During the nine months ended December 31, 2015 under review, the economic growth in China slowed down, while employment environment and personal spending in the U.S. were favorable, and economy in Europe continued to recover. In Japan, economy continued to moderately recover, while weakness was still seen such as in personal spending and exportation.

In this recent business condition, Panasonic has determined its business fields for sustainable growth and has been promoting various initiatives to make a major change towards generating profit from sales growth.

As one of the initiatives, for automotive business, Panasonic took a 49% stake in Ficosa International, S.A. (Ficosa) in Spain in June 2015. The Company started business alliance with Ficosa to launch electronic mirror system business in a timely manner. For housing business, the Company opened an elderly housing with supportive service in September 2015, for the first time in the neighborhood of Tokyo. In food distribution solution business, one of the core BtoB solution business, the Company announced to acquire Hussmann Corporation in December 2015, a leading company in commercial refrigerated and freezer display cases in the U.S. Panasonic has been promoting energy-efficient and environment-conscious refrigerated and freezer display cases for food distribution solution business mainly in Japan, China and Asia and this acquisition will enable Panasonic to combine Hussmann's customer relationship and maintenance and service ability with Panasonic's wide-range product lineup. The Company will make this synergy into growth in the U.S. and its neighboring countries.
