REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Retirement Plan Committee

Cass Information Systems, Inc.

401(k) Plan:

We have audited the accompanying statements of assets available for plan benefits of the Cass Information Systems, Inc. 401(k) Plan (the Plan) as of December 31, 2012 and 2011, and the related statement of changes in assets available for plan benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for plan benefits of the Plan as of December 31, 2012 and 2011, and the changes in assets available for plan benefits for the year ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

401(k) PLAN

Notes to Financial Statements

December 31, 2012 and 2011

NOTE 1 PLAN DESCRIPTION

The following description of the Plan provides general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

- (a) **Employer Contributions** The amount of employer contributions, if any, is discretionary and determined by the Board of Directors of Cass Information Systems, Inc. (the Company). The employer contributions are based upon amounts contributed by the employees. The employer has indicated the discretionary contribution will be an amount equal to 50% of a participant's contribution up to 3% of the participant's salary, provided such contributions are within the guidelines of the Plan.
- (b) **Employee Contributions** Each plan participant may elect to make contributions to the Plan of 1% to 100% of the participant's compensation for such fiscal year as long as such contribution does not exceed the maximum permissible by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.
- (c) **Participant Eligibility** Any employee of the Company or its wholly owned subsidiary, Cass Commercial Bank, shall be eligible to become a participant in the Plan provided the employee has completed one month of service, is 21 years of age or older, and does not have offsite included in the job title.
- (d) **Participant Accounts** Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- (e) **Vesting** Employees are 100% vested in any portion of their account resulting from their savings contributions and any rollover contributions. Employer matching and discretionary contributions credited after December 31, 1990 are subject to vesting as follows:

Years of service	Vesting percentage
Less than three	%
Three or more	100

If an employee terminates employment before full vesting, the nonvested portions of employer matching and discretionary contributions are used to reduce future contributions or plan administration costs of the Company. Forfeited nonvested accounts totaled \$21,673 and \$15,599 during 2012 and 2011, respectively.

Edgar Filing: CASS INFORMATION SYSTEMS INC - Form 11-K

- (f) Distributions Under the terms of the Plan, participants reaching normal retirement age of 65 are eligible to receive the entire balance in all of the accounts maintained for such participant.

Table of Contents

CASS INFORMATION SYSTEMS, INC.

401(k) PLAN

Notes to Financial Statements

Participants terminating employment prior to retirement receive their contributions and earnings on such contributions and the sponsor's account and earnings on such account, if such amounts are vested. In the event of death, the balances in the participant's account are fully vested and paid to the designated beneficiary.

- (g) **Costs of Plan Administration** Fees and expenses incurred by the Company in the administration of the Plan are paid by the Company or from forfeited nonvested accounts. Expenses solely attributable to the investment of funds are paid with Plan assets.
- (h) **Notes Receivable From Participants** Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined periodically by the Cass Information Systems, Inc. Retirement Plan Committee (the Plan Administrator). Principal and interest are paid ratably through payroll deductions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

- (a) **Basis of Presentation** The accompanying financial statements have been prepared on the accrual basis of accounting and present the assets available for plan benefits and changes in those assets. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires estimates and assumptions that affect the reported amounts. Actual results could differ from those estimates.
- (b) **Trust Fund** Under the terms of a trust agreement between the Principal Life Insurance Company (the Custodian) and the Company, the Custodian administers a trust fund on behalf of the Plan. Participants may elect to have a portion of their account balances invested in a General Fund Account, which is comprised of investments in guaranteed interest contracts with an insurance company, a variety of interests in pooled separate accounts, mutual funds, and collective trust funds investing in debt and equity instruments, and common stock of Cass Information Systems, Inc.
- (c) **Investment Valuation and Income Recognition** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, as described more fully in note 3. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.
- (d) **Notes Receivable From Participants** Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are charged to expense when incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit is recorded.

401(k) PLAN

Notes to Financial Statements

(e) Subsequent Events The Plan has evaluated subsequent events through June 21, 2013, the date the financial statements were issued.

NOTE 3 FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets and have the highest priority.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when level 1 and level 2 inputs are not available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Common stocks valued at the closing price reported on the active market on which the individual securities are traded (level 1 inputs).

Mutual funds valued at the daily closing price as reported by the fund (level 1 inputs). Mutual funds held by the Plan are open-end mutual funds which are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds valued at the NAV of the units of the Principal Trust Company collective trusts (level 2 inputs). The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Table of Contents**CASS INFORMATION SYSTEMS, INC.****401(k) PLAN**

Notes to Financial Statements

Pooled separate accounts valued at the NAV of the pooled separate accounts, which are not publically quoted (level 2 inputs).

Guaranteed investment contracts fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds with the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates (level 3 inputs).

The following tables set forth, by level with the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

2012	Quoted market prices in active market for identical assets (level 1)	Significant other observable inputs (level 2)	Significant unobservable inputs (level 3)	Total
Pooled separate accounts and mutual funds:				
Large U.S. equity	\$ 2,917,498	3,882,106		6,799,604
Small/mid U.S. equity	1,551,283	5,214,253		6,765,536
International equity		2,789,124		2,789,124
U.S. property		573,362		573,362
Fixed income	1,538,127	5,190,472		6,728,599
Collective trust funds - balanced/ asset allocation		6,084,592		6,084,592
Employer common stock	293,794			293,794
Insurance company general account			2,985,658	2,985,658
	\$ 6,300,702	23,733,909	2,985,658	33,020,269

Table of Contents**CASS INFORMATION SYSTEMS, INC.****401(k) PLAN**

Notes to Financial Statements

2011	Quoted market prices in active market for identical assets (level 1)	Significant other observable inputs (level 2)	Significant unobservable inputs (level 3)	Total
Pooled separate accounts and mutual funds:				
Large U.S. equity	\$ 2,455,653	3,509,324		5,964,977
Small/mid U.S. equity	1,366,897	4,905,356		6,272,253
International equity		2,322,268		2,322,268
Balanced/asset allocation		4,815,368		4,815,368
U.S. property		443,385		443,385
Fixed income	975,709	4,560,587		5,536,296
Insurance company general account			3,237,650	3,237,650
	\$ 4,798,259	20,556,288	3,237,650	28,592,197

Following is a summary of changes in the fair value of the insurance company general account, the only Plan asset valued using level 3 inputs, for the year ended December 31, 2012:

Balance, beginning of year	\$ 3,237,650
Realized and unrealized losses relating to instruments still held at the reporting date	(7,174)
Interest credited	51,883
Purchases, sales, issuances, and settlements (net)	(296,701)
Balance, end of year	\$ 2,985,658
