NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts)

(unaudited)

NOTE 1 – BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with United States of America ("U.S.") generally accepted accounting principles ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and related notes of Hudson Global, Inc. and its subsidiaries (the "Company") filed in its Annual Report on Form 10-K for the year ended December 31, 2014.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of operating revenues and expenses. These estimates are based on management's knowledge and judgments. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the Company's financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations for interim periods are not necessarily indicative of the results of operations for the full year. The Condensed Consolidated Financial Statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant intra-entity balances and transactions between and among the Company and its subsidiaries have been eliminated in consolidation.

Certain prior year amounts have been reclassified to conform to the current year presentation for discontinued operations. See Note 5 for further details regarding the discontinued operations reclassification.

NOTE 2 – DESCRIPTION OF BUSINESS

The Company is comprised of the operations, assets and liabilities of the three Hudson regional businesses of Hudson Americas, Hudson Asia Pacific, and Hudson Europe ("Hudson regional businesses" or "Hudson"). The Company provides specialized professional-level recruitment and related talent solutions. The Company's core service offerings include Permanent Recruitment, Temporary Contracting, Recruitment Process Outsourcing ("RPO") and Talent Management Solutions.

The Company operates in 13 countries with three reportable geographic business segments: Hudson Americas, Hudson Asia Pacific, and Hudson Europe. See Note 17 for further details regarding the reportable segments. Corporate expenses are reported separately from the reportable segments and pertain to certain functions, such as executive management, corporate governance, human resources, accounting, tax, marketing, information technology and treasury. A portion of these expenses are attributed to the reportable segments for providing the above services to them and have been allocated to the segments as management service fees and are included in the segments' non-operating other income (expense).

The Company's core service offerings include those services described below.

Permanent Recruitment: Offered on both a retained and contingent basis, Hudson's Permanent Recruitment services leverage its consultants, psychologists and other professionals in the development and delivery of its proprietary methods to identify, select and engage the best-fit talent for critical client roles.

NOTE 3 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2015, the FASB issued Accounting Standards Update ("ASU") No. ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs" ("ASU 2015-03"), which amends the current presentation of debt issuance costs in the financial statements. ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, instead of as an asset. The amendments are to be applied retrospectively and are effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015, but early adoption is permitted. The Company does not believe the impact of its pending adoption of ASU 2015-03 on the Company's consolidated financial statements will be material.

In August 2014, the FASB issued ASU No. 2014-15, "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern" ("ASU 2014-15"), to provide guidance on management's responsibility to evaluate whether there is substantial doubt about a company's ability to continue as a going concern within one year after the date that the financial statements are issued. ASU 2014-15 also provides guidance for related footnote disclosures. ASU 2014-15 is effective for the Company beginning on January 1, 2016 with early adoption permitted. The Company does not believe the impact of its pending adoption of ASU 2014-15 on the Company's consolidated financial statements will be material.

In June 2014, the FASB issued ASU No. 2014-12, "Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period" ("ASU 2014-12"). ASU 2014-12 requires that a performance target that affects vesting and could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification ("ASC") 718, "Compensation - Stock Compensation," as it relates to such awards. ASU 2014-12 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015 with early adoption permitted using either of two methods: (i) prospective to all awards granted or modified after the effective date or (ii) retrospective to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter, with the cumulative effect of applying ASU 2014-12 as an adjustment to the opening retained earnings balance as of the beginning of the earliest annual period presented in the financial statements. Accordingly, the standard is effective for the Company beginning on January 1, 2016. The Company does not believe the impact of its pending adoption of ASU 2014-12 on the Company's consolidated financial statements will be material.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)." This ASU is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments

and assets recognized from costs incurred to obtain or fulfill a contract. In July 2015, the FASB amended the effective date of this ASU to fiscal years beginning after December 15, 2017 and early adoption is permitted only for fiscal years beginning after December 15, 2016. Accordingly, we plan to adopt this ASU on January 1, 2018. Companies may use either a full retrospective or a modified retrospective approach to adopt this ASU. The Company is currently evaluating the impact that adopting ASU 2014-09 will have on the Company's financial condition, results of operations, and disclosures.

In April 2014, the FASB issued ASU No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" ("ASU 2014-08"). ASU No. 2014-08 raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. ASU 2014-08 is effective for fiscal years, and interim periods within those years, beginning on or after December 15, 2014. Accordingly, the standard was effective for the Company beginning on January 1, 2015. The Company has

adopted ASU 2014-08. In the current quarter, the Company divested and exited certain business. Under the new guidance, the exited businesses did not reach the thresholds required to qualify as discontinued operations and, as a result, the operations remain within the Company's continuing operations for all periods presented. There are no other recently issued accounting pronouncements that have had, or that the Company believes will have, a material impact on the Company's consolidated financial statements.

NOTE 4 – DIVESTITURES

Hudson Information Technology (US) business (the "US IT business")

On June 15, 2015, the Company completed the sale (the "US IT Business Sale") of substantially all of the assets (excluding working capital) of its US IT business to Mastech, Inc. (the "Purchaser"). The completion of the US IT Business Sale was effective June 14, 2015. The US IT Business Sale was pursuant to an Asset Purchase Agreement, dated as of May 8, 2015, by and among the Company, Hudson Global Resources Management, Inc., a wholly owned subsidiary of the Company, and the Purchaser. At the closing of the Sale, the Company received from the Purchaser pursuant to the Agreement the purchase price of \$16,977 in cash. The US IT business pre-tax loss in accordance with ASC No. 205 "Reporting Discontinued Operations" ("ASC 205") for the three and six months ended June 30, 2015 was \$266 and \$7, respectively compared to a pre-tax profit of \$705 and \$1,178 for the same periods in 2014.

On the US IT Business Sale, the Company recognizing a pre-tax gain of \$15,938, net of closing and other direct transaction costs. Income tax on the gain was \$11. For U.S. Federal income tax purposes, the gain is offset in full by net operating loss carryforwards. For state and local income tax purposes, the gain is mostly offset by net operating loss carryforwards. As the divestiture did not meet the requirements for classification as discontinued operations, the gain on sale is presented as a component of income (loss) from operations.

Netherlands business

On April 7, 2015, the Company's Board of Directors authorized management to divest the Company's Netherlands business within its Hudson Europe Segment. As such, the Company determined the Netherlands business had met the criteria for assets held for sale in accordance ASC 205 as of April 9, 2015.

