Wells Fargo Advantage Funds

The U.S. economic recovery that began in mid-2009 gained some traction during the six-month period, after slowing during the summer months yet the rate of growth remained subpar compared with most previous recovery cycles.

Dear Valued Shareholder:

We're pleased to offer you this semi-annual report for the *Wells Fargo Advantage Utilities and High Income Fund* for the six-month period that ended February 29, 2012.

For the entire six-month period, most of the major equity and fixed-income indexes posted solid returns; however, the market's six-month return figures masked the uneven path that the financial markets traced since the summer, as investors had to contend with a variety of global and domestic headwinds.

The S&P 500 Index¹ and the Russell 3000[®] Index² posted returns of 13.31% and 13.24%, respectively, for the period, while the Barclays U.S. Aggregate Bond Index³, representing the universe of investment-grade bonds, posted a total return of 2.73%. By comparison, the Barclays U.S. Corporate High Yield Bond Index⁴ added 8.63%, and the Barclays U.S. Treasury Index⁵ returned 2.35%.

The economic recovery gained traction as the year progressed.

The U.S. economic recovery that began in mid-2009 gained some traction during the six-month period, after slowing during the summer months yet the rate of growth remained subpar compared with most previous recovery cycles.

The U.S. Bureau of Economic Analysis reported that U.S. gross domestic product (GDP) grew 1.8% in the third quarter, reigniting hopes that the U.S. economy may have reached a sustainable economic recovery. Those hopes were buoyed further by the preliminary estimate of fourth-quarter GDP, which showed that growth accelerated to a 2.8% annual rate. While few economists now believe that the U.S. economy is in danger of sliding back into recession, many continue to expect a tepid economic growth environment in 2012.

The struggling housing and labor markets slowed growth.

As has been the case throughout the recovery, the housing and labor markets continued to restrain economic momentum during the six-month period.

The beleaguered housing market has exerted the biggest drag on growth. Despite intermittent signs of improvement, ongoing weakness in sales of both new and existing homes has put downward pressure on prices. On the other hand, the labor market took a decided turn for the better

Edgar Filing: WELLS FARGO ADVANTAGE UTILITIES & HIGH INCOME FUND - Form N-CSRS

during the six-month period as evidenced by the fact that initial unemployment claims have eased in recent months, and the private sector has been steadily adding jobs. The pace of hiring, while not brisk, was sufficient to push the U.S. unemployment rate down to 8.3% as of February 2012 its lowest level since February 2009. Many observers expect the unemployment rate to decline further in 2012, which could act as a tailwind for consumer spending widely viewed as one of the keys to long-term economic growth.

1. The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

2. The Russell 3000[®] Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the investable U.S. equity market. You cannot invest directly in an index.

3. The Barclays U.S. Aggregate Bond Index is composed of the Barclays Government/Credit Index and the Mortgage-Backed Securities Index and includes U.S. Treasury issues, agency issues, corporate bond issues, and mortgage-backed securities. You cannot invest directly in an index.

4. The Barclays U.S. Corporate High Yield Bond Index is an unmanaged, U.S. dollar denominated, nonconvertible, non-investment grade debt index. The index consists of domestic and corporate bonds rated Ba and below with a minimum outstanding amount of \$150 million. You cannot invest directly in an index.

5. The Barclays U.S. Treasury Index is an index of U.S. Treasury securities. You cannot invest directly in an index.

Letter to Shareholders

Wells Fargo Advantage Utilities and High Income Fund 3

The Federal Reserve announced Operation Twist.

Oil prices retreated early in the period, only to spike again during the fourth quarter of 2011. Yet, core inflation, which excludes volatile energy and food prices, remained fairly benign throughout the year.

With inflation in check, the Federal Reserve (Fed) held its target range for the federal funds rate a proxy for short-term interest rates steady at 0% to 0.25%. Despite improvements across an array of economic data, the pace of economic growth remained a focus for the Fed. In September 2011, the Fed launched yet another stimulus program dubbed Operation Twist designed to keep intermediate- and longer-term yields relatively low. By keeping longer-term yields low, lending activity may potentially spark business investments and home purchases, which, in turn, may provide support for a more sustainable economic recovery.

