period paid. However, to the extent that they represent cash payments made from the prior period's distributable earnings, they do not dilute existing stockholders and are therefore excluded from the calculation of distributable earnings.

Distributable earnings is not meant to be an exact measure of cash generated by operations and available for distribution, nor should it be considered in isolation or as an alternative to cash flows from operations or GAAP net income (loss). We view distributable earnings as a metric that is not necessarily indicative of liquidity or the cash available to fund our operations.

Pre- and post-tax distributable earnings are not intended to replace the presentation of our GAAP financial results. However, management believes that they help provide investors with a clearer understanding of our financial performance and offer useful information to both management and investors regarding certain financial and business trends related to our financial condition and results of operations. Management believes that distributable earnings and the GAAP measures of our financial performance should be considered together.
