### **A Premier Global Solutions Provider Building the Future Together**

Following the exciting announcement regarding our intention to acquire CH2M three weeks ago I have had the pleasure of travelling around to many of our Jacobs and CH2M offices to meet many of our folks and CH2M's and taken the opportunity to give them an overview of what to expect over the coming weeks and months.

So far I have been to Atlanta, Dallas, Fort Worth, Miami, San Francisco and plan to visit Philadelphia, Conshohocken, New York, Los Angeles, Melbourne, Sydney, Morocco, Singapore, Solothurn, London over the next few weeks for further Town Hall meetings. I have been delighted to see and hear such enthusiasm and positive feedback from folks in both companies.

By bringing our companies together we will create an industry defining organization which will position us as a premier \$15B global leader. Our primary goal is to become the employer of choice with the best projects and the best people, enabling us to provide the best solutions for our clients. Our compelling strategic fit with our complementary cultures, values and capabilities will position us to expand our presence around the world, accelerate profitable growth and provide our people with great opportunities. It also dovetails with our growth strategy which we have communicated via our recent Strategy Ignition Learning Map sessions. It will bring us enhanced capabilities in key growth sectors such as environmental services, water and nuclear and position us to improve our positions in these core sectors, offering a more robust value proposition for our customers, and ultimately expand our capabilities in the Industrial and Buildings & Infrastructure Lines of Businesses.

I've been asked at many of these recent Town Hall meetings what has impressed me most about CH2M. There is a LOT! First and foremost, it's the people and the quality of the skills and solutions they provide to their clients. I had the opportunity to lead our Due Diligence team prior to the signing of this transaction and I saw first-hand the passion CH2M has to provide innovative technical solutions and ultimately their desire to make an impact on the world. The work that CH2M does is awesome and coupled with our own tremendous talent and project portfolio this will set a new bench mark for client service, delivering differentiated services and solutions resulting in business opportunities that neither company could deliver on their own - making us a leading solutions provider in our industry.

A couple of other things that have really stood out for me are CH2M's Communities of Practice, where technical leaders are developing talent and steering the organization to be on the leading edge of innovative solutions and their Big City strategies where they have demonstrated that they have a superb understanding of large metropolitan areas both of which I believe will really complement the work that we have already done in these areas. They are also following a very similar journey to Jacobs in terms of Transformation with the recent implementation of Oracle R12, Eco-sys,

and a client relationship management system (Similar to our Client Success Platform powered by Salesforce).

**What does this change mean for you?**

So, what can you expect within the next 90 days? Nothing changes at the moment it is very much business as usual as we continue to operate as separate entities until our two great companies officially come together upon closing, which we believe may be towards the end of this calendar year. Let's keep our focus on our day-to-day responsibilities and above all ensure we continue to deliver superior value to our clients.

Moving forward I believe this will create great employee opportunities as we become part of a larger, diversified company. Our focused, disciplined approach will make us an even stronger partner for our clients. These types of transactions often come with uncertainty; however, both companies are in need of great talent and have an acute focus on growth and specifically growing our people. Looking forward, I believe we will work on some of the most challenging and exciting projects in the world and become the industry's leading employer of choice.

I urge you to be excited, be curious, be open and look out for more news from our Integration Management Office (IMO) team over the coming weeks. The IMO team plans to communicate with both companies openly and frequently, so stay positive. If you have any questions in the meantime then check out the FAQs or submit your questions via the dedicated JacobsConnect integration site by clicking [here](#).

Thank you for your support in helping us build our future together and I look forward to seeing many of you as I continue my visits across the company over the next few weeks.