Economic outlook shifts and European uncertainty swayed investors.

Throughout the second half of 2011, the equity and bond markets were roiled by changes to the global economic outlook and the ongoing fiscal challenges facing many countries in the eurozone. After U.S. economic activity slowed during the summer, many market participants began to fear that the U.S. economy could slip into a double-dip recession. However, in the fall, many of the most closely watched indicators such as GDP growth and the unemployment rate improved, and the talk of recession ceased. Equities and high-yield bonds rallied strongly during the fourth quarter of 2011 and into 2012 as both the U.S. economy and Europe seemed to regain their footing. Low risk assets such as Treasuries rallied when the eurozone credit crisis appeared to be expanding early in the reporting period, and the European markets continued to struggle with managing the risk of contagion from countries such as Greece that were teetering on the brink of financial collapse.

Recent events have not altered our message to shareholders.

The market turmoil of 2011 and an uncertain outlook going forward have left many investors questioning their resolve and their investments. Yet, it is precisely at such times that the market may present opportunities as well as challenges for prudent investors. Bear in mind that many investors who indiscriminately sold their equity investments during the severe market downturn of 2008 to 2009 missed out on the impressive two-year rally that followed. The lesson to be learned from these dramatic market events is that, for many investors, simply building and maintaining a well-diversified⁶ investment plan is the best long-term strategy.

Throughout the second half of 2011, the equity and bond markets were roiled by changes to the global economic outlook and the ongoing fiscal challenges facing many countries in the eurozone.

6. Diversification does not assure or guarantee better performance and cannot eliminate the risk of investment losses.

Non-income earning security.

144A

Edgar Filing: WELLS FARGO ADVANTAGE UTILITIES & HIGH INCOME FUND - Form N-CSRS

Security that may be resold to qualified institutional buyers under Rule 144A or security offered pursuant to Section 4(2) of the Securities Act of 1933, as amended.

(i) Illiquid security.

± Variable rate investment.

¥ A payment-in-kind (PIK) security is a security in which the issuer may make interest or dividend payments in cash or additional securities. These additional securities generally have the same terms as the original holdings.

< All or a portion of the position represents an unfunded loan commitment.

(s) Security is currently in default with regards to scheduled interest and/or principal payments. The Fund has stopped accruing interest on this security.

(l) Investment in an affiliate.

(u) Rate shown is the 7-day annualized yield at period end.

* Cost for federal income tax purposes is \$121,614,698 and net unrealized appreciation (depreciation) consists of:

| | |
|-------------------------------|---------------|
| Gross unrealized appreciation | \$ 15,887,227 |
| Gross unrealized depreciation | (8,837,163) |
| Net unrealized appreciation | \$ 7,050,064 |

2.

Edgar Filing: WELLS FARGO ADVANTAGE UTILITIES & HIGH INCOME FUND - Form N-CSRS

Total return is calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges.

3. The net investment income ratio reflects distributions paid to preferred shareholders.

The accompanying notes are an integral part of these financial statements.

Notes to Financial Statements (Unaudited)

Wells Fargo Advantage Utilities and High Income Fund 23

1. ORGANIZATION

Wells Fargo Advantage Utilities and High Income Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on February 4, 2004 and is registered as a non-diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income and moderate capital growth, with an emphasis on providing tax advantaged dividend income.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

Investments in equity securities are valued each business day as of the close of regular trading on the New York Stock Exchange, which is usually 4:00 p.m. (Eastern Time). Securities which are traded on a national or foreign securities exchange are valued at the last reported sales price, except that securities listed on The Nasdaq Stock Market, Inc. (Nasdaq) are valued at the Nasdaq Official Closing Price (NOCP), and if no NOCP is available, then at the last reported sales price. If no sales price is shown on the Nasdaq, the bid price will be used. In the absence of any sale of securities listed on the Nasdaq, and in the case of other securities (including U.S. Government obligations, but excluding debt securities maturing in 60 days or less), the price will be deemed stale and the valuations will be determined in accordance with the Fund's Fair Value Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the closing rates of exchange in effect on the day of valuation.

