The exact stock prices and effective dates may not be set forth in the table above, in which case:

if the applicable stock price is between two stock prices in the table or the applicable effective date is between two effective dates in the table, the fundamental change early settlement rate or merger termination redemption rate, as applicable, will be determined by straight line interpolation between the fundamental change early settlement rates or merger termination redemption rate, as applicable, set forth for the higher and lower stock prices and the earlier and later effective dates, as applicable, based on a 365- or 366- day year, as applicable;

if the applicable stock price is greater than \$60.00 per share (subject to adjustment in the same manner and at the same time as the stock prices set forth in the column headings of the table above), then the fundamental change early settlement rate or the merger termination redemption rate, as applicable, will be the Minimum Settlement Rate; or

if the applicable stock price is less than \$5.00 per share (subject to adjustment in the same manner and at the same time as the stock prices set forth in the column headings of the table above, the **Minimum Stock Price**), the fundamental change early settlement rate or merger termination redemption rate, as applicable, will be determined as if the stock price equaled the

minimum stock price, and using straight line interpolation, as described in the first bullet of this paragraph, if the effective date is between two effective dates in the table.

The maximum number of shares of Common Stock deliverable under a Purchase Contract is 4.8054, subject to adjustment in the same manner and at the same time as the fixed settlement rates as set forth under Description of the Purchase Contracts Adjustments to the Fixed Settlement Rates in the Preliminary Prospectus Supplement.

if the merger termination redemption stock price is greater than the reference

price, a number of shares of Common Stock equal to the number of shares of Common Stock determined by reference to the table set forth above opposite the caption Early Settlement Upon a Fundamental Change (with references to stock price deemed to refer to the merger termination redemption stock price, references to fundamental change early settlement rate deemed to refer to the merger termination redemption rate, and references to effective date deemed to refer to the date of the related merger termination redemption notice); *provided* that the Issuer may elect to pay cash in lieu of delivering any or all of the shares of Common Stock in an amount equal to the merger termination redemption rate *multiplied by* the merger termination redemption market value; *provided further* that, if the Issuer so elects to pay cash, the Issuer will specify in the merger termination redemption notice the number of shares of Common Stock that will be replaced with cash.
