This quarterly report on Form 10-Q contains forward-looking statements which involve risks and uncertainties. You can identify forward-looking statements because they contain words such as believes, expects, may, should, seeks, approximately, intends, plans, or anticipates or similar expressions that relate to our strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, revenues, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon certain assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All forward-looking statements are based upon information available to us on, and speak only as of, the date of this report.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as cautionary statements, are discussed in detail in Part I, Item 1A. All forward-looking information in this quarterly report and subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include without limitation:

- the willingness of our advertisers to advertise on our websites;
- increased competition and its effect on our website traffic, advertising rates, margins, and market share;
- our dependence on internet search engines to attract a significant portion of the visitors to our websites;

In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this quarterly report may not in fact occur. Accordingly, investors should not place undue reliance on those statements. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Bankrate, Inc. and its subsidiaries (Bankrate or the Company, we, us, our) own and operate an Internet-based consumer banking and persona finance network (Online Network). Our flagship website, Bankrate.com, is one of the Internet s leading aggregators of information on more than 300 financial products and fees, including mortgages, deposits, insurance, credit cards, and other personal finance categories. Additionally, we provide financial applications and information to a network of distribution partners and through national and state publications.

2011 Merger and Recapitalization

On June 21, 2011, Bankrate s parent company, BEN Holdings, Inc. (Holdings), a majority owned subsidiary of Ben Holdings S.à.r.l, merged with and into the Company with the Company surviving the merger (2011 Merger). In connection with the 2011 Merger, Holdings underwent an internal recapitalization in which all preferred and common shares of Holdings were exchanged for shares of a single series of common stock of Holdings (the Recapitalization). As a result of the Recapitalization and 2011 Merger, all preferred and common stock (other than restricted stock) of the Company were cancelled and all shares of common stock of Holdings were converted into common stock of the Company. Immediately following the Recapitalization and 2011 Merger, the Company had 87,500,000 shares of common stock issued and outstanding, including 120,135 shares of restricted stock. The surviving corporation in the 2011 Merger retained the name Bankrate, Inc. The 2011 Merger was accounted for as a common control merger and in a manner similar to a pooling of interests. Accordingly, Holdings and Bankrate were consolidated retroactively to the earliest period presented, using the historical cost basis of each entity. The common stock, per common share, and increase in authorized share amounts in these unaudited condensed consolidated financial statements and notes to condensed consolidated financial statements have been presented to retroactively reflect these transactions to the earliest period presented.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Bankrate, Inc., and subsidiaries NetQuote Holdings, Inc., NetQuote Inc., CreditCards.com, Inc., LinkOffers, Inc., CreditCards.com Limited (United Kingdom), Freedom Marketing Limited (United Kingdom), and Rate Holding Company (100% owner of Bankrate Information Consulting (Beijing) Co., Ltd.) after elimination of all intercompany accounts and transactions.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for the fair statement of our results have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent gains and losses at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Operating results for the three and nine months ended September 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012, for any other interim period or for any other future year.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company s 2011 Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on March 12, 2012.

There have been no significant changes in the Company s accounting policies from those disclosed in the Company s 2011 Annual Report on Form 10-K filed with the SEC on March 12, 2012.

New Accounting Pronouncements

Recently Adopted Pronouncements

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and IFRSs. ASU 2011-04 amends Topic 820, Fair Value Measurement to change the wording used to describe the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. The amendments include wording changes that clarify the FASB s intent about the application of existing fair value measurement and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The adoption of ASU 2011-04 as of January 1, 2012 did not have a material impact on the Company s consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 amends Topic 220, Comprehensive Income, to give an entity the option for presenting the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendment in this update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and should be applied retrospectively. In December 2011, the FASB issued ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05. The amendments in this update defers only those changes in ASU 2011-05 that relate to the presentation of reclassification adjustments. The adoption of ASU 2011-05 and subsequent amendment in ASU 2011-12 as of January 1, 2012 did not have a material impact on the Company s consolidated financial statements and the deferred changes in ASU 2011-12 are not expected to have a material impact upon adoption.

In July 2012, the FASB issued ASU 2012-02, Intangibles Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment to reduce the cost and complexity of performing an impairment test for indefinite-lived intangible assets by simplifying how an entity tests those assets for impairment and to improve consistency in impairment testing guidance among long-lived asset categories. The amendments permit an entity first to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30, Intangibles Goodwill and Other General Intangibles Other than Goodwill. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. The amendments are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012 and early adoption is permitted. The adoption of ASU 2012-02 as of August 1, 2012 did not have a material impact on the Company s consolidated financial statements.

Recently Issued Pronouncements, Not Adopted as of September 30, 2012

In December 2011, the FASB issued ASU 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. This amendment requires entities to disclose both gross information and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting arrangement. The amendment is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the disclosures required by those amendments retrospectively for all comparative periods presented. The adoption of ASU 2011-11 is not expected to have a material impact on the Company s consolidated financial statements.
