Exhibit 99.1 Press Release

The9 Limited Announces Unaudited Financial Information as of and for the Six Months Ended December 31, 2014

Shanghai, China March 26, 2015. The9 Limited (NASDAQ: NCTY) (The9), an online game developer and operator, announced its unaudited financial results for the six months ended December 31, 2014 today.

Financial Highlights:

Net revenues in the second half of 2014 amounted to RMB36.9 million (US\$5.9 million), representing an increase of 34.4% from RMB27.4 million (US\$4.4 million) in the first half of 2014 and a decrease of 37.2% from RMB58.7 million (US\$9.5 million) in the second half of 2013.

In the second half of 2014, net profit attributable to holders of ordinary shares was RMB34.2 million (US\$5.5 million). In the first half of 2014 and the second half of 2013, net loss attributable to holders of ordinary shares was RMB141.9 million (US\$22.9 million) and RMB244.4 million (US\$39.4 million), respectively.

Management Comments:

Jun Zhu, Chairman and Chief Executive Officer of The9, said, Red 5 launched Firefall in July 2014 in North America and Europe. We have high expectations for Firefall in the China market. In August 2014, Shanghai Oriental Pearl Culture Development Co. Ltd., a wholly-owned subsidiary of Shanghai Oriental Pearl (Group) Co., Ltd. (SH: 600832), closed its investment in Red 5 and became a minority shareholder of Red 5. Also in August 2014, Qihoo 360 Technology Co., Ltd. (NASDAQ: QIHU) and we established a 50-50 joint venture System Link Corporation Limited to publish and operate Firefall in China for a five-year term. Under this license agreement, System Link is expected to pay to us no less than an aggregate of US\$160 million including license fee and royalties during the term of the agreement. All these show the great potential of Firefall in China. We are dedicating our best resources to prepare for the launch of Firefall in China and we target to launch Firefall in China in the second half of 2015. In addition, we are also planning to launch several mobile games in 2015. In August 2014, we sold Huopu Cloud, a subsidiary which developed and held a proprietary web game, for a total consideration of RMB200 million. This sale has proven our in-house game development capability has been recognized by the market.

Discussion of The9's Unaudited 2014 Second Half Results

Net Revenues

Our net revenues in the second half of 2014 amounted to RMB36.9 million (US\$5.9 million), representing an increase of 34.4% from RMB27.4 million (US\$4.4 million) in the first half of 2014 and a decrease of 37.2% from RMB58.7 million (US\$9.5 million) in the second half of 2013. The increase over the first half of 2014 was mainly due to increase of revenue from Firefall in North America and Europe, and partly offset by decrease of revenue from various MMO, web and social games in China. The decrease from the second half of 2013 was mainly due to the decrease of revenue from Planetside 2.

Gross Loss

Our gross loss in the second half of 2014 amounted to RMB7.2 million (US\$1.2 million), compared with RMB14.3 million (US\$2.3 million) and RMB5.2 million (US\$0.8 million) in the first half of 2014 and in the second half of 2013, respectively. The gross loss in the second half of 2014 reflected lower level of revenue generated coupled with the continued incurrence of a relatively fixed portion of our costs, such as overhead, depreciation and rental charges.

Operating Expenses

In the second half of 2014, our operating expenses, excluding gain from disposal of subsidiaries, were RMB151.8 million (US\$24.5 million), which decrease by 0.8% from RMB153.0 million (US\$24.7 million) in the first half of 2014 and decrease by 39.9% from RMB252.6 million (US\$40.7 million) in the second half of 2013. The decrease compared to the first half of 2014 was primarily due to the net effect of the increase in marketing expenses in the second half relating to the launch of Firefall in the North America and Europe, and reversal of an allowance provided on a long-term receivable from a supplier recognized in the second half of 2013. The decrease compared to the second half of 2013 was primarily due to the cost cutting on product development, marketing expenses and general and administrative expenses, and the reversal of an allowance provided on a long-term receivable from a supplier recognized in the second half of 2013. In addition, in the first half of 2014, we also recorded a gain on disposal of subsidiaries of RMB165.4 million (US\$26.7 million) in the second half of 2014 in connection with the disposal of Huopu Cloud Computing Terminal Technology Co., Ltd., a wholly-owned subsidiary, as well as certain other subsidiary, which was recorded as a deduction to operating expense.

Interest Income

Interest income in the second half of 2014 was RMB1.9 million (US\$0.3 million), compared to RMB1.5 million (US\$0.2 million) in the first half of 2014 and RMB2.6 million (US\$0.4 million) in the second half of 2013. The fluctuation of interest income was typically in line with our cash balances.

Other Income (Expenses), Net

Other expenses in the second half of 2014 was RMB5.4 million (US\$0.9 million), compared to other income of RMB3.3 million (US\$0.5 million) in the first half of 2014 and other income of RMB7.0 million (US\$1.1 million) in the second half of 2013. Other expenses in the second half of 2014 mainly represented foreign exchange losses. Other income in the first half of 2014 mainly represented foreign exchange gains. Other income in the second half of 2013 mainly represented a refund of game license fee.

Net Profit (Loss) attributable to holders of ordinary shares

In the second half of 2014, net profit attributable to holders of ordinary shares was RMB34.2 million (US\$5.5 million). In the first half of 2014 and the second half of 2013, net loss attributable to holders of ordinary shares was RMB141.9 million (US\$22.9 million) and RMB244.4 million (US\$39.4 million), respectively.

Basic net profit per share and per ADS in the second half of 2014 was RMB1.48 (US\$0.25), compared to basic net loss per share of RMB6.13 (US\$0.99) in the first half of 2014 and basic net loss per share of RMB10.64 (US\$1.71) in the second half of 2013.

Currency Convenience Translation

The translation of Renminbi (RMB) into US dollars (US\$) in this press release are presented solely for the convenience of the readers at the noon buying rate in the City of New York for cable transfers in Renminbi per U.S. dollar as certified for customs purposes by the H.10 weekly statistical release of the Federal Reserve Board as of December 31, 2014, which was RMB 6.2046 to US\$1.00. Such translations should not be construed as representations that the RMB amounts represents, or have been or could be converted into, US\$ at that or any other rate. The percentages stated in this press release are calculated based on the RMB amounts.

About The9 Limited

The9 Limited is an online game developer and operator in China. The9 develops and operates, directly or through its affiliates, its proprietary MMO, web and mobile games including Firefall, TianTianWanDiaoChan and Dao Feng. In 2010, The9 established its wireless business unit to focus on mobile internet business. In 2013, The9 formed a joint venture with Shanghai ZTE to develop and operate home entertainment set top box business.

Safe Harbor Statement

This announcement contains forward-looking statements. These statements are made under the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as will, expects, anticipates, future, intends, plans, believes, estimates and similar statements. Among other things, the business outlook and quotations from management in this press release contain forward-looking statements. The9 may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission on Forms 20-F and 6-K, etc., in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about The9's beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Potential risks and uncertainties include, but are not limited to, political and economic policies of the Chinese government, the laws and regulations governing the online game industry, information disseminated over the Internet and Internet content providers in China, intensified government regulation of Internet cafes, The9's ability to retain existing players and attract new players, license, develop or acquire additional online games that are appealing to users, anticipate and adapt to changing consumer preferences and respond to competitive market conditions, and other risks and uncertainties outlined in The9's filings with the U.S. Securities and Exchange Commission, including its annual reports on Form 20-F. The9 does not undertake any obligation to update any forward-looking statement, except as required under applicable law.
