1. Review of operations and financial condition

(1) Summary of the results of operations for the six months under review

For the six months ended September 30, 2012, revenues of Kubota Corporation and subsidiaries (hereinafter, the Company) increased ¥64.8 billion [13.4 %], to ¥546.5 billion, from the corresponding period in the prior year.

Domestic revenues expanded ¥16.9 billion [7.4 %], to ¥246.2 billion. All reporting segments, which are Farm & Industrial Machinery, Water & Environment, and Other, recorded increases in domestic revenues.

Overseas revenues rose ¥47.8 billion [19.0 %], to ¥300.3 billion. Revenues in all reporting segments increased substantially.

Operating income increased ¥4.4 billion [8.9 %], to ¥53.6 billion, from the corresponding period in the prior year. The effect of higher revenues exceeded the negative impact of yen appreciation and increased pension costs. Income before income taxes and equity in net income of affiliated companies increased ¥7.6 billion [17.2 %], to ¥52.0 billion, due to the positive effect of an improvement in other income, resulting from decreases in valuation loss on other investments and foreign exchange loss-net. Income taxes were ¥19.0 billion and net income increased ¥5.1 billion [17.7 %], to ¥34.0 billion. Net income attributable to Kubota Corporation rose ¥4.3 billion [16.3 %], to ¥30.6 billion, from the corresponding period in the prior year.

Revenues from external customers and operating income by each reporting segment were as follows.

1) Farm & Industrial Machinery

Farm & Industrial Machinery comprises farm equipment, engines, and construction machinery.

Revenues in this segment increased 16.0 %, to ¥419.5 billion, from the corresponding period in the prior year and accounted for 76.8 % of consolidated revenues.

Domestic revenues increased 11.1 %, to ¥135.2 billion. Sales of farm equipment increased, because sales in the Tohoku area rose sharply owing to the rebound from stagnation in the prior year, and sales in other areas also increased steadily. Sales of construction machinery increased substantially due to the demand for reconstruction work following the Great East Japan Earthquake. In addition, sales of engines also expanded substantially due to the demand arising from measures to cope with electricity shortages.

Overseas revenues grew 18.5 %, to ¥284.3 billion. In North America, sales of tractors increased due to the steady demand. Sales of construction machinery expanded sharply owing to the brisk renewal demand, and sales of engines also rose steadily. Revenues in Europe increased substantially due to expanded sales of engines and the effect of a business acquisition in the prior fiscal year, while sales of tractors and construction machinery decreased due to the negative impact of yen appreciation. Revenues in Asia outside Japan increased. Sales of construction machinery decreased owing to a significant decline in demand in China, and sales of engines declined due to the reduction in output caused by the flooding of production sites in Thailand. However, increases in revenues, owing to the strong sales of farm equipment in Thailand, China and other countries, exceeded these decreases.

Operating income in Farm & Industrial Machinery increased 9.2 %, to ¥57.3 billion, due to the increase in revenues and other factors.

2) Water & Environment

Water & Environment comprises pipe-related products (ductile iron pipes, plastic pipes, valves, pumps, and other products), environment-related products (environmental plants and other products) and social infrastructure-related products (industrial castings, spiral welded steel pipes, vending machines, precision equipment, air-conditioning equipment, and other products).

Edgar Filing: KUBOTA CORP - Form 6-K

Revenues in this segment increased 4.6 %, to ¥111.8 billion, from the corresponding period in the prior year and accounted for 20.4 % of consolidated revenues.

-4-

Table of Contents

Kubota Corporation
and Subsidiaries

Domestic revenues rose 2.1 %, to ¥96.5 billion. Revenues in pipe-related products decreased slightly due to the lower sales of pumps and valves, while sales of ductile iron pipes and plastic pipes increased. Revenues in environment-related products rose owing to higher sales of water and sewage treatment equipment and plants. Revenues in social infrastructure-related products also increased.

Overseas revenues grew 24.4 %, to ¥15.3 billion. Revenues in pipe-related products increased sharply due to higher sales of ductile iron pipes. Revenues in social infrastructure-related products also rose substantially due to the increased sales of industrial castings. However, revenues in environment-related products decreased.

Operating income in Water & Environment rose 23.9 %, to ¥5.7 billion, mainly due to the increase in revenues.

3) Other

Other comprises construction, services, and other businesses.

