Item 3.02 Unregistered Sales of Equity Securities

On May 29, 2014, the Company closed on the issuance of 300 additional shares of Series C Preferred Stock to Ironridge Technology Co., a division of Ironridge Global IV, Ltd., a British Virgin Islands business company (Ironridge), at a purchase price for each share of Series C Preferred Stock of \$10,000 per share. The closing resulted in gross proceeds to the Company of \$3,000,000.

This transaction was the second tranche closing contemplated by the Stock Purchase Agreement (SPA) with Ironridge dated April 1, 2014. On April 1, 2014, the Company closed the first tranche under the SPA. The first tranche closing also resulted in the Company issuing 300 shares of Series C Preferred Stock to Ironridge and the Company receiving gross proceeds of \$3,000,000.

On May 1, 2014, the Company issued 30 shares of Series C Preferred Stock to Ironridge pursuant to the Registration Rights Agreement (RRA) between the Company and Ironridge. Under the RRA, the Company filed a resale registration statement with the Securities and Exchange Commission registering the shares of Common Stock which may be issued upon (i) conversion of the Series C Preferred Stock, and (ii) the payment by the Company of dividends and make whole amounts (if any) on the Series C Preferred Stock. Under the RRA, the Company was required to issue such 30 additional shares of Series C Preferred Stock because such registration statement was not declared effective by May 1, 2014. Such registration statement became effective on May 25, 2014. The Company did not receive any gross proceeds in connection with this issuance.

The terms of the Series C Preferred Stock issued by the Company are described in our Current Report on Form 8-K dated April 2, 2014.

With the second tranche closing, the Company has completed the financing transactions under the SPA with Ironridge. We have issued a total of 630 shares of Series C Preferred Stock to Ironridge pursuant to the SPA. If all such shares of Series C Preferred Stock were immediately converted, we would be required to issue (i) approximately 5.5 million common shares upon conversion and (ii) assuming a current stock price of \$0.40, approximately 14.7 million additional common shares in the event the Company would elect to pay dividends and make-whole amounts due on the Series C Preferred Stock in the form of shares rather than cash.

The actual number of shares that we would be required to issue to pay dividends and make-whole amounts due on the Series C Preferred Stock in the form of shares rather than cash will fluctuate, since it would be based on our then current stock price at the time the investor elects to convert Series C Preferred Stock. Our registration statement covering the potential resale of common shares that may be issued in connection with the Series C Preferred Stock registered 21 million common shares in the aggregate.

The shares of Series C Preferred Stock were offered and sold in reliance upon exemption from registration pursuant to Section 4(2) under the Securities Act of 1933, as amended (Securities Act), and Rule 506 of Regulation D promulgated thereunder. The offering was made to an accredited investor (as defined by Rule 501 under the Securities Act).
