MEDIA RELEASE

**ARCTIC PLATINUM PROJECT REVERTS
TO GOLD FIELDS**

Johannesburg, 10 September 2008: Gold Fields Limited (“Gold Fields”) (NYSE, JSE, DIFX: GFI) today announced that the Arctic Platinum Project (APP) in Finland had reverted to Gold Fields after North American Palladium Limited (NAP), a Canadian platinum metals group producer, had declined to follow its rights in terms of a Letter of Intent entered into between the parties and announced on 18 October 2005 and an Acquisition and Framework Agreement subsequently entered into between the parties.

In terms of the agreement Gold Fields and NAP formed a joint venture to further explore mining properties and possibly develop a mine at Gold Fields’ Arctic Platinum Project, located approximately 60 kilometers south of the city of Rovaniemi in northern Finland. Gold Fields also granted an option to NAP to acquire up to a 60% undivided interest in the Project. NAP’s option to acquire its interest in APP was subject to NAP undertaking approved expenditure on the Project of approximately US\$12.5 million, and making a decision to develop a mine at the property, prior to the expiry of the option period on 31 August 2008. Had NAP satisfied these conditions and exercised the option, it would have been required to issue up to approximately 9.2 million NAP common shares to Gold Fields in consideration for the acquisition of its interest in APP which,

based on the weighted average trading price on the American Stock Exchange for the eleven trading days commencing on October 11, 2005, would have valued the consideration at approximately US\$45 million. During the option period NAP was the operator of the project. NAP has informed Gold Fields that it will not follow its rights in terms of the agreement and therefore the option has expired and the agreement has been terminated.

With effect from 1 September 2008, Gold Fields has therefore again taken full control and management of APP and will explore ways in which to realize value for its shareholders from this asset.

-ends-

About Gold Fields

Gold Fields Limited is one of the world's largest unhedged producers of gold with attributable production of 3.64 million ounces per annum from eight operating mines in South Africa, Ghana and Australia. A ninth mine, Cerro Corona Gold/Copper mine in Peru, commenced production in August 2008 at an initial rate of approximately 375,000 gold equivalent ounces per annum. The company has total attributable ore reserves of 83 million ounces and mineral resources of 251 million ounces. Gold Fields is listed on JSE Limited (primary listing), the New York Stock Exchange (NYSE), the Dubai International Financial Exchange (DIFX), the Euronext in Brussels (NYX) and Swiss Exchange (SWX).

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
