CAUTIONARY STATEMENT RELATIVE TO FORWARD-LOOKING STATEMENTS

This Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts included or incorporated herein may constitute forward-looking statements. Such forward-looking statements include statements (covered by words like expects, anticipates, may, believes or similar words or expressions), for example, which relate to operating performance, events or developments that we expect or anticipate will or may occur in the future (including, without limitation, any of the Company's guidance in respect of sales, gross margins, pension liabilities and charges, net income, growth potential and other measures of financial performance). Although forward-looking statements are believed by management to be reasonable when made, they are subject to certain risks, uncertainties and assumptions, and our actual performance or results may differ materially from these forward-looking statements. Additional information regarding risks, uncertainties and assumptions relating to the Company and affecting our business operations and prospects are described in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, and other reports filed with the U.S. Securities and Exchange Commission. You are urged to review our discussion of risks and uncertainties that could cause actual results to differ from forward-looking statements under the heading Risk Factors in such reports. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X under the Securities Exchange Act of 1934. Accordingly, they do not include all the information and notes necessary for a comprehensive presentation of financial position, results of operations and cash flows.

It is our opinion, however, that all adjustments (consisting of normal, recurring adjustments, unless otherwise disclosed) have been made which are necessary for the financial statements to be fairly stated. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K filed on February 13, 2013.

The results for the interim period covered by this report are not necessarily indicative of the results to be expected for the full year.

When we use the terms the Corporation, Company, Registrant, we, us and our, we are referring to Innospec Inc. and its consolidated subsidiaries (Innospec) unless otherwise indicated or the context otherwise requires.

Table of Contents**INNOSPEC INC. AND SUBSIDIARIES****NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 2 SEGMENTAL REPORTING**

Innospec divides its business into three segments for management and reporting purposes: Fuel Specialties, Performance Chemicals and Octane Additives. The Fuel Specialties and Performance Chemicals segments operate in markets where we actively seek growth opportunities although their ultimate customers are different. The Octane Additives segment is generally characterized by volatile and declining demand.

The Company evaluates the performance of its segments based on operating income. The following table analyzes sales and other financial information by the Company's reportable segments:

(in millions)	Three Months Ended June 30		Six Months Ended June 30	
	2013	2012	2013	2012
Net sales:				
Fuel Specialties	\$ 126.2	\$ 114.5	\$ 266.2	\$ 245.2

NOTE 3 EARNINGS PER SHARE

Basic earnings per share is based on the weighted average number of common shares outstanding during the period. Diluted earnings per share includes the effect of options that are dilutive and outstanding during the period. Per share amounts are computed as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2013	2012	2013	2012
Numerator (in millions):				
Net income available to common stockholders	\$ 17.1	\$ 15.5	\$ 35.1	\$ 40.1
Denominator (in thousands):				
Weighted average common shares outstanding	23,528	23,147	23,466	23,101
Dilutive effect of stock options and awards	529	747	607	719
Denominator for diluted earnings per share	24,057	23,894	24,073	23,820
Net income per share, basic:	\$ 0.73	\$ 0.67	\$ 1.50	\$ 1.74
Net income per share, diluted:	\$ 0.71	\$ 0.65	\$ 1.46	\$ 1.68

In the three and six months ended June 30, 2013, the average number of anti-dilutive options excluded from the calculation of diluted earnings per share were nil and 10,527, respectively. In the three and six months ended June 30, 2012, the average number of anti-dilutive options excluded from the calculation of diluted earnings per share were 32,392 and 1,380, respectively.

Accumulated impairment losses	(235.8)	(234.6)
Net book amount	\$ 148.7	\$ 140.8

⁽¹⁾ Gross cost for 2013 and 2012 is net of \$298.5 million of historical accumulated amortization.

Acquisitions

On December 24, 2012, the Company acquired 100% of the voting equity interests in Strata Control Services, Inc. (Strata), a private company based in Crowley, Louisiana. Strata is a leading supplier of mud and fluid loss solutions to oil and gas drilling operations, with annual sales in 2012 of approximately \$20 million. Its products and services prevent the unnecessary loss of valuable materials into the formation matrix thereby lowering the cost of operations. We acquired Strata in order to build out our presence in the growing market that it serves.

Purchase price and fair values of assets acquired and liabilities assumed

The following table summarizes the calculation of the total purchase price and the allocation of the purchase price to the assets acquired and liabilities assumed. The purchase price allocation and related valuation process is complete and the fair values are as follows:

(in millions)	Strata
Other intangible assets	\$ 48.0
Goodwill	9.1
Other net assets	1.7
Purchase price, net of cash acquired	\$ 58.8

Strata, and the associated goodwill, is included within our Fuel Specialties segment for management and reporting purposes (see Note 5 for further information on the other intangible assets). The purchase price comprised of \$53.1 million paid immediately on December 24, 2012, and \$5.0 million payable in cash in 2015 contingent upon the achievement of certain pre-determined financial targets which we currently expect to be achieved. For accounting purposes only, we are required under GAAP, in accordance with our accounting policy, to discount this acquisition-related contingent consideration to its fair value of \$4.5 million. In addition, if the

Table of Contents**INNOSPEC INC. AND SUBSIDIARIES****NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

pre-determined financial targets are achieved, we will in 2015 transfer 60,368 of Innospec common stock to Strata's previous owner. The fair value of these contingently issuable shares at the acquisition date was \$2.0 million which has been added to additional paid-in capital.

