COMPANY OUTLOOK

With the cessation of the LCM business in April 2014, the Company has been focusing its effort in developing the land parcels in Shenzhen.

In relation to the land parcels (in Guangming and Gushu) in Shenzhen, the construction permit application processes have been proceeding smoothly, and we believe that we can obtain the necessary permits and approvals to carry out the next stages of our property development projects on schedule.

For the Guangming project (Phase 1), the construction permit application processes have been proceeding smoothly, and we are in the process of selecting the suitable and qualified professional architectural firm for the next stage of the project. The construction phase of the Guangming project (Phase 1) is expected to commence in Q1 of 2016. The Guangming project (Phase 2) will commence upon the completion of Guangming project (Phase 1). Based on the current timetable, the construction at the Gushu area is expected to commence no earlier than 2017.

A summary of our planned gross floor area (GFA) of the two Shenzhen land parcels is as follows:

	Guangming		Gushu	
	Phase 1	Phase 2	Phase 1	Phase 2
Plot ratios	2.55 to 3.78		6.25	
Gross floor area sq. meters	265,000	127,000	140,000	140,000
Underground floor area sq. meters	67,600	33,600	27,500	27,500
GFA subtotal (by land area) sq. meters	493,200		335,000	

Please note that the eventual plot ratio and GFA for the two parcels of land could be different from the above, are subject to the final approval of the relevant authorities in China.

Overall, the real estate market in China has shown signs of continuous slow down. It has been reported that Shenzhen is the only first-tier city in China that has recorded modest increases in the average selling price of properties sold recently. Since our land is located in Shenzhen, the demand in property market has remained healthy.

As previously announced, we are in the process of seeking potential joint venture partners for the development of the land parcels in Shenzhen. To this effect, we have engaged external agents to source suitable, capable and experienced joint venture partners. Before a joint venture partner is secured, we will work with other external professional firms in all material matters concerning our permit applications. In the event that no suitable joint venture partners can be found, we will continue with the land development projects mainly by relying on and supported by external professional firms. At this juncture, we do not foresee any immediate difficulties in the application process. We will continue to make announcements from time to time to keep shareholders informed about material developments.

As for our Wuxi plant, all production line machinery has been sold and the factory building continues to be listed for sale.

The current headcount of our Group is approximately 60 and we believe that our overhead expenses are under control. We currently derive a majority of our income from rental and interest income. Any future reductions in the official cash deposit interest rates in China and Hong Kong could adversely impact our income. As of December 31, 2014, total cash was \$258 million (net of the \$40 million HSBC loan). As a result of our cash position, we believe our finances remain healthy to fund the initial stages of these property development projects in the next two to three years. However, the total cash on hand will gradually reduce as more funds are being used for land development related expenditures, which will be capitalized on the balance sheets, for the land in Gushu and Guangming, Shenzhen. We do not anticipate future fluctuation of the USD against RMB to impact us much as a majority, if not all, of the payments for operations are denominated in RMB. However, as our reporting currency is in USD, the fluctuation of RMB against USD will impact our financial statements where the PRC operating results and financial position are translated to USD for reporting purposes. All our land development related applications are subject to government policies and regulations in the real estate market. However, we cannot assure you that we will obtain all the necessary approvals in accordance with our timetable. Furthermore, this is our first venture into the land development projects after the cessation of the LCM business, we may encounter industry-specific difficulties that result in losses as we progress with our projects in Shenzhen.

The information contained in or that can be accessed through the website mentioned in this announcement does not form part of this announcement.

SHARE REPURCHASE PROGRAM UPDATE

The stock repurchase program announced on May 7, 2014 was completed on November 28, 2014. The share repurchase has been conducted in accordance with Rule 10b-18 of the Securities and Exchange Act of 1934. During this 6-month period, we have bought back a total of 2,669,413 common shares from the open market for a total consideration of \$17.6 million (represents an average price of \$6.56 per share). The \$40.0 million loan from HSBC to finance the share repurchase program will be repaid in May 2015 upon maturity.

PAYMENT OF QUARTERLY DIVIDENDS FOR 2014 and 2015

Q4 2015	September 30, 2015	before October 31, 2015	\$ 0.02

The Company's decision to continue dividend payments in 2015 as set out and confirmed in the above table does not necessarily mean that cash dividend payments will continue thereafter. Whether future dividends after 2015 are to be declared will depend upon the Company's future growth and earnings at each relevant period, of which there can be no assurance, and the Company's cash flow needs for business transformation. Accordingly, there can be no assurance that cash dividends on the Company's common shares will be declared beyond those declared for 2015, and we also
