- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01 Regulation FD Disclosure

On September 9, 2015, Anna F. Farago, M.D., Ph.D., of the Center for Thoracic Cancers at Massachusetts General Hospital, presented an abstract relating to entrectinib, Ignyta Inc.'s proprietary oral tyrosine kinase inhibitor targeting solid tumors that harbor activating alterations to TrkA, TrkB, TrkC, ROS1 or ALK, in a mini-oral presentation at the 16th World Conference on Lung Cancer in Denver, Colorado. The presentation, which is attached hereto as Exhibit 99.1, details a clinical case study in which entrectinib therapy resulted in rapid clinical improvement accompanied by radiographic evidence of a systemic partial response and near complete resolution of multiple CNS metastases in a patient with non-small cell lung cancer harboring an NTRK1 gene rearrangement whose disease had progressed after multiple prior therapies.

The information contained in this Item 7.01 and in Exhibit 99.1 of this Current Report on Form 8-K shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Item 9.01. Financial Statements and Exhibits