On April 19, 2013, \$0.6 million was received in cash from Strata's previous owner in respect of post-closing working capital adjustments, resulting in a reduction in other net assets and a corresponding reduction in the Strata acquisition purchase price. In addition, during the three months ended June 30, 2013, we finalized the calculations of fair values of assets acquired and liabilities assumed in the acquisition, resulting in a further \$0.4 million reduction in other net assets and a corresponding increase in goodwill.

NOTE 5 OTHER INTANGIBLE ASSETS

The following table summarizes the other intangible assets movement year on year:

Strata

On December 24, 2012, the Company acquired 100% of the voting equity interests in Strata. The purchase price allocation and related valuation process is complete. We have allocated \$48.0 million of the purchase price to other intangible assets which we are amortizing on a straight-line basis to the income statement over a weighted average expected life of 13.1 years. These intangible assets comprise the following:

technology (\$18.3 million) being amortized straight-line over 16.5 years. In the first six months of 2013 amortization expense of \$0.6 million was recognized in cost of goods sold (2012 \$0.0 million).

customer relationships (\$28.2 million) and a non-compete agreement (\$1.5 million) being amortized straight-line over 11.5 years and 2.0 years, respectively. In the first six months of 2013 amortization expenses of \$1.2 million and \$0.4 million were recognized in selling, general and administrative expenses, respectively (2012 \$0.0 million and \$0.0 million, respectively).

Internally developed software and other costs

Edgar Filing: INNOSPEC INC. - Form 10-Q

We are continuing with the implementation of a new, company-wide, information system platform. At June 30, 2013, we had capitalized \$13.9 million (2012 \$6.6 million) in relation to this internally developed software. No amortization expense was recognized in the first six months of 2013 (2012 \$0.0 million).

Table of Contents**INNOSPEC INC. AND SUBSIDIARIES****NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Others**

The remaining intangible assets of \$48.1 million relate to those recognized in the acquisition accounting in respect of technology, customer relationships and patents; and sales and marketing agreements to market and sell tetra ethyl lead (TEL). These assets are being amortized straight-line over periods of up to 13 years. In the first six months of 2013 amortization expenses of \$1.2 million and \$0.8 million were recognized in cost of goods sold and selling, general and administrative expenses, respectively (2012 \$1.2 million and \$0.8 million, respectively).

NOTE 6 PENSION PLANS

The Company maintains a defined benefit pension plan (the Plan) covering a number of its current and former employees in the United Kingdom, although it does also have other much smaller pension arrangements in the U.S. and overseas. The Plan is closed to future service accrual but has a large number of deferred and current pensioners.

(in millions)	Three Months Ended June 30		Six Months Ended June 30	
	2013	2012	2013	2012
Plan net pension credit/(charge):				
Service cost	\$ (0.4)	\$ (0.4)	\$ (0.8)	\$ (0.8)
Interest cost on projected benefit obligation	(7.7)	(8.0)	(15.6)	(16.0)
Expected return on plan assets	8.7	8.5	17.7	17.0

Amortization of actuarial net losses	(1.6)	(0.3)	(3.3)	(0.6)
	\$ (0.7)	\$ 0.1	\$ (1.4)	\$ 0.2

The amortization of prior service credit and actuarial net losses is a reclassification out of accumulated other comprehensive income/(loss) into selling, general and administrative expenses.

NOTE 7 INCOME TAXES

A roll-forward of unrecognized tax benefits and associated accrued interest and penalties is as follows:

(in millions)	Interest and Penalties	Unrecognized Tax Benefits	Total
Opening balance at January 1, 2013	\$ 0.6	\$ 12.2	\$ 12.8
Additions for tax positions of prior periods	0.1	0.1	0.2
Reductions due to lapsed statutes of limitations	(0.1)	(0.5)	(0.6)
Closing balance at June 30, 2013	0.6	11.8	12.4
Current	(0.1)	(2.3)	(2.4)
Non-current	\$ 0.5	\$ 9.5	\$ 10.0

All of the \$12.4 million of unrecognized tax benefits, and interest and penalties, would impact our effective tax rate if recognized.

Edgar Filing: INNOSPEC INC. - Form 10-Q

We recognize accrued interest and penalties associated with uncertain tax positions as part of income taxes in our consolidated statements of income.

The Company or one of its subsidiaries files income tax returns with the U.S. federal government, and various state and foreign jurisdictions. As at June 30, 2013, the Company and its U.S. subsidiaries were subject to tax audits in the U.S. and the Company's German and United Kingdom subsidiaries were subject to tax audits in Germany and the United Kingdom, respectively. The Company does not currently anticipate that adjustments, if any, arising out of these tax audits would result in a material change to its financial position as at June 30, 2013.

