Participants in Solicitation The Company, Astoria Financial, their directors, executive officers, and certain other persons may be deemed to be participants in the solicitation of proxies from the Company’s and Astoria Financial’s stockholders in favor of the approval of the merger. Information about the directors and executive officers of the Company and their ownership of its common stock is set forth in the preliminary proxy statement for its 2016 annual meeting of stockholders, as previously filed with the SEC on April 4, 2016. Information about the directors and executive officers of Astoria Financial and their ownership of its common stock is set forth in Amendment No. 1 to the annual report of Astoria Financial for the year ended December 31, 2015, as previously filed with the SEC on April 11, 2016. Stockholders may obtain additional information regarding the interests of such participants by reading the registration statement and the proxy statement/prospectus.

Cautionary Statements Forward-Looking Information This presentation may include forward looking statements by the Company and our authorized officers pertaining to such matters as our goals, intentions, and expectations regarding revenues, earnings, loan production, asset quality, capital levels, and acquisitions, among other matters, including the proposed merger with Astoria Financial; our estimates of future costs and benefits of the actions we may take; our assessments of probable losses on loans; our assessments of interest rate and other market risks; and our ability to achieve our financial and other strategic goals. Forward looking statements are typically identified by such words as “believe,” “expect,” “anticipate,” “intend,” “outlook,” “estimate,” “forecast,” “project,” and other similar words and expressions. Forward looking statements are subject to numerous assumptions, risks, and uncertainties, which change over time. Additionally, forward looking statements speak only as of the date they are made; the Company does not assume any duty, and does not undertake, to update our forward looking statements. Furthermore, because forward looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those anticipated in our statements, and our future performance could differ materially from our historical results. Our forward looking statements are subject to the following principal risks and uncertainties: general economic conditions and trends, either nationally or locally; conditions in the securities markets; changes in interest rates; changes in deposit flows, and in the demand for deposit, loan, and investment products and other financial services; changes in real estate values; changes in the quality or composition of our loan or investment portfolios; changes in competitive pressures among financial institutions or from non financial institutions; our ability to obtain the necessary shareholder and regulatory approvals of any acquisitions we may propose, including the proposed Astoria Financial merger; our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we may acquire into our operations, and our ability to realize related revenue synergies and cost savings within expected time frames; changes in legislation, regulations, and policies; and a variety of other matters which, by their nature, are subject to significant uncertainties and/or are beyond our control. More information regarding some of these factors is provided in the Risk Factors section of our Form 10 K for the year ended December 31, 2015 and in other SEC reports we file. Our forward looking statements may also be subject to other risks and uncertainties, including those we may discuss in this presentation, or in our SEC filings, which are accessible on our website and at the SEC’s website, www.sec.gov.

Our Use of Non-GAAP Financial Measures This presentation may contain certain non-GAAP financial measures which management believes to be useful to investors in understanding the companies’ performance and financial condition, and in comparing their performance and financial condition with those of other banks. Such non-GAAP financial measures are not to be considered in isolation or as a substitute for measures calculated in accordance with GAAP.

Pro forma assets, deposits, and multi-family loans are based on our balances and Astoria's at 12/31/15 and include purchase accounting adjustments. Data from SNL Financial as of 6/30/15. Reflecting its in-market nature and our extensive expertise in post-merger integration and restructuring, the Astoria merger presents maximal opportunities for revenue enhancement while minimizing risk. Capitalizes on Complementary Business Models Provides immediate scale to leverage compliance-related costs Expedites our ability to comply with LCR requirements Validates our extensive preparations for SIFI status Facilitates our Transition to SIFI Status Provides Ample Opportunities for Continued Earnings and Capital Growth Post-merger sale of \$1+ billion of acquired assets to reduce credit risk, enhance liquidity, and fund investments in HQLAs Acquired real estate has embedded value

The Astoria merger is expected to enhance our asset and funding mix. NYCB Astoria Pro Forma (a) Total HFI Loans: \$37.8 bn Yield on Loans: 3.97% NYCB Astoria Pro Forma (a) Total Deposits: \$28.4 bn Cost of I-B Deposits: 0.62% Total HFI Loans: \$11.1 bn Yield on Loans: 3.51% Total HFI Loans: \$48.6 bn Yield on Loans: 3.86% Total Deposits: \$9.1 bn Cost of I-B Deposits: 0.41% Total Deposits: \$37.6 bn Cost of I-B Deposits: 0.58% Pro forma deposit and loan data is based on our balances and Astoria's at 12/31/15 and includes purchase accounting adjustments.