On May 7, 2015, the Company entered into a Share Purchase Agreement and completed the sale (the "Netherlands Business Sale") of its Netherlands business, to InterBalance Group B.V., effective April 30, 2015, in a management buyout for \$9,029 which included cash retained of \$1,135. As a result, the Company recognized a gain of \$2,881 on the divestiture of the Netherlands Business Sale, which included \$2,759 of non-cash accumulated foreign currency translation losses. Income tax on the gain was \$0 because the gain is exempt from Netherlands tax. As the divestiture did not meet the requirements for classification as discontinued operations, the gain on sale is presented as a component of income (loss) from operations. The Netherlands pre-tax profit in accordance with ASC 205 for the three and six months ended June 30, 2015 was \$17 and \$373, respectively, compared to a pre-tax profit of \$364 and \$705 for the same periods in 2014.

Exit of Businesses in Central and Eastern Europe

In February 2015, the Company's Board of Directors approved the exit of operations in certain countries within Central and Eastern Europe (Ukraine, Czech Republic and Slovakia). In the current quarter, the Company deemed the

liquidation of its Central and Eastern Europe businesses to be substantially complete. As such, under ASC 830, "Foreign Currency Matters" the Company transferred \$1,186 of accumulated foreign currency translation gains from accumulated other comprehensive income to the statement of operations within gain on sale and exit of businesses for the three and six months ended June 30, 2015.

NOTE 5 –DISCONTINUED OPERATIONS

Effective November 9, 2014, the Company completed the sale of substantially all of the assets and certain liabilities of its Legal eDiscovery business in the U.S. and United Kingdom ("U.K.") to Document Technologies, LLC and DTI of London Limited. In addition, in 2014, the Company ceased operations in Sweden, which was included within the Hudson Europe segment. The Company concluded that the divestiture of the Legal eDiscovery business and the cessation of operations in Sweden meet the criteria for discontinued operations set forth in ASC 205. The Company reclassified its discontinued operations for all periods presented and has excluded the results of its discontinued operations from continuing operations and from segment results for all periods presented.

The region where services are provided, the mix of contracting and permanent recruitment, and the functional nature of the staffing services provided can affect gross margin. The salaries, commissions, payroll taxes and employee benefits related to recruitment professionals are included under the caption "Selling, general and administrative expenses" in the Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss).

NOTE 7 – STOCK-BASED COMPENSATION

Incentive Compensation Plan

The Company maintains the Hudson Global, Inc. 2009 Incentive Stock and Awards Plan, as amended and restated April 26, 2012 (the “ISAP”), pursuant to which it can issue equity-based compensation incentives to eligible participants. The ISAP permits the granting of stock options, restricted stock, restricted stock units, and other types of equity-based awards. The Compensation Committee of the Company’s Board of Directors (the “Compensation Committee”) will establish such conditions as it deems appropriate on the granting or vesting of stock options, restricted stock, restricted stock units and other types of equity-based awards. Vesting accelerates upon the occurrence of events that involve or may result in a change of control. The Company grants primarily restricted stock to its employees, although the Company has recently also granted restricted stock units to certain of its employees. A restricted stock unit is equivalent to one share of the Company’s common stock and is payable only in common stock of the Company issued under the ISAP.

The Compensation Committee administers the ISAP and may designate any of the following as a participant under the ISAP: any officer or other employee of the Company or its affiliates or individuals engaged to become an officer or employee; consultants or other independent contractors who provide services to the Company or its affiliates; and non-employee directors of the Company. As of June 30, 2015, there were 1,045,167 shares of the Company’s common stock available for future issuance under the ISAP.

The Company’s stock plan agreements provide that a change in control of the Company will occur if, among other things, individuals who were directors as of the date of the agreement and any new director whose appointment or election was approved or recommended by a vote of at least two-thirds of the directors then in office who were either directors on the date of the agreement or whose appointment or election was previously so approved or recommended (each, a “continuing director”) cease to constitute a majority of the Company’s directors. A change in control occurred as of the Company’s 2015 annual meeting of stockholders on June 15, 2015 under these agreements because continuing directors ceased to constitute a majority of the Company’s directors. As a result, certain equity awards vested resulting in an accelerated stock-based compensation expense of \$2,541 for the three and six months ended June 30, 2015. A summary of the quantity and vesting conditions for stock-based awards granted to the Company’s employees for the six months ended June 30, 2015 was as follows:

Vesting conditions	Number of Shares of Restricted Stock Granted	Number of Restricted Stock Units Granted	Total
Performance and service conditions (1)	590,100	105,400	695,500
Vest 100% 18 months after the grant date with service conditions only	150,000	—	150,000
Vest 100% 18 months after the grant date with market and service conditions (2)	350,000	—	350,000
Total shares of stock award granted	1,090,100	105,400	1,195,500

(1) As a result of the June 15, 2015 change in control event all unvested grants of restricted stock and restricted stock units became fully vested.

(2) At the end of the Performance Period, the restricted stock subject to market condition may vest, in whole or in part, based on the Company’s maximum 30-trading-day volume-weighted average common stock price during the period from May 18, 2015 to November 13, 2016 (the “Average Share Price”) as compared to specified share price

targets. If the Company's Average Share Price is less than \$3.50, none of the restricted stock shall vest. Twenty-five percent of the restricted stock shall vest if the Company's Average Share Price equals \$3.50. Fifty percent of the restricted stock shall vest if the Company's Average Share Price equals \$4.25. Seventy-five percent of the restricted stock shall vest if the Company's Average Share Price equals \$5.00. One hundred percent of the restricted stock shall vest if the Company's Average Share Price is greater than or equal to \$6.00. For Average Share Price results between two share price targets, the percent of Restricted Stock vested shall be determined using linear interpolation.

The Company also maintains the Director Deferred Share Plan (the "Director Plan") pursuant to which it can issue restricted stock units to its non-employee directors. A restricted stock unit is equivalent to one share of the Company's common stock and is payable only in common stock issued under the ISAP upon a director ceasing service as a member of the Board of Directors of the Company. The restricted stock units vest immediately upon grant and are credited to each of the non-employee director's retirement accounts under the Director Plan. During the six months ended June 30, 2015, the Company granted 214,721 restricted stock units to its non-employee directors pursuant to the Director Plan.