The Company's subsidiaries in foreign tax jurisdictions are open to examination including France (2009 onwards), Germany (2006 onwards), Switzerland (2011 onwards) and the United Kingdom (2010 onwards).

The Company is in a position to control whether or not to repatriate foreign earnings and we intend to permanently reinvest earnings overseas to fund overseas subsidiaries. No taxes have been provided for the unremitted earnings of our overseas subsidiaries as any tax basis differences relating to investments in these overseas subsidiaries are considered to be permanent in duration. The amount of unremitted earnings at December 31, 2012 and 2011 was approximately \$717 million and \$665 million, respectively. If these earnings are remitted, additional taxes could result after offsetting foreign income taxes paid although the calculation of the additional taxes is not practical at this time.

NOTE 8 LONG-TERM DEBT

Long-term debt consists of the following:

(in millions)	June 30, 2013	December 31, 2012
Revolving credit facility	\$ 23.0	\$ 20.0
Promissory note	10.0	10.0

Less current portion	(5.0)	(5.0)
	\$ 28.0	\$ 25.0

NOTE 9 PLANT CLOSURE PROVISIONS

The principal site giving rise to environmental remediation liabilities is the manufacturing site at Ellesmere Port in the United Kingdom. There are also environmental remediation liabilities on a much smaller scale in respect of our other manufacturing sites in the U.S. and Europe. The liability for estimated closure costs of Innospec's manufacturing facilities includes costs for decontamination and environmental remediation activities (remediation) as demand for TEL diminishes.

Movements in the provisions for the six months ended June 30 are summarized as follows:

(in millions)	Severance	2013 Remediation	Total	2012 Total

INNOSPEC INC. AND SUBSIDIARIES

NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Amounts due within one year refer to provisions where expenditure is expected to arise within one year of the balance sheet date. Severance charges are recognized in the income statement as restructuring costs along with other restructuring costs. Remediation costs are recognized in cost of goods sold.

Remediation

The remediation provision represents the Company's liability for environmental liabilities and asset retirement obligations. The accretion expense recognized in the first six months of 2013 was \$1.3 million.

We recognize environmental liabilities when they are probable and costs can be reasonably estimated, and asset retirement obligations when there is a legal obligation and costs can be reasonably estimated. The Company has to anticipate the program of work required and the associated future expected costs, and comply with environmental legislation in the countries in which it operates or has operated in. The Company views the costs of vacating our Ellesmere Port site as contingent upon if and when it vacates the site because there is no present intention to do so. The Company has further determined that, due to the uncertain product life of TEL particularly in the market for aviation gasoline and other products being manufactured on the site, there are uncertainties as to the probability and timing of the expected costs. Such uncertainties have been considered in estimating the provision.

NOTE 10 FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company utilizes a mid-market pricing convention for valuing the majority of its assets and liabilities measured and reported at fair value. The Company utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated or generally unobservable. The Company primarily applies the market approach for recurring fair value measurements and endeavors to utilize the best available information. Accordingly, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Company is able to classify fair value balances based on the observability of those inputs. The Company gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. In the first six months of 2013, the Company evaluated the fair value hierarchy levels assigned to its assets and liabilities, and concluded that there should be no transfers into or out of Levels 1, 2 and 3.

The following table presents the carrying amount and fair values of the Company's assets and liabilities measured on a recurring basis:

Non-financial liabilities (Level 3 measurement):				
Stock equivalent units	9.5	9.5	12.6	12.6
Acquisition-related contingent consideration	4.5	4.5	4.3	4.3

Commodity swaps are used to manage the Company's cash flow exposure to raw material cost volatility. They were designated as cash flow hedges and qualified for hedge accounting as at December 31, 2011. At March 31, 2012, the commodity hedges were determined to be ineffective and consequently a gain of \$0.1 million was recognized in earnings. The commodity hedges remained ineffective for the remainder of their term to June 2013, and accordingly all changes in their fair value subsequent to March 31, 2012 were recognized in earnings.

Foreign currency forward exchange contracts primarily relate to contracts entered into to hedge future known transactions or hedge balance sheet net cash positions. The movements in the carrying amounts and fair values of these contracts are largely due to changes in exchange rates against the U.S. dollar.

NOTE 11 DERIVATIVE INSTRUMENTS AND RISK MANAGEMENT

The Company has limited involvement with derivative instruments and does not trade them. The Company does use derivatives to manage certain interest rate, foreign currency exchange rate and raw material cost exposures.

