**Item 2.01 Completion of Acquisition or Disposition of Assets**

On April 27, 2016, Neogen Corporation ( Company ) issued a press release announcing that, effective that same date, it had acquired Brazil-based Deoxi Biotecnologia Ltda (Deoxi) a leading animal genomics laboratory in the country with the most cattle in the world.

The acquisition of Deoxi is intended to help accelerate the growth of Neogen's GeneSeek animal genomics in Brazil, which is home to more than 200 million cattle (as a comparison, the United States is home to approximately 90 million cattle). Deoxi was founded in 2008, and was a competitor of Neogen's in the livestock genomics market. The Deoxi laboratory will remain in Araçatuba, in Sao Paulo state, and offers the Company's customers the benefits of dealing directly with a Brazilian location.

A copy of the press release is attached as Exhibit 99.1 to this report. This Form 8-K and the attached exhibit shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and are not incorporated by reference into any filing of the Registrant, whether made before or after the date of this report, regardless of any general incorporation language in the filing.