Defined Contribution Plan and Employer-matching contributions

The Company maintains the Hudson Global, Inc. 401(k) Savings Plan (the "401(k) plan"). The 401(k) plan allows eligible employees to contribute up to 15% of their earnings to the 401(k) plan. The Company has the discretion to match employees' contributions up to 3% of the employees' earnings through a contribution of the Company's common stock to the 401(k) plan. Vesting of the Company's contribution occurs over a five-year period. NOTE 8 – INCOME TAXES

Under ASC 270, "Interim Reporting", and ASC 740-270, "Income Taxes – Intra Period Tax Allocation", the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss for the full year where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740-270 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Effective Tax Rate

The provision for income taxes for the six months ended June 30, 2015 was \$331 on a pre-tax income from continuing operations of \$6,451, compared to a provision for income taxes of \$595 on pre-tax loss from continuing operations of \$7,082 for the same period in 2014. The Company's effective income tax rate was positive 5.1% and negative 8.4% for the six months ended June 30, 2015 and 2014, respectively. For the six months ended June 30, 2015, the effective tax rate differed from the U.S. Federal statutory rate of 35% due to the foreign tax exemptions applicable to gains on sale or exit of businesses, the inability of the Company to recognize tax benefits on losses until positive earnings are derived in the U.S. and certain other foreign jurisdictions, non-deductible expenses, and variations from the U.S. tax rate in foreign jurisdictions. For the six months ended June 30, 2014, the effective tax rate differed from the U.S. Federal statutory rate of 35% due primarily to the Company's inability to benefit from losses in the U.S. and certain foreign jurisdictions.

Uncertain Tax Positions

As of June 30, 2015 and December 31, 2014, the Company had \$2,331 and \$2,397, respectively, of unrecognized tax benefits, including interest and penalties, which if recognized in the future, would lower the Company's annual effective income tax rate. Accrued interest and penalties were \$555 and \$554 as of June 30, 2015 and December 31, 2014, respectively. Estimated interest and penalties are classified as part of the provision for income taxes in the Company's Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss) and totaled to a provision of \$34 and \$34 for the six months ended June 30, 2015 and 2014, respectively.

In many cases, the Company's unrecognized tax benefits are related to tax years that remain subject to examination by the relevant tax authorities. Tax years with net operating losses ("NOLs") remain open until such losses expire or until the statutes of limitations for those years when the NOLs are used expire. As of June 30, 2015, the Company's open tax years, which remain subject to examination by the relevant tax authorities, were principally as follows:

	Year
Earliest tax years which remain subject to examination by the relevant tax authorities:	
U.S. Federal	2011
Majority of U.S. state and local jurisdictions	2010
United Kingdom	2013
Australia	2010
Majority of other non-U.S. jurisdictions	2009

The Company believes that its tax reserves are adequate for all years that remain subject to examination or are currently under examination.

Based on information available as of June 30, 2015, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in the range of \$500 to \$700 over the next 12 months as a result of projected resolutions of global tax examinations and controversies and potential expirations of the applicable statutes of limitations.

NOTE 9 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding during the period. When the effects are not anti-dilutive, diluted earnings (loss) per

share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding and the impact of all dilutive potential common shares, primarily stock options "in-the-money", unvested restricted stock and unvested restricted stock units. The dilutive impact of stock options, unvested restricted stock, and unvested restricted stock units is

determined by applying the "treasury stock" method. Performance-based restricted stock awards are included in the computation of diluted earnings per share only to the extent that the underlying performance conditions: (i) are satisfied prior to the end of the reporting period; or (ii) would be satisfied if the end of the reporting period were the end of the related performance period and the result would be dilutive under the treasury stock method. Stock awards subject to vesting or exercisability based on the achievement of market conditions are included in the computation of diluted earnings per share only when the market conditions are met.

A reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share calculations for the three and six months ended June 30, 2015 and 2014 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Earnings (loss) per share ("EPS"):				
EPS - basic and diluted:

Net income (loss)	\$13,877	\$(4,374)) \$7,039	\$(8,918)
EPS denominator (in thousands):				
Weighted average common stock outstanding - basic	33,525	32,752	33,296	32,697
Common stock equivalents: stock options and other stock-based awards (a)	—	—	—	—
Weighted average number of common stock outstanding - diluted	33,525	32,752	33,296	32,697

For the periods in which net losses are presented, the diluted weighted average number of shares of common stock outstanding did not differ from the basic weighted average number of shares of common stock outstanding because (a) the effects of any potential common stock equivalents (see Note 7 for further details on outstanding stock options, unvested restricted stock units and unvested restricted stock) were anti-dilutive and therefore not included in the calculation of the denominator of dilutive earnings per share.

The weighted average number of shares outstanding used in the computation of diluted net income (loss) per share for the three and six months ended June 30, 2015 and 2014 did not include the effect of the following potentially outstanding shares of common stock because the effect would have been anti-dilutive:

NOTE 13 – BUSINESS REORGANIZATION EXPENSES

During the first half of 2015, the Company initiated and executed certain strategic actions requiring business reorganization expenses ("2015 Exit Plan"). These strategic actions and approved business reorganization expenses were:

In February 2015, the Company's management approved the exit of operations in certain countries within Central and Eastern Europe (Ukraine, Czech Republic and Slovakia). Business reorganization expenses of up to \$855 were approved by management.

In March 2015, the Company's management approved a plan for the divestiture of the Company's US IT business (See Note 4 for further details). Business reorganization expenses of up to \$420 were approved by management. The Company completed the divestiture effective June 14, 2015.

In March 2015, the Company's management approved the exit of operations in Luxembourg. Business reorganization expenses of up to \$300 were approved by management. The Company completed the exit effective April 30, 2015.

Business exit costs associated with the 2015 Exit Plan primarily consisted of employee termination benefits and costs for elimination of contracts for certain discontinued services and locations.

The Board previously approved other reorganization plans in 2014 ("Previous Plans") to streamline the Company's support operations and included actions to reduce support functions to match them to the scale of the business, to exit underutilized properties and to eliminate contracts for certain discontinued services. These actions resulted in costs for lease termination payments, employee termination benefits and contract cancellations.

For the six months ended June 30, 2015, restructuring charges associated with these initiatives primarily included employee separation costs for 57 positions in Europe and the Americas and lease termination payments for rationalized offices in the U.S. and Europe under the 2015 Exit Plan and Previous Plans. Business reorganization expenses for the three and six months ended June 30, 2015 and 2014 by plan were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Previous Plans	\$1,621	\$1,117	\$2,156	\$1,231
2015 Exit Plan	351	—	1,159	—
Total reorganization expenses in continuing operations	\$1,972	\$1,117	\$3,315	\$1,231

The following table contains amounts for Changes in Estimate, Additional Charges, and Payments related to Previous Plans that were incurred or recovered during the six months ended June 30, 2015. The amounts in the "Changes in Estimate" and "Additional Charges" columns are classified as business reorganization expenses in the Company's Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss). Amounts in the "Payments" column represent primarily the cash payments associated with the Previous Plans. Changes in the accrued business reorganization expenses for the six months ended June 30, 2015 were as follows:

NOTE 14 – COMMITMENTS AND CONTINGENCIES

Consulting, Employment and Non-compete Agreements

The Company has entered into various consulting and employment agreements with certain key members of management. These agreements generally (i) are one year in length, (ii) contain restrictive covenants, (iii) under certain circumstances, provide for compensation and, subject to providing the Company with a release, severance payments, and (iv) are automatically renewed annually unless either party gives sufficient notice of termination.