The Company has hedged the cost of certain raw materials with commodity swaps which are summarized as follows:

(in millions)	June 30, 2013		December 31, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Notional quantity 275 tonnes			\$ 0.1	\$ 0.1

Table of Contents**INNOSPEC INC. AND SUBSIDIARIES****NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

We enter into various foreign currency forward exchange contracts to minimize currency exchange rate exposure from expected future cash flows. The contracts have maturity dates of up to four years at the date of inception. These foreign currency forward exchange contracts have not been designated as hedging instruments, and their impact on the income statement for the first six months of 2013 is summarized below:

(in millions)	Location of Gain/(Loss) Recognized in Income	Amount of Gain/(Loss) Recognized in Income
Foreign currency forward exchange contracts	Other income/(expense)	\$ 1.0

The Company sells a range of Fuel Specialties, Performance Chemicals and Octane Additives to major oil refineries and chemical companies throughout the world. Credit limits, ongoing credit evaluation and account monitoring procedures are intended to minimize bad debt risk. Collateral is not generally required.

NOTE 12 COMMITMENTS AND CONTINGENCIES**Resolution of certain government investigations and other matters**

As we have previously disclosed, in the first quarter of 2010, the Company reached a \$40.2 million settlement to resolve all matters in respect of investigations by U.S. and United Kingdom government authorities into certain legacy transactions conducted by the Company and its subsidiaries under the United Nations Oil for Food Program, the U.S. Foreign Corrupt Practices Act, the U.S. Cuban Assets Control Regulations and United Kingdom anti-bribery laws. The settlement consists of fines, penalties and disgorgements which are payable over a period of four years commencing 2010. As at June 30, 2013, the expected schedule of payments was as follows:

(in millions)	Government Authorities	Compliance Monitor	Total
Fines, penalties and disgorgements	\$ 40.2	\$ 0.0	\$ 40.2
Fees and associated expenses	0.0	3.9	3.9
Less discounting to fair value	0.0	0.0	0.0

	3.7	0.9	4.6
Due within one year	(3.7)	(0.9)	(4.6)
	\$ 0.0	\$ 0.0	\$ 0.0

For accounting purposes only we are required under GAAP, in accordance with our accounting policy, to discount elements of the fines, penalties and disgorgements to their fair value.

Jalal Bezee Mejel Al-Gaood & Partner litigation

On September 19, 2012, a claim was filed in the High Court of Justice in the United Kingdom by Jalal Bezee Mejel Al-Gaood & Partner and Future Agencies Company Limited (collectively JAG) against the Company, Innospec Limited and a former employee of Innospec Limited. The Company believes JAG was the former Iraq distributor for Afton Chemicals Limited, a subsidiary of NewMarket Corporation, from at least

Edgar Filing: INNOSPEC INC. - Form 10-Q

2005 until termination of that relationship in 2010. The stated claim, inclusive of costs and expenses, is for up to \$42.3 million and relates to alleged loss of profits for JAG's business in Iraq between 2004 and 2010. The Company believes that the allegations in the JAG claim are without merit and intends to defend vigorously its interests.

Other legal matters

While we are involved from time to time in claims and legal proceedings that result from, and are incidental to, the conduct of our business including business and commercial litigation, employee and product liability claims, there are no other material pending legal proceedings to which the Company or any of its subsidiaries is a party, or of which any of their property is subject. It is possible, however, that an adverse resolution of an unexpectedly large number of such individual claims or proceedings could in the aggregate have a material adverse effect on results of operations for a particular year or quarter.

Guarantees

The Company and certain of the Company's consolidated subsidiaries are contingently liable for certain obligations of affiliated companies primarily in the form of guarantees of debt and performance under contracts entered into as a normal business practice. This includes guarantees of non-U.S. excise taxes and customs duties. As at June 30, 2013, such contingent liabilities which are not recognized as liabilities in the consolidated financial statements amounted to \$5.8 million.

Under the terms of the guarantee arrangements, generally the Company would be required to perform should the affiliated company fail to fulfil its obligations under the arrangements. In some cases, the guarantee arrangements have recourse provisions that would enable the Company to recover any payments made under the terms of the guarantees from securities held of the guaranteed parties' assets.

The Company and its affiliates have numerous long-term sales and purchase commitments in their various business activities, which are expected to be fulfilled with no adverse consequences material to the Company.

NOTE 13 STOCKHOLDERS' EQUITY AND STOCK-BASED COMPENSATION PLANS

At June 30, 2013, the Company had authorized common stock of 40,000,000 shares (December 31, 2012 40,000,000). Issued shares at June 30, 2013, were 29,554,500 (December 31, 2012 29,554,500) and treasury stock amounted to 6,005,647 shares (December 31, 2012 6,222,076).

The Company grants stock options and stock equivalent units (SEUs) from time to time as a long-term performance incentive. In certain cases the grants are subject to performance conditions such as the Company's stock price. Where performance conditions apply the Monte Carlo simulation model is used to determine the fair values. Otherwise the Black-Scholes model is used to determine the fair values.