Revenues in this segment rose 15.3 %, to ¥15.2 billion from the corresponding period in the prior year and accounted for 2.8 % of consolidated revenues. Although sales of construction decreased slightly, sales of services and other businesses increased.

Operating income in Other decreased 22.3 %, to ¥0.6 billion.

* The Company realigned its organization on April 1, 2012. Following this realignment, the segments that had previously been classified as Farm & Industrial Machinery , Water & Environment Systems , Social Infrastructure , and Other were reclassified into Farm & Industrial Machinery , Water & Environment , and Other .

(2) Financial condition

1) Assets, liabilities, and equity

Total assets at the end of September 2012 amounted to ¥1,522.0 billion, an increase of ¥34.3 billion from the end of March 2012. Among assets, inventories as well as short- and long-term finance receivables rose due to the increase in revenues.

Among liabilities, accounts payable, short-term borrowings, and long-term debt increased. Net assets increased because recorded retained earnings exceeded the deterioration in accumulated other comprehensive loss. The shareholders' equity ratio was 43.9 %, the same ratio at the prior fiscal year-end.

2) Cash flows

Net cash provided by operating activities during the six months under review was ¥31.3 billion, a decrease of ¥3.9 billion in cash inflow from the corresponding period in the prior year. This decrease was mainly due to a decrease in income taxes payable and changes in working capital resulting from an increase in inventories, while net income increased.

Net cash used in investing activities was ¥29.0 billion, a decrease of ¥8.3 billion in cash outflow from the corresponding period in the prior year. This decrease was due to an increase in cash inflow from collection of finance receivables and other factors, which was partially offset by an increase in cash outflow for purchases of fixed assets.

Net cash provided by financing activities was ¥5.8 billion, an increase of ¥23.0 billion in cash inflow from the corresponding period in the prior year. This increase was mainly due to a rise in fund procurement and a decrease in purchases of treasury stock.

Edgar Filing: KUBOTA CORP - Form 6-K

As a result, after taking account of the effects of fluctuation in exchange, cash and cash equivalents at the end of September 2012 were ¥107.9 billion, an increase of ¥7.4 billion from the beginning of the period.

(3) Prospects for the year ending March 31, 2013

The forecasts of the results of operations for the year ending March 31, 2013, which were announced on May 10, 2012, remain unchanged.

These forecasts are based on the assumption of exchange rates of ¥80=US\$1 and ¥100= 1.

2. Other information

(1) Changes in material subsidiaries

None

(2) Adoption of simplified accounting procedures or specific accounting procedures for quarterly consolidated financial statements

The provision for income taxes is computed by multiplying quarterly income before income taxes and equity in net income of affiliated companies by estimated annual effective tax rate.

(3) Accounting changes for consolidated financial statements

Notice of interim dividend

Please be advised that Kubota Corporation (hereinafter the Company) resolved at the Board of Directors Meeting held on November 2, 2012 that the Company would pay interim dividend the record date of which was September 30, 2012.

1. Details of interim dividend

	Interim dividend of this fiscal year	Latest forecast (Released on August 2, 2012)	Interim dividend of the prior year
Record date	September 30, 2012	September 30, 2012	September 30, 2011
Dividend per common share	¥8	To be determined	¥7
Amount of dividend	¥10,050 million		¥8,794 million
Date of payment	December 3, 2012		December 2, 2011
Resource of interim dividend	Retained earnings		Retained earnings

2. Reasons for interim dividend amount

The Company's basic policy for the return of profit to shareholders is to maintain stable dividends or raise dividends together with share buy-back and retirement of treasury stock.

The Company declared the annual dividend of ¥15 per common share in the prior year, which was ¥1 higher than the preceding year, with the interim dividend of ¥7 and the year-end dividend of ¥8. Considering the basic policy and the Company's current business performance, the Company decided to pay ¥8 per common share as the interim dividend of this fiscal year, which would be ¥1 higher than in the prior year.

< Cautionary Statements with Respect to Forward-Looking Statements >

This document may contain forward-looking statements that are based on management's expectations, estimates, projections and assumptions. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company's markets, particularly government agricultural policies, levels of capital expenditures both in public and private sectors, foreign currency exchange rates, the occurrence of natural disasters, continued competitive pricing pressures in the marketplace, as well as the Company's ability to continue to gain acceptance of its products.