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign investments are traded but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of the investments, then those investments are fair valued following procedures approved by the Board of Trustees. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the closing price or latest quoted bid price.

Fixed income securities with original maturities exceeding 60 days are valued based on available evaluated prices received from an independent pricing service approved by the Board of Trustees which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics and other market data. If valuations are not available from the pricing service or values received are deemed not representative of market value, values will be obtained from a third party broker-dealer or determined based on the Fund's Fair Value Procedures.

Debt securities of sufficient credit quality with original maturities of 60 days or less generally are valued at amortized cost which approximates fair value. The amortized cost method involves valuing a security at its cost, plus accretion of discount or minus amortization of premium over the period until maturity.

Investments in open-end mutual funds and non-registered investment companies are generally valued at net asset value.

Investments which are not valued using any of the methods discussed above, are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. Assets, including investment securities, and liabilities denominated in foreign currency are translated into U.S. dollars at the prevailing rates of exchange at the date of valuation. Purchases and sales of securities, and income

and expenses are translated at the prevailing rate of exchange on the respective dates of such transactions. Reported net realized foreign exchange gains or losses arise from sales of foreign

Table of Contents

24 Wells Fargo Advantage Utilities and High Income Fund

Notes to Financial Statements (Unaudited)

currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting in changes in exchange rates.

The changes in net assets arising from changes in exchange rates and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are recorded with net realized and unrealized gains or losses from investments. Gains and losses from certain foreign currency transactions are treated as ordinary income for U.S. federal income tax purposes.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets to cover its obligation by confirming the availability of qualifying assets having a value sufficient to make payment for the securities purchased. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Term loans

The Fund may invest in term loans. The loans are marked-to-market daily and the Fund begins earning interest when the loans are funded. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. The Fund assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower.

Options

The Fund may be subject to equity price risk in the normal course of pursuing its investment objectives. The Fund may write covered put or call options. When the Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are reported on the basis of identified cost of securities delivered.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily based on the effective interest method. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Table of Contents

Notes to Financial Statements (Unaudited)

Wells Fargo Advantage Utilities and High Income Fund 25

Dividend income is recognized on the ex-dividend date.

Distributions to shareholders

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

Under the recently enacted *Regulated Investment Company Modernization Act of 2010*, the Fund is permitted to carry forward capital losses incurred in taxable years which began after December 22, 2010 for an unlimited period. However, any losses incurred are required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities.

As of August 31, 2011, Fund had net capital loss carryforwards, which were available to offset future net realized capital gains, in the amount of \$47,984,272 with \$20,548,693 expiring in 2017 and \$27,435,579 expiring in 2018.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to significant unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

n Level 1 quoted prices in active markets for identical securities

n Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

n Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Table of Contents

26 Wells Fargo Advantage Utilities and High Income Fund

Notes to Financial Statements (Unaudited)

As of February 29, 2012, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

| Investments in Securities | Quoted Prices (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |
|---|----------------------------|--|---|-----------------------|
| Equity securities | | | | |
| Common stocks | \$ 79,738,539* | \$ 0* | \$ 0 | \$ 79,738,539 |
| Preferred stocks | 7,920,156 | 0 | 0 | 7,920,156 |
| Corporate bonds and notes | | 32,994,300 | 451,585 | 33,445,885 |
| Term loans | 0 | 3,465,083 | 148,502 | 3,613,585 |
| Warrants | 0 | 250 | 0 | 250 |
| Yankee corporate bonds and notes | 0 | 1,007,656 | 0 | 1,007,656 |
| Short-term investments | | | | |
| Investment companies | 2,938,691 | 0 | 0 | 2,938,691 |
| | \$ 90,597,386 | \$ 37,467,289 | \$ 600,087 | \$ 128,664,762 |

*Transfers in and transfers out are recognized at the end of the reporting period. At the end of the period, foreign securities valued in the amount of \$13,002,657 in common stocks were transferred out of Level 2 and into Level 1 since adjustments to prices of foreign securities due to movements against a specified benchmark were not necessary at February 29, 2012.