Litigation and Complaints

The Company is subject, from time to time, to various claims, lawsuits, contracts disputes and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities arising in the ordinary course of business. The Company routinely monitors claims such as these, and records provisions for losses when the claim becomes probable and the amount due is estimable. Although the outcome of these claims cannot be determined, the Company believes that the final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were \$156 and \$376 as of June 30, 2015 and December 31, 2014, respectively.

Potential Costs Associated Upon Termination

The Company has incurred compensation and benefits obligations to its former Chairman and Chief Executive Officer, Manuel Marquez, under his employment agreement in connection with the Company providing Mr. Marquez notice of non-renewal of his employment agreement, which is treated as a termination of his employment without cause. The Company has accrued \$665 as of June 30, 2015 in connection with compensation and benefits Mr. Marquez is entitled to upon a termination without cause. Mr. Marquez does not agree with this treatment of compensation and benefits under his employment agreement and has requested additional amounts of up to approximately \$2,000. The Company does not agree with Mr. Marquez's interpretation of the employment agreement and intends to vigorously defend against any claim for additional amounts.

Asset Retirement Obligations

The Company has certain asset retirement obligations that are primarily the result of legal obligations for the removal of leasehold improvements and restoration of premises to their original condition upon termination of leases. The asset retirement obligations are included under the caption "Other non-current liabilities" in the Condensed Consolidated Balance Sheets. The Company's asset retirement obligations that are included in the Condensed Consolidated Balance Sheets as of June 30, 2015 and December 31, 2014 were as follows:

	June 30, 2015	December 31, 2014
Total asset retirement obligations	\$2,223	\$2,461

NOTE 15 – CREDIT AGREEMENTS

Receivables Finance Agreement with Lloyds Bank Commercial Finance Limited and Lloyds Bank PLC

On August 1, 2014, the Company's U.K. subsidiary ("U.K. Borrower") entered into a receivables finance agreement for an asset-based lending funding facility (the "Lloyds Agreement") with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited (together, "Lloyds"). The Lloyds Agreement provides the U.K. Borrower with the ability to borrow up to \$23,564 (£15,000). Extensions of credit are based on a percentage of the eligible accounts receivable less required reserves from the Company's U.K. operations. The initial term is two years with renewal periods every three months thereafter. Borrowings under this facility are secured by substantially all of the assets of the U.K. Borrower.

The credit facility under the Lloyds Agreement contains two tranches. The first tranche is a revolving facility based on the billed temporary contracting and permanent recruitment activities in the U.K. operation ("Lloyds Tranche A"). The borrowing limit of Lloyds Tranche A is \$18,851 (£12,000) based on 83% of eligible billed temporary contracting and permanent recruitment receivables. The second tranche is a revolving facility that is based on the unbilled work-in-progress (as defined under the receivables finance agreement) activities in the Company's U.K. operations ("Lloyds Tranche B"). The borrowing limit of Lloyds Tranche B is \$4,713 (£3,000) based on 75% of eligible work-in-progress from temporary contracting and 25% of eligible work-in-progress from permanent recruitment activities. For both tranches, borrowings may be made with an interest rate based on a base rate as determined by Lloyds Bank PLC, based on the Bank of England base rate, plus 1.75%.

The Lloyds Agreement contains various restrictions and covenants including (1) that true credit note dilution may not exceed 5%, measured at audit on a regular basis; (2) debt turn may not exceed 55 days over a three month rolling period; (3) dividends by the U.K. Borrower to the Company are restricted to the value of post-tax profits; and (4) at the end of each month, there must be a minimum excess availability of \$3,142 (£2,000).

The details of the Lloyds Agreement as of June 30, 2015 were as follows:

	June 30,	
	2015	
Borrowing capacity	\$13,044	
Less: outstanding borrowing	(1,340)
Additional borrowing availability	\$11,704	
Interest rates on outstanding borrowing	2.25	%

The Company was in compliance with all financial covenants under the Lloyds Agreement as of June 30, 2015.

Loan and Security Agreement with Siena Lending Group LLC

Upon the sale of US IT business, the Company exercised its right to terminate its loan and security agreement with Siena Lending Group LLC ("Siena"). The Company paid Siena a termination fee of \$161 recognized as a reduction to the gain on sale of the US IT business and \$417 of cash to secure an outstanding letter of credit for a real estate lease. Siena will return the restricted cash to the Company once the outstanding letter of credit is returned to Siena.

Credit Agreement with Westpac Banking Corporation

On November 29, 2011, certain Australian and New Zealand subsidiaries of the Company entered into a facility agreement with Westpac Banking Corporation and Westpac New Zealand Limited (collectively, "Westpac"). On

December 19, 2013, the Company and certain of its Australian and New Zealand subsidiaries entered into a Deed of Variation to the facility agreement to amend certain terms and conditions of the facility agreement. On December 2, 2014, the Company and certain Australian and New Zealand subsidiaries entered into a Third Deed of Variation to amend certain terms and conditions of the facility agreement (as amended, the "Facility Agreement").

The Facility Agreement provides three tranches: (1) an invoice discounting facility of up to \$7,708 (AUD10,000) ("Tranche A") for an Australian subsidiary of the Company, the availability under which facility is based on an agreed percentage of eligible accounts receivable; (2) an overdraft facility of up to \$1,353 (NZD2,000) ("Tranche B") for a New

Zealand subsidiary of the Company; and (3) a financial guarantee facility of up to \$3,854 (AUD5,000) ("Tranche C") for the Australian subsidiary.

The Facility Agreement does not have a stated maturity date and can be terminated by Westpac upon 90 days written notice. Borrowings under Tranche A may be made with an interest rate based on the Invoice Finance 30-day Bank Bill Rate (as defined in the Facility Agreement) plus a margin of 1.10%. Borrowings under Tranche B may be made with an interest rate based on the Commercial Lending Rate (as defined in the Facility Agreement) plus a margin of 1.83%. Each of Tranche A and Tranche B bears a fee, payable monthly, equal to 1.50% and 0.96%, respectively, of the size of Westpac's commitment under such tranche. Borrowings under Tranche C may be made incurring a fee equal to 2.10% of the face value of the financial guarantee requested. Amounts owing under the Facility Agreement are secured by substantially all of the assets of the Australian subsidiary, its Australian parent company and the New Zealand subsidiary (collectively, the "Obligors") and certain of their subsidiaries.