Stock option plans

The Company has five active stock option plans, two of which provide for the grant of stock options to employees, one provides for the grant of stock options to non-employee directors, and another provides for the grant of stock options to key executives on a matching basis provided they use a proportion of their annual bonus to purchase common stock in the Company on the open market or from the Company. The fifth plan is a savings plan which provides for the grant of stock options to all Company employees provided they commit to make regular savings over a pre-defined period which can then be used to purchase common stock upon vesting of the options. The stock options have discrete vesting periods which range from 24 months to 6 years and in all cases stock options granted expire within 10 years of the date of grant. All grants are at the sole discretion of the Compensation Committee of the Board of Directors. Grants may be priced at market value or at a premium or discount (including at no cost). The aggregate number of shares of common stock reserved for issuance which can be granted under the plans is 2,640,000.

Table of Contents**INNOSPEC INC. AND SUBSIDIARIES****NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table summarizes the transactions of the Company's stock option plans for the six months ended June 30, 2013:

	Number of Options	Weighted Average Exercise Price	Weighted Average Grant-Date Fair Value
Outstanding at December 31, 2012	1,001,241	\$ 6.27

Forfeited	(9,500)	\$ 15.97	
Outstanding at June 30, 2013	777,040	\$ 8.16	

At June 30, 2013, there were 149,229 stock options that were exercisable, of which 66,266 had performance conditions attached.

The Company's policy is to issue shares from treasury stock to holders of stock options who exercise those options, but if sufficient treasury stock is not available, the Company will issue previously unissued shares of stock to holders of stock options who exercise options.

The total compensation cost for the first six months of 2013 was \$1.4 million (2012 \$1.6 million). The total intrinsic value of options exercised in the first six months of 2013 was \$2.4 million (2012 \$0.6 million).

The total compensation cost related to non-vested stock options not yet recognized at June 30, 2013 was \$2.7 million and this cost is expected to be recognized over the weighted-average period of 1.98 years.

Stock equivalent units

SEUs have discrete vesting periods which range from 11 months to 4 years and in all cases SEUs granted expire within 10 years of the date of grant. Grants may be priced at market value or at a premium or discount (including at no cost). There is no limit to the number of SEUs that can be granted. The liability for SEUs is located in accrued liabilities in the consolidated balance sheets until they are cash settled.

The following table summarizes the transactions of the Company's SEUs for the six months ended June 30, 2013:

	Number of SEUs	Weighted Average Exercise Price	Weighted Average Grant-Date Fair Value
Outstanding at December 31, 2012	623,828	\$ 2.95

Outstanding at June 30, 2013	413,282	\$ 3.55	

Table of Contents**INNOSPEC INC. AND SUBSIDIARIES****NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

At June 30, 2013, there were 75,439 SEUs that are exercisable, of which 69,097 had performance conditions attached.

The charges for SEUs are spread over the life of the award subject to a revaluation to fair value each quarter. The revaluation may result in a charge or a credit to the income statement in the quarter dependent upon our share price and other performance criteria.

The total compensation cost for the first six months of 2013 was \$3.9 million (2012 \$2.8 million). The total intrinsic value of SEUs exercised in the first six months of 2013 was \$1.8 million (2012 \$1.1 million).

The weighted-average remaining vesting period of non-vested SEUs is 1.19 years.

NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 15 RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2013, the FASB issued ASU 2013-02, *Other Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. The amendments in ASU 2013-02 require the Company to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income, either on the face of the income statement or in the notes, if the amount being reclassified is required under GAAP to be reclassified in its entirety to net income in the same reporting period. For other amounts not required by GAAP to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures which provide additional information about the amounts. The guidance is effective prospectively for reporting periods beginning after December 15, 2012. As this guidance provides only presentation requirements, the adoption of this standard did not impact the Company's results of operations, financial position or cash flows.

In July 2012, the FASB issued ASU 2012-02, *Intangibles - Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment*. ASU 2012-02 simplifies how entities test indefinite-lived intangible assets, other than goodwill, for impairment and permits an entity to first assess qualitative factors to determine whether it is more likely than not that the indefinite-lived intangible asset is impaired. The amendments are effective for annual and interim indefinite-lived intangible asset impairment tests performed for fiscal years beginning after September 15, 2012 (early adoption is permitted). The implementation of the amended accounting guidance has not had a material impact on our consolidated financial statements.

In December 2011, the FASB issued ASU 2011-11, *Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*. The objective of ASU 2011-11 is to facilitate convergence of GAAP and International Financial Reporting Standards and improve the comparability of statements of financial position. Entities are required to disclose both gross information and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting arrangement. In January 2013, the FASB issued ASU 2013-01, *Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*, to limit the scope of ASU 2011-11 to derivatives, sale and repurchase agreements, and securities borrowing and securities lending arrangements. This guidance is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. Entities should provide the disclosures required by these amendments retrospectively for all comparative periods presented. The implementation of the amended accounting guidance has not had a material impact on our consolidated financial statements.

NOTE 16 RELATED PARTY TRANSACTIONS

Mr. Robert I. Paller has been a non-executive director of the Company since November 1, 2009. The Company has retained and continues to retain Smith, Gambrell & Russell, LLP (SGR), a law firm with which Mr. Paller holds a position. In the first six months of 2013 the Company incurred fees payable to SGR of \$0.1 million (2012 full year \$0.8 million). As at June 30, 2013, the amount due to SGR from the Company was \$0.0 million (December 31, 2012 \$0.0 million).

