**Table of Contents****THE COMPANY**

Praxair was founded in 1907 and became an independent publicly traded company in 1992. Praxair was the first company in the United States to produce oxygen from air using a cryogenic process and continues to be a major technological innovator in the industrial gases industry.

Praxair is the largest industrial gas supplier in North and South America, is rapidly growing in Asia, and has strong, well-established businesses in Europe. Praxair's primary products for its industrial gases business are atmospheric gases (oxygen, nitrogen, argon, rare gases) and process gases (carbon dioxide, helium, hydrogen, electronic gases, specialty gases, acetylene). The Company also designs, engineers and builds equipment that produces industrial gases for internal use and external sale. The Company's surface technologies segment, operated through Praxair Surface Technologies, Inc., supplies wear-resistant and high-temperature corrosion-resistant metallic and ceramic coatings and powders. Sales for Praxair were \$11,252 million, \$10,116 million and \$8,956 million for 2011, 2010 and 2009, respectively.

**RECENT DEVELOPMENTS*****Fourth Quarter and Fiscal Year Results***

On January 23, 2013, we announced our results for the fiscal year ended December 31, 2012. Our earnings press release was furnished to the SEC in a Current Report on Form 8-K filed on January 23, 2013 and such Form 8-K is not incorporated by reference herein. A summary of our financial results is as follows:

<i>(Millions of dollars)</i>	<b>Year Ended December 31,</b>	
	<b>2012</b>	<b>2011</b>
<b><i>Income Statement Data</i></b>	<i>(unaudited)</i>	
Sales	\$ 11,224	\$ 11,252
Operating profit(a)	2,437	2,468
Net income Praxair, Inc.(a)	1,692	1,672
<b><i>Balance Sheet Data (at period end)</i></b>		
Total assets	\$ 18,090	\$ 16,356
Long-term debt	6,685	5,838

(a) 2012 includes: (i) a pre-tax charge of \$56 million (\$38 million after-tax and non-controlling interests) related to the 2012 cost reduction program; (ii) a pre-tax charge of \$9 million (\$6 million after-tax) related to pension settlement; and (iii) an income tax benefit of \$55 million, which are described below. 2011 includes: (i) a net gain of \$39 million (\$37 million net income-Praxair, Inc.) related to a gain on acquisition; and (ii) a pre-tax charge of \$40 million (\$31 million net income-Praxair, Inc.) related to the 2011 cost reduction program. Sales were \$11,224 million in 2012 compared to \$11,252 million in 2011. Excluding negative foreign currency translation and cost pass-through effects, sales increased due primarily to higher pricing and volumes. Operating profit was \$2,437 million in 2012 compared to \$2,468 million in 2011. Results for 2012 reflected charges related to severance and business restructuring actions primarily in Europe (in industrial gases and

**Table of Contents**

surface technologies) and a pension settlement which reduced operating profit and net income-Praxair, Inc. by \$65 million and \$44 million, respectively. These charges were offset by a net income tax benefit related to a loss on liquidated subsidiary, as a result of the divestiture of the U.S. Homecare business, which increased net income by \$55 million.

Cash flow from operations was \$2,752 million in 2012, up 12% from 2011. Capital expenditures, primarily for new production plants under long-term contracts with customers, were \$2,180 million in 2012. The company invested \$280 million in acquisitions, primarily for several North American packaged gas distributors and an industrial gas business in Russia. During 2012, the company paid \$655 million of dividends and repurchased \$459 million of stock, net of issuances. As of December 31, 2012, we had \$6,685 million of long-term debt.

***NuCO<sub>2</sub> Acquisition***

On February 4, 2013, we entered into a definitive agreement to acquire NuCO<sub>2</sub> Inc. (the Acquisition), the leading national provider of beverage carbonation solutions in the United States to the restaurant and hospitality industries. The purchase price for the Acquisition is \$1.1 billion in cash, subject to customary closing adjustments. The Acquisition is expected to close by the end of the first quarter of 2013, subject to customary closing conditions, including the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended.

***Venezuelan Currency Devaluation***

On February 8, 2013 the Venezuelan government announced its intention to devalue its currency (Venezuelan bolivar). Although no official rules have yet been issued, the official exchange rate is expected to change from 4.30 to 6.30 per dollar (a reduction of 32%), effective on February 13, 2013. As a result of the devaluation, in the 2013 first quarter Praxair expects to record a charge due to the remeasurement of the local balance sheet of its Venezuelan subsidiaries to reflect the new official 6.30 exchange rate. While the Company has not yet completed its analysis, it does not expect the charge to have a material impact on its consolidated financial statements.