The details of the Facility Agreement as of June 30, 2015 were as follows:

	June 30, 2015

Financial guarantee capacity	\$3,854	
Less: outstanding financial guarantee requested	(2,369)
Additional availability for financial guarantee	\$1,485	
Interest rates on financial guarantee requested	2.10	%

The Facility Agreement contains various restrictions and covenants applicable to the Obligors and certain of their subsidiaries, including: (a) a requirement that the Obligors maintain (1) a minimum Tangible Net Worth (as defined in the Facility Agreement) as of the last day of each calendar quarter of not less than the higher of 85% of the Tangible Net Worth as of the last day of the previous calendar year and \$13,489 (AUD17,500); (2) a minimum Fixed Charge Coverage Ratio (as defined in the Facility Agreement) of 1.5x; and (3) a maximum Borrowing Base Ratio (as defined in the Facility Agreement) as of the last day of each calendar quarter of not more than 0.8; and (b) a limitation on certain intercompany payments with permitted payments outside the Obligor group restricted to a defined amount derived from the net profits of the Obligors and their subsidiaries.

The Company matches clients and candidates to address client needs on a part time, full time and interim basis. Part of that expertise is derived from research on hiring trends and the Company's clients' current successes and challenges with their staff. This research has helped enhance the Company's understanding about the number of new hires that do not meet its clients' long-term goals, the reasons why, and the resulting costs to the Company's clients. With operations in 13 countries, and relationships with specialized professionals around the globe, the Company brings a strong ability to match talent with opportunities by assessing, recruiting, developing and engaging the best and brightest people for the Company's clients. The Company combines broad geographic presence, world-class talent solutions and a tailored, consultative approach to help businesses and professionals achieve maximum performance. currency translation losses to be transferred to the statement of operations from accumulated other comprehensive income was less than previously estimated. As such, we recognized a gain on the Netherlands Business Sale as compared to the Company's previously reported estimate of a break even or loss of \$1,000. See Note 4 to the Condensed Consolidated Financial Statements for additional information.

On June 15, 2015, the Company completed the sale of its Hudson Information Technology (US) business (the "US IT business") for \$17.0 million in cash. The Company retained approximately \$3.0 million in net working capital associated with the US IT business. The Company recognized a gain on sale of \$15.9 million, net of closing and other direct transaction costs. See Note 4 to the Condensed Consolidated Financial Statements for additional information.

In February 2015, the Company's management approved the exit of operations in certain countries within Central and Eastern Europe (Ukraine, Czech Republic and Slovakia). In the quarter, the Company deemed the liquidation of those Central and Eastern Europe businesses to be substantially complete. As such, under ASC 830, "Foreign Currency Matters" the Company transferred \$1.2 million of accumulated foreign currency translation gains from accumulated other comprehensive income to the statement of operations within gain on sale and exit of businesses. See Note 4 to the Condensed Consolidated Financial Statements for additional information.

Discontinued Operations

During 2014, the Company completed the sale of substantially all of the assets and certain liabilities of the Legal eDiscovery business in the U.S. and U.K. to Document Technologies, LLC and DTI of London Limited. In addition, the Company ceased its operations in Sweden within the Hudson Europe segment. The results of these operations have been reclassified to discontinued operations for all periods presented and have been excluded from continuing operations and from segment results for all periods presented in accordance with the provisions of ASC 205-20-45 "Reporting Discontinued Operations." See Note 5 to the Condensed Consolidated Financial Statements for additional information.

The current year divestitures of businesses through sale or exit as discussed in the "Strategic Actions" section above do not qualify for discontinued operations treatment and, as such, these operations remain in continuing operations for all periods presented.

Current Market Conditions

Economic conditions in most of the world's major markets remain mixed. Conditions in Europe have shown improvement with GDP growth in most of the major markets, as well as forecasted GDP growth for the remainder of 2015. However, continued uncertainty exists surrounding the impact that Greece may have on the European economy. Australia faces a slow growth outlook for remainder of 2015, while the growth outlook for Asia is uncertain given the current weakness in China's stock market. The Company closely monitors the economic environment and business climate in its markets and responds accordingly. At this time, the Company is unable to accurately predict the outcome of these events or changes in general economic conditions and their effect on the demand for the Company's services.

Financial Performance

The Company achieved mixed financial performance for the second quarter 2015 in most of the major markets in which it operates. On a constant currency basis, for the three months ended June 30, 2015, revenue and gross margin declined by \$9.1 million and \$2.2 million, or 6.9% and 4.2%, respectively, compared to the same period in 2014. A primary driver of the decrease was attributable to the current year divestitures of the Netherlands, US IT, Luxembourg and Central and Eastern Europe businesses. The following table reconciles the change in reported revenue and gross margin for the quarter:

	Three Months Ended June 30, 2015

Index

In addition to the impact of the divested businesses detailed above, the Company experienced an overall increase in its retained businesses for revenue and gross margin in the current quarter on a constant currency basis. This was driven by increases in Asia Pacific revenue and gross margin of \$2.0 million and \$2.4 million, respectively, as compared to the same period in 2014, as the Company continues to see strong recruitment results in this region. These increases were offset by current period revenue and gross margin declines in the U.K. On a constant currency basis, for the three months ended June 30, 2015 the U.K. experienced declines of \$1.2 million and \$2.3 million in revenue and gross margin, respectively, compared to the same period in 2014 due to continued softness in permanent and temporary recruitment activities.

In addition to the divested business impact on the current period, other significant items impacting the results were as follows:

The results for the second quarter include accelerated stock-based compensation expenses of \$2.5 million incurred as a result of the Company's change in control at the board level. The Company's stock plan agreements provide that a change in control of the Company will occur if, among other things, individuals who were directors as of the date of the agreement and any new director whose appointment or election was approved or recommended by a vote of at least two-thirds of the directors then in office who were either directors on the date of the agreement or whose appointment or election was previously so approved or recommended (each, a "continuing director") cease to constitute a majority of the Company's directors. A change in control occurred as of the Company's 2015 annual meeting of stockholders on June 15, 2015 under these agreements because continuing directors ceased to constitute a majority of our directors.

As noted above, the Company completed a number of strategic initiatives in the second quarter which had a significant impact on the Company's earnings. The Company recorded a gain of \$20.0 million in the statement of operations within "Gain on sale and exit of businesses" related to the divestitures of the Netherlands, Luxembourg, US IT and Central and Eastern Europe businesses.

Constant Currency

The Company operates on a global basis, with the majority of its gross margin generated outside of the U.S. Accordingly, fluctuations in foreign currency exchange rates can affect the Company's results of operations. For the discussion of reportable segment results of operations, the Company uses constant currency information. Constant currency compares financial results between periods as if exchange rates had remained constant period-over-period. The Company defines the term “constant currency” to mean that financial data for a previously reported period are translated into U.S. dollars using the same foreign currency exchange rates that were used to translate financial data for the current period. The Company’s management reviews and analyzes business results in constant currency and believes these results better represent the Company’s underlying business trends. Changes in foreign currency exchange rates generally impact only reported earnings.

