Item 2.05 Costs Associated with Exit or Disposal Activities.

On February 24, 2012, the Board of Directors (the Board) of Harris Corporation (the Company or Harris) approved a plan to exit the Company's cyber integrated solutions operation that provided remote cloud hosting and to dispose of the related assets, including the cyber integration center facility in Harrisonburg, Virginia and remote cloud hosting equipment. The Company has concluded that although it believes demand will continue for cyber security and cloud-enabled solutions, its government and commercial customers currently continue to prefer hosting mission-critical information on their own premises rather than remotely. The approved exit plan affects only the Company's cyber integrated solutions operation that provided remote cloud hosting and does not affect the Company's other cyber capabilities, such as advanced cyber security and cloud-enabled software applications and solutions as a service, which the Company will continue to provide.

In connection with the approved plan to exit the cyber integrated solutions operation, the Company expects to incur total estimated pre-tax charges of \$113 million to \$129 million (\$70 million to \$80 million after-tax or \$0.61 to \$0.70 per diluted share), almost all of which are expected to be reflected in the Company's results for the third quarter of fiscal 2012. These estimated pre-tax charges are expected to be comprised of approximately \$109 million to \$125 million in impairment of long-lived assets; \$1 million in one-time employee termination costs, including severance and other benefits; and \$3 million in other associated exit or disposal costs. The Company expects that approximately \$4 million of these estimated pre-tax charges will result in future cash expenditures. The Company expects to complete these exit and disposal activities by the end of its fiscal 2012.

The cyber integrated solutions operation that provided remote cloud hosting was part of the Company's Integrated Network Solutions business segment and now will be reflected as being discontinued and the related assets as held for sale. The amounts of the charges and costs noted above are estimates, and actual charges and costs may vary based upon various factors, including factors relating to the proceeds from the sale of the cyber integration center facility and remote cloud hosting equipment, changes in management's assumptions and other factors.

On February 27, 2012, the Company issued a press release announcing the plan to exit its cyber integrated solutions operation that provided remote cloud hosting. The full text of that press release is filed herewith as Exhibit 99.1 and is incorporated herein by reference.