We expect the Astoria merger to provide multiple opportunities to drive profitable, sustainable, long-term asset growth. The Pro Forma Company is Primed for Strong Core Asset Growth Results in greater on-balance sheet capacity to support loan production Highly liquid residential mortgage loan portfolio provides the flexibility to manage our asset mix Stronger capital formation and multiple sources of funding and liquidity are available to support growth Growth Levers More loans to be retained in portfolio once SIFI threshold is exceeded (\$3.2 billion of loans sold from 3Q 2014 through 1Q 2016 to manage our assets under \$50 billion) Expected sale of acquired (higher-risk) assets to support loan growth going forward Facilitates the continuation of our growth-through-acquisition strategy Results Earnings growth Higher operating leverage Improved risk profile Enhanced returns for investors

De-risking our balance sheet is expected to strengthen our financial performance both before and after the merger. Balance Sheet Repositioning Strategies In 4Q 2015, we prepaid \$10.4 billion of primarily puttable wholesale borrowings with an average cost of 3.16% and replaced them with a like amount of wholesale borrowings with fixed maturities and an average cost of 1.58%. While the prepayment of wholesale borrowings resulted in a one-time after-tax debt repositioning charge of \$546.8 million in 4Q 2015, it is expected to reduce our annual interest expense by ~ \$100 million after-tax beginning in 2016. Upon completion of the merger, the terms on \$1.5 billion of short-term borrowings will be extended, reducing our interest rate sensitivity. We also expect to sell \$1+ billion of Astoria's non-performing and higher-risk assets at the close. Benefits of De-Risking: Eliminates puttable risk Improves NPV and NII interest rate sensitivity ratios Reduces exposure to rising interest rates Enhances both liquidity and asset quality Financial Benefits Expected in FY 16 from 4Q 15 Repositioning: EPS accretion: ~ 10% Net Interest Margin: ~ 35 bps Net Interest Income: ~ \$165 million Net Income: ~ \$100 million

Enhancing our capital management strategy has strengthened our capital measures and is expected to facilitate further growth. Completed on 11/4/15, our common stock offering: Immediately supported our tangible stockholders' equity and Tier 1 common equity; and Exceeded by \$87.3 million the impact on capital of the one-time after-tax balance sheet repositioning charge incurred in 4Q 2015. Adjusting our quarterly cash dividend to \$0.17 per share positioned us for sustainable long-term capital growth while still providing our investors with an attractive yield. Dividend declared on 4/20/16 provided a yield of 4.3%. Capital retention served to minimize the dilution from our 4Q 2015 capital raise. Building capital will facilitate the execution of our growth-through-acquisition strategy going forward, and provide the flexibility to maximize future value-enhancing capital deployment strategies. Enhancements to Our Capital Management Strategy Increased Capital Generation 12-month bps of Capital Generation

Following enactment of the Dodd-Frank Act, we began allocating significant resources towards SIFI preparedness. The degree to which we have already leveraged the cost of SIFI compliance is reflected in the ~ 700-basis point increase in our efficiency ratio since the enactment of Dodd-Frank. The merger will provide the additional scale to leverage the remaining SIFI compliance costs. We expect the merger to bring us well beyond the current SIFI threshold. Preparing for SIFI Status NYCB Efficiency Ratio Prior to and Since Dodd-Frank SIFI Compliance Key infrastructure investments to date include: Enhanced ERM and corporate governance frameworks Bottom-up capital planning and stress testing capabilities Substantial expansion of regulatory compliance staff Remaining costs of SIFI compliance include LCR, CCAR reporting, and Living Will

As we continue to grow, we would expect our total payout ratio to be more consistent with the total payout ratio for our SIFI peers. Dividends Approved in 2015 Share Repurchases Approved in 2015

Features Loans can be originated/purchased in all 50 states and the District of Columbia. Loan production is driven by our proprietary real time, web-accessible mortgage banking technology platform, which securely controls the lending process while mitigating business and regulatory risks. We have over 900 approved clients including community banks, credit unions, mortgage companies, and mortgage brokers. 100% of loans funded are full documentation, prime credit loans. Credit Quality As of March 31, 2016, 99.8% of all funded loans were current. Limited Repurchase Risk No loans were repurchased in 1Q 2016. Benefits Since January 2010, our mortgage banking business has originated 1-4 family loans of \$43.6 billion and generated mortgage banking income of \$642.7 million. Our proprietary mortgage banking platform has enabled us to expand our revenues, market share, and product line. Over time, mortgage banking income has supported the stability of our return on average tangible assets, even in times of interest rate volatility. The Astoria merger is expected to leverage our mortgage banking platform and its residential mortgage lending expertise.