Changes in revenue, gross margin, SG&A and Non-Op, business reorganization expenses, operating income (loss), net income (loss) and EBITDA (loss) from continuing operations include the effect of changes in foreign currency exchange rates. The tables below summarize the impact of foreign currency exchange adjustments on the Company’s operating results for the three and six months ended June 30, 2015 and 2014.

SG&A and Non-Op is a measure that management uses to evaluate the segments' expenses, which include the following captions on the Condensed Consolidated Statements of Operations and Other Comprehensive Income (a) (Loss): Selling, general and administrative expenses; and other income (expense), net. Corporate management service allocations are included in the segments' other income (expense).

(b) See EBITDA reconciliation in the following section.

Use of EBITDA (Non-GAAP measure)

Management believes EBITDA is a meaningful indicator of the Company's performance that provides useful information to investors regarding the Company's financial condition and results of operations. Management also considers EBITDA to be the best indicator of operating performance and most comparable measure across the regions in which the Company operates. Management also uses this measure to evaluate capital needs and working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income, or net income prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") or as a measure of the Company's profitability. EBITDA is derived from net income (loss) adjusted for the provision for (benefit from) income taxes, interest expense (income), and depreciation and amortization.

The reconciliation of EBITDA to the most directly comparable GAAP financial measure is provided in the table below:

Temporary contracting gross margin and gross margin as a percentage of revenue are shown to provide additional information regarding the Company's ability to manage its cost structure and to provide further comparability relative to the Company's peers. Temporary contracting gross margin is derived by deducting the direct costs of temporary contracting from temporary contracting revenue. The Company's calculation of gross margin may differ from that of other companies. See Note 6 to the Condensed Consolidated Financial Statements for direct costs and gross margin information.

Hudson Americas Revenue	\$10.2	\$13.2	\$(3.0)	(22.6)%	\$21.2	\$25.4	\$(4.2)	(16.7)%

For the three months ended June 30, 2015, temporary contracting revenue decreased \$3.3 million, or 33.1%, as compared to the same period in 2014. The decrease in temporary contracting revenue was directly attributable to the Company's US IT business as a result of reduced business development activities as the business was prepared for disposal and the timing of the divestiture in mid-June 2015. Permanent recruitment revenue increased \$0.3 million for the three months ended June 30, 2015, or 9.7%, as compared to the same period in 2014. The growth in permanent recruitment was primarily due to continued growth in the RPO practice.

For the six months ended June 30, 2015, temporary contracting revenue decreased \$4.9 million, or 24.9%, as compared to the same period in 2014. For the six months ended June 30, 2015, permanent recruitment revenue increased \$0.6 million, or 10.8%, as compared to the same period in 2014. The changes in temporary and permanent recruitment are consistent with the explanations above for the three months ended June 30, 2015.

For the three months ended June 30, 2015, temporary contracting gross margin decreased \$0.6 million, or 26.0%, as compared to the same period in 2014. Temporary contracting gross margin decreased due to the declines in the Company's US IT business as a result of pre-sale activity and the timing of the divestiture. Permanent recruitment gross margin increased \$0.3 million, or 8.5%, as compared to the same period in 2014. The increase in permanent recruitment gross margin was driven by the RPO practice, which increased \$0.4 million, or 13.8%, as compared to the

same period in 2014.

For the six months ended June 30, 2015, temporary contracting gross margin decreased \$0.7 million, or 17.5%, as compared to the same period in 2014 due to the declines in the US IT business as a result of softer pre-sale activity and the timing of the divestiture. Permanent recruitment gross margin increased \$0.5 million, or 9.4%, as compared to the same period in 2014. The increase in permanent recruitment gross margin was driven by the RPO practice, which increased \$0.8 million, or 15.6%, as compared to the same period in 2014.

For the three months ended June 30, 2015, total gross margin as a percentage of revenue was 49.9%, as compared to 41.0% for the same period in 2014. The improvement was principally due to an increase in higher margin RPO business as

compared to the same period in 2014. For the six months ended June 30, 2015, total gross margin as a percentage of revenue was 45.8%, as compared to 39.0% for the same period in 2014. The improvement was principally due to a relative increase in higher margin RPO business as compared to the same period in 2014.

Excluding the impact of discontinued operations, for the three and six months ended June 30, 2015 SG&A and Non-Op decreased \$1.5 million, or 19.6%, and \$4.7 million, or 28.4%, respectively as the Company continued to eliminate stranded costs associated with the divestiture of the Legal eDiscovery business.

For the six months ended June 30, 2015, gross margin in Continental Europe decreased \$1.9 million, or 7.7%, as compared to the same period in 2014. Temporary contracting gross margin as a percentage of revenue was 13.2% for the three months ended June 30, 2015, as compared to 16.2% for the same period in 2014. Temporary contracting gross margin as a percentage of revenue was 14.4% for the six months ended June 30, 2015 as compared to 16.0% for the same period in 2014. For the six months ended June 30, 2015, depreciation and amortization expense was \$2.1 million, as compared to \$2.8 million for the same period in 2014, a decrease of \$0.7 million, or 24.8%. The decrease was due to lower level of capital expenditures in 2015 as compared to 2014.

Interest Expense, Net of Interest Income

Interest expense was \$0.4 million for the three months ended June 30, 2015, as compared to \$0.2 million for the same period in and 2014. For the six months ended June 30, 2015 interest expense was \$0.4 million as compared to \$0.3 million for the same period in 2014.

Provision for (Benefit from) Income Taxes

The provision for income taxes for the six months ended June 30, 2015 was \$0.3 million on \$6.5 million of pre-tax income from continuing operations, as compared to a provision for income tax of \$0.6 million on \$7.1 million of pre-tax loss from continuing operations for the same period in 2014. The effective tax rate for the six months ended June 30, 2015 was positive 5.1%, as compared to negative 8.4% for the same period in 2014. The difference in the effective tax rate for six months ended June 30, 2015 from the U.S. Federal statutory rate of 35% was primarily due to the Company's inability to recognize tax benefits on losses in the U.S. and the provision recorded for certain foreign jurisdictions where the Company has positive earnings. For the six months ended June 30, 2014, the effective tax rate

difference from the U.S. Federal statutory rate of 35% was primarily attributable to the Company's inability to benefit from losses in the U.S. and certain foreign jurisdictions.