Further details on the major security types listed above can be found in the Portfolio of Investments.

As of February 29, 2012, the inputs used in valuing the Fund's other financial instruments, which are carried at fair value, were as follows:

| Other financial instruments | Quoted Prices (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |
|-----------------------------|----------------------------|--|---|-------------|
| Written options | \$ 0 | \$ (11,704) | \$ 0 | \$ (11,704) |

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

| | Corporate bonds and notes | Term loans | Total |
|---|---------------------------------|---------------|--------------|
| Balance as of August 31, 2011 | \$ 584,450 | \$ 1,414,710 | \$ 1,999,160 |
| Accrued discounts (premiums) | 107 | 6,223 | 6,330 |
| Realized gains (losses) | 0 | 4,449 | 4,449 |
| Change in unrealized gains (losses) | (31,893) | 32,765 | 872 |
| Purchases | 0 | 49,000 | 49,000 |
| Sales | 0 | (209,488) | (209,488) |
| Transfers into Level 3 | 0 | 0 | 0 |
| Transfers out of Level 3 | (101,079) | (1,149,157) | (1,250,236) |
| Balance as of February 29, 2012 | \$ 451,585 | \$ 148,502 | \$ 600,087 |
| Change in unrealized gains (losses) relating to securities still held at February 29, 2012 | \$ (26,413) | \$ 5,423 | \$ (20,990) |

Transfers out of Level 3 into Level 2 are due to the availability of significant observable inputs which are currently used in the determination of the fair value of the securities.

4. TRANSACTIONS WITH AFFILIATES AND OTHER EXPENSES

Advisory fee

Wells Fargo Funds Management, LLC (Funds Management), an indirect wholly owned subsidiary of Wells Fargo & Company (Wells Fargo), is the investment adviser to the Fund and is entitled to receive a fee at an annual rate of 0.60% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets.

Table of Contents

Notes to Financial Statements (Unaudited) Wells Fargo Advantage Utilities and High Income Fund 27

Funds Management has retained the services of certain investment sub-advisers to provide daily portfolio management to the Fund. The fees related to investment sub-advisory services are borne directly by Funds Management and do not increase the overall fees paid by the Fund. Wells Capital Management Incorporated, an affiliate of Funds Management, and Crow Point Partners, LLC are each investment sub-advisers to the Fund and are each entitled to receive a fee from Funds Management at an annual rate of 0.20% of the Fund's average daily total assets.

Administration fee

Funds Management also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. Funds Management is entitled to receive an annual fee of 0.05% of the Fund's average daily total assets.

5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of common shares with no par value. For the six months ended February 29, 2012 and the year ended August 31, 2011, the Fund issued 3,155 and 13,611 common shares, respectively.

6. BORROWINGS

The Fund has borrowed \$22 million through a secured debt financing agreement administered by a major financial institution (the Facility). The Facility has a commitment amount of \$25 million which expires on February 25, 2013, at which point it may be renegotiated and potentially renewed for another term. At February 29, 2012, the Fund had secured borrowings outstanding in the amount of \$22,003,407 (including accrued interest and liquidity and program fees payable).

The Fund's borrowings under the Facility are generally charged interest at a rate determined by the type of loan elected by the Fund. During six months ended February 29, 2012, an effective interest rate of 1.25% was incurred on the borrowings. Interest expense of \$139,365, representing 0.26% of the Fund's average daily net assets was incurred during the six months ended February 29, 2012.