Table of Contents**Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations for the Three and Six Months Ended June 30, 2013**

This discussion should be read in conjunction with our unaudited interim consolidated financial statements and the notes thereto.

CRITICAL ACCOUNTING ESTIMATES

The policies and estimates that the Company considers the most critical in terms of complexity and subjectivity of assessment are those related to contingencies, environmental liabilities, pensions, deferred tax and uncertain income tax positions, goodwill, and other intangible assets (net of amortization) and property, plant and equipment. These policies have been discussed in the Company's 2012 Annual Report on Form 10-K.

Net sales: the table below details the components which comprise the year on year change in net sales spread across the markets in which we operate:

Change (%)	Three Months Ended June 30, 2013				
	Americas	EMEA	ASPAC	Avtel	Total
Volume	+3	+5	+34	-23	+6
Price and product mix	0	+8	-7	-8	+1
Exchange rates	0	0	0	0	0
Acquisitions	+7	0	0	0	+3
	+10	+13	+27	-31	+10

Overall volumes were higher across all regions, excluding Avtel. Americas saw an increase in volumes combined with a stable price and product mix. Acquisitions in the Americas, relating to Strata, continued to generate favorable variances compared to the same quarter in the prior year. Volumes in EMEA and ASPAC also increased, with a richer price and product mix in EMEA. ASPAC price and product mix declined due to increased sales of lower value products. Avtel volumes declined due to the timing of shipments to customers as opposed to any change in the long-term outlook for that market with the price and product mix adversely affected by the customer sales mix.

Table of Contents

Gross margin: the year on year increase of 1.8 percentage points reflected a richer price and product mix in EMEA; the continued benefit from higher margin sales in the Strata businesses; partly offset by a weaker customer mix and lower sales in our higher margin Avtel business.

Operating expenses: the year on year increase of 20%, or \$3.5 million, was primarily due to \$1.8 million of additional costs for the Strata business; \$0.1 million lower personnel-related compensation costs, primarily due to lower accruals for share based compensation expense, driven by the quarterly reduction in our stock price compared to the same quarter in the prior year; and \$1.3 million of additional research, development and new product testing costs.

Performance Chemicals

Net sales: the table below details the components which comprise the year on year change in net sales spread across the markets in which we operate:

Change (%)	Three Months Ended June 30, 2013

Volume	+8	-4	+3	+3
Price and product mix	-4	-1	-2	-3
Exchange rates	-1	-1	-1	-1
	+3	-6	0	-1

Overall volumes were higher with strong momentum in the Personal Care and Fragrance Ingredients markets. Volumes were higher in the Americas driven by volume growth in all markets at the expense of a weaker price and product mix. Sales volumes in EMEA declined primarily due to lower volumes of an industrial product, combined with a marginally weaker price and product mix. ASPAC sales volumes were higher but adversely impacted by competitive pricing pressures.

Gross margin: the year on year decrease of 1.5 percentage points reflected the competitive pricing pressures for Fragrance Ingredients and weaker price and product mix in Polymers, partly offset by a richer price and product mix in our Personal Care market.

Operating expenses: the year on year decrease of 2%, or \$0.1 million, was primarily in respect of \$0.1 million lower personnel-related compensation costs, primarily due to lower accruals for share based compensation expense, driven by the quarterly reduction in our stock price compared to the same quarter in the prior year.

Octane Additives

Net sales: decreased by 25% with decreased volumes (down 27 percentage points), due to the timing of shipments to major customers, and an improved customer mix (up 4 percentage points), offset by reduced revenue from our environmental remediation business (down 2 percentage points). In both 2013 and 2012, sales were focused in the Middle East and Northern Africa.

Gross margin: increased by 1.3 percentage points from 51.8% to 53.1%, primarily due to the customer mix of sales versus the same quarter in the prior year.

Operating expenses: decreased by \$0.4 million from \$1.9 million to \$1.5 million, partly due to efficient management of the cost base as the segment declines.

Table of Contents**Other Income Statement Captions**

Pension credit/(charge): is non-cash, and was a \$0.7 million net charge in 2013 compared to a \$0.1 million net credit in 2012. The net charge in 2013 primarily relates to increased actuarial net losses being amortized to the income statement.

Corporate costs: the year on year increase of 9%, or \$0.7 million, reflected \$2.5 million higher legal and other professional expenses, including \$0.2 million acquisition-related costs; \$0.2 million higher information technology service platform costs; offset by \$0.4 million lower personnel-related compensation costs, primarily due to lower accruals for share based compensation expense, driven by the quarterly reduction in our stock price compared to the same quarter in the prior year; and furthermore offset by a \$1.7 million reduction in the charge for the long-term incentive plan which completed at the end of 2012.

Impairment of Octane Additives segment goodwill: was \$0.3 million in 2013 and 2012.