Net Income (Loss)

Net income was \$13.9 million for the three months ended June 30, 2015, as compared to net loss of \$4.4 million for the same period in 2014, an increase in net income of \$18.3 million. The increase in net income was primarily due to \$21.3 million recorded related to gains associated with the sale and liquidation of businesses including discontinued operations for the three months ended June 30, 2015. Basic and diluted income per share were \$0.41 for the three months ended June 30, 2015, as compared to basic and diluted loss of \$0.13 for the same period in 2014.

Index

For the six months ended June 30, 2015, net income was \$7.0 million as compared to net loss of \$8.9 million for the same period in 2014. The increase in net income was primarily due to \$21.4 million recorded related to gains associated with the sale and exit of businesses including discontinued operations for the six months ended June 30, 2015. Basic and diluted income per share were \$0.21 for the six months ended June 30, 2015, as compared to basic and diluted loss per share of \$0.27 for the same period in 2014.

The increase in net cash used in operating activities resulted principally from a decrease in accounts payable and accrued expenses. For the six months ended June 30, 2015, net cash provided by operating activities from discontinued operations was \$0.9 million, as compared to \$5.3 million of net cash used in operating activities from discontinued operations for the same period in 2014.

Cash Flows from Investing Activities

For the six months ended June 30, 2015, net cash provided by investing activities was \$23.4 million, as compared to net cash used in investing activities of \$2.7 million for the same period in 2014, an increase in net cash provided by investing activities of \$26.1 million. The increase in net cash provided by investing activities was due to the sales of the US IT and Netherlands businesses in 2015.

Cash Flows from Financing Activities

For the six months ended June 30, 2015, net cash provided by financing activities was \$1.1 million, as compared to net cash provided by financing activities of \$1.3 million for the same period in 2014, a decrease in net cash provided by financing activities of \$0.2 million. The decrease in net cash provided by financing activities was primarily attributable to net borrowings offset by repayments of capital lease obligations in 2015 as compared to the same period in 2014.

Credit Agreements

Receivables Finance Agreement with Lloyds Bank Commercial Finance Limited and Lloyds Bank PLC

On August 1, 2014, the Company's U.K. subsidiary ("U.K. Borrower") entered into a receivables finance agreement for an asset-based lending funding facility (the "Lloyds Agreement") with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited (together, "Lloyds"). The Lloyds Agreement provides the U.K. Borrower with the ability to borrow up to \$23.6 million (£15.0 million). Extensions of credit are based on a percentage of the eligible accounts receivable less required reserves from the Company's U.K. operations. The initial term is two years with renewal periods every three months thereafter. Borrowings under this facility are secured by substantially all of the assets of the U.K. Borrower.

The credit facility under the Lloyds Agreement contains two tranches. The first tranche is a revolving facility based on the billed temporary contracting and permanent recruitment activities in the U.K. operation ("Lloyds Tranche A"). The borrowing limit of Lloyds Tranche A is \$18.9 million (£12.0 million) based on 83% of eligible billed temporary contracting and permanent recruitment receivables. The second tranche is a revolving facility that is based on the unbilled work-in-progress (as defined under the receivables finance agreement) activities in the Company's U.K. operations ("Lloyds Tranche B"). The borrowing limit of Lloyds Tranche B is \$4.7 million (£3.0 million) based on

75% of eligible work-in-progress from temporary contracting and 25% of eligible work-in-progress from permanent recruitment activities. For both tranches, borrowings may be made with an interest rate based on a base rate as determined by Lloyds Bank PLC, based on the Bank of England base rate, plus 1.75%.

The details of the Lloyds Agreement as of June 30, 2015 were as follows:

(In millions)	June 30, 2015	
Borrowing capacity	\$13.0	
Less: outstanding borrowing	(1.3)
Additional borrowing availability	\$11.7	
Interest rates on outstanding borrowing	2.25	%

The Company was in compliance with all financial covenants under the Lloyds Agreement as of June 30, 2015.

Loan and Security Agreement with Siena Lending Group LLC

Upon the sale of US IT business, the Company exercised its right to terminate its loan and security agreement with Siena Lending Group LLC ("Siena"). The Company paid Siena a termination fee of \$0.2 million recognized as a reduction to the gain on sale of US IT and \$0.4 million of cash to secure an outstanding letter of credit for a real estate lease. Siena will return the restricted cash to the Company once the outstanding letter of credit is returned to Siena.

Credit Agreement with Westpac Banking Corporation

On November 29, 2011, certain Australian and New Zealand subsidiaries of the Company entered into a facility agreement with Westpac Banking Corporation and Westpac New Zealand Limited (collectively, "Westpac"). On September 30, 2013, the Company and certain of its Australian and New Zealand subsidiaries entered into a waiver letter to waive compliance with a financial covenant contained in the facility agreement at the September 30, 2013 and December 31, 2013 testing dates, and on December 19, 2013, the Company and certain of its Australian and New Zealand subsidiaries entered into a Deed of Variation to the facility agreement to amend certain terms and conditions of the facility agreement. On December 2, 2014, the Company and certain Australian and New Zealand subsidiaries entered into a Third Deed of Variation to amend certain terms and conditions of the facility agreement (as amended, the "Facility Agreement").

The Facility Agreement provides three tranches: (a) an invoice discounting facility of up to \$7.7 million (AUD10 million) ("Tranche A") for an Australian subsidiary of the Company, which is based on an agreed percentage of eligible accounts receivable; (b) an overdraft facility of up to \$1.4 million (NZD2 million) ("Tranche B") for a New Zealand subsidiary of the Company; and (c) a financial guarantee facility of up to \$3.9 million (AUD5 million) ("Tranche C") for the Australian subsidiary.

The Facility Agreement does not have a stated maturity date and can be terminated by Westpac upon 90 days written notice. Borrowings under Tranche A may be made with an interest rate based on the Invoice Finance 30-day Bank Bill Rate (as defined in the Facility Agreement) plus a margin of 1.10%. Borrowings under Tranche B may be made with an interest rate based on the Commercial Lending Rate (as defined in the Facility Agreement) plus a margin of 1.83%. Each of Tranche A and Tranche B bears a fee, payable monthly, equal to 1.50% and 0.96%, respectively, of the size of Westpac's commitment under such tranche. Borrowings under Tranche C may be made incurring a fee equal to 2.10% of the face value of the financial guarantee requested. Amounts owing under the Facility Agreement are secured by substantially all of the assets of the Australian subsidiary, its Australian parent company and the New Zealand subsidiary (collectively, the "Obligors") and certain of their subsidiaries.

The Company was in compliance with all financial covenants under the Facility Agreement as of June 30, 2015.