The Fund has pledged its assets to secure the borrowings and pays a commitment fee at an annual rate equal to 0.15% of average daily unutilized amounts of the \$25 million commitment amount. Prior to February 27, 2012, the Fund paid a commitment fee at an annual rate equal to (a) 0.20% as of any date upon which the loan balance exceeded 50% of the facility amount and (b) 0.30% as of any other date when the loan balance was less than 50% of the facility amount. The secured borrowing fees on the Statement of Operations represents structuring fees and commitment fees. Of this amount, \$5,132 represents structuring fees.

7. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. Government obligations (if any) and short-term securities (securities with maturities of one year or less at purchase date), for the six months ended February 29, 2012 were \$25,038,959 and \$20,106,927, respectively.

8. DERIVATIVE TRANSACTIONS

During the six months ended February 29, 2012, the Fund entered into written options for economic hedging purposes.

During the six months ended February 29, 2012, the Fund had written call option activities as follows:

| | Number of Contracts | Premiums Received |
|--|------------------------|----------------------|
| Options outstanding at August 31, 2011 | 0 | \$ 0 |
| Options written | 396 | 10,939 |
| Options expired | (320) | (7,844) |
| Options closed | 0 | 0 |
| Options exercised | 0 | 0 |

| | | |
|---|-----------|-----------------|
| Options outstanding at February 29, 2012 | 76 | \$ 3,095 |
|---|-----------|-----------------|

The Fund had outstanding written options with total premiums received that averaged \$1,474 during the six months ended February 29, 2012.

Table of Contents

28 Wells Fargo Advantage Utilities and High Income Fund

Notes to Financial Statements (Unaudited)

Open written call options at February 29, 2012 were as follows for the Fund:

| Expiration Date | Issuer Name | Number of Contracts | Strike Price | Value |
|-----------------|-----------------------------|---------------------|--------------|-------------|
| March 2012 | Comcast Corporation Class A | 76 | \$ 28.00 | \$ (11,704) |

The fair value, realized gains or losses and change in unrealized gains or losses, if any, on derivative instruments are reflected in the appropriate financial statements.

9. CONCENTRATION RISK

The Fund invests a substantial portion of its assets in the utilities industry and, therefore, may be more affected by changes in that industry than would be a comparable mutual fund whose investments are not heavily weighted in any industry.

10. INDEMNIFICATION

Under the Fund's organizational documents, the officers and directors are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

11. NEW ACCOUNTING PRONOUNCEMENTS

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* . ASU No. 2011-04 amends FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP. The ASU is effective prospectively for interim and annual periods beginning after December 15, 2011. Management expects that adoption of the ASU will result in additional disclosures in the financial statements, as applicable.

In April 2011, FASB issued ASU No. 2011-03 *Reconsideration of Effective Control for Repurchase Agreements* . ASU No. 2011-03 amends FASB ASC Topic 860, *Transfers and Servicing*, specifically the criteria required to determine whether a repurchase agreement (repo) and similar agreements should be accounted for as sales of financial assets or secured borrowings with commitments. ASU No. 2011-03 changes the assessment of effective control by focusing on the transferor's contractual rights and obligations and removing the criterion to assess its ability to exercise those rights or honor those obligations. This could result in changes to the way entities account for certain transactions including repurchase agreements, mortgage dollar rolls and reverse repurchase agreements. The ASU will become effective on a prospective basis for new transfers and modifications to existing transactions as of the beginning of the first interim or annual period beginning on or after December 15, 2011. Management has evaluated the impact of adopting the ASU and expects no significant changes.

12. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

| Declaration Date | Record Date | Payable Date | Net Investment Income |
|------------------|----------------|---------------|-----------------------|
| February 9, 2012 | March 14, 2012 | April 2, 2012 | \$ 0.075 |
| March 16, 2012 | April 16, 2012 | May 1, 2012 | \$ 0.075 |
| April 20, 2012 | May 15, 2012 | June 1, 2012 | \$ 0.075 |

These distributions are not reflected in the accompanying financial statements.