Other net income/(expense): other net expense of \$1.0 million primarily related to losses on translation of net assets denominated in non-functional currencies in our European businesses, offset by net foreign exchange gains on foreign currency forward exchange contracts. In 2012, other net expense of \$4.3 million primarily related to losses on translation of net assets denominated in non-functional currencies in our European businesses.

Interest expense, net: was \$0.4 million in 2013 and \$0.3 million in 2012.

Income taxes: the effective tax rate was 18.2% and 20.5% in 2013 and 2012, respectively. The effective tax rate reduced by 2.3 percentage points primarily due to the second quarter of 2013 benefiting to a greater extent from the positive impact of taxable profits in different geographical locations.

Americas and EMEA saw a marginal decline in volumes year to date, as improved volumes in the second quarter essentially compensated for declines in volumes in the first quarter. EMEA benefited from an improved price and product mix in both the first and second quarters. Acquisitions in the Americas, relating to Strata, continued to generate favorable variances compared to the same period in the prior year. Volumes were higher in ASPAC due to increased sales of lower margin products, with price and product mix benefiting from improved pricing. Avtel volumes increased due to the timing of shipments to customers as opposed to any change in the long-term outlook for that market with the price and product mix adversely affected by the customer sales mix.

In both 2013 and 2012, sales were focused in the Middle East and Northern Africa.

Gross margin: decreased by 2.7 percentage points from 56.4% to 53.7% due to the benefit from the lower unit cost of inventories sold in 2012 following the increase in TEL production volumes on the fixed cost base of the TEL manufacturing facility, partly offset by a favorable customer mix in the second quarter.

Operating expenses: decreased by \$0.7 million from \$3.7 million to \$3.0 million, partly due to efficient management of the cost base as the segment declines.

Income taxes: the effective tax rate was 19.9% and 22.1% in 2013 and 2012, respectively. The adjusted effective tax rate, once adjusted for non-recurring items relating to the adjustment of income tax provisions, reduced by 1.1 percentage points primarily due to the second quarter of 2013 benefiting to a greater extent from the positive impact of taxable profits in different geographical locations. The Company believes that this adjusted effective tax rate, a non-GAAP financial measure, provides useful information to investors and may assist them in evaluating the Company's underlying performance and identifying operating trends. In addition, management uses this non-GAAP financial measure internally to evaluate the performance of the Company's operations and for planning and forecasting in subsequent periods.

In the first six months of 2013 our adjusted working capital (defined by the Company as trade and other accounts receivable, inventories, prepaid expenses, accounts payable and accrued liabilities rather than total current assets less total current liabilities) decreased by \$7.1 million.

The \$29.0 million decrease in trade and other accounts receivable was focused in our Fuel Specialties and Octane Additives segments, partially offset by a moderate increase in our Performance Chemicals segment. The decrease in trade and other accounts receivable in Fuel Specialties was due to second quarter sales being 19%, or \$28.8 million, lower than the traditionally stronger fourth quarter of 2012; together with the corresponding days sales outstanding improving from 44 days to 40 days. The increase in trade and other accounts receivable in Performance Chemicals was due to sales being 7%, or \$3.1 million, higher for the second quarter compared to the last quarter of 2012; together with days sales outstanding increasing from 43 days to 49 days. Trade receivables in our Octane Additives segment are primarily driven by the timing of shipments to major customers, and the associated sales terms of those shipments, of which there was a significant shipment at the end of the fourth quarter of 2012 which was not the case for the end of the second quarter of 2013.

The \$11.2 million increase in inventories was focused in our Fuel Specialties segment following the decision to build certain product inventories of strategic importance, with days sales in inventory increasing from 69 days to 99 days. This increase was offset to some extent as days sales in inventory in our Performance Chemicals segment decreased over the same period from 101 days to 90 days as the relatively high year end levels of inventory were sold through.

Prepaid expenses decreased \$1.0 million from \$4.1 million to \$3.1 million, reflecting the expensing of year end prepayments particularly in our Fuel Specialties segment.

The \$11.7 million decrease in accounts payable and accrued liabilities was due to reductions across all our segments primarily reflecting payments subsequent to the year end in the normal course of business in respect of

Table of Contents

external suppliers and personnel-related compensation. Creditor days reduced significantly in our Performance Chemicals segment from 41 days to 24 days, reflecting a return to more normal levels after spiking at the year end in line with increased production and associated inventories in the fourth quarter of 2012 together with reduced production in June for a planned plant maintenance shut down at one of our sites. Creditor days in our Fuel Specialties segment increased slightly from 29 days to 31 days.

Operating Cash Flows

We generated cash from operating activities of \$37.6 million and \$30.3 million in the first half of 2013 and 2012, respectively. The increase in cash provided by operating activities from 2012 to 2013 of \$7.3 million reflected an overall reduction in our working capital requirements, offset by lower net income of \$5.0 million, together with a significant movement in income taxes being in a prepayment position of \$4.8 million at the end of the quarter. In the first half of 2013 our working capital requirements decreased by \$2.9 million, compared to a \$12.9 million increase in the first half of 2012.