**Table of Contents**

We intend to use the net proceeds of this offering for general corporate purposes, including acquisitions and share repurchases under our share repurchase program. Prior to their application, the net proceeds may be used to repay short-term debt and/or invested in short-term investments.

**RATIO OF EARNINGS TO FIXED CHARGES**

The underwriters are committed to purchase all of the notes if any are purchased.

The underwriters propose to offer the notes initially to the public at the public offering price shown on the cover page hereof and to selling group members at that price less a selling concession of 0.150% of the principal amount of the 2016 notes and 0.300% of the principal amount of the 2023 notes. The underwriters and selling group members may reallocate a discount of 0.100% of the principal amount of the 2016 notes and 0.250% of the principal amount of the 2023 notes on sales to other dealers. After the initial offering of the notes, the underwriters may change the offering price and other selling terms.

Each series of notes is a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on a national securities exchange. We have been advised by the underwriters that they currently intend to make a secondary market in the notes, as permitted by applicable laws and regulations. The underwriters are not obligated, however, to make a market in the notes and any such secondary market making may be discontinued at any time without notice at the sole discretion of the underwriters. Accordingly, no assurance can be given as to the liquidity of, or trading market for, the notes.

In connection with the offering of the notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, the underwriters may overallocate in connection with the offering of the notes, creating a syndicate short position. In addition, the underwriters may bid for, and purchase notes in the open market to cover syndicate short positions or to stabilize the price of the notes. Finally, the underwriting syndicate may reclaim selling concessions allowed for distributing the notes in the offering of the notes, if the syndicate repurchases previously distributed notes in syndicate covering transactions, stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the notes above independent market levels. The underwriters are not required to engage in any of these activities, and may end any of them at any time without notice.

Banca IMI S.p.A. is not a U.S. registered broker-dealer, and will not effect any offers or sales of any notes in the United States unless it is through one or more U.S. registered broker-dealers as permitted by the regulations of the Financial Industry Regulatory Authority, Inc.

We expect that delivery of the notes will be made to investors on or about February 21, 2013, which will be the fifth business day following the date of this offering memorandum (such settlement being referred to as "T+5"). Under Rule 15c6-1 under the Securities Exchange Act of 1934, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes prior to the delivery of the notes hereunder will be required, by virtue of the fact that the notes initially settle in T+5, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes prior to their date of delivery hereunder should consult their advisors.

**THE COMPANY**

Praxair was founded in 1907 and became an independent publicly traded company in 1992. Praxair was the first company in the United States to produce oxygen from air using a cryogenic process and continues to be a major technological innovator in the industrial gases industry.

Praxair is the largest industrial gas supplier in North and South America, is rapidly growing in Asia, and has strong, well-established businesses in Europe. Praxair's primary products in its industrial gases business are atmospheric gases (oxygen, nitrogen, argon, rare gases) and process gases (carbon dioxide, helium, hydrogen, electronic gases, specialty gases, acetylene). The Company also designs, engineers and builds equipment that produces industrial gases for internal use and external sale. The Company's surface technologies segment, operated through Praxair Surface Technologies, Inc., supplies wear-resistant and high-temperature corrosion-resistant metallic and ceramic coatings and powders. Praxair's sales were \$11,252 million, \$10,116 million, and \$8,956 million for 2011, 2010, and 2009, respectively. For the six-month periods ended June 30, 2012 and 2011, sales for the Company were \$5,651 million and \$5,560 million, respectively.

Praxair serves approximately 25 industries as diverse as healthcare and petroleum refining; computer-chip manufacturing and beverage carbonation; fiber-optics and steel making; and aerospace, chemicals and water treatment. In 2011, 94% of sales were generated in four geographic segments (North America, Europe, South America and Asia) primarily from the sale of industrial gases with the balance generated from the surface technologies segment. Praxair provides a competitive advantage to its customers by continuously developing new products and applications, which allow them to improve their productivity, energy efficiency and environmental performance.

The Company's principal offices are located at 39 Old Ridgebury Road in Danbury, Connecticut 06810-5113 and our telephone number is (203) 837-2000.