BOARD OF TRUSTEES

The following table provides basic information about the Board of Trustees (the "Trustees") and Officers of the Fund. Each of the Trustees and Officers listed below acts in identical capacities for the Wells Fargo Advantage family of funds, which consists of 137 funds comprising the Wells Fargo Funds Trust, Wells Fargo Variable Trust, Wells Fargo Master Trust, and four closed-end funds, including the Fund (collectively the "Fund Complex"). All of the Trustees are also Members of the Audit and Governance Committees of each Trust in the Fund Complex. The mailing address of each Trustee and Officer is 525 Market Street, 12th Floor, San Francisco, CA 94105. The Board of Trustees is classified into three classes of which one is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Officer serves an indefinite term.

Independent Trustees

Automatic Dividend Reinvestment Plan

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Governance Committee (the Committee) of the Board of Trustees of the registrant (the Trust) has adopted procedures by which a shareholder of any series of the Trust may submit properly a nominee recommendation for the Committee's consideration.

The shareholder must submit any such recommendation (a Shareholder Recommendation) in writing to the Trust, to the attention of the Trust's Secretary, at the address of the principal executive offices of the Trust.

The Shareholder Recommendation must be delivered to, or mailed and received at, the principal executive offices of the Trust not less than forty-five (45) calendar days nor more than seventy-five (75) calendar days prior to the date of the Committee meeting at which the nominee would be considered.

Table of Contents

The Shareholder Recommendation must include: (i) a statement in writing setting forth (A) the name, age, date of birth, business address, residence address and nationality of the person recommended by the shareholder (the candidate); (B) the series (and, if applicable, class) and number of all shares of the Trust owned of record or beneficially by the candidate, as reported to such shareholder by the candidate; (C) any other information regarding the candidate called for with respect to director nominees by paragraphs (a), (d), (e) and (f) of Item 401 of Regulation S-K or paragraph (b) of Item 22 of Rule 14a-101 (Schedule 14A) under the Securities Exchange Act of 1934, as amended (the Exchange Act), adopted by the Securities and Exchange Commission (or the corresponding provisions of any regulation or rule subsequently adopted by the Securities and Exchange Commission or any successor agency applicable to the Trust); (D) any other information regarding the candidate that would be required to be disclosed if the candidate were a nominee in a proxy statement or other filing required to be made in connection with solicitation of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder; and (E) whether the recommending shareholder believes that the candidate is or will be an interested person of the Trust (as defined in the Investment Company Act of 1940, as amended) and, if not an interested person, information regarding the candidate that will be sufficient for the Trust to make such determination; (ii) the written and signed consent of the candidate to be named as a nominee and to serve as a Trustee if elected; (iii) the recommending shareholder's name as it appears on the Trust's books; (iv) the series (and, if applicable, class) and number of all shares of the Trust owned beneficially and of record by the recommending shareholder; and (v) a description of all arrangements or understandings between the recommending shareholder and the candidate and any other person or persons (including their names) pursuant to which the recommendation is being made by the recommending shareholder. In addition, the Committee may require the candidate to interview in person and furnish such other information as it may reasonably require or deem necessary to determine the eligibility of such candidate to serve as a Trustee of the Trust.

ITEM 11. CONTROLS AND PROCEDURES

(a) The President and Treasurer have concluded that the Wells Fargo Advantage Utilities & High Income Fund (the Trust) disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) provide reasonable assurances that material information relating to the Trust is made known to them by the appropriate persons, based on their evaluation of these controls and procedures as of a date within 90 days of the filing of this report.

(b) There were no significant changes in the Trust's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the second quarter of the period covered by this report that materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a)(1) Not required in this filing.

(a)(2) Certification pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is filed and attached hereto as Exhibit 99.CERT.

(a)(3) Not applicable.

(b) Certification pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 (17 CFR 270.30a-2(b)) is filed and attached hereto as Exhibit 99.906CERT.