Other Credit Agreements

The Company also has lending arrangements with local banks through its subsidiaries in the Belgium and Singapore. The Belgium subsidiary has a \$1.1 million (€1 million) overdraft facility. Borrowings under the Belgium lending arrangements may be made with an interest rate based on the one-month EURIBOR plus a margin, and was 2.52% as of June 30, 2015. The lending arrangement in Belgium has no expiration date and can be terminated with a 15-day notice period. In Singapore, the Company's subsidiary can borrow up to \$0.4 million (SGD0.5 million) for working capital purposes. Interest on borrowings under the Singapore overdraft facility is based on the Singapore Prime Rate plus a margin of 1.75%, and it was 6.00% on June 30, 2015. The Singapore overdraft facility expires annually each August, but can be renewed for one-year periods at that time. There were no outstanding borrowings under the Belgium and Singapore lending agreements as of June 30, 2015.

The average aggregate monthly outstanding borrowings for the credit agreements above was \$3.5 million for the six months ended June 30, 2015. The weighted average interest rate on all outstanding borrowings for the six months ended June 30, 2015 was 3.54%.

The Company continues to use the aforementioned credit to support its ongoing global working capital requirements, capital expenditures and other corporate purposes and to support letters of credit. Letters of credit and bank guarantees are used primarily to support office leases.

Liquidity Outlook

As of June 30, 2015, the Company had cash and cash equivalents on hand of \$34.8 million supplemented by additional borrowing availability of \$22.3 million of additional borrowing availability under the Lloyds Agreement, the Facility Agreement and other lending arrangements in Belgium and Singapore. The Company believes that it has sufficient liquidity to satisfy its needs through at least the next 12 months, based on the Company's total liquidity as of June 30, 2015.

- 47 -

Index

The Company's near-term cash requirements during 2015 are primarily related to funding operations, restructuring actions and capital expenditures. For the full year 2015, the Company expects to make capital expenditures of approximately \$3.0 million to \$4.0 million, which excludes landlord-funded leasehold improvements, and payments in connection with current restructuring actions of \$4.0 million to \$5.0 million. The Company is closely managing its capital spending and will perform capital additions where economically prudent, while continuing to invest strategically for future growth.

As of June 30, 2015, \$18.1 million of the Company's cash and cash equivalents noted above were held in the U.S. and the remainder were held internationally, primarily in the United Kingdom (\$4.6 million), Australia (\$2.3 million), the Netherlands (\$2.3 million), Mainland China (\$2.0 million), Belgium (\$1.6 million), Switzerland (\$1.1 million), Spain (\$0.9 million) and Hong Kong (\$0.5 million). The majority of the Company's offshore cash is available to it as a source of funds, net of any tax obligations or assessments. Unrepatriated cumulative earnings of certain foreign subsidiaries are considered to be invested indefinitely outside of the United States, except where the Company is able to repatriate these earnings to the United States without a material incremental tax provision. In managing its day-to-day liquidity and its capital structure, the Company does not rely on the unrepatriated earnings as a source of funds. The Company has not provided for U.S. Federal income or foreign withholding taxes on these undistributed foreign earnings because a distribution of these foreign earnings with material incremental tax provision is unlikely to occur in the foreseeable future. It is not practicable to determine the amount of tax associated with such undistributed earnings.

The Company believes that future external market conditions remain uncertain, particularly access to credit, rates of near-term projected economic growth and levels of unemployment in the markets in which the Company operates. Due to these uncertain external market conditions, the Company cannot provide assurance that its actual cash requirements will not be greater in the future than those currently expected, especially if market conditions deteriorate substantially. If sources of liquidity are not available or if the Company cannot generate sufficient cash flow from operations, the Company could be required to obtain additional sources of funds through additional operating improvements, capital market transactions, asset sales or financing from third parties, or a combination of those sources. The Company cannot provide assurance that these additional sources of funds will be available or, if available, would have reasonable terms.

Contingencies

From time to time in the ordinary course of business, the Company is subject to compliance audits by federal, state, local and foreign government regulatory, tax and other authorities relating to a variety of regulations, including wage and hour laws, unemployment taxes, workers' compensation, immigration, and income, value-added and sales taxes. The Company is also subject to, from time to time in the ordinary course of business, various claims, lawsuits and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities. In addition, see Note 14 for a description of a potential dispute between the Company and its former Chairman and Chief Executive Officer for amounts owed under his employment agreement. Periodic events and management actions such as business reorganization initiatives can change the number and type of audits, claims, lawsuits, contract disputes or complaints asserted against the Company. Events can also change the likelihood of assertion and the behavior of third parties to reach resolution regarding such matters.

The economic circumstances in the recent past have given rise to many news reports and bulletins from clients, tax authorities and other parties about changes in their procedures for audits, payment, plans to challenge existing contracts and other such matters aimed at being more aggressive in the resolution of such matters in their own favor. The Company believes that it has appropriate procedures in place for identifying and communicating any matters of this type, whether asserted or likely to be asserted, and it evaluates its liabilities in light of the prevailing circumstances. Changes in the behavior of third parties could cause the Company to change its view of the likelihood of a claim and what might constitute a trend. In the last twelve months, the Company has seen an increase in employee disputes arising from our business reorganization initiatives. Employment laws vary in the markets in which we

operate, and in some cases, employees and former employees have extended periods during which they may bring claims against the Company.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were \$0.2 million and \$0.4 million as of June 30, 2015 and December 31, 2014, respectively. Although the outcome of these matters cannot be determined, the Company believes that none of the currently pending matters, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company conducts operations in various countries and faces both translation and transaction risks related to foreign currency exchange. For the six months ended June 30, 2015, the Company earned approximately 90% of its gross margin outside the U.S., and it collected payments in local currency and paid related operating expenses in such corresponding local currency. Revenues and expenses in foreign currencies translate into higher or lower revenues and expenses in U.S. dollars as the U.S. dollar weakens or strengthens against other currencies. Therefore, changes in exchange rates may affect our consolidated revenues and expenses (as expressed in U.S. dollars) from foreign operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at the balance sheet date. The resulting translation adjustments are recorded as a component of accumulated other comprehensive income in the stockholders' equity section of the Condensed Consolidated Balance Sheets. The translation of the foreign currency into U.S. dollars is reflected as a component of stockholders' equity and does not impact our reported net income.

As more fully described in Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations," the Company has credit agreements with Lloyds Bank PLC and Lloyds Bank Commercial Finance Limited, Westpac Banking Corporation and other credit agreements with lenders in Belgium and Singapore. The Company does not hedge the interest risk on borrowings under the credit agreements, and accordingly, it is exposed to interest rate risk on the borrowings under such credit agreements. Based on the Company's annual average borrowings in the current year, a 1% increase or decrease in interest rates on the Company's borrowings would not have a material impact on the Company's earnings.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has conducted an evaluation of the design and operation of the Company's disclosure controls and procedures, as such term is defined under Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2015.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting that occurred during the six months ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