Cash

At June 30, 2013 and December 31, 2012, we had cash and cash equivalents of \$54.7 million and \$22.4 million, respectively, of which \$51.7 million and \$17.5 million, respectively, were held by non-U.S. subsidiaries principally in the United Kingdom. The Company is in a position to control whether or not to repatriate foreign earnings and intends to reinvest earnings to fund overseas subsidiaries. We currently do not expect to make a repatriation in the foreseeable future and hence have not provided for future income taxes on the cash held by overseas subsidiaries. If circumstances were to change that would cause these earnings to be repatriated an additional U.S. tax liability could be incurred, and we continue to monitor this position.

Short-term investments

At June 30, 2013 and December 31, 2012, we had short-term investments of \$4.3 million and \$5.1 million, respectively.

Debt

At June 30, 2013, the Company had debt outstanding of \$23.0 million under its credit facility and a \$10.0 million promissory note. The credit facility provides for borrowings by us of up to \$100.0 million until it expires on December 14, 2016 and may be drawn down in full in the U.S..

Item 3 Quantitative and Qualitative Disclosures about Market Risk

The Company uses floating rate debt to finance its global operations. The Company is subject to business risks inherent in non-U.S. activities, including political and economic uncertainty, import and export limitations, and market risk related to changes in interest rates and foreign currency exchange rates. The political and economic risks are mitigated by the stability of the countries in which the Company's largest operations are located. Credit limits, ongoing credit evaluation and account monitoring procedures are used to minimize bad debt risk. Collateral is not generally required.

The Company uses derivatives, including interest rate swaps, commodity swaps and foreign currency forward exchange contracts, in the normal course of business to manage market risks. The derivatives used in hedging activities are considered risk management tools and are not used for trading purposes. In addition, the Company enters into derivative instruments with a diversified group of major financial institutions in order to manage the exposure to non-performance of such instruments. The Company's objective in managing the exposure to changes in interest rates is to limit the impact of such changes on earnings and cash flows and to lower overall borrowing costs. The Company's objective in managing the exposure to changes in foreign currency exchange rates is to reduce volatility on earnings and cash flows associated with such changes.

Table of Contents

The Company offers fixed prices for some long-term sales contracts. As manufacturing and raw material costs are subject to variability the Company uses commodity swaps to hedge the cost of some raw materials thus reducing volatility on earnings and cash flows. The derivatives are considered risk management tools and are not used for trading purposes. The Company's objective is to manage its exposure to fluctuating costs of raw materials.

The Company's exposure to market risk has been discussed in the Company's 2012 Annual Report on Form 10-K and there have been no significant changes since that time.

Item 4 **Controls and Procedures** **Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this report the Company carried out an evaluation under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended).

Based upon this evaluation of disclosure controls and procedures, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of June 30, 2013.

Changes in Internal Controls over Financial Reporting

The Company is continuously seeking to improve the efficiency and effectiveness of its operations and of its internal controls. This is intended to result in refinements to processes throughout the Company. As previously disclosed, we are continuing with the implementation of a new, company-wide, information system platform which began in 2011. The platform provider is well established in the market. The implementation will be a phased, risk-managed, site deployment and follow a multistage user acceptance program with the existing platform providing a fallback position. We expect to implement the new platform at the majority of our U.S. sites in the second half of 2013. In connection with this implementation, the Company will update its internal controls over financial reporting, as necessary, to accommodate modifications to its business processes and accounting procedures. However, there has been no change in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1 **Legal Proceedings** **Jalal Bezee Mejel Al-Gaood & Partner litigation**

On September 19, 2012, a claim was filed in the High Court of Justice in the United Kingdom by Jalal Bezee Mejel Al-Gaood & Partner and Future Agencies Company Limited (collectively "JAG") against the Company, Innospec Limited and a former employee of Innospec Limited. The Company believes JAG was the former Iraq distributor for Afton Chemicals Limited, a subsidiary of NewMarket Corporation, from at least 2005 until termination of that relationship in 2010. The stated claim, inclusive of costs and expenses, is for up to \$42.3 million and relates to alleged loss of profits for JAG's business in Iraq between 2004 and 2010. The Company believes that the allegations in the JAG claim are without merit and intends to defend vigorously its interests.

Other legal matters

While we are involved from time to time in claims and legal proceedings that result from, and are incidental to, the conduct of our business including business and commercial litigation, employee and product liability claims,

Table of Contents

there are no other material pending legal proceedings to which the Company or any of its subsidiaries is a party, or of which any of their property is subject. It is possible, however, that an adverse resolution of an unexpectedly large number of such individual claims or proceedings could in the aggregate have a material adverse effect on results of operations for a particular year or quarter.

Item 1A Risk Factors

Information regarding risk factors appears in Item 1A of the Company's 2012 Annual Report on Form 10-K and, in management's view, there have been no material changes in the risk factors facing the Company since that time.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds
